INTRODUCTION & METHODOLOGY

ARIZONA DEPARTMENT OF ECONOMIC SECURITY CHILD CARE MARKET RATE SURVEY

INTRODUCTION:

The Arizona Department of Economic Security (DES) was previously required, as a condition of the Federal Family Support Act of 1988, to determine market rates for child care every two years. The federal regulations for the Family Support Act stated that "...local market rates must be determined: For all political subdivisions or for alternative areas which represent reasonable local child care markets based upon their geographic proximity or common characteristics." Additionally, these rates "must be updated periodically, but no less than biennially."

These regulations further mandated that market rates be determined for different types of care (i.e., center, group home care, family home care, etc.). Furthermore, market rates must also differentiate (where applicable) among care for infants, toddlers, preschool and school age children, whether care is full or part time, and consider reductions in the cost of care for additional children in the same family.

Child care programs that were funded under the Family Support Act included Jobs Opportunity and Basic Skills (JOBS) child care, Aid to Families with Dependent Children (AFDC) related child care, Transitional Child Care (TCC) and Title IV-A At-Risk Child Care. An additional federal child care program, the Child Care and Development Block Grant (CCDBG) was established in 1990 and regulations for this program required many of the same factors to be considered when establishing a payment rate structure for child care benefits provided through the CCDBG.

In 1996 federal welfare reform legislation, the Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA), was passed and greatly changed the nature of funding for child care programs that were federally funded. Programs that were authorized and funded under the Family Support Act were repealed. However, PRWORA provided new Federal child care funds and transferred them to an amended CCDBG. The U.S. Department of Health and Human Services (DHHS) named these new combined funds the Child Care and Development Fund (CCDF) to reflect the integration of the multiple funding sources.

INTRODUCTION: (cont'd)

In July of 1998, DHHS issued final regulations (45 CFR Parts 98 and 99) for the CCDF. These regulations continued the requirement for states to conduct a child care market rate survey every two years. States must also show how their current reimbursement rates relate to market rates. The regulations also require this information be determined by a recent market rate survey and be included in a federally mandated CCDF Plan. Arizona's next CCDF Plan will become effective October 1, 2009. Information from this, Arizona's Tenth Child Care Market Rate Survey, will be included as a component of that Plan.

Below is a chronology of when Child Care Market Rate Surveys have been conducted in Arizona.

- Initial Survey - October - November 1989
- Second Survey - December 1991 - January 1992
- Third Survey - March - June 1994
- Fourth Survey - February - June 1996
- Fifth Survey - September - November 1998
- Sixth Survey - February - June 2000
- Seventh Survey- March - May 2002
- Eighth Survey - April - June 2004.
- Ninth Survey - March - June 2006
- Tenth Survey - March – June 2008

METHODOLOGY:

Federal CCDF regulations require that states develop a State Plan, which is to be submitted to the Secretary of the DHHS. The Plan shall contain a biennial local market rate survey. The preamble to the regulations indicates DHHS believes that surveys will show variations in rates among categories of child care and will also reflect sub-state variations in rates, which States must consider.

DES has designated six such sub-state areas, or districts. Each district represents a county or group of counties. The Department utilizes these districts for planning, service delivery and in conducting its field operations. Each district is an area with unique needs based upon geographic proximity or other common characteristics. They are also similar to those used by the Arizona Council of Governments. The following counties define these districts:

- District I - Maricopa
- District II - Pima
- District III - Apache, Coconino, Navajo & Yavapai
- District IV - La Paz, Mohave & Yuma
- District V - Gila & Pinal
- District VI - Cochise, Graham, Greenlee & Santa Cruz

DES contracted with the Maricopa County Office of Research and Reporting to conduct the Child Care Market Rate Survey. The Maricopa County Office of Research and Reporting is an independent credentialed organization with strong survey research skills. They are recognized by the American Association of Public Opinion Researchers and are also a member of the National Field Director's Association, which is a scientific data collection forum with members such as the U.S. Census Bureau, National Institute of Health and many major universities.

Due to the complexity of the survey, to help ensure that the most accurate data was obtained and to attain a high response rate a telephone survey methodology was used. Interviewers read a questionnaire and responses were entered into a data base. This method of surveying allowed for the collection of necessary data as reported by providers and corresponded with the need to gather complex rate information by age categories and by category of care. The Maricopa County Office of Research and Reporting conducted the market rate survey in both English and Spanish.

Consistent with past surveys, all identifiable providers were surveyed rather than selecting a random sample. The basis for this approach is because a complete census is more reliable than a sample as there is no chance of a sampling error. Additionally, in some areas of the state, obtaining a sufficiently large and representative sample is not possible.

METHODOLOGY: (cont'd)

Sources of provider names and telephone numbers which were utilized included: 1) The DES database of certified family homes that provide child care services to families eligible for child care assistance; 2) The Department of Health Services' (DHS) database of licensed child care centers (including "preschools" required to be licensed as child day care centers) and certified child care group homes; 3) Listings obtained from non-profit sponsors who approve child care homes to participate in the Arizona Department of Education's (ADE) federal Child and Adult Care Food Program (CACFP); and 4) Lists of otherwise unregulated homes registered with the state contracted Child Care Resource & Referral (CCR&R) agencies.

Initially the various sources identified 6,865 possible child care providers in the state. Providers that either were listed on more than one list, not providing care, not charging for their services, or unable to be interviewed due to invalid and non-existent telephone numbers were eliminated from this total. This resulted in a list of 5,021 childcare providers, of which 99% were interviewed.

A total of 4,980 child care providers (1,842 licensed centers, 2,447 approved family homes, 383 certified group homes and 308 unregulated homes listed with CCR&R) were interviewed for this survey. The survey was conducted between March and June 2008. As with any survey, there is a margin of error due to reasons such as the respondent's interpretations of the questions asked and their understanding of the purpose of the survey and resultant usage of the data compiled.

Prior to the start of the survey, all sources that supplied provider information were notified that they could direct any questions that came to them, regarding the survey, to DES. At the onset of each telephone interview, providers were advised that specific individual information would be kept confidential and would not be used for any purpose other than identifying local market information. Individual providers were given a telephone number, which they could use to call the surveyor back if necessary. They were also provided with a telephone number of a DES contact if they had any other questions.

The major findings of the 2008 survey are summarized on the following four pages. Specific details of this survey are found in four sets of tables, which follow the major findings. The first set is for centers, the second for approved family homes, the third for certified group homes and the fourth for unregulated homes listed with a state contracted CCR&R agency. In each set, Tables 1 and 2 address capacity and attendance reported by providers surveyed. Tables 3-6 provide market and market rate information. Tables 7 and 8 provide other related market rate considerations. Market rate information is given as: 1) The 50th percentile (the median) i.e., the rate at which at least 50% of the market is at or below and 2) The 75th percentile i.e., the rate at which at least 75% of the market is at or below.

Percentages cited in the report may not total 100% due to rounding.
