Additional Reports:

In support of the Judicial Branch's strategic agenda, the Supreme Court/Administrative Office of the Courts (AOC) provided the following domestic violence services in State Fiscal Year 2020: court policy analysts to support various committees addressing issues of domestic violence in the courts; automation trainers dedicated to teaching court staff domestic violence case processing; and computer programmers committed to make necessary updates to the statewide case management system and the AOC's public access portal. Additionally, funds were used to develop and provide domestic violence education for judges and court staff at judicial branch training offerings as well as the other multi-disciplinary domestic violence conferences. These services are addressed by multiple divisions at the AOC.

As a result of H.B. 2249 passed during the 2018 legislative session, and with grant funding secured by the Arizona Criminal Justice Commission, the AOC spearheaded the development of an integrated electronic protective order system that enables the public to prepare their petition paperwork electronically rather than physically appear at the court during business hours to complete a paper petition. The Arizona Protective Order Initiation and Notification Tool (AZPOINT) launched on January 1, 2020.

The Office of the Attorney General distributed \$2,280,000 for state mandated services for victims of crime. There is no way to report how much of these funds are used to support victims of domestic violence.
