DES CHILD CARE PROGRAMS

The Division of Child Care offers child care assistance for a portion of a 24-hour day when neither parent can provide care due to one of the below-listed eligible activities or needs.

- Low-income working families
- Teen parents enrolled in high school, GED, ESOL, or remedial education programs
- Specific education and training activities related to employment when working at least an average of 20 hours per week
- Participation in or residents of homeless or domestic violence shelters
- Individuals who are unable to care for their children due to a physical, mental, or emotional condition
- Individuals who are unavailable to care for their children due to participation in court-ordered community service or participation in a drug treatment program
- Individuals who are currently receiving full-time DES child care assistance who enroll in a full-time education or employment training program.

Child care assistance is also available for grandparents and guardians:

- When the parent of the child is not living in the same home, or
- When the parent is living in the same house, the non-parent applicant must establish legal guardianship
- When the grandparent or legal guardian is engaged in an eligible activity
- A legal guardian's income, received on behalf of the guardianship child, is the only income considered for child care assistance unless applying for their children and guardianship child.

Child care assistance is available without regard to income for the following:

- DES Cash Assistance recipients
- Grant Diversion program for job search
- TANF recipients who are employed
- Referrals from a DES Jobs Program
- Referrals from the Arizona Department of Child Safety or Tribal Child Welfare program

The eligibility requirements for the Child Care Assistance program vary. Eligibility requirements are based on family size and gross income and may require the family to pay a portion of the child care costs. Some eligible families may be placed on a waiting list in cases of limited funding.

COST OF CHILD CARE

- Child care charges are determined by each provider.
- Child care charges may vary depending on the age of your child and the type of provider you select.
- DES may pay a portion or all of the cost of child care depending on the program you are eligible for and the actual provider charges. In addition, DES may require you to pay a specific copayment.
- The Gross Monthly Income Eligibility Chart and Fee Schedule will be used to determine your copayment. Please refer to the Child Care Assistance Gross Monthly Income Eligibility Chart and Fee Schedule on the back of this brochure to see how much your daily DES-required copayment will be for each child.
- Child care charges may include registration, transportation, meals and other costs. DES does not pay for these charges.
- DES strongly recommends that you request information about child care charges from providers before selecting a provider.
- You will be responsible for charges that exceed the DES payment and are responsible for paying these to the provider.
- The DES required copayment is collected by your child care provider(s).
- If you fail to pay your DES-required copayment to your provider, you may lose Child Care Assistance.
