## **VOCATIONAL REHABILITATION (VR)**

Web site: [www.azdes.gov/rsa/blind.asp](http://www.azdes.gov/rsa/blind.asp)

The Vision for the Vocational Rehabilitation program is persons with disabilities becoming economically independent and decreasing or eliminating their need for ongoing government supports through integrated, meaningful, and sustained work.

This is achieved through a rehabilitation process which engages applicants and clients fully in actively exploring their vocational interests, abilities, capabilities and service/process options and in making choices.

The VR Program helps people with disabilities become or remain economically independent through work.
