

Arizona Department of Economic Security, Division of Developmental Disabilities
Schedule 3.4: Benchmark and Adopted Rates
Introduction

Purpose of This Schedule

Schedule 3.4 contains the rates that will be used in Fiscal Year 2005. The Schedule contains two columns of rates. The first column labeled "Benchmark Rate" contains the rates that the Division calculated through its rate setting process. The second column labeled "Adopted Rate" contains the rates that the Division adopted for the published rate schedule and these are the rates to be used for each service when billing the Division.

Arizona Department of Economic Security, Division of Developmental Disabilities
Schedule 3.4: Benchmark and Adopted Rates
Sub-Schedule 3A - Home-Based Services

Unit of Service

1. The basis of payment for all Home-Based Services except for Respite, Continuous is an hourly unit of direct service time. Direct service time is the period of time spent with or on behalf of the consumer and verified by the consumer. When billing, the Qualified Vendor should round its direct service time to the nearest 15-minute increment, as illustrated in the examples below:

- If services were provided for 65 minutes, bill for 1 hour.
- If services were provided for 68 minutes, bill for 1.25 hour.
- If services were provided for 50 minutes, bill for .75 hour.

2. If the Qualified Vendor provides respite for more than 13 hours in one day, this is considered to be Respite, Continuous. One unit of Respite, Continuous equals one day (13 or more hours in a 24-hour period) of direct service time. A Qualified Vendor billing for Respite, Continuous will bill for the appropriate number of days of service and will include the actual cumulative hours of service provided on the billing document as required by the Division.

3. In no event will more than three consumers receive the same service with a single direct service staff person at the same time.

Unit of Service for Habilitation, Individually Designed Living Arrangement

If the Qualified Vendor provides this service with a single direct service staff person to multiple consumers at the same time, the basis of payment for each consumer will be the total direct service time divided by the total number of consumers. The rate for this service will be the per unit rate:

- If one direct service staff person provides this service for one hour of direct service time to two consumers at the same time, the Qualified Vendor shall bill the Division .5 units of service for each consumer at the published rate.
- If one direct service staff person provides this service for two hours of direct service time to two consumers at the same time, the Qualified Vendor shall bill the Division one unit of service for each consumer at the published rate.

Arizona Department of Economic Security, Division of Developmental Disabilities
Schedule 3.4: Benchmark and Adopted Rates
Sub-Schedule 3B - Day Treatment Services

Unit of Service

1. The basis of payment for this service is the ratio rate. To determine the appropriate billing rate, the Qualified Vendor shall:

- a. Divide (the total billable hours consumers attended the program including hours allowed for the Adult program pursuant to item 3 below, excluding hours for behaviorally or medically intense consumers with a specially authorized rate) by (the total direct service staff hours with consumers present at the program, excluding hours related to behaviorally or medically intense consumers with a specially authorized rate); and
- b. Use the resulting quotient, which is the number of consumer billable hours per direct service staff hours and can be stated as "1: (result from step a.)" staff to consumer ratio, to find the appropriate staff to consumer ratio rate on the rate schedule.
- c. The Qualified Vendor may calculate this ratio on a daily basis using actual hours for each day or may calculate the ratio at the end of the calendar month using the actual number of hours for the entire month to determine an average ratio for the month.

For example, if the number of hours attended by all consumers in a program plus the hours allowed for the Adult program pursuant to item 3 below (excluding behaviorally or medically intense consumers with a specially authorized rate) totaled 110 hours for a day (2,200 for the month), and the number of hours worked by direct service staff when consumers were present at the program (excluding hours related to behaviorally or medically intense consumers with a specially authorized rate) totaled 28 for that day (560 for the month), then the calculation would be:

- Total billable consumer hours divided by total direct service staff hours = $110 / 28$ or $2,200 / 560 = 3.928$
- This program's ratio for this day is 1:3.928

For both consumers and direct service staff, units shall be recorded daily on the per consumer and per direct service staff basis, shall be expressed in terms of hours and shall be rounded to the nearest hour, as illustrated in examples below:

- If total hours for a consumer or direct service staff were equal to 3 hours and 5 minutes, round the total to 3 hours
- If total hours for a consumer or direct service staff were equal to 5 hours and 24 minutes, round the total to 5 hours
- If total hours for a consumer or direct service staff were equal to 5 hours and 30 minutes, round the total to 6 hours

For Day Treatment and Training, Adult:

2. Absences do not constitute a billable unit except as provided in item 3 below. An absence factor was built into the model rates. The Division will not compensate Qualified Vendors for any absences. For example, if a consumer stays in the day program for two hours in the morning, then leaves for two hours, and then returns for three hours, and all activity takes place within the same program day, total hours for this consumer shall be equal to five for that day. If the consumer permanently stops attending the Qualified Vendor's facility, then the Qualified Vendor shall notify the DDD Program Administrator/Manager or designee. The Qualified Vendor shall not bill the Division for vacancies.

3. Qualified Vendors that do not provide transportation for a particular consumer may include up to one hour per day if that consumer arrives after his/her scheduled arrival time on that day or if that consumer leaves before his/her scheduled departure time on that day. The calculation of the ratio will use the billable hours. However, if the client is absent for the entire day, the Qualified Vendor may not include hours for that day for that client in the ratio. In no event shall the Qualified Vendor submit a claim for more than the number of hours authorized for that consumer.

For Day Treatment and Training, Children:

2. The Division will not compensate Qualified Vendors for any absences. For example, if a consumer stays in the day program for two hours in the morning, then leaves for two hours, and then returns for three hours, and all activity takes place within the same program day, total hours for this consumer shall be equal to five for that day.

3. If the consumer permanently stops attending the Qualified Vendor's facility, then the Qualified Vendor shall notify the DDD Program Administrator/Manager or designee. The Qualified Vendor shall not bill the Division for vacancies.

Modified Rates

Rural*

The Division established a separate rate for this service in the rural areas of the state. This modified rate is authorized on a program basis and has a premium over the standard rate for this service. The Qualified Vendor shall bill the Division this modified rate only after it receives authorization from the DDD Program Administrator/Manager or designee. The general guideline for authorizing the modified rate for rural areas is that the potential client base of the program size has fewer than 20 consumers in a 40 mile radius.

Behaviorally or Medically Intense

The Division established a separate rate for this service to behaviorally or medically intense consumers. This modified rate is authorized on an individual consumer basis. Special authorization for these consumers is required by the DDD Program Administrator/Manager or designee. The rate is equal to the adopted Habilitation, Support rate. The hours for these consumers and the direct service staff hours shall not be considered in determining the overall program staffing ratio for the remaining consumers.

Schedule 3.4: Benchmark and Adopted Rates
Sub-Schedule 3C - Residential Services

Unit of Service

1. For the Developmental Home services, one unit of service equals one day (24 hours) of service time. A day begins at midnight and ends at 11:59 p.m. Unit of service includes transportation time spent with consumers during daily activities.
2. For the Group Home services except for Habilitation, Nursing Supported Group Home, one unit of service equals one hour (60 minutes) of direct service time. Direct service time is the period of time spent with or on behalf of the consumer and can be verified by consumer attendance records and includes transportation time spent with consumers during daily activities. This unit of service is converted to a daily rate for billing purposes.
3. For Habilitation, Nursing Supported Group Home, one unit of service equals one day (24 hours) of service time. A day begins at midnight and ends at 11:59 p.m. Unit of service includes transportation time spent with consumers during daily activities.
4. For Room and Board, All Group Home, one unit equals one day (24 hours). If the consumer is a resident at 11:59 p.m. on a given day, the Qualified Vendor may bill that day for that consumer.

Schedule 3.4: Benchmark and Adopted Rates
Sub-Schedule 3D - Professional Services

Unit of Service

1. For Home Health Aide and Nursing Services:

1.1 The basis of payment for all Services except for Nursing, Continuous is an hourly unit of direct service time. Direct service time is the period of time spent with or on behalf of the consumer and verified by the consumer. When billing, the Qualified Vendor should round its direct service time to the nearest 15-minute increment, as illustrated in the examples below:

- If services were provided for 65 minutes, bill for 1 hour.
- If services were provided for 68 minutes, bill for 1.25 hour.
- If services were provided for 50 minutes, bill for .75 hour.

1.2 If the Qualified Vendor provides nursing for more than 16 hours in one day, this is considered to be Nursing, Continuous. One unit of Nursing, Continuous equals one day (16 or more hours in a 24-hour period) of direct service. A Qualified Vendor billing for Nursing, Continuous shall bill for the appropriate number of days of service and include the actual cumulative hours of service provided on the billing document as required by the Division. If the Qualified Vendor provides nursing for 24 hours and the same nurse provides the service and is able to sleep eight hours, this is billed as Nursing, Continuous. However, if the needs of the consumer require 24 hours of awake skilled care, then this is billed as Nursing, Short Term. Skilled hourly nursing and nursing respite may be combined. However, if the primary caregivers are out of the home for 24 hours or more, the skilled hourly nursing becomes respite and is billed as Nursing, Continuous.

2. For Therapies:

2.1 One unit of evaluation equals one visit for evaluation.

2.2 The basis of payment for this service other than evaluation is an hourly unit of direct service time. Direct service time is the period of time spent with or on behalf of the consumer and verified by the consumer. When billing, the Qualified Vendor should round its direct service time to the nearest 15-minute increment, as illustrated in the examples below:

- If services were provided for 65 minutes, bill for 1 hour.
- If services were provided for 68 minutes, bill for 1.25 hour.
- If services were provided for 50 minutes, bill for 0.75 hour.

3. Except for Nursing Services, in no event will more than three consumers receive the same service with a single direct service staff person at the same time.

Rates

1. Separate urban and rural rates and procedure codes are established for transportation services. Except for "Flat Trip Rate for Regularly Scheduled Daily Transportation," urban transports are those that originate within the Phoenix and Tucson metropolitan areas. All other transports that are not "Flat Trip Rate for Regularly Scheduled Daily Transportation" are defined as rural.

2. The "Flat Trip Rate for Regularly Scheduled Daily Transportation" and exceptional transportation modified rates can only be used, and shall be the only rate used, for transportation of a consumer to a day treatment program by a Qualified Vendor that is not an independent provider.

3. Separate urban and rural rates are established for the "Flat Trip Rate for Regularly Scheduled Daily Transportation." The Qualified Vendor shall bill the Division the rural rate only after it receives authorization from the DDD Program Administrator/Manager or designee. The general guideline for authorizing the rural "Flat Trip Rate for Regularly Scheduled Daily Transportation" rate for rural areas is that the

Unit of Service

1. One unit of service equals one trip per person one way, one mile of traveled distance, or 30 minutes of waiting time.

2. Mileage reimbursement is limited to loaded mileage. Loaded mileage is the distance traveled, measured in statute miles, while a consumer is on board and being transported.

Modified Rates

The Division established separate exceptional transportation modified rate for "Flat Trip Rate for Regularly Scheduled Daily Transportation." Those situations where these modified rates are used will be considered time-limited in order to seek day programs closer to a consumer's home long term or to develop an alternative so that consumers are not transported so much of their day. Based on the premise that these are temporary or transitional modified rates, these modified rates are capped at 50 consumers statewide annually.

Single Person Modified Rate

1. This modified rate is to be used when a consumer has significant transportation needs associated with behavior needs (e.g. needs an aide to ride on the vehicle), wheelchair or other equipment needs or location and needs a single person transport.
2. The DDD Program Administer/Manager, Central Office Business Operations and Program Operations must approve the request for a single person modified rate. The request needs to include an explanation of what the consumer's support needs are and what alternatives were explored, such as vendor calls or finding routes that the consumer can share a ride with others.

2. The DDD program Administrator/Manager, Central Office Business Operations, and Program Operations must approve the request for an extensive distance modified rate. The request must include an explanation of all alternatives researched such as finding a day program closer to the consumer's home, developing a new program tailored to the consumer's needs and in their home community, etc.

Sub-Schedule 3F - Other Services

Unit of Service

1. The basis of payment for this service is an hourly unit of direct service time. Direct service time is the period of time spent with or on behalf of the consumer and verified by the consumer. When billing, the Qualified Vendor should round its direct service time to the nearest 15-minute increment, as illustrated in the examples below:

- If services were provided for 65 minutes, bill for 1 hour.
- If services were provided for 68 minutes, bill for 1.25 hour.
- If services were provided for 50 minutes, bill for .75 hour.

2. In no event will more than three consumers receive the same service with a single direct service staff person at the same time.
