

## **Celebrating Direct Support Professionals Week 2022**

Thank you for your dedication in service to individuals with intellectual and developmental disabilities!

The work of a Direct Support Professional (DSP) takes a special kind of person, one who has profound compassion and dedication for caring for some of Arizona's most vulnerable citizens.

Each day, hundreds of DSP's around the state are invested and engaged in helping individuals with physical and/or intellectual disabilities work toward independence and integration into his/her community.

Please join us in honoring these individuals for their outstanding contributions to the DES Division of Developmental Disabilities (DDD) and its members!
