Chapter 38
Emergency Communication When Transporting A Member

CHAPTER 38 – EMERGENCY COMMUNICATION WHEN TRANSPORTING A MEMBER EFFECTIVE DATE: Effective upon signature of Amendment #1 RFQVA 710000

For the health and safety of each member, the Qualified Vendor shall ensure that all methods of transportation allow for emergency communication at any time during the delivery of the service. The method of emergency communication shall be appropriate to the geographic area (e.g., two-way radio, a cellular phone, or satellite based communication system).
