VI. CHILD SUPPORT SERVICES

The Arizona Division of Child Support Services (DCSS) provides services to parents and caretakers who receive child support as well as to parents who pay child support. Some of the services include obtaining a child support order, collecting medical support for a child, and spousal support from parents who have a court order, and helping unwed parents establish paternity for their children.

Collection and Distribution of Child Support Payments
DCSS collects monies from the Noncustodial Parent (NCP) and distributes payment to the custodial parent (CP), the state, or other jurisdictions based on an established court order.

Establishment of Paternity for Children Born Out of Wedlock
Paternity must be established before any child support court order can be enforced or established. DCSS has the Hospital Paternity Program (HPP) which collaborates between DCSS and Arizona’s hospitals, birthing entities, and the Arizona Bureau of Vital Records. HPP works to provide parentage services for unmarried couples immediately following the birth of their child through an Acknowledgement of Paternity process. If paternity is uncertain, DCSS offers genetic testing. If one party is uncooperative, DCSS can refer the case to the Assistant Attorney General’s Office for a court hearing.

Establishment of Child Support Orders
Establishing a court order sets a monthly amount of money to be provided by a parent for the support of the children and/or the responsibility to provide health insurance or medical support for the children. A child support obligation may include a judgment for past child support or a judgment on unpaid child support arrears.

Modification and Enforcement of Child Support Orders
Either parent may request a modification of their existing child support order when there has been a significant and continuing change within the household, such as adding or changing health insurance, a loss of a job, disability, or an increase or decrease in income for either parent. Only an ongoing child support obligation can be modified. DCSS has the ability to take enforcement remedies to obtain a child support payment. Examples of those remedies include garnishment of wages, seizure of assets, liens placed on assets, denial of U.S. passports, tax refund intercepts, etc. DCSS also enforces child support orders from other states when the NCP resides or works in Arizona.

Locating a Noncustodial Parent
DCSS helps locate absent parents who live in Arizona, and works with other agencies to locate NCPs in other states. Local, state, and federal information is used to find where the NCP lives or works.
