In 1972, the Department of Economic Security (DES) was established by consolidating multiple state agencies to provide an integrated approach to human services.

In 2014, the Arizona Legislature created the Department of Child Safety (DCS), which officially moved Child Protective Services (CPS) out of DES and made it a stand-alone agency.

Today, DES invests approximately $4 billion annually to assist more than 2.9 million Arizonans. Our staff of more than 7,700 team members strive daily to provide timely, accurate and beneficial services to assist those in need.
Mission
The Arizona Department of Economic Security makes Arizona stronger by helping Arizonans reach their potential through temporary assistance for those in need, and care for the vulnerable.

True North
All Arizonans who qualify receive timely DES services and achieve their potential.
