Arizona Early Intervention Program (AzEIP)
is accepting referrals
during the COVID-19 crisis

Children birth through 3 years of age who meet one of the following criteria, may be considered eligible for early intervention services in Arizona:

• Developmental delay of 50% or greater in one or more areas of development.

• A diagnosed condition with a high probability of resulting in a 50% or greater developmental delay.

• Under special circumstances, children may also be determined eligible based on additional information indicating that there is a potential delay in areas that are difficult to assess with standard measures.

The initial evaluation and assessment for eligibility, and the development of the Individualized Family Service Plan (IFSP) for those eligible, must be completed within 45 days of the date that your referral is received.

Please note that due to COVID-19, AzEIP services may look different, with alternative service delivery and communication methods used such as tele-intervention, phone/video conferencing, emails, etc. However, referrals are still being processed and responded to and ongoing services are being provided as agreed upon families’ IFSP.

Anyone who is concerned about the development of a child who is between 0-3 years of age can make a referral to AzEIP by contacting our central referral agency, Raising Special Kids at:
Toll-Free: 1-888-592-0140 or Complete an online referral
