## Mission and Responsibilities of the Governor's State Rehabilitation Council

The Governor's State Rehabilitation Council mission also encompasses the Council's vision, operating principles, and goals:

### **Mission**

Serving all citizens of Arizona, the mission of the Arizona Governor's State Rehabilitation Council is to advise, evaluate and partner with the public vocational rehabilitation program in support of improving access to employment and promoting a diverse workforce statewide.

### **Vision**

The Arizona Governor's State Rehabilitation Council envisions a statewide workforce that values disability and diversity and is committed to full participation of its citizens.

### **Operating Principles**

- Serve as an ally to the public vocational rehabilitation program in structuring and conducting business in ways that reflect the social, political, historical, and economical experiences of individuals with disabilities.
- Collaborate with state and other non-government agencies to promote meaningful and sustainable employment for everyone.
- Foster a broad definition of diversity that honors and appreciates disability alongside race, ethnicity, gender, sexual orientation, and religion as an integral part of human experience.
- Promote disability discourse, awareness and involvement, honor disability culture and pride.

### **Goals**

- Advise the Vocational Rehabilitation Program in the development, implementation, evaluation and review of innovative rehabilitation services and programs.
- Support the development of public policy that improves opportunity for full participation for all citizens in the economic life of Arizona.
- Engage business and industry statewide in the creation of inclusive environments guided by the principles of universal design.
- Increase access and employment opportunities for people with disabilities through collaboration with outside agencies, councils, and community partners.
- Strengthen the VR Program through collaboration on the development of human resource infrastructure.

### **The Governor's State Rehabilitation Council functions, as defined in the Title I, Part A, Section 105 of the Federal Rehabilitation Act, are as follows:**

Review, analyze and advise the Arizona Rehabilitation Services Administration (RSA) regarding the performance of its responsibilities, particularly those related to eligibility (including order of selection); the extent and scope and effectiveness of services provided; and the functions performed by State

agencies that affect the ability of individuals with disabilities in achieving employment outcomes under Vocational Rehabilitation (VR) services.

Partner with RSA to develop, review and agree to State goals and priorities in accordance with the VR State Plan. The Council and RSA evaluate the effectiveness of the VR program and submit reports of progress to the RSA Commissioner.

Advise the RSA on activities authorized to be carried out under the Vocational Rehabilitation State Plan. Assist in the preparation of the VR State Plan, and Amendments to the plan, applications, reports, Needs Assessments, and evaluations.

Conduct a review and analysis of the effectiveness of Vocational Rehabilitation services and consumer satisfaction regarding functions performed, VR services provided, and employment outcomes achieved.

Prepare and submit an Annual Report to the Governor and the Federal U.S. Department of Education Commissioner of RSA on the status of Vocational Rehabilitation programs operated with the State of Arizona.

Coordinate activities with other disability related Councils with the State of Arizona.

Establish working relationships between RSA, the Statewide Independent Living Council, and Arizona Centers for Independent Living.

Perform other functions consistent with VR services deemed appropriate by the Council.

The mission of the State Rehabilitation Council, in partnership with the Arizona Rehabilitation Services Administration and in collaboration with disability groups, is to ensure quality vocational rehabilitation services for eligible individuals as they make informed choices to achieve employment. This mission is accomplished by reviewing programs, analyzing service delivery processes, and advising on policies and procedures.

As the SRC Chair, Scott Lindbloom has contacted several employers and Human Resources professionals to recruit more members to join the SRC, and to increase awareness of the council. To that extent, Scott also works closely with the Governor's Office of Boards and Commissions to fill vacant council positions. Scott has been instrumental in the development of a Snack Bar in the Show Low airport, which allows individuals with disabilities to obtain employment experience. Mr. Lindbloom has also collaborated with the Pioneer College to create a Behavioral Health program where individuals can earn a certificate and obtain employment. Scott continues to partner with other agencies and individuals representing different disability populations to continue the SRC's mission and goals.

## Council Committees

### Employment and Community Partnerships Committee

The goal of the **Employment and Community Partnerships Committee** is to focus on the competitive integrated employment of individuals with disabilities and the Arizona Rehabilitation Services Administration/Vocational Rehabilitation Program (AZRSA/VR). This committee advises RSA on the marketing of the VR program, and develops collaborative relationships with the community, advocacy groups, employers, and other councils as related to employment activities and initiatives.

### Executive Committee

The goal of the **Executive Committee** is to provide leadership to the SRC in furthering its mission, vision, and goals. It is composed of all SRC Committee Chairs. This committee monitors the AZRSA achievement related to the Federal Performance Measures, provides feedback and input into Corrective Action Plans, advises AZRSA on strategic plans and initiatives, and focuses on diversity efforts within AZRSA and SRC. This committee will follow up on any membership and/or recruitment efforts on behalf of the council.

### Program Review Committee

The goal of the **Program Review Committee** is to focus on the following issues as it relates to the competitive integrated employment of individuals with disabilities and the Rehabilitation Services Administration/Vocational Rehabilitation Program (RSA/VR): Youth and Transition services, the VR section of the Arizona State Workforce Development Plan, Client Satisfaction Survey data, the RSA Comprehensive System of Personnel Development, and RSA employee satisfaction.

## Arizona Vocational Rehabilitation Program Basics

The mission of the Arizona Vocational Rehabilitation Program (VR) is to work with individuals with disabilities to achieve gainful employment through the provision of comprehensive rehabilitative and employment support services in a partnership with all stakeholders. The VR Program provides a variety of specialized services to individuals who have physical, mental, and emotional impairments that create barriers to employment.

Eligibility for the VR program is determined by the following: an individual wants to become or remain economically independent through work; an individual's disability is serious enough to make it hard to get or keep a job; available services can help the individual get or keep a job; the VR Program is the only or best place to provide the individual with the help he or she may need to obtain employment.

The number of Arizonans employed because of VR Services:

FFY 2021 - 3459

FFY 2020 – 2147

FFY 2019 – 2143

The total individuals receiving VR Services by Disability:

1228 with an Auditory and Communicative impairment for 8%

5518 with an Intellectual and Learning disability for 36%

1642 with a Physical impairment for 11%

6122 with a Psychosocial impairment for 40%

927 with a Visual impairment for 6%

Grand total – 15,437

## **SRC Highlights**

### [Institution for Human Development Virtual Mini Conference](#)

SRC member, Jill Pleasant, was instrumental in the planning for the Institute for Human Development at Northern Arizona University and the Arizona Technology Access Program Virtual Academy Conference. This Evidence for Success Disability Conference was scheduled for three days in July. The conference included Arizona Representative Jennifer Longdon and Disability Advocate Diana Pastora Carson as the keynote speakers. There were 24 diverse breakout sessions focused on the most current, hottest topics in the field of Disability and Assistive Technology. The conference also included presentations from nationally recognized speakers Kelly Fonner and Mike Marotta as well as numerous regional and local experts. Topics covered include Employment, Education (K-12), AAC, American Indian Rehabilitation Service (AIVRS), Community Living, ICT Accessibility and more. There were four 75-minute sessions held each day with three concurrent sessions. The conference was well attended, and participants expressed interest in the presentation topics.

### [New Committee Chairs](#)

The Employment and Community Partnerships and Program Review Committee welcomed new Committee Chairs. Scott Lindbloom is the new Chair of the Employment and Community Partnerships Committee, and Lisa Livesay is the new Chair of the Program Review Committee. The SRC thanks Scott and Lisa for stepping into these leadership roles and is excited for the Committees' activities and collaborations with other agencies.

### [SRC Participation in Public Meetings](#)

The Department of Employment and Rehabilitation Services (DERS)/RSA Policy Unit held a public meeting for community members to review the updated VR policy on Supported Employment, which included verbiage to better align with Federal RSA regulations. SRC members participated in the public meeting and offered feedback regarding the Supported Employment policy. SRC members requested definitions for certain terms and clarification for some of the processes. SRC members also recommended additional explanations of processes to make them easier for VR staff to understand and implement.

## Client Satisfaction Survey Results SFY2021

In SFY2013, the RSA Client Satisfaction Survey was revised incorporating input from the SRC to survey clients throughout the vocational rehabilitation process. The same survey instrument was used throughout SFY2019. As part of a larger initiative to evaluate and improve customer service within the VR program, the VR Client Satisfaction survey has undergone revision and a new method of collecting and sharing survey results began on April 1, 2020. Revised survey questions are attached, and highlights of the new methodology are as follows:

- Surveys are distributed via Survey Monkey during the first week of every quarter (survey is sent via email during week 1 of the quarter and will remain open for completion throughout the quarter).
- Surveys will be sent to a randomized sample of individuals with email addresses on file with VR every quarter as follows:
  - Clients who, as of the first day of the quarter, have active VR cases in IPE development through job placement (status 10, 13, 20, and 22); and
  - Clients who, within 2 weeks prior to the start of the quarter, had their VR case closed with and without employment (status 26 and 28).
  - Survey respondents can now provide their name and contact information at the bottom of each survey if they would like to share additional information about their VR experience.
