WIOA ETPL Work Group 1/9/15

This is to confirm that we will meet via telephone this Friday (1/9) at 3 – 4 pm and again Friday (1/16) at 10 – 11 am. There is some urgency to our discussions: we will begin to collect performance data for the ETPL programs in the next few weeks, and the input from this group is very important.

Call-in number: 1-877-820-7831, code: 988813# (it's usually the same number for WIOA)

Topics for this Friday:
1. Update on performance data collection starting January 12; review of the specific data elements currently required - Jutta (see the attached screenshots from AJC, note that we cannot connect providers with UI wage data at this time)
2. What data do colleges currently collect e.g. for accreditation entity or for Dept. of Education (such as number of participants in programs, completion rate, employment rate, EO data [race, gender, age])
3. What data can colleges provide to the ETPL? (such as number of participants, number of completers, etc.)

We want to get at least started on topics 2 and 3 and will then probably continue this discussion on 1/16/15.
