

What types of Relative Child Care Services are available for DES Eligible Families?

Parents who are eligible for DES child care assistance may choose among two types of relative child care services:

- ♥ Non-Certified Relative Home Provider
- ♥ Non-Certified Relative In-Home Provider

What is a Non-Certified Relative Provider?

The Non-Certified Relative Provider (NCRP) is an adult who is related to the eligible child in one of the following ways and is willing to care for the child when parents are not available.

- ♥ Grandparent
- ♥ Great-grandparent
- ♥ Aunt
- ♥ Great-Aunt
- ♥ Uncle
- ♥ Great-Uncle
- ♥ Sibling not residing in the same household

What is the difference between an NCRP Home and In-Home Provider?

The Home Provider is an NCRP who cares for children in the NCRP's home.

The In-Home Provider is an NCRP who cares for children in the children's home.

What are the benefits of using an NCRP?

Parents know their relatives, and in return, their relatives know the children. Flexible schedules, peace of mind and personalized care in a familiar home environment are just a few of many benefits parents can gain from having a relative as a child care provider.

The DES Child Care Administration recognizes the importance of family values; therefore, we strive to allow eligible parents the option to select a relative as a child care provider to meet the needs of the family.

Note: Clients with Block Grant Protective Services (CPS) Child Care are not eligible to use an NCRP as a provider.

What are the benefits of becoming an NCRP?

- ♥ Be self-employed
- ♥ Earn extra money
- ♥ Work flexible hours at home
- ♥ Access to free child care training
