# DEPARTMENT OF CHILD SAFETY CENTRAL REGISTRY CHECKS

Target Audience - Qualified Vendors and Providers

Transmittal Date - 02/22/2021

The Arizona Department of Child Safety (DCS) is currently transitioning to the new “Guardian” information management system (formerly CHILDS). This has impacted the Division’s ability to process Central Registry checks for Qualified Vendors. DDD understands the impact this is having on the Qualified Vendor community and is working with DCS to address and remedy the issue as quickly as possible. More information will be provided once DDD and DCS have identified and implemented a solution.
