

1001 INVENTORY FOR CLIENT AND AGENCY PLANNING

REVISION DATE: 4/17/2015

EFFECTIVE DATE: January 15, 1996

The Division requires that the Inventory For Client And Agency Planning (ICAP) be completed by the Support Coordinator during intake and at redeterminations for members age 6 and over. The Support Coordinator may not delegate responsibility for completion of this evaluation to a provider or to the family. The ICAP is protected by copyright; photocopies of the response booklet may not be used in the administration of the evaluation.

The ICAP is a standardized assessment tool which provides information regarding the member's medical condition and diagnoses, motor skills, social and communication skills, personal living skills, community living skills, social and leisure activities, and problem behaviors, if any.

The information contained in the ICAP is to be used, in conjunction with the Pre-Admission Screening tool and other assessment information, to develop functional statements of need in the Planning Document and to establish the necessity of the services to be provided.

The ICAP provides scores which can be used to determine the level of supervision a member needs.

The Support Coordinator will ensure that the ICAP score for each member is entered in Focus.
