# AZNext/ASU Digital Certificate in Introduction to Health Analytics

Target Audience - Qualified Vendors and Providers

Transmittal Date - 10/7/2024

Enroll now in the AZNext Introduction to Health Analytics program offered by ASU at no cost. This course, "Making Decisions with Numbers," helps healthcare managers and staff understand data-driven decision-making. Participants will learn how to select and analyze population subsets to make accurate, informed decisions using R, a widely used open-source software. The course features real-world examples from health, business, and more. It is accessible to anyone with basic math skills (no prior R experience needed).

The program consists of two five-week modules of faculty-facilitated instruction including readings, exercises, and computing using R. A weekly two-hour online live virtual lecture including an example with its background will discuss each week's topics.

To apply, submit an [online application](#) and complete a pre-assessment to verify eligibility.
