\(^1\) The Provider Indemnity Program, better known as PIP, is an insurance program developed by the State which provides liability coverage for individual providers while caring for a State client, and acts of clients that result in damage to their property or to third parties. There is no charge to the individual provider for this coverage because PIP is funded by the State of Arizona. While PIP is not designed to meet all of the insurance needs an individual provider may require, PIP can respond to certain losses when an individual provider has been found negligent while providing necessary care to a client as part of the services which are required under the four covered programs. Each individual provider should check with his/her insurance agent to make sure that all other insurance needs are covered. Information regarding PIP may be found at: http://www.azrisk.state.az.us/userfiles/file/Provider%20Indemnity%20Program%2011_19_08.pdf
