

FFY 2017 Public Report for the Arizona Early Intervention Program

EARLY INTERVENTION PROGRAM PUBLIC REPORTING

Per 34 C.F.R. § 303.702(b)(A)(i)(A) Public Reporting: The State must report annually to the public on the performance of each Early Intervention Program located in the State on the targets in the State's performance plan as soon as practicable but no later than 120 days following the State's submission of its annual performance report. This document contains the most recently available data on each EIP in the State for FFY 2016. The following pages include an explanation of indicators, source data, time frame, and performance.

Arizona Early Intervention Program

The Arizona Department of Economic Security (ADES) is the lead agency for Part C of the Individuals with Disabilities Education Act (IDEA). The Arizona Early Intervention Program (AzEIP) is a program within the ADES Division of Developmental Disabilities (DDD) serving infants and toddlers, birth through age three, with significant developmental delays or eligible established conditions in Arizona. The following are the five participating state agencies that comprise the statewide system of Early Intervention in Arizona: the Arizona Department of Economic Security, through DDD and AzEIP, the Arizona State Schools for the Deaf and Blind (ASDB), Arizona Health Care Cost Containment Services (AHCCCS), the Department of Health Services (DHS), and the Arizona Department of Education (ADE).

AzEIP's Mission

Early intervention builds upon and provides supports and resources to assist family members and caregivers to enhance children's learning and development through everyday learning opportunities.

Key Principles of Early Intervention

The following key principles adopted by AzEIP were developed by the Workgroup on Principles and Practices in Natural Environments, OSEP TA Community of Practice: Part C Settings. (2008, March). *Agreed upon mission and key principles for providing early intervention services in natural environments.* More information is available at: <http://ectacenter.org/topics/eiservices/keyprinckeyprac.asp>.

1. Infants and toddlers learn best through everyday experiences and interactions with familiar people in familiar contexts.
2. All families, with the necessary supports and resources, can enhance their children's learning and development.
3. The primary role of a service provider in early intervention is to work with and support family members and caregivers in children's lives.
4. The early intervention process, from initial contacts through transition, must be dynamic and individualized to reflect the child's and family members' preferences, learning styles and cultural beliefs.
5. Individualized Family Service Plan (IFSP) outcomes must be functional and based on children's and families' needs and family-identified priorities.
6. The family's priorities, needs and interests are addressed most appropriately by a primary provider who represents and receives team and community support.
7. Interventions with young children and family members must be based on explicit principles, validated practices, best available research, and relevant laws and regulations.

Team-Based Early Intervention Services

Using team-based early intervention services (TBEIS), a team lead is the primary service provider in the provision of services for the child and family. The team lead has expertise relevant to support the child's needs and the outcomes on the Individualized Family Service Plan (IFSP). The team lead's focus is on collaborative coaching of families as the primary intervention strategy to implement jointly-developed, functional IFSP outcomes in natural environments with ongoing coaching and support from other team members. Other team members may support the team lead, through coaching during regular team meetings and joint visits with the family. Families participate in team meetings through in-person attendance, calling-in to the meeting, or asking the team lead to share their priorities, questions, and concerns.

Interagency Coordinating Council

As required under IDEA, Part C, the Governor of Arizona has established a State Interagency Coordinating Council for Infants and Toddlers comprised of family members, providers, state agency representatives and other community members.

The ICC advises and assists AzEIP, and its partner agencies to administer, promote, coordinate and improve early intervention for families and professionals. The purpose of the ICC is to advise and assist the Department of Economic Security, as the lead agency for early intervention in Arizona, in the following areas:

- The development and implementation of the policies that constitute the statewide system of early intervention services.
- The full participation, coordination and cooperation of all appropriate public agencies in early intervention.
- Seeking information about any federal, state or local policies that facilitate and/or impede timely service delivery and taking steps to ensure that any policy, rule or statute problems are resolved.

ICC members are appointed by the Governor. Both the application and information about the application process are available at: <http://www.azgovernor.gov/bc>. On this website, you can search for vacancies on various Boards and Commissions. The ICC is listed as "Infants and Toddlers, Interagency Coordinating Council".

Approved dates for the 2019 ICC Board Meetings

- January 18, 2019, 11:30am-2:00pm
- April 19, 2019, 11:30am-2:00pm
- August 16, 2019, 11:30am-2:00pm
- November 15, 2019, 11:30am-2:00pm

Approved dates for the 2019 ICC Board Meetings

- January 18, 2019, 9:00am-11:00am
- April 19, 2019, 9:00am-11:00am
- August 16, 2019, 9:00am-11:00am
- November 15, 2019, 9:00am-11:00am

Approved dates for the 2019 ICC Executive Committee Meetings

- April 12, 2019, 10:30am-12:00pm
- June 14, 2019, 10:30am-12:00pm
- August 9, 2019, 10:30am-12:00pm
- October 11, 2019, 10:30am-12:00pm

The current location and agenda for ICC meetings, Executive Meetings and subcommittee meetings can be found at <https://des.az.gov/interagency-coordinating-council-for-infants-and-toddlers>.

Reorganization with the Division of Developmental Disabilities

As part of the State of Arizona's continuing efforts to improve service collaboration and maximize taxpayer value in serving families, infants and toddlers with AzEIP, ADES announced the inclusion of AzEIP in DDD beginning June 1, 2018. Identifying a developmental delay or disability early in a child's life and assisting families to support infants and toddlers to help them grow and thrive is AzEIP's mission. The administrative inclusion of AzEIP and DDD is one area that will assist AzEIP to continue and improve upon current work.

AzEIP and DDD have collaborated closely to serve and support children and families for many years, and the reorganization will ultimately lead to a more streamlined and efficient, coordinated system of supports and services for eligible children and families. Although a child who is eligible for AzEIP services under Part C of IDEA will only remain eligible until the age of three, many children will also be eligible for DDD. DDD serves eligible children, families, and individuals from birth throughout their entire life. Having a continuum of services based on age, eligibility, and assessment encourages easier system navigation for families and greater collaboration with stakeholders. Over half of all AzEIP-eligible children are also eligible for DDD due to being at risk for cerebral palsy, cognitive/intellectual disabilities, autism or epilepsy, where they may continue to be eligible after age three. Others will move into public preschool programs for children with disabilities. Hundreds of children exit early intervention each year because they reach their outcomes and their developmental milestones and no longer need AzEIP's supports and services. ADES is committed to helping children and their families continue to receive the support needed and believes the reorganization of AzEIP with DDD will increase the fiscal sustainability of the program while continuing to provide the full array of services and supports to these children and families. Strengthening AzEIP's ability to coordinate care using the team-based early intervention services approach with providers who serve individuals and families has been a positive outcome of this collaboration and reorganization.

True North

In the fall of 2018, ADES embarked on the development of a True North statement and mission statements for each Division. The True North Statement for the ADES is: *All Arizonans who qualify receive timely services to achieve their potential.* The DDD Mission statement is: *Empowering Arizonans with developmental disabilities to lead self-directed, healthy and meaningful lives.* Each Division of the ADES developed Breakthrough Objectives with Annual Improvement Plans to address Timeliness, Quality, High Performing Workforce and implementing Arizona Management System (AMS) to support the True North.

AzEIP has set forth goals to continuously improve supports and services provided to eligible children and families to ensure the implementation of the ADES True North. AzEIP continues to focus on increasing the level of compliance and correction for all programs in accordance with the DES/DDD True North. Over the past year, AzEIP has made significant strides in compliance improvement and corrective actions.

Arizona Management System

AzEIP's mission is vital to the lives of the families with infants and toddlers that we serve. Because our mission is vital, we have a responsibility to become more efficient and have better quality with the work we do. The Arizona Management System (AMS) is an intentional, results-driven approach that provides the methods and tools to drive continuous improvement. Based on Lean principles, AMS is a people-centered approach, including profound respect for the people who do the work. Governor Ducey's vision to modernize and streamline state government begins with transforming the way Arizona government operates. The goal is to make Arizona the number one state in which to live, work, play, recreate, retire, visit, do business and get an education. This can only happen with a results-driven government that works at the speed of business.

AMS was implemented as a part of the way the AzEIP does business, to ensure accountability to an evidence-based and results-driven management system. AzEIP has focused on continuing to implement the principles of AMS to identify systemic issues and address barriers, streamline processes, and more efficiently connect children and their families to quality Early Intervention Programs (EIPs) utilizing evidenced-based practices. This focus aligns with the Arizona State-identified

Measurable Result (SiMR) and the implementation science approach utilized by AzEIP Staff to improve the use of evidenced-based practices by local EIPs.

The implementation of AMS has drastically improved the ability of AzEIP to track performance of all EIPs and implement improvements in processes. As a result of AMS implementation, AzEIP Staff use standard processes to identify problems, streamline processes, standardize procedures, eliminate waste, monitor and reflect on current data, and more efficiently connect children and their families to quality services. AMS has enabled AzEIP Staff to impact two major areas of concern for the program over the past year—correction of noncompliance and increasing appropriate DDD eligibility determinations to offset AzEIP costs. More information on AMS can be found at: <https://ams.az.gov/>.

Feedback from Families

Families are offered surveys at annual reviews and again upon transition out of the program. The surveys help determine the extent that families know their rights, can effectively communicate their children's needs, and help their children learn and grow. This information is reported annually as part of Federal Indicator 4 on Family Outcomes. However, families often provide individual notes regarding the quality of services they received as part of these surveys. The surveys on the following page are some of the comments taken directly from the returned surveys to AzEIP.

"I have worked with several AzEIP therapists over the years with all three of my sons. Susan Hodges surpasses all of them for these reasons: 1. She makes me believe I can take care of my child well. 2. When something isn't working out for me (from a suggestion she's given me), she never makes me feel like I failed and just approaches the situation as we need to figure out something new that will work for my family. 3. She is so knowledgeable, experienced and confident she has endless ideas. 4. I just always feel good about myself with her even when we're discussing things I'm not doing well. She's incredibly unique and gifted. I am so glad she is [my child's] therapist. I appreciate her so, so, so much. Thank you." Early Intervention Program: Arizona Cooperative Therapies

"Iman Johnson, Kaitlyn Miller and the team at UCP helped my child and our family through a very difficult time and I am forever grateful for their assistance. I know our Journey is not over, but I feel more confident with my skills and instincts as a mother because of the support of the UCP team. Iman also worked closely with my child's daycare providers and together they created a plan to help him prepare for and manage transitions at daycare and now he is thriving. I could not have asked for a better team of care givers and specialists to care for my child." Early Intervention Program United Cerebral Palsy of Central AZ

"This service has had a tremendous positive impact to our family! We are so thankful this state has this program. I hope it can continue helping more and more families. This service has given me a better understanding of my child's needs and has made me feel confident in my decisions and actions to improve my child's development. I will truly miss having Colleen come into our home, but I know she has set us up with a good foundation for the next step! Much appreciated." Early Intervention Program: Sunrise Therapy

"Our experience with Dynamite Therapy was great. Shannon (Enloe) Silvasti was an amazing therapist to work with both times our child received services. Amanda was very prompt in keeping us informed and aiding us with the process. She was thorough, kind, and a pleasure to work with. She streamlined the process of receiving services which was very helpful to myself and our family. I cannot say enough positive comments on our experience, Shannon and Amanda. We feel very lucky that this opportunity was available so that [my child] could receive services in his own home where he

was most comfortable. Thank you so much Dynamite Therapy and to the Early Intervention Program.”
 Early Intervention Program: Dynamite Therapy

“We have loved our experience with our Speech and Language Pathologist and AzEIP. Both have been wonderful with my child's needs and empowering me to help my child when they are gone. Thank you!” Early Intervention Program: Child and Family Resources

“Lauren was extremely helpful over the past year. She did a very good job explaining the program, the process, and getting me information that I needed. She was very flexible with her schedule and was always able to make time to answer my questions or meet at my house at times that were convenient for me and my children.” Early Intervention Program: RISE Early Intervention Services

“We just love everyone who has worked with our daughter. We have had a few children with AZEIP and it has always been helpful, positive, meaningful experience. Lisa Ling, Yarah Clarcey and Maggie Carbajal especially have our gratitude, but really everyone deserves appreciation. You really have fabulous team available. Progress is a bitter-sweet event in knowing my daughter is improving but ending our time with therapist.” Early Intervention Program: Northland Rural Therapy Associates

“We love Brandie. She has been with us since my 1st was 2 1/2. She helped us navigate everything that is so scary. We understand what we get to help my sons be successful.” Early Intervention Program: Southwest Human Development

Public Reporting

Per 34 C.F.R. § 303.702(b)(A)(i)(A) Public Reporting: The State must report annually to the public on the performance of each EIP located in the State on the targets in the State’s performance plan as soon as practicable but no later than 120 days following the State’s submission of its annual performance report. This document contains the most recently available data on each EIP in the State for FFY 2017. The following pages include an explanation of indicators, source data, timeframe, and performance. To streamline reporting this year, AzEIP has included each EIP’s annual determination in the program’s performance profile for each program continuing on to provide services in the next federal fiscal year.

Statewide Performance Rate

The following table includes an explanation of indicators, source of data, timeframe, state targets and state performance rate for yearly, statewide data for FFY 2017. Additional information on statewide performance on federal indicators can also be found in the State Performance Plan/Annual Performance Plan posted at: <https://des.az.gov/services/disabilities/developmental-infant/azeip-publications-and-reports>.

Early Intervention Program Comparisons to the Target

The following graphs compare each EIP to the statewide data and to the target for federal indicators. There are significant differences in numbers of children served in various regions. The data in the graphs represents the EIP data in relation to the target over the course of FFY 2017. Federal Indicator 9, Resolution Sessions, does not contain a program comparison graph as AzEIP has not adopted Part B resolution procedures so this federal indicator is not applicable. Federal Indicator 10, Mediation, does not contain a program comparison graph as AzEIP had no requests for mediation for FFY 2017.

Federal Indicator 1: Timely Service Delivery

Yearly data is not available for all programs for federal indicator 1, Timely Service Delivery. The data in the graph below represent EIPs in the FFY 2017 monitoring cycle that were required to submit data as part of a self-report on timely services followed by file validation from the AzEIP office. Data reported includes files for all children with initial IFSPs between April 1, 2018 and June 30, 2018.

Indicator 1: Timely Services
Percent of infants/toddlers who receive the early intervention services on their IFSPs in a timely manner

Federal Indicator 2: Settings

Indicator 2: Settings

Percent of infants/toddlers with IFSPs primarily receiving services in the home or community-based settings

Indicator 3A, Summary Statement 1: Child Outcomes

Percent of infants/toddlers with IFSPs demonstrating substantial increase in positive social-emotional skills

Indicator 3A, Summary Statement 2: Child Outcomes

Percent of infants/toddlers with IFSPs within age expectation for positive social-emotional skills

Indicator 3B, Summary Statement 1: Child Outcomes

Percent of infants/toddlers with IFSPs demonstrating substantial increase in acquisition and use of knowledge and skills

Indicator 3B, Summary Statement 2: Child Outcomes

Percent of infants/toddlers with IFSPs within age expectation for acquisition and use of knowledge and skills

Indicator 3C, Summary Statement 1: Child Outcomes

Percent of infants/toddlers with IFSPs demonstrating substantial increase in use of appropriate behaviors to meet their needs

Indicator 3C, Summary Statement 2: Child Outcomes

Percent of infants/toddlers with IFSPs within age expectations for use of appropriate behaviors to meet their needs

Federal Indicator 4: Family Outcomes

Indicator 4A: Family Outcomes

Percent of families reporting that services helped their family know their rights

Indicator 4B: Family Outcomes

Percent of families reporting that services helped them effectively communicate child's needs

Indicator 4C: Family Outcomes

Percent of families reporting that services helped their child develop and learn

Federal Indicator 7: Timeliness of IFSP also known as 45-day Timeline

Indicator 7: Timelines of IFSPs

Percent of infants/toddlers with IFSPs with eligibility decision, assessment, and initial IFSP within 45-day timeline

Federal Indicator 8: Transition Activities

Indicator 8A: Transition Planning Meeting Percent of infants/toddlers exiting with timely transition planning and documentation of the transition steps on the IFSP

Indicator 8B: Public Education Agency Referral

Percent of infants/toddlers exiting with timely notification to the local education agency and state education agency

Indicator 8C: Transition Conference

Percent of infants/toddlers exiting with a timely transition conference

Program Specific Performance Profiles

The tables on the following pages include the yearly performance rate compared to the target for each local Early Intervention Program serving families in Arizona for FFY 2017. Yearly data is not available for all programs for federal indicator 1, Timely Service Delivery. The data in the tables on the following pages represent EIPs in the FFY 2017 monitoring cycle that were required to submit data as part of a self-report on timely services followed by file validation from the AzEIP office. Federal indicator 9, Resolution Sessions, is not included on the EIP tables as AzEIP has not adopted Part B resolution procedures so this federal indicator is not applicable. Federal indicator 10, Mediation, is also not included on the tables as AzEIP had no requests for mediation for FFY 2017.
