100 MANAGEMENT OF DIVISION POLICIES AND PROCEDURES

REVISION DATE: 08/23/23

EFFECTIVE DATE: November 9, 2022

REFERENCES:A.R.S. 36-553, A.R.S. 41-3801

PURPOSE

To detail the expectations for the lifecycle of policy and procedures within the Department of Economic Security (DES) Division of Developmental Disabilities (Division).

DEFINITIONS

1. "Medical Policy" means any Division policy that maintains requirements for Medical Services or Medical Supplies.
2. "Medical Services" means medical care and treatment provided by a Primary Care Provider (PCP), attending physician, or dentist or by a nurse or other health related professional and technical personnel at the direction/order of a licensed physician or dentist.
3. "Medical Supplies" means health care related items that are consumable or disposable or cannot withstand repeated use by more than one individual, that are required to address an

individual medical disability, illness or injury as specified in 42 CFR 440.70.

POLICY

A. The Division's Policy Unit shall be responsible for the development, revision, coordination, tracking, and maintenance of all official Division policies and procedures unless otherwise directed by the Division's Assistant Director.

B. DEVELOPMENT AND REVISION OF POLICY AND PROCEDURE

1. The Division's Policy Unit shall establish procedures that detail how Division staff initiate the development and revision of Division policy and procedure.
2. The Division's Policy Unit shall ensure that all new or revised policies and procedures are initiated only if they meet at least one of the following criteria:
    a. Aid the Division in maintaining compliance with:
        i. Applicable laws;
        ii. Regulations;
        iii. Contractual obligations;
        iv. AHCCCS policy; or

v. Written directives from the Arizona Governor or DES Director.

b. Ensure current business needs are being met; or

c. Clarify the document for the intended user or the public.

3. The Division's Policy Unit shall only accept requests for development or revision of Division policies and procedures from the following:

a. The administrator or manager identified as the owner of the document.

b. A member of the Division's Executive Leadership Team.

c. A proxy for the administrator or manager identified as the owner of the document that has been agreed to by the administrator or manager and the Division Policy Administrator.

d. The Division Policy Manager.

e. A Division Policy Specialist.

4. The Division's Policy Unit shall engage all functional areas identified as impacted by a policy or procedure being developed

or revised to provide input and work as part of a team for the final draft of the policy or procedure.

5. The Division Policy Specialist shall ensure that all policies and procedures adhere to the structure prescribed in the Division's Policy/Procedure Development and Format Manual.

C. APPROVAL OF POLICY

1. The following Division staff shall approve a new or revised policy in the following order after reviewing and being in agreement with the content and structure of the document:
   a. The owner, or the owner's proxy as described in (B)(3)(c) of this policy.
   b. The Division Policy Manager.
   c. The Division Policy Administrator.
   d. The Division Policy Review Team (PRT).
2. The Division Policy Specialist assigned to the development or revision of a policy shall:
   a. Coordinate discussion for policy needs with the identified policy owner and subject matter experts;

b. Engage subject matter experts as needed to address requested changes and questions from any individuals in (1) of this section;

c. Ensure consensus is reached by all subject matter experts involved in drafting or revision of the policy that the document is satisfactory in content and structure.

d. Ensure any changes instigated by any individuals in (1) of this section are approved by all other individuals in (1) of this section.

e. Prepare and send the draft policy to the Division Policy Manager and Division Policy Administrator for review and approval.

f. Route the draft policy:

    a. Back to the policy owner and any applicable subject matter experts to:

        i. Address any additional questions or recommendations; then

ii. Send back to the Division Policy Manager and Division Policy Administrator for final approval; or

b. To the PRT for consideration for approval.

3. The PRT shall review proposed policies for approval, determining whether the policy is:

a. Rejected;

b. Approved with changes; minor recommended changes agreed upon with the policy owner; or

c. Approved.

D. APPROVAL OF PROCEDURE

The Division Policy Specialist shall follow all steps in (C) of this document for the approval of procedures except (C)(1)(d).

E. PUBLIC COMMENTS

1. The PRT shall determine whether approved policies:

a. Post the following week to the Division's website and are then in effect; or

b. Require public comment if the policy:

i. Is a new Division policy; or

ii. Has substantive changes that may impact the public.

2. The Division Policy Manager shall ensure that the following actions are taken for policies going out for public comment:
   a. The unaltered version of the policy approved by the PRT with changes tracked in the document is used for the public comment period.
   b. Send a copy of the document for early notice of public comment to the following entities thirty days prior to posting the policy for public comment:
      i. The Arizona Developmental Disabilities Advisory Council;
      ii. The Independent Oversight Committees; and
      iii. Arizona Tribal entities.
   c. Thirty days after (2)(b) of this section, the policy is posted for a thirty day public comment period with a clear method for the public to submit comments to DDD.
3. The assigned Policy Specialist shall, at the conclusion of (2)(c) of this section, compile any received public comments and review the public comments with the subject matter experts and the

owner of the policy to determine if the policy requires changes based on the comments.

4. The assigned Policy Specialist shall, if substantive changes are made to the policy as a result of public comment or for any other reason following PRT approval, instigate the approval process described in (C) of this document.
5. The assigned Policy Specialist shall, if no substantive changes are made to the policy as a result of public comment or for any other reason following the PRT approval, inform the Policy Manager that the policy is ready to be posted.
6. The Division Policy Manager shall ensure each Quality Management and Medical Policy is signed by the Division's Chief Medical Officer prior to sending the policy to be posted.

F. POLICY AND PROCEDURE REVIEW

1. The Division Policy Manager shall establish and implement a process to ensure that each policy and procedure managed by the Division Policy Unit are reviewed on an annual basis by the following individuals to ensure the policy meets the current standards of the Division in terms of both content and structure:

a. The owner of the policy or their agreed to proxy; and

b. The Division Policy Specialist.

2. The Division Policy Manager shall, if a policy is determined to need changes based on the review in (1) of this section, ensure that the requirements in (B) of this document for the revision of a policy are instigated.

G. SHARING AND USE OF POLICY AND PROCEDURE

1. The Division shall only treat Division policies and procedures as official Division documents after the policies and procedures have completed the steps for approval designated in this policy.
2. The Division shall not represent or provide policies or procedures that have not completed the steps for approval designated in this policy as proof of compliance with requirements of contracts, regulations, laws, or oversight entities.

H. HISTORICAL MAINTENANCE OF POLICY AND PROCEDURE

The Division Policy Manager shall instigate and ensure the maintenance of a system to archive, track, and make available for research purposes past versions of policy and procedure.

101 MARKETING

REVISION DATE: 3/13/2024

REVIEW DATE: 6/19/2023

EFFECTIVE DATE: October 1, 2019

REFERENCES: ACOM 101

PURPOSE

This policy sets forth requirements and restrictions for the Division of Developmental Disabilities' (Division) participation in Marketing activities related to the AHCCCS program.

DEFINITIONS

1. "Arizona Health Care Cost Containment System" or "AHCCCS" means Arizona's Medicaid Program, approved by the Centers for Medicare and Medicaid Services (CMS) as a Section 1115 Waiver Demonstration Program and described in A.R.S. Title 36, Chapter 29.
2. "Administrative Services Subcontract/Subcontrator" or "AdSS" means An agreement that delegates any of the requirements of the Contract with AHCCCS, including, but not limited to the following:

a. Claims processing, including pharmacy claims,

b. Pharmacy Benefit Manager (PMB),

c. Dental Benefit Manager,

d. Credentialing, including those for only primary source verification (i.e., Credential Verification Organization [CVO]),

e. Management Service Agreements,

f. Medicaid Accountable Care Organization (ACO),

g. Service Level Agreements with any Division or Subsidiary of a corporate parent owner, and

h. CHP and DDD Subcontracted Health Plan.

A person, individual or entity, who holds an Administrative Services Subcontract is an Administrative Services Subcontractor. Providers are not Administrative Services Subcontractors.

3. "Dual Eligible" means a Member who is eligible for both Medicare and Medicaid. There are two types of Dual Eligible Members: a Qualified Medicare Beneficiary (QMB) Dual Eligible Member (a QMB Plus or a QMB Only), and a Non-QMB Dual Eligible Member

(a Special Low-Income Beneficiary [SLMB] Plus or an Other Full Benefit Dual Eligible).

4. "Dual Eligible Special Needs Plan (D-SNP)" means a type of health benefits plan offered by a Centers for Medicare and Medicaid Services (CMS) - contracted Medicare Advantage Organization (MAO) that limits its enrollment to those beneficiaries who are entitled to both Medicare (Title XVIII) program covered health benefits and full Medicaid (Title XIX) program covered health benefits.
5. "Dual Marketing" means Marketing efforts specifically targeting a contractor's Member who is eligible for Medicare and Medicaid.
6. "Financial Sponsor" means any monies or in-kind contributions provided to an organization other than attendance fees or table fees, to help offset the cost of an event.
7. "Geographic Service Area" or "GSA" means an area designated by AHCCCS within which a Contractor of record provides, directly or through subcontract, covered health care services to a member enrolled with that Contractor of record.

8. "Marketing" means any communication from Contractors to a Member not enrolled with the Contractor that can reasonably be interpreted as intended to influence the Member to enroll with the Contractor, or to not enroll or disenroll with another Contractor's Medicaid product as specified in 42 CFR 438.104. Marketing does not include communication to any Member about a Qualified Health Plan, as specified in 45 CFR 155.20.
9. "Marketing-Health Message" means a slogan or statement on Marketing Materials to promote healthy lifestyles, situations that affect or influence health status, behaviors that affect or influence health status, or methods or modes of medical treatment.
10. "Marketing-Health Related" means an event that has a direct or indirect health care purpose, and/or it supports or contributes to any AHCCCS initiative or program goal. Giveaway items shall have a Health Message or a health care purpose to be considered health-related.
11. "Marketing Materials" means materials produced in any medium, by or on behalf of the Contractor that can reasonably be

interpreted as intended for Marketing purposes. This includes general audience materials such as general circulation brochures, Contractor's website and other materials that are designed, intended, or used to increase Contractor membership or establish a brand.

12. "Member" means the same as "Client" as defined in A.R.S. § 36-551.
13. "Potential Member" means a Medicaid-eligible recipient who is not yet enrolled with a Contractor or a Member during Annual Enrollment Choice (AEC).
14. "Promotion" means any activity in which Marketing Materials are given away or displayed with the intent to increase the Contractor's membership.
15. "Social Networking Application" means web-based services or platforms, excluding the Contractor's State mandated website content, member portal, and provider portal, for online collaboration that provide a variety of ways for users to interact, such as email, comment posting, image sharing, invitation, and

instant messaging services – collectively also referred to as social media (e.g., Facebook).

16. "Subcontractor" means

    a. A provider of health care who agrees to furnish covered services to Members.

    b. An individual, agency, or organization with which the Contractor, or its Subcontractor, has contracted or delegated some of its management or administrative functions or responsibilities.

    c. An individual, agency, or organization with which a fiscal agent has entered into a Contract, agreement, purchase order or lease, or leases of real property, to obtain space, supplies equipment or services provided under the AHCCCS agreement.

POLICY

A. MARKETING MATERIALS, GIVEAWAYS, EVENTS, SPONSORSHIPS, PRESS RELEASES AND DIVISION LOGO NAME USE

1. Materials and Giveaways

a. The Division shall use Member Marketing Materials during Marketing activities that have been previously approved as Member information under Division Operations Policy Manual Policy 404, only if they comply with the requirements of this policy.

b. The Division shall submit a description and image of Marketing Materials and Marketing items or giveaways for approval to AHCCCS as required under this policy and as specified in the AHCCCS Contract.

c. The Division shall not distribute approved materials and giveaways after two years from the date of approval.

d. The Division shall submit any changes or amendments to previously approved materials in advance to AHCCCS for approval.

e. The Division shall submit templates for flyers or posters that advertise regular meetings or events where only the dates and times of the events change.

f. The Division shall distribute approved templates for a period of two years from the date of approval.

d. The Division shall distribute health educational materials without prior AHCCCS approval if the materials are:

   i. Health-related; and

   ii. Developed based on information from an approved, recognized organization as listed on ACOM Policy 404, Attachment A.

e. The Division shall submit for approval materials considered Marketing Materials that include Division specific information related to the Division Integrated Contract.

f. The Division shall ensure that:

   i. The value of any Marketing item or giveaway to the general public by the Division must not exceed $15.00;

   ii. Giveaway items are health related, or if non health related, include a Health Message on the item;

   iii. All Marketing Materials identify the Division as a AHCCCS provider and are consistent with the requirements for information to Members described in the AHCCCS Contract and in Division policies;

iv. All Marketing Materials that have been produced by the Division and refer to contract services shall specify: "Contract services]are funded in part under contract with the State of Arizona Department of Economic Security/Division of Developmental Disabilities";

v. Marketing Materials that are distributed by the Division are distributed to its entire contracted GSA, exclusion of any particular group or class of Members would be considered to be a discriminatory Marketing practice; and subject to contract action.

g. The Division shall not market directly to Members eligible for the Division;

h. The Division shall not encourage or induce a Member to select a particular AdSS when completing the application and may not complete any portion of the application on behalf of the Potential Member.

2. Events

a. The Division shall participate in Health-Related Marketing events listed as pre-approved events in Section A.2.e. of this document, with the additional requirement that the pre-approved event also contains either:
   i. A health related; or
   ii. Health education component.

b. The Division shall submit a request for prior approval if the event is not specified as a pre-approved event in the contract for prior approval, containing the event name and date with the location and address.

c. The Division's participation in events shall be substantive; an unmanned booth with handouts is not acceptable.

d. The Division shall obtain approval from AHCCCS to attend pre-approved events when the following criteria apply:
   i. The Division pays sponsorship fees;
   ii. The Division donates benefits or items;
   iii. The Division plans to distribute materials not previously approved by AHCCCS within the last two years;

iv. Any event determined by the Division to not be in the best interest of the State of Arizona.

v. The Division is not certain if an event would qualify as pre-approved, in which case the Division shall submit a request for approval to AHCCCS prior to the event, including the name, date, location, and the address of the event.

e. The Division may attend the following pre-approved, health related events:

i. Back to School Events;

ii. College or University Events;

iii. DES Health or Resource Events if open to all AHCCCS plans;

iv. Women, Infants and Children (WIC) Health or Resource Events-if open to all AHCCCS plans;

v. Events where health education is a component;

vi. Jobs Fairs as specific in Contract and ACOM Policy 407;

vii. Community Center or Recreational Events;

viii. Community or Family Resource Events;

ix. Provider Events that the Contractor is contracted with;

x. Faith Based Events;

xi. Farmers Market Events;

xii. Health Educations Forum, community sponsored;

xiii. Safety Events;

xiv. Immunization Clinics;

xv. Senior Events;

xvi. Shopping Mall Events;

xvii. AHCCCS Contractor's Event that is created and sponsored by the Contractor for its own Members only.

f. The Division shall not participate in Marketing activities at the following events:

i. Events that are not health related or do not have a health education component;

iii. WIC Offices, except those listed on the approval list;

iv. Job Fairs, except those listed on the approval list;

v. County or State Fairs;

vi. Bi-national Health Events;

vii. Political Events;

viii. Pharmacy Events not open to all AdSSs;

ix. Swap Meets;

3. Sponsorships

The Division may participate as a Financial Sponsor of Health-Related Marketing events that are listed as pre-approved in Section A.2.e. in accordance with ACOM 101.

4. Press Releases

The Division may issue press releases or announcements about program innovations and events that promote the goals of the Division.

i. Press releases that do not include Division-specific information related to the Division Integrated Contract do not require prior AHCCCS approval.

ii. All other press releases must be submitted to AHCCCS for prior approval.

5. Division Logos and Name Inclusion

The Division shall be responsible for preventing misuse of the Division's name and logo.

i. Upon receiving AHCCCS approval for an event, the Division's logo can be included on event flyers or websites that are produced by hosting organizations without prior approval.

ii. The use of the Division's name or logo is prohibited for television advertising of the event.

iii. If the Division is a Financial Sponsor for the event, the event flyers or websites will require prior approval by AHCCCS.

B. RESTRICTIONS

The Division shall not participate in the following Marketing activities:

a. Television advertising;

b. Direct mail advertising;

c. Social Networking Applications;

d. Marketing of non-mandated services;

e. Utilization of the word "free" in reference to covered services;

f. Listing of providers in Marketing Materials who do not have signed contracts with the Division;

g. Inaccurate, misleading, confusing or negative information about AHCCCS; and any information that may defraud Members or the public; or

h. Discriminatory Marketing practices as specified in A.A.C. R9-22-501 et seq, A.A.C. R9-28-501 et seq, A.A.C. R9-31-501 et seq;.

C. DIVISION RESPONSIBILITIES

1. The Division shall report their Marketing costs on a quarterly basis as a separate line item in the quarterly financial statements. This requirement also applies to any Marketing costs included in an allocation from a parent or other related corporation.
2. The Division shall review and revise all materials on a regular basis in order to reflect current practices.

3. The Division shall submit any changes or amendments to previously approved materials in advance to the Division for approval as indicated above.
4. The Division CEO or designee shall sign and submit to AHCCCS, ACOM 101, Attachment A, Marketing Attestation Statement as specified in Section F3, Contractor Chart of Deliverables, addressing the compliance of its plan with the requirements of this policy, including submissions from the AdSSs with Division submissions.
5. The Division shall submit to AHCCCS, ACOM 101, Attachment B, Marketing Activities Report, as specified in Section F3, Contractor Chart of Deliverables including the previous six months of Marketing activities in which the Division was a participant, including submissions from the AdSSs with Division submissions.

D. SUBMISSION REQUIREMENTS

1. The Division shall submit all Marketing Materials including, giveaways, event requests, sponsorships and press releases as individual requests for approval at least 21 days prior to

dissemination as specified in the AHCCCS Contract. Section F3, Contractor Chart of Deliverables.

a. Bulk submissions, including more than one event, sponsorship, press release, are not permitted with the exception of giveaway items.

b. Giveaway items shall be submitted for approval separately from any event or sponsorship submission and may consist of more than one giveaway.

c. All submissions shall be complete and include all corresponding documents.

2. The Division shall ensure the following criteria are completed when requesting an expedited review, when a 21-day notice is not possible:

a. Follow the submission requirements as noted above; and

b. Indicate the reason for the shortened timeframe.

3. The Division shall resubmit any Marketing Materials for review and approval if any substantive changes or modifications of previously approved materials have been made. Resubmissions require inclusion of:

a. Date the material was previously approved;

b. Reason for update; and

c. All clearly identified content revisions.

4. The Division may request a reconsideration of any AHCCCS decision by submitting a written request for reconsideration and following the submission requirements for Marketing Materials as specified in Contract. The Division may provide information in support of its request for reconsideration.

102 DDD ADMINISTRATIVE FORMS AND OTHER WRITTEN MATERIAL

EFFECTIVE DATE: April 26, 2023
REFERENCES: ACOM 404; DES 1-05-03

PURPOSE

To provide a consistent and structured framework for the development, approval, and storage of DDD Administrative Forms and other non-policy, non-procedure written material.

DEFINITIONS

1. "DDD Administrative Form" means any standardized form used only by employees of the Division of Developmental Disabilities (DDD) in the performance of their jobs.
2. "Job Aide" or "Desk Aide" means a tool or device that serves as a reminder or instruction on the implementation and use of a standard work or procedure..
3. "Standard Work" means a documented standardized and discrete process specific to a single work unit.

POLICY

A. DDD Administrative Forms

1. DDD staff shall not utilize or consider for official use any DDD Administrative Form that has not complied with DES 1-05-03, DES 1-05-03-01, and this policy.
2. DDD staff shall not utilize as proof of contract compliance, remedy of a corrective action plan, or in response to any legal or administrative request for official documents any DDD Administrative Form that has not met the requirements of DES 1-05-03, DES 1-05-03-01, and this policy.
3. DDD staff shall follow the process in DDD procedure POL-001-ALL Development or Revision of Division Administrative Forms for all new and revised DDD Administrative Forms.

B. Standard Work

1. DDD staff shall receive approval from the Executive Leader or their designee over the specific functional area prior to utilizing any new or revised Standard Work.
2. Each DDD functional area that utilizes Standard Work shall establish a standard methodology for internal approval of Standard Work and routing to the DDD Policy Administrator or their designee.

3. The DDD leader or their designee of each functional area shall ensure that all Standard Work approved under the specifications of this policy are sent to the DDD Policy Unit for storage and maintenance.

C. Job Aides and Desk Aides

1. DDD staff shall not use any Job Aide or Desk Aide as an official part of their job until it has been approved in writing by the Executive Leader or their designee of the associated functional area.
2. The Executive Leader of the associated functional area or their designee shall send all approved Job Aides and Desk Aides to the DES Policy Unit for storage.

D. Flyers, Pamphlets, and Posters

DDD employees shall reference DES policy DES 1-05-03 and associated DES procedures for the revision, creation, and maintenance of flyers, pamphlets, and posters.

E. Material Intended for Members

DDD staff shall comply with the stipulations of Arizona Health Care Cost Containment System ACOM 404 regarding written materials intended in whole or in part for the use of Members.

103 FRAUD, WASTE, AND ABUSE

REVISION DATE: 4/10/2024

REVIEW DATE: 9/6/2023

EFFECTIVE DATE: October 1, 2019

REFERENCES: A.R.S. § 36-2901, A.R.S. § 36-2918, A.R.S. § 36-2957, A.R.S. § 36-2903.01(K); A.A.C. R9-22-702; 42 CFR 455.101, 42 CFR 438.608, 42 CFR Part 438, Subpart H, 42 CFR 455, 42 CFR 455, Subpart A, 42 CFR 455, Subpart B, 42 CFR 455.2, 42 CFR 455.23, 42 CFR 455.101, 42 CFR 455.436; ACOM Policy 103, Attachment A; ACOM Policy 103, Attachment A-1; Attestation of: Disclosure of Ownership and Control and Disclosure of Information of Persons Convicted of a Crime; ACOM Policy 103, Attachment B; ACOM Policy 103, Attachment C; ACOM Policy 424; the Division Medical Policy 950, Credentialing and Recredentialing Processes; Attachment F3, Contractor Chart of Deliverables State Medicaid Director Letters 08-003 and 09-001; Section 6032 of the Deficit Reduction Act.

PURPOSE

This Policy applies to the Division of Developmental Disabilities (Division). The purpose of this Policy is to outline the corporate compliance requirements including the reporting responsibilities for alleged Fraud,

Waste, or Abuse involving Division program funds regardless of the source. This Policy also addresses additional responsibilities regarding regulatory compliance with program integrity, and programmatic requirements.

DEFINITIONS

1. "Abuse" means Provider practices that are inconsistent with sound fiscal, business, or medical practices, and result in an unnecessary cost to the Division program, or in reimbursement for services that are not medically necessary or that fail to meet professionally recognized standards for health care, including beneficiary practices that result in unnecessary cost to the Division Program as outlined in 42 CFR 455.2.
2. "Administrative Services Subcontract" means an agreement that delegates any of the requirements of the Contract with AHCCCS, including:
    a. Claims processing, including pharmacy claims
    b. Pharmacy Benefit Manager (PBM)
    c. Dental Benefit Manager

d. Credentialing, including those for only primary source verification through Credential Verification Organization [CVO]

e. Medicaid Accountable Care Organization (ACO)

f. Service Level Agreements with any Division or Subsidiary of a corporate parent owner

g. CHP and the Division Subcontracted Health Plan

i. A person, individual or entity, who holds an Administrative Services Subcontract is an administrative services subcontractor.

ii. Providers are not administrative services subcontractors.

3. "Agent" means any person who has been delegated the authority to obligate or act on behalf of a Provider as specified in 42 CFR 455.101.

4. "Contract" means the Division's contract with AHCCCS.

5. "Corporate Compliance Officer" means an individual located in Arizona and who implements and oversees the Contractor's Compliance Program. The Corporate Compliance Officer shall be

a management official, available to all Division employees, with designated and recognized authority to access records and make independent referrals to the AHCCCS Office of the Inspector General. The Corporate Compliance Officer shall not hold any other position other than the Contract Compliance Officer position. The Corporate Compliance Officer shall be an onsite management official who reports directly to the Contractor's Chief Executive Officer (CEO) and Board of Directors, if applicable. The Corporate Compliance Officer shall be responsible for developing and implementing policies, procedures and practices designed to ensure compliance with the requirements of the Contract as specified in 42 CFR 438.608.

6. "Credible Allegation of Fraud" means the State Medicaid agency has reviewed all allegations, facts, and evidence carefully and acts judiciously on a case-by-case basis as specified in 42 CFR 455.2.
7. "Fraud" means an intentional deception or misrepresentation made by a person with the knowledge that the deception could result in some unauthorized benefit to himself or some other

person, including any act that constitutes fraud under applicable State or Federal law, as defined in 42 CFR 455.2.

8. "Managing Employee" means a general manager, business manager, administrator, director, or other individual who exercises operational or managerial control over, or who directly or indirectly conducts the day-to-day operation of an institution, organization, or agency as outlined in 42 CFR 455.101.
9. "Member" means the same as "Client" as defined in A.R.S. § 36-551.
10. "Provider" means an agency or individual operating under a contract or service agreement with the Department to provide services to Division Members.
11. "Waste" means over-utilization or inappropriate utilization of services, misuse of resources, or practices that result in unnecessary costs to the Medicaid Program.

POLICY

A. The Division shall:

1. Have in place internal controls, policies, and procedures to:

a. Prevent, detect, and report credible Fraud, Waste, and Abuse activities to AHCCCS-OIG.

b. Implement a suspension, termination, or exclusion of a provider from the Contractor's network of providers.

2. Have a Corporate Compliance Program that complies with the Division's contract with AHCCCS and all state and federal laws, including 42 CFR Part 438, Subpart H and is developed under the Contractor's corporate compliance plan including:

   a. Program integrity goals and objectives;

   b. Descriptions of internal and external controls employed by the Division to ensure compliance with State and Federal law; and

   c. The Division's corporate compliance activities, as outlined in ACOM 103.

3. Submit the Division's written Corporate Compliance Plan to AHCCCS-OIG annually as specified in the Contract.

4. Submit to AHCCCS-OIG an external audit plan/schedule and audit report of all individual provider audits using ACOM 103 Attachment C.

a. In each audit report, the Division shall include:

i. An objective, scope, estimated dollars at risk, current audit results, key audit findings, recommendations, corrective actions required, and conclusion;

ii. Copies of the report for each audit scheduled completed; and

iii. If an audit was not completed timely, include a reason why and a date when the audit will be completed.

b. The Division shall submit a minimum of 20 audits semiannually.

c. The Division shall submit follow-up audits on a separate ACOM 103 Attachment C and not count toward the required minimum audit numbers as stated in this subsection.

5. Submit complete, accurate, and current disclosure information, as described in 42 CFR Part 455, Subpart B and as specified in Contract, upon execution of a Contract with the State and upon

renewal of extension of the Contract utilizing Attachment A and Attachment A-1.

a. The Contractor shall ensure review of its response by its legal counsel prior to submitting disclosure information.

b. As specified in Contract, the Contractor shall submit all information electronically, without any exceptions.

c. AHCCCS/Office of Administrative Legal Services (OALS) and AHCCCS-OIG reviews the Contractor's submitted disclosure information for completeness and AHCCCS-OIG screens and confirms that persons listed in the submitted information are not excluded from participation in the Medicaid program.

6. Complete all information as specified in ACOM 103 Attachment A and Attachment A-1 to enable AHCCCS-OIG to confirm that persons with an ownership or control interest in the aDivision are not excluded from participation in the Medicaid program.

a. The Division shall obtain and disclose the information regarding the ownership and control interest of administrative services subcontractors.

b. The Division shall retain the results of the disclosure of ownership and control and the disclosure of information on persons convicted of crimes and report to AHCCCS-OIG.

c. The Division shall complete and submit an attestation as specified in ACOM 103 Attachment A along with the disclosure information described in this subsection and that the information provided is accurate, complete, and truthful.

d. Consistent with 42 CFR 457.990 and 42 CFR 438.606, the Division's Assistant Director (Chief Executive Officer, Chief Financial Officer, or an individual who reports directly to the Chief Executive Officer) or Chief Financial Officer with delegated authority to sign for the Chief Executive Officer or Chief Financial Officer shall sign the attestation.

e. The Division's failure to provide all complete and accurate disclosures and an attestation signed by an individual with appropriate authority may result in the withholding of payments under the Contract or the recovery, recoupment, or offset of any monies remitted without limitation.

7. Disclose, and require its administrative services subcontractors to disclose, to AHCCCS/OIG the identity of any employee or person with ownership or control interest who is excluded from participation in any federal healthcare programs.
8. Comply with the requirements of Section 6032 Deficit Reduction Act of 2005 (DRA) [Section 1902(a)(68) of the Social Security Act, 42 CFR 457.1285, and 42 CFR 438.608(a)(6)].
9. As a condition for receiving payments, establish written policies, and ensure adequate training and ongoing education for all of its employees including management, Members, and any subcontractors or Agents of the Division regarding the following:
    a. Detailed information about the Federal False Claims Act;
    b. The administrative remedies for false claims and statements;
    c. Any state laws relating to civil or criminal liability or penalties for false claims and statements; and
    d. The whistleblower protections under law.
10. Ensure adequate training addressing Fraud, Waste, or Abuse prevention, recognition and reporting, and encourage Division

employees, Members, and any subcontractors to report Fraud, Waste, or Abuse without fear of retaliation.

11. Ensure an internal reporting process relating to the reporting of Fraud, Waste, or Abuse that is well-defined is made known to all Division employees, Members, and any subcontractors.
12. Conduct research and proactively identify changes for program integrity that are relevant to the~~ir~~ corporate compliance program, and periodically review and revise the Fraud, Waste, or Abuse policies or guidance from the AHCCCS to reflect such changes due to rules, regulations, or new initiatives.
13. Regularly attend and participate in AHCCCS-OIG work group meetings.
14. Respond promptly and not later than 30 calendar days to requests for information from AHCCCS-OIG.
15. Cooperate with AHCCCS-OIG regarding any allegation of Member billing in violation of A.R.S. § 36-2903.01(K) and A.A.C. R9-22-702.

16. Have a method of verifying with Members that they received the services billed by Providers to identify potential service or claim Fraud.
17. Perform periodic audits through Member contact and report the results of these audits as specified in ACOM Policy 424.
18. Maintain compliance with all State and Federal laws and regulations related to Fraud, Waste, or Abuse even if not directly specified in this Policy.

B. REPORTING RESPONSIBILITIES

1. Fraud, Waste, and Abuse
    a. If the Division discovers, or is made aware, that an incident of alleged Fraud, Waste, or Abuse has occurred or is occurring, the Division shall report the incident to AHCCCS-OIG as specified in Contract and by completing and submitting the "Report Member, Provider, or Contractor Suspected Fraud or Abuse of the Program" form available on the AHCCCS-OIG webpage, and attach all pertinent documentation that could assist AHCCCS in its investigation;

b. If the Division identifies an incident that warrants self-disclosure, the Division shall report incident within ten calendar days to AHCCCS-OIG by completing and submitting the Provider Self-Disclosure form available on the AHCCCS-OIG webpage and attach all pertinent documentation that could assist AHCCCS in its investigation;

c. When the Division refers, or is aware that a subcontractor has referred, a case of alleged Fraud, Waste, or Abuse to AHCCCS-OIG, the Division shall take no action to recoup, offset, or act in any manner inconsistent with AHCCCS-OIG's authority to conduct a full investigation, obtain a comprehensive recovery of any suspected overpayments, or impose a civil monetary penalty;

d. The Division shall conduct preliminary review work regarding a referral at the request of AHCCCS-OIG in order to expand the allegation and obtain documentation to support the investigation being conducted by AHCCCS-OIG;

e. The Division shall provide documentation requested by AHCCCS-OIG within 30 calendar days of the request;

f. The Division may receive notification from AHCCCS-OIG when the investigation concludes in a manner that safeguards the integrity and confidentiality of the investigation;

g. The Division shall ensure proper disposition of any matters returned by AHCCCS-OIG as non-Medicaid Fraud, Waste, or Abuse in accordance with any applicable laws and contracts;

h. The Division shall adhere to the requirement that AHCCCS-OIG has the sole authority to handle and dispose of any matter involving Fraud, Waste or Abuse and assign to AHCCCS the right to recoup any amounts overpaid to a Provider as a result of Fraud, Waste or Abuse.

i. The Division shall forward anything of value that could be construed to represent the repayment of any amount expended due to Fraud, Waste or Abuse that is recovered to AHCCCS-OIG within 30 days of its receipt.

j. The Division shall ensure the requirements outlined in subsection (i) apply to any actions undertaken by the Division on behalf of a Contractor by a subcontractor, as specified in the AHCCCS Minimum Subcontractor Provisions (MSPs).

k. The Division shall relinquish all claims to any monies received by AHCCCS as a result of any program integrity efforts, including:

   i. Recovery of an overpayment;

   ii. Civil monetary penalties or assessments;

   iii. Civil settlements or judgments;

   iv. Criminal restitution;

   v. Collection by AHCCCS or indirectly on AHCCCS' behalf by the Office of the Attorney General; or

   vi. Other, as applicable.

l. The Division shall report to AHCCCS, as specified in Contract, and the Division Medical Policy 950, any credentialing denials including:

   i. That are the result of licensure issues;

ii. Quality of care concerns;

iii. Excluded, terminated, or otherwise sanctioned providers; or

iv. Alleged Fraud, Waste, or Abuse.

C. THE DIVISION'S RESPONSIBILITIES RELATED TO FRAUD, WASTE AND ABUSE

1. The Division shall:

   a. Process all referrals of allegations of suspected Member and provider Fraud, Waste, or Abuse.

   b. Oversee, monitor, and review all documents and functions as they relate to Fraud, Waste, and Abuse prevention, detection, and reporting.

   c. Maintain and monitor a tracking system of Fraud, Waste, and Abuse referrals.

   d. Ensure all Division employees, subcontractors, Providers, Agents, and Members receive adequate training and information regarding Fraud, Waste, and Abuse prevention, identification and reporting.

e. Assure Division employees, subcontractors, Providers, Agents, and Members that they can report Fraud, Waste, and Abuse without fear of retaliation.

f. Develop and maintain open channels of communication with AHCCCS-OIG, subcontractors, Providers, Agents, and Members to combat Fraud, Waste, and Abuse at all levels in the System.

g. Develop and maintain open channels of communication with DES-OIG in the prevention and detection of Fraud, Waste, and Abuse.

h. Make referrals to AHCCCS-OIG to investigate cases of potential Member billing in violation of A.R.S. § 36-2903.01(K) and A.A.C. R9-22-702.

i. Perform all functions required by Section 6032 of the Deficit Reduction Act, including the auditing of Providers to ensure their compliance.

j. Ensure that the Division is in compliance with its federal obligations with regard to Disclosure of Ownership and Control, Managing Employees Database Exclusion, and

Checks, and Criminal Convictions Checks, and all other federal requirements related to Provider Screening and Enrollment.

SUPPLEMENTAL INFORMATION

1. AHCCCS/Office of Inspector General (AHCCCS/OIG) is responsible for reviewing suspected incidents of fraud, waste, and/or abuse. This includes the preliminary investigation of credible allegations of fraud, the preliminary and full investigation of fraud, waste, and/or abuse, and any other matters necessary to comply with the authority or obligations vested in AHCCCS/OIG under State or Federal law, rule, regulations, or policies.

2. AUTHORITY

The AHCCCS Office of Inspector General (AHCCCS-OIG) is the division of AHCCCS that has the authority to conduct preliminary and full investigations relating to Fraud, Waste, and Abuse involving the programs administered by AHCCCS. Pursuant to 42 CFR 455, Subpart A, and an Intergovernmental Agreement with the Arizona Attorney General's Office, AHCCCS-OIG refers cases of suspected Medicaid fraud to the State Medicaid Fraud Control Unit for appropriate legal action.

AHCCCS-OIG also has the authority to make independent referrals to other law enforcement entities.

a. Pursuant to A.R.S. § 36-2918, AHCCCS-OIG has the authority to issue subpoena and enforce the attendance of witnesses, administer oaths or affirmations, examine witnesses under oath, and take testimony as the Inspector General deems relevant or material to an investigation, examination, or review undertaken by the AHCCCS-OIG.

b. Pursuant to A.R.S. §§ 36-2918 and 36-2957, AHCCCS-OIG has the authority to impose a civil monetary penalty of up to $2,000.00 for each item or service claimed, and/or an assessment of an amount not to exceed twice the amount claimed.

c. AHCCCS-OIG has been designated as a Criminal Justice Agency through the Federal Bureau of Investigations (FBI). This designation authorizes AHCCCS-OIG to access the National Crime Information Center (NCIC) database as well as the Arizona Criminal Justice Information System. Additionally, AHCCCS-OIG is authorized to receive and share restricted

criminal justice information with other federal, state and local agencies.

d. Pursuant to federal law, AHCCCS-OIG shall suspend payments to providers where it determines that a credible allegation of fraud exists as specified in 42 CFR 455.23.

e. Pursuant to state and federal law, AHCCCS is required in certain circumstances, and in other circumstances it may, act to suspend, terminate, or exclude any person (individual or entity) from participation in the AHCCCS Program.

104 CONTINUITY OF OPERATIONS AND RECOVERY/EMERGENCY PREPAREDNESS PLAN

EFFECTIVE DATE: April 2, 2018

REFERENCES: 42 CFR 483.475, 28 CFR 0.85, 22 U.S.C 38 § 2656f (d)(2), ACOM 104, uslegal.com, fema.gov, dema.az.gov, cms.gov, and ready.gov

This policy outlines the Continuity of Operations and Recovery Plan, for the Division of Developmental Disabilities (DDD), including the Continuity of Operations and Recovery Plan/Emergency Preparedness Plan for the Division's Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICFs/IID), in conformance with CMS Final Rule 42 CFR 483.475, "Medicare and Medicaid Programs, Emergency Preparedness Requirements for Medicare and Medicaid Participating Providers and Suppliers;" and in conformance with ACOM 104.

The Division must be able to recover from any disruption in business operations as quickly as possible. This recovery can be accomplished by the activation of a Continuity of Operations and Recovery Plan that contains strategies for recovery. The Continuity of Operations and Recovery Plan is part of the federal government's Continuity of Operations Programs (COOP) requirements and the AHCCCS Contractor Operations Manual.

Division Responsibilities

The Division's Continuity of Operations and Recovery Plan assures AHCCCS that the provision of covered services will occur as stated in its contract [42 CFR 438.207 and 42 CFR 438.208]; and as stated in the CMS Emergency Preparedness requirements [42 CFR 483.475] for ICFs/IID. This policy outlines the policy and procedures requirement for 42 CFR 483.475 in conjunction with ACOM 104.

42 CFR 483.475 requires the following four elements in the ICF/IID Continuity of Operations and Recovery/Emergency Preparedness Plan.

- Risk Assessment and Planning – identifying potential risks to the entity using an "all hazards" approach
- Policies and Procedures – reflective of the risk assessment and to include training and testing procedures
- Communication Plan – communication within the entity and across local community health care providers, in conjunction with state and local public health departments
- Training and Testing – to be conducted annually for all staff

Continuity of Operations and Recovery Plan

A. The Division:

1. Reviews, tests, and updates the plan at least annually, to manage unexpected events and the threat of such occurrences, which may negatively and significantly impact business operations and the ability to deliver services to members
2. Ensures that all staff are trained at least annually and are familiar with the Plan and understand their respective roles

3. Designates a Continuity of Operations and Recovery Coordinator and furnishes AHCCCS with contact information as part of the Plan

4. Requires ICFs/IID to develop and maintain an Emergency Preparedness/Continuity of Operations and Recovery Plan

5. Maintains policies and procedures, as required by the Centers for Medicare and Medicaid Services (CMS), that address:

    a. The provision of subsistence needs for staff and members (food, water, medical and pharmaceutical supplies)

    b. Temperatures to protect client health and safety; emergency lighting; fire detection/extinguishing/alarms

    c. Sewage and waste disposal

    d. Tracking of members and staff during an emergency

    e. Evacuation and sheltering in place

    f. Availability of medical documentation

    g. The use of volunteers in an emergency

    h. Arrangements with other ICFs/IID and providers to receive members

    i. Other mitigation and response strategies as applicable

B. The Plan:

1. References local resources

2. Identifies:

    a. Key member priorities

    b. Key factors that could cause disruption

    c. Any additional priorities identified as critical, including communication systems (e.g., telephone, website, and email), providers' receipt of prior authorization approvals and denials, members receiving transportation, and timely claims payments

3. Contains:

    a. Specific timelines for resumption of services as well as the percentage of recovery at certain hours, and the key actions required meeting those timelines

    b. Planning and training for:

        i. Electronic/telephonic failure

ii. Complete loss of use of the main site location and any satellite offices in and out of state

iii. Loss of primary computer system/records

iv. Extreme weather conditions

v. Communication during a business disruption. (The name and phone number of a specific contact in the Division of Health Care Management, and AHCCCS Security at 602-417-4888 if disruption occurs outside of normal business hours.)

vi. Other mitigation and response strategies as applicable

c. Documented periodic testing and training at least annually

108 SECURITY RULE COMPLIANCE

EFFECTIVE DATE: April 29, 2020
REFERENCES: 42 CFR 438.100(d) and 42 CFR 438.208(b)(4); 45 CFR Parts 160, 162, and 164; Section F3, Contractor Chart of Deliverables

This policy applies to the Division Developmental Disabilities (The Division).

Definitions

A. Breach - An impermissible use or disclosure of protected health information is presumed to be a breach unless the covered entity or business associate, as applicable, demonstrates that there is a low probability that the protected health information has been compromised. As stated in Section 13402 of the Health Information Technology for Economic and Clinical Health (HITECH) Act issued in August 2009.

B. Health Insurance, Portability, and Accountability Act (HIPAA) - The Health Insurance Portability and Accountability Act; also known as the Kennedy-Kassebaum Act, signed August 21, 1996 as amended and as reflected in the implementing regulations at 45 CFR Parts 160, 162, and 164.

C. HIPAA Privacy Rule - The HIPAA Privacy Rule establishes national standards to protect individuals' medical records and other individual health information and applies to health plans, health care clearinghouses, and those health care providers that conduct certain health care transactions electronically. The Rule requires appropriate safeguards to protect the privacy of individual health information and sets limits and conditions on the uses and disclosures that may be made of such information without patient authorization. The Rule also gives patients' rights over their health information, including rights to examine and obtain a copy of their health records and to request corrections.

D. HIPAA Security Rule - Established national standards to protect individuals' electronic personal health information that is created, received, used, or maintained by a covered entity. The Security Rule requires appropriate administrative, physical and technical safeguards to ensure the confidentiality, integrity and security of electronic protected health information.

E. Health Information Technology for Economic and Clinical Health Act (HITECH) -

The Health Information Technology for Economic and Clinical Health (HITECH) Act, enacted as part of the American Recovery and Reinvestment Act of 2009, was signed into law on February 17, 2009, to promote the adoption and meaningful use of health information technology. Subtitle D of the HITECH Act addresses the privacy and security concerns associated with the electronic transmission of health information, in part, through several provisions that strengthen the civil and criminal enforcement of the HIPAA rules.

F. Protected Health Information – Individually identifiable health information as described in 45 CFR 160.103(5) about an individual that is transmitted or maintained in any medium where the information is:

- Created or received by a health care provider, health plan, employer, or health care clearinghouse.

- Relates to the past, present or future physical or mental health condition of an individual, provision of health care to an individual, or payment for the provision of health care to an individual.

Protected health information excludes information:

- In education records covered by the Family Educational Rights and Privacy Act as amended, 20 U.S.C. 1232g

- In records described at 20 USC 1232g(a)(4)(B)(IV)

- In employment records held by a covered entity in its role as an employer

- Regarding a person who has been deceased for more than 50 years.

G. Information Technology (IT) Risk Analysis - The assessment of the risks and vulnerabilities that could negatively impact the confidentiality, integrity, and availability of the electronic protected health information held by a covered entity, and the likelihood of occurrence.

H. Information Technology (IT) Risk Management - The actual implementation of security measures to sufficiently reduce an organization's risk of losing or compromising its electronic protected health information and meeting the general security standards.

Data Security Audit

The Division must develop policies and procedures to ensure the privacy of protected health information, the security of electronic protected health information, and breach notification to members [42 CFR 438.100(d) and 42 CFR 438.208(b)(4)].

The Division must have a security audit performed by an independent third-party annually. If the Division performs in multiple AHCCCS lines of business, one comprehensive audit may be performed covering all systems for all lines of business or separate audits may be performed.

The audit must include, at a minimum, a review of the following:

1. Compliance with all security requirements as outlined in ACOM Policy 108, Attachment A, AHCCCS Security Rule Compliance Summary Checklist.

2. The Division policies and procedures to verify that appropriate security requirements have been adequately incorporated into the Division's business practices, and the production processing systems. The Division's policies and procedures must include the requirements for the Breach Notification Rule.

Audits performed in the second and subsequent years of the contract will focus primarily on remediation of prior findings and system and policy changes identified since the prior audit.

AHCCCS Security Compliance Report

The Division must submit the AHCCCS Security Rule Compliance Report to AHCCCS annually as described in Section F3, Contractor Chart of Deliverables, by uploading the report to a secure AHCCCS Share Point site. The timeframe audited may be calendar year, fiscal year, or contract year and must be noted in the report. The report must include all findings detailing any issues and discrepancies between the AHCCCS Security Audit Checklist requirements and the Division's policies, practices and systems, and as necessary, a corrective action plan. In addition, the report must include written decisions regarding all addressable specifications.

The Division will verify that the required audit has been completed and the approved corrective action plan is in place and implemented as part of Operational Reviews.

The Division does not intend to release detailed audit reviews; however may, at its discretion, release a summary level of results.

AHCCCS Security Rule Compliance Checklist

A. Instructions

The AHCCCS Security Rule Compliance Checklist, located in the AHCCCS Operations Manual, identifies security rule requirements for administrative, physical, and technical safeguards. The Compliance Checklist must be signed and dated by the Chief Executive Officer or his/her designee verifying the information and must be submitted with the annual report.

B. Implementation Specifications

1. Required Specifications

If an implementation specification is identified as "required" (indicated with an "R" on the checklist), the specification must be implemented.

Addressable Specification: The concept of "addressable implementation specifications" was developed to provide covered entities additional flexibility with respect to compliance with the security standards. Addressable implementation specifications are indicated with an "A" on the checklist.

In meeting standards that contain addressable implementation specifications, a covered entity must do one of the following for each addressable specification:

a. Implement the addressable implementation specifications.

b. Implement one or more alternative security measures to accomplish the same purpose.

c. Not implement either an addressable implementation specification or an alternative.

The covered entity must decide whether a given addressable implementation specification is a reasonable and appropriate security measure to apply within its particular security framework. For example, a covered entity must implement an addressable implementation specification if it is reasonable and appropriate to do so, and must implement an equivalent alternative if the addressable implementation specification is unreasonable and inappropriate, and there is a reasonable and appropriate alternative. This decision will depend on a variety of factors, such as, among others, the entity's risk analysis, risk mitigation strategy, what security measures are already in place, and the cost of implementation.

The decisions that a covered entity makes regarding addressable specifications must be documented in writing. The written documentation should include the factors considered as well as the results of the risk assessment on which the decision was based.

2. IT Risk Analysis

The required implementation specification at 45 CFR 164.308(a)(1)(ii)(A), for Risk Analysis, requires a covered entity to, *"conduct an accurate and thorough assessment of the potential risks and vulnerabilities to the confidentiality, integrity, and availability of electronic protected health information held by the covered entity."*

IT Risk analysis is the assessment of the risks and vulnerabilities that could negatively impact the confidentiality, integrity, and availability of the electronic PHI held by a covered entity and the likelihood of occurrence. The risk analysis may include taking inventory of all systems and applications that are used to access and house data and classifying them by level of risk. A thorough and accurate risk analysis would consider all relevant losses that would be expected if the security measures were not in place, including loss or damage of data, corrupted data systems, and anticipated ramifications of such losses or damage.

3. IT Risk Management

The required implementation specification at 45 CFR 164.308(a)(1)(ii)(B), for IT Risk Management, requires a covered entity to *"implement security measures sufficient to reduce risks and vulnerabilities to a reasonable and appropriate level to comply with 45 CFR. 164.306(a) [(the General Requirements of the Security Rule)]."* IT Risk management is the actual implementation of security measures to sufficiently reduce an organization's risk of losing or compromising its electronic PHI and to meet the general security standards.

4. Compliance Status

If the covered entity complies with the requirement, insert a “C” in the column. If the requirement is not met, insert “NC” for non-compliant.

5. Compliance Documentation

List policies, procedures, and processes used to determine compliance with the Implementation Specification.

109 INSTITUTION FOR MENTAL DISEASE 15 DAY LIMIT

REVISION DATE: 10/1/2021, 2/24/2021, 3/26/2020
EFFECTIVE DATE: March 25, 2020
REFERENCES: 42 CFR 435.1010, 42 CFR 438.3(e)(2)(i) through (iii), 42 CFR 438.6(e)

Purpose

This Policy applies to the Division of Developmental Disabilities (the Division) covered in the DDD Tribal Health Program (THP) population, which is managed as a Fee-For-Service (FFS) program along with the Division's oversight of each Administrative Services Subcontractor (AdSS). This policy establishes requirements the Division will follow for compliance with managed care regulation 42 CFR 438.6(e), "Payments to MCOs for and Prepaid Inpatient Health Plans (PIHPs) for enrollees that are a patient in an institution for mental disease."

Definitions

A. Day - A calendar day unless otherwise specified.

B. Institution - An establishment that furnishes (in single or multiple facilities) food, shelter, and some treatment or services, to four or more persons unrelated to the proprietor.

C. Institution for Mental Disease (IMD) - A hospital, nursing facility, or other institution of more than 16 beds that is primarily engaged in providing diagnosis, treatment, or care of persons with mental diseases (including substance use disorders), including medical attention, nursing care, and related services. Whether an institution is an institution for a mental disease is determined by its overall character as that of a facility established and maintained primarily for the care and treatment of individuals with mental diseases, whether or not it is licensed as such. An institution for Individuals with Intellectual Disabilities is not an institution for mental diseases. [42 CFR 435.1010].

D. IMD Stay - The total number of calendar days of an inpatient stay in an institution for mental disease beginning with the admission date through discharge, but not including the date of discharge unless the member expires.

Policy

Medically necessary IMD Stays are covered for individuals under the age of 21 (except as noted below under "Members Turning 21 or 65 Years of Age") and for adults 65 years of age and older. For adult members age 21 and older but under the age of 65 (referred to in this policy as "adult member age 21-64"), coverage is subject to the limitations and requirements outlined in this policy. The provision of inpatient psychiatric or substance use disorder treatment in an IMD must meet the requirements for in lieu of services or settings at 42 CFR 438.3(e)(2)(i) through (iii).

In accordance with 42 CFR 438.6(e), IMD Stays are covered for adult members age 21-64, so long as the IMD Stay is no longer than 15 cumulative days during a calendar month.

The following provider types are considered to be IMDs subject to the limitations and requirements outlined in this policy:

A. B1-Residential Treatment CTR-Secure (17+Beds)

B. B3-Residential Treatment Center-Non-Secure

C. B6-Subacute Facility (17+Beds)

D. 71-Psychiatric Hospital

Requirements

A. Members remain enrolled and eligible for all medically necessary services during the entire IMD Stay whether the stay exceeds 15 cumulative days during a calendar month. The Division is responsible for the payment of these services.

B. For any IMD stay that exceeds 15 days, neither the IMD Stay nor any other medically necessary services provided during the length of that IMD Stay may be paid with Title XIX funding, including administrative funding for Title XIX services.

C. The Division, when responsible for behavioral health services, shall complete and submit to AHCCCS the AHCCCS Contractors Operational Manual *Policy 109 Attachment A – IMD Placement Exceeding 15 days* to the Division, within one business day of identification of an IMD Stay greater than 15 days.

D. Submission of Attachment A will result in a change to the member's physical and behavioral health enrollment/assignment with the Division resulting in an adjustment to the Capitation.

E. The Division shall continue to submit encounters for all medically necessary services, including the IMD Stay, regardless of the length of the IMD Stay, and regardless if AHCCCS recoups the capitation payment for that month; that is, the Division is not permitted to recoup payments to providers. AHCCCS will use encounters to audit Division compliance with this policy. Encounters related to the IMD Stay will not be considered in the reconciliation and reinsurance processes.

F. The Division must maintain a network of providers adequate to provide members with adequate access to behavioral health services and ensure the member receives care in the setting most appropriate for the member's needs.

Capitation Recoupment

A. When an adult member's IMD Stay is longer than 15 cumulative days during the calendar month, AHCCCS will recoup the Division's entire monthly capitation payment for that member.

B. The change to a member's enrollment/assignment to non-Capitated will trigger the recoupment.

C. When two different entities are responsible for physical health services and behavioral health services for the member, AHCCCS must recoup the entire monthly capitation payment from both entities.

D. The capitation recoupment will occur whether the Division pays the IMD.

E. This recoupment applies whether the member is dual eligible or the member has third party insurance coverage.

F. The Division will be notified of the contract type change/recoupment via the 834 and 820 files from AHCCCS.

G. After funds have been recouped, AHCCCS will make a capitation payment to the Division equal to a pro-rated amount of the monthly capitation payment for each day the member is not in an IMD during the calendar month.

Members Turning 21 Or 65 Years of Age

A. The IMD restriction does not apply for a member admitted prior to age 21 and turns 21 during the IMD Stay until the member turns 22 years of age during the IMD Stay. The Division is not required to report an IMD Stay greater than 15 days when the member is admitted prior to age 21 even if the member turns 21 during the same IMD Stay as long as the member is discharged prior to age 22.

B. For members who turn age 65 during an IMD Stay, all the days of the IMD Stay while the member is age 64 must be counted against the 15-day limit, and all the IMD Stay days when the member is 65 must not be counted against the limit.

The Division must report an IMD Stay greater than 15 days when the member is admitted prior to age 65 even if the member turns 65 during the same IMD Stay. After funds have been recouped, AHCCCS will make a capitation payment to the Division equal to a pro-rated amount of the monthly capitation payment for each day the member is age 65 or older during the IMD Stay.

110 MENTAL HEALTH PARITY

REVISION DATES: 2/16/22, 3/24/21
EFFECTIVE DATE: October 1, 2019
REFERENCES: 42 CFR Part 457 and 42 CFR Part 438

PURPOSE

This Policy applies to the Division's internal practices which could impact Mental Health Parity and oversight of each Administrative Services Subcontractor (AdSS) whose contract includes this requirement. This Policy outlines the requirements to achieve and maintain compliance with the Mental Health Parity and Addiction Equity Act of 2008 (MHPAEA) 42 CFR Part 457 and 42 CFR Part 438.

AHCCCS will facilitate Mental Health Parity requirements for Tribal Health Program members who are receiving part of their services through the Division.

DEFINITIONS

Aggregate Lifetime Dollar Limit - A dollar limitation on the total amount of specified benefits that may be paid under a Managed Care Organization (MCO), Prepaid Inpatient Health Plan (PIHP) or Prepaid Ambulatory Health Plan (PAHP).

Annual Dollar Limit - A dollar limitation on the total amount of specified benefits that may be paid in a fiscal year 12-month period under a MCO, PIHP, or PAHP.

Benefit Package - Benefits provided to a specific population group or targeted residents (e.g., individuals determined to have a serious mental illness [SMI]) regardless of the Health Care Delivery System.

Cumulative Financial Requirements - Financial requirements that determine whether or to what extent benefits are provided based on accumulated amounts and included deductibles, and out-of-pocket maximums. Cumulative financial requirements do not include aggregate lifetime or annual dollar limits because these two terms are excluded from the meaning of financial requirements.

Health Care Delivery System - The health care delivery system refers to the structure and organization of covered services and benefit packages available to AdSS members. Delivery systems can be fully integrated (all covered services administered by a single AdSS) or partially integrated (Members enrolled with an AdSS may receive covered services by multiple AdSS or via fee-for-service arrangements).

Medical/Surgical Benefits (M/S) - Items or services for medical conditions or surgical procedures, as defined by the State and in accordance with applicable Federal and State law, but do not include mental health or substance use disorder benefits. Any condition defined by the State as being or not being a medical/surgical condition must be defined to be consistent with generally recognized independent standards of current medical practice. Medical/surgical benefits include long-term care services.

Mental Health Benefits - Items or services for mental health conditions, as defined by the State and in accordance with applicable Federal and State law. Any condition defined by the

State as being or not being a mental health condition must be defined to be consistent with generally recognized independent standards of current medical practice. Mental health benefits include long-term care services.

Substance Use Disorder Benefits - Items or services for substance use disorders, as defined by the State and in accordance with applicable Federal and State law. Any disorder defined by the State as being or not being a substance use disorder must be defined to be consistent with generally recognized independent standards of current medical practice. Substance use disorder benefits include long-term care services.

Treatment Limitations - Limits on benefits based on the frequency of treatment, number of visits, days of coverage, days in waiting period, or other similar limits on the scope or duration of treatment. Treatment limitations include both quantitative treatment limitations, which are expressed numerically (such as 50 outpatient visits per year), and non-quantitative treatment limitations, which otherwise limit the scope or duration of benefits for treatment under a plan or coverage. A permanent exclusion of all benefits for a particular condition or disorder, however, is not a treatment limitation for purposes of this definition.

POLICY

A. MHPAEA Final Rule

The Centers for Medicare and Medicaid Services (CMS) issued the MHPAEA final rule on March 30, 2016. The regulation, in general, prohibits the application of more restrictive limits to Mental Health/Substance Use Disorder (MH/SUD) benefits than to Medical/Surgical (M/S) benefits. MHPAEA specifically:

1. Prohibits the application of annual or lifetime dollar limits to MH/SUD benefits unless aggregated dollar limits apply to at least one third of medical benefits;

2. Prohibits the application of financial requirements (e.g., copays) and Quantitative Treatment Limitations (QTLs) (e.g., day or visit limits) on MH/SUD benefits that are more restrictive than the predominant financial requirement or treatment limitation of that type applied to substantially all M/S benefits in that same classification; and

3. Prohibits the application of Non-Quantitative Treatment Limits (NQTLs) (e.g., prior authorization) on MH/SUD benefits in any classification unless the NQTL, as written and in operation, is applied to the MH/SUD benefits comparably and no more stringently than to M/S benefits in the same classification.

B. Mental Health Parity Analysis Requirements

The Division is responsible for performing the initial and ongoing parity analyses. MH/SUD or M/S benefits are provided to members through the AdSS. The AdSS are responsible for completing initial and ongoing parity analyses and submitting them to the Division. The Division is responsible for ensuring compliance within the Division and for all AdSS.

1. Parity requirements apply to all MH/SUD benefits provided to members.

2. The parity analysis must be conducted and assessed at least annually and ongoing for events warranting a parity analysis as described below.

3. The parity analysis must be conducted for each benefit package regardless of Health Care Delivery System.

   a. The benefit package includes the covered services to ALTCS eligible members.

   b. A benefit package includes M/S and MH/SUD benefits, including long-term care benefits.

C. Standard Parity Requirements

1. Benefit Packages

   Division benefit packages and Health Care Delivery Systems are defined as covered services available to children and adult members who are enrolled with the Division and ALTCS eligible, and Medicare cost sharing. Members up to the age of 21 are designated as children for the purpose of the benefit package.

   The Division shall adhere to all applicable established benefit packages and covered services when conducting the mental health parity analysis and assessing for ongoing compliance with parity requirements.

2. Defining MH/SUD and M/S Benefits

   MH/SUD benefits are items and services for MH/SUD conditions regardless of the type of AdSS or type of provider that delivers the item/service. The Division defines MH/SUD and M/S conditions using the ICD-10-Clincial Modification (ICD- 10). For purposes of parity, MH and SUDs are those conditions in ICD-10, chapter 5, “Mental, Behavioral and Neurodevelopmental Disorders,” sub-chapters 2-7 and 10- 11.

   a. Subchapter 1, “Mental Disorders Due to Known Physiological Conditions,” is excluded from the MH condition definition (and included in the M/S condition definition) because the physiological condition is primary for these diagnostic codes; and

   b. Similarly, sub-chapters 8 and 9 (e.g., intellectual disabilities, specific developmental disorders of speech and language, specific developmental disorders of scholastic skills and pervasive developmental disorders) are excluded from the MH condition definition (and included in the M/S condition definition) because these are neurodevelopmental conditions, which are separate and distinct from mental and behavioral conditions, as indicated by the chapter title.

   The Division uses these definitions for MH/SUD and M/S conditions when conducting the parity analysis and when assessing for ongoing compliance with parity requirements.

3. Mapping Benefits to Classifications

When conducting the parity analysis and when assessing for ongoing compliance with parity requirements, the Division applies the defined classifications outlined below.

In order to conduct the analysis, each service is assigned to one of four classifications: inpatient, outpatient, emergency care, and prescription drug. The Division shall apply the established benefit mapping when conducting the parity analysis. Refer to AHCCCS Contractor Operations Manual (ACOM), Chapter 100, Policy 110, Attachment A (AZ Parity Summary Benefit Package Mapping) for the benefit mapping. Each of the above classifications are defined based on the setting in which the services are delivered. General definitions for each of the classifications include:

a. Inpatient: Includes all covered services or items provided to a member in a setting that requires an overnight stay including behavioral health placement settings;

b. Outpatient: Includes all covered services or items provided to a member in a setting that does not require an overnight stay, which does not otherwise meet the definition of inpatient, prescription drug, or emergency care services;

c. Emergency care: Includes all covered emergency services or items to treat an emergency medical condition delivered in an emergency department setting; and

d. Prescription drugs: Covered medication, drugs, and associated supplies and services that require a prescription to be dispensed, which includes drugs claimed using the NCPDP claim forms.

Parity requirements for financial requirements, quantitative treatment limits, and non-quantitative treatment limits apply by classification (e.g., as inpatient, outpatient, emergency, and pharmacy).

The Division applies the defined classifications when conducting the parity analysis and when assessing for ongoing compliance with parity requirements.

4. Testing MH/SUD Financial Requirements, Quantitative Limits, Annual Dollar Limits, and Non-Quantitative Treatment Limits

a. When applicable, the Division shall conduct limit testing as part of the initial parity analysis and shall re-assess compliance when changes may impact parity compliance. Testing limits includes:

i. Identifying and evaluating financial requirements and quantitative treatment limits using a 2-part, claims-based test (if applicable). The Division determined that the 2-part, claims-based test is not necessary when performing or overseeing the initial mental health parity.

ii. Identifying and testing aggregate lifetime and annual dollar limits (if applicable) using a multi-part claims-based test. The Division did not identify any of these limits applicable to any MH/SUD services and as a result, no review or testing is necessary.

iii. Identifying NQTLs and applying the NQTL information-based test to each NQTL.

b. Quantitative treatment limits are numerical limits on benefits based on the frequency of treatment, number of days, days of coverage, days in a waiting period, or similar limits on treatment scope or duration. In accordance with this Policy, the Division shall not apply quantitative treatment limits to any MH/SUD services in any classification in any benefit package, with the exception that hour limits currently applied to respite services (600 hours/year) and visit limits (15 visits per Contract Year) currently applied to rehabilitative occupational therapy services in the outpatient classification are permissible under the parity requirements.

c. NQTLs are limitations that are not expressed numerically, but otherwise limit the scope or duration of benefits.

i. Examples of NQTLs published in the Final MHPAEA Rule include:

1) Medical management standards (e.g., medical necessity criteria and processes or experimental/investigational determinations);

2) Prescription drug formulary;

3) Admission standards for provider network;

4) Standards for accessing out-of-network providers;

5) Provider reimbursement rates (including methodology);

6) Restrictions based on the location, facility type, or provider specialty;

7) Fail-first policies or step therapy protocols; and

8) Exclusions based on failure to complete a course of treatment.

ii. AHCCCS identified the following NQTLs as part of the initial MHPAEA compliance determination:

1) Utilization management NQTLs,

2) Medical necessity NQTLs,

3) Documentation requirements NQTLS, and

4) Out-of-network/geographic area coverage NQTLs.

iii. The Division shall not impose NQTLs for MH/SUD services in any classification unless, under the policies and procedures of the Division as written and in operation, any processes, strategies, evidentiary standards, or other factors used in applying the NQTL to MH/SUD services in the classification are comparable to, and are applied no more stringently than, the processes, strategies, evidentiary standards, or other factors used in applying the NQTL to M/S benefits in the classification, and

iv. Once NQTLs are identified, the Division shall collect and analyze information about the processes, strategies, evidentiary standards, and other factors applicable to each NQTL, in writing and in operation, relative to M/S and MH/SUD benefits in each classification.

D. Events Warranting a Parity Analysis by the Division or AdSS

1. The Division is responsible for administering a fully integrated contract and shall perform a parity analysis when there is a change in the Division's operations that may impact parity compliance including but not limited to:

   a. Changes to Financial Requirements (FRs) or QTLs;

   b. Changes to Benefit Packages, utilization requirements, covered services, or service delivery structures (i.e., change in the subcontractors performing administrative functions);

   c. Substantive changes to policies or procedures of the Division (or subcontractors performing administrative functions on the Division's behalf) that impact benefit coverage, access to care for provider contracting. The Division shall track, ongoing, all policy changes that are approved by the Division's Policy Review Team and review each for potential Mental Health Parity concerns. If a potential Mental Health Parity concern is identified, the Mental Health Parity Subcommittee will be convened to review the issues and determine the actions needed for correction.

2. If the Division identifies any changes or deficiencies noted in the above, the Division is required to attach the Mental Health Parity analysis for those FR/QTLs and NQTLs impacted by the changes. Utilizing ACOM Policy 110 Attachment C and shall include:

   a. Any actual Parity issues identified,

   b. The FR/QTLs or NQTLs associated with the Mental Health Parity concern,

c. The applicable Benefit Package(s) and affected classification(s), and

d. The nature of the Mental Health Parity compliance issue and the actions taken to address the parity issue.

3. When the Division contracts with any AdSS that are new or newly responsible for the delivery of integrated M/S and MH/SUD services in a benefit package the AdSS shall perform and document a comprehensive parity analysis prior to initiation of services. The results of the analysis shall be submitted to the Division as specified in the AdSS Contract with the Division. The Division shall ensure AdSS compliance with this policy and results of the analysis shall be submitted to AHCCCS as requested by AHCCCS.

4. The AdSS shall report as specified in the AdSS Contract with the Division, utilizing AMPM Policy 1020 Attachment F, a description of the self-monitoring activities for parity compliance in operation, ensuring that FR/QTLs and NQTLs are, in operation and applied no more stringently to MH/SUD benefits than for M/S benefits. The Division shall review reports received from the AdSS to ensure AdSS compliance.

5. The Division shall also report as specified in the AHCCCS Contract, utilizing AMPM Policy 1020 Attachment F, a description of the self-monitoring activities, as well as the Division's oversight of the AdSS, for parity compliance in operation, ensuring that FR/QTLs and NQTLs are, in operation applied no more stringently to MH/SUD Benefits than for M/S Benefits.

6. In the event the Division or the AdSS complete a contract modification, amendment, novation, or other legal act changes which limits, or impacts compliance with the mental health parity requirement, the Division and/or the AdSS shall conduct an additional analysis for mental health parity in advance of the execution of the contract change. Further, the Division and/or the AdSS must provide documentation of how the parity requirement is met, with the submission of the contract change, and how sustained compliance will be achieved. The Division and/or the AdSS must certify compliance with parity requirements prior to the effective date of the contract changes.

7. The AdSS shall report mental health parity deficiencies as specified in the AdSS Contract with the Division and develop a corrective action plan to be in compliance within the same quarter as the submission. The Division shall review the corrective action plan submitted by the AdSS and monitor to ensure compliance.

8. The Division shall report mental health parity deficiencies as specified in the AHCCCS Contract and develop a corrective action plan to be in compliance within the same quarter as the submission.

9. All financial requirements, AL/ADLs, QTLs, and NQTLs must be evaluated as part of the parity analysis by the Division and each AdSS.

10. The Division uses any data collection and documentation template for the parity analysis; however, the following elements must be clearly documented:

a. Methodology, processes, strategies, evidentiary standards, and other factors applied;

b. All financial requirements, AL/ADLs, QTLs and identified NQTLs AdSSs must minimally report NQTL analysis results for prior authorization, concurrent review, medical necessity, outlier, documentation, and out of area criteria, but must also assess and document for the presence of other potential NQTLs:

i. Monitoring mechanisms and aggregated results as applicable (e.g., denial rates);

ii. Findings;

iii. Components of the analysis that are determined to be non-compliant with parity along with a detailed plan to resolve identified deficiencies; and

iv. The Division and each AdSS shall analyze and document all delegated functions that may apply to limit MH/SUD benefits in policy and in operation.

11. If there have been no changes that affect the Division's benefit package, utilization, or Health Care Delivery Systems, the Division shall submit an annual attestation (AHCCCS Contractor's Operations Manual, Policy 110, Attachment B - Mental Health Parity Attestation Statement) certifying ongoing compliance with mental health parity requirements as specified in AHCCCS Contract. These same attachments are also required from each AdSS for delivery to the Division as appropriate.

12. The Division and each AdSS shall make available upon request to members and contracting providers the criteria for medical necessity determinations with respect to MH/SUD benefits. The Division and each AdSS shall also make available to the member the reason for any denial of reimbursement or payment for services with respect to MH/SUD benefits.

13. The Division and each AdSS may be required to respond to inquiries from the Division, AHCCCS or an AHCCCS contracted consultant. Inquiries may include policies and procedures requiring review to determine compliance with mental health parity regulations.

E. Division Oversight of AdSS Mental Health Parity

1. Each AdSS is required to send their Mental Health Parity reports to the Division for review. This will occur at a minimum annually and when changes are made as addressed in this policy. The Division shall review the reports submitted by the AdSS to ensure AdSS compliance.

2. The Division shall review AdSS compliance with Mental Health Parity analyses, methodology, processes, and other related functions during its annual operational review of the AdSS, including but not limited to:

a. The AdSS policies and procedures for monitoring compliance with Mental Health Parity.

b. The AdSS completed analysis demonstrating compliance with Mental Health Parity as outlined in this policy.

c. The AdSS' process when a deficiency is identified and the plan of how the AdSS will come back into compliance.

203 CLAIMS PROCESSING

REVISION DATE: 11/8/2023, 3/30/2022, 10/01/2019

EFFECTIVE DATE: May 13, 2016

REFERENCES: 42 C.F.R. §§ 160, 162, and 164; 42 C.F.R. § 438.242(a)-(b); 42 C.F.R. § 447.45(d)(5)-(6); 42 § C.F.R. 447.46; 42 C.F.R. § 457.1233(d); A.R.S. § 36-2903.01; A.R.S. § 36-2903.01(G); A.R.S. § 36-2904; A.R.S. § 36-2943(D); ACOM 201; ACOM 203; ACOM 412; ACOM 434; AHCCCS Contract

PURPOSE

This policy outlines the requirements for the adjudication and payment of claims for the Division of Developmental Disabilities (the Division).

DEFINITIONS

1. "Clean Claim" means a claim that may be processed without obtaining additional information from the Provider of service or from a third party but does not include claims under investigation for fraud or abuse or claims under review for medical necessity, as defined by A.R.S. § 36-2904.
2. "Member" means the same as "client" as defined by A.R.S. § 36-551.

3. "Medicaid National Correct Coding Initiative Edits" means correct billing code methodologies set by the Centers for Medicare and Medicaid Services that are applied to claims to reduce improper coding and thus reduce improper payments of claims.
4. "Provider" means a person, institution, or group engaged in the delivery of services, or ordering and referring those services, who has an agreement with AHCCCS to provide services to AHCCCS members.
5. "Receipt Date" means the day a claim is received at the Division's specified claim mailing address or received through direct electronic submission to the Division's electronic claims processing system.

POLICY

A. CLAIMS PROCESSING SYSTEMS REQUIREMENTS

1. The Division shall develop and maintain claims processes and systems that ensure the accurate collection and processing of claims, analysis, integration, and reporting of data.
2. The Division shall ensure that claims processes and systems generate information in the following areas:
    a. Service utilization;
    b. Claim disputes;

c. Member grievances and appeals; and

d. Disenrollment for reasons other than loss of Medicaid eligibility.

3. The Division shall inform Providers of the appropriate place to send claims at the time of notification or prior authorization using the following mechanisms:

a. The Division's subcontract;

b. The Division's Provider manual;

c. The Division's website; or

d. Other Provider platforms.

4. The Division shall recognize the Receipt Date of the claim as the date stamped on the claim, or the date electronically received by the Division.

5. The Division shall recognize the paid date of the claim as the date on the check or other form of payment.

B. CLAIM TIMELY FILING

1. The Division shall, unless a contract specifies otherwise, adjudicate claims for each form type as follows:

a. 95% of all Clean Claims within 30 days of receipt of the Clean Claim; and

b. 99% within 60 days of receipt of the Clean Claim.

2. The Division shall not pay the following claims as specified in A.R.S. § 36-2904(G):

a. Claims initially submitted more than six months after date of service for which payment is claimed or after the date that eligibility is posted, whichever date is later; or

b. Claims submitted as Clean Claims more than 12 months after date of service for which payment is claimed or after the date that eligibility is posted, whichever date is later.

3. Regardless of any subcontract with an Arizona Health Care Cost Containment System (AHCCCS) Managed Care Organization (MCO), when one MCO recoups a claim because the claim is the payment responsibility of another AHCCCS MCO, the Provider may file a Clean Claim for payment with the responsible MCO.

4. If the Provider submits a Clean Claim to the responsible MCO, the Provider shall do so not later than the following timelines:

a. 60 days from the date of the recoupment;

b. 12 months from the date of service; or

c. 12 months from the date that eligibility is posted;

whichever date is later.

5. The Division shall not deny a claim on the basis of lack of timely filing if the Provider submits the claim within the timeframes stated in item 3 of this section.

6. The Division shall process a claim for payment if the AHCCCS Director's decision reverses a decision to deny, limit, or delay authorization of services, and the disputed services were received while an appeal was pending.

a. The Provider shall have 90 days from the date of the reversed decision to submit a Clean Claim to the Division for payment.

b. The Division shall not deny claims for untimely filing if the claims are submitted within 90 days from the date of the reversed decision.

c. Additionally, the Division shall not deny claims submitted as a result of a reversed decision because a Member failed

to request continuation of services during the appeal or hearing process.

7. The Division shall adhere to the claim payment requirements in this policy for both contracted and non-contracted Providers.

C. DISCOUNTS

1. The Division shall, unless a subcontract specifies otherwise, apply a quick pay discount of 1% on hospital claims paid within 30 days of the date on which the Clean Claim was received (A.R.S. § 36-2903.01(G)).
2. The Division shall apply quick pay discounts to any acute hospital inpatient, outpatient, and freestanding emergency department claims billed on a CMS 1450 (UB-04) claim form.

D. INTEREST PAYMENTS

1. The Division, in the absence of a subcontract specifying other late payment terms, shall pay interest on late payments.
2. The Division shall pay interest on late payments for hospital Clean Claims as follows:

a. The Division shall pay slow payment penalties or interest on payments made after 60 days of receipt of the Clean Claim.

b. The Division shall pay interest at the rate of 1% per month for each month or portion of a month from the 61st day until the date of payment (A.R.S. § 36-2903.01).

c. The Division shall apply slow pay penalties or interest to any acute hospital inpatient, outpatient, and freestanding emergency department claims billed on a CMS 1450 (UB-04) claim form.

3. The Division shall adjudicate a claim for authorized services submitted by a licensed skilled nursing facility, an assisted living ALTCS Provider, or a home and community based (HCBS) ALTCS Provider within 30 calendar days after receipt by the Division.

4. The Division shall pay interest on payments made after 30 days of receipt of the Clean Claim for licensed skilled nursing facility, assisted living ALTCS, or HCBS ALTCS as follows:

a. At the rate of 1% per month; and

b. Prorated on a daily basis from the date the Clean Claim is received until the date of payment.

5. The Division shall, for non-hospital Clean Claims, pay interest on payments made after 45 days of receipt of the Clean Claim as follows:
   a. At the rate of 10% per annum; and
   b. Prorated daily from the 46th day until the date of payment.
6. The Division shall pay interest on all claim disputes as appropriate based on the date of the receipt of the original Clean Claim submission,not the claim dispute.
7. The Division shall report the interest paid as directed in the AHCCCS Encounter Manual and the AHCCCS Claims Dashboard Reporting Guide.

E. ELECTRONIC PROCESSING REQUIREMENTS

1. The Division shall accept and generate required HIPAA-compliant electronic transactions from or to any Provider or the assigned representative interested in and capable of electronic submission of:
   a. Eligibility verifications;

b. Claims;

c. Claims status verifications; and

d. Prior authorization requests; or

e. The receipt of electronic remittance.

2. The Division shall make claim payments via electronic funds transfer (EFT).

3. The Division shall accept electronic claim attachments.

F. REMITTANCE ADVICES

1. The Division shall generate an electronic remittance advice related to the payments or denials to Providers that include at a minimum:

a. The reason(s) for denials and adjustments;

b. A detailed explanation or description of all denials; payments, and adjustments;

c. The amount billed;

d. The amount paid;

e. Application of coordination of benefits COB and copays;

f. Providers rights for claim disputes;

g. Detailed instructions and timeframes for the submission of claims disputes and corrected claims; and

h. A link or supplemental file where claims dispute or corrected claims submission information is explained.

2. The Division shall send the related remittance advice with the payment, unless the payment is made by EFT.

3. The Division shall send any remittance advice related to an EFT to the Provider no later than the date of the EFT.

G. GENERAL CLAIMS PROCESSING REQUIREMENTS

1. The Division shall use nationally recognized methodologies to correctly pay claims including:

a. Medicaid National Correct Coding Initiative for professional, ambulatory surgery centers, and outpatient services;

b. Multiple procedure or surgical reductions; and

c. Global day evaluation and management bundling standards.

2. The Division’s claims payment system shall assess and apply data-related edits, including:

a. Benefit package variations;

b. Timeliness standards;

c. Data accuracy;

d. Adherence to AHCCCS policy;

d. Provider qualifications,

e. Member eligibility and enrollment; and

f. Over-utilization standards.

3. The Division shall, if a claim dispute is overturned in full or in part, reprocess and pay the claim(s):

   a. In a manner consistent with the decision; and

   b. Within 15 business days of the decision.

4. The Division's claims payment system shall not require a recoupment of a previously paid amount when:

   a. The Provider's claim is adjusted for data correction; excluding payment to a wrong Provider; or

   b. An additional payment is made.

5. The Division shall submit encounters in accordance with AHCCCS' standards and thresholds.

6. The Division shall adhere to the following requirements when processing claims:

a. Medicare cost sharing for Members covered by Medicare and Medicaid;

b. COB and third party liability requirements per the AHCCCS Contract and ACOM 434;

c. Claims recoupments and refunds requirements per the AHCCCS Contract, ACOM Policy 412, and the AHCCCS Claims Dashboard Reporting Guide; and

d. All Health Insurance, Portability, and Accountability Act (HIPAA) requirements according to 45 C.F.R. §§ Parts 160, 162, and 164.

7. The Division, when cost avoiding a claim, shall apply the following payment provisions:

a. Claims from Providers contracted with the Division: The Division shall pay the difference between the contracted rate and the primary insurance paid amount, not to exceed the Division’s contracted rate.

b. Claims from Providers not contracted with the Division: The Division shall pay the difference between the AHCCCS capped-fee-for-service rate and the primary insurance paid

amount, not to exceed the AHCCCS capped-fee-for claims processing by Administrative Services Subcontractors (AdSS) Contractors.

H. CLAIMS SYSTEM AUDITS

1. The Division shall regularly audit payments to contracted and non-contracted Providers to verify that:
   a. Payments are accurate per the Provider contract terms or letter of authorization; and
   b. Emergency services Providers are paid at the current AHCCCS fee-for-service rate for non-contracted Providers.
2. The Division shall ensure audit reports are shared with the Business Operations Administrator, Business Operations Deputy Administrator, and Corporate Compliance.
3. The Division shall correct deficiencies noted in claims system audit reports and issue corrective action plans as applicable to contracted and non-contracted Providers.
4. The Division shall audit three months of claims data for both contracted and non-contracted Providers.

5. The Division shall utilize HHS-OIG RAT-STATS to generate statistically significant random samples for claims systems audit reviews.
6. The Division shall conduct the interest paid audit in January, April, July, and October.
7. The Division shall conduct the negotiated rate audit in February, May, August, and November.
8. The Division shall conduct the override audit in March, June, September, and December.
9. The Division shall regularly audit contracted Providers, both large groups and individual practitioners:
    a. At least once every five-year period;
    b. Any time a contract change is initiated; and
    c. Within six months of onboarding new Providers
10. The Division and DES-Internal Audit Administration (DES-IAA) shall adhere to the AHCCCS approved Corporate Compliance audit schedule for contracted Providers.
11. DES-IAA shall also conduct Provider audits based upon corrective action plans initiated by the Division.

12. The Division shall conduct annual audits for compliance with the Deficit Reduction Act of 2005.
13. The Division shall require contracted Providers that receive at least five million dollars in Medicaid payments annually to establish written policies for all employees.
    a. The Division shall require contracted Providers to submit the following policy documentation that includes detailed information of the following:
        i. Federal False Claims Act;
        ii. Remedies for false claims and statements;
        iii. Any state laws pertaining to civil or criminal penalties for false claims and statements;
        iv. Whistleblower protections under Federal False Claims Act and state laws; and
        v. Role of such laws in preventing and detecting fraud, waste and abuse.
    b. Organization compliance program
    c. Employee handbook, with specific discussion of:
        i. The State and federal laws referenced above;

ii. The rights of employees to be protected as whistleblowers; and

iii. The entity's policies and procedures for detecting fraud, waste, and abuse.

I. ADSS CLAIMS PROCESSING

The Division shall contract with health plans and delegate the processing of acute care claims. Refer to the AdSS Operations Manual, 203 Claims Processing policy for further details.

205 GROUND AMBULANCE TRANSPORTATION REIMBURSEMENT REQUIREMENTS FOR NON-CONTRACTED PROVIDERS

EFFECTIVE DATE: 11/6/2019

REFERENCES: 42 CFR 414.605, A.R.S. §36-2201, 9 A.A.C. 22, Article 211, A.A.C. R9-25-101(18), 42 CFR 438.114(a), A.R.S. §36-2202, A.R.S. §36-2204, and A.R.S. §36-2212, 9 A.A.C. 22, A.R.S. § 36-2239(H), and AMPM Policy 310-BB.

Purpose

To provide ground ambulance transportation reimbursement requirements. It is limited to the Division of Developmental Disabilities (the Division) and ambulance or emergent care transportation providers when a contract does **not** exist between these entities.

Definitions

A. Advanced Life Support (ALS) - 42 CFR 414.605, describes ALS, level 1 (**ALS1**) as transportation by ground ambulance vehicle, medically necessary supplies and services, either an ALS assessment by ALS personnel or provision of at least one ALS intervention. Advanced life support, level 2 (**ALS2**) means either transportation by ground ambulance vehicle, medically necessary supplies and services, and the administration of at least three medications by intravenous push/bolus or by continuous infusion, excluding crystalloid, hypotonic, isotonic, and hypertonic solutions (Dextrose, Normal Saline, Ringer's Lactate); or transportation, medically necessary supplies and services, and the provision of at least one of the following ALS procedures:

- Manual defibrillation/cardioversion,
- Endotracheal intubation,
- Central venous line,
- Cardiac pacing,
- Chest decompression,
- Surgical airway, or
- Intraosseous line.

B. Ambulance - Ambulance as defined in A.R.S. §36-2201.

C. Basic Life Support (BLS) - 42 CFR 414.605, describes BLS as transportation by ground ambulance vehicle that has medically necessary supplies and services, plus the provision of BLS ambulance services. The ambulance must be staffed by at least two people who meet the requirements of state and local laws where the services are being furnished. Also, at least one of the staff members must be certified, at a minimum, as an emergency medical technician-basic (EMT-Basic) by the State of local authority where the services are furnished and be legally authorized to operation all lifesaving and life-sustaining equipment on board the vehicle.

D. Emergency Ambulance Services - Emergency ambulance services are as described in 9 A.A.C. 22, Article 211.

E. Emergency Ambulance Transportation - Ground or air ambulance services that are medically necessary to manage an emergency physical or behavioral health condition and which provide transport to the nearest appropriate facility capable of treating the DDD member's condition.

F. Emergency Medical Care Technician (EMCT) - As defined in A.A.C. R9-25-101(18).

G. Emergency Medical Condition - A medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson who possesses an average knowledge of health and medicine could reasonably expect the absence of immediate medical attention to result in: a) placing the patient's health (or, with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy, b) serious impairment to bodily functions, or c) serious dysfunction of any bodily organ or part [42 CFR 438.114(a)].

H. Emergency Medical Services - Covered inpatient and outpatient services provided after the sudden onset of an emergency medical condition as defined above. These services must be furnished by a qualified provider and must be necessary to evaluate or stabilize the emergency medical condition [42 CFR 438.114(a)].

Policy

Ambulance providers that have fees established by the Arizona Department of Health Services (ADHS) are reimbursed by the Division at a percentage, prescribed by law, of the Ambulance provider's ADHS-approved fees for covered services. These rates are contained in the AHCCCS Capped Fee for Service (FFS) Fee Schedule for Certificate of Necessity Providers and will be used by the Division for reimbursement when no contract exists with the provider.

For Ambulance providers, whose fees are not established by ADHS, and no contract exists with the provider, the AHCCCS Capped FFS Fee Schedule is for Ground Transportation will be used by the Division.

Emergency Ground Ambulance Claims are Subject to Medical Review

Claims are submitted with documentation of medical necessity and a copy of the trip report, with the following information:

A. Medical condition, signs, symptoms, procedures, and treatment.

B. Transportation origin, destination, and mileage (statute miles).

C. Supplies.

D. Necessity of attendant, if applicable.

E. Name and DHS numbers of the attendants providing care along with the signature of the trip report author.

Claims submitted without such documentation are subject to denial. The Division will process the claims within the timeframes established in 9 A.A.C. 22, Article 7. *Emergency* transportation ordered by the Division cannot be denied upon receipt. This claim is not subject to further medical review.

Criteria and Reimbursement Processes for Advanced Life Support (ALS) and Basic Life Support

A. Advanced Life Support (ALS) level

1. In order for Ambulance services to be reimbursable at the ALS level, all of the following criteria shall be satisfied**:**

   a. The Ambulance shall be ALS licensed and certified in accordance with A.R.S. §36**-**2202, A.R.S. §36**-**2204, and A.R.S. §36**-**2212,

   b. Emergency Medical Care Technician (EMCT) are present and EMCT services/procedures are medically necessary, based upon the member's symptoms and medical condition at the time of the transport, and

   c. EMCT services/procedures and authorized treatment activities were provided.

B. Basic Life Support (BLS) level

1. In order for Ambulance services to be reimbursable at the BLS level, the following requirements will be met:

   a. The Ambulance must be BLS licensed and certified in accordance with A.R.S. §36**-**2212 and A.A.C. R9-25-201.

   b. EMCT are present

   c. EMCT services/procedures, are medically necessary, based upon the member's symptoms and medical condition at the time of the transport.

   d. EMCT services/procedures and authorized treatment activities were provided.

Claims submitted without such documentation are subject to denial. The Division processes the claims within the timeframes established in 9 A.A.C. 22, Article 7. Emergency transportation ordered by the Division cannot be denied upon receipt. This claim is not subject to further medical review.

Non-Emergent Ground Ambulance Transportation Payment Provisions

A. Non-emergent Ambulance transportation is subject to review for medical necessity by the Division. Medical necessity criteria is based upon the medical condition of the member. Non- emergent transportation by Ambulance is appropriate if:

1. Documentation supports that other methods of transportation are

contraindicated.

2. The member's medical condition, regardless of bed confinement, requires the medical treatment provided by the qualified staff in an Ambulance.

Non-emergent transportation ordered by the Division cannot be denied upon receipt. This claim is not subject to further medical review.

B. At the Division's discretion, non-emergent Ambulance transport may not require prior authorization or notification. This may include after-hours calls. An example is an Ambulance company which receives a call from the emergency room to transport a nursing facility member back to the facility and the Division cannot be reached.

All hospital-to-hospital transfers are paid at the BLS level unless the transfer meets ALS criteria. This includes transportation between general and specialty hospitals.

C. Transportation reimbursement is adjusted to the level of the appropriate alternative transportation when circumstances do not necessitate an Ambulance transport, or the services rendered at the time of transport are deemed not medically necessary. Ambulance providers that have fees established by ADHS are reimbursed in accordance with A.R.S. § 36-2239(H).

Refer to *AMPM Policy 310-BB* for additional requirements for coverage of transportation.

302 PRIOR PERIOD COVERAGE RECONCILIATION: ADMINISTRATIVE SERVICES SUBCONTRACTORS

EFFECTIVE DATE: October 1, 2018

REFERENCES: A.R.S. § 36-2905 and § 36-2944.01; A.A.C. R9-22-101; Patient Protection and Affordable Care Act, Section 9010; ACOM 412

Due to the uncertainty regarding actual utilization and medical cost experience during the Prior Period Coverage (PPC) period, the Division intends to limit the financial risk to its Administrative Services Subcontractors (ADSS). The PPC Reconciliation applies to dates of service effective in Contract Year Ending (CYE) 19 and Forward, and is based upon prior period expenses and prior period net capitation as described in this policy. The Division will recoup/reimburse a percentage of the AdSS's profit or loss for all risk groups as described below. All profit/loss sharing is based on adjudicated encounter data and subcapitated/block purchase expense reports. This reconciliation is performed annually on a contract year basis, which is October 1 to September 30.

Definitions

A. Access to Professional Service Initiative (APSI) - Effective October 1, 2018, the Division seeks to provide enhanced support to certain professionals in order to (1) preserve and enhance access to these professionals who deliver essential services to members and (2) support professionals who are critical to professional training and education efforts. APSI is a program to preserve and promote access to medical services through a uniform percentage increase to the AdSS's rates for professional services provided by qualified physicians and non-physician professionals affiliated with designated hospitals who meet the definition outlined in ACOM Policy 325.

B. Administrative Component - The administrative component is equal to the administrative Per Member Per Month (PMPM) built into the rates multiplied by the actual PPC member months for the contract year being reconciled.

C. Health Insurer Fee Capitation Adjustment - An amount equal to the capitation adjustment for the year being reconciled that accounts for the Contractor's liability for the excise tax imposed by section 9010 of the Patient Protection and Affordable Care Act and the premium tax and any other state or federal taxes associated with that portion of the capitation rate.

D. Prior Period Coverage (PPC) - The period of time prior to the member's enrollment, during which a member is eligible for covered services. The timeframe is from the effective date of eligibility until the date the member is enrolled with an AdSS. Refer to A.A.C. R9-22-101. If a member made eligible via the Hospital Presumptive Eligibility (HPE) program is subsequently determined eligible for the Division via the full application process, prior period coverage for the member will be covered by AHCCCS Fee-For-Service (FFS) and the member will be enrolled with the Contractor only on a prospective basis. The time period for prior period coverage does not include the time period for prior quarter coverage.

E. PPC Capitation - Capitation payment for the period of time from the first day of the

month of application or the first eligible month, whichever is later, to the day a member is enrolled with the Contractor.

F. PPC Medical Expense - Total expenses covered under the contract for services provided during the PPC time period, which are reported through **fully adjudicated encounters**. This will exclude APSI expenses.

G. PPC Net Capitation - PPC capitation less the administrative component, the health insurer fee capitation adjustment, APSI capitation and the premium tax component.

H. PPC Reconciliation Risk Groups - Populations subject to this reconciliation include all PPC risk groups except State Only Transplants and Adult Group above 106% FPL (Adults > 106%) (formerly known as Newly Eligible Adults or NEAD) (Acute Care Contractors Only).

I. Premium Tax - The premium tax is equal to the tax imposed pursuant to A.R.S. § 36-2905 and §36-2944.01 for all payments made to AdSSs for the Contract Year.

Policy

A. General

1. The reconciliation must relate solely to fully adjudicated PPC medical expense for all PPC reconciliation risk groups. The enhanced portion of a payment for Primary Care Enhanced Payment (PCP Parity) that is subject to AHCCCS cost settlement will not be included in the reconciliation, the non-enhanced portion of the payment will be included in the reconciliation. The enhanced portion of a payment for APSI that is subject to a unique reconciliation as outlined in ACOM Policy 325 will also be excluded from this reconciliation.

2. The reconciliation will limit the AdSS's profits and losses to 2% of the AdSS's PPC net capitation for all PPC reconciliation risk groups combined (See Attachment A for calculation). Any losses in excess of 2% will be reimbursed to the AdSS, and likewise, profits in excess of 4% will be recouped. The full PPC period is eligible for this reconciliation.

B. Division Responsibilities

1. No less than six months after the contract year to be reconciled, the Division will perform an initial reconciliation. The reconciliation will be calculated as follows:

   PPC Net Capitation

   Less: PPC Medical Expense

   Equals: Profit/Loss to be reconciled adjusted for PCP Parity

   The Division may incorporate completion factors in the initial reconciliation based on internal data available at the time of the reconciliation.

PPC capitation and medical expense to be included in the reconciliation are based on the **date of service** for the contract year being reconciled.

2. The Division will compare fully adjudicated encounter information to financial statements and other AdSS submitted files for reasonableness.

3. The Division will provide the AdSS with the data used for the initial reconciliation and provide a set time period for review and comment by the AdSS. Upon completion of the review period, the Division will evaluate AdSS comments and make any adjustments to the data or reconciliation as warranted. The Division may then process partial distributions/recoupments through a future monthly capitation payment.

4. A second and final reconciliation will be performed no less than 12 months after the end of the contract year to be reconciled. This will allow for completion of the claims lag and encounter reporting. The Division will provide the AdSS with the data used for the final reconciliation and provide a set time period for review and comment by the AdSS. Upon completion of the review period, the Division will evaluate AdSS comments and make any adjustments to the data or reconciliation as warranted.

5. Any amount due to or due from the AdSS as a result of the final reconciliation that was not distributed or recouped as part of the initial reconciliation will be paid or recouped through a future monthly capitation payment.

C. AdSS Responsibilities

1. The AdSS must submit encounters for PPC medical expense and those encounters must reach a fully adjudicated status by the required due dates. The Division will only use fully adjudicated encounters reported by the AdSS to determine the medical expenses used in the reconciliation.

2. The AdSS must maintain financial statements that separately identify all PPC transactions, and must submit such statements as required by contract and in the format specified in the AHCCCS Financial Reporting Guide.

3. The AdSS must monitor the estimated PPC reconciliation receivable/payable and record appropriate accruals on financial statements submitted to the Division on a quarterly basis.

4. It is the AdSS's responsibility to identify to the Division any encounter data issues or necessary adjustments by the initial reconciliation due date. It is also the responsibility of the AdSS to correct (including adjudication of corrected encounters) any identified encounter data issues no later than 12 months after the end of the contract year being reconciled. Reconciliation data issues identified that are the result of an error by the Division will be corrected prior to the final reconciliation.

5. The AdSS must submit any additional data as requested by the Division for reconciliation purposes (e.g. encounter detail file).

6. If the AdSS performs recoupments/refunds/recoveries on PPC claims, the related encounters must be adjusted (voided or void/replaced) pursuant to ACOM Policy 412. The Division reserves the right to adjust any previously issued reconciliation results for the impact of the revised encounters and recoup any amounts due to the Division. If the AdSS does not submit the revised encounters within the required timeframe, the Division may recoup the estimated impact on the reconciliation and reserves the right to sanction the AdSS.

305 PERFORMANCE BOND AND EQUITY PER MEMBER REQUIREMENTS

EFFECTIVE DATE: October 1, 2019
REFERENCES: A.R.S. § 35-155

The Division contracts with Administrative Services Subcontractors (AdSS) and delegate's responsibility for providing certain services in a manner that is compliant with law, its contract, and Division policy. See AdSS Operations Manual (same policy number and name as stated above) for the Division policy governing AdSS responsibilities regarding this topic.

314 AUTO-ASSIGNMENT ALGORITHM

EFFECTIVE DATE: October 1, 2019

This policy describes the method used to auto-assign members to an Administrative Services Subcontractor (AdSS) and the assignment of available models.

A. Prior to auto-assignment to an AdSS, assignment to a model must be completed.

1. Regarding Annual Enrollment Choice, members who are newly eligible for the Division and ALTCS, and members already enrolled in a plan, may select an available model prior to the start of a new contract.

2. If the member does not select an available model, the Division will assign to Model A.

B. Upon award of a new contract, the Division will auto-assign members as follows:

1. Prior to the start of the contract (choice period), the Division gives current members a choice to select from the newly awarded AdSS contractors.

2. If a member does not select an AdSS during the choice period and the member's current AdSS is awarded a contract, the Division assigns the member to the same AdSS.

3. If a member does not select an AdSS during the choice period and the member's current AdSS is NOT awarded a contract, the Division reassigns the member to one of the newly contracted AdSS.

4. Auto-assignment to a newly contracted AdSS will continue until the number of members assigned to the newly contracted AdSS reaches 50% of the number of members assigned to the AdSS that continued to contract.

5. If all AdSS are new, the Division gives the members a choice to select an AdSS prior to the start of the contract.

C. Ongoing, the Division will auto assign to the available AdSS in a revolving sequence. The Division may change the auto assignment process at any time during the term of the contract in response to AdSS-specific issues (e.g., imposition of an enrollment cap), when in the best interest of the ALTCS Program and/or the state, or to recognize and reward AdSS performance across a variety of factors of importance to the Division.

317 CHANGE IN ORGANIZATIONAL STRUCTURE

REVISION DATE: 10/1/2018

EFFECTIVE DATE: May 13, 2016

REFERENCES: ACOM Policy 438, ACOM 439, ACOM 103; AHCCCS Contract Attachment F3, Contractor Chart of Deliverables, AHCCCS Contract Section D, Corporate Compliance; 42 CFR 106, 42 CFR Subpart B

Purpose

This policy identifies the requirements for submitting changes in the Division's organizational structure resulting from an act of the Governor of the State of Arizona or the Arizona State Legislature or resulting from a planned change in a Management Service Agreement (MSA) Subcontractor. This policy also identifies the Division's role in monitoring and evaluating changes in organizational structure, as defined below, for a Management Service Agreement subcontractor.

Definitions

A. Acquisition – an acquiring, by one company, of all of a target company's assets, capital, or stock.

B. Administrative Services Subcontract - agreement that delegates any of the requirements of the contract with the Division, including, but not limited to the following:

1. Claims processing, including pharmacy claims
2. Credentialing, including those requirements for only primary source verification
3. Management Service Agreements (MSAs)
4. Service Level Agreements with any division or subsidiary of a corporate parent owner.

Providers are not AdSS.

C. Articles of Incorporation - basic legal instrument required to be filed with the state upon incorporation of a business (sometimes also referred to as the Certificate of Incorporation or the Corporate Charter).

D. Change In Organizational Structure - any of the following:

1. Acquisition
2. Change in Articles of Incorporation
3. Change in ownership
4. Change of MSA subcontractor (to the extent management of all or substantially all plan functions has been delegated to meet Division contractual requirements)

5. Joint venture

6. Merger

7. Reorganization

8. State agency reorganization resulting from an act of the Governor of the State of Arizona or the Arizona State Legislature

9. Other applicable changes that may cause a change in any of the following:

   a. Employer Identification Number/Tax Identification Number (EIN/TIN)

   b. Critical member information, including the website, member or provider handbook and member ID card

   c. Legal entity name.

E. Change in Ownership - any change in the possession of equity in the capital, stock, profits, or voting rights, with respect to a business such that there is a change in the persons or entities having the controlling interest of an organization, such as changes that result from a merger or acquisition, or, with respect to non- stock corporations (e.g., non-profit corporations), a change in the members or sponsors of the corporation or in the voting rights of the members or sponsors of the corporation.

F. Joint Venture - business arrangement in which two or more parties agree to pool their resources for the purpose of accomplishing a specific task. This task can be a new project or any other business activity. In a joint venture, each of the participants is responsible for profits, losses and costs associated with it. However, the venture is its own entity, separate and apart from the participants' other business.

G. Management Service Agreement (MSA) - type of subcontract with an entity in which the entity's management delegates all or substantially all management and administrative services necessary.

H. Merger - Two companies join together to form a single entity, using both companies' assets or stock, or, for non-stock corporations (e.g., non-profit corporations), the conversion of memberships, sponsors or their voting rights. Both companies cease to exist separately and new stock is issued for the resulting organization or, for non-stock corporations (e.g., non-profit corporations), memberships or sponsors are combined or their voting rights are transferred to the new corporation.

I. Performance Bond - A cash deposit with the State Treasurer or a financial instrument secured by the AdSS in an amount designated by the Division to guarantee payment of AdSS claims.

J. Reorganization - An arrangement where a company attempts to restructure its business to ensure it can continue operations. A company restructuring may work with its creditors to restate its assets and liabilities which may be an attempt to avoid a bankruptcy.

Change in Organizational Structure

A change in organizational structure includes any of the following:

A. Acquisition

B. Change in Articles of Incorporation

C. Change in Ownership

D. Change of MSA Subcontractor

E. Joint Venture

F. Merger

G. Reorganization

H. Other applicable changes that may cause:

1. A change in the Employer Identification Number/Tax Identification Number (EIN/TIN)

2. Changes in critical member information, including the website, member or provider handbook, and member ID card, or

3. A change in legal entity name.

In addition, a change in organizational structure may require a contract amendment to the Division's contract with AHCCCS. If the Division does not obtain prior approval, or AHCCCS determines that a change in the Division's organizational structure is not in the best interest of the state, AHCCCS may terminate the contract. Similarly, a change in organizational structure may require a contract amendment to the AdSS contract with the Division. If the AdSS does not obtain prior approval, or the Division determines that a change in the AdSS organizational structure is not in the best interest of the state, the Divisiion may terminate the contract. The Division may offer open enrollment to the members assigned to the AdSS should a change in organizational structure occur. The Division will not permit one organization to own or manage more than one contract within the same line of business in the same Geographic Service Area (GSA).

Transition Plan

The Division submits a summary of all changes in organizational structure and a transition plan to AHCCCS 180 days prior to the effective date of the change.

Items in the transition plan, for which information is not yet available for submission, or is still considered draft, must be noted and submitted, or resubmitted, to AHCCCS no later than 90 days prior to the effective date.

As part of the transition plan, the Division will complete an assessment of the following:

A. Any potential interruption of services to members including steps to ensure there are no interruptions

B. The ability to maintain and support the contract requirements

C. Major functions of the Division, as well as Medicaid programs, are not adversely affected

D. The integrity of a fair, competitive procurement process for MSA Subcontractors.

Notification to AHCCCS

When notifying AHCCCS, the considerations listed above, and the following information is included in the summary:

A. Any material change to operations as specified in ACOM Policy 439 and AHCCCS Contract, Section D

B. The state or federal legislation, rule, or action that necessitates a change in Organizational Structure

C. A description of the following:

1. Any changes to the management and staffing of the organization currently overseeing services provided under the contract

2. Any changes to existing Management Services Subcontracts

3. Any changes to the administration of critical components of the organizations, information systems, prior authorization, claims processing, or grievances

4. The plan for communicating the change to members, including a draft notification to be distributed to affected members and providers

5. The planned changes to critical member information, including the website, member and provider handbook, and member ID card

6. Any anticipated changes to the network

7. Any changes in federal or state funding that directly impact the Medicaid line of business.

D. Upon AHCCCS approval of the transition plan, any additional information requested by AHCCCS will be submitted within 120 days of the change, as specified in Contract, Attachment F3, Contractor Chart of Deliverables.

The Division submits the following no later than 45 days prior to the effective date of the change in organizational structure and commencement of operations under the new structure, as specified in Contract, Attachment F3, Contractor Chart of Deliverables:

A. Information regarding the Disclosure of Ownership and Control

B. Disclosure of Information on Persons Convicted of a Crime in accordance with 42CFR 455, Subpart B, 42 CFR 455.436, State medicated Director Letters 08-003 and 09-001

C. AHCCCS Contract Section D, Corporate Compliance, and AHCCCS ACOM Policy 103

For a change of MSA Subcontractor, the Division follows the process for the review and approval of the new MSA Subcontractor as outlined in AHCCCS ACOM Policy 438.

Changes in Organizational Structure for an MSA Subcontractor

MSA Subcontractors that also have a contract with AHCCCS must notify the Division at the same time notification is given to AHCCCS. As appropriate, the Division must collaborate with AHCCCS in monitoring and evaluating the transition plan.

The Division evaluates and monitors the transition plan for MSA Subcontractors that do not have a contract with AHCCCS.

320 – HEALTH INSURER PROVIDER FEE

EFFECTIVE DATE: April 29, 2020

REFERENCES: A.R.S. § 36-2905, Section 9010 of the Patient Protection and Affordable Care Act; IRS Form 8963; ACOM Policy 320 Attachment A and Attachment B; Section F3, Contractor Chart of Deliverables

The purpose of this Policy is to define what the Division will submit to AHCCCS and the process by which AHCCCS will provide funding to the Division for the Health Insurance Provider Fee.

The Division contracts with Administrative Services Subcontractors (AdSS) and delegates responsibility excluding Indian Health Services, for providing certain services in a manner that is compliant with law, its contract, and Division policy. See AdSS Operations Manual (Chapter 320, Health Insurer Fee) for the Division policy governing AdSS responsibilities regarding this topic.

321 PAYMENT REFORM - E-PRESCRIBING

EFFECTIVE DATE: 10/01/2019

REFERENCES: AHCCCS Contract #YH6-0014 Section D, Program Requirements, E-Prescribing. ACOM 321 Payment Reform- E-Prescribing.

The Division contracts with Administrative Services Subcontractors (AdSS) and delegates responsibility excluding Indian Health Services, for providing certain services in a manner that is compliant with law, its contract, and Division policy. See AdSS Operations Policy 321 Payment Reform – E-Prescribing for the Division policy governing AdSS responsibilities regarding this topic.

404 CONTRACTOR WEBSITE AND MEMBER INFORMATION

REVISION DATE: 1/10/2024, 10/26/2022

REVIEW DATE: 8/4/2023

EFFECTIVE DATE: October 1, 2019

REFERENCES: 42 CFR 438.10;42 CFR 438.10(c)(4)(ii); 42 CFR 438.310(d)(3);42 CFR 438.10(d)(4); 42 CFR 438.10(f)(1); 42 CFR 457.1207; A.R.S. § 46-297; A.A.C R9-22-504; ACOM 404; ACOM 404, Attachment A , Attachment B , Attachment C ; ACOM 406, Attachment B,

PURPOSE

This policy establishes requirements for the Division of Developmental Disabilities' (Division) Member information and the approval process for Member Information Materials developed or used by the Division. This policy pertains to oral and written communication disseminated to the Division's enrolled Members, and to the content of the Division's website.

DEFINITIONS

1. "Administrative Services Subcontract/Subcontractor" or "AdSS" means an agreement that delegates any of the requirements of the Contract with AHCCCS, including, but not limited to the following:

a. Claims processing, including pharmacy claims;

b. Pharmacy Benefit Manager (PMB);

c. Dental Benefit Manager;

d. Credentialing, including those for only primary source verification;

e. Medicaid Accountable Care Organization (ACO);

f. Service Level Agreements with any Division or Subsidiary of a corporate parent owner; and

g. CHP and DDD Subcontracted Health Plan.

h. A person, individual or entity, who holds an Administrative Services Subcontract is an Administrative Services Subcontractor. Providers are not Administrative Services Subcontractors.

2. "Dual Eligible Special Needs Plan" or "D-SNP" means a type of health benefits plan offered by a Centers for Medicare and Medicaid Services (CMS) - contracted Medicare Advantage Organization (MAO) that limits its enrollment to those beneficiaries who are entitled to both Medicare (Title XVIII)

program covered health benefits and full Medicaid (Title XIX) program covered health benefits.

3. "Early and Periodic Screening, Diagnostic, and Treatment" or "EPSDT" means A comprehensive child health program of prevention, treatment, correction, and improvement of physical and behavioral health conditions for Members under the age of 21, to ensure the availability and accessibility of health care resources as well as to assist Medicaid recipients in effectively utilizing these resources. EPSDT services provide comprehensive health care through primary prevention, early intervention, diagnosis, medically necessary treatment, and follow-up care of physical and behavioral health conditions for AHCCCS Members less than 21 years of age. EPSDT services include screening services, vision services, dental services, hearing services and all other medically necessary mandatory and optional services as specified in Federal Law 42 U.S.C. 1396d(a) to correct or ameliorate defects and physical and behavioral health illnesses and conditions identified in an EPSDT screening whether or not the services are covered under the AHCCCS State Plan.

Limitations and exclusions, other than the requirement for medical necessity and cost effectiveness, do not apply to EPSDT services.

4. "File and Use" means a process whereby the AdSS submits qualifying Member Information Materials to the Division prior to use and can proceed with distributing the materials without any expressed approval from the Division.
5. "Human Immunodeficiency Virus" or "HIV" means a Sexually Transmitted Infection (STI) that damages white blood cells that are very important in helping the body fight infection and disease. HIV is also commonly transmitted through direct contact with certain bodily fluids (e.g., sharing syringes for intravenous substance use) such as blood, semen, rectal fluids and vaginal fluids, and breast milk.
6. "Incentive Items" for the purpose of this policy means items that are used to encourage behavior changes in enrolled Members or health promotion incentives to motivate Members to adopt a healthy lifestyle and/or obtain health care services.

7. "Member" means the same as "Client" as defined in A.R.S. § 36-551.
8. "Member Information Materials" means any materials given to Division membership. This includes, but is not limited to; Member handbooks, Member newsletters, provider directories, surveys, on hold messages and health related brochures/reminders and videos, form letter templates, mobile applications and website content. It also includes the use of other mass communication technology such as e-mail and voice recorded information messages delivered to a Member's phone.
9. "Prior Authorization" or "PA" means a process by which AHCCCS or the Division, whichever is applicable, authorizes, in advance, the delivery of covered services based on factors including but not limited to medical necessity, cost effectiveness, compliance with this Article and any applicable Contract provisions. Prior Authorization (PA) is not a guarantee of payment as specified in A.A.C. R9-22-101.
10. "Value-Added Services" means services, benefits, or positive incentives that promote healthy lifestyles and improve health

outcomes among Members, including items previously defined as Member "Incentive Items."

11. "Vital Materials" means written materials that are critical to obtaining services which include, at a minimum, the following:
    a. Member Handbooks
    b. Provider Directories
    c. Consent Forms
    d. Appeal and Grievance Notices
    e. Denial and Termination Notices

POLICY

A. MEMBER INFORMATION MATERIALS

1. The Division shall comply with the requirements in ACOM 404 for all Member Information Materials, as well as the following related requirements:
    a. Cultural Competency, Language Access Plan and Family/Patient Centered Care (ACOM 405),
    b. Member Handbook and Provider Directory (ACOM 406),
    c. Social Networking activities (ACOM 425),
    d. Member ID Cards (ACOM 433),

e. Change in Contractor Organizational Structure, or change in contractor name (ACOM 317),

f. Material Changes (ACOM 439),

g. Notice of Adverse Benefit Determination and Notice of Extension samples of templates (ACOM 414),

h. The Division Contract, Grievance and Appeal System Standards section for the requirements of the Notice of Appeal Resolution letters and written grievance determination letters, when indicated; and

i. Maternal Child Health/EPSDT Member outreach information (AMPM Exhibit 400-3).

2. The Division shall attest it is in compliance with Member information requirements by signing and submitting ACOM 404, Attachment C.

3. The Division shall provide all Member Information Materials to Members and potential Members in a manner and format that may be easily understood and is readily accessible by Members and potential Members.

4. The Division shall inform Members that Member information is available in paper form, without charge and upon request, and shall provide it upon request within five business days.
5. The Division shall use state developed Member notices as indicated in contract and policy.
6. The Division shall make a good faith effort to give written notice to Members who received primary care from, or who are seen on a regular basis by, a provider who is terminated from the network. Written notice shall be provided to the Member:
    a. Within the latter 30 calendar days prior to the effective date of the provider termination, or
    b. 15 calendar days after the receipt or issuance of the provider termination notice.
7. The Division shall submit draft Member notifications to AHCCCS that are components of a material change even if previously submitted as a Member Information Material.
8. The Division shall ensure website checklist items are passed on to its Subcontracted Health Plans and are easily and readily

available for Members on its website, including links to Subcontracted Health Plan Member Information Materials.

B. LANGUAGE, READABILITY, INTERPRETATION AND TRANSLATION REQUIREMENTS

1. The Division shall ensure all Member Information Materials include taglines in the prevalent non-English languages in Arizona and include large print, conspicuously visible font size, explaining the availability of translation or interpretation services with the Division's toll free and TTY/TDY telephone numbers for customer service, which shall be available during normal business hours.
2. The Division shall provide Members with the Division's toll free and TTY/TDY nurse triage line telephone number which shall be available 24hr/7days a week.
3. The Division shall make Vital Materials available in the prevalent non-English language spoken for each Limited English Proficiency (LEP) population.
4. The Division shall not substitute Oral Interpretation services for written translation of Vital Materials.

5. The Division shall ensure translation of Vital Materials is accurate and culturally appropriate.
6. The Division shall translate all written materials for Members into Spanish regardless of whether or not the materials are vital.
7. The Division shall ensure that all information prepared for distribution is written in an easily understood language and format for readability through the following measures:
    a. Maintain the information at a sixth grade reading level as measured on the Flesch-Kincaid scale.
    b. Use a font size no smaller than 12 point.
    c. Member Information Materials are made available in alternative formats and in an appropriate manner that takes into consideration special needs including:
        i. Visual limitation,
        ii. Other disabilities, or
        iii. Limited reading proficiency.
    d. Large print materials are made available using a conspicuously visible font size.

8. The Division shall makes oral interpretation services, as well as written translation of documents from English into the Member's preferred language, available to Members at no cost. Services for all non-English languages and the use of auxiliary aids such as TTY/TDY and American Sign Language are available.

C. VALUE-ADDED SERVICES

1. The Division shall offer Value-Added Services to Members which promote healthy lifestyles and improve health outcomes when opportunities arise.
2. The Division shall not offer Value-Added Services to Members to influence continued enrollment with the Division.
3. The Division shall not offer Value-Added Services such as Incentive Items that are exchangeable for items prohibited.
4. The Division shall offer Value-Added Services in a culturally sensitive, unbiased, and equitable manner.
5. The Division shall not receive compensation for Value-Added Services and shall not report the cost of Value-Added Services as allowable medical or administrative costs.

D. MATERIALS NOT REQUIRING SUBMISSION TO AHCCCS

1. Division staff shall not submit the following materials to AHCCCS for approval:
    a. Customized letters for individual Members.
    b. Information sent by the Division to Members enrolled in a Medicare Dual Special Needs Plan (D-SNP) that clearly and exclusively relates to their Medicare benefits and services.
    c. Health related brochures developed by a nationally recognized organization included in ACOM 404 Attachment A do not require submission to AHCCCS prior to distribution to Members, unless they reference any of the following, in which case the Division shall not distribute them at all, although the Division may utilize them to develop their own materials:
        i. Services which are not medically necessary,
        ii. Services which are not AHCCCS covered benefits; or
        iii. Services which do not align with Division policy.
2. The Division shall submit a request to add additional names of other organizations to ACOM 404 Attachment A upon identifying an organization missing from the list.

3. The Division shall refer to ACOM 404 for updates when considering using information from organizations listed in Attachment A.
4. The Division shall review the content of materials developed by the organizations listed in Attachment A to ensure that:
    a. The services are covered by the Division.
    b. The information is accurate.
    c. The information is culturally sensitive.
5. The Division shall supplement or replace educational brochures customized for Medicaid Members developed by outside entities to educate Members.

E. MEMBER NEWSLETTER CONTENT AND REQUIREMENTS

1. The Division shall develop and distribute, at a minimum, two Member newsletters during each contract year.
2. The Division shall submit newsletters to AHCCCS in the form of an initial mock-up version of what the Member will be receiving, in addition to the individual articles referencing readability levels.
3. The Division shall not use the File and Use review process for the Member newsletter.

4. The Division shall include at a minimum, the following in the Member newsletter at least annually except as otherwise indicated:
    a. Educational information on chronic illnesses and ways to self-manage care;
    b. Reminders of flu shots and other preventative measures at appropriate times;
    c. Medicare Part D issues;
    d. Cultural Competency, other than translation services;
    e. Contractor specific issues in each newsletter;
    f. Tobacco cessation information;
    g. HIV/AIDS testing for pregnant women;
    h. Suicide Prevention information;
    i. Opioid/Substance Use information;
    j. Information on Peer and Family Supports;
    k. Contractor contact information and 988 Crisis Hotline information in each newsletter;

l. Educational information on how the Division is addressing health equity and resources to assist with Social Determinants of Health;

m. Where to find resources for support with health-related social needs, which may include a link to the Division's Community Resource Guide;

n. Information on the Division's integration efforts to improve overall Member health outcomes~~,~~ as applicable;

o. Information on Non-Title XIX/XXI Services as appropriate; and

p. Other information required by the Division or AHCCCS.

F. WEBSITE CONTENT

1. The Division shall ensure the Division website contains all of the information required in ACOM 404 - Attachment B.
2. The Division shall provide written notice to Members of the availability for the newsletter if newsletters are provided electronically.
3. The Division shall submit ACOM 404 Attachment B to AHCCCS annually.

4. The Division shall ensure:
    a. All information is located on the Division's website in a manner that Members can easily find and navigate from the Division's home page.
    b. Information is in a format that can be retained and printed by the Member.
    c. Websites are specific to the Division's Medicaid program and shall not include links or references to private insurance.
5. The Division shall include links and references to the Division's Medicare programs and services that exclusively promote coordination of care for Members enrolled in both Medicare and Medicaid on the Division's website.
6. The Division shall refer to ACOM 404 for the approval process for additional information added to the Division's website that is directly related to Members or potential Members, refer to requirements outlined in this Policy.

G. SUBMISSION, REQUIREMENTS AND RESTRICTIONS FOR ALL OTHER MATERIALS

1. The Division shall submit to AHCCCS all other Member Information Materials intended for dissemination to Division Members 15 calendar days before they are to be released, for File and Use review.
2. The Division shall request an expedited review if a 15-day notice is not possible.
3. Division staff requesting an expedited review shall ensure the request is expedited.
4. Division staff requesting an expedited review shall ensure the reason for the shortened time frame is indicated in the request.
5. Division staff shall consider factors and materials which may require additional time to be reviewed include Member Information Materials which are:
    a. A component of new initiatives;
    b. Special projects;
    c. Consisted of bulk submission.
6. The Division shall submit Member Information Materials to AHCCCS for approval, prior to using them for marketing purposes as specified in ACOM 101.

7. The Division may disseminate the Member information as indicated in their request upon the expiration of the 15-day time period~~,~~ unless AHCCCS notifies the Division otherwise.
8. Division staff submitting Member Information Materials to AHCCCS for approval shall consider Member materials submitted outside of standard business hours will be considered received the following business day.
9. Division staff submitting Member Information Materials to AHCCCS for approval shall consider State holidays that fall on business days are not counted as part of the 15-day review period.
10. The Division shall not consider Member Information Materials developed for services under contract with AHCCCS to be proprietary to the Division.
11. The Division shall submit the following information to AHCCCS prior to releasing Member Information Materials:
    a. A cover letter containing
        i. a description of the purpose,

ii. the process the Division will use to disseminate the material, and

iii. the reading level of the material level as measured on the Flesch-Kincaid scale.

b. A copy, transcript, screenshot, or other documentation of the material as intended for distribution to its Members or potential Members. Translations of the materials into other languages as required by this policy, are not required to be submitted.

12. The Division shall inform all Members of any changes considered to be significant by AHCCCS, 30 calendar days prior to the implementation date of the change. These changes include:
    a. AHCCCS covered drug list;
    b. Cost Sharing;
    c. Prior Authorization;
    d. Service Delivery;
    e. Covered Services; and
    f. Other changes as required by AHCCCS.
13. The Division shall ensure:

a. All materials are labeled with the Division's name or logo, including:
    i. Member material located on the Division's website;
    ii. Email messages;
    iii. Voice or text-recorded phone messages delivered to the Member's phone; and
    iv. Other information as requested by AHCCCS.
b. Information contained within the material is:
    i. Accurate;
    ii. Updated regularly; and
    iii. Appropriately based on changes in benefits, Contract, policy, or other relevant updates.
c. Updated Member information is re-submitted for approval, including:
    i. The date the material was previously approved;
    ii. The reason for the update; and
    iii. Clearly identify all content revisions.
d. A log is kept for all Member Information Material distributed each year, the log shall identify:

i. The date the material was originally submitted to AHCCCS; and

ii. Resubmission dates.

e. The log of Member Information Materials is made available to AHCCCS upon request.

f. Member Information Materials:

i. Do not directly or indirectly refer to the offering of private insurance,

ii. Do not include inaccurate, misleading, confusing or negative information about AHCCCS or the Division, or any information that might defraud Members.

g. Member Information Materials do not use the word "free" in reference to covered services.

h. Member Information Materials directly relate to the administration of the Medicaid program, or relate to health and welfare of the Member.

i. Member Information Materials do not have political implications; and,

j. Retention materials do not refer to competing plans.

405 CULTURAL COMPETENCY, LANGUAGE ACCESS PLAN, AND FAMILY/ MEMBER CENTERED CARE

EFFECTIVE DATE: July 19, 2023

REFERENCES: 42 CFR 457.1230(a), 42 CFR 457.1201(d), 42 CFR 438.206(c)(2), 42 CFR 438.3(d)(4), and 45 CFR Part 92; ACOM 405.

PURPOSE

The purpose of this Policy is to set forth Division requirements for providing health care services in a culturally and linguistically competent manner.

DEFINITIONS

1. "Administrative Services Subcontract/Subcontractor (AdSS)" means an agreement that delegates any of the requirements of the Contract with Arizona Health Care Cost Containment System (AHCCCS), including, but not limited to the following:
    a. Claims processing, including pharmacy claims,
    b. Pharmacy Benefit Manager (PMB),
    c. Dental Benefit Manager,
    d. Credentialing, including those for only primary source verification,
    e. Management Service Agreements,

f. Medicaid Accountable Care Organization (ACO),

g. Service Level Agreements with any Division or Subsidiary of a corporate parent owner; and

h. DDD Subcontracted Health Plan. A person (individual or entity) who holds an Administrative Services Subcontract is an Administrative Services Subcontractor. Providers are not Administrative Services Subcontractors.

2. "Cultural Competency" means a set of congruent behaviors, attitudes, and policies that come together in a system, agency, or among professionals, that enables that system, agency, or those professionals to work effectively in cross-cultural situations.

a. Culture refers to integrated patterns of human behavior that include the language, thoughts, communications, actions, customs, beliefs, values, and institutions of racial, ethnic, religious or social groups. Culture defines the preferred ways for meeting needs and may be influenced by factors such as geographic location, lifestyle, and age.

b. Competence implies having the capacity to function effectively as an individual and an organization with the context of the cultural beliefs, behaviors, and needs presented by consumers and their communities.

3. "Family-Centered" means care that recognizes and respects the pivotal role of the family in the lives of members. It supports families in their natural care-giving roles, promotes normal patterns of living, and ensures family collaboration and choice in the provision of services to the member. When appropriate the member directs the involvement of the family to ensure person-centered care.

4. "Interpretation" for the purpose of this policy means the conversion of oral communication from one language into another while maintaining the original intent.

5. "Language Assistance Service" means services including, but not limited to:

a. Oral language assistance, including Interpretation in non-English languages provided in-person or remotely by a Qualified Interpreter for an individual with Limited English Proficiency, and the use of qualified bilingual or

multilingual staff to com]municate directly with individuals with Limited English Proficiency,

b. Written Translation, performed by a Qualified Translator, of written content in paper or electronic form into languages other than English; and

c. Taglines.

6. "Limited English Proficiency (LEP)" means individuals who do not speak English as their primary language and who have a limited ability to read, speak, write, or understand English can be Limited English Proficient, or "LEP." These individuals may be entitled to language assistance with respect to a particular type of service, benefit or encounter.

7. "Linguistic Need" means, for the purposes of this policy, the necessity of providing services in the member's primary or preferred language, including sign language, and the provision of interpretive and Translation services.

8. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

9. "Qualified Interpreter" means, for the purpose of this policy, an interpreter who via over the phone,a video remote interpreting (VRI) service, or an on-site appearance:
   a. Adheres to generally accepted interpreter ethical principles and standards of practice, including client confidentiality,
   b. Is able to interpret effectively, accurately, and impartially, both receptively and expressly, to and from such language(s) and English, using any necessary specialized vocabulary, terminology and phraseology, considering cultural appropriateness; and
   c. Has demonstrated proficiency in speaking and understanding both spoken English and at least one other language.
10. "Qualified Translator" means for the purpose of this policy, a translator who:
   a. Adheres to generally accepted translator ethic principles and standards of practice, including client confidentiality;

b. Has demonstrated proficiency in writing and understanding both written English and at least one other written non-English language; and

c. Is able to translate effectively, accurately, and impartially to and from such language(s) and English, using any necessary specialized vocabulary, terminology and phraseology, considering cultural appropriateness.

11. "Translation" means, for the purpose of this policy, the conversion of written communication, while taking into consideration the cultural context, content and spirit of the message, while maintaining the original intent.

12. "Vital Materials" means information, provided to the member, which assists the member to receive covered services through the Arizona Long Term Care System (ALTCS) program. These materials include but are not limited to:

a. Member handbooks,

b. Notices of Adverse Benefit Determinations,

c. Notices of Appeal Resolution,

d. Consent forms,

e. Member notices,

f. Communications requiring a response from the member,

g. Grievance, appeal, and request for state fair hearing information, or

h. Written notices informing members of their right to Interpretation and Translation services.

POLICY

A. CULTURAL COMPETENCY PLAN (CCP)

1. The Division shall develop and maintain a comprehensive Cultural Competency program that:

   a. Is inclusive of those with LEP and diverse cultural and ethnic backgrounds, disabilities, race, color, national origin, age, and regardless of sex, gender, sexual orientation, or gender identity.

   b. Includes measurable and sustainable goals,

   c. Is available in a written format,

d. Describes how care and services will be delivered in a culturally competent manner, and shall include all information as specified in ACOM 405 Attachment A,

2. The Division shall identify a staff member responsible for implementation and oversight of all requirements for the Cultural Competency program and plan.

3. The Division shall require its workforce to adhere to all Cultural Competency requirements as specified in this Policy.

4. The Division's CCP shall also include:

   a. A description of the method(s) used for evaluating the cultural diversity of its membership to assess needs and priorities to provide culturally competent care to its membership,

   b. An evaluation of its network, outreach services, and other programs to improve accessibility and quality of care for its membership,

   c. A description of the method(s) used for evaluating health equity and addressing health disparities within the Division's service delivery,

d. A description of the provision and coordination needed for linguistic and disability related services; and

e. A description of education and training that includes:

   i. Methods used to train its workforce to ensure that services are provided in a culturally competent manner to members of all cultures,

   ii. Training customized to fit the needs of the workforce based on the nature of the contacts with providers and members,

   iii. Cultural Competency training for the entirety of the workforce during new employee orientation and annually thereafter,

   iv. Methods used to train members of the workforce with direct member contact,

   v. Education designed to make members of the workforce and AdSSs aware of the importance of providing services in a culturally competent manner and understanding of health literacy,

vi. The Division shall also make additional efforts to train or assist its workforce and Division AdSSs with how to provide culturally competent services; and

vii. The Division shall track workforce participation in Cultural Competency trainings.

B. TRANSLATION AND INTERPRETATION SERVICES

1. The Division shall ensure access to oral Interpretation, Translation, sign language, disability-related services, and provide auxiliary aids and alternative formats upon request, and at no cost to the member.
2. The Division shall provide Translation and Interpretation services that are accurate, timely, and that protect the privacy and independence of the individual with LEP.
3. The Division shall ensure Translation services are provided by a Qualified Translator, and Interpretation services are provided by a Qualified Interpreter.
    a. The Division shall always, first offer and encourage use of Qualified Interpreter services. Members are permitted to

use an adult accompanying the member with LEP for Interpretation in the following situations:

i. When danger is imminent or there is a threat to the welfare or safety of the member, and no Qualified Interpreter is immediately available; or

ii. After receiving the Division's offer and recommendation to use a Qualified Interpreter, the member with LEP requests the accompanying adult to interpret or facilitate the communication, the accompanying adult agrees to provide the communication assistance, and reliance on the accompanying adult for assistance is reasonable under the circumstances.

b. Division staff shall advocate for use of Qualified Interpretation services when an adult accompanying the member is providing communication assistance and:

i. There is a concern that the Interpretation is not accurate; or

ii. The content of the conversation is potentially inappropriate to be shared or provided with the accompanying adult.

c. The Division shall only permit reliance upon minor children for Interpretation assistance when:

i. In an urgent emergency situation when danger is imminent, or there is a threat to the welfare or safety of the member; and

ii. There is no Qualified Interpreter immediately available.

d. The Division staff shall follow up with a Qualified Interpreter to verify information after the emergency is over, in the event that a minor child has been relied upon to provide Interpretation assistance.

e. The Division shall not rely on a minor child for Translation of documents.

4. The Division shall ensure Translations and Interpretations are provided in the following manner:

a. All written materials for members shall be translated into Spanish regardless of whether or not the materials are vital.

i. Vital Materials shall be made available in the prevalent non-English language spoken for each LEP population in the Division's service area.

ii. Oral Interpretation services shall not substitute for written Translation of Vital Materials.

b. Oral Interpretation services available at no cost to the member.

i. This applies to sign language and all non-English languages, not just those identified as prevalent.

ii. Information shall be made available on which providers speak languages other than English.

5. The Division shall provide member information materials in compliance with ACOM Policy 404.

6. The Division shall:

a. Utilize licensed interpreters for the Deaf and the Hard of Hearing, and

b. Provide auxiliary aids or licensed sign language interpreters that meet the needs of the member upon request. Auxiliary aids include:

i. Computer aided transcriptions,

ii. Written materials,

iii. Assistive listening devices or systems,

iv. Closed and open captioning; and

v. Other effective methods of making aurally delivered materials available to persons with hearing loss.

C. CULTURAL COMPETENCY PLAN ASSESSMENT REPORTING

1. The Division shall assess its CCP for effectiveness. The assessment shall include modifications as appropriate based on evaluation of the CCP. The CCP Assessment shall consider the following:

a. Linguistic Need,

b. Comparative member satisfaction surveys,

c. Outcomes for certain cultural groups,

d. Translation and Interpretation services and utilization,

e. Member complaints and grievances,

f. Provider feedback; and

g. Division employee surveys.

2. The Division shall track and trend identified issues, and actions taken to resolve those identified issue(s).

3. The CCP shall also address how the Division communicates its progress in implementing and sustaining the CCP goals to all stakeholders, members, and the general public.

4. The CCP Assessment shall be submitted with ACOM 405 Attachment A to the DDD Compliance department.

D. LANGUAGE ACCESS PLAN

1. The Division shall submit a Language Access Plan with ACOM 405 Attachment A annually, that indicates how the needs of members with LEP are met.

2. The Language Access Plan shall address each of the following elements:

a. Assessment: Needs and Capacity

Processes to regularly identify and assess the language assistance needs of its members, as well as the processes

to assess the Division's capacity to meet these needs according to the elements of this plan.

b. Language Assistance Service

The Division shall provide the established point of contact for members who need Language Assistance Services. The Division shall include the process used to ensure that the interpreters used are qualified to provide the service and understand interpreter ethics and member confidentiality needs.

c. Written Translations

Processes to identify, translate, and make accessible in various formats vital materials in accordance with assessments of need and capacity conducted as specified in assessment.

d. Policies and Procedures

Written policies and procedures ensuring members with LEP have meaningful access to programs and activities.

e. Notification of the Availability of Language Assistance at No Cost

Processes to ensure meaningful access to the Division's programs including notifying current and potential members with LEP about the availability of language assistance at no cost. Notification methods may include multilingual taglines in member materials, as well as statements on forms including electronic forms such as agency websites. The results as specified in the Needs and Capacity Assessment above should be used to determine the languages in which the notifications should be translated.

f. Workforce Training

Description of employee training to ensure management and staff understand and can implement the policies and procedures of the Language Access Plan.

g. Assessment: Access and Quality

Processes to regularly assess the accessibility and quality of language assistance activities for members with LEP, maintain an accurate record of Language Assistance

Services, and implement or improve LEP outreach programs and activities in accordance with customer need.

h. Stakeholder Consultation

Process for engaging stakeholder communities to identify language assistance needs of members with LEP, implement appropriate language access strategies to ensure members with LEP have meaningful access in accordance with assessments of member need and evaluate progress on an ongoing basis.

i. AdSS Assurance and Compliance

Processes for ensuring AdSSs understand and comply with their obligations under civil rights statutes and regulations enforced by AHCCCS related to language access.

E. FAMILY-CENTERED AND CULTURALLY COMPETENT CARE

The Division shall provide Family-Centered care in all aspects of the service delivery system for members with special health care needs. The additional responsibilities of the Division for support of Family-Centered care include but are not limited to:

1. Recognizing the family as the primary source of support for the member's health care decision-making process. Service systems and personnel shall be made available to support the family's role as decision makers;
2. Facilitating collaboration among members, families, health care providers, and policymakers at all levels for the:
    a. Care of the member,
    b. Development, implementation, evaluation of programs; and
    c. Policy development.
3. Promoting a complete exchange of unbiased information between members, families, and health care professionals in a supportive manner at all times;
4. Recognizing cultural, racial, ethnic, geographic, social, spiritual, economic diversity, gender, gender identity, and individuality within and across all families;
5. Implementing practices and policies that support the needs of members and families, including medical, developmental,

educational, emotional, cultural, environmental, and financial needs;

6. Participating in Family Centered Cultural Competency Trainings,
7. Facilitating family-to-family support and networking,
8. Promoting available, accessible, and comprehensive community, home, and hospital support systems to meet diverse, unique needs of the family;
9. Acknowledging that families are essential to the members' health and well-being and are crucial allies for quality within the service delivery system; and
10. Appreciating and recognizing the unique nature of each member and their family.

F. SUPPLEMENTAL INFORMATION

The Arizona Commission for the Deaf and the Hard of Hearing provides a listing of licensed interpreters, information on auxiliary aids, and the complete rules and regulations regarding the profession of interpreters in the State of Arizona.

406 MEMBER HANDBOOK AND PROVIDER DIRECTORY

REVISION DATE: 11/8/2023, 12/21/2022

EFFECTIVE DATE: October 1, 2019

REFERENCES: 42 CFR 457.1207; 42 CFR 438.10, 42 CFR 438.102; ACOM 404-Attachment C, ACOM 406-Attachment A; ACOM 406-Attachment B

PURPOSE

This policy sets forth guidelines for development, review, and distribution of Member Handbooks and Provider Directories.

DEFINITIONS

1. "Business Day" means a Monday, Tuesday, Wednesday, Thursday, or Friday unless a legal holiday falls on Monday, Tuesday, Wednesday, Thursday, or Friday.
2. "Member" means the same as "Client" as defined in A.R.S. § 36-551.
3. "Multi-Specialty Interdisciplinary Clinic (MSIC)" - means a facility where specialists from more than one specialty meet with Members and their families in order to provide interdisciplinary services to treat Members.
4. "Planning Document'' means a written plan developed through

an assessment of functional needs that reflects the services and supports, paid and unpaid, that are important for and important to the Member in meeting the identified needs and preferences for the delivery of such Services and supports.

5. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a Member or an applicant for whom no guardian has been appointed.
6. "Support Coordinator" means the same as "Case Manager" under A.R.S. § 36-551.

POLICY

A. GENERAL REQUIREMENTS

1. The Division shall provide annually a Member Handbook and Provider Directory to the Responsible Person.
2. The Division shall ensure the Member Handbook contains all information required, as identified in ACOM 406 Attachment A, including definitions as required by Centers for Medicare and

Medicaid Services (CMS) specified in ACOM 406 Attachment B, Definitions for AHCCCS Members.

3. The Division shall ensure required information is incorporated into the Division's Member Handbook in the order identified on the Checklist.
4. The Division shall submit the Member Handbook as described in the section "Member Handbook Review Process" of this policy.
5. The Division may publish information modifying or expanding the contents of the Division's Member Handbook, if the Division identifies a need.
6. The Division may distribute modified or expanded content in the form of inserts and supply these inserts with subsequently distributed Member Handbooks, if the Division identifies the need.
7. The Division shall update paper provider directories at least quarterly and electronic provider directories no later than 30 days after the Division receives updated provider information.

8. The Division shall ensure that the electronic versions of the Member Handbook and the Provider Directory meet the following requirements:
    a. The format is readily accessible;
    b. The information is located in a place on the DDD website that is prominent and readily accessible;
    c. In a machine readable format which can be electronically saved-and printed;
    d. The information is consistent with federal content and language requirements;
    e. The information is available in paper form upon request, at no cost, and will be provided within five Business Days of the request; and
    f. The information adheres to the requirements identified in Policy 416 of the Division Operations Policy Manual.
9. The Division shall ensure the Member Handbook and the Provider Directory adhere to language and format requirements as outlined in Division Operations Policy 404.

B. MEMBER HANDBOOK REVIEW PROCESS

1. The Division shall submit to AHCCCS the Division's Member Handbook, along with a track changes version reflecting changes from the previous contract year, annually.
2. The Division shall annually submit a cover letter to include the requirements as identified in Attachment A, as specified in the AHCCCS contract, or, as directed by AHCCCS.
3. The Division shall provide a final copy of the Member Handbook to AHCCCS, after AHCCCS has provided approval of a draft.
4. The Division shall ensure the Member Handbooks and Provider Directories issued by Subcontracted Health Plans (AdSS) align with the requirements of ACOM 406.

C. DISTRIBUTION REQUIREMENTS

1. Provider Directory:
    a. The Division shall provide a Provider Directory to each Responsible Person within 12 Business Days of receipt of notification of the enrollment date.
    b. The Division shall provide the Provider Directory in either hard copy or electronic format.

c. The Division shall provide written notification via electronic mail or via postal mailing that outlines where the directory can be found on the Division's website.

i. The Division shall include this notification in the Member Handbook or mail the notice separately.

ii. The Division shall obtain approval for this notice in accordance with ACOM 404.

iii. The Division shall give the Responsible Person the option to obtain a hard copy version of the Provider Directory.

2. Member Handbook:

a. The Division shall provide the Member Handbook to each Responsible Person within 12 Business Days of receipt of notification of the enrollment date.

b. The Division shall provide a hard copy of the Member Handbook to each Responsible Person.

c. Division Support Coordinators shall:

i. Provide to and review the Member Handbook with the Responsible Person annually, and

ii. Document this review in the Acknowledgement of Publications section of the member's planning document.

3. The Division may, at its discretion, require AdSSs to provide written notification that the AdSS's Member Handbook and Provider Directory are available on the AdSS' website, upon request via electronic mail, or by postal mailing.
4. The Division shall make copies of the Member Handbook available to known consumer and family advocacy organizations and other human service organizations when requested.
5. The Division may be required to update Member Handbooks throughout the contract year, if the Division identifies a need to address program changes for inclusion, through inserts in the Member Handbook:
   a. The Division shall incorporate these changes in subsequently distributed handbooks through inserts until the handbooks are updated with the new information, and
   b. The Division shall post the content of the insert on the Division website.

6. The Division shall:

    a. Ensure Member Handbook and Provider Directory requirements are delegated to AdSSs.

    b. Review AdSS's Member Handbooks and Provider Directories for approval in accordance with ACOM 406.

D. PROVIDER DIRECTORY CONTENT

1. The Division shall have a user-friendly, searchable, electronic Provider Directory on the Division's website.
2. The Division shall also make available in an electronic and hard copy format a Provider Directory.
3. The Division shall include the following provider information in the Provider Directory:

    a. Provider name as well as any group affiliation,

    b. Provider address, ensuring virtual-only status is indicated for virtual-only providers in place of a physical address;

    c. Provider telephone number,

    d. Web site Uniform Resource Locator (URL), as appropriate,

    e. Specialty as appropriate,

    f. Non-English languages spoken,

g. Whether or not the provider is accepting new patients,

h. Information for the Long Term Services and Supports (LTSS) Providers, as applicable.

i. The provider's cultural and linguistic capabilities, including languages, including American Sign Language offered by the provider or a skilled medical interpreter at the provider's office.

j. The location of any emergency settings and other locations at which providers and hospitals furnish emergency services and post stabilization services covered under the contract,

k. A designation identifying network offices that offer reasonable accommodations for Members including but not limited to: physical access, accessible equipment and culturally competent communications and a description of how the Responsible Person can obtain details of the accommodations for specific providers;

l. Innovative service delivery mechanisms such as field clinics and virtual clinics and an Integrated Medical Record

to provide Multi-Specialty, Interdisciplinary Care when needed in other areas of the State;

m. Information on the services, offered through telemedicine and mobile providers, and how to access these services; and

n. Physicians, psychiatrists, laboratory, x-ray, and therapy services available onsite at the MSIC.

407 WORKFORCE DEVELOPMENT

REVISION DATE: 1/25/2023

EFFECTIVE DATE: October 1, 2018

REFERENCE: AHCCCS Contractor Operations Manual (ACOM) Policy 407

PURPOSE

The purpose of this policy is to describe the Division's requirements regarding:

1. Monitoring and collection of information about the workforce;
2. Collaborative planning of workforce development initiatives, including the recruitment and employment of members of the Division into healthcare roles; and
3. When needed, the provision of direct assistance to Qualified Vendors and AdSS Health Plans to develop the workforce.

DEFINITIONS

1. "Competency" means a worker's demonstrated ability to intentionally, successfully, and efficiently perform the basic requirements of a job, multiple times, at or near the required standard of performance.

2. "Competency Development" means a systematic approach for ensuring the workers are adequately prepared to perform the basic requirements of their jobs.
3. "Workforce Capability" means the interpersonal, cultural, clinical/medical, and technical competency of the collective workforce or individual worker.
4. "Workforce Capacity" means the number of qualified, capable, and culturally representative personnel required to sufficiently deliver services to members.
5. "Workforce Connectivity" means the workplace's linkage to sources of potential workers, information required by workers to perform their jobs, and technologies for connecting to workers and or connecting workers to information.
6. "Workforce Development Alliance (WFDA)" means a coalition of the Workforce Development (WFD) Administrators from each contractor that jointly plan and conduct WFD activities for a particular line of business.
7. "Workforce Development Operation (WFDO)" means the organizational structure of personnel, processes, and resources

that the Division implements, including monitoring and addressing current workforce capacity and capability, forecasting, and planning future workforce capacities and capabilities, and delivers technical assistance to provider organizations to strengthen their WFD programs.

8. "Workforce Development Plan (WFD-P)" means the blueprint for ensuring the ongoing growth and development of the network's workforce.

POLICY

A. GENERAL

1. The Division shall work with AHCCCS, Qualified Vendors, and Administrative Services Subcontractors (AdSS) to ensure members of the Division receive services from a workforce that is qualified, capable, and sufficiently staffed.
2. The Division shall ensure that providers acquire, develop, and deploy a sufficiently staffed and qualified workforce that capably delivers services to members.
3. The Division shall generate policies that shape worker, workplace, and workforce development practices.

4. The Division shall ensure that provider workforce management and development processes align with AHCCCS workplace and workforce development policies.
5. The Division shall:
    a. Monitor the performance of the network;
    b. Collect information about the workforce;
    c. Develop plans to strengthen the workforce; and
    d. When needed, directly assist providers to develop and maintain a qualified, capable, and sufficiently capacitated workforce.
6. The Division shall ensure that subcontracted provider organizations are deploying a qualified, sufficiently staffed workforce that capably provides services to members of the Division in an interpersonally, clinically, culturally, and technically effective manner.
7. The Division shall offer training and resources to providers to assist professionals and family caregivers with managing stress and burnout as required by the Report of Abuse & Neglect Prevention Task Force.

B. ESTABLISH AND MAINTAIN A WORKFORCE DEVELOPMENT OPERATION

The Division shall:

1. Establish and maintain a Workforce Development Operation (WFDO).
2. The WFDO shall work together with Network Management, Quality Management, and Cultural Competency programs to ensure the provider workforce has the capacity needed to provide services and the diversity and capability required to competently deliver them.
3. Name a Workforce Development Administrator to lead the WFDO who shall:
    a. Manage the AdSS and Qualified Vendors' network specific process of continuous workforce quality development and improvement;
    b. Be a collaborating partner in the statewide WFDA; and
    c. Have a professional background, authorities, and ongoing training and development needed to lead the WFDO as specified in the AHCCCS contract.

4. Equip the WFDO with the organizational personnel and information processing support required to execute the following responsibilities of the WFDO:
    a. Monitor and assess current workforce capacity and capability;
    b. Forecast and plan future or needed workforce capacities and capabilities;
    c. Deliver technical assistance to provider organizations to strengthen their WFD programs;
    d. Monitor, assess, forecast, plan, and provide technical assistance both independently and in coordination with the WFDOs of the other Contractors by:
        i. Independently acting on the workforce needs of the provider network as identified by the network and quality management departments.
        ii. Coordinating with other WFDOs of Contractors to:
            1) Achieve statewide system and industry specific WFD goals;

2) Ensure that WFD processes, such as system-wide orientation and training programs, are uniformly applied; and

3) Prevent the miscommunication of WFD priorities as well as mitigate administrative burden associated with developing the workforces of the statewide provider community.

5. Ensure the provider workforce has access to, and follows, all workforce training and/or competency requirements specified in federal and state law, AHCCCS policies, guidance documents, manuals, contracts, and other agency generated plans.
6. Ensure that providers have access to all the resources necessary to engage designated audiences and satisfy the WFD requirements as specified in AHCCCS policies, guidance documents, manuals, contracts, and other agency generated plans.

C. WORKFORCE DEVELOPMENT PLAN

1. The Division shall produce a Workforce Development Plan (WFD-P) as specified in ACOM 407 Attachment A in collaboration with:
    a. Providers;
    b. Members of the Division and their families; and
    c. Other stakeholders, including but not limited to:
        i. Other Contractors and industry;
        ii. Education groups; and
        iii. Community groups.
2. The Division shall ensure the WFD-P:
    a. Determines areas where, relative to network and quality requirements, specific increases in workforce capacity and/or worker competency and capability are needed;
    b. Determines if the WFD programs of a single provider, or WFD programs of the provider network, for acquiring, developing, and maintaining a sufficiently staffed, diverse, and capable workforce should be enhanced to ensure compliance with the Division's network and quality requirements; and

c. Develops and implements a plan of action designed to increase or improve workforce capacity and/or capability by working collaboratively with providers to develop the workforce and/or enhance their current WFD programs.

3. The Division shall ensure the Network WFD-P includes, but is not limited to, the following components:
   a. Description of the Division's WFDO;
   b. Workforce Profile;
   c. Workforce Capacity Assessment, Developmental Goals, and Work Plan; and
   d. Workforce Capability/Competency Assessment, Development Goals, and Work plan.
4. The Division shall submit the WFD-P to AHCCCS as specified in the Contract.

D. MONITOR WORKFORCE DEVELOPMENT ACTIVITIES

1. The Division shall develop and maintain workforce development policies and a WFD Plan.
2. The Division shall ensure Qualified Vendors and AdSS Health Plans develop and maintain workforce development policies and

a WFD Plan as part of the routine monitoring process, and ensure:

a. The provider workforce has access to, and is in compliance with, all workforce training and/or competency requirements specified in federal and state law, Division policies, guidance documents, manuals, contracts, other agency generated plans.

b. All Division required training content or competency descriptions are incorporated into the appropriate orientation, basic, specialized, or advanced levels of education or training program and evaluated processes, and are made available to provider personnel.

c. There are processes for:

    i. Documenting training;

    ii. Verifying qualifications, skills, and knowledge of personnel; and

    iii. Retaining required training and competency transcripts and records.

d. All initiatives specified in the Network WFD-P are routinely monitored and evaluated.

E. WORKFORCE DATA

1. The Division shall collect and analyze required and ad hoc workforce data that:
   a. Proactively identifies potential challenges and threats to the viability of the workforce,
   b. Conducts analysis of the potential impact of the challenges and threats to access to care for members,
   c. Develops and implements interventions to prevent or mitigate threats to workforce viability, and
   d. Develops indicators to measure and monitor workforce sustainability.
2. The Division shall use the collected data to directly assist the AHCCCS WFD Administrator develop a comprehensive workforce assessment and forecast of WFD priorities.

F. PROVIDER TECHNICAL ASSISTANCE

1. The Division shall determine the need, scope, and the most effective and efficient methods for providing technical assistance to providers.
2. As needed, the Division shall provide technical assistance to providers to develop, implement, and improve programs for workforce recruitment, selection, evaluation, education, training, and retention that may include:
    a. Workforce development planning,
    b. Talent identification and acquisition,
    c. Competency based training and development programs and systems,
    d. Workforce retention and promotion strategies, and
    e. Workplace culture development.

412 CLAIMS RECOUPMENT

REVISION DATE: 7/10/2019
EFFECTIVE DATE: May 20, 2016
INTENDED USER(S): Division Claim staff

REFERENCES: DES/DDD AHCCCS Contract, Section D; ACOM Policy 203, 434; AHCCCS Claims Dashboard Reporting Guide; A.R.S. §§ 36-2901, 35-214; A.A.C. R9- 22-701 et seq., R9-28-701 et seq., The Deficit Reduction Act of 2005 (Public Law 109-171); 42 CFR 438.600 et seq.

This policy identifies the AHCCCS requirements for the Division's claims recoupment and refund activities.

Definitions

A. Day - Calendar day unless otherwise specified.

B. Provider - Any individual or entity that contracts with AHCCCS or the Division for the provision of covered services to members according to the provisions A.R.S. §36-2901 or any subcontractor of a Provider delivering services. For the purposes of this policy, a Provider delivering services pursuant to A.R.S. §36-2901.

C. Recoupment - The process the Division takes to recover all or part of a previously paid claim(s). Recoupments include Division initiated/requested repayments, as well as overpayments identified by the Provider where the Division seeks to actively withhold or withdraw funds to correct the overpayment from the Provider.

D. Refunds - An action initiated by a Provider to return an overpayment to the Division. In these instances, the Provider writes a check or transfers money to the Division directly.

Policy

The Division is responsible for reimbursing Providers and coordinating care for services provided to a member pursuant to state and federal regulations, including, but not limited to A.A.C. R9-22-701 et seq., A.A.C. R9-28-701 et seq.

The Division is required to follow AHCCCS Recoupment provisions as outlined in Contract and Policy. For requirements for adjudication and payment of claims and encounters, refer to ACOM Policy 203. The Division's claims processes, as well as its prior authorization, and concurrent and retrospective review processes, minimize the likelihood of the need to recoup paid claims.

An adjustment that is completed within 30 days from the date of the original payment does not require AHCCCS prior approval, but will be tracked and made available to AHCCCS upon request. The information tracked should include, at a minimum, the AHCCCS Member ID number, date(s) of service, original claim number, date of payment, amount paid, amounts recovered and subsequently repaid, and dates of recovery and repayment.

Adjustments completed more than 30 days from the date of the original payment *may* require AHCCCS prior approval, as outlined below.

Individual Recoupments in Excess of $50,000

Prior to initiating any individual Recoupment in excess of $50,000 per Provider Tax Identification Number (TIN), the Division submits a written request for approval *as specified in Contract* (30-days) or earlier if the information is available, in the format detailed below:

A. A detailed letter of explanation will be submitted with the following:

1. How the need for recoupment was identified.
2. The systemic causes resulting in the need for a recoupment
3. The process that will be utilized to recover the funds
4. Methods to notify the affected Provider(s) prior to recoupment
5. The anticipated timeline for the project
6. The corrective actions that will be implemented to avoid future occurrences.
7. Total recoupment amount, total number of claims, range of dates for the claims being recouped, and total number of Providers impacted
8. Other recoupment action(s) specific to this Provider within the contract year.

B. An electronic file containing the following:

- AHCCCS member ID
- Date of service
- AHCCCS claim number
- Date of payment
- Amount paid
- Amount to be recouped.

C. A copy of the written communication that will serve as prior notification to the affected Provider(s) shall include a minimum of the following:

1. How the need for the recoupment was identified.
2. The process that will be utilized to recover the funds.
3. The anticipated timeline for the recoupment.
4. The Provider's right to file a claim dispute.
5. Total recoupment amount, total number of claims and ranges of dates for the claims being recouped.
6. Listing of impacted claim numbers.

Note: The written communication must be approved by AHCCCS prior to being sent to the Provider(s).

Recoupment of Payments Initiated More Than 12 Months From the Date of Original Payment

The Division is prohibited from initiating recoupment of monies from a Provider TIN more than 12 months from the date of original payment of *a clean claim* unless prior approval is obtained from AHCCCS. Retroactive recoveries involving commercial insurance payor sources are not included in this discussion. For Coordination of Benefits involving third party liability recoveries see *ACOM Policy 434 and the Division's Operations Manual Chapter 434 Coordination of Benefits & Third Party Liability.*

A. To request approval from AHCCCS, the Division submits a request in writing with all of the following information:

A detailed letter of explanation will be submitted with the following:

1. How the need for recoupment was identified.
2. The systemic causes resulting in the need for a recoupment.
3. The process that will be utilized to recover the funds.
4. Methods to notify the affected Provider(s) prior to recoupment.
5. The anticipated timeline for the project
6. The corrective actions that will be implemented to avoid future occurrences.
7. Total recoupment amount, total number of claims, range of dates for the claims being recouped, and total number of Providers impacted.

B. An electronic file containing the following:

- AHCCCS member ID
- Date of service
- AHCCCS claim number
- Date of payment
- Amount paid
- Amount to be recouped.

C. A copy of the written communication that will serve as prior notification to the affected Provider(s). The communication includes at a minimum:

1. How the need for the recoupment was identified.
2. The process that will be utilized to recover the funds.

3. The anticipated timeline for the recoupment.

4. The Provider's right to file a claim dispute.

5. Total recoupment amount, total number of claims and ranges of dates for the claims being recouped.

6. Listing of impacted claim numbers.

Note: The written communication must be approved by AHCCCS prior to being sent to the Provider(s).

Cumulative Recoupments in Excess of $50,000 per Provider per Contract Year

The Division continuously tracks recoupment efforts per Provider TIN. When recoupment amounts for a Provider TIN cumulatively exceed $50,000 during a contract year (based on recoupment date), the Division reports the cumulative recoupment monthly as outlined in the AHCCCS Claims Dashboard Reporting Guide and as specified in the Division's contract.

AHCCCS Responsibility and Authority

AHCCCS reserves the right to evaluate and to present the proposed recoupment action to the affected Providers as part of the approval and or notification process. Communication will be at the timing and discretion of AHCCCS.

The AHCCCS Division of Health Care Management (DHCM) will review all requests for recoupment, evaluating factors such as validity, accuracy, and efficiency of the Division's processes. DHCM will also evaluate the proposed recoupment for the purposes of minimizing Provider hardship or inconvenience. DHCM will acknowledge all requests in writing through electronic mail upon receipt of the completed file. A written determination will be sent to the Division by electronic mail contingent upon receipt of all required information from the Division.

Data Processes for Recoupment

Upon receipt of approval for recoupment from AHCCCS, the Division has *no more than 120-days* to complete the project and submit the following as stated in the Division's contract:

A. Notification of the submission for the voided or replacement encounters (which reaches adjudicated status within 120-days of the approval of the recoupment) and the appropriate associated information for all impacted encounters for recouped claims.

B. Upon completion of the recoupment project, a separate electronic file containing all of the following information for all recouped claims (this is independent of the 837 file(s) submitted through Encounters):

- AHCCCS member identification number
- Date of service
- Original AHCCCS CRN
- New AHCCCS CRN

- Health Plan allowed amount
- Health Plan paid amount
- Provider identification number.

Note: The Division submits the above information for each adjudicated encounter. Dependent on the size and/or volume of the recoupment request, AHCCCS may require the Division to submit an external file in order to directly update impacted encounters in the timeframe prescribed above.

Failure to submit complete information within the specified timeframe will be considered a violation of the contract and may result in administrative action. AHCCCS will validate the submission of applicable voided and replacement encounters upon completion of this project. As a result of amending the encounter data, AHCCCS may adjust related reinsurance payments, reconciliation payments, or any other amounts paid to the Division that are impacted by the recoupment.

Data Processes for Refunds

Upon receipt of refund from a Provider, the Division has 120-days from the date of the refund to void or replace related encounters. All voided or replaced encounters reaches an adjudicated status within the 120-day timeframe.

A. The Division identifies the following for all refunds received and provide this information to AHCCCS upon request:

1. The systemic causes resulting in the need for the refund and/or an explanation of why the refund occurred.
2. The corrective actions that will be implemented to avoid future occurrences, if applicable.
3. Cumulative refund amount, total number of claims and range of dates for the claims impacted by the refund.
4. List of impacted claim numbers.

Attestation

All documentation and data submitted by the Division for purposes of recoupment and refund activities certified by the Division as specified in 42 CFR 438.600 et seq. If it is determined after the recoupment or refund action that information provided to AHCCCS is inaccurate, invalid, or incomplete, or that the Division failed to comply with any provisions of AHCCCS Policy 412 – Claims Recoupment, the Division may be subject to administrative actions.

414 REQUIREMENTS FOR SERVICE AUTHORIZATION DECISIONS AND NOTICES OF ADVERSE BENEFIT DETERMINATION

REVISION DATE: 9/6/2023
EFFECTIVE DATE: October 1, 2019
REFERENCES: 42 U.S.C. 1396d(r)(5), 42 CFR 438.404(b)(2), 42 CFR 438.10(c)(4)(ii), ACOM Policy 414 , AMPM Policy 430

PURPOSE

This policy sets forth Division requirements for Notices of Adverse Benefit Determination relating to Title XIX/XXI coverage and authorization of services.

DEFINITIONS

1. "Adverse Benefit Determination" means the denial or limited authorization of a service request or the reduction, suspension, or termination of a previously approved service.
2. "Appeal" means a request for review of an Adverse Benefit Determination.
3. "Calendar Days" means every day of the week including weekends and holidays.
4. "Expedited Service Authorization Request" means a request for

services in which either the requesting provider indicates, or the Division determines, that following the standard timeframes for issuing an authorization decision could seriously jeopardize the Member's life or health or ability to attain, maintain, or regain maximum function and requires the authorization decision within 72 hours from the receipt of the service request.

5. "Legal Holidays" means Legal Holidays, as defined by the State of Arizona are:

   a. New Year's Day – January 1

   b. Martin Luther King Jr./Civil Rights Day – 3rd Monday in January

   c. Lincoln/Washington Presidents' Day – 3rd Monday in February

   d. Memorial Day – Last Monday in May

   e. Independence Day – July 4

   f. Labor Day – 1st Monday in September

g. Columbus Day – 2nd Monday in October

h. Veterans Day – November 11

i. Thanksgiving Day – 4th Thursday in November

j. Christmas Day – December 25

When a holiday falls on a Saturday, it is recognized on the Friday preceding the holiday and when a holiday falls on a Sunday, it is recognized on the Monday following the holiday.

6. "Member" means the same as "Client" as defined in A.R.S. §36-551.

7. "Notice of Adverse Benefit Determination " means a written notice provided to the Member that explains the reasons for the Adverse Benefit Determination made by the Division regarding the Service Authorization Request and includes the information required by this Policy.

8. "Notice of Extension" or "NOE" means a written notice to a Member to extend the timeframe for making either an expedited or standard authorization decision by up to 14 days if the criteria

for a service authorization extension are met.

9. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a Member or an applicant for whom no guardian has been appointed.

10. "Service Authorization Request" means a request by the Member, the representative, or a provider for a physical or behavioral health service for the Member that requires Prior Authorization (PA) by the Division.

11. "Working days" means "Working Day" as defined in A.A.C. R9-34-202. Monday, Tuesday, Wednesday, Thursday, or Friday unless:

    a. A legal holiday falls on one of these days; or

    b. A legal holiday falls on Saturday or Sunday and the Division is closed for business the prior Friday or following

Monday.

POLICY

A. NOTICE OF ADVERSE BENEFIT DETERMINATION

1. The Division shall provide a written Notice of Adverse Benefit Determination to the Responsible Person and the provider when the Division decides to deny or limit an authorization request or reduce, suspend, or terminate previously authorized services .

2. The Division shall use the AHCCCS-developed Member Notice of Adverse Benefit Determination templates as specified in 42 CFR 438.10(c)(4)(ii).

    a. The templates shall not be altered except for the areas designated in the template that permit alteration and the removal of the header.

    b. Refer to ACOM Policy 414 Attachment A for the Notice of Adverse Benefit Determination template for Service Authorization Requests that do not pertain to medications.

3. The Division's Member Handbook shall inform the Responsible Persons:

   a. Of their right to make a complaint to the Division about an inadequate Notice of Adverse Benefit Determination;

   b. If the Division does not resolve the complaint about the Notice of Adverse Benefit Determination to the Responsible Person's satisfaction, the Responsible Person may complain to AHCCCS Division of Health Care Management (DHCM), Medical Management (MM) at MedicalManagement@azahcccs.gov; and;

   c. The Division and its providers shall be prohibited from taking punitive action against Responsible Persons exercising their right to Appeal.

   d. That the Division shall inform the Responsible Person that oral interpretation services are available in any language, and alternative communication formats are available for Responsible Persons that are deaf or hard of hearing or

blind or have low vision.

B. RIGHT TO BE REPRESENTED

1. The Division shall acknowledge the Responsible Person's right to be assisted by a third-party representative, including an attorney, during an Appeal of an Adverse Benefit Determination.

2. The Division shall have an Appeals process that registers the existence of the third-party representative.

3. The Division shall ensure the required communications related to the Appeals process occur between the Division and the third party representative.

    a. The Division shall provide the Responsible Person's third party representatives, upon request, timely access to documentation relating to the decision under Appeal.

    b. The Division shall be consistent with federal privacy laws by making reasonable efforts to verify the identity of the third party representative and the authority of the third

party representative to act on behalf of the Responsible Person.

c. The Division may require the third party representative to provide written authorization signed by the Responsible Person.

d. The Division shall promptly communicate to the Responsible Person when the Division questions the authority of the third party representative or the sufficiency of the written authorization.

C. NOTICE OF ADVERSE BENEFIT DETERMINATION CONTENT REQUIREMENTS

1. The Division shall provide a Notice of Adverse Benefit Determination that meets the language requirements as outlined in Division Operations Policy 404.

2. The Division shall provide a Notice of Adverse Benefit Determination that clearly explains the Member-specific reasons for the Division's determination and the information needed so

the Responsible Person can make an informed decision regarding Appealing the determination and how to Appeal the decision.

3. The Division shall clearly inform the Responsible Person when the reason for the Notice of Adverse Benefit Determination denial of a Service Authorization Request is due to the lack of necessary information, and will give the Responsible Person the opportunity to provide the necessary information.

4. The Division shall provide a Notice of Adverse Benefit Determination that is consistent with 42 CFR 438.404 and includes an explanation of the specific facts that pertain to the decision:

   a. The requested service;

   b. The level of service which which may include a request for an enhanced staffing ratio,

   c. The reason or purpose of the requested service;

   d. The reasons for the Adverse Benefit Determination the

Division made or intends to make with respect to the requested service consistent with 42 CFR 438.404(b)(1);

e. The effective date of a service denial, limited authorization, reduction, suspension, or termination;

f. The right of the Responsible Person to be provided, upon request and at no cost to the Responsible Person, reasonable access to and copies of all documents, records, and other information relevant to the Responsible Person's Adverse Benefit Determination. Such information includes medical necessity criteria, and any processes, strategies, or evidentiary standards used in setting coverage limits as required in 42 CFR 438.404(b)(2);

g. The legal basis for the Adverse Benefit Determination including the applicable statutes, rules, contractual provisions, policies, and procedures, if applicable, reference to the general legal authorities alone is unacceptable;

h. Where the Responsible Person can find copies of the legal basis:

i. Reference to the benefit provision, guideline, protocol, or other criterion which the denial is based upon.

ii. An accurate URL site, when a legal authority or an internal reference to the Division's policy manual is available online.

i. A listing of legal aide resources

j. The Responsible Person's right to request an Appeal and the procedures for filing an Appeal of the Division's Adverse Benefit Determination, including information on exhausting the Division's Appeals process described in 42 CFR 438.402(b) and the right to request a State fair hearing consistent with 42 CFR 438.402(c) including if the Division fails to make a decision in a timely manner regarding the Member's Appeal request;

k. The procedures for exercising the Responsible Person's rights as described in 42 CFR 438.404(b)(4);

l. The circumstances under which an Appeal process can be expedited and how to request it; and

m. Explanation of the Member's right to have benefits continue pending the resolution of the Appeal as specified in 42 CFR 438.420, how to request that benefits be continued, and the circumstances, consistent with state policy, under which the Responsible Person may be required to pay the costs of continued services if the Appeal is denied as specified in 42 CFR 438.420(d), and

n. A statement that the provider who requested the Service Authorization has the option to request a peer-to-peer discussion with the Division's Medical Director.

i. The Division shall allow the provider sufficient time for a peer-to-peer to occur before the Division issues its decision regarding the Service Authorization

Request.

ii. The Division shall allow at least 10 business days for the provider to request a peer-to-peer review.

5. The Division shall not cite the lack of medical necessity as a reason for denial, unless the Notice of Adverse Benefit Determination also explains why the service is not medically necessary for the particular Member in this instance.

6. The Division shall include potential alternative options for consideration that may address the Member's condition when citing lack of medical necessity as a reason for the Adverse Benefit Determination.

7. The Division shall provide a Notice of Adverse Benefit Determination that states the reasons supporting the denial, reduction, limitation, suspension, or termination of a service.

8. The Division shall utilize a board-certified professional when citing lack of medical necessity and provide evidence of such

upon AHCCCS request.

9. The Division shall not provide a Notice of Adverse Benefit Determinations that does not give an explanation of why the service has been denied, reduced, limited, suspended, or terminated and merely refer the Responsible Person to a third party for more information.

10. The Division shall provide a Notice of Adverse Benefit Determinations that includes a statement referring a Responsible Person to a third party for more help when the third party can explain treatment alternatives in more detail.

D. EPSDT

1. The Division shall cite Early Periodic Screening, Diagnosis, and Treatment (EPSDT) Federal law 42 U.S.C. 1396d(r)(5) when denying, reducing, limiting, suspending, or terminating a service for a Title XIX Member who is younger than 21 years of age when these provisions are applicable and shall specify the reason(s) why the service fails to correct or ameliorate defects

or physical or behavioral health conditions or illnesses.

2. The Division shall explain the denial, reduction, limitation, suspension, or termination of the requested EPSDT service in accordance with AMPM 430 and this Policy.

3. The Division shall specify why the requested service does not meet the EPSDT criteria and is not covered.

4. The Division shall also specify that EPSDT services include coverage of screening services, vision services, dental services, hearing services, and such other necessary health care, diagnostic services, treatment, and other measures described in Federal law to correct or ameliorate defects and physical and mental illnesses and conditions discovered by the screening services, whether or not such services are covered under the AHCCCS State Plan.

E. RESPONSIBLE PERSON COMPLAINTS REGARDING THE ADEQUACY OR UNDERSTANDIBILITY OF THE NOTICE OF ADVERSE BENEFIT DETERMINATION

1. The Division shall review the initial Notice of Adverse Benefit Determination against the content requirements of this Policy when a Responsible Person complains about the adequacy of a Notice of Adverse Benefit Determination.

2. The Division shall issue an amended Notice of Adverse Benefit Determination consistent with the requirements of this Policy when the Division determines the original Notice of Adverse Benefit Determination is inadequate or deficient.

3. The Division shall begin the timeframe for the Responsible Person to Appeal and continuation of services from the date of the amended Notice of Adverse Benefit Determination when an amended Notice of Adverse Benefit Determination is required.

F. TIMEFRAMES FOR SERVICE AUTHORIZATIONS

All references to "days" in this Policy mean "Calendar Days" unless otherwise specified.

1. The Division shall ensure completion and issuance of the service authorization decision when a Service Authorization Request is

submitted within the following timeframes, including requests that are standard requests and expedited requests.

a. The Division shall consider the date and time the Division or one of its AdSS' receives the request, whichever is earlier, to be considered the date and time of receipt.

b. The Division shall use the date and time to determine the due date for completion of the authorization decision, depending on the timeframe applicable to the particular type of service request. The Division may use electronic date stamps or manual stamping for logging the receipt.

c. The Division shall make sufficient attempts to obtain the information or clarification and document all attempts for Service Authorization Requests lacking sufficient clinical information necessary to render the decision or the required clarification.

2. Standard authorization decision timeframe for Service Authorization Requests

a. The Division shall issue service authorization decisions as expeditiously as the Member's condition requires but no later than 14 Calendar Days from receipt of the request for the service regardless of whether the 14th day falls on a weekend (Saturday and Sunday) or Legal Holiday as defined by the State of Arizona.

b. The Division may issue a NOE of up to 14 additional Calendar Days when the criteria for a service authorization extension are met as specified in section (H) of this Policy.

3. Expedited Service Authorization Decision Timeframe for Service Authorization Requests:

a. The Division shall issue an expedited service authorization decision, as expeditiously as the Member's health condition requires, but no later than 72 hours from receipt of the request for service consistent with 42 CFR 438.210(d)(2)(i) and 42 CFR 438.404(c)(6)] regardless of whether the due date falls on a weekend (Saturday and

Sunday) or legal holiday as defined by the State of Arizona.

b. The Division shall issue a NOE of up to 14 additional Calendar Days, when the criteria for a service authorization extension are met as specified in section (H) of this Policy.

4. Expedited Service Authorization Request treated as a standard request:

a. The Division shall treat the Expedited Service Authorization Request as a Standard Authorization Request when the Expedited Service Authorization Request fails to meet the requirements for expedited consideration.

b. The Division shall have a process included in the Division's policy for prior authorization (PA) that describes how the Responsible Person and provider shall be notified of the change to a standard authorization request and be given an opportunity to provide additional information, refer to

Provider Policy Manual Chapter 17.

c. The Division shall permit the requesting provider to send additional documentation supporting the need for an Expedited Service Authorization request.

5. Service authorization decisions not reached within the timeframes:

a. The Division shall consider a Service Authorization Request decision that is not reached within the required timeframes for a standard or expedited request, as a denial when the Division has not made a decision.

b. The Division shall issue a Notice of Adverse Benefit Determination denying the request on the date that the timeframe expires.

6. Service authorization decisions not reached within the extended timeframes:

a. The Division shall consider a Service Request Authorization

decision that is not reached within the timeframe noted in the NOE as a denial.

b. The Division shall issue a Notice of Adverse Benefit Determination denying the service request on the date that the timeframe expires as specified in 42 CFR 438.404(c)(5).

G. TIMEFRAMES FOR COMPLETING NOTICES OF ADVERSE BENEFIT DETERMINATIONS

1. The Division shall mail the Notice of Adverse Benefit Determination within the following timeframes:

   a. For termination, suspension, or reduction of a previously authorized service, the Division shall mail the Notice of Adverse Benefit Determination at least 10 Calendar Days before the date of the proposed termination, suspension, or reduction except for situations in 42 CFR 438.210 providing exceptions to advance notice [42 CFR 431.211, 42 CFR 438.404(c)(1)];

b. For standard service authorization decisions that deny or limit services, the Division shall provide a Notice of Adverse Benefit Determination:

i. As expeditiously as the Member's health condition requires, but no later than 14 Calendar Days from the receipt of the request, regardless of whether the due date falls on a weekend (Saturday and Sunday) or Legal Holiday as defined by the State of Arizona, unless there is a NOE. For extension timeframes, refer to NOE requirements in this Policy [42 CFR 438.404(c)(3) and (4), 42 CFR 438.210(d)(1)];

ii. As expeditiously as the Member's health condition requires, but no later than 72 hours from receipt of an Expedited Service Authorization Request consistent with 42 CFR 438.210(d)(2)(i) and 42 CFR 438.404(c)(6), regardless of whether the due date falls on a weekend (Saturday and Sunday) or Legal Holiday as defined by the State of Arizona unless

there is a NOE. For extension timeframes, refer to NOE requirements in this Policy.

H. NOTICE OF EXTENSION (NOE) REQUIREMENTS

1. Notice of Extensions (NOE) Timeframes

   a. The Division shall extend the timeframe to make a service authorization decision for both standard and Expedited Service Authorization Requests when:

      i. The Responsible Person or provider, with the Responsible Person’s written consent, requests an extension, or

      ii. The Division shall document all attempts made to the requesting provider for the needed information.

      iii. The Division shall notify the Responsible Person of the reason for the extension and attempt to obtain the Member's approval before the Division pursues an extension due to lack of sufficient clinical

information.

2. The Division shall not pursue the NOE until the Division has made sufficient attempts to first obtain the necessary information from the Responsible Person or provider within the standard or expedited timeframe, whichever is applicable. Refer to 42 CFR 438.404(c)(4) and 438.210(d).

3. The Division shall document all attempts to obtain the necessary information.

4. The Division shall notify the Member of the reason for the extension and attempt to obtain the Member's approval before the Division pursues an extension due to lack of sufficient clinical information.

5. The Division shall not send the NOE until the Division has made sufficient attempts to obtain the necessary information from the requesting provider [42 CFR 438.404(c)(6), 42 CFR 438.210(d)(2)(ii)];

   a. For standard Service Authorization Requests, the Division

may extend the 14 Calendar Day time frame to make a decision by up to an additional 14 Calendar Days, not to exceed 28 Calendar Days from the service request date, regardless of whether the due date falls on a weekend (Saturday and Sunday) or Legal Holiday as defined by the State of Arizona;

b. For an Expedited Service Authorization Request, the Division may extend the 72-hour timeframe to make a decision by up to an additional 14 Calendar Days, regardless of whether the due date falls on a weekend (Saturday and Sunday) or Legal Holiday as defined by the State of Arizona;

c. When the Division justifies the need for additional information is in the Member's best interest. The Notice of NOE shall not be sent until the Division has made sufficient attempts to obtain the necessary information from the Responsible Person [42 CFR 438.404(c)(6), 42 CFR

438.210(d)(2)(ii)].

d. For Standard Service Authorization requests, the Division may extend the 14-Calendar Day timeframe to make a decision by up to an additional 14 Calendar Days, not to exceed 28 Calendar Days from the Service Authorization Request date, regardless of whether the due date falls on a weekend (Saturday and Sunday) or Legal Holiday as defined by the State of Arizona.

e. For Service Authorization requests involving medication, refer to Timelines for Completing Notices of Adverse Benefit Determinations in this Policy when the prior authorization requests lack sufficient information from the prescriber.

f. For an expedited Service Authorization Request (requests that do not involve medication), the Division may extend the 72-hour timeframe to make a decision by up to an additional 14 Calendar Days, regardless of whether the

due date falls on a weekend (Saturday and Sunday) or Legal Holiday as defined by the State of Arizona.

6. When the Division extends the timeframe to make a decision, in accordance with 42 CFR 438.210(d)(1) the Division shall:

   a. Provide the Responsible Person written notice of the reason for the decision to extend the timeframe, including what information is needed in order to make a decision, and in easily understood language, as outlined in Division Operations Policy 404;

   b. Inform the Responsible Person of the right to file a grievance or complaint if the Responsible Person disagrees with the decision to extend the timeframe as described in 42 CFR 438.210(d)(1)(ii); 42 CFR 438.404(c)(4)(i); and;

   c. Issue and carry out the decision as expeditiously as the Member's condition requires and no later than the date the extension expires consistent with 42 CFR 438.210(d)(1)(ii); 42 CFR 438.404(c)(4)(ii).

415 PROVIDER NETWORK DEVELOPMENT AND MANAGEMENT PLAN; PERIODIC NETWORK REPORTING REQUIREMENTS

REVISION DATE: 1/17/2024, 3/22/2023

REVIEW DATE: 10/10/2023

EFFECTIVE DATE: October 1, 2018

REFERENCES: ACOM 415, 417, and 439; ACOM 415 Attachments A, B, D, F; ACOM 417 Attachment A, B; 9 A.A.C. 22, Articles 1 and 2; A.R.S. §§ 36-2901, 36-3407; 42 CFR 457.1230, 42 CFR 438.207(b), Section F3, Contractor Chart of Deliverables

PURPOSE

The purpose of this policy is to establish Division requirements for the Division's submission of the Network Development and Management Plan and other periodic network reports to AHCCCS.

DEFINITIONS

1. "Attachment" means attachment to Arizona Health Care Cost Containment System (AHCCCS) Contractor Operations Manual (ACOM) 415.
2. "Contract" means the Division's contract with AHCCCS.

POLICY

A. NETWORK DEVELOPMENT AND MANAGEMENT PLAN

1. The Division shall develop and maintain a provider Network Development and Management Plan (NDMP) that assures AHCCCS that the provision of covered services will occur as stated in the Contract [42 CFR 457.1230, 42 CFR 438.207(b)].
2. The Division shall evaluate/review activity and performance during the Contract year prior to the NDMP's submission date and address the Division's plan for network development and related activity during the Contract year in which it was submitted.
3. The Division shall specify in the NDMP the process to develop, maintain, and monitor an adequate Provider network that is supported by written agreements and is sufficient to provide access to all services covered under the Contract and satisfies all service delivery requirements.
4. The Division shall include in the NDMP a comprehensive description of elements identified in Attachment B and shall

submit as specified in Contract. In the submission, the Division shall include the following:

a. Attachment A, Network Attestation Statement.

b. Attachment B, Network Development and Management Plan Checklist, in Microsoft Word format.

c. Attachment F, the Centers of Excellence Checklist (COE), in Microsoft Word format.

d. The Centers of Excellence (COE).

B. PERIODIC NETWORK REPORTING

1. Provider Changes Due to Rates Report

   a. The Division shall submit Attachment D, as specified in Contract.

   b. The Division shall submit changes resulting in a material change to the network to AHCCCS as specified in ACOM Policy 439.

2. Service Delivery Standard Report

   a. The Division shall submit the Home and Community Based Services (HCBS) Service Delivery Standard Report as

specified in the Contract. The Division shall include the following in the report:

i. A description of the metrics used by the Division to measure the timeliness of its service delivery and its performance under those metrics,

ii. A summary of the Division's performance under these metrics, and

iii. A trended analysis of the current performance.

SUPPLEMENTAL INFORMATION

DELIVERABLES:

Durable Medical Equipment (DME) Wheelchair Service Delivery Reporting;

Provider Network Development and Management Plan;

Provider/Network Changes Due to Rates Report Attachment D and E;

Centers of Excellence Attachment to Provider Network Development and Management Plan, HCBS Standard Delivery Report.

416 PROVIDER INFORMATION

REVISION DATE: 1/3/2024, 10/1/2019

REVIEW DATE: 7/20/2023

EFFECTIVE DATE: May 13, 2016

REFERENCES: A.R.S. § 36-2901; 42 CFR 438.12; 42 CFR 438.100; 42 CFR 438.102

PURPOSE

This Policy establishes provider information requirements.

DEFINITIONS

1. "Americans With Disabilities Act" or "ADA" means the Americans with Disabilities Act of 1990, as amended, that prohibits discrimination on the basis of disability and ensures equal opportunity for individuals with disabilities in employment, State and local government services, public accommodations, commercial facilities transportation, and telecommunications as specified in 42 U.S.C. 126 and 47 U.S.C. 5.
2. "Early and Periodic Screening, Diagnostic, and Treatment" or "EPSDT" means a comprehensive child health program of prevention, treatment, correction, and improvement of physical

and behavioral health conditions for Members under the age of 21, to ensure the availability and accessibility of health care resources as well as to assist Medicaid recipients in effectively utilizing these resources.

a. EPSDT services provide comprehensive health care through primary prevention, early intervention, diagnosis, medically necessary treatment, and follow-up care of physical and behavioral health conditions for AHCCCS members less than 21 years of age.

b EPSDT services include screening services, vision services, dental services, hearing services and all other medically necessary mandatory and optional services as specified in Federal Law 42 U.S.C. 1396d(a) to correct or ameliorate defects and physical and behavioral health illnesses and conditions identified in an EPSDT screening whether or not the services are covered under the AHCCCS State Plan.

c. Limitations and exclusions, other than the requirement for medical necessity and cost effectiveness, do not apply to EPSDT services.

3. "Home and Community Based Services" or "HCBS" means Home and community-based services, as specified in A.R.S. § 36-2931 and A.R.S. § 36-2939.
4. "Member" means the same as "client" as defined in A.R.S. § 36-551.
5. "Primary Care Provider" or "PCP" means an individual who meets the requirements as specified in A.R.S. § 36-2901, and who is responsible for the management of the Member's health care.
    a. A PCP may be:
        i. A physician defined as an individual licensed as an allopathic or osteopathic physician as specified in A.R.S. Title 32, Chapter 13 or Chapter 17;
        ii. A practitioner defined as a physician assistant licensed as specified in A.R.S. Title 32, Chapter 25;
        iii. A certified nurse practitioner licensed as specified in A.R.S. Title 32, Chapter 15, or
        iv. A naturopathic physician for AHCCCS members under the age of 21 receiving EPSDT services.

b. The PCP shall be an individual, not a group or association of individuals, such as a clinic.

6. "Provider" means any person or entity that contracts with the Division to provide a covered service to Members in accordance with A.R.S. § 36-2901.

7. "Serious Mental Illness" or "SMI" means a designation as specified in A.R.S. § 36-550 and determined in an individual 18 years of age or older.

8. "Value-Based Purchasing" or "VBP" means a payment from a Contractor to a provider upon successful completion or expectation of successful completion of contracted goals and measures in accordance with the VBP strategy selected for the contract.

   a. VBP is a non-encounterable payment and does not reflect payment for a direct medical service to a member.

   b. VBP payment will typically occur after the completion of the contract period but could include quarterly or semiannual payments if contract terms specify such

payments in recognition of successful performance measurement.

POLICY

A. PROVIDER MANUAL

1. The Division shall develop, distribute, and maintain a provider manual, ensuring that each contracted provider is made aware of the provider manual available on the Division's website or, if requested, issued a hard copy of the provider manual. The Division shall make available a provider manual to any individual or group that submits claim and encounter data.
2. The Division shall ensure that all providers, whether contracted or not, meet the applicable AHCCCS requirements that relate to covered services and billing.
3. The Division shall ensure that the provider manual provides information regarding the following:
    a. The ability of a member's Primary Care Provider (PCP) to treat behavioral health conditions within the scope of their practice.

b. Introduction to the Division that explains the Division's organization and administrative structure.

c. Provider responsibility and the Division's expectation of the provider.

d. Division's provider service departments and functions including the expected response times for provider inquiries.

e. Listing and description of covered and non-covered services, requirements, and limitations, including behavioral health services.

f. Appropriate and inappropriate use of the emergency department.

g. Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Services.

    i. Screenings include a comprehensive history, developmental and behavioral health screening, comprehensive unclothed physical examination, appropriate vision testing, hearing testing, laboratory tests, dental screenings, and immunizations.

ii. EPSDT providers shall document immunizations into Arizona State Immunization Information System (ASIIS) and enroll every year in the Vaccine for Children program.

h. Description of dental services coverage and limitations.

i. Description of maternity and family planning services.

j. Criteria and process for referrals to specialists and other providers, including access to behavioral health services.

k. Process for referrals and provision of Augmentative and Alternative Communication (AAC) related services, including AAC device evaluations.

l. Grievance and appeal system process and procedures for providers and enrollees.

m. Billing and encounter submission information.

n. Policies and procedures relevant to the providers that contain:

i. Utilization management;

ii. Claims submission;

iii. Criteria for identifying provider locations that provide physical access, accessible equipment, and reasonable accommodations for Members with physical or cognitive disabilities; and

iv. PCP assignments, including how provider participation in Value-Based Purchasing (VBP) initiatives impacts member assignments to a PCP as specified in AMPM Policy 510.

o. Procedure for providers to request a PCP assignment roster, that the roster will be provided within 10 business days of receipt of the request, that contains:

i. Members' name,

ii. Members' date of birth,

iii. Members' AHCCCS ID,

iv. AHCCCS ID of the assigned PCP, and

v. Effective date of member assignment to the PCP.

p. Policies relevant to payment responsibilities that contain:

i. Description of the Change of Contractor policies as specified in ACOM Policy 401 and ACOM Policy 406, and

ii. Nursing Facility and Alternative Home and Community Based Service (HCBS) setting contract termination procedures as specified in ACOM Policy 421.

q. Reimbursement policies, including reimbursement for Members with other insurance as specified in ACOM Policy 434, and Medicare cost sharing as specified in ACOM Policy 201.

r. Cost sharing responsibility.

s. Explanation of remittance advice.

t. Criteria for the disclosure of member health information

u. Medical record standards.

v. Prior authorization and notification requirements, including a listing of services which most frequently used services which require authorization, and instructions on how to

obtain a complete listing of services that require authorization.

w. Requirements for out of state placement for members.

x. Claims medical review.

y. Concurrent review.

z. Coordination of Care requirements, including designation of an Employment Coordinator as the statewide point of contact for the referral of Members requesting employment services from the Division.

aa. Credentialing and re-credentialing activities.

bb. Fraud, waste, and abuse as specified in ACOM Policy 103.

cc. Information on the False Claims Act provisions of the Deficit Reduction Act as required in the Corporate Compliance paragraph of the contract.

dd. Minimum Required Prescription Drug List (MRPDL) information, including:

i. How to access the MRPDL, electronically or by hard copy upon request, and

ii. How and when updates are communicated.

ee. Prescribing and monitoring of all medications including specific protocols for opioids and psychotropic medications, including prior authorization and limits specified in AMPM Policy 310-V, the Contractor's monitoring process for prescribers in AMPM Policy 310-FF, and informed consent requirements in AMPM Policy 320-Q.

ff. AHCCCS appointment standards.

gg. Requirements pertaining to duty to warn and duty to report as specified in AMPM Policy 960.

hh. Submission requirements under the AHCCCS DUGless Portal Guide for behavioral health providers regarding their responsibilities for submitting to AHCCCS demographic information.

ii. Americans with Disabilities Act (ADA) and Title VI Of the Civil Rights Act of 1964 requirements, as applicable.

jj. Process providers use to notify the Division for changing an address, contact information, or other demographic information.

kk. Information on services available through the AHCCCS Provider Enrollment Portal and how to access the portal and how to update provider registration data including current population groups sets served.

ll. Eligibility verification.

mm. Cultural competency information, including notification about Title VI of the Civil Rights Act of 1964, and access to interpretation services for Members who speak a language other than English, including Sign Language.

nn. Peer review and appeal process.

oo. Medication management services as described in the contract.

pp. A Member's rights as specified in 42 CFR 457.1220 and 42 CFR 438.100, including, to:

i. Be treated with dignity and respect.

ii. Receive information on available treatment options and alternatives, presented in a manner appropriate to the Member's condition and ability to understand.

iii. Participate in treatment decisions regarding his or her health care, including the right to refuse treatment.

iv. Be free from any form of restraint or seclusion used as a means of coercion, discipline, convenience, or retaliation.

v. Request and receive a copy of the medical records, and to request that the medical records be amended or corrected, as specified in 45 CFR part 164 and applicable state law.

vi. Exercise his or her rights and the exercise of those rights shall not adversely affect service delivery to the Member.

qq. Notification that the Division has no policies that prevent the provider from advocating on behalf of the Member as specified in 42 CFR 438.102.

rr. Information on how to access or obtain Practice Guidelines and coverage criteria for authorization decisions.

ss. General and informed consent for treatment requirements.

tt. Advance directives.

uu. Transition of members.

vv. Encounter validation studies.

ww. Incidents, accidents, and deaths reporting requirements as specified in AMPM Policy 960.

xx. A pre-petition screening, court ordered evaluations, and court ordered treatment.

yy. Behavioral health assessment and service planning requirements:

i. As specified in AMPM Policy 320-O;

ii. Requirements for behavioral health providers to assist individuals as specified in the AMPM Policy 650;

iii. Outreach, Engagement, and Re-Engagement for Behavioral Health applicable to providers as specified in AMPM Policy 1040;

iv. Serious Mental Illness (SMI) eligibility determination process as specified in AMPM Policy 320-P;

v. Partnership requirements with families and family-run organizations in the children and adult behavioral health system; and

vi. Peer support and recovery training, certification, and clinical supervision requirements as specified in AMPM Policy 963.

4. The Division shall include the following information in the provider manual:

a. Housing criteria for individuals determined to have an SMI,

b. Seclusion, restraint, and emergency response reporting requirements, and

c. The SMI grievance and appeal process.

5. The Division shall include guidance in the Provider Manual on which services are the responsibility of DDD qualified vendors and which services are the responsibility of providers contracted with the DDD subcontracted health plans, and directions on how providers unsure of these responsibilities can obtain guidance.

B. REQUIRED NOTIFICATIONS

1. In addition to the updates required in this section, the Division shall require providers to disseminate information on behalf of the Division or AHCCCS. In these instances, the Division shall provide prior notification.
2. The Division shall provide written or electronic communication to contracted providers in the following instances:
    a. Exclusion from Network - Under Federal Regulation 42 CFR 438.12, the Division shall provide written notice of the reason for declining any written request for inclusion in the network.
    b. Material Changes - The Division shall notify providers in advance of any Material Change to the Provider Network or business operations as specified in ACOM policy 439.
    c. Division Policy and Procedure Changes – For any change in policy, process, or protocol including prior authorization, retrospective review, or performance and network standards that affects or can reasonably be foreseen to affect the Division’s ability to meet performance standards

of the Division contract with AHCCCS, the Division shall notify:

i. The designated operations compliance officer to which the Division is assigned, sixty calendar days before a proposed change, and

ii. Affected provider, thirty calendar days before the proposed change.

d. AHCCCS Guidelines, Policy, and Manual Changes - The Division shall notify its subcontractors when modifications are made to AHCCCS guidelines, policies, and manuals.

e. Division Provider Manual Changes - The Division shall notify its providers when modifications are made to the provider manual.

f. Subcontract Updates

i. If the AHCCCS Minimum Subcontract Provisions are modified, the Division shall issue a notification of the change to the subcontractors within 30 calendar days of the published change and ensure amendment of affected subcontracts.

ii. The Division shall amend the affected subcontracts on their regular renewal schedule or within six calendar months of the update, whichever comes first.

g. Termination of Contract – The Division shall provide, or require its subcontractors to provide, written notice to hospitals and provider groups at least 90 calendar days prior to any contract termination, other than contracts between subcontractors and individual practitioners, without cause.

h. Disease and Chronic Care Management – The Division shall disseminate information as required by the AHCCCS Medical Policy Manual (AMPM) Policy 1020.

417 APPOINTMENT AVAILABILITY, TRANSPORTATION TIMELINESS, MONITORING, AND REPORTING

REVISION DATE: 2/28/2024, 3/22/2023, 10/1/2019
REVIEW DATE: 10/10/2023
EFFECTIVE DATE: January 16, 2019
REFERENCES: 42 CFR 438.206; 42 CFR 438.206(b)(4); 42 CFR 438.206(c)(1)((i)-(vi); 42 CFR 438.207(b); 42 CFR 457.1230(a); A.R.S. § 8-512.01; ACOM 415; ACOM 417, ACOM 417 Attachments A and B.

PURPOSE

This policy outlines the Appointment accessibility and availability standards and the Division's oversight and monitoring of the Administrative Services Subcontractors (AdSS) to ensure compliance with the Division's network sufficiency requirements. This policy outlines the process for the Division to report Service Provider Appointment accessibility and availability to the Arizona Health Care Cost Containment System (AHCCCS).

DEFINITIONS

1. "1800 Report" means an AHCCCS-generated document, provided quarterly that identifies Primary Care Physicians (PCPs) with a

panel of more than 1800 AHCCCS Members.

2. "Appointment" means a scheduled day and time for an individual to be evaluated, treated, or receive a service by a healthcare professional or Service Provider in Service Provider and service categories identified in this policy.

3. "Network Development and Management Plan" or "NDMP" means a plan the Division develops and maintains to ensure the provision of covered services will occur as stated in the Contract. The Network Development and Management Plan (NDMP) specifies the Division process to develop, maintain, and monitor an adequate Service Provider network that is supported by written agreements and is sufficient to provide access to all services covered under the Contract and satisfies all service delivery requirements.

4. "Service Provider" means an agency or individual operating under a contract or service agreement with the Department to provide services to Division Members.

5. "Urgent Care Appointment" means an Appointment for medically necessary services to prevent deterioration of health following the acute onset of an illness, injury, condition, or exacerbation of symptoms.

POLICY

A. DIVISION OVERSIGHT

1. The Division shall oversee the AdSS utilizing the following methods to ensure compliance with policy:
   a. Annual Operational Review of each AdSS,
   b. Review and analyze deliverable reports submitted by the AdSS, and
   c. Conduct oversight meetings with the AdSS for the purpose of:
      i. Reviewing compliance,
      ii. Addressing concerns with access to care or other quality of care concerns,
      iii. Discussing systemic issues, and

iv. Providing direction or support to the AdSS as necessary.

B. APPOINTMENT STANDARDS FOR THE ADSS

1. The Division shall require adherence to service accessibility standards and the contractual Appointment standards contained in 42 CFR 457.1230(a) and 42 CFR 438.206.

2. The Division shall require a comprehensive Service Provider network that provides access to all services covered under the Contract for all Members of the Division.

3. The Division shall require contracted services be covered through an out of network Service Provider until a network Service Provider is contracted if the network is unable to provide medically necessary services required under the Contract.

4. The Division shall require adherence with using the results of Appointment standards, monitoring to validate it has an adequate network of Service Providers ensuring timely service

coverage, and to reduce unnecessary emergency department utilization.

5. The Division shall require adherence with having written policies and procedures about educating it's Service Provider network regarding Appointment time requirements.

6. The Division shall require:

   a. A corrective action plan be developed when Appointment standards are not met.

   b. A corrective action plan be developed in conjunction with the Service Provider when appropriate.

C. GENERAL APPOINTMENT STANDARDS FOR THE ADSS

The Division shall require the following Appointment standards are met:

1. For primary care Service Provider Appointments:

   a. Urgent Care Appointments scheduled as expeditiously as the Member's health condition

requires but no later than two business days of request, and

b. Routine care Appointments scheduled within 21 calendar days of request.

2. For specialty Physician Appointments, including dental specialists:

a. Urgent Care Appointments scheduled as expeditiously as the Member's health condition requires but no later than two business days from the request, and

b. Routine care Appointments scheduled within 45 calendar days of referral.

3. For dental Service Provider Appointments:

a. Urgent Care Appointments scheduled as expeditiously as the Member's health condition requires but no later than three business days of request.

b. Routine care Appointments scheduled within 45 calendar days of request.

4. For maternity care Service Provider Appointments:

Initial prenatal care Appointments for enrolled pregnant Members provided as follows:

a. First trimester, Appointments scheduled within 14 calendar days of request;

b. Second trimester, Appointments scheduled within seven calendar days of request;

c. Third trimester, Appointments scheduled within three business days of request; and

d. High risk pregnancies, Appointments scheduled as expeditiously as the Member's health condition requires and no later than three business days of identification of high risk by the AdSS or maternity care Service Provider, or immediately if an emergency exists.

D. PSYCHOTROPIC MEDICATION APPOINTMENT STANDARDS FOR THE ADSS

The Division shall require the following psychotropic medication Appointment standards are adhered to:

1. Assess the urgency of the need immediately; and
2. Provide an Appointment, if clinically indicated, with a practitioner who can prescribe psychotropic medications within a time frame that ensures the Member:
   a. Does not run out of needed medications; or
   b. Does not decline in the Member's behavioral health condition prior to starting medication, but no later than 30 calendar days from the identification of need.

E. GENERAL BEHAVIORAL HEALTH APPOINTMENT STANDARDS FOR THE ADSS

The Division shall require the following general behavioral health

Appointment standards are met:

1. For behavioral health Service Provider Appointments:

   Urgent need Appointments scheduled as expeditiously as the Member's health condition requires but no later than 24 hours from identification of need.

2. Initial assessment:

   Scheduled within seven calendar days after the initial referral or request for behavioral health services.

3. Initial Appointment:

   a. Scheduled within time frames indicated by clinical need.

   b. Scheduled no later than 23 calendar days after the initial assessment for Members age 18 years or older; and

   c. Scheduled no later than 21 days after the initial assessment for Members under the age of 18

years old.

4. Subsequent behavioral health services:

Scheduled as expeditiously as the member's health condition requires but no later than 45 calendar days from identification of need.

F. BEHAVIORAL HEALTH APPOINTMENT STANDARDS FOR PERSONS IN LEGAL CUSTODY OF THE ARIZONA DEPARTMENT OF CHILD SAFETY (DCS) AND ADOPTED CHILDREN

1. The Division shall require the following Appointment standards are met:

a. Rapid response:

When a child enters out-of-home placement within the time frame indicated by the behavioral health condition, but no later than 72 hours after notification by the Arizona Department of Child Safety (DCS) that a child has been or will be removed from their home;

b. Initial assessment:

Within seven calendar days after the initial referral or request for behavioral health services;

c. Initial Appointment:

Within time frames indicated by clinical need, but no later than 21 calendar days after the initial assessment; and

d. Subsequent behavioral health services:

Within the time frames according to the needs of the person, but no longer than 21 calendar days from the identification of need.

2. The Division shall require Appointment standards for Members in the legal custody of the DCS and adopted children are adhered to in order to to monitor Appointment accessibility and availability. .

G. SERVICE PROVIDER APPOINTMENT AVAILABILITY REVIEW FOR THE ADSS

1. The Division shall require regular reviews of Service Providers

are conducted to assess the availability of routine and Urgent Appointments for primary care, specialist, dental, and behavioral health Service Providers for Members in the legal custody of the Department of Child Safety (DCS) and adopted children.

2. The Division shall require the review of the availability of routine and urgent Appointments for maternity care Service Providers relating to the first, second and third trimesters, and high risk pregnancies.

3. The Division shall consider an Appointment available to be delivered through telehealth as an available Appointment where clinically appropriate.

4. The Division shall require Service Provider Appointment availability reviews be conducted as a method to ensure sufficient Service Provider network capacity.

5. The Division shall require Provider Appointment availability reviews be conducted for all Service Providers or a statistically relevant sample of Service Providers throughout the Contract year.

6. The Division shall require only using one of these methods at a time for conducting reviews:
   a. Appointment schedule review that independently validates Appointment availability;
   b. Secret shopper phone calls that anonymously validate Appointment availability; or
   c. Other methods approved by AHCCCS .
7. The Division shall supplement the monitoring efforts prescribed in (F)(1) through (F)(6) by targeting specific Providers identified through the following performance monitoring systems:
   a. The 1800 Report,
   b. Quality of care concerns,
   c. Complaints,
   d. Grievances, or
   e. The credentialing process.
8. The Division shall require any plans to change existing methodologies for Appointment availability reviews be submitted

to the Division for approval in the annual NDMP as specified in ACOM Attachment 415-B.

9. The Division shall submit this request to AHCCCSa as specified in the Contract.

H. TRANSPORTATION TIMELINESS REVIEW FOR THE ADSS

1. The Division shall monitor for adherence that medically necessary, non-emergent transportation is provided so a Member arrives on time for an Appointment, but no sooner than one hour before the Appointment, nor have to wait no more than one hour after the conclusion of the treatment for transportation home.

2. The Division shall require the following AHCCCS performance target is met: 95% of all combined completed pickup and drop off trips in a quarter are completed in the time frame specified in section (G)(1) above.

3. The Division shall require compliance with these standards be evaluated on a quarterly basis for all subcontracted transportation vendors orbrokers and require corrective action if

standards are not met.

4. The Division shall require adherence with transportation timeliness standards be monitored.

5. The Division shall require tracking for all scheduled trips that were not completed.

I. TRACKING AND REPORTING FOR THE ADSS

1. The Division shall require adherence in tracking Service Provider compliance with Appointment availability and transportation timeliness as specified in the Contract, the F3 Chart of Deliverables, and outlined below in sections (H)(2) through (H)(4).
2. The Division shall require a cover letter be submitted to AHCCCS with ACOM Attachment 417-A, including all of the following:
    a. A description of the methods used to collect the information;
    b. An explanation of whether all Service Providers in their network or a sample is being surveyed.

c. A sample of the Provider network needs to include the methodology for how the sample size meets a 95% statistically significant confidence level, including the calculations used to confirm the confidence level;

d. A summary of the findings and an explanation of trends in either a positive or negative direction;

e. An analysis of the potential causes for these findings and trends.

f. A description of any interventions applied to areas of concern including, any corrective actions taken.

3. The Division shall require ACOM Attachment 417-B is submitted for each line of business, with a cover letter for each submission including all of the following:

a. A summary of the findings including any identified positive or negative trends for timeliness, incomplete trips, and their reason;

b. An analysis of the potential causes for these findings and

trends; and

c. A description of any interventions applied to areas of concern including, and corrective actions taken.

4. The Division shall require additional corrective action steps are provided for any reporting quarter where the average percentage of all completed trips for that quarter falls below the performance target of 95%. These steps shall include a timeline to meet the performance target of 95% of trips being completed in the time frame specified in section (G)(1) above.

5. The Division shall submit to AHCCCS a copy of ACOM Attachment 417-A and ACOM Attachment 417-B, for each of their AdSS.

6. The Division shall submit to AHCCCS a cover letter containing the information as specified in sections (H)(2) and (H)(3) and their subsections above related to each of their AdSS.

7. The Division shall annually require as a component of the NDMP, the following:

a. Conduct a review of the network sufficiency when there

has been a significant decrease in Appointment availability performance over the previous year;

b. Compare the annual average performance to the previous Contract year's average performance for each standard, Service Provider type and Appointment type subcategory specified within this Policy under the sections for General Appointment Standards, General Behavioral Health Standards and Additional Behavioral Health Standards; and

c. Conduct a review of the sufficiency of the Service Provider network for any standard that decreased by more than five percentage points.

SUPPLEMENTAL INFORMATION

For additional information on behavioral health services and behavioral health standards for persons in the legal custody of the Department of Child Safety (DCS) and adopted children in accordance with A.R.S. § 8-512.01, refer to AdSS Policy 449.

418 PROVIDER AND AFFILIATE ADVANCES, EQUITY DISTRIBUTIONS, LOANS, & INVESTMENTS

EFFECTIVE DATE: April 29, 2019

REFERENCES: ACOM 418 Provider and Affiliate Advances, Equity Distributions, Loans, and Investments.

Purpose

This Policy applies to Department of Developmental Disabilities (the Division). This Policy establishes requirements for Division regarding advances, equity distributions loans, loan guarantees, and investments; including but not limited to,–those to providers and related–parties or affiliates including another fund or line of business within the Division's organization.

Definitions

A. Advance - Includes but is not limited to payment to a provider or affiliate by a Contractor which is based on an estimate of Received but Unpaid Claims (RBUCS), an estimate of the value of erroneous claim denials (including underpayments), a loan, or as otherwise defined by the Contractor.

B. Affiliate (Related Party) - A party that has, or may have, the ability to control or significantly influence a Division, or a party that is, or may be, controlled or significantly influenced by a Division. "Related parties" include, but are not limited to, agents, managing employees, individuals with an ownership or controlling interest in the Division and their immediate families, subcontractors, wholly-owned subsidiaries or suppliers, parent companies, sister companies, holding companies, and other entities controlled or managed by any such entities or individuals.

C. Affiliate (Related Party) Transactions - Transactions with a party that has, or may have, the ability to control or significantly influence a Contractor, or a party that is, or may be, controlled or significantly influenced by the Contractor. Control, for purposes of this definition, means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of an enterprise through ownership, by contract, or otherwise. "Related parties" or "Affiliates" include, but are not limited to, agents, managing employees, individuals with an ownership or controlling interest in the disclosing entity, and their immediate families, subcontractors, wholly-owned subsidiaries or suppliers, parent companies, sister companies, holding companies, and other entities controlled or managed by any such entities or individuals.

D. Day - Calendar day unless otherwise specified.

E. Provider - Any individual or entity that contracts with AHCCCS or a Contractor for the provision of covered services to members according to the provisions A.R.S. §36-2901 or any subcontractor of a provider delivering services pursuant to A.R.S. §36-2901

Policy

AHCCCS reserves the right to evaluate and present all proposed Advances, equity distributions, loans, loan guarantees, and investments to the affected Providers(s), related parties, or Affiliates as part of the approval and/or notification process.

All requests must be submitted as specified in the Division Contract. AHCCCS will evaluate all requests for appropriateness and to resolve any future occurrences with accurate and timely claims payment. A written determination will be sent to the Division upon review of all required information from the Division.

Provider Advances, loans, and loan guarantees under $50,000 do not require prior AHCCCS approval but will be tracked and made available to AHCCCS upon request. AHCCCS reserves the right to request tracking logs, collection policies, and any pertinent information for all Advances, loans, or loan guarantees.

Individual and Cumulative Provider Advances, Loans, and Loan Guarantees

The Division must submit written notification to AHCCCS of any individual or cumulative Provider loans, loan guarantees, and Advances equal to or in excess of $50,000 per Provider Tax Identification Number (TIN) within a contract year. All requests for prior approval are to be submitted as specified in the Division contract. Prior approval requests must be submitted 10 Days prior to the anticipated date of distribution. All requests for approval must be in the format detailed below:

A. A detailed letter of explanation must be submitted that describes:

1. The Provider(s) name(s) and AHCCCS Identification Number(s),
2. The date the Provider and the Division initiated discussions relating to the need for the loan.
3. The systemic organizational causes resulting in the need for a loan including any mitigation strategies implemented prior to the request.
4. The process that will be used for repayment including the timeline,
5. The contingency plan for repayment should the Provider default on repayment,
6. The corrective action(s) that will be implemented to avoid future occurrences,
7. The total loan amount, and if applicable, the percentage that the Advance amount is of total estimated amount that should have been paid, and range of dates (month/year) for the impacted claims.
8. A copy of the written communication that will serve as notification to the affected Provider(s).

B. Upon completion of repayment or six months from the date of AHCCCS approval, whichever comes first, the Division will provide the following information to AHCCCS:

- Provider Name
- AHCCCS Provider ID
- Provider Tax Identification Number
- Date of Payment

- Amount Paid
- Amount Loaned
- Balance Due to/from the Provider

Required documentation for loan guarantees will be determined on an individual basis and communicated to the Division as part of the approval.

Routine or Scheduled Advances, Loans to Providers and Any Advances, or Loans to Affiliates

Routine/scheduled Advances or loans to Providers as a result of contractual arrangements or any Advance or loans to an Affiliate must be submitted to AHCCCS for prior approval. The request for approval must be submitted as specified in the Division contract.

AHCCCS may request additional information or periodic reconciliations related to these Advances.

Routine or Scheduled Advances, Equity Distributions, Loans, Loan Guarantees to Affiliates

The Division must submit a written request for approval to AHCCCS for any Advances, equity distributions, loans, loan guarantees or investments in /to related parties or Affiliates. This includes other funds or lines of business within its organization, within a contract year. Prior approval requests must be submitted 30 days prior to the anticipated date of distribution.

All approval requests must be in the format detailed below:

A. A detailed letter of explanation must be submitted that describes:

- The Related Party or Affiliate Name
- The Amount
- The Type of Request
- The Purpose or Reason for Request
- The Expected Date of Investment or Distribution.

426 CHILDREN'S REHABILITATIVE SERVICES APPLICATION, DESIGNATION AND COVERAGE

EFFECTIVE DATE: October 1, 2018

REFERENCES: A.R.S. § 36-2912; A.A.C. R9-22-1301, A.A.C. R9-22-1302, A.A.C. R9-22-1305

The Division contracts with Administrative Services Subcontractors (AdSS) and delegates responsibility for providing certain services in a manner that is compliant with law, its contract, and Division policy. See AdSS Operations Manual Policy 426 Children's Rehabilitative Services Application, Designation and Coverage for the Division policy governing AdSS responsibilities regarding this topic.

431 COPAYMENT

EFFECTIVE DATE: March 25, 2020

Members eligible with the Division of Developmental Disabilities and the ALTCS Program must not be billed copayments for any medical service, including prescriptions. Members are exempt from mandatory and optional copayments.

433 MEMBER IDENTIFICATION CARDS

EFFECTIVE DATE: December 21, 2022
REFERENCES: ACOM Policy 433

PURPOSE

This policy establishes the Division of Developmental Disabilities (Division) requirements regarding the development, approval and distribution of Member Identification Cards (ID Cards) and replacement ID Cards.

DEFINITIONS

1. "834 Enrollment Transaction File" means a nightly transaction file provided by Arizona Health Care Cost Containment System (AHCCCS) to its Contractors. The file identifies newly enrolled members and enrollment changes for existing members.

POLICY

A. PROGRAMMING REQUIREMENTS

1. The Division shall determine the timeliness for issuing ID Cards when a new AdSS initiates services in the state.

2. The Division shall ensure the AdSS provides members with new ID Cards at least 14 calendar days prior to a new DDD health plan going into effect.
3. The Division shall approve the format for a combined ID Card for members dually enrolled in Medicare and the Division. The format for the combined ID Cards must:
    a. Meet the Centers for Medicare and Medicaid Services (CMS) requirements for ID Cards and be approved AHCCCS.
    b. Meet the minimum formatting requirements identified in ACOM Policy 433 Attachment A as applying to ID Cards for members dually enrolled.
    c. Adopt additional formatting features included in this policy or prescribed by CMS for the requirement of an ID Number, if the formatting does not conflict with this policy's minimum requirements.

B. FORMAT OF MEMBER IDENTIFICATION CARDS (ID CARDS)

1. The Division shall ensure ID Cards must meet the format standards outlined in this policy or as specified in ACOM Policy 433 Attachment A. The following formatting standards apply:
   a. The front of the ID card shall include:
      i. Department of Economic Security/Division of Developmental Disability (Division) Logo, in the approved color or black and white version.
      ii. AHCCCS Logo in the approved color or black and white version no smaller than 1” long by .333” inches wide. If a larger version of the logo is used, the logo must maintain a 3:1 length to height ratio. The AdSS must not edit or alter the approved logo, except as noted above.
      iii. Arizona Health Care Cost Containment System in Arial font no smaller than 11 points.
      iv. The following information in Arial font no smaller than 8 points:
         1) Member’s name
         2) AHCCCS ID number

3) AdSS name

4) AdSS telephone number

5) TTY/TDY telephone number for members who are deaf or hard of hearing

6) Telephone number for accessing services from the Behavioral Health services

7) The nurse triage telephone number

8) ACC-RBHA statewide crisis phone number

b. The back of the ID card includes:

i. In Arial font no smaller than 7 points:

1) The following text: "Carry this card with you at all times. Present it when you get services. You may be asked for a picture ID. Using the card inappropriately is a violation of law. This card is not a guarantee for services. To verify health plan benefits, visit: UnitedHealthcare Plan – www.uhc.com

Mercy Care Plan – www.mercycareaz.org

DDD Tribal Health Program (THP) –

DDD Customer Service 1-844-770-9500 ext. 7

2) The following text in the card's mailing to the member if a card holder is not used: "To help protect your identity and prevent fraud, AHCCCS is adding pictures to its online verification tool that providers use to verify your coverage. If you have an Arizona driver's license or state issued ID, AHCCCS will get your picture from the Arizona Department of Transportation Motor Vehicle Division (MVD). When providers pull up the AHCCCS eligibility verification screen, they will see your picture (if available) with your coverage details."

c. The Division may include additional information on the ID card or card holder identified as appropriate, subject to the approval requirements of this policy.

d. The Division shall include the most recent version of the AHCCCS Notice of Privacy Practices (NPP) with any new ID Card mailing.

C. APPROVAL OF MEMBER IDENTIFICATION CARDS, AND OTHER COMPLIANCE REQUIREMENTS

1. The Division shall ensure the ID Card, the card holder, any letters or information mailed to the member with the card, and any changes to these items are submitted for prior approval by the AdSS.
2. The Division shall approve ID Cards and other member information for their AdSS subcontractors.
3. The Division shall ensure the AdSS obtains prior approval if more than one version of an ID Card is issued to members.
4. The Division shall ensure the card holder and any letters or information mailed to the member with the ID Card complies with requirements as specified in AdSS Operations Manual, Policy 404.

435 TELEPHONE PERFORMANCE STANDARDS AND REPORTING

REVISION DATE: 03/22/2023

EFFECTIVE DATE: October 1, 2019

REFERENCES: ACOM Policy 435; Attachment A.

PURPOSE

This policy applies to the Division of Developmental Disabilities (Division) Customer Service Center (CSC). This Policy establishes the Division's standards and reporting requirements regarding the Division's performance when handling Member and provider telephone calls.

DEFINITIONS

1. "Average Speed of Answer (ASOA)" means the average online wait time in seconds that the Member/provider waits from the moment the call is connected in the Division's CSC phone switch until the call is picked up by a Division CSC's representative or Interactive Voice Recognition System.
2. "Daily First Contact Call Resolution Rate (DFCCR)" means the number of calls received in a 24-hour period for which no follow-up communication or internal phone transfer is needed,

divided by the total number of calls received in the 24-hour period.

3. "Member" means an individual who is receiving services from the Division of Developmental Disabilities (Division).
4. "Member Grievance" means an expression of dissatisfaction from a Member, responsible party, advocate, etc., with any aspect of a Member's care other than an adverse benefit determination.
5. "Member Inquiry" means a question, request for guidance or direction from a Member, responsible party, advocate, etc., with any aspect of a Member's care other than an adverse benefit determination.
6. "Monthly Average Abandonment Rate (MAAR)" means this is determined by the number of calls abandoned in a 24-hour period, divided by the total number of calls received in the same 24-hour period, summed for each day of the month and then divided by the number of days in the monthly reporting period.
7. "Monthly Average Service Level (MASL)" means the total of the month's calls answered within 45 seconds divided by the sum of the following: all calls answered in the month, all calls

abandoned calls in the month and all calls receiving a busy signal in the month (if available).

8. "Monthly First Contact Call Resolution Rate (MFCCR)" means the sum of the DFCCRs divided by the number of business days in the reporting period.
9. "Provider Grievance" means a provider's expression of dissatisfaction with unresolved issues. and claims that are older than 30 days from the day of billing.
10. "Provider Inquiry" means any question related to provider matters or issues that can be resolved within the first call or email in less than 30 days, and billing issues including claims less than 30 days from the day of billing.

POLICY

A. TELEPHONE PERFORMANCE STANDARDS

The CSC shall adhere to the following Telephone Performance Standards for Member and provider calls on a monthly basis:

1. The ASOA shall be 45 seconds or less.
2. The MAAR shall be 5% or less.
3. The MFCCR shall be 70% or better.

4. The MASL shall be 75% or better.

B. TELEPHONE PERFORMANCE MEASURES REPORT

1. The CSC shall track performance based on standards noted above and report performance results to the DDD OIFA Administrator.
2. The CSC shall separately document performance for calls of the following types:
   a. Member Calls, and
   b. Provider Calls.
3. The CSC shall submit a monthly Telephone Performance Measures Report to the OIFA Administrator within 15 days after the reporting month.
4. The CSC, if non-compliant with any standard on this deliverable for any given month, shall include in the report steps the CSC shall follow to reduce the noncompliant performance.
5. The CSC shall notify the DDD AHCCCS Contract Compliance Officer when there are unanticipated telephone service interruptions in the toll-free phone system.

C. MEMBER INQUIRIES

1. The CSC shall document all incoming Member Inquiries.
    a. All incoming Member Inquiries shall be resolved within the first communication.
    b. If the issue needs additional follow-up for resolution or assistance, the CSC shall treat it as a Member Grievance.

D. PROVIDER INQUIRIES

1. The CSC shall document all incoming Provider Inquiries.
2. The CSC shall resolve all incoming Provider Inquiries within 30 days from the date of receipt of the inquiry.
3. The CSC shall treat inquiries not resolved within 30 days as a Provider Grievance.
4. The CSC shall identify systemic issues, if any, and document them.
5. The CSC shall inform and elevate systemic issues to the OIFA Administrator, CSC Administrator, and the functional area Deputy Assistant Director or designee.

436 NETWORK STANDARDS

REVISION DATES: 3/27/2024, 4/26/2023, 10/1/2019, 1/16/2019

REVIEW DATE: 9/12/2023

EFFECTIVE DATE: May 13, 2016

REFERENCES: 42 § C.F.R. 438.206(b)(1); A.R.S. §§ 32-1201, 32-1901, 36-401 et seq, 36-421 et seq; A.A.C. R9-10, R9-10-101, R9-10-801 et seq, R9-22-101, R9-33-101; ACOM 415; ACOM 436; ACOM 438

PURPOSE

This policy applies to the Division's Network staff. This policy outlines Division Network Standards and the oversight and monitoring of Network Standards.

DEFINITIONS

1. "Adult Developmental Home" or "ADH" means an Alternative Home and Community Based Service (HCBS) Setting for adults (18 or older) with Developmental Disabilities (DD) which is licensed by the Department of Economic Security (DES) to provide room, board, supervision and coordination of habilitation and treatment for up to three residents as specified in A.R.S § 36-551.

2. "Assisted Living Center" or "ALC" means an assisted living facility that provides resident rooms or residential units to eleven or more residents as specified in A.R.S. § 36-401.
3. "Assisted Living Facility" or "ALF" means a residential care institution that provides supervisory care services, personal care services, or directed care services on a continuing basis in compliance with Arizona Department of Health Services (ADHS) licensing criteria as specified in 9 A.A.C. 10, Article 8.
4. "Assisted Living Home" or "ALH" means an ALTCS approved alternative home and community based services (HCBS) setting that provides room and board, and supervision, and coordination of necessary services to 10 or fewer residents.
5. "Attachment A" means, for the purpose of this policy, the ACOM Policy 436 Attachment A - Minimum Network Requirements Verifications Template document that specifies the Network Standards in which the Division and the AdSS are required to meet.
6. "Behavioral Health Outpatient and Integrated Clinic, Adult" means a class of healthcare institution without inpatient beds

that provides physical health services and behavioral health services for the diagnosis and treatment of patients who are age 18 and above

7. "Behavioral Health Outpatient and Integrated Clinic, Pediatric" means a class of healthcare institution without inpatient beds that provides physical health services and behavioral health services for the diagnosis and treatment of patients who are under 18 years of age.
8. "Behavioral Health Residential Facility" or "BHRF" means, as specified in A.A.C. R9-10-101, a health care institution that provides treatment to an individual experiencing a behavioral health issue that:
    a. Limits the individual's ability to be independent, or
    b. Causes the individual to require treatment to maintain or enhance independence.
9. "Cardiologist, Adult" means a medical doctor who specializes in the diagnosis and treatment of diseases of the heart and blood vessels or the vascular system or patients aged 18 and above.

10. "Cardiologist, Pediatric" means a medical doctor who specializes in the study or treatment of heart diseases and heart abnormalities for patients under the age of 18.
11. "Dentist, Pediatric" means a medical professional regulated by the State Board of Dental Examiners and operating under A.R.S. § 32-1201 for patients under the age of 18.
12. "District" or "Service District" means a section of Maricopa or Pima County defined by zip code for purposes of establishing and measuring minimum Network Standards for Developmentally Disabled (DD) Group Homes and Assisted Living Facilities.
13. "Electronic Visit Verification" or "EVV" means a computer-based system that electronically verifies the occurrence of authorized service visits by electronically documenting the precise time a service delivery visit begins and ends, the individuals receiving and providing a service, and type of service performed.
14. "Geographic Service Area" or "GSA" means an area designated by AHCCCS within which a Contractor of record provides, directly or through subcontract, covered health care services to a

Member enrolled with that Contractor of record, as specified in 9 A.A.C. 22, Article 1 and 9 A.A.C. 28, Article 1.

15. "Group Home" means a community residential setting for not more than six individuals with intellectual/developmental disabilities, that provides room and board and daily rehabilitation and other assessed medically necessary services and supports to meet the needs of each individual as specified in A.R.S. § 36-551.

16. "Home" means a residential dwelling that is owned, rented, leased, or occupied by a Member, at no cost to the Member, including a house, a mobile home, an apartment, or other similar shelter. A home is not a facility, a setting, or an institution, or a portion of any of these that is licensed or certified by a regulatory agency of the state as a:

    a. Health care institution as specified in A.R.S. § 36-401;

    b. Residential care institution as specified in A.R.S. § 36-401;

    c. Community residential setting as specified in A.R.S. § 36-551; or

d. Behavioral health facility as specified in 9 A.A.C. 20, Articles 1,4,5, and 6.

17. "Hospital" means a class of healthcare institution that provides, through an organized medical staff, inpatient beds, medical services, continuous nursing services, and diagnosis or treatment to a patient. Refer to A.A.C. R9-10-101 et seq. and A.R.S. § 36-401-437.
18. "Member" means the same as "client" as defined in A.R.S. § 36-551.
19. "Multi-Specialty Interdisciplinary Clinic" or "MSIC" means an established facility where specialists from multiple specialties meet with Members and their families for the purpose of providing interdisciplinary services to treat Members.
20. "Network" means physicians, health care Providers, suppliers and hospitals that contract with an AdSS to give care to Members.
21. "Network Standards" means, as defined in ACOM 436, the requirements the Division and AdSS must meet and monitor to

ensure that all covered services are available and accessible to Members.

22. "Nursing Facility" means, as defined in 42 § U.S.C. 1936r(a):

    a. An institution or a distinct part of an institution that:

        i. Is primarily engaged in providing to residents:

            a) Skilled nursing care and related services for residents who require medical or nursing care;

            b) Rehabilitation services for the rehabilitation of injured, disabled, or sick individuals; or

            c) On a regular basis, health-related care, and services to individuals who, because of their mental or physical condition, require care and services above the level of room and board that can be made available to them only through institutional facilities.

        ii. Is not primarily for the care and treatment of mental diseases; and

        iii. Has in effect a transfer agreement, meeting the requirements of 42 § U.S.C. 1861(l), with one or

more hospitals having agreements in effect under 42 § U.S.C. 1866.

b. Any facility that is located in a State on an Indian reservation and is certified by the Secretary as meeting the requirements of a Nursing Facility outlined in this section.

23. "Obstetrician/Gynecologist" or "OB/GYN" means a healthcare practitioner responsible for the management of female reproductive health, pregnancy and childbirth needs or who possess special knowledge, skills and professional capability in the medical and surgical care of the female reproductive system and associated disorders.

24. "Pharmacy" means a facility regulated by the State Board of Pharmacy and operating under A.R.S. § 32-1901.

25. "Primary Care Provider (PCP), Adult" means a person who is responsible for the management of the health care of Members who are over 21 years of age. A PCP may be a:

a. Person licensed as an allopathic or osteopathic physician;

b. Practitioner defined as a licensed physician assistant; or

c. Certified nurse practitioner.

26. "Primary Care Physician (PCP), Pediatric" means a doctor or healthcare practitioner who is responsible for the management of the health care of Members who are under 21 years of age.
27. "Provider" means a person, institution, or group engaged in the delivery of services, or ordering and referring those services, who has an agreement with AHCCCS to provide services to AHCCCS Members.
28. "Provider Affiliation Transmission" or "PAT" means a data file that provides details of the Providers within the AdSS's Network and is used to measure compliance with Network adequacy requirements.

POLICY

A. The Division shall monitor and oversee the AdSS for the minimum Network Standards.

B. The Division shall have a Network of Providers in place to meet the minimum Network Standards..

C. The Division shall assess its Network against its entire membership for the purposes of complying with Network Standards, unless otherwise noted.

D. STATEWIDE NETWORK DEFINITIONS AND STANDARDS

1. The Division shall maintain a sufficient Network of Providers to meet the service needs of its Members based upon the minimum Network requirements specified in Attachment A and as specified in the DES/DDD contract with AHCCCS.
2. If the Division delegates Network activities, the Division shall ensure subcontractor compliance with applicable Network Standards.
3. The Division shall document a sufficient Network to meet the service needs of its Members based upon the minimum Network requirements delineated in Attachment A.
4. The Division shall use the table below for defining its Network of Assisted Living Center (ALC), Assisted Living Home (ALH), and DD Group Home Providers to measure compliance with Network Standards:

Provider Category	Applies to	Required Provider Type	Member Population	Standard
Assisted Living Centers (ALC)	ALTCS E/PD and DES/DDD only	49	All	See Attachment A, ALTCS County Tables
Assisted Living Home (ALH)	ALTCS E/PD and DES/DDD only	36	All	See Attachment A, ALTCS County Tables
Group Home for persons with	DES/DDD only	25	All	See Attachment A, ALTCS County

Developmental Disabilities				Tables

5. The Division shall have contracts with a minimum number of DD Group Homes as specified in Attachment A, ALTCS County tables.
6. The Division shall have contracts with a minimum number of ALC and ALH Providers as specified in Attachment A.
7. The Division shall utilize the Attachment A tab that details the minimum Network requirements in each county to report the following minimum Network requirements:
    a. Minimum contracts within a specific city or group of cities;
    b. Contracts within specified distances to specific cities;
    c. Minimum contracts within a county; and
    d. Contracts in locations outside of a county's boundary, if applicable.
8. The Division shall allow Members to access services in the most geographically convenient location possible and to prevent

Members from traveling much greater distances to obtain care, but at the same time accommodate Network availability in each county.

E. COUNTY AND DISTRICT DEFINITIONS

1. The Division shall establish and measure minimum Network Standards for DD Group Homes, ALCs, and ALHs in Maricopa and Pima Counties by utilizing the table of AHCCCS county and District definitions below:

   a. Maricopa County

MARICOPA DISTRICT	DESCRIPTION	ZIP CODES
DISTRICT 1	Phoenix	85022, 85023, 85024, 85027, 85029, 85032, 85054, 85050, 85053, 85085, 85086, 85087, 85254, 85324, 85331
DISTRICT 2	Carefree, Cave Creek, Fountain	85250, 85251, 85255, 85256, 85257, 85258,

	Hills and Scottsdale	85259, 85260, 85262, 85263, 85264, 85268
DISTRICT 3	Phoenix	85012, 85013, 85014, 85015, 85016, 85017, 85018, 85019, 85020, 85021, 85028, 85051, 85253
DISTRICT 4	Phoenix	85003, 85004, 85006, 85007, 85008, 85009, 85025, 85034, 85040, 85041, 85042, 85044, 85045, 85048
DISTRICT 5	Buckeye, Goodyear, Phoenix, Tolleson and Gila Bend	85031, 85033, 85035, 85037, 85043, 85322, 85323, 85326, 85338, 85339, 85353, 85337
DISTRICT 6	Glendale	85301, 85302, 85303,

		85304, 85305, 85306, 85308, 85310

2. The Division shall calculate compliance with minimum Network Standards specified in ACOM 436.

F. NETWORK STANDARD EXCEPTION REQUESTS

1. When the Division has exhausted its efforts to meet any Network Standard specified in this policy, the Division shall request an exception to the Network Standards from AHCCCS as specified in ACOM Policy 436 and the DES/DDD contract that includes the following required elements:
   a. The county or counties covered under the exception request;
   b. The Provider types covered under the exception request;

c. A geospatial analysis showing the current Member access to the Provider types and counties covered under the exception request;

d. An explanation describing why the Division cannot meet the established Network Standard requirements;

e. An explanation of the efforts to contract with non-contracted Providers who could bring the Division into compliance with the Network Standard, including a discussion of the appropriateness of the rates offered to non-contracted Providers;

f. The Division's proposal for monitoring and ensuring Member access to services offered by Provider types under the exception request; and

g. The Division's plan for periodic review to identify when conditions in the exception area have changed, and the exception is no longer needed.

2. The Division, when all efforts to meet Network Standards have been exhausted, shall submit an exception to the Network Standards using the following criteria:

a. The total number of Providers in the same specialty practicing in the county;

b. The geographic composition of the county;

c. Provider willingness to enter into a contract;

d. Consideration of the rates offered to non-contracted Providers to bring the Division into compliance with the standard;

e. The availability of Indian Health Services 638 (IHS/638) contract facilities available to the American Indian population in the county;

f. The availability of alternative service delivery mechanisms available, such as telemedicine, Telehealth, or virtual or mobile services; and

g. The Division's proposal for monitoring and ensuring Member access.

SUPPLEMENTAL INFORMATION

A. MONITORING AND OVERSIGHT OF AdSS NETWORK STANDARDS

1. The Division shall monitor the AdSS to ensure the AdSS has a Network in place for each county in the AdSS's assigned service

area to meet the time and distance standards specified in the table below:

PROVIDER CATEGORY	REQUIRED PROVIDER/SPECIALTY TYPE(S)
Behavioral Health Outpatient and Integrated Clinic, Adult and Pediatric	77 or IC
Behavioral Health Residential Facility (BHRF)	B8
Cardiologist, Adult	08 or 31 with a Specialty Code of 062 or 927
Cardiologist, Pediatric	08 or 31 with a Specialty Code of 062, 151, or 927
Crisis Stabilization Facility	02, 71,B5, B6, B7, or 77 and ICs that are authorized to provide behavioral health observation/stabilization in

	accordance with A.A.C. 9-10-1012
Dentist, Pediatric	07 with a Specialty Code of 800 or 804, C2 Federally Qualified Health Centers (FQHCs) identified by AHCCCS
Hospitals	02 or C4
Nursing Facilities	22
Obstetrician/Gynecologist (OB/GYN)	08, 19, 31, or CN with a Specialty Code of 089, 090, 091, 095, 181, or 219
Pharmacy	03 or 05
Primary Care Provider (PCP), Adult	08 or 31 with a Specialty Code of 050, 055, 060, 089, or 091 or
	19, CN with a Specialty Code of

	084, 095, or 097 or
	18 with a Specialty Code of 798
Primary Care Provider (PCP), Pediatrics	08 or 31 with a Specialty Code of 050 , 150, or 176 or
	19, CN with a Specialty Code of 084 , 087, or 097 or
	18 with a Specialty Code of 798

2. The Division shall monitor for subcontractor compliance with applicable Network Standards if the AdSS delegates Network activities.
3. The Division shall refer to the table below for monitoring AdSS compliance with the following time and distance standards:

PROVIDER CATEGORY	APPLIES TO	MEMBER POPULATION	COUNTY	STANDARD (90% of membership does not need to travel more than)
Behavioral Health Outpatient and Integrated Clinic, Adult*	All Except CHP	18 years or older	Maricopa, Pima	15 minutes or 10 miles from their residence
			All Others	60 miles from their residence
Behavioral Health Outpatient	All*	under 18 years	Maricopa, Pima	15 minutes or 10 miles from their

and Integrated Clinic, Pediatric*				residence
			All Others	60 miles from their residence
Behavioral Health Residential Facility (BHRF)	All	All	Maricopa, Pima	15 minutes or 10 miles from their residence
			All Others	(Report in Network Plan, Refer to ACOM Policy 415-Attachment B)
Cardiologist, Adult*	All except CHP	21 years or older	Maricopa, Pima	30 minutes or 20 miles

				from their residence
			All Others	75 minutes or 60 miles from their residence
Cardiologist, Pediatric*	All	Under 21 years	Maricopa, Pima	60 minutes or 45 miles from their residence
			All Others	110 minutes or 100 miles from their residence
Crisis Stabilization Facility	ACC-RBHA Only	All	Maricopa, Pima	15 minutes or 10 miles from their

				residence
			All Others	45 miles from their residence
Dentist, Pediatric	All	Under 21 years	Maricopa, Pima	15 minutes or 10 miles from their residence
			All Others	40 minutes or 30 miles from their residence
Hospitals	All	All	Maricopa, Pima	45 minutes or 40 miles from their residence
			All Others	95 minutes

				or 85 miles from their residence
Nursing Facilities	ALTCS E/PD Only	Living in Own Home	Maricopa, Pima	45 minutes or 30 miles from their residence
			All Others	95 minutes or 85 miles from their residence

Obstetrician /Gynecologist (OB/GYN)	All	15 to 45 years old	Maricopa, Pima	45 minutes or 30 miles from their residence
			All Others	90 minutes

				or 75 miles from their residence
Pharmacy	All	All	Maricopa, Pima	12 minutes or 8 miles from their residence
			All Others	40 minutes or 30 miles from their residence
Primary Care Provider (PCP), Adult*	All Except CHP	21 years or older	Maricopa, Pima	15 minutes or 10 miles from their residence
			All Others	40 minutes or 30 miles

				from their residence
Primary Care Provider (PCP), Pediatrics*	All	Under 21 years	Maricopa, Pima	15 minutes or 10 miles from their residence
			All Others	40 minutes or 30 miles from their residence

4. When monitoring the AdSS for compliance with Network Standards, the Division shall ensure Provider types marked with an asterisk are:
   a. Eligible for a telehealth standard modification; and
   b. Require 80 percent of a county's membership to meet these time and distance standards in any county where telehealth services are available for the Provider category.

5. The Division shall monitor Network Standards of AdSS contracts with Multi-Specialty Interdisciplinary Clinics (MSICs) in the assigned Geographic Service Area (GSA) in the state, as well as any MSICs which have provided services to the AdSS's Members.

B. NETWORK STANDARD REQUESTS FOR EXCEPTIONS FROM THE AdSS

1. The Division shall review Network Standard exception requests submitted by the AdSS and make a determination based on the following criteria:
   a. The total number of Providers in the same specialty practicing in the county;
   b. The geographic composition of the county;
   c. Provider willingness to enter into a contract;
   d. Consideration of the rates offered to non-contracted Providers to bring the AdSS into compliance with the standard;
   e. The availability of Indian Health Services 638 contract (IHS/638) facilities available to the American Indian population in the county;

f. The availability of alternative service delivery mechanisms available, such as telemedicine, Telehealth, or virtual or mobile services; and

g. The AdSS's proposal for monitoring and ensuring Member access.

2. Minimum Network Standards Reporting Requirements

a. The AdSS shall submit a completed Attachment A reporting its compliance with the applicable standards in this policy. Attachment A shall be submitted as specified in the contract. The AdSS shall report compliance with these requirements for each county in its assigned service area. A separate report shall be submitted for each line of business. For purposes of calculating and reporting this data:

i. The AdSS shall use its enrollment and its Network as of the last day of the reporting period (March 31 and September 30);

ii. The AdSS shall report the percentages in Attachment A, 'Time and Distance' tab rounded to the nearest tenth of a percent; and

iii. The AdSS shall report 'N/R' (None Reported) for each time and distance standard, instead of a percentage, where there are no Members meeting the population criteria in the county.;

iv. The AdSS shall report in Attachment A, "Time and Distance" tab, whether or not telehealth services are available in each county reported for each pProvider type eligible for a telehealth standard modification by the AdSS. This is identified by adding a 'Y' or 'N' in the "Telehealth Available (Y/N)" row underneath the Provider type; and

v. The AdSS shall consider in its dental Network any contracted FQHC identified annually by AHCCCS as providing dental services.

b. The AdSS shall analyze compliance with Network Standards based upon the Provider Network reported

through the Contractor Provider Affiliation Transmission (PAT) and available Electronic Visit Verification (EVV) data as required in AdSS Medical Policy 542. With the submission of Attachment A, the AdSS shall include a summary including, at a minimum, the following:

i. The AdSS strategies and efforts to address any areas of non-compliances;

ii. A summary of exceptions granted to the Network Standards specified in this pPolicy; and

iii. The results of the AdSS's monitoring of Member access to the services governed under the exception.

c. As specified in the contract, the AdSS shall submit a completed Attachment A including a summary analysis of any areas of non-compliance with Network Standards specified in this policy, including strategies and efforts to address areas of non-compliance.

3. Network Plan Requirements

a. The AdSS shall take steps to ensure Network Standards are maintained. If established Network Standards cannot

be met, the AdSS shall identify these gaps and address short- and long-term interventions in the Network Development and Management Plan (NDMP) as outlined in AdSS Operations Policy 415. When an exception has been granted, the AdSS shall address the sufficiency of Member access to the area and assess the continued need for the exception.

b. The AdSS shall report to the Division its Network gaps and short- and long-term interventions to address the gaps, in its NDMP as specified in AdSS Operations Policy 415.

438 ADMINISTRATIVE SERVICES SUBCONTRACTS

REVISION DATE: 3/27/2024, 2/16/2022

REVIEW DATE: 9/6/2023

EFFECTIVE DATE: May 13, 2016

REFERENCES: A.R.S. § 36-2901, ACOM Policy 317, 42 CFR 436, 42 CFR 438.230, 42 CFR 455.101 through 106, CMS document SMDL 09-001.

PURPOSE

This policy establishes guidelines and requirements for Administrative Services Subcontractors (AdSS) or Management Service Agreement (MSA), and monitoring subcontractor performance, reporting performance review results, and notifying AHCCCS of subcontractor non-compliance and corrective action plans (CAPs). Unless otherwise stated, requirements outlined in this policy for Administrative Services Subcontractors also apply to MSA.

DEFINITIONS

1. "Administrative Services Subcontract" means an agreement that delegates any of the requirements of the Division's contract with AHCCCS, including:
    a. Claims processing, including pharmacy claims;
    b. Pharmacy Benefit Manager (PBM);

c. Dental Benefit Manager;

d. Credentialing, including those for only primary source verification;

e. Medicaid Accountable Care Organization (ACO);

f. Service Level Agreements with the Division or one of its subcontractors; and

g. CHP and DES/DDD Subcontracted Health Plan.

2. "Attachment A" means the Attachment A of the Administrative Services Subcontract Checklist. It is the AHCCCS deliverable template.

3. "Change in Organizational Structure" means any of the following:

a. Merger

b. Acquisition

c. Reorganization

d. Change in Articles of Incorporation

e. Joint Venture

f. Change in Ownership

g. Change of Management Services Agreement (MSA) Subcontractor

h. Other applicable changes that may cause:

i. A change in the Employer Identification Number/Tax Identification Number (EIN/TIN)

ii. Changes in critical Member information, including the website, Provider handbook and Member ID card

iii. A change in legal entity name.

4. "Corrective Action Plan" or "CAP" means a written work plan that identifies the root cause(s) of a deficiency, includes goals and objectives, actions or tasks to be taken to facilitate an expedient return to compliance, methodologies to be used to accomplish CAP goals and objectives, and staff responsible to carry out the CAP within established timelines. CAPs are generally used to improve performance of the Contractor or its Providers, to enhance Quality Management or Process Improvement activities and the outcomes of the activities, or to resolve a deficiency.

5. "Day" means a calendar day, unless otherwise specified.

6. "Management Service Agreement" or "MSA" means a type of subcontract with an entity in which the owner of the Contractor delegates all or substantially all management and administrative services necessary for the operation of the Contractor.

7. "Medicaid Accountable Care Organization" or "ACO" means an entity that enters into a Value-Based Purchasing (VBP) arrangement with a Contractor which:
    a. Improves the health care delivery system by increasing the quality of care while reducing costs.
    b. Enters into VBP contracts with Provider groups or networks of groups.
    c. Coordinates Provider accountability for the health of their patient population, often through shared savings, shared risk, or capitated Alternative Payment Models (APM), combined with quality incentives to ensure both quality outcomes and cost containment.
    d. Supports Providers participating in APMs by providing services such as data analytics, technical assistance, Provider education, and Provider recruitment.
    e. Operates as an intermediary between the Contractor and Providers, but not as a Provider of direct services to Members.

f. May or may not perform delegated administrative activities. Any delegated administrative activities to the Medicaid ACO are subject to prior approval by AHCCCS.

8. "Member" means the same as "client" as defined in A.R.S. § 36-551.

9. "Provider" means any person or entity that contracts with the Division or the AdSS for the provision of covered services to Members according to the provisions of A.R.S. § 36-2901 or any subcontractor of a Provider delivering services pursuant to A.R.S. § 36-2901.

   a. Qualified Vendors are Providers.

   b. Providers are not Administrative Services Subcontractors.

10. "Quality of Care" or "QOC" means an expectation that, and the degree to which the health care services provided to individuals and patient populations improve desired health outcomes and are consistent with current professionally recognized standards of care and service provision.

11. "Request for Proposal" or "RFP" means a document prepared by AHCCCS that describes the services required and that instructs a prospective Offeror how to prepare a response.

12. "Subcontractor" means:

    a. A provider of health care who agrees to furnish covered services to Members.

    b. A person, agency or organization with which the Contractor, or its subcontractor, has contracted or delegated some of its management or administrative functions or responsibilities.

    c. A person, agency or organization with which a fiscal agent has entered into a contract, agreement, purchase order or lease or leases of real property to obtain space, supplies equipment or services provided under this Contract with the Division.

POLICY

A. APPROVAL OF SUBCONTRACTS

1. The Division shall submit an unredacted copy of all Management Service Agreements (MSA) and Administrative Services Subcontracts with the proposed Subcontract Checklist to the AHCCCS Division of HealthCare Management for prior approval, 60 days before the effective date of the subcontract.
2. The Division shall retain the authority to direct and prioritize

any delegated contract requirements.

3. The Division shall require that Administrative Services Subcontractors meet any performance standards applicable to the delegated services as mandated by AHCCCS.
   a. The Division shall require that the AdSS notify a change in Organizational Structure of Administrative Services Subcontractor.
   b. The Division shall review the notification and determine if a complete Attachment A submission is required.
   c. If a complete Attachment A submission is required, the Division shall follow the process for the review and approval of newly proposed Administrative Services Subcontracts as defined in this policy.
4. The Division shall ensure the MSA contains a provision stating that a merger, reorganization, or change in ownership requires a contract amendment and prior approval of AHCCCS.
5. The Division shall ensure that any reorganization related to an MSA Subcontractor is submitted in accordance with ACOM Policy 317.
6. The Division shall:

a. Upon request, submit copies of Requests for Proposals (RFPs) at the time they are formally issued to the public including any RFP amendments.

b. Submit final, signed copies of each contract that it enters into with subcontractors and any subsequent amendments within 30 days of e-signature date.

c. Ensure its subcontractors communicate with the Provider network regarding program standards, and changes in laws, policies, and contract.

d. Submit a cover letter that contains a high-level summary of the proposed changes when providing an amendment to an Administrative Services Subcontract.

B. MONITORING AND REPORTING

1. The Division shall monitor the Administrative Services Subcontractor's performance on an ongoing basis and complete a formal review at least annually as outlined in 42 CFR 438.230.

2. In the formal review, the Division shall conduct a review of delegated duties, responsibilities, and financial position with the exception that the Division shall not conduct a financial

review of Administrative Services Subcontractors who are state agencies or sovereign nations.

a. The Division shall prepare written findings of the review.

b. The Division shall require the subcontractor to prepare a written response to findings of non-compliance.

c. The Division shall increase monitoring activities until compliance is achieved and maintained.

d. The Division shall notify AHCCCS within 30 days of the discovery of an Administrative Service Subcontractor's non-compliance with the following information:

    i. The subcontractor's name

    ii. Delegated duties and responsibilities

    iii. Identified areas of non-compliance and whether the non-compliance affects Member services or causes a quality of care concern

    iv. The scope and estimated impact of the non-compliance upon Members

    v. The known or estimated length of time that the subcontractor has been in non-compliance

vi. The Division's Corrective Action Plan (CAP) or strategies to bring the Administrative Services Subcontractor into compliance

vii. Sanction actions that may be taken because of the non-compliance

viii. The Division's activities that are occurring to bring the subcontractor into compliance.

C. ADMINISTRATIVE SERVICES SUBCONTRACTOR EVALUATION REPORT

1. The Division shall submit the annual Administrative Services Subcontractor Evaluation Report within 90 days of the start of the AHCCCS contract.
2. The Division shall ensure that the Administrative Services Subcontractor Evaluation Report includes the following:
   a. The name of the subcontractor
   b. The delegated duties and responsibilities
   c. The date of the most recent formal review of the duties, responsibilities, and financial position, as appropriate, of the subcontractor
   d. A comprehensive summary of the evaluation of the

operational and financial, as appropriate, performance of the subcontractor, including the type of review performed

e. The next scheduled formal review date

f. All identified areas of deficiency that:

   i. Affect Member services, or

   ii. Cause a quality of care concern

g. CAP Information, including:

   i. A detailed description of the reasons the subcontractor was placed on a CAP.

   ii. A description of the steps taken by the Subcontractor to address the CAP.

   iii. Date CAP reported to AHCCCS.

   iv. Current status and expected completion time of CAPs.

D. ADDITIONAL REQUIREMENTS

1. Before entering into an Administrative Services Subcontract, the Division shall evaluate the prospective Administrative Services Subcontractor's ability to perform the delegated duties.

2. The Division shall ensure that all Administrative Services

Subcontracts reference and with the Minimum Subcontract Provisions available on the AHCCCS website.

3. In the event of a modification to the AHCCCS Minimum Subcontract Provisions, the Division shall issue a notification and amend Administrative Services Subcontracts within 30 calendar days of the published change and ensure amendment of any affected subcontracts as needed.
4. The Division shall amend the affected Administrative Services Subcontracts on the regular renewal schedule or within six calendar months of the update, whichever comes first.
5. The Division shall ensure that all Administrative Services Subcontracts reference and require compliance with the Disclosure of Ownership and Control and Disclosure of Information on Persons Convicted of Crimes requirements as outlined in the contract and 42 CFR 455.101 through 106, 42 CFR 436 and State Medicaid Director Letter (SMDL) 09-001.
6. The Division shall ensure that the Administrative Services Subcontractors disclose to the Division and AHCCCS/Office of the Inspector General (OIG) the identity of any person excluded from the requirements outlined in subsection (5) of this section.

7. The Division shall ensure that all Administrative Services Subcontracts entered into by the Division are reviewed and approved by AHCCCS.
8. The Division shall ensure that all Administrative Services Subcontracts for services rendered to Medicaid recipients incorporate by reference the applicable terms and conditions outlined in the corresponding AHCCCS Medicaid Contract.
9. The Division shall maintain a fully executed original or electronic copy of all Administrative Services Subcontracts and make them accessible to AHCCCS within five business days of the request by AHCCCS according to contract requirements.
10. The Division shall ensure that all Member communications related to the Medicaid line of business issued by the Administrative Services Subcontractor include the Division's name and comply with Member notification requirements specified in AdSS Operations Policy Manual, policy 404.
11. If the Division terminates the Administrative Services Subcontract, the Division shall ensure compliance with all aspects of the AHCCCS Contract notwithstanding the Administrative Services Subcontractor termination, including

availability of and access to all covered services and provision of covered services to Members within the required timeliness standards.

439 MATERIAL CHANGES: PROVIDER NETWORK AND BUSINESS OPERATIONS

EFFECTIVE DATE: June 10, 2016
REFERENCES: 9 A.A.C. 22, Article 1; 42 CFR 438.207, 42 CFR 438.10(f) (4), 42 CFR 438.10(f) (5).

The Division ensures that performance and provider network standards are met to support a member's needs, as well as the needs of the membership as a whole. Changes to business operations or to the provider network are evaluated for the impact to members and providers.

Identifying A Provider Network and/or Business Operations Material Change

A. For changes impacting members and/or providers, the Division evaluates the impact of the change by geographical service area and as a whole using established criteria and/or methodology for determining the impact of the change.

B. Provider Network changes may include, but are not limited to:

1. Changes in services,
2. Geographic service areas, or
3. Payments.

C. Changes may also include the addition or change in:

1. Pharmacy Benefit Manager (PBM),
2. Dental Benefit Manager,
3. Acute Health Plan,
4. Provider Contracts (e.g. group homes, nursing facility), and
5. Any other delegated agreements.

D. Business Operations changes may include, but are not limited to:

1. Policy,
2. Process, and
3. Protocol, such as prior authorization or retrospective review.

E. Changes may also include the addition or change in:

1. Claims Processing system,

2. System changes and upgrades,

3. Member ID Card vendor,

4. Call center system,

5. Management Service Agreement (MSA), and

6. Any other Administrative Services Subcontract.

F. The Division will submit approval for a material change to AHCCCS, at least 60 days in advance of the material change.

G. Any alteration or development within the provider network that may reasonably be foreseen to affect the quality or delivery of services provided will be communicated to affected providers at least 30 days in advance of the change as identified in Operations Policy Manual Chapter 60, Notification to Providers.

H. The Division will provide written notice to members within 15 days after receipt or issuance of a provider termination notice.

General Notifications

A. The Division provides notification via provider meetings, email (e.g., Vendor Blast), or US mail:

1. For routine changes and updates to AHCCCS Guidelines, Policy, Manual Changes, and any other information that AHCCCS may require the Division to disseminate on behalf of the Administration.

2. For routine changes and updates to Division Guidelines, Policy/Provider Manual.

3. For changes to the AHCCCS Minimum Subcontract, within 30 calendar days of the published change.

4. To disseminate information designed to bring the providers into compliance with Disease/Chronic Care Management practice guidelines.

B. Qualified Vendors are required to maintain and update Primary Contract Contact information to receive provider notifications.

C. Communication with Independent Providers is via US mail.

D. Communication with Administrative Services Subcontractors (AdSS) is not duplicated if the AdSS is also contracted with AHCCCS.

446 GRIEVANCES AND INVESTIGATIONS CONCERNING PERSONS WITH SERIOUS MENTAL ILLNESS

REVISION DATE: 10/1/2021, 12/04/2019
EFFECTIVE DATE: October 1, 2019
REFERENCES: AHCCCS Contractor Operations Manual (ACOM), Policy 446

This Policy applies to the Division of Developmental Disabilities and their subcontractors and outlines procedures related to grievances and investigations conducted by AHCCCS and the subcontractors under A.A.C. R9-21-402 et seq. concerning persons with a Serious Mental Illness (SMI).

A. This Policy applies to grievances or requests for investigation asserted by, or on behalf of, persons designated with a SMI to the extent the allegation asserts a violation relating to the right to receive services, supports and/or treatment that are state-funded and are no longer funded by the state.

   1. For persons designated as SMI, AHCCCS, the Division, and its subcontractor conduct investigations into allegations of physical abuse, sexual abuse, violations of SMI rights, and conditions that are dangerous, illegal, or inhumane. Investigations may also be conducted in the event of a member's death that occurs in a mental health agency or as a result of an action of a person employed by a mental health agency.

      a. Refer to *AHCCCS Contractor Operations Manual, Chapter 400-Operations, 446 – Grievances and Investigations Concerning Persons with Serious Mental Illness* for full details and requirements of such grievance investigations.

   2. AHCCCS, or the Contractor before whom a grievance or request for investigation is pending, must immediately take whatever action may be reasonable to protect the health, safety, and security of any member, complainant, or witness.

B. Grievances involving an alleged rights violation, or a request for investigation involving an allegation where a condition requiring investigation exists, which occurred in an agency operated by a Division Subcontractor or one of its subcontracted providers and which does not involve a member's death or an allegation of physical or sexual abuse, must be filed with and investigated by the subcontractor.

C. The DDD Customer Service Center must refer any grievances or requests for investigation related to physical or sexual abuse or death to AHCCCS to begin the investigative process.

D. Support Coordinators must complete *DDD-2044A FORENG (11-19) Serious Mental Illness Grievance and Appeal Form* and send the form to DDD Customer Service Center (CSC) for the Division's internal use when a member with an SMI designation wants to file a grievance or appeal. This serves as the Division's notice of the grievance and appeal. The notice will allow the Division to effectively monitor the grievance or appeal and ensure it is resolved by the proper entity and within the

required timeframe.

E. Once notified, CSC will open a grievance in the Resolution System (RS) for violations related to member's rights.

1. The grievance procedure must follow the same procedure as other CSC grievances.

2. The purpose of this grievance policy is to ensure the subcontractor is investigating the matter properly and in a timely fashion, pursuant to the clauses outlined in the *AHCCCS Operations Manual, Chapter 400, 446 – Grievances and Investigations Concerning Persons with Serious Mental Illness.*

F. A grievant or the DDD member who is the subject of the grievance, who disagrees with the final decision of the subcontractor may file a request for an administrative appeal with AHCCCS within 30 days from the date of their receipt of the subcontractor's decision. The request for administrative appeal must specify the basis for disagreement. Failure to specify the basis for the disagreement may result in a summary determination in favor of the subcontractor decision.

G. When an administrative appeal is filed, the subcontractor must forward the full investigation case record, which includes all elements described in A.A.C. R9-21-409(D)(1), to AHCCCS. The failure of the subcontractor to forward a full investigation case record that supports the subcontractor's decision may result in a summary determination against the subcontractor. The subcontractor must prepare and send with the investigation case record, a memo which states:

1. Any objections the subcontractor has to the timeliness of the administrative appeal,

2. The subcontractor's response to any information provided in the administrative appeal that was not addressed in the investigation report, and

3. The subcontractor's understanding of the basis for the administrative appeal.

H. If an extension of any time frame related to the grievance process is needed, it must be requested and approved in compliance with A.A.C. R9-21-410(B). Specifically:

1. The subcontractor investigator or any other subcontractor official responsible for responding to grievances must address the extension request to the subcontractor Director or designee.

2. The AHCCCS investigator or any other AHCCCS official responsible for responding to grievances must address the extension request to the AHCCCS Deputy Director or designee.

3. A subcontractor request for an extension to complete an investigation for grievances remanded pursuant to A.A.C. R9-21-407(B)(2) or any other time period established by AHCCCS decisions relating to a grievance must be addressed to the AHCCCS Deputy Director or designee.

4. Requests for extension must be in writing, with copies to all parties.

5. An extension of time may only be granted upon a showing of necessity and a showing that the delay will not pose a threat to the safety or security of the member.

6. The request must explain why an extension is needed and propose a new time limit which does not unreasonably postpone a final resolution of the matter.

7. Such request must be submitted to and acted upon prior to the expiration of the original time limit. Failure of the relevant official to act within the time allowed constitutes a denial of the request for an extension.

I. Within 15 days of receipt of a timely filed administrative appeal, AHCCCS must review the appeal and the investigation case record and may discuss the matter with any of the persons involved or convene an informal conference, and must prepare a written, dated decision.

1. A grievant or person who is the subject of the grievance who is dissatisfied with a decision of AHCCCS may request an administrative hearing before an administrative law judge within 30 days of the date of receipt of the decision.

II. DDD Tribal Health Program (THP) who serve members that are diagnosed with an SMI diagnosis will follow the same grievance process as outlined above.

III. In addition to a grievance or request for investigation which may be filed pursuant to this Policy and A.A.C. Title 9, Chapter 21, Article 4, a separate investigation into the death of a person receiving services must be conducted as described in AMPM Policy 960.

IV. Grievance Investigation Records: AHCCCS and the subcontractor will maintain records in the following manner:

1. All documentation received related to the grievance and investigation process will be date stamped on the day received.

2. A complete grievance investigation case record must be maintained for each case.

3. Copies of all information generated or obtained during the investigation.

4. All grievance and investigation files in a secure designated area and retain for at least five years.

5. A public log of all grievances or requests for investigation in accordance with A.A.C. R9-21-409(E).

6. Confidentiality and privacy of grievance and investigations records.

7. The complete grievance investigation case must include:

a. The original grievance/investigation request letter and the AHCCCS Appeal or SMI Grievance Form, and

b. Copies of all information generated or obtained during the

investigation.

8. The investigator's report that includes:

   a. A description of the grievance issue,

   b. Documentation of the investigative process,

   c. Names of all persons interviewed,

   d. Written documentation of the interviews,

   e. Summary of all documents reviewed,

   f. The investigator's findings.

   g. Conclusions and recommendations.

   h. A copy of:

      i. The acknowledgment letter,

      ii. Final decision letter,

      iii. Corrective action documentation, and

      iv. Any information/documentation generated by an appeal of the grievance decision.

449 BEHAVIORAL HEALTH SERVICES FOR CHILDREN IN DEPARTMENT OF CHILD SAFETY CUSTODY AND ADOPTED CHILDREN

REVISION DATE: 6/29/2022

EFFECTIVE DATE: November 29, 2018

REFERENCES: A.R.S. § 8-451, A.R.S. § 8-512.01

PURPOSE

This policy applies to the Division of Developmental Disabilities (Division). The purpose of this policy is to ensure the timely provision of behavioral health services to children eligible for Title XIX services who are residing with an out-of-home caregiver or children in out-of-home dependency with the Department of Child Safety (DCS), as specified throughout this policy, and to adopted children in accordance with A.R.S. § 8-512.01.

This policy delineates the Division's roles and responsibilities with respect to oversight of the Administrative Services Subcontractors (AdSS) and the Division's role with respect to support coordination.

DEFINITIONS

Adoptive Parent means any adult who is a resident of Arizona, whether married, unmarried, divorced or legally separated, who has adopted a child. For purposes of this policy, the adoptive parent is that of a child who is eligible under Title XIX of the Social Security Act.

Arizona Department of Child Safety (DCS) means the department established pursuant to A.R.S. § 8-451 to protect children and to perform the following:

1. Investigate reports of abuse and neglect.

2. Assess, promote, and support the safety of a child in a safe and stable family or other appropriate placement in response to allegations of abuse or neglect.

3. Work cooperatively with law enforcement regarding reports that include criminal conduct allegations.

4. Without compromising child safety, coordinate services to achieve and maintain permanency on behalf of the child, strengthen the family and provide prevention, intervention, and treatment services pursuant to this chapter.

Behavioral Health Out-of-Home Treatment means highly individualized treatment services and support interventions to meet the needs of each child and their family. When community-based services are not effective in maintaining the child in his/her home setting, or safety concerns become critical, the use of out-of-home treatment services can provide essential behavioral health interventions to stabilize the situation. The primary goal of out-of-home treatment intervention is to prepare the child and family, as quickly as possible, for the child's safe return to his/her home and community settings.

Crisis means an acute, unanticipated, or potentially dangerous behavioral health condition, episode or behavior.

Crisis Services means services that are community based, recovery-oriented, and member focused that work to stabilize members as quickly as possible to assist them in returning to their baseline of functioning.

Member for purposes of this policy includes children residing with out-of-home caregivers, children in out-of-home dependency with DCS, and adopted children.

Out-of-Home Caregiver for purposes of this policy is where a child in DCS custody resides (i.e., kinship care, foster care, a shelter care provider, a receiving home, independent living program or group foster home).

Rapid Response is a process that occurs when a child enters into DCS custody. When this occurs, a behavioral health service provider is referred and then dispatched within 72 hours to assess a child's immediate behavioral health needs and to refer the child for additional assessments through the behavioral health system.

POLICY

The Division delegates the responsibility to AdSS for the implementation of behavioral health services in alignment with this policy, and whose contract includes this requirement. The Division remains responsible for support coordination and oversight of the AdSS. (Refer to AdSS Operations Policy 449 for AdSS responsibilities.) The Division shall ensure timely provision of all behavioral health services for members enrolled with the AdSS. The Division shall ensure the AdSS provide coordinated care between the out-of-home caregiver or adoptive parent(s), all providers, and DCS, as appropriate.

A. GENERAL REQUIREMENTS

1. To meet the needs of members residing with an out-of-home caregiver, children in out-of-home dependency with DCS, and

adopted children, the Division shall:

a. Ensure services delivered through the AdSS are provided as specified in AdSS Operations Policy 417, and

b. Ensure the AdSS has availability of a telephone line, with designated staff, adequately trained on the provisions of this policy and the procedures in place to address calls.

B. REQUEST FOR BEHAVIORAL HEALTH OUT-OF-HOME TREATMENT

The Division shall ensure AdSS compliance with the following:

1. After a request is made to place a member in behavioral health out-of-home treatment, the AdSS shall issue a determination as to that request no later than 72 hours or as expeditiously as the member's health condition warrants due to the member displaying dangerous or threatening behaviors directed towards themselves or others. These settings include, but are not limited to, Behavioral Health Facilities as specified in A.A.C R9-10-101. If the AdSS determines there is insufficient information to make a determination, the AdSS shall document all substantive efforts to obtain required information within the 72-hour timeframe. If the request for behavioral health out-of-home treatment is denied, the AdSS shall ensure medically necessary alternative services are provided. BHRF denials by the AdSS shall be sent to the Division Utilization Management Unit for secondary review by the Division's Behavioral Health Medical Director. The Behavioral Health Medical Director shall review and may approve or overturn the denial from the AdSS.

2. If the member is hospitalized due to threatening behaviors prior to a determination on the request for behavioral health out-of-home treatment, the AdSS shall coordinate with the hospital, Support Coordinator and Child and Family Team (CFT) to ensure an appropriate and safe discharge plan. The discharge plan shall include recommended follow-up services, including recommendations made by the CFT. For additional requirements regarding discharge planning refer to AMPM 1020.

3. The AdSS shall collaborate with DCS and the Support Coordinator to ensure an appropriate alternative for the member to be discharged when

   a. It is unsafe for the member to return to the out-of-home caregiver or adoptive parent(s), and/or

   b. It is unsafe for the out-of-home caregiver or adoptive parent(s) for the member to return.

4. The AdSS shall issue a Notice of Adverse Benefit Determination (NOA) as specified in AdSS Operations Policy 414 for any adverse action related to the request for any adverse action related to the request for behavioral health out-of-home treatment.

5. The AdSS is responsible for reimbursement to the inpatient psychiatric hospital for all medically necessary care including days where inpatient criteria were not met but there was not a safe discharge plan in effect to meet the needs and safety of the member and the out-of-home caregiver or adoptive parents. In

these cases, the AdSS is responsible for payment regardless of principal diagnosis on the claim and may negotiate with the hospital for an appropriate rate.

C. BEHAVIORAL HEALTH APPOINTMENT STANDARD

The Division shall ensure AdSS compliance with the following:

1. Upon notification from an out-of-home caregiver or adoptive parent that a recommended behavioral health service is not provided to a member (as specified in AdSS Operations Policy 417), the AdSS shall:

    a. Notify the caller of the requirement to also report the failure to receive the approved behavioral health services to the Health Plan Customer Service (Mercy Care 800-624-3879 and United Healthcare 800-348-4058), as applicable;

    b. Notify the caller that the member may receive services directly from any AHCCCS-registered provider, regardless of whether the provider is contracted with the AdSS;

    c. Obtain the name and contact information of the identified non-contracted provider of service, if applicable, to verify their AHCCCS registration; and

    d. Obtain information needed to determine medical necessity of requested services not received.

2. For services provided by a non-contracted provider, the AdSS shall:

a. Not deny claims submitted based solely on the billing provider being out of network, and

b. Reimburse clean claims at the lesser of 130% of the AHCCCS Fee-For-Service Rate or the provider's standard rate and as specified in AdSS Operations Policy 203.

c. The member may continue to receive services from the non-contracted provider regardless of the availability of an in-network provider.

D. EDUCATION

The Division shall ensure AdSS compliance with the following:

1. The AdSS is responsible for providing education to providers, Primary Care Physicians, members, families, CFT members and other parties involved with the member's care, on an ongoing basis. This includes but is not limited to the following areas:

   a. Rights and responsibilities as delineated in A.R.S. §8-512.01,

   b. Trauma-informed care,

   c. Navigating the behavioral health system,

   d. Coordination of care as specified in this policy,

   e. Covered services,

   f. Referral process including Arizona Families First (Family in Recovery Succeeding Together; AFF),

g. The role of the AdSS,

h. The role of DCS as applicable, and

i. Additional trainings identified by the Member Advisory Council or obtained via stakeholder input.

2. The AdSS shall provide training and education to primary care providers regarding the behavioral health referral process.

3. All AdSS member information shall meet the requirements of AdSS Operations Policy 404.

4. The Division reserves the right to verify education programs when performing oversight of the AdSS. AHCCCS reserves the right to verify education programs when performing a review of the Division.

E. REQUIREMENTS FOR CHILDREN IN THE CUSTODY OF DCS

In addition to the requirements above, the Division shall ensure the AdSS meets the requirements included in this section:

1. Telephone Line

a. Ensure the availability of a telephone line, with designated staff, that is responsible for handling incoming calls after business hours related to delivery of services, including failure of an assessment team to respond within two hours, and

b. Designated staff shall be adequately trained on the

provisions of this Policy and the procedures in place to address calls prior to actively answering calls. There shall be processes in place for staff to:

i. Address barriers to care,

ii. Directly contact the crisis services vendor and/or provider,

iii. Track and report calls as specified throughout Policy, and

iv. Report the above information to the Children Services Liaison.

2. Continuity of Services

a. The AdSS is responsible for continuation and coordination of services the member is currently receiving.

b. If the member moves into a different county because of the location of the out-of-home caregiver, the AdSS must allow the member to continue any current treatment in the previous county and/or seek any new or additional treatment in the current county of residence regardless of the AdSS provider network.

3. Children Services Liaison

a. The AdSS shall designate an individual whose role is to serve as the member's single point of contact for accepting and responding to:

i. Inquiries from the out-of-home caregiver, adoptive parent, or providers,

ii. Issues and concerns related to the delivery of and access to behavioral health services for members,

iii. Collaborate with the out-of-home caregiver and adoptive parents to address barriers to services, including nonresponsive crisis providers, and

iv. Resolve concerns received in accordance with grievance system requirements.

b. The Children Services Liaison shall:

i. Provide the number for crisis services and after-hours telephone line in their outgoing voicemail message and email;

ii. Provide an expected timeframe for return calls in their outgoing voicemail message and email;

iii. Respond to all inquiries as indicated by need or safety but no later than one business day; and

iv. Follow up on all calls received by the after-hours telephone line.

c. The Division shall ensure the AdSS Children Services Liaison contact information is:

i. Provided to AHCCCS and DCS for distribution,

ii. Prominently placed on the member page of the AdSS' website, and

iii. Included in the Member Handbook.

d. The AdSS shall ensure calls received by the Children Services Liaison that meets the definition of a grievance are reported in accordance with the Grievance System Reporting requirements as outlined in Contract.

F. TRACKING AND REPORTING

1. The Division shall conduct ongoing oversight of the AdSS through a review of the following reporting to ensure compliance with this policy:

   a. Monitor, as specified in the AHCCCS Contract, an Access to Services Report using Attachment A to ACOM 449.

   b. Monitor and submit, as specified in the AHCCCS Contract, the number of calls and emails received by the AdSS Children Services Liaisons and the after-hours line related to children residing with out-of-home caregiver or children in out-of-home dependency with DCS specific to this policy (Attachment B to ACOM 449), and

   c. Monitor and submit, as specified in the AHCCCS Contract, a Rapid Response Reconciliation reporting all Rapid Response information for children in DCS custody (Attachment B). The Division shall ensure the AdSS perform a reconciliation of members placed in DCS custody

in contrast to those who have received a Rapid Response service. For any identified members in DCS custody who have not been engaged in behavioral health services, the AdSS shall ensure a Rapid Response service is delivered. For any identified members in DCS custody who are already receiving or otherwise are engaged in behavioral health services, the AdSS shall ensure an assigned service provider contacts the member and caregiver to conduct an assessment of the current status.

G. DIVISION OVERSIGHT OF AdSS:

The Division shall conduct oversight activities including, but not limited to the following methods to ensure compliance with this policy and policies referenced within this policy:

1. Annual Operational Review of related standards, including but not limited to:
    a. AdSS has policies and procedures in place and demonstrates compliance with them to ensure members in foster care receive behavioral health services in alignment with this policy and AdSS 417.
    b. AdSS demonstrates compliance with the initiation and coordination of a referral when a behavioral health need has been identified and follows up to determine if the member received behavioral health services.
    c. AdSS provides evidence of training and education provided to primary care providers regarding the

behavioral health referral process.

d. AdSS monitors for evidence in the medical record and the member's individual service plan that medically necessary services were determined by a qualified behavioral health professional.

2. Receive and review deliverable reports to ensure compliance and address service gaps or non-compliance. Submit collated data received from the AdSS and submit reports as required by contract to AHCCCS.

3. Conduct a cadence of oversight meetings with each AdSS for the purpose of reviewing compliance and addressing concerns with access to care or other quality of care.

4. Ongoing monitoring and evidence of compliance through Behavioral Health Chart Audits.

1001-A RIGHTS AND RESPONSIBILITIES OF INDIVIDUALS SUPPORTED BY THE DIVISION OF DEVELOPMENTAL DISABILITIES

REVISION DATE: 1/3/2024, 4/21/2023, 7/3/2015

REVIEW DATE: 6/23/2023

EFFECTIVE DATE: July 13, 1993

REFERENCES: A.R.S. § 36-551.01, A.R.S. § 41-3801, A.R.S. § 41-1492 et seq., A.R.S. § 41-1959; A.A.C. R9-21-211; A.A.C. R6-6-102; R6-6-104, R6-6-107, R6-6-108, R6-6-804, R6-6-901, R6-6-901-910 et seq., R6-6-1801 et seq., R6-6-1114

PURPOSE

To identify the rights and responsibilities that an individual has by virtue of being enrolled in programs operated or overseen by the Division of Developmental Disabilities (Division or DDD).

DEFINITIONS

1. "Individualized Family Service Plan" or "IFSP" means a written plan for providing early intervention services to an infant or toddler with a disability and the child's family that (a) is based on the evaluation and assessment; (b) includes parental

consent; c) is implemented as soon as possible once parental consent is obtained; and (d) is developed in accordance with IDEA Part C.

2. "Person-Centered Service Plan" or "PCSP" means a written plan developed through an assessment of functional need that reflects the services and supports (paid and unpaid) that are important for and to the member in meeting the identified needs and preferences for the delivery of such services and supports. The PCSP shall also reflect the member's strengths and preferences that meet the member's social, cultural, and linguistic needs, individually identified goals and desired outcomes, and reflect risk factors (including risks to member rights) and measures in place to minimize them, including individualized back-up plans and other strategies as needed.

3. "Planning Document" means a written plan developed through an assessment of functional needs that reflects the services and supports, paid and unpaid, that are important for and important

to the Member in meeting the identified needs and preferences for the delivery of such services and supports.

4. "Support Coordinator" means the same as "Case Manager" under A.R.S. § 36-551.

POLICY

A. MEMBER RIGHTS

1. The Division shall recognize that an individual with a developmental disability has the same rights, benefits, and privileges guaranteed by the constitutions and laws of the United States and the State of Arizona, including the:

   a. Right to exercise their rights as a citizen;

   b. Right to participate in social, religious, educational, cultural, and community activities;

   c. Right to own, rent, or lease property;

   d. Right to marry and have children;

   e. Right to be free from involuntary sterilization;

f. Right to express human sexuality and receive training as appropriate;

g. Right to consume alcoholic beverages if 21 years of age or older unless contraindicated by orders of their primary care provider or the court;

h. Right to the presumption of legal competency in guardianship proceedings;

i. Right to own and have free access to personal property;

j. Right to associate with persons of their own choosing;

k. Right to manage personal financial affairs and to be taught to do so;

l. Right to the least amount of physical assistance necessary to accomplish a task;

2. The Division shall recognize the following additional rights of an individual with a developmental disability receiving supports and services through the Division:

a. Right to be treated fairly regardless of race, ethnicity, culture, national origin, ancestry, religion, gender identity or expression, age, health, social origin or condition, creed, behavioral condition (intellectual) or physical disability, sexual orientation, genetic information, marital status, medical condition, or ability to pay;

b. Right to be treated with respect and with due consideration for their dignity and privacy by DDD staff and providers;

c. Right to a safe, clean, and humane physical environment;

d. Right to be free from any form of restraint or seclusion used as a means of coercion, discipline, convenience, or retaliation;

e. Right to protection from physical, verbal, sexual, psychological, or financial abuse, punishment, neglect, or exploitation;

f. Right to be free from overcorrection or the application of noxious stimuli as a negative consequence of a behavior;

g. Right to know who their Support Coordinator is and how to request a new Support Coordinator;

h. Right to an initial Person Centered Service Plan or Individualized Family Services Plan (PCSP or IFSP) planning document prior to receiving supports and services;

i. Right to participate and share in decision-making once approved and to receive a written PCSP or IFSP based upon relevant assessment results;

j. Right to participate in the PCSP or lFSP, periodic evaluations, and whenever possible, the opportunity to select among appropriate alternative supports and services;

k. Right to a periodic review of the PCSP or IFSP planning document;

l. Right to be supported by the organization to collaborate on decisions with their case manager;

m. Right to be informed of all case management services available, even if a service is not covered, and to discuss options with their case manager;

n. Right to be provided choices and to express individual preferences that will be respected and accepted;

o. Right to be given information in a way they can understand;

p. Right to have interpreter services or documents translated into their primary language;

q. Right to be given written notice of their rights in their primary language, in a manner that can be easily understood in the primary mode of communication, if possible;

r. Right to live in the least restrictive setting. A least restrictive setting refers to an environment in which a member strives to reach their full potential in accordance to the tenets of self-determination;

s. Right to equal employment opportunities based on the member's ability to meet qualifications;

t. Right to fair compensation for labor;

u. Right to be free from unnecessary and excessive medication. Medication shall not be used as punishment, for the convenience of the staff, as a substitute for a PCSP or IFSP, or in quantities that interfere with the member's PCSP or IFSP;

v. Right to be accorded privacy when receiving mail, during visits and telephone conversations;

w. Right to be accorded privacy during personal care, medical treatments, or personal discussions;

x. Right to confidentiality of information and medical records;

i. Have personally identifiable data and medical information kept confidential;

ii. Know what entities have access to their information;

iii. Know procedures used by DDD to ensure their security, privacy and confidentiality.

z. Right of a school-age member to receive publicly-supported educational services;

aa. Right of a child to receive appropriate supports and services, subject to available appropriations, which do not require the relinquishment or restriction of parental rights or custody, except as prescribed in A.R.S. § 8-533, which describes the grounds needed to justify the termination of the parent-child relationship;

bb. Right to withdraw from programs, supports and services, unless the member was assigned to the Department of Child Safety by the juvenile court or placed in a secure facility by the guardian and court;

cc. Right to file a grievance against the Division.

dd. Get help understanding the appeal process including how to appeal when a benefit is denied;

ee. Right to access information about the Division, its staff, its contractors, and staff qualifications.

ff. Right to refuse interviews related to crimes committed against them;

gg. Right to consent to or withhold consent from participation in a research project approved by the Division management team or any other research project: right to knowledge regarding the nature of the research, potential effects of a treatment procedure as part of a research project, right to confidentiality, and the right to withdraw from the research project at any time.

hh. Right to petition the Superior Court for redress when they believe that their rights have been violated, unless other remedies exist under federal or State laws;

ii. Right to contact the Independent Oversight Committee;

3. The Division shall recognize the following additional rights of an individual with a developmental disability who is eligible for the Arizona Long Term Care System (ALTCS):

   a. Right to know about providers who speak languages other than English;

   b. Right to receive services in the community at the same level as others not receiving Medicaid home and community based services;

   c. Right to select where services are provided based on individual needs, preferences and resources;

   d. Right to make life choices, including daily activities, physical environment, with whom they interact, and who provides services and supports;

   e. Right to have personal care needs provided, except for cases of emergency, by a direct care staff of the gender chosen by the responsible person; this choice shall be specified in the Planning Document;

f. Right to make decisions about their care, including refusing care or getting details about what could happen if they do or do not get care;

g. Right to get a second opinion from a qualified physical or behavioral health care professional at no cost within their health plan network or outside the network if there is no in-network option;

h. Right to get information about their treatment options and alternatives in a way that is understandable;

i. Right to develop a contingency plan with their provider agency to decide what they want to do if a caregiver is late or does not show up for each of their assessed services;

j. Right to request information about the structure and operation of their health plan, including their contract with the Division of Developmental Disabilities;

k. Right to know how their health plan pays providers, controls costs, and uses services;

l. Right to see their health care records at any time and to request they be changed or corrected;

m. Right to request a copy of their health care records at no cost every year and to receive a response to that request within 30 days of making the request;

n. Right to receive emergency care at any hospital or other setting without prior approval from their doctor or health plan;

o. Right to create advance directives that protect their right to refuse unwanted health care or to request wanted care if they are too ill to make decisions;

p. Right to file a grievance not only with the Division but also with their health plan, the Arizona Long Term Care System (ALTCS) and Arizona Health Care Cost Containment System (AHCCCS);

q. Right to get information on beneficiary and plan information;

r. Right to information regarding the supports and services available through a provider and about related charges, including any fees for supports and services not covered by a third-party payor;

s. Right to an administrative review, if in disagreement with a decision made by the Division, by filing a verbal or written request for such with the DDD Office of Compliance and Review, and the right to appeal the decision;

4. The Division shall recognize the following additional rights of an individual with a Serious Mental Illness designation:

a. Right to receive the right kind of mental health services based on individual need;

b. Right to Participate in all areas of mental health treatment, including individual service or treatment plan meetings;

c. Right to have a discharge plan before leaving the hospital;

d. Right to consent or say Yes or No to treatment (except in an emergency or by court order);

e. Right to have treatment or medical help in a similar area as others or in the least restrictive area to meet the individual needs;

f. Right to be free from unnecessary seclusion or restraint;

g. Right to not be physically, sexually, or verbally abused;

h. Right to privacy (mail, visits, telephone conversations);

i. Right to file an appeal or grievance when unhappy with services, something is not working, or feel treated unfairly;

j. Right to choose a designated representative(s) to assist during service or treatment planning meetings and in filing grievances;

k. Right to a case manager to work with you to get the services or help needed;

l. Right to a written behavioral health service or treatment plan that sets forth the services you will receive;

m. Right to associate with others;

n. Right to confidentiality of psychiatric records;

o. Right to get copies of psychiatric records (unless it would not be in the best interest to have them);

p. Right to appeal a court-ordered involuntary commitment and to consult with an attorney and to request judicial review of court-ordered commitment every 60 days; and

q. Right to not be discriminated against in employment or housing.

5. The Division shall recognize the following additional rights of individuals living in Community Residential Settings:

a. Right to be treated with dignity and respect by DDD staff and providers;

b. Right to impartial access to treatment or accommodations;

c. Right to a safe, humane, and clean physical environment;

d. Right to make decisions about their care, including refusing care or getting details about what could happen if they do

or do not get care and communicate directly with those responsible to provide care;

e. Right to choose their personal care provider;

f. Right to be informed of their medical condition, of any technical procedures which may be performed, of the identity of the persons who will perform the procedures, attendant risks of treatment and the right to refuse treatment;

g. Right to be free from unnecessary drugs and physical restraints, except as authorized in writing by a physician for a specified time period and in accordance with the Division rules regarding behavior supports;

h. Right to a physical examination and prompt medical attention;

i. Right to refuse to talk with or see someone;

j. Right to participate in social, religious, and community group activities;

k. Right to manage their own financial affairs and be taught to do so to the extent of their capabilities;

l. Right to refuse to perform services for the home, but if they do provide services, right to be compensated at prevailing wages commensurate within state and federal laws and as prescribed by the Industrial Commission;

m. Right to file an incident report;

n. Right to file a grievance not only with the Division but also with their health plan, the Arizona Long Term Care System (ALTCS) and Arizona Health Care Cost Containment System (AHCCCS);

o. Right to the least amount of physical assistance necessary to accomplish a task;

p. Right to have care for personal needs provided, except in cases of emergency, by a direct care staff of the gender chosen by the responsible person and to have the choice specified in the PCSP or IFSP planning document;

q. Right to use available resources to select the home in the community in which they live;

r. Right to have a written residency agreement in place;

s. Right to have keys to their home and bedroom doors, or alternatives in place, to support the free entry and exit from their home;

t. Right to physically access their home and areas within their home;

u. Right to have choices over whom they live with, and only share a bedroom if they choose to do so;

v. Right to decide how to furnish and decorate their home;

w. Right to decide how to use outdoor spaces;

x. Right to have access to privacy within their homes including privacy with regard to written correspondence, telephone communication, and visitors;

y. Right to make informed choices about how they spend their time in and outside of their homes;

z. Right to have access to food and supplies within their home;

aa. Right to have visitors when they want to;

bb. Right to own and have free access to personal property.

B. MEMBER RESPONSIBILITIES

1. The Division shall notify all individuals supported by the Division of Developmental Disabilities that they have the responsibility to:

   a. Be as active a participant as possible in their person-centered service plan (PCSP) meetings;

   b. Notify their Support Coordinator in advance if they are unable to attend their scheduled person-centered service planning meetings;

c. Follow the mutually agreed-on person-centered service plan or notify their Support Coordinator if they cannot follow the plan;

d. Notify their Support Coordinator and their usual care provider(s) if they disenroll from DDD;

e. Provide DDD with accurate and timely information necessary to deliver services;

f. Participate in the DDD redetermination process at ages 6 and 18 or at any time deemed appropriate by the Division's Assistant Director.

2. The Division shall notify all individuals supported by the Division of Developmental Disabilities who are also eligible for the Arizona Long Term Care System (ALTCS) that they have the responsibility to:

a. Participate in the Arizona Long Term Care System (ALTCS) eligibility process, including providing documentation when requested;

b. Keep scheduled doctors and therapy appointments or cancel them at least 24 hours ahead of time;

c. Go to your doctor during office hours if possible instead of using urgent care or the emergency room;

d. Provide accurate and honest information to health care providers;

e. Notify the Division of changes in private/commercial health insurance coverage, including Medicare or Tricare, or other qualifying life event;

f. Follow instructions provided by health care providers and ask questions if they do not understand the instructions.

1001-B RESPONSIBILITIES OF INDIVIDUALS APPLYING FOR AND/OR RECEIVING SUPPORTS AND SERVICES

REVISION DATE: 7/3/2015
EFFECTIVE DATE: July 31, 1993

Applying for and/or receiving supports and services individuals with developmental disabilities are to be supported in exercising the same rights and choices and afforded the same opportunities enjoyed by other citizens. The Division provides this support by following the principles of self-determination. Self-determination is the ability of a member to make choices that allow him/her to exert control over his/her life and destiny, to reach the goals he/she has set, and take part fully in the world around him/her. To be self-determined requires that a member has the freedom to be in charge of his/her life, choosing where to live, who to spend his/her time with and how to spend his/her time. Decisions made by the member about his/her quality of life shall be without undue influence or interference of others. Self-determination also necessitates that the member has the resources needed to make responsible decisions.

Self-determination is necessary because people who have disabilities often desire greater control of their lives so they can experience the life they envision for themselves, one that is consistent with their own values, preferences, strengths and needs. For individuals receiving services through the Division, one way to exert greater control of their lives is to choose the supports and services they receive and who provides that support. The Division offers many options for a member wanting to make more choices about services and supports, such as:

A. Selecting a Support Coordinator;

B. Selecting and directing their planning process, either an Individual Support Plan and/or a Person-Centered Plan;

C. Selecting service providers, both qualified vendors and individual independent providers;

D. Hiring, managing, and firing service providers;

E. Using a fiscal intermediary to manage the financial aspects of having a service provider who is his/her employee; and,

F. Having the spouse serve as his/her provider.

1002 VOTER REGISTRATION

REVISION DATE: 7/3/2015
EFFECTIVE DATE: July 31, 1993

All support coordination staff must comply with the Arizona Department of Economic Security Policy DES 1-01-24, regarding the National Voter Registration Act of 1993, and applicable state statutes, by offering individuals applying for services the opportunity to register to vote.

Staff will accept the verification of U.S. Citizenship that the consumer presents, but are NOT required to verify that it is an acceptable U.S. Citizenship document.

Staff will sign the acknowledgement form to indicate they have reviewed and understand the policy. The acknowledgement must be signed by new employees within 60 days of hire. The signed copy is maintained in the Supervisor's file.

1003 DISTRICT INDEPENDENT OVERSIGHT COMMITTEES

REVISION DATE: 01/18/2023, 07/10/19, 07/13/15

EFFECTIVE DATE: July 31, 1993

REFERENCES: A.R.S. § 41-3801; A.R.S. § 41-3804

PURPOSE

This policy outlines duties and membership body requirements for Independent Oversight Committees, which are established to promote rights of clients who are receiving developmental disabilities services.

POLICY

A. INDEPENDENT OVERSIGHT COMMITTEE DUTIES

The Division of Developmental Disabilities (Division) shall establish Independent Oversight Committees within specific Division districts**:** Central, East, North, West, and South. Each Independent Oversight Committee shall:

1. Meet at least quarterly each calendar year, or as often as necessary as determined by the chairperson, in accordance with the bylaws of the committee.
2. Provide independent oversight to ensure the rights of members are protected, including but not limited to:

a. Incidents of possible abuse, neglect, or denial of an individual's rights.

b. Administration of medication that changes recipient's behavior directly or as a side effect.

c. Aversive or intrusive programs.

d. Research proposals in the field of developmental disabilities that directly involve individuals receiving supports and services.

3. Submit, in writing, to the Arizona Department of Administration (ADOA) Director, any objections it has to specific concerns, actions by employees of the Division, or actions by employees of service providers.

4. Issue an annual report summarizing its activities and making recommendations of changes it believes the Division should consider implementing.

5. Additional information for specific DDD Independent Oversight Committees are available on the DDD ADOA website.

B. INDEPENDENT OVERSIGHT COMMITTEE MEMBERSHIP

1. Each committee shall be comprised of at least seven and not more than15 persons with expertise in one or more of the following areas:
    a. Psychology
    b. Law
    c. Medicine
    d. Education
    e. Special education
    f. Social Work
    g. Criminal Justice
2. Each committee shall include at least two parents of developmentally disabled members who receive services from the Division.
3. Employees of the Department of Economic Security, and subject-matter experts may serve on a committee only as non voting members whose presence is not counted for the purpose of determining a quorum
4. When there is a vacancy in an existing committee's membership, the committee shall review nominees presented by advocacy

groups, local advisory councils, committee members, and the ADOA director.

1004-A INFORMED CONSENT

REVISION DATE: 7/3/2015
EFFECTIVE DATE: July 31, 1993
REFERENCES: A.R.S. § 36-551 (15) and 36-561.

As one means of protecting the rights of consumers, the Division requires written consent from the individual/responsible person for release of confidential information. Consents may also be required for participation in events, medical treatments, and activities. A.R.S. § 36-551 (15) defines consent as voluntary informed consent. Consent is voluntary if not given as the result of coercion or undue influence.

Consent is informed if the person giving the consent has been informed of and comprehends the nature, purpose, consequences, risks, and benefits of the alternatives to the procedure; and, has been informed and comprehends that withholding or withdrawal of consent will not prejudice the future provision of care and supports and services to the individual. In case of unusual or hazardous treatment procedures performed pursuant to A.R.S. § 36-561, subsection A, experimental research, organ transplantation and non-therapeutic surgery, consent is informed if, in addition to the foregoing, the individual/responsible person giving the consent has been informed of and comprehends the method to be used in the proposed procedure.

All consents must be time or event-limited. Consent may be withdrawn at any time by giving written notification to the individual's Support Coordinator.

Consumer's Competency Questioned

When a consumer's ability to make decisions about medical treatment/ procedures is questioned, the matter must be forwarded to the Division's Medical Director for consideration.

1005-A GUARDIANSHIP AND CONSERVATORSHIP OR SURROGATE PARENT

REVISION DATE: 9/30/2016, 9/1/2014
EFFECTIVE DATE: July 31, 1993
REFERENCES: A.R.S. §§ 15-761, 15-763, et seq.; 36-551 (01)(H), 36-551(17), 36-564(D), 14.5101, et seq.; 14-5105, 14-5311, 14-5303-5304, 14-5310; 14-5401, 14-5312; 14-5408(C); 14-5315; A.A.C. R6-6-1401. Public Law 105-17.

REFERENCES: A.R.S. §§

Guardianship is a legal method that is used to insure that a person who is unable to make reasoned decisions has someone specifically assigned to make decisions on his/her behalf. A guardian must be appointed by a court. A conservator refers to a person appointed by a court to manage the estate of a protected person. A person may have a guardian, a conservator or both appointed by the court.

Guardianship or conservatorship for persons with developmental disabilities shall be:

A. Utilized only as is necessary to promote the well-being of the individual;

B. Designed to encourage the development of maximum self- reliance and independence in the individual; and,

C. Ordered only to the extent necessitated by the individual's actual mental, physical and adaptive limitations.

Appointment of a Guardian or Conservator

Only a court can determine that someone needs a guardian. Neither the family nor a Support Coordinator can unilaterally or jointly make that determination. However, the individual himself/herself, a family member, or any person interested in his/her welfare may petition the court (file a request for a hearing in a State court) for a finding of incapacity and the consequent appointment of a guardian. The court will appoint an attorney to represent the allegedly incapacitated person in the hearing unless the individual has his/her own attorney.

It should be noted that under Arizona law, a person with a developmental disability is presumed legally competent in guardianship proceedings until the court makes a determination to the contrary.

The person alleged to be incapacitated shall be interviewed by a person appointed by the court (called a court visitor) and examined by a court appointed physician, psychologist, or a registered nurse who will submit written reports to the court. In addition, the court visitor shall interview the person seeking appointment as guardian, and visit the home of both the individual and the proposed guardian.

During the hearing, the individual who is the subject of the hearing, has the right to be represented by an attorney, to be present at the hearing, to see or hear all evidence, to present evidence, to cross-examine witnesses, and to trial by jury. If the individual alleged to be incapacitated or his/her counsel requests, the issue may be determined at a closed

hearing.

Before a guardian can be appointed, the court must be satisfied "by clear and convincing evidence" that the appointment of a guardian or conservator is necessary to provide for the demonstrated needs of the individual.

In case of an emergency situation, the court can appoint a temporary guardian and/or a temporary conservator.

If the appointment of a guardian or conservator is required for a American Indian who is a member of an Indian Tribe and who has significant contacts with that tribe, but who is not an Indian child within the scope of federal law, the Arizona Administrative Code requires that the appointment of a guardian or conservator shall first be requested through the appropriate tribal court, if any, unless the request through the tribal court is not in the recipient's best interests as determined by the Individual Support Plan (ISP) team.

Who May be Guardian

Any competent person may be appointed guardian by the Court. Persons who are not disqualified have priority for appointment as guardian in the following order:

A. Spouse;

B. Individual or corporation nominated by the person, if in the opinion of the court, the person has sufficient mental capacity to make an intelligent choice for guardian;

C. An adult child;

D. A parent, including a person nominated by will or other writing signed by a deceased parent;

E. A relative with whom the individual has resided for more than six months prior to the filing of the petition;

F. The nominee of a person who is caring for the person or paying benefits to him/her; or,

G. A public or private fiduciary, professional guardian, conservator.

The court may give preference for the appointment of a family member unless this is contrary to the expressed wishes of the individual or is not in his/her best interest as determined by the court.
Persons who wish to be considered for appointment as a temporary or permanent guardian or conservator must provide the court with all required information. Specifically, the proposed guardian must disclose any interest in any enterprise providing health care or comfort care services to any individual.

Duties of a Guardian

A guardian's duties include, but are not limited to:

A. Encouraging the individual to develop maximum self-reliance and independence;

B. Working toward limiting or terminating the guardianship and seeking alternatives to guardianship;

C. Finding the most appropriate and least restrictive setting for the individual consistent with his/her needs, capabilities and financial ability;

D. Making reasonable efforts to secure medical, psychological, and social services for the individual;

E. Making reasonable efforts to secure appropriate training, education, and social and vocational opportunities for the individual;

F. Taking care of his/her ward's clothing, furniture, vehicles, and other personal effects;

G. Giving consents or approvals for medical or other professional care that may be necessary; and,

H. Completing all reports required by the court.

To encourage the self-reliance and independence of the individual (the ward), the court may grant him/her the right to handle part of his/her money or property without the consent or supervision of a conservator. This may include allowing the individual to maintain appropriate accounts in a bank or other financial institution.

Procedures

As part of the annual review, the ISP team shall evaluate the possible need for a guardian and/or conservator for an individual receiving services through DES/DDD. This information must be noted on the ISP form DD-217 - 2 (Team Assessment Summary, cont) under guardianship status.

When there is serious doubt regarding the ability of the individual applying for services or receiving services to make or communicate responsible decisions, every effort must be made to have a judicial determination made regarding the need for guardianship and/or conservatorship.

In the case of minor child where there is no parent or interested party who is willing and able to serve as guardian, the Support Coordinator should refer the child to Department of Child Safety (DCS).

If an individual is 18 years of age or older, the parents are not the guardians unless they have been so appointed by the court. Thus, parents cannot continue to sign medical consent forms, etc. for their children who have become of legal age. The parents may wish to pursue guardianship status.

If the Support Coordinator and/or the ISP team believes that a determination of legal competency should be pursued, the Support Coordinator should:

A. Explain the need to the individual and/or family;

B. Work with the individual/and or family to help them understand the process necessary for obtaining a guardian and/or a conservator;

C. Refer the individual and/or family for help, if it is needed, in securing an attorney to handle the proceedings; (referrals, for example, to: Arizona Center for Law in the Public Interest, Community Legal Services, The Arc);

D. If the individual/family is unwilling or unable to seek guardianship, the Support Coordinator must pursue guardianship by:

1. Writing a letter to the county public fiduciary where the individual receives services explaining the situation; and/or

2. Contacting Adult Protective Service (APS) for assistance.

Surrogate Parent

Parental involvement in the planning of a child's Individual Education Plan (IEP) is a federal requirement. For a child who is without a parent willing/able to participate in the child's educational process, federal and State laws provide for the appointment, by the court, of a surrogate parent to represent a child in decisions regarding special education.

A petition for a surrogate parent for a child with disabilities may be made if any of the three following conditions have been met:

A. No parent can be identified;

B. A public agency cannot determine the whereabouts of a parent after having made three reasonable attempts; or,

C. The child is a ward of the State and the biological parent is unwilling or unable to consent to special education placement.

A person who is an employee of a State agency which is involved in the education or care of the child is not eligible to be a surrogate parent. Thus, a Department of Economic Security (DES)/Division of Developmental Disabilities (DDD) Support Coordinator cannot be a surrogate parent. Moreover, a DES/DDD Support Coordinator cannot sign an authorization for a special education evaluation or an authorization for services for a child who has a developmental disability.

Procedures

If a child who is receiving services through DES/DDD has a surrogate parent, this information must be noted on the Individual Support Plan (ISP) form *DD-217 - 2 Team*

Assessment Summary, continued under guardianship status and reviewed annually. In addition, the surrogate parent must be part of the ISP team.

A foster parent who wants to be a surrogate parent should work with the Support Coordinator in making a request to the courts. While a foster parent may petition the court to receive an appointment as a surrogate parent, the court is responsible for determining whether a particular individual is able to act as a foster parent, and also represent the best interest of the child as a surrogate parent.

If the Support Coordinator believes a surrogate parent is necessary, e.g., the natural parents have relinquished their rights, the Support Coordinator should seek to have a surrogate parent appointed so that decisions regarding the child's education can be made in a timely manner.

The Arizona Department of Education (ADE) has information regarding surrogate parents and usually has a list of persons who have volunteered to be surrogate parents and have already received the required training.

1005-C AUTHORIZED REPRESENTATIVE FOR ALTCS BENEFITS

REVISION DATES: 10/28/2020, 9/01/2014
EFFECTIVE DATE: July 31, 1993

If there is a legal representative, that person must file the application for Arizona Long Term Care Service (ALTCS) benefits or authorize someone else to be the authorized representative. This is a person who is authorized in writing by an applicant or legal representative to represent him/her in the application process.

The authorized representative signs an affirmation to having knowledge of the applicant's circumstances, has been informed and understands the responsibilities which include:

1. Providing complete and accurate information, to the best of his/her knowledge, regarding the applicant's income, resources, household composition, citizenship, residency, and medical insurance coverage;

2. Providing all documents needed to determine eligibility;

3. Notifying the local ALTCS office of any change in the applicant's circumstances within 10 working days of the occurrence;

4. Signing all forms necessary for completing the application and verifying eligibility; and

5. Identifying and filing insurance claims and assigning insurance benefits to AHCCCS.

NOTE: Generally, a family member or a legally appointed guardian assumes the responsibility of being an authorized representative for an individual applicant. The Support Coordinator may assist in the process of making application.

1005-D REPRESENTATIVE PAYEE

REVISION DATE: 11/16/2022, 9/1/2014
EFFECTIVE DATE: July 31, 1993
REFERENCES: 20 C.F.R. 404.2001-404.2065; 20 C.F.R. 416.601-416.665; A.R.S. § 36-557(O); Division Operations Policy 4004-A

PURPOSE

This policy outlines the responsibilities for the Division when a Member needs or has a Representative Payee.

DEFINITIONS

1. "Fee for Service Representative Payee" means an organization that is approved by the Social Security Administration (SSA) to perform the role of Representative Payee and to collect a monthly fee from a member's benefit payment to perform the service.
2. "Member" means an individual enrolled with the Division.
3. "Representative Payee" means an individual or organization appointed by the Social Security Administration (SSA), Railroad Retirement, Veteran's Benefits, and Civil Service to receive and manage benefits.

4. "Social Security Benefits - Social Security (SSA, Title II)" means a social insurance program that protects workers and their families (dependents or survivors) from loss of earnings because of retirement, death, or disability of the wage earner.
5. "Supplemental Security Income (SSI), Title XVI" means a federal income maintenance program for the aged, blind, and disabled persons with few or no resources.

POLICY

A. DIVISION REQUIREMENTS

1. The Division shall serve as Representative Payee for adult Members that meet all of the following criteria:
   a. The Member receives SSA, SSI, Railroad Retirement, Veteran's Benefits, Civil Service, or other benefits.
   b. The Member or guardian requests the Division to serve as Representative Payee.
   c. The Member does not have natural supports who are willing or able to manage his or her funds.
   d. The Member cannot afford a Fee for Service Representative Payee.

e. The Support Coordinator and Planning Team requests the Division to serve as Representative Payee.

f. The Member does not have an outside bank, credit union or other account established on their behalf.

2. The Division shall serve as Representative Payee if the Member is a child and meets all the following criteria:

a. The Member is eligible for SSA and/or SSI;

b. The Member is under the care and custody of the Department of Child Safety; or

c. The Member is under the care and custody of the tribal social service agency; and

d. The Member's placement is provided and paid by the Division.

3. The Division shall request approval from the organization providing the Member's benefits to serve as Representative Payee if the Member meets the criteria in A.1. or A.2. above.

4. The Division shall manage a Member's employment earnings upon the Member's request and if the Division is providing the member Representative Payee services.

B. DIVISION REPRESENTATIVE PAYEE RESPONSIBILITIES

1. The Division, as Representative Payee, shall use the funds they manage for the exclusive use and benefit and in the member's best interest.
2. When managing the Member's funds, the Division shall:
   a. Establish an individual account for the Member;
   b. Distribute the Member's funds in accordance with the requirements of the entity providing the benefits to the Member;
   c. Keep an accounting of the funds received and distributed; and
   d. Safeguard and secure the Member's funds.
3. The Division, as Representative Payee, shall report annually to the organization providing benefits to the Member the following information:
   a. How the Member's benefits were used;

b. The amount of the Member's benefits saved;

c. Any changes in the Member's living arrangements; and

d. Other information as required or requested by the organization providing benefits to the Member.

4. The Division shall, if necessary documents are made available by the Member, report a Member's employment earnings as required by SSA, if the Division:

a. Is Representative Payee for a Member receiving SSA/SSI benefits; and

b. Is managing the Member's employment earnings.

C. SUPPORT COORDINATION RESPONSIBILITIES

1. The assigned Support Coordinator shall complete and submit a DDD-1822A Request for DES/DDD to Become Representative Payee-Adult form to Member Funds if a Member meets the requirements in A.1. above and requests Representative Payee services from the Division.

2. The Support Coordinator shall complete and submit a DDD-1831A Request for Division of Developmental Disabilities to

become Representative Payee-Child form to Member Funds if the Member is a child and meets the criteria in A.2. above.

3. If the Member requires a Representative Payee, but does not meet the criteria in A. to receive Representative Payee services from the Division, the Support Coordinator shall:
   a. Refer to the Member to the SSA website or local SSA office; and
   b. Coordinate with the Member and Planning Team in finding natural or community supports for Representative Payee services.
4. The Support Coordinator shall document if a Member has a Representative Payee, whether through the Division, community, or a natural support, in the Person-Centered Service Plan.
5. The Support Coordinator shall, if agreed to by the Member, include the Member's the Representative Payee in Planning Team meetings.
6. The Support Coordinator shall complete the DDD-0221A Spending Plan form within the Member's monthly budget as part

of the Person-Centered Service Plan for Members for whom the Division is Representative Payee.

7. The Support Coordinator shall only authorize up to $499.00 for Member funds disbursement requests.
8. The Support Coordinator's Supervisor or Designee shall approve or deny Member funds disbursement requests over $500.00.

1007 SUPPORTING SEPARATED OR DIVORCED FAMILIES

EFFECTIVE DATE: December 7, 2022

REFERENCES: A.R.S. § 25-403.06

PURPOSE

This policy sets forth guidance on working with parents or guardians of Division of Developmental Disabilities (DDD) Members, when the parents or guardians are separated or divorced, in order to ensure continuity of communication for planning and implementing Member services.

DEFINITIONS

1. "Member" means an individual who is receiving services from the Division of Developmental Disabilities (Division).
2. "Support Coordinator" means the same as "Case Manager" under A.R.S. § 36-551

POLICY

A. DOCUMENTATION

1. When the Support Coordinator becomes aware that a Member's parents or guardians are separated or divorced, the Support Coordinator shall request a copy of the court ordered custody

agreement or Parenting Plan to be placed in the Member's file.

2. The Support Coordinator may initiate services or implement changes in the Member's services, including change of providers, prior to the requested custody agreement or Parenting Plan being received when:
   a. Both parents or guardians are involved in the planning process, and
   b. Both parents or guardians agree with the proposed changes.
3. When the Support Coordinator becomes aware that any court-approved changes have occurred to the custody agreement or Parenting Plan, the Support Coordinator shall request a copy to be placed in the Member's file.
4. When the Support Coordinator becomes aware of any updates to any informal agreements, after finalizing the custody agreement or Parenting Plan, the Support Coordinator shall request a notarized copy of this information be placed in writing by both parties, and placed in the Member's file.

B. COMMUNICATION

1. Division staff shall send information to both parties equally, in the same manner whenever possible, when both parties have joint legal custody.
2. When Division staff respond to communication from one party, staff shall document the discussion in an email to both parties to confirm the conversation.

C. PLANNING MEETINGS

1. The Support Coordinator shall include both parties and the Member in service planning meetings, at mutually agreeable times and locations, unless both parties agree that one person shall be the representative decision maker.
2. The Support Coordinator is not responsible for scheduling two separate meetings when parents or guardians do not wish to interactively participate in the same planning meeting.
3. The Division may grant separate meetings if one party has a Protective Order against the other party. If the Division is aware of a Protective Order, the Support Coordinator shall obtain a

copy of the Protective Order file in the Legal section of the Member's file.

4. The Support Coordinator shall first attempt to schedule meetings in the Member's home, however, meetings can be held at a neutral location such as a Division office.

5. If a required meeting cannot be scheduled because of the failure of the parties to reach agreement on time or location, please see Section E.

D. ASSESSING SERVICES

1. When parents share joint legal custody, the Division shall provide services in the parents' homes or in the community in the same percentage of time outlined in the custody agreement or Parenting Plan, unless otherwise agreed to by both parties.

2. Division staff shall support goals for skill development as mutually agreed upon by the planning team. If more than one Qualified Vendor or Independent Provider is in place for a teaching/Habilitative service, Division staff shall assist the

planning team with coordinating the teaching strategies within both parties' homes as skills are more likely to be generally applied to other settings.

3. The Division may complete home modifications in the home where the Member spends the majority of their time to meet the Member's accessibility needs, as determined medically necessary by the home modification assessment. When the Member also lives part-time with the other party, home modifications may also be provided in the other party's home, at the time the other party chooses to have an assessment to determine medically necessary home modifications to meet the Member's accessibility needs at that home environment.

E. CONFLICT RESOLUTION

When parents with joint legal custody cannot agree, despite facilitation by Support Coordination staff, the Division shall not initiate new services or implement changes in the Member's services, including change of providers.

3001 FAMILY MEMBERS AS PAID PROVIDERS

REVISION DATE: 2/26/2016, 7/3/2015
EFFECTIVE DATE: June 30, 1994

In some situations, family members may be paid to provide certain services. Immediate relatives permitted to provide service include the following:

A. Natural Child;

B. Natural Sibling;

C. Adoptive Child;

D. Adoptive Sibling;

E. Stepchild or Stepsibling;

F. Father-in-Law, Mother-in-Law, Son-in-Law, Daughter-in-Law, Sister-in-Law, Brother-in-Law;

G. Grandparent or Grandchild; and, or,

H. Spouse of Grandparent or Grandchild.

Immediate relatives not permitted to provide services for children under age 18 include:

A. Natural Parent;

B. Adoptive Parent ; and,

C. Step Parent.

Certain requirements are specific to family members who may be paid to provide supports to their family member with a developmental disability. They include:

A. Parent/Step Parents may only be paid for an adult child (over age 18). Other family members of an adult or minor who meet certification requirements may be paid to provide services;

B. A spouse of a person with a developmental disability may not be paid to provide services to their spouse (See Attendant Care section for exception);

C. The Planning Team must determine the type and amount of services the person needs within their home environment. This determination is based on assessed need as well as the availability of natural and community resources;

D. Family members cannot be paid for skilled care during the provision of services such as Attendant Care or Habilitation (skilled care includes, but is not limited to: G-tube insertion and feedings, catheter replacement, respiratory treatment such as Small Volume Nebulizers, or suctioning tracheostomy care) (See Appendix D – Skilled Nursing Matrix);

E. A single family member who is an individual independent provider may not be paid to provide more than 40 hours of any combination of service per week. This maximum of 40 hours per week does not limit another family member from providing services. For example, an adoptive sibling may provide 38 hours of services and the grandparent may provide another 12 hours of service;

F. Family members must comply with all requirements in their contract in addition to all policies, procedures, laws, and rules;

G. Primary caregivers/parents may not be paid to provide Respite;

H. Services shall not replace care provided by the person's natural support system;

I. Family members shall participate in and cooperate with ongoing monitoring requirements by the Division;

J. Qualified family members may become certified home and community based service providers by meeting the certification requirements, as applicable; and,

K. When a family member requests to become the provider for a member over the age of 18, the Support Coordinator/designee will conduct a personal interview with the member.

3003 SELECTION OF PROVIDERS

REVISION DATES: 3/02/22, 3/22/21, 2/05/18, 6/10/16
EFFECTIVE DATE: 10/04/14
REFERENCES: A.A.C. R6-6-2101 thru R6-6-2115

PURPOSE

To provide a person-centered approach for the Division of Developmental Disabilities (Division) members to select providers in a fair and equitable manner. The Division does not discriminate against Qualified Vendors/Independent Providers who serve high-risk populations or who specialize in conditions that result in costly treatment due to Division members selecting their own providers.

Division staff are not permitted to show favoritism toward any specific Qualified Vendor/ Independent Provider. If staff are asked to make a recommendation regarding a Qualified Vendor/Independent Provider, staff must explain to the member/responsible person that they cannot make a specific recommendation. Staff will then review the methods that are available for the member to select a Qualified Vendor/Independent Provider. The Division may assist the member/responsible person to identify the criteria needed to make a selection based on the member's needs.

I. POLICY

A. IDENTIFYING THE NEED FOR SELECTING A QUALIFIED VENDOR

1. The selection of a Qualified Vendor is needed when:
    a. A new service is approved by the Division, or
    b. A member/responsible person requests a change of Qualified Vendor.
2. If the member/responsible person requests a new Qualified Vendor at the time of the annual planning meeting:
    a. The request will be documented in the Planning Document.
    b. The Division will accommodate the requests to the extent appropriate and practical.
3. If the member/responsible person requests a new Qualified Vendor outside of an annual planning meeting:
    a. The request must be in writing or reported directly to the Division for incorporation into the member's record and include:
        i. The rationale for changing Qualified Vendors, and
        ii. A description of the opportunities given to the current Qualified Vendor to address the member's concerns.

4. If there is team agreement to make the change, the Division will accommodate the requests to the extent appropriate and practical.

5. If there is no team agreement, the Division shall schedule and convene a resolution meeting as soon as possible, document steps to resolve the concern(s), and monitor the plan for the following 21 days to determine if the concerns have been resolved. If the concerns have not been resolved, the Division will accommodate the requests to the extent appropriate and practical.

II. NON-RESIDENTIAL SERVICES

A. METHODS FOR SELECTING A QUALIFIED VENDOR - NON-RESIDENTIAL SERVICES

1. When a non-residential service is approved by the Division, or a change of Qualified Vendor for a non-residential service is needed, the member/responsible person may identify a Qualified Vendor in the following ways:

   a. The member may identify a Qualified Vendor or contracted Independent Provider without assistance from the Division. The Division will issue a vendor call concurrently to ensure that services are put in place.

   b. If requested by the member/responsible person, the Division may provide an electronic or printed copy of the Qualified Vendor or Independent Provider Directory, or direct the member/responsible person to use the online Provider Search option available on the Division's webpage, "Assistance for Individuals or Families."

   c. The member/responsible person will confirm the potential Qualified Vendor's availability with the Division.

2. The member may select a Qualified Vendor through the use of a vendor call issued by the Division. A vendor call for non-residential services is a notice from the Division inviting Qualified Vendors to submit a response indicating their availability to provide services for a specific member or specific group of members, based on the requirements defined in the member's Planning Document.

B. SELECTING A QUALIFIED VENDOR USING A NON-RESIDENTIAL VENDOR CALL

1. Vendor calls for non-residential services remain open and/or continuous until the service is assigned.

2. The Division provides the member/responsible person with responses that meet the criteria of the vendor call as they are received.

3. After receiving the first response to the vendor call from the Division, the member/responsible person must select a Qualified Vendor from the responses received within seven calendar days.

4. If a member/responsible person is not willing to, is unable to, or does or does not select a vendor, a Qualified Vendor may be auto assigned on their behalf by the Division. The member/responsible person will be notified of the auto-assignment.

5. The selection will be documented in the member's file and progress notes.

C. QUALIFIED VENDOR NOT IDENTIFIED – NON-RESIDENTIAL VENDOR CALLS

1. When a non-residential vendor call does not receive any Qualified Vendor responses, the Division will use direct referral to individually contact one or more of the Qualified Vendors who provide services in the geographic area of the member. If necessary, the Division may extend the search to proximal areas or statewide.

2. Negotiated rate considerations and/or out-of-network providers may be utilized by the Division if a Qualified Vendor is not identified using the vendor call and direct referral process.

3. Alternative services will be offered, assessed, and documented in the member's file by the Division while a Qualified Vendor is being identified.

III. RESIDENTIAL SERVICES

A. METHODS FOR SELECTING A QUALIFIED VENDOR - RESIDENTIAL SERVICES

1. When a residential service is approved by the Division, or a change of Qualified Vendor for a residential service is needed, the member/ responsible person may identify a Qualified Vendor in the following ways:

   a. The member/responsible person may identify a currently contracted Qualified Vendor on their own; however, the Division must confirm that the selected Qualified Vendor has an existing/current funded capacity that can meet the member's needs prior to the authorization of services.

   b. The member/responsible person may select a Qualified Vendor through the use of a vendor call issued by the Division. A vendor call for residential services is an invitation to Qualified Vendors to provide services for a specific member, based on the member's individual needs.

B. SELECTING A QUALIFIED VENDOR USING A RESIDENTIAL VENDOR CALL

1. Vendor calls for residential services close after five calendar days.

2. When Qualified Vendor responses to residential vendor calls are received, the Division provides the member/responsible person with the responses that met the criteria in the vendor call after it closes.

    a. The member/responsible person must select a Qualified Vendor from the responses within five calendar days of receiving the response list from the Division. The member/ responsible person may request an additional five calendar days to select a Qualified Vendor, if needed.

    b. If a member/responsible person is not willing to, unable to, or does not select a vendor within the allotted time frame, a Qualified Vendor may be auto assigned on their behalf by the Division. The member/responsible person will be notified of the auto-assignment.

3. The selection will be documented in the member's file and progress notes.

C. QUALIFIED VENDOR NOT IDENTIFIED - RESIDENTIAL VENDOR CALLS

1. When a residential vendor call does not receive any responses, the Division will determine if the parameters of the vendor call need to be adjusted.

2. If the parameters of the vendor call are adjusted, a new vendor call will be issued.

3. If the parameters of the vendor call cannot be adjusted, the Division will use direct referral to individually contact one or more of the Qualified Vendors who provide services in the preferred geographic area of the member.

4. The Division may identify the need to expand the Network when there are no responses to vendor calls/direct referrals for two or more members.

5. Negotiated rate considerations may be utilized at the discretion of the Division.

6. Alternative services may be offered, assessed, and documented in the member’s file by the Division while a Qualified Vendor is being identified.

7. Under rare circumstances the Division may consider the use of an out-of-network provider for emergent needs.

IV. INDEPENDENT PROVIDERS

A. SELECTING INDEPENDENT PROVIDERS

1. Members may select to receive services from an existing independent provider who has an Independent Provider Agreement with the Division. Beginning in 2019, the Division stopped expanding the Independent Provider Program. Exceptions may be considered on a case-by-case basis and only if there is no network sufficiency to meet a specific member's needs.

2. A member/responsible person may change Independent Providers at any time.

3. Independent Providers are paid a rate based on member assessment.

4. The Division requires the use of a fiscal intermediary to manage the tax responsibilities and other employer obligations related to Independent Provider selection.

5. The fiscal intermediary is responsible for:

    a. Paying claims submitted by Independent Providers, including tax obligations;

    b. Tracking authorized service hours; and

    c. Working with the member/responsible person and the Division to resolve any financial concerns.

B. REQUIREMENTS FOR MEMBERS USING INDEPENDENT PROVIDERS

1. When a member/responsible person selects an existing Independent Provider to provide the service, the member/responsible person shall:

    a. Hire, orient, and train each Independent Provider to deliver the support as authorized in the Planning Documents;

    b. Review and approve each Independent Provider timesheet;

    c. Track the hours of service used compared to the hours of service authorized by the Division; and

    d. Report any concerns about the Independent Provider or the Independent Provider program to the Division and work with the fiscal intermediary and Division staff toward resolution.

3005 RESERVED

3006 SHORT TERM EMERGENCY SITUATIONS (RESIDENTIAL AND DAY PROGRAMS)

REVISION DATE: 10/1/2014
EFFECTIVE DATE: July 3, 1993
REFERENCES: A.A.C. R6-6-2110

To protect the health and safety of a member, a Qualified Vendor (QV) must notify the Division within twenty-four (24) hours (including weekends) if an emergency situation exists in which the provider is unable to meet the health or safety needs of a member.

The QV shall explicitly specify the need for increased staffing due to the emergency. Emergency situations may include, but are not limited to: acute psychiatric episodes, suicide attempts, deaths in the immediate family, severe and repeated behavioral outbursts, acute and disabling medical conditions, evacuations, etc.

Notification of all emergency situations shall be made to the District Program Manager (DPM) or designee *and* the Central Office. The notification for increased emergency staffing must be honored if verification is present in any form that reasonably could be considered notification, including notification to after hour on-call, or e-mail.

The DPM/designee shall provide written approval/denial of emergency increased staffing to the QV. When approving an extension for emergency increased staffing (maximum is an additional fifteen ([15]) calendar days), the DPM/designee shall take into account the needs of the member receiving services and the capacity of the provider.

If a provider believes an inpatient placement is appropriate, the local Regional Behavioral Health Authority (RBHA) should be contacted for evaluation/placement.

Resolution of Emergency Situations

Upon notification from the QV, the DPM/designee will notify the Support Coordinator of the emergency situation. Within fifteen (15) working days of notification of an emergency situation, the support coordinator shall convene a Planning Team meeting to recommend any changes, including whether there is a need for additional temporary staffing to provide for the health and safety of the member.

If a need for additional temporary staffing is recommended beyond the initial emergency authorization for increased staffing, the Support Coordinator shall notify the DPM/designee of the continued need.
Within thirty (30) working days of initial notification of an emergency situation, the Planning Team, including a Division resource manager/designee, shall develop a written plan to resolve the situation.

The plan for resolution must include:

A. The change in behavior or condition that precipitated an emergency situation;

B. The actions being taken to assist member (e.g., medical or psychiatric appointment, arranging for positive behavioral support, grief counseling);

C. The projected date of completion for each step; and,

D. The criteria that would indicate the additional staffing levels are no longer needed

The support coordinator shall provide the written plan of resolution to the District Program Manager/designee for review and approval.

Qualified Vendor Request for Informal Review

After selection by the member/responsible person or the Division, or implementation of a plan to resolve an emergency, the QV discovers that it cannot meet the needs of a member; the vendor may request an informal review by the Division. The QV shall submit this written request for review to the DPM and provide notification to the Central Office.

The DPM shall review the facts and provide the final decision in writing to the QV within (21) calendar days of the request for a review. If the DPM rejects the vendor's request, the DPM shall provide the QV with the reason for the decision.

If the DPM approves the QV's request to discontinue providing services to the member, the QV shall not discontinue service provision until an alternate provider is selected and the member is transitioned to the new provider.

3007 SERVICE PROVIDER INFORMATION, AUTHORITY, AND NOTIFICATION

REVISION DATE: 10/1/2014
EFFECTIVE DATE: July 3, 1993

The Division shall disclose to a service provider in the Planning Document, and in all meetings resulting from a response to a Vendor Call for Services, any historical and behavioral information necessary for the provider to anticipate the member's future behaviors and needs. This includes summary information from the Program Review Committee, Unusual Incident Reports reviewed by the Human Rights Committee, and Behavioral Health Treatment Plans. The Division shall redact the member's identification from this information.

Service providers are authorized to engage in the following activities in accordance with the member's Planning Document:

A. Administer medications, including assisting the member's self-administration of medications;

B. Log, store, and dispose of medications; and,

C. Maintain medications and protocols for direct care.

The Division may establish procedures for items "A" through "C" listed above.
To protect the health and safety of a member, a provider must notify the Division within 24 hours if an emergency situation exists in which the provider is unable to meet the health or safety needs of the member.

On notification of an emergency, the Department shall hold a Planning Meeting within 15 days after notification to recommend any changes, including whether there is a need for temporary additional staffing to provide appropriate care for a member, and shall develop a plan within 30 days after notification to resolve the situation.

<u>Other Safety Considerations for Placements</u>

Prior to any out-of-home respite or residential placement (including emergencies), the *Pre-Service Provider Information*, *Residential Transfer Checklist* , and any other pertinent forms shall be completed to gather general care information and identify potential safety concerns to prevent risk to the member, other residents, staff, and the public.

The Planning Team shall complete the *Case Transfer* form as part of the pre-placement meeting.

The Planning Team will identify in the Planning Document appropriate means to deal with potential safety risks including, but not limited to training, inoculations, and staffing as needed.

The Planning Team, in consultation with law enforcement, Behavioral Health, the Department of Child Safety (DCS), or other members/agencies as appropriate, will identify

planned responses to known problems prior to placement, and document them on the *Risk Assessment*.

3008 ELECTRONIC MONITORING

REVIEW DATE:
EFFECTIVE DATE: December 27, 2023
REFERENCES: 45 CFR Part 164, A.R.S. §12-2297, A.R.S. §36-551.01, A.R.S. §36.568

PURPOSE

This policy outlines the Division's oversight and monitoring of Qualified Vendors and the use of Electronic Monitoring Devices in service sites funded by the Division.

DEFINITIONS

1. "Common Area" means areas inside and outside the home designed for use by multiple individuals, including residents. Bedrooms, toileting areas, and bathing areas are excluded from this definition, regardless of the number of individuals for which the area is designed.

2. "Electronic Monitoring Device" means the same as defined in A.R.S. § 36-568(E).

3. "Health Insurance Portability and Accountability Act (HIPAA)" means the Health Insurance Portability and Accountability Act; also known as the Kennedy-Kassebaum Act, signed August 21,

1996 as amended and as reflected in the implementing regulations at 45 CFR Parts 160, 162, and 164.

4. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

5. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a Member or an applicant for whom no guardian has been appointed.

POLICY

A. ELECTRONIC MONITORING DEVICES INSTALLED BY QUALIFIED VENDORS

1. The Division shall review and approve the Qualified Vendor's policies, procedures, and notices prior to the installation of the Electronic Monitoring Devices in the Common Areas of a group home, nursing supported group home, day treatment, or employment service site or a vehicle used for transportation.
2. The Division shall ensure Qualified Vendors only install Electronic Monitoring Devices in Common Areas.

3. Prior to installing or using Electronic Monitoring Devices in either a service site or a vehicle used for transportation, the Division shall ensure the Qualified Vendor:
    a. Notifies the Division of the intent to install devices.
    b. Complies with federal regulations for the Security and Privacy of Protected Health Information found at 45 CFR Part 164 (HIPAA) and other applicable state and federal law addressing confidentiality;
    c. Specifies in policy how Electronic Monitoring Device recordings, regardless of format, are secured to protect the confidentiality of the Members;
    d. Obtains written consent from each Responsible Person for Members who receive services at the service site;
    e. Determines in what circumstances access to the Electronic Monitoring Device recordings may be allowed;
    f. Determines which personnel may have access to the Electronic Monitoring Device recordings;
    g. Provides training to staff members who will have access to the Electronic Monitoring Devices; and

h. Posts signs at each service site entrance and in a conspicuous place in the common area and in the vehicle that is being monitored which indicates the days and hours of monitoring.

4. When the Division has approved the Qualified Vendor to use Electronic Monitoring Devices in either a service site or a vehicle used for transportation, the Division shall ensure the Qualified Vendor:

a. Maintains records created by Electronic Monitoring Devices in accordance with A.R.S. §12.2297 that can be produced upon request of the Division, law enforcement, protective agencies, and other persons and entities entitled to access public records under the law unless otherwise restricted.

b. Retains and has accessible any Electronic Monitoring Device recordings, regardless of format, generated by the Electronic Monitoring Devices installed and monitored by the Qualified Vendor for a minimum of 30 calendar days.

c. Evaluates all Electronic Monitoring Devices at least quarterly to ensure the Electronic Monitoring Devices are functioning properly, secure from access by unauthorized

personnel, and are being used in compliance with this Policy.

d. Monitors adherence to policies and promptly addresses non-compliance.

e. Maintains a log of all monitoring of Electronic Monitoring Devices.

f. Makes policies, training records, training acknowledgments, evaluations, and monitoring logs available to the Division as requested

5. The Division shall ensure the Qualified Vendor takes action when a Responsible Person notifies the Qualified Vendor they are no longer in agreement with the use of the Electronic Monitoring Devices by requiring the Qualified Vendor to:

a. Immediately turn off the Electronic Monitoring Devices;

b. Notify all Responsible Persons of the discontinuation of electronic monitoring in the setting;

c. Remove the Electronic Monitoring Devices within two business days.

6. The Division shall ensure that Members, living in a group home or nursing supported group home, are informed that a Qualified Vendor may allow the Responsible Persons to share in the costs of the installation, oversight, and monitoring of Electronic Monitoring Devices maintained by the Qualified Vendor when the Responsible Person agrees to the arrangement.

B. RESPONSIBLE PERSON INSTALLATION

1. The Division shall ensure Qualified Vendors permit installation of Electronic Monitoring Devices, at the expense of the Responsible Person, in Common Areas of a group home, nursing supported group home, or a vehicle used for transportation after all of the Responsible Persons consent to the use of Electronic Monitoring Devices.

2. The Division shall not permit Qualified Vendors to:

   a. Turn off or on the Electronic Monitoring Device;

   b. Cover up or in any way obscure the ability of the Electronic Monitoring Device to have full view of the area chosen by the Responsible Person;

c. Move the Electronic Monitoring Device;

d. In any other way assist or hamper the operation of and use of the Electronic Monitoring Device.

3. The Division shall ensure the Qualified Vendor takes action when a Responsible Person notifies the Division or the Qualified Vendor that they are no longer in agreement with the use of Electronic Monitoring Devices by requiring the Qualified Vendor to:

a. Immediately Stop using the Electronic Monitoring Devices;

b. Notify all Responsible Persons and the Division in writing of the discontinuation of Electronic Monitoring in the setting;

c. Ensure the Responsible Person removes the Electronic Monitoring Devices within two business days, and

d. Make any necessary repairs, at the time of removal, caused by the installation and removal of the Electronic Monitoring Devices.

C. ELECTRONIC MONITORING DEVICES IN PRIVATE SPACES INSTALLED BY THE RESPONSIBLE PERSONS

1. The Division shall ensure Electronic Monitoring Devices installed by the Responsible Person are only installed in the Member's private spaces.
2. The Division shall ensure Qualified Vendors do not prohibit the Responsible Person from installing Electronic Monitoring Devices in a Member's private bedroom, toileting area, and bathing area in a group home or nursing supported group home.
3. The Division shall not be responsible or make a Qualified Vendor be responsible to monitor the data collected from the Electronic Monitoring Devices including when the Responsible Person shares the data from the Electronic Monitoring Devices access with a third party..
4. The Division shall ensure the Qualified Vendor follows HIPAA as outlined in 45 CFR Part 164 and other compliance requirements when the Responsible Person shares the data from the Electronic Monitoring Devices with the Qualified Vendor.
5. The Division shall ensure the Qualified Vendor takes action when a Member moves out of the group home or nursing supported group home by requiring the Qualified Vendor to:

a. Ensure the Responsible Person removes the Electronic Monitoring Devices from the Member's private spaces within two business days, and

b. Makes any necessary repairs, at the time of removal, caused by the installation and removal of the Electronic Monitoring Devices.

4001 THIRD PARTY LIABILITY

REVISION DATE: 4/24/2019, 9/1/2014
EFFECTIVE DATE: January 1, 1996

Third party liability (TPL) is any funding source other than the Division of Developmental Disabilities (the Division). It includes medical insurance, for example, Medicare, CHAMPUS, TriCARE, or Blue Cross/Blue Shield. It also includes any benefits or settlements a person has as the result of an accident. It may also include eligibility for other programs such as Children's Rehabilitative Services (CRS), Arizona Health Care Cost Containment System (AHCCCS), or county funded services.

Policy

The Division is required to bill any third party for all covered services for all individuals eligible for services through the Division. A member/responsible person is required to provide third party insurance information when requested.

Retroactive Recoveries Involving Commercial Insurance Payor Sources

For two years from the date of service, the Division engages in retroactive third-party recovery efforts for claims paid to determine if there are commercial insurance payor sources that were not known at the time of payment.

If a commercial insurance payor source is identified, the Division seeks recovery from the commercial insurance. The Division is prohibited from recouping related payments from providers, requiring providers to act, or requiring the involvement of providers in any way, unless the provider was paid in full from both the Division and the commercial insurance.

Other Third-Party Liability Recoveries

A. The Division will identify the existence of potentially liable parties using a variety of methods, including referrals, and data mining. The Division does not pursue recovery in the following circumstances, unless the case has been referred to the Division by AHCCCS or AHCCCS' authorized representative:

- Motor Vehicle Cases
- Other Casualty Cases
- Tortfeasors
- Restitution Recoveries
- Worker's Compensation Cases.

B. Upon identification of a potentially liable third party for any of the above situations, the Division reports the potentially liable third party to AHCCCS' TPL Contractor for determination of a mass tort, total plan case, or joint case within 10 business days.

The Division may refer mass tort or total plan cases to the Division's authorized contractor. The Division will cooperate with AHCCCS' authorized representative in all collection efforts.

Total Plan Cases

A. In total plan cases, the Division performs all research, investigation, the mandatory filing of initial liens on cases that exceed $250, lien amendments, lien releases, and payment of other related costs in accordance with A.R.S. §36-2915 and A.R.S. §36-2916 for cases pursued by the Division. The Division may retain up to 100% of its recovery collections if all of the following conditions exist:

1. Total collections received do not exceed the total amount of the Division's financial liability for the member

2. There are no payments made by AHCCCS related to Fee-For-Service, reinsurance or administrative costs (e.g. lien filing).

3. Such recovery is not prohibited by state or federal law.

B. Prior to negotiating a settlement on a total plan case, the Division notifies AHCCCS or AHCCCS' authorized TPL Contractor to ensure that there is no reinsurance or Fee-For-Service payment that has been made by AHCCCS. The Division must report settlement information to AHCCCS by the 10th day of each month on an AHCCCS-approved monthly file.

Joint and Mass Tort Cases

AHCCCS' authorized representative performs all research, investigation, and payment of lien-related costs, subsequent to the referral of any and all relevant case information to AHCCCS' authorized representative by the Division.

In joint and mass tort cases, AHCCCS' authorized representative is also negotiating and acting in the best interest of all parties to obtain a reasonable settlement and may compromise a settlement in order to maximize overall reimbursement, net of legal and other costs. The Division will be responsible for their prorated share of the contingency fee. The Division's share of the contingency fee will be deducted from the settlement proceeds prior to AHCCCS remitting the settlement to the Division.

Other Reporting Requirements

A. All TPL reporting requirements are subject to validation through periodic audits and/or Operational Reviews that may include the Division's submission of an electronic extract of the casualty cases, including open and closed cases. Data elements may include but are not limited to:

- The member's first and last name
- AHCCCS ID
- Date of incident
- Claimed amount
- Paid/recovered amount
- Case status.

4002 CLIENT BILLING

REVISION DATE: 5/10/2023, 11/17/2021, 11/20/2019, 3/20/2019, 9/1/2014
EFFECTIVE DATE: January 1, 1996
REFERENCES: 20 C.F.R. § 416.1205; A.R.S. § 36-551; A.A.C. R6-6-1801; A.A.C. R6-6-2201; A.A.C. Chapter 6, Article 12, Cost of Care Portion

PURPOSE

The purpose of this policy is to outline the requirements for Members to financially contribute to the cost of services provided by the Division.

DEFINITIONS

1. "Administrative Review" means an informal review of a decision made by the Division.
2. "Cost of Care Portion" means the percentage of the cost of a Member's care that a Responsible Person or Representative Payee may be required to pay to the Division to offset the cost of the Member's care. The percentage of the cost of care is calculated based on the Member's income and based on 200% of the federal poverty guidelines.
3. "Home and Community Based Services" or "HCBS" means one or more of the following services provided to clients: attendant care, day treatment and training for children or adults, habilitation, home health

aide, home health nurse, hospice care, housekeeping-chore or homemaker, non-emergency transportation, occupational therapy, personal care, physical therapy, respiratory therapy, respite services, speech therapy, supported employment, and other comparable services as approved by the AHCCCS Director.

4. "Maximum Allowable Limit" means the highest amount of an individual's income or assets permitted by the Social Security Administration for Supplemental Security Income eligibility. This amount is also used by the Division to determine the Member's Cost of Care Portion.
5. "Member" means the same as "Client" as prescribed in A.R.S. § 36-551.
6. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a client or an applicant for whom no guardian has been appointed.

7. "Representative Payee" means an individual or organization appointed by the Social Security Administration, Railroad Retirement, Veteran's Benefits, and Civil Service to receive and manage benefits.
8. "Residential Services" or "Room and Board" means a living arrangement operated by the Division or by a Service Provider, in which Members live with varied degrees of appropriate supervision.
9. "Special Needs Trust" means a legal arrangement that enables a person with a disability to hold assets and maintain his or her eligibility for public assistance benefits.

POLICY

A. FINANCIAL CONTRIBUTION

1. The Division shall require Members receiving services from the Division to make a financial contribution to the cost of their care based on their eligibility:
    a. ALTCS Members shall only pay for the Cost of Care Portion for Residential Services.
    b. Non-ALTCS Members shall pay for the Cost of Care Portion for all program services including Residential Services.

2. The Division shall bill Members receiving state-funded services who have a trust, annuity, estate, or assets exceeding the Maximum Allowable Limit of $2,000, including Special Needs Trusts set up outside the State of Arizona, to their Cost of Care Portion for all programs and services provided by the Division.
3. The Division shall not bill Members receiving state-funded services who have a Special Needs Trust set up within the State of Arizona.

B. FINANCIAL CONTRIBUTIONS AND BILLING FOR RESIDENTIAL SERVICES (COST OF CARE PORTION)

1. The Division shall calculate the Member's Cost of Care Portion based on the amount of income or benefits the Member receives, including Social Security, Veteran's, and Railroad Retirement benefits.
2. The Division shall use the Federal Poverty Guidelines on the Health and Human Services Website to calculate a Member's Cost of Care.

3. The Division shall base the Cost of Care Portion for a Member receiving Residential Services on the total amount of income and monthly benefits the Member receives as follows:
    a. The required financial contribution is a maximum of 70% of the Member’s income and monthly benefits the Member receives, but must not exceed the actual cost of Residential Services.
    b. The Division shall, when the Member's personal savings exceeds the Maximum Allowable Limit of $2000 of the monthly federal benefits, calculate the billing amount as follows:
        i. For the ALTCS Member, the actual cost of Residential Services until the Member’s personal savings drops below the Maximum Allowable Limit of $2,000.
        ii. For the non-ALTCS Member, the actual cost of all services, including Residential Services, until the Member’s personal savings drops below the Maximum Allowable Limit of $2,000.

4. The Office of Accounts Receivable and Collections shall notify the Responsible Person or Representative Payee of the amount the Member must pay each month for Residential Services.
5. The Responsible Person or Representative Payee may contact the Division to request one or more of the following based on financial hardship of the Member:
    a. A financial review;
    b. An Administrative Review; or
    c. A reduction in the amount billed.
6. The Division shall require the Responsible Person or Representative Payee to report any lump sum of past due benefit payments from the benefit source to the Division and shall bill against the lump sum amount.

C. FINANCIAL REVIEW

1. The Responsible Person or Representative Payee may request a financial review of the Member's Cost of Care Portion payment amount, by requesting in writing any of the following:
    a. An informal business review.

i. The Division's Business office shall conduct an informal business review when requested by the Responsible Person or Representative Payeeat any time.

ii. The Responsible Person or Representative Payee shall submit the request via email to dddrevenuedesk@azdes.gov and include recent tax forms.

iii. The Division shall respond to the Responsible Person or Representative Payee within 10 business days from receipt of the request.

b. An Administrative Review as prescribed by A.A.C. R6-6-1801 et seq with appeal rights as prescribed by A.A.C. R6-6-2201.

i. The Responsible Person or Representative Payee, shall, at any time within 30 days of the date payment for the Cost of Care Portion is due, submit a request to the Division's Office of Administrative Review at dddofficeofcompliance@azdes.gov.

2. The Responsible Person or Representative Payee may request an Administrative Review without requesting an informal business review.

D. HARDSHIP REDUCTION REQUEST

1. The Responsible Person or Representative Payee may request a hardship reduction of the Cost of Care Portion by submitting a DDD-1532A Hardship Reduction Request form with documentation of expenses to the Division at DDDCORRBHSBilling@azdes.gov.
2. The Division shall review hardship reduction requests for any of the following expenses:
    a. Medicare Part D prescription drug co-payments, when submitted with proof of out-of-pocket expenses.
    b. Amounts ordered by a court for restitution, child or spousal support, when documentation of the order is submitted.
    c. Amounts paid for services provided by and items prescribed by a licensed healthcare professional, when documentation of the expenses supporting the request

and denial(s) from third party payers, or other potential sources of assistance are submitted.

d. Expenses for an extraordinary circumstance that affects the Member's health and safety when documentation of the amount of the expense, and the effect on the Member's health and safety if the expense is not incurred is submitted.

e. Cost of a prepaid burial or cremation plan when supported by documentation of the cost and the length of the payment period.

3. The Division shall review hardship reduction requests that include current documentation of the expenses supporting the request and shall issue a written determination within 30 business days that:

a. Approves a temporary reduction of the Cost of Care Portion billing amount for up to 12 months, or

b. Denies the request.

4. The Responsible Person or Representative Payee may, if they disagree with the Division's hardship reduction request

determination, submit a request for an Administrative Review no later than 30 days following the date of the notice as per A.A.C. R6-6-2201.

5. Upon request by the Division, the Responsible Person or Representative Payee shall provide verification that the expense for which a hardship reduction request was granted has been paid.
6. The Responsible Person or Representative Payee may submit a hardship reduction request at any time as long as the incurred cost is not older than six months.

4003 ADMINISTRATIVE REVIEW / APPEAL AND HEARING RIGHTS

REVISION DATE: 9/1/2014
EFFECTIVE DATE: January 1, 1996
REFERENCES: A.A.C. 6-6-22 (R6-6-2201 et seq.).

A. The Division will issue a written decision within thirty (30) calendar days from receipt of the request for Administrative Review. Appeal of this decision is available as prescribed by A.A.C. Title 6, Chapter 6, Article 22 (R6-6-2201 et seq.).

B. If Administrative review is based on notice of an increase in the monthly billing amount, the billing amount shall not increase until the Department has issued its final decision.

C. If the Administrative Review decision or an appeal of an Administrative Review decision results in affirmation of the original order in whole or in part, the monthly billing liability shall be retroactively effective from the date of the original notice of the billing amount. The person liable for the cost of care shall pay all amounts as stated in the original notice, as adjusted (if any adjustment in the amount is made by Administrative Review or the appeal). The Department's final decision on the billing amount will be retroactively effective beginning with the month in which the request for Administrative Review was made. Failure to pay the amounts owed may result in termination of services.

4004 OVERVIEW

REVISION DATE: 8/30/2013
EFFECTIVE DATE: January 15, 1996

This chapter explains Department of Economic Security (DES) policies for safeguarding, using, and investing funds for members in the Division of Developmental Disabilities (DDD).

4004-A MEMBER FUNDS - DEFINITIONS

REVISION DATE: 09/30/2020, 8/30/2013

EFFECTIVE DATE: January 15, 1996

REFERENCES: A.R.S. § 36-557(O), A.A.C. R6-6-1204, A.R.S. §36-2901, Supplemental Security Income (SSI), Title XVI, A.A.C. R6-6-1204.

A. Member Funds System – A system used by the Division of Developmental Disabilities (the Division), to maintain and track member funds.

B. Fiduciary Capacity – The capacity in which a person will properly and faithfully account for all member funds received by him/her. A person who is trusted to handle member funds is acting in a fiduciary capacity. Fiduciaries may include any employee of the State of Arizona or a private provider under contract.

C. Individual Service Plan (ISP) Spending Plan - The Planning Team is required to complete the following form, *ISP Spending Plan (DD-221-FF),* to set the expectation for how the member's money will be spent in the upcoming year.

The Division Support Coordinator and the Division Member Funds Unit are responsible for managing the funds to maintain Arizona Long Term Care Services (ALTCS) and SSI program eligibility. All members for whom the Division is the Representative Payee, and all members living in licensed residential settings, are required to complete a *DD-221-FF* form each year.

D. Legal Guardian or Conservator – An individual appointed by the court of law responsible for a minor or an incompetent adult. The Social Security Administration (SSA) does not automatically select a legal guardian or conservator as payee for a beneficiary. Instead, SSA will make independent judgments in every case to determine who will best serve the beneficiary as payee. This may or may not be a legal guardian/conservator.

E. Member Funds - Funds entrusted to an individual or agency for safeguarding and investment. The requirements for this are found in the instrument establishing such funds, and by Division Policy and Internal Instruction Manuals. The source of funds may include any of the following:

- Cash
- Checks
- Money orders
- Petty cash funds
- Change funds
- Bank accounts
- Savings accounts and investments

- ACH/Electronic

F. Planning Document – The general term for the Individual Support Plan (ISP), Individualized Family Services Plan, or Person-Centered Plan. The Planning Document includes an ISP - Spending Plan, as appropriate.

G. Personal Spending Money – The discretionary funds and allowances provided to members.

H. Provider - A provider is any person or entity that contracts with the Division for the provision of covered services to members according to the provisions A.R.S. §36-2901 or any subcontractor of a provider delivering services pursuant to A.R.S. §36-2901. Qualified Vendors are Providers.

I. Railroad Retirement Annuities and Pensions – The comprehensive benefit program created in the 1930s, for railroad employees who retired and included their families and survivors. For more information on this benefit, contact the Railroad Retirement Board and request form: *IB-2*.

J. Representative Payee - Individual or organization appointed by Social Security to receive and manage the social security or SSI benefits of another person. A representative payee must use the funds they manage for the exclusive use and benefit and in the member's best interest.

Requirements for a Division Representative Payee:

1. When no one is willing or able to perform the Representative Payee duties, or a member cannot afford the monthly fee to pay for this service, the Division may request that the Social Security Administration appoint them to become the representative for the member. When the Division is the Representative Payee, the Support Coordinator and Member Funds are responsible for managing member funds.

2. Pursuant to Arizona Revised Statutes (A.R.S.) § 36-557(O), a service provider may serve as a representative payee if requested by the member or the member's guardian and approved by the payer.

K. Residential Services – the services that include Room and Board, and daily Habilitation may be provided in one of the following settings: Group Home; Developmental Home; Nursing Supported Group Home.

Residential Room and Board is not a reimbursable service under ALTCS; therefore, it is the only residential service that is billable under the Arizona Administrative Code (A.A.C.) R6-6-1204.

L. Social Security Benefits - Social Security (SSA, Title II) is a social insurance program that protects workers and their families (dependents or survivors) from loss of earnings because of retirement, death, or disability of the wage earner. A worker's spouse or children may become eligible for Social Security upon the worker's attainment of a certain retirement age, disability or death, if the worker becomes disabled or dies. The amount someone receives depends upon the age of the wage earner, the length of time worked

and the amount they earned from which Federal Insurance Contributions Act (FICA) taxes were withheld.

For more information regarding Social Security, visit the Social Security website at www.ssa.gov.

Supplemental Security Income (SSI), Title XVI, is a federal income maintenance program for the aged, blind, and disabled persons with few or no resources. The person must be blind, or disabled, or 65 or older, have limited income, and cannot have over $2,000 in allowable resources.

M. Veterans Benefits – Benefits payable to surviving spouses and dependents of military personnel who die while in active military service and to survivors of veterans who died after active service.

4004-B MEMBER FUNDS SYSTEM

REVISION DATE: 09/30/2020, 8/30/2013
EFFECTIVE DATE: January 15, 1996
REFERENCES: DDD Operations Policy, 1005-D Representative Payee

When the Division of Developmental Disabilities (the Division) is approved by the Social Security Administration (SSA) to become the Representative Payee for a member (reference *DDD Operations Policy 1005-D Representative Payee*), Member Funds will establish a collective saving and checking account.

The collective saving and checking accounts and are comprised of:

A. Social Security Benefits (RSDI or SSA)

B. Social Security Income (SSI)

C. Wages earned by the member

D. Railroad Retirement (RR)

E. Veterans Benefits (VA)

F. Revenue from personal trust funds and estates

G. Monetary gifts

H. Earned interest

I. Other Sources.

J. Stipends

K. Civil Service

The Division will serve as the Representative Payee of last resort, when a member has no one else willing, or able, to manage his or her funds and cannot afford a Fee for Service Representative Payee.

The Division will not serve as Representative Payee when any outside bank, credit union, and other accounts have been established or opened on member's behalf. Separate accounts make it impossible to assure that the member's financial eligibility level for benefits or Arizona Long Term Care System Service (ALTCS) is not exceeded, including Achieving a Better Life Experience (ABLE) Accounts.

A member who can establish an ABLE account or other account has identified a "party" willing to manage his or her funds and can afford a Fee for Service Payee. Upon request to transfer monies from a Member Fund account into an ABLE account, the member's Support Coordinator, the member, and Social Security will be given a three – month notice of intent for the Division to discontinue as the Representative Payee. Failure to identify a new Representative Payee by the end of the 90-day notice period may result in Social Security suspending the member's benefits.

Division employees are prohibited from offering assistance or help an individual complete income tax forms unless they are the legal guardians for the members.

A. For the Division to become a Representative Payee for a member, the Support Coordinator must submit one of the following forms via email to the DDD DS Client Fund (DDDDSClientFund@azdes.gov): The DS stands for District South, DS is the only district that has a client funds unit we are statewide unit

1. For children, complete this form: *Request for DES/DDD to Become Representative Payee-Child (DDD-1831A).*

2. For adults, complete this form *Request for DDD to Become the Representative Payee (DDD-1822A*).

4004-D RESPONSIBILITIES

REVISION DATE: 09/30/2020, 8/30/2013
EFFECTIVE DATE: January 15, 1996

A. Support Coordination District Program Administrators and Managers are ultimately responsible for the proper use of the member funds.

B. The Division of Developmental Disabilities Business Operations and Client Funds will:

1. Ensure training, assistance, and technical guidance is provided to all employees responsible for member funds.

2. Exercise good judgment and due diligence in the administration of member funds.

3. Audit and provide administrative assistance to review activity related to member funds.

C. Confidentiality will be maintained in accordance with *Chapter 6001-A Confidentiality* of the Operations Policy Manual.

D. No Division employee shall offer assistance or in any way help an individual complete income tax forms, unless they are the legal guardians for the member.

4004-E SAFEGUARDING MEMBER FUNDS

REVISION DATE: 09/30/2020, 8/30/2013
EFFECTIVE DATE: January 15, 1996

Purpose

This policy establishes the Division of Development Disabilities (the Division, DDD) responsibilities as the Representative Payee Management of Accounts.

Separate Accounts

A. A separate accounting must be maintained for each member. The accounting must show all funds received or disbursed, and remaining balances.

B. Transactions posted to a member's Client Funds account must be traceable to an original source document, such as a *Request for Client Funds (DDD-1833A)*, a receipt, invoice, or bill, etc.

C. Electronic transfers to withdraw funds from member accounts are not allowed. An electronic transfers to deposit funds from the member's earned income source(s) must have prior authorization from the Client Fund Unit

Fund Transactions

A. All funds received must be documented through the Client Fund System.

B. Checks and other negotiable instruments received must be logged on a daily basis and endorsed with the restrictive statement, as follows:

- AZ DEPARTMENT OF ECONOMIC SECURITY, DIVISION OF DEVELOPMENTAL DISABILITIES
- ACCOUNT NUMBER
- FOR DEPOSIT ONLY

C. Funds received must be deposited in the designated bank account in a timely manner. Appropriate safeguards must be present while funds are transported between the Division's facility and the bank.

D. The same person must not handle a transaction from beginning to end. If personnel and other resources permit, deposits, cash/check logging, client funds duties, and administrative functions will be separated.

E. The Client Fund System Manager acts in a fiduciary capacity, which includes responsibility to account for all funds in the Client Fund System.

Insurance purchased for members in the Client Fund System such as life or burial insurance must not list as beneficiary any of the following: any of the following as a beneficiary:

1. The Division
2. An employee of the Division
3. A paid contracted provider
4. An employee of a provider.

However, a family member who is also an employee of the Division or a provider may be listed as a beneficiary. Additionally:

- Any policy purchased must be of no cash value.
- Any policy purchased must show that the member is the sole owner of the policy.

F. All transactions and record keeping must be done confidentially. Only those who have been approved by the Division are allowed to review and to work with member records.

G. The Client Funds Unit will only release information directly to DDD Support Coordination, Social Security, Revenue Desk, ALTCS, and Office of Inspector General.

4004-F MEMBER FUNDS SECURITY

REVISION DATE: 8/30/2013
EFFECTIVE DATE: January 15, 1996

Member funds will be kept in a secure safe or locked location until deposited. When the Fund Manager leaves the work area, the safe or other location shall be locked.

Funds shall not be stored in desks, unlocked files, purses, or other places that are not secure.

Computer access to member information shall be restricted by secure passwords. No one other than the fund manager and/or designee shall have knowledge of the safe key/combination or the password to secure files.

The District Business Operations Manager or designee shall reconcile member accounts monthly. The administrator of business operations must approve any exceptions.

4004-G DISBURSING MEMBER FUNDS

REVISION DATE: 09/30/2020, 8/30/2013
EFFECTIVE DATE: January 15, 1996

A. All disbursements will be by pre-numbered checks.

B. All disbursements, except by authority of the Support Coordination District Program Manager/Lieutenant Program Manager (DPM/LPM), must be authorized in the Individual Spending Plan.

C. All disbursements require the following:

1. Disbursements shall be documented by written requests for funds.

2. Any request over $500 must be approved by the Support Coordination Supervisor or a designee of equal to or higher ranking.

3. Documentation of the amount of each ongoing deduction for any billings including but not limited to residential.

4. Excess funds are not to be used for non-approved purchases. If disbursed funds exceed the cost of the approved purchase, these excess funds shall be returned to the member's account with a reconciliation statement accounting for purchases.

   The person processing an expenditure cannot be the payee of the check. Nor will the person maintaining accounting records or preparing checks also sign the checks.

D. All pre-numbered checks will be accounted for monthly in the following categories to aid in the bank reconciliation process:

1. Paid by bank (cancelled)

2. Void

3. Outstanding

4. Suspense File: Cash or checks in the hands of third parties for the purchase of goods and services for members will be signed for and a suspense file established pending paid receipts. Suspense files will be cleared within thirty days after full payment for goods and services.

E. It is the policy of the Social Security Administration that individuals shall be provided at least $30 monthly for their personal needs.

1. Member personal spending paid directly to the member does not require receipts.

2. However, any personal spending money not paid directly to the member requires supporting documentation verifying the use of these funds. Those entities required to account for members funds will maintain a log of all

expenditures for each member.

F. All non-personal spending money disbursed from the member's account for any good(s) or service(s) will be verified within 30 days, by an itemized receipt. The receipt must show:

1. The merchant name(s)

2. Receipt Date

3. Receipt amount

4. A description of the item(s) purchased, or services delivered.

G. Until the properly supported receipt form is submitted, no further requests for that vendor or individual will be processed unless specifically approved by the Support Coordination District Program Administrator or Manager or designee.

H. It is permissible for a request to designate that several disbursements be made in the name of a member over a period. Examples include monthly personal allowances or rent subsidy. Such requests remain in effect until the Support Coordinator submits paperwork to change or cancel the request.

I. A disbursement request charging a member's account will not be honored unless that account has sufficient funds to pay the entire amount requested. The requesting party will be so notified, and a modified request can be submitted.

J. All requests will be processed by the payment deadline set by the district business office or designated member fund system personnel.

4004 – H MEMBER FUNDS – PROVIDER RESPONSIBILITIES

REVISION DATE: 12/16/2020, 09/30/2020, 8/30/2013
EFFECTIVE DATE: January 15, 1996
REFERENCES: Operations Policy Manual, 4004-I, Ledgers Maintained by Providers

Provider Responsibility for Member Funds

Qualified Vendor, Independent Provider, or Individual/Guardian must:

A. Provide services and care for a member, may request to receive and maintain funds from the Division of Developmental Disabilities (DDD, the Division) on behalf of the member, for personal spending and other uses. These funds must be recorded in a ledger (Refer to the *Operations Policy Manual, Chapter 4004-I Ledgers Maintained by Providers)* maintained in the member's residence or at the provider or agency's business office.

1. When there is an opportunity to request a one-time allocation of funds for the member to be used for a specific purchase or activity, this funding is in addition to the member's ongoing monthly spending funds and must be requested *from DDD Support Coordinator* and pre-approved.

2. For a reimbursement submission, use the *Expenditure Reconciliation (DDD-1832A)* form for all special funding requests for a one-time purchase or expense.

B. Provide a record of all member-designated funds received and proof of how they were spent to be fully approved and advanced by the Division.

C. Provide services and care for a member may request to receive and maintain funds from the Division of Developmental Disabilities (DDD, the Division), on behalf of the member, for personal spending and other uses. These funds must be recorded in a ledger (Refer to *Operations Policy Manual, Chapter 4004-I*) maintained in the member's residence or at the provider or agency's business office.

When there is an opportunity to request a one-time allocation of funds for the member to be used for a specific purchase or activity, this funding is in addition to the member's ongoing monthly spending funds and must be requested from the Division and pre-approved. A special funding request for a one-time purchase or expense must be submitted for reimbursement using the *Expenditure Reconciliation (DDD-1832A)* form.

D. Provide a record of all member-designated funds received and proof of how they were spent, to be fully approved and advanced by the Division.

Proper Use of Member Funds

A. Member special funds requests are for **member use only unless** written approval has been granted by the Social Security Administration (SSA). The use of member funds to pay the expenses of another person(s) to assist in a specific task, i.e., accompany the member to a destination for an activity where they will require care

and supervision but will be able to participate. If SSA has given their approval, it will be noted on the *Expenditure Reconciliation (DDD-1832A)* form.

B. Monthly ongoing spending funds do NOT have SSA approval and should never be used to pay for another person's expenses.

Valid Receipts

A. A legible receipt of the expense is required. The receipt must not be altered in any way; all the information on the receipt must be printed and legible.

B. Detailed notes of the expense are required, including merchant name, date, total expense, and a description of the items purchased or a reason for the expense.

Limitations

The following Member special fund disbursements are prohibited from the following:

A. To loan, borrow, give, or provide to any person, for any reason, other than the reason described in the original request, this includes to other members, provider staff, relatives, or friends.

B. Purchase anything that is ordinarily required to be supplied by the Qualified Vendor, Independent Provider, Individual/Guardian, or the Division.

C. For unauthorized purchases, the Division requires the Support Coordinator to provide written approval for amendments to the currently authorized expenditure.

D. To exceed the amount advanced of funds. The Division requires the Support Coordinator to provide written approval for any amendment to the currently authorized expenditure.

The Qualified Vendor, Independent Provider, or Individual/Guardian are prohibited from the following:

A. Establishing, assist in the application process, be included in the application process, or otherwise obtaining a credit card in the member's name.

B. Establishing, assist in the application process, be included in the application process, or otherwise obtaining a bank account or joint bank account for a member

- Exception: The following is required when opening a bank account as a habilitation goal for the member to become his or her own payee:
    - An outline of the goal, with a timeline in the member's planning document.
    - A review of monthly bank statements submitted to DES/DDD Member Funds Systems office.

- Close supervision of the member's bank account and funds in the DES/DDD account to ensure that the funds in, if combined, do not create an overpayment of resources.

C. Allows the member any direct access to the special funds received and maintained on behalf of the member.

D. Altered receipts will not be accepted, and the amount of the altered receipt will be refunded back to the member's DES/DDD member account. The provider will not be reimbursed for the expense.

Reporting the Use of All Funds Advanced by the Division

Upon receiving a special funds disbursement, advanced by the Division, the Qualified Vendor, Independent Provider, or Individual/Guardian must submit the required documentation to the Member Funds Systems office, within 30 days from the issue date of the check, as follows:

A. Purchases that were made on-line will contain the following:

1. The confirmation order shows merchant names, items purchased, item amount, date ordered, and total amount paid.

2. The confirmation form is showing the delivered date.

   Note: If a gift card was purchased with a special fund's disbursement, and the gift card was used to purchase items on-line, also provide a legible receipt for the gift card's purchase.

3. *Expenditure Reconciliation (DDD 1832A)* form

4. All excess funds must be returned to member funds in the form of a cashier's check, money order, or Qualified Vendor business check and submitted to the DES/DDD Member Funds Systems office.

B. Purchases that were not made on-line will contain the following:

1. Legible receipts that show merchant name, items purchased, item amount, date ordered, and total amount paid.

   Note: If a gift card was purchased with a special fund's disbursement, also provide the receipt for the purchase of the gift card.

2. *Expenditure Reconciliation (DDD 1832A)* form.

3. All excess funds must be returned to member funds in the form of a cashier's check, money order, or Qualified Vendor business check and submitted to the DES/DDD Member Funds Systems office.

Reimbursement for Expenditures in Excess of Advanced Funds

To request reimbursement for expenditures not covered by the original advanced funds, submit the following documentation to the Member Funds Systems office:

A. Purchases that were made on-line will contain the following:

1. The confirmation page or receipt of the order showing merchant name, items purchased, item amount, date ordered, and total amount paid.

2. The confirmation page is showing the delivered date.

   Note: If a gift card was used to purchase items on-line, also provide a legible receipt for the purchase of the gift card.

3. *Expenditure Reconciliation (DDD 1832A)* form

4. Written approval from the Support Coordinator.

   Note: Member funds are only used for authorized expenditures. The Division requires the Division Support Coordinator to provide written approval for any amendment to the currently authorized expenditure.

B. Purchases that were not made on-line will contain the following:

1. Legible receipts that show merchant name, items purchased, item amount, date purchased, and total amount paid

   Note: If a gift card was purchased with the funds, also provide original receipts for the purchase of the gift card.

2. *Expenditure Reconciliation (DDD 1832A* form).

3. Written approval from the Support Coordinator.

   Note: Member funds are only used for authorized expenditures. The Division requires the Division Support Coordinator to provide written approval for any amendment to the currently authorized expenditure.

Gift Card Purchases

A. The purchase of a gift card requires the same accounting practices and oversight as a cash purchase. Original receipts for the purchase of the gift card and detailed receipts showing the use of the gift card are required. The Individual or Qualified Vendor must submit the required documentation to the Member Funds Systems office within 30 days from the date on which the Division issued the check, per the reporting requirement.

   A gift card has been purchased for a family/friend, only the original receipt for the purchase of the gift card is required.

B. The purchase of a gift card for use by the member requires the same accounting practices and oversight as a cash purchase. The Qualified Vendor, Independent Provider, or Individual/Guardian must submit the required documentation to the Member Funds Systems office within 30 days from the issue date of the check, per the reporting requirement. If the gift card is not used within the 30-day timeframe, then the gift card should be returned to the Division and the funds refunded to the member's account. A new gift card can be requested and used at a later date, within a new 30-day timeframe.

C. If a gift card has been purchased for a family member or friend, only the original receipt for the purchase of the gift card is required to be reported to the Division. The family member or friend is not required to use the gift card within a specific timeframe and is not required to produce a receipt to verify how they spent the gift card.

4004-I LEDGERS MAINTAINED BY PROVIDERS

REVISION DATE: 2/24/2021, 12/2/2020, 8/30/2013

EFFECTIVE DATE: January 15, 1996

REFERENCES: A.R.S. § 41-1345, SSA Guide for Organizational Representative Payees, Publication No. 17-013

Purpose

The purpose of this policy is to establish the requirements for maintaining ledgers of funds for Division of Developmental Disabilities (the Division) members.

A Qualified Vendor, Independent Provider, or Individual/Guardian who receives funds from the Division of Developmental Disabilities (the Division), family, employment, or other sources, on behalf of the member, is required to open and maintain a separate ledger for each member receiving these funds. The ledger is a financial record, composed of a separate sub-ledger recording all the transactions with a daily balance. The monthly ending balance must not exceed $200.00 for each member. The Qualified Vendor, Independent Provider, or Individual/Guardian is required to return funds in excess of $200.00 to the DES/DDD Member Funds Systems office for depositing back into the member's account.

The Division recommends using the following form – *Member Funds Monthly Ledger (DDD-2036A),* refer to the *Documents Center* in the Division's intranet.

Ledgers

A. The Qualified Vendor, Independent Provider, or Individual/Guardian must account for **all** funds received and spent in the ledger. The format of the ledger must include:

1. The member's full name
2. The reporting month and year
3. The name of the Qualified Vendor, Independent Provider, or Individual/Guardian submitting the ledger.
4. The beginning or rolled over balance from the previous month; (a "running All balance").
5. The merchants name
6. All funds received: Source(s) of the fund(s) and the date(s) received
7. Expenditures: Memos on what was purchased, date(s), and receipt(s).
8. Receipts must be legible and include the merchant's name, date of purchase, the total amount of purchase, and description of items purchased. If receipts are not available, the cost must be identified on the monthly ledger and may be subject to additional scrutiny based on the amount and circumstances.

B. Ledgers should not have negative amounts listed.

C. Ledgers must be maintained for a minimum of six years. The Qualified Vendor, Independent Provider, or Individual/Guardian must:

1. Submit a **monthly ledger,** receipts, and excess funds to the DES/DDD Member Funds Systems office by the 15th of each following month.

   Note: The member's monthly spending funds will be *suspended* if the monthly ledgers, receipts, and excess funds are not submitted by the 15th of each following month. (Refer to Calendar.)

Calendar	
At the end of the month:	Submit the ledger by:
January	February 15th
February	March 15th
March	April 16th
April	May 15th
May	June 15th
June	July 15th
July	August 15th
August	September 15th
September	October 15th
October	November 15th
November	December 15th
December	January 15th

2. Provide the ledger for review at each Planning Meeting or as requested by the Division, the member, or the responsible person.

3. Ensure that the member's monthly spending funds are used to meet acceptable day-to-day personal needs as agreed in the planning documents, including recreation and miscellaneous expenses as required by the Social Security Administration.

4. Ensure that the member's funds are not used to purchase items required to be supplied by the Qualified Vendor, Independent Provider, Individual/Guardian, or the Division.

a. Transportation for daily activities, including but not limited to day treatment, employment preparedness, and training, employment, medical appointments, visits with family and/or friends, and community activities.

Room and Board, including three meals daily and snacks and/or as per service specification, for residential services including group homes and developmental homes.

5. Keep member funds in a secure locked location.

6. Not allow the member to have direct access to funds.

7. Ensure that the monthly ledgers are closed, the receipts and unspent funds are returned, and any required documentation is submitted to the DES/DDD Member Funds Systems office within 15 days from the date a member returns home, is no longer receiving services, or is deceased.

D. The Support Coordinator will adjust the spending plan to ensure that the member funds maintained by the Qualified Vendor, Independent Provider, or Individual/Guardian do not exceed the balances outlined above. Any excess funds must be returned to the Member Funds System for deposit into the member's account.

Missing Funds

A. If any funds are discovered stolen or missing from the member's ledger or personal cash, the Qualified Vendor, Independent Provider, or Individual/Guardian must:

1. Report to the Division:

a. By the close of the next business day following the discovery of the loss or theft.

b. Member funds, balances, and ledgers are subject to audit. Any audit exceptions are the responsibility of the service provider for resolution and/or repayment.

2. Replace the funds within ten (10) working days of the discovery of the theft or missing funds.

B. The Statewide Member Fund Manager and/or District Program Manager will determine whether it is appropriate to refer issues to the Department of Economic Security (DES), Office of Special Investigations (OSI), and the Social Security Administration (SSA).

Missing Ledgers

A. If a ledger is discovered missing, the funds issued for that month including, any rolled over funds recorded from the previous month, must be returned within 15 days of discovery.

4004-J BANK RECONCILIATION

REVISION DATE: 8/30/2013
EFFECTIVE DATE: January 15, 1996

Bank and checkbook balances shall be reconciled monthly. The duties of reconciling the bank and Member Fund System balances and maintaining the accounting records will be separated. Bank, petty cash, and change fund balances shall be reconciled in member accounts monthly.

The Member Funds System Manager or designee shall send Monthly Member Fund reconciliation reports to the Division of Business and Finance, Accounting Office.

Summaries of these reports are to be sent to the Business Operations Administrator.

A report on the number of Title XIX eligible individuals shall be sent monthly to local Arizona Health Care Cost Containment System (AHCCCS) office:

A. Those with balances over $1,500; and,

B. Those with balances over $2,000.

A report including all accounts with balances over $2,000 shall be sent to the District Program Administrator/Manager. This report shall be reviewed by management staff to ensure that District staff are working towards a spend down plan.

4004-K ADMINISTRATION OF MEMBER FUNDS

REVISION DATE: 09/30/2020, 8/30/2013
EFFECTIVE DATE: January 15, 1996
REFERENCES: A.A.C. R6-6-1204; DDD Operations Policy 4004-O

The Division of Developmental Disabilities (The Division, DDD) administers member funds in accordance with the intent of the individual or entity providing the funds.

A. For the economy and efficiency of administration, member funds are pooled into one bank account. Separate records are maintained that identify each member's funds. Separate records are maintained which identify all transactions and balances for each member's individual Member funds account.

B. Funds in the pooled bank account in excess of current requirements must be invested following the provisions of the Division's Policy Manuals.

C. Unless allowed by law, member funds, including interest earnings, are not used to pay the cost of administration, supplies, equipment, or services. However, bank and investment institution service charges for administering pooled checking and investment accounts may be offset against interest earnings.

D. Member funds must not be loaned to other members, state employees, or any other agency or person.

E. Member funds that are advanced by the Division must be reconciled against receipts for all expenditures

F. Member One Time Special Funds that are advanced by the Division must be submitted with original receipts within 30 days from the check's issue date.

G. Any expenditure in excess of the original funds advanced must be evidenced by an original receipt and written prior approval from the DDD Support Coordinator to be eligible for reimbursement.

H. Member funds are only used for authorized expenditures. DDD Support Coordinator written approval is required for any amendment to the currently authorized expenditure.

I. All unspent member funds that have been advanced to a third party for purchases or allowances will be returned to the Client Fund System office, deposited into the bank, and credited to the appropriate member's account.

J. Money is paid out of the Division-administered member accounts only under the supervision of the DDD Support Coordinator. Supervisory approval is required for dollar amounts over $500.00. Client Fund System disbursements require a completed *Request for Funds (DDD-1833A)* submitted to the Member funds Unit

K. The use of a credit card must not be approved.

L. The purchase of gift cards requires the same accounting practices, oversight, and original receipts turned within 30 days of issuance of funds just as if issued by check.

M. Upon Social Security's approval (via a *Social Security Appraisal/Request for Funds (DDD-1823A*)form, member funds may be used to pay for the extraordinary expenses of an escort or attendant when the member is traveling, on vacation, or participating in community activities.

1. These expenses may include the cost of transportation, admission fees, meals, and lodging.

2. Non Covered Expenses are Snacks, alcoholic beverages, and souvenirs, or other personal purchases for the escort or attendant.

Prior to any disbursement of funds, a *Social Security Appraisal/Request for Funds (DDD-1823A)* is completed by the Support Coordinator and submitted to the Client Fund System office for Social Security approval. Upon Social Security's approval (via a *Social Security Appraisal/Request for Funds (DDD-1823A*)) form, member funds may be used to pay for an escort/attendant's extraordinary expenses member is traveling, on vacation, or participating in community activities.

Covered expenses may include

- The cost of transportation, admission fees, meals, and/or lodging
- Tipping is permitted with meals. The tip amount must be included on the receipt and come to no more than 20% of the bill. If the member is splitting the cost of a group meal, then the contribution to the tip should be divided equally among the number of persons sharing the meal. The total tip must be no more than 20% of the bill.
- Non-Covered expenses may include snacks, alcoholic beverages, and souvenirs, or other personal purchases for the escort or attendant.

N. Funds belonging to members who no longer require financial management from the Division must be disposed of as noted in *the Division's Operations Policy 4004-O, Termination of a Member's Account*.

4004 - M CHANGES IN MEMBER STATUS

REVISION DATE: 09/30/2020; 8/30/2013
EFFECTIVE DATE: January 15, 1996

A. If a member, whose funds are managed by the Division of Developmental Disabilities (the Division), experiences any change in status, the Support Coordinator (SC) or the designee notifies Member Funds staff, who reports all changes to Social Security directly.

1. Changes in status include:

a. The member passes away

b. The member moves

c. The member marries

d. The member starts or stops working, even if the earnings are small.

e. A member's condition improves

f. The member starts receiving another government benefit or the amount of that benefit changes.

g. The member plans to leave the United States for 30 days or more

h. The member is imprisoned for a crime that carries a sentence of over one month.

i. The member is committed to an institution by court order for a crime committed because of mental impairment.

j. Custody of a child changes or a child is adopted

k. A child’s parent’s divorce

l. The Representative Payee can no longer serve as the Representative Payee, or; the member no longer needs a Representative Payee.

B. Additional events which must be reported by the SC to the Member Funds Systems Office for Supplemental Security Income (SSI) beneficiaries include:

1. The member moves in to or is released from a hospital, nursing home, or other institution; or is relocated from one location to another.

2. A married member separates from his or her spouse, or they begin living together after a separation.

3. Somebody moves into, or out of, the member's household.

4. The member has any change in income or resources (a child's SSI benefit check may change if there are any changes in the family income or resources).

4004-N INVESTING MEMBER FUNDS

REVISION DATE: 8/30/2013
EFFECTIVE DATE: January 15, 1996

Interest earnings, minus any bank charges on Member funds that are invested in the State Treasurer's Office, will be apportioned to member's accounts quarterly based on account period ending balances.

4004-O TERMINATION OF A MEMBER'S ACCOUNT OR CHANGE IN REPRESENTATIVE PAYEE

REVISION DATE: 09/30/2020, 8/30/2013
EFFECTIVE DATE: January 15, 1996
REFERENCES: A.R.S. §§ 44-312, 44-313, 44-317, 12-881, and 12-887

Member Funds and the Death of a Member

When the Division of Developmental Disabilities (the Division) is notified that a member is deceased:

A. Benefits not payable must be returned to Social Security.

1. Social Security benefits are paid each month, representing payment for the previous month. When a person who receives social security benefits dies, no payment is due for the month of death, even if he or she dies on the last day of the month.

   Example: May 3rd SSA benefits are received April benefits, not May. If the member passes away in April, the benefit for April received in May must be returned to Social Security. The member is not entitled to a payment for the month of death.

2. Supplement Security Income (SSI) benefits are for the month in which they are paid. Therefore, the SSI benefit is paid for the month of death. SSI benefits received for months after the month of death must be returned.

   Example: May 1st SSI benefit is received, and the member died May 25 the SSI is retained. Suppose an SSI payment is received on June 1st that must be returned to Social Security.

B. All outstanding debts will be paid as the fund balance allows, including residential billing in accordance with the applicable rule and law.

C. Burial expenses may be paid as the fund balance allows.

D. Remaining fund balances are returned to the legal representative of a member's estate for disposition under state law.

   When there is no entity to receive money from the member's account, and there is no family, guardian, custodian, executor, or beneficiary, the following Arizona Revised Statutes will apply in the disbursement of the account: A.R.S. §§ 44-312, 44-313, 44-317, 12-881, and 12-887.

Social Security Selected a New Representative Payee

When the designated Representative Payee changes from the Division to another entity, all debts incurred while the Division was the Representative Payee must be paid, and all member funds identified as Social Security Benefits must be returned to the SSA. The

new Representative Payee may then request these funds from the SSA. The funds are not to be transferred directly from the Division to the new Representative Payee.

Inactive Accounts

Accounts determined to be inactive (having no transactions for a year or more) will be terminated after reasonable efforts to dispense the funds have failed. The account will be closed, and funds sent to the Arizona State Revenue after five (5) years, if unclaimed. (Unclaimed Property – Arizona Department of Revenue, Unclaimed Property Unit.)

If no one else is available, the Division may request to become the representative payee. Or, Social Security may request/require the Division to become the representative payee. A Member Fund System account is set up in the local district Business Office.

The Social Security Administration is to be notified of the change of address to the local Business Office for the District.

5000 REINSURANCE POLICY

REVISION DATE: 11/8/2023
EFFECTIVE DATE: 8/11/2021
REFERENCES: 42 U.S.C. § 1396b (i); 42 U.S.C. § 1396d(r)(5); 42 C.F.R. § 441.35; 42 C.F.R. § 433.135 et seq.; A.R.S. § 36-2903; A.R.S. § 8-512; Title XIX/XXI; A.A.C. R9-22-1001; A.A.C. PURPOSE

The purpose of this policy is to outline the requirements the Division must meet to request Reinsurance reimbursement from the Arizona Health Care Cost Containment System (AHCCCS).

DEFINITIONS

1. "Adjudicated Claim" means a claim that has been received and processed by the AdSS which resulted in payment or denial of payment.
2. "Behavioral Health Services" or "BHS" means physician or practitioner services, nursing services, health-related services, or ancillary services provided to an individual to address the individual's behavioral health issue.

3. "Biologic Drugs" means products produced by biotechnology. These drugs are referred to as biologicals, biologic drugs, biological drugs, or biopharmaceuticals.
4. "Case" means a record for a Member that is composed of one or more Adjudicated Encounters.
5. "Case Type" means a description of the type of Reinsurance being paid to the Division based on the Member's medical condition and eligibility. Case Types include, but are not limited to DES, Hemophilia, von Willebrand Disease, Gaucher's Disease, Biologic or high cost specialty drugs, transplants, and High Cost Behavioral Health Services.
6. "Catastrophic Reinsurance" means reimbursement, full or partial, depending on the Case Type, from AHCCCS to the Division for the cost of care associated with certain medical conditions and specific drugs described in the Contract, AMPM, and DDD policy.
7. "Clean Claim Status" or "Clean Encounter" means a claim or Encounter that may be processed in the AHCCCS Prepaid Medical Management Information System (PMMIS) without obtaining additional information from the Contractor of service or from a third party; and has passed all of the Encounter and Reinsurance edits within the 15-month timely

filing deadline. This does not include claims under investigation for fraud or abuse or claims under review for medical necessity.

8. "Coinsurance" means the percentage rate, established each Contract Year by AHCCCS, at which AHCCCS will reimburse the Division for covered services incurred above the Deductible.
9. "Contract" means, for the purposes of this policy, the legal written agreement that the Division has with AHCCCS for providing health care coverage to Members who are eligible for ALTCS. This coverage includes physical health services and Behavioral Health Services.
10. "Contractor" or "Division" for the purposes of this policy, means an organization or entity that has a prepaid capitated Contract with AHCCCS to provide goods and services to Members, either directly or through subcontracts with providers, in conformance with contractual requirements, AHCCCS statutes and rules, and Federal law, and regulations.
11. "Contract Year" means the twelve-month period beginning on October 1st through and including September 30th for Reinsurance. The Contract Year may not correspond with the term of a Contract as specified in Section A of an entity's Contract with AHCCCS.

12. "Deductible" means the annual amount, established each Contract Year by AHCCCS, of Reinsurance covered services that must be paid and encountered by the Division for each individual Member before the Division receives Reinsurance payments from AHCCCS.
13. "DES Case Type" means certain covered inpatient facility services as described in the Contract, AMPM, and this policy that may qualify for Reinsurance reimbursement.
14. "Early and Periodic Screening, Diagnosis, and Treatment" or "EPSDT" means covered services for Members under 21 to correct or ameliorate physical and mental defects, conditions, and illnesses discovered by the screening process when those services fall within one of the 28 optional and mandatory categories of "Medical Assistance" as defined in the Medicaid Act (Federal Law Subsection 42 USC 1396d (a)). Services are covered under EPSDT even when they are not listed as covered services in the AHCCCS State Plan, AHCCCS statutes, rules, or policies as long as the services are medically necessary and cost effective.
15. "Encounter" means a record of health care related service that is a mirror image of a claim and is rendered by a provider or providers

registered with AHCCCS to a Member who is enrolled with the Division on the date of service.

16. "Gaucher's Disease" means an inherited metabolic disorder in which harmful quantities of a fatty substance called glucocerebroside accumulates in the spleen, liver, bone marrow and, in rare cases, the brain.
17. "Hemophilia" means a group of hereditary genetic disorders that impair the body's ability to control blood clotting or coagulation. There are three types of Hemophilia - A, B, and C. The severity of Hemophilia is related to the amount of clotting factor in the blood.
18. "High Cost Behavioral Health" or "BEH" means specialized mental health services for ALTCS Members that were discontinued under Catastrophic Reinsurance, unless the Member was approved prior to October 1, 2007 and was active on September 30, 2007.
19. "Member" means the same as "client" as defined in A.R.S. § 36-551.
20. "Prepaid Medical Management Information System" or "PMMIS" means the AHCCCS mainframe pricing system of record that the Division uses for accessing the Reinsurance System.

21. "Prior Period Coverage" or "PPC" means the period of time prior to the Member's enrollment, during which a Member is eligible for covered services. The timeframe is from the effective date of eligibility to the day a Member is enrolled with the Division.
22. "Prospective Coverage" means the period of time from when the AdSS receives notification the Member has been assigned to their plan and is expected to be capitated for the Member.
23. "Regular Reinsurance" means a partial reimbursement from AHCCCS to the Division for covered inpatient facility services (DES Case Type) as described in the Contract, AMPM, and DDD policy.
24. "Reinsurance" or "RI" means a stop-loss program provided by AHCCCS to the Division for the partial reimbursement of covered medical services incurred for a Member beyond an annual Deductible level.
25. "Reinsurance Payment Cycle" means the monthly updating of Reinsurance files in PMMIS for payment processing starting the first Wednesday of the month from 5:00 p.m. until the following Wednesday morning.
26. "Reinsurance System" means the PMMIS application for accessing Reinsurance Case data.

27. "Skilled Nursing Facility" or "SNF" means a nursing facility for those Members who need nursing care 24 hours a day, but who do not require hospital care under the daily direction of a physician.
28. "Third Party Liability" or "TPL" means the resources available from a person or entity that is, or may be, by agreement, circumstance or otherwise, liable to pay all or part of the medical expenses incurred by a Member eligible for AHCCCS benefits.
29. "Von Willebrand Disease" means an inherited blood disorder characterized by prolonged bleeding time. It is the most common hereditary bleeding disorder in humans.

POLICY

A. GENERAL REINSURANCE REIMBURSEMENT REQUIREMENTS FOR ALL CASE TYPES

1. The Division shall comply with the terms and conditions of the Contract with AHCCCS.
2. The Division shall require the Administrative Services Subcontractors (AdSS) to be responsible for the annual Deductible levels as determined by AHCCCS for covered medical services for each Member for the Contract Year.

3. The Division shall submit Reinsurance reimbursement requests from the AdSS to AHCCCS for Reinsurance covered services incurred for a Member beyond the annual Deductible level.
4. The Division shall require Encounters from the AdSS to meet the following criteria to qualify for Reinsurance reimbursement:
    a. The Encounter is approved and adjudicated within required time frames per the AHCCCS Contract and this policy;
    b. The Encounter associates to a Reinsurance Case;
    c. The Encounter is medically necessary;
    d. The service is non-experimental;
    e. The service is cost effective; and
    f. The service does not exceed an established cost threshold.
5. Upon receiving the Reinsurance funds from AHCCCS, the Division shall reimburse the AdSS the established AdSS Contract Coinsurance rate for Encounters that associate to a Reinsurance Case.
6. The Division shall not reimburse the AdSS for final Reinsurance claims which cross over Contract Years.

7. The Division shall base reimbursement of all covered Reinsurance Encounters on the following, unless costs are paid under a sub-capitated arrangement as outlined in subsection (8):
    a. Costs paid by the AdSS;
    b. Net of interest;
    c. Penalties;
    d. Discounts;
    e. AHCCCS Coinsurance rates;
    f. Medicare payment; and
    h. Third Party Liability (TPL) payment.
8. The Division shall base reimbursement of Reinsurance Encounters for costs paid under a sub-capitated arrangement on the following:
    a. The lower of the AHCCCS allowed amount;
    b. Reported AdSS paid amount;
    c. Net of interest;
    d. Penalties;
    e. Discounts;

f. AHCCCS Coinsurance rates;

g. Medicare payment; and

h. TPL payment.

9. The Division shall refer to the Reinsurance page on the AHCCCS website for current:

a. Deductible levels;

b. Coinsurance rates;

c. Eligibility requirements;

d. Documentation requirements;

e. Covered high cost or Biologic drugs;

f. Required time frames for submitting documentation and requests;

g. Reinsurance forms;

h. AHCCCS Reinsurance policy;

i. Transplant rates and Contracts; and

j. Reinsurance processing training manual and instructions.

10. The Division and the AdSS shall coordinate benefits with first party, Medicare, and TPL payers as required by Division Operations Policy Chapter 4001 and by the AHCCCS Contract.

11. The Division shall submit requests for Reinsurance reimbursement to AHCCCS by 5:00 p.m. if the due date lands on a business day; or by 5:00 p.m. the next business day, if the due date lands on a weekend or State-recognized holiday.
12. The Division may perform medical audits on Reinsurance Cases with advance notice to the AdSS.

B. REGULAR REINSURANCE (DES CASE TYPE) REQUIREMENTS

1. The Division shall request from AHCCCS partial reimbursement for the following Regular Reinsurance covered inpatient hospital services provided to Members:
    a. Acute care hospitals (provider type 02);
    b. Specialty per diem hospitals (provider type C4);
    c. Accredited psychiatric hospitals (provider type 71);
    d. Per diem rates for Skilled Nursing Facility (SNF) services provided within 30 days following an acute inpatient hospital stay, including room and board, provided in lieu of hospitalization for up to 90 days in any Contract Year when:

i. The SNF stay is the first continuous SNF stay post inpatient discharge; or

ii. The second SNF admission follows an additional inpatient stay.

e. Services specified in the AHCCCS Reinsurance System RI325 screen entitled "RI Covered Services".

2. The Division shall not request Regular Reinsurance from AHCCCS for the following inpatient provider service types that are not covered by AHCCCS:

a. Same day admit-and-discharge services;

b. Mental health residential treatment centers;

c. Subacute facilities; and

d. Services that are not specified in the AHCCCS Reinsurance System RI325 screen entitled "RI Covered Services".

3. The Division shall pay Regular Reinsurance for the Member's Prospective Coverage and Prior Period Coverage (PPC) enrollment periods.

4. The Division shall reimburse the AdSS for Regular Reinsurance benefits once per month, subject to the availability of funds.

5. The Division shall follow the same requirements in this section for requesting Regular Reinsurance for Tribal Health Program (THP) claims.
6. The Division shall not pay Regular Reinsurance on the following types of claims:
    a. Final claims that cross over Contract Years; and
    b. Interim claims.
7. The Division shall request Regular Reinsurance consideration from AHCCCS for the final claim associated with the full length of a Member's hospital stay as long as the days of the hospital stay do not cross Contract Years.

C. GENERAL CATASTROPHIC REINSURANCE REQUIREMENTS

1. The Division shall request from AHCCCS partial reimbursement of Catastrophic Reinsurance for medically necessary covered services provided to Members for the following Case Types:
    a. Hemophilia;
    b. Von Willebrand Disease;
    c. Gaucher’s Disease;
    d. Biologic or high-cost specialty drugs;

e. High Cost Behavioral Health; and

f. Case Types other than transplants exceeding $1 million.

2. The Division shall not require Deductibles for Catastrophic Reinsurance Cases.

3. The Division shall request a new Catastrophic Reinsurance Case by submitting the following documents received from the AdSS to the AHCCCS Division of Health Care Management (DHCM) Medical Management Department (MM) within 30 days of the Member's initial diagnosis or enrollment with the Division:

   a. The Request for Catastrophic Reinsurance form; and

   b. Supporting clinical documentation.

4. The Division Health Care Services (HCS) shall review medical documentation submitted by the AdSS to confirm the Member's medical condition meets the criteria in Sections D, E, and F of this policy prior to submitting a request for a new Catastrophic Reinsurance Case to the AHCCCS MM.

5. The Division shall submit the following documentation received from the AdSS to the AHCCCS MM within 30 days of the start of

the Contract Year for continuation of previously approved Catastrophic Reinsurance Cases:

a. The Request for Catastrophic Reinsurance form; and

b. The Non-Transplant Catastrophic Reinsurance Member List form.

6. The Division may require supporting clinical documentation from the AdSS for previously approved Catastrophic Reinsurance.

7. The Division shall submit approval or denial letters received from AHCCCS in response to Request for Catastrophic Reinsurance forms to the AdSS that submitted the request.

8. The Division shall utilize the AHCCCS Contract for Hemophilia factor and blood disorders as the authorizing payor.

9. The Division shall reimburse the AdSS for all medically necessary services provided during the Contract Year:

a. The current Coinsurance Rate for Catastrophic Cases; or

b. The AdSS’s paid amount, whichever is lower, depending on the subcap/CN1 code on the Encounter.

10. The Division shall reimburse the AdSS Catastrophic Reinsurance retroactively for a maximum of 30 days from the date the request is received by the AHCCCS MM.
11. The Division shall delegate prior authorization and care coordination to the AdSS for all components covered under the Contract for their Members.
12. The Division shall pay Reinsurance on catastrophic claims that contain any PPC and Prospective Coverage.

D. CATASTROPHIC REINSURANCE COVERAGE FOR BLOOD DISORDERS

1. The Division shall ensure Catastrophic Reinsurance coverage is available for all Members diagnosed with Hemophilia.
2. The Division shall base Catastrophic Reinsurance coverage for von Willebrand Disease on the following criteria:
    a. Type 1 and Type 2A that do not respond to desmopressin (DDAVP);
    b. Type 2B, Type 2M, and Type 2N based on diagnosis only; and
    c. Type 3 based on diagnosis only.

3. The Division shall base Catastrophic Reinsurance coverage for all Members diagnosed with Gaucher's Disease Type I.
4. The Division shall not request Catastrophic Reinsurance for Gaucher's Disease Type 2 and Type 3.

E. CATASTROPHIC REINSURANCE COVERAGE FOR BIOLOGIC OR HIGH-COST SPECIALTY DRUGS

1. The Division shall request Catastrophic Reinsurance from AHCCCS to cover the cost of medically necessary Biologic and high-cost specialty drugs for Members.
2. The Division shall request Catastrophic Reinsurance for the covered Biologic and high cost specialty drugs listed in the AHCCCS Reinsurance Processing Manual located on the AHCCCS website.
3. The Division shall reimburse Catastrophic Reinsurance to the AdSS as follows when a biosimilar or generic equivalent of a Biologic Drug is available, and is more cost effective than the brand-name product:
    a. The current Catastrophic Coinsurance rate of the lesser of the Biologic or high-cost or its biosimilar equivalent for

Reinsurance purposes unless the biosimilar equivalent is contraindicated for a specific Member.

b. The current Catastrophic Coinsurance rate of the paid amount of the branded Biologic Drug if the AHCCCS Pharmacy and Therapeutics Committee mandates the utilization of only the brand name Biologic or high-cost specialty drug rather than the biosimilar.

4. The Division shall, in the instances in which AHCCCS has specialty Contracts, or when legislation and policy limits the allowable reimbursement, shall reimburse the Catastrophic Coinsurance rate of the lesser of:
   a. The AHCCCS contracted or mandated amount; or
   b. The AdSS's paid amount.
5. The Division may submit requests for new biological drugs or high-cost specialty drugs to the AHCCCS Reinsurance Unit for consideration for Reinsurance purposes.
6. The Division shall require the AdSS to encounter all Biologic or high-cost specialty drugs on a Form C pharmacy claim to be eligible for Reinsurance.

F. CATASTROPHIC REINSURANCE COVERAGE FOR HIGH COST BEHAVIORAL HEALTH

1. The Division shall request Catastrophic Reinsurance reimbursement from AHCCCS for medically necessary covered services provided during the Contract Year for Members enrolled in the High Cost Behavioral Health (BEH) Program prior to October 1, 2007.
2. The Division shall submit the following to the AHCCCS MM no later than 10 business days prior to the expiration of the current approval to request continuation of BEH Reinsurance Reimbursement:
    a. The High Cost Behavioral Health Reinsurance form, located in the AHCCCS website reauthorization request; and
    b. Supporting medical documentation as required in AMPM 1620-I.
3. The Division shall use Adjudicated Encounters for covered services provided to enrolled BEH Members to determine Reinsurance reimbursement.

4. The Division shall base Reinsurance coverage on documentation substantiating the Member's treatment is provided in the least restrictive treatment setting.

G. HIGH DOLLAR CATASTROPHIC REINSURANCE COVERAGE - $1,000,000+

1. The Division shall reimburse the AdSS 100% for all medically necessary Reinsurance covered expenses provided in a Contract Year for Case Types other than transplants, after the Reinsurance Case total value meets or exceeds $1 million, which is comprised of:
   a. The total AdSS paid amount; and
   b. The Deductible.
2. The Division shall require the AdSS to notify the Division once a Reinsurance Case total value reaches $1 million.
3. The Division, upon notification from the AdSS that a Reinsurance Case total value has reached $1 million, shall submit to AHCCCS:
   a. A Reinsurance Action Request form via the SFTP;
   b. A Catastrophic Case CRN Transfer Request form via the SFTP;

c. A request via email to the AHCCCS Reinsurance Supervisor and Reinsurance Analyst to create Case for the specific Case Type.

4. The Division shall disqualify the AdSS from receiving 100% reimbursement for Catastrophic Cases and related Encounters exceeding $1 million when the AdSS fails to do the following within 15 months of the end date of service:

a. Notify the Division of a Reinsurance Case reaching $1 million; or

b. Notify the AHCCCS Reinsurance Unit of Encounters that should be transferred; or

c. Adjudicate related Encounters.

H. CATASTROPHIC REINSURANCE COVERAGE FOR THP MEMBERS

1. The Division shall request Catastrophic Reinsurance reimbursement from AHCCCS for THP Members for the following Case Types:

a. Hemophilia;

b. Von Willebrand Disease;

c. Gaucher’s Disease;

d. Biologic or high-cost specialty drugs;

e. High Cost Behavioral Health; and

f. Case Types other than transplants exceeding $1 million.

2. The Division shall identify THP Cases eligible for Catastrophic Reinsurance reimbursement by data mining Encounters and claims information received weekly from AHCCCS and the AHCCCS pharmacy benefit manager.

3. The Division shall adhere to the general Catastrophic Reinsurance requirements listed in Section C of this policy for THP Members.

4. The Division shall use the same Case Type criteria for coverage of the medical conditions in Sections D, E, F, and G of this policy for THP Members.

J. TRANSPLANT REINSURANCE OVERVIEW

1. The Division shall request transplant Reinsurance from AHCCCS to partially reimburse the AdSS for the cost of care for enrolled Members:

a. Age 21 years and older who meet transplant Reinsurance coverage criteria for the specific transplant types listed AMPM 310-DD and the AHCCCS State Plan.

b. Under age 21, who under the EPSDT Program, are covered for all non-experimental transplants necessary to correct or ameliorate defects, illnesses, and physical conditions whether or not the particular non-experimental transplant is covered by the AHCCCS State Plan or listed in AMPM 310-DD.

2. The Division shall comply with the terms and conditions of the AHCCCS transplant specialty Contract.

3. The Division shall not require Deductibles for Transplant Reinsurance Cases.

4. The Division shall reimburse the AdSS the AHCCCS contracted Coinsurance rate for transplant services that qualify for Reinsurance.

5. The Division shall reimburse the AdSS the current AHCCCS contracted rates for the following transplant components:

a. Outpatient transplant evaluation;

b. Donor search and harvesting of the donor cells for stem cell transplants;

c. Preparation and transplant; and

d. Post-transplant care (Days 1 – 30 and Days 31 – 60).

6. The Division shall require the AdSS to notify the Division and AHCCCS when a Member is referred to a transplant facility for evaluation for an AHCCCS-covered organ transplant.

7. The Division shall oversee the following responsibilities of the AdSS when the AHCCCS transplant specialty Contract is used:

a. Prior authorization; and

b. Care coordination.

K. TRANSPLANT CASE CREATION REQUIREMENTS

1. The Division shall require the AdSS to submit the Request for Transplant Reinsurance form to the Division within 30 days of the Member's first component of the transplant.

2. The Division HCS shall review all Requests for Transplant Reinsurance forms, supporting clinical documentation, and relevant AdSS policy received from the AdSS to confirm whether the transplant is:

a. Medically necessary;

b. Covered by AHCCCS;

c. Considered the standard of care; and

d. Not considered experimental.

3. The Division, upon determining the criteria are met in item 2 of this section, shall submit the Request for Transplant Reinsurance form received from the AdSS to the AHCCCS MM within 30 days of the Member's first component of the transplant to request approval and activation of the transplant Case in the PMMIS system for Reinsurance reimbursement.

4. If the Division receives a request for transplant Reinsurance that is outside the criteria in J(1)(a) of this policy, the Division may consult an independent review organization regarding whether a request for transplant Reinsurance is considered the standard of care and medically necessary.

5. If the Division determines the transplant should be authorized after receiving consultation from an independent review organization, the Division shall notify the AHCCCS MM of the

pending decision and submit the Request for Transplant Reinsurance form as required in item 1 of this section.

6. The Division shall submit to AHCCCS MM the Transplant Reinsurance Crossover Member List received from the AdSS for Members requiring continuation of previously approved transplant Reinsurance.
7. The Division shall refer to the Reinsurance Transplant Case Key Entry Instructions Manual on the AHCCCS website for transplant case management in the PMMIS system.
8. The Division may deny Reinsurance reimbursement to the AdSS for:
    a. Failure to timely submit clean Reinsurance claims; or
    b. Failure to submit the Request for Transplant Reinsurance form to the Division within 30 days of the first component of the transplant.
9. The Division shall submit approval or denial letters received from AHCCCS in response to Request for Transplant Reinsurance forms to the AdSS that submitted the request.

L. REQUIRED TRANSPLANT CASE COMMUNICATION

1. The Division shall communicate the Division's transplant activity by submitting Quarterly Transplant Log form located on the AHCCCS website to the AHCCCS MM no later than 15 days after the end of each quarter as instructed in the AHCCCS Reinsurance Processing Manual.
2. The Division shall not alter or password protect the Quarterly Transplant Log format prior to submission to AHCCCS.
3. The Division shall submit the Quarterly Transplant Log with all the transplant activity from the previous Contract Year on or before October 15th of each year.
4. The Division shall remove all non-active Members from the Quarterly Transplant Log that is submitted for the new Contract Year on or prior to January 15th.
5. The Division shall only include transplant components that are reinsurable by AHCCCS on the Quarterly Transplant Log for the new Contract Year.

M. TRANSPLANT CLAIM REINSURANCE REIMBURSEMENT

1. The Division shall not reimburse the AdSS Regular Reinsurance if AHCCCS determines that a transplant is not eligible for transplant Reinsurance coverage.
2. The Division shall not reimburse the AdSS for the following transplants that are not eligible for transplant Reinsurance coverage:
    a. Bone graft transplants;
    b. Corneal transplants; and
    c. Kidney transplants.
3. The Division may submit to AHCCCS for consideration a request for Regular Reinsurance for transplants that do not qualify for transplant Reinsurance.
4. The Division shall not reimburse transplant Reinsurance for Members who have TPL including:
    a. Medicare Part A; or
    b. Medicare Parts A and B.

5. The Division may reimburse transplant Reinsurance, less any payments received from Medicare, for Members with Medicare coverage under the below circumstances:
    a. If the Member has Medicare Part A and has exhausted their Medicare Part A benefit including lifetime reserve days during a transplant stage, only that stage and subsequent stages may qualify for Reinsurance.
        i. If the Member chooses not to use their available lifetime reserve days, the transplant stages will not qualify for transplant Reinsurance.
    b. If the Member has Medicare Part B only.
    c. If the Member qualifies for partial transplant coverage, an explanation of benefits (EOB) with Medicare payments must:
        i. Balance with the Medicare payments in PMMIS; and
        ii. State that the Member has exhausted Medicare Part A.
6. The Division shall pay transplant Reinsurance reimbursement if Medicare does not cover a transplant type based on the

Member's diagnoses and the transplant type is an AHCCCS covered benefit.

7. The Division shall not apply quick pay discounts or interest to transplant Reinsurance reimbursements.
8. The Division shall retroactively reimburse transplant Reinsurance to the AdSS a maximum of 30 days from the date the Request for Transplant Reinsurance form was received and approved by AHCCCS.
9. The Division shall require the AdSS to submit clean Reinsurance claims to AHCCCS no later than 15 months from the end date of service for each transplant component in order to receive transplant Reinsurance reimbursement.
10. The Division shall recognize the submission date of Reinsurance claims to AHCCCS as the date of receipt by the AHCCCS Administration, DHCM Reinsurance Unit.
11. The Division may deny transplant Reinsurance reimbursement to the AdSS for:
    a. Failure to timely submit clean transplant Reinsurance claims; or

b. Failure to submit the Request for Request for Transplant Reinsurance form to the Division within 30 days of the first component of the transplant.

12. The Division shall require the AdSS to file transplant Encounters with a CN1 code of 09 in order for the Encounter to associate to the transplant Case.

13. The Division shall require the AdSS to void and replace an incorrectly coded transplant Encounter with the correct CN1 code if there is more than 45 days before the 15-month timely filing deadline.

14. If there is less than 45 days before the 15-month timely transplant claim filing deadline, the Division may require the AdSS to:

    a. Submit a request to the AHCCCS Reinsurance analyst to manually associate transplant Encounters to the transplant Case; and

    b. Submit a list of the CRNs by form type and in numerical order that must be transferred on a Reinsurance Action Request Form, prior to the 15-month timely filing deadline.

15. The Division shall only reimburse transplant Reinsurance for adjudicated Encounters that are associated with the transplant Case.
16. The Division shall reimburse Reinsurance for transplant stages when billed amounts and health plan paid amounts for adjudicated Encounters agree with supporting transplant claim and invoice amounts on the PMMIS RI115 screen.
17. The Division shall apply prorated calculations based on the number of days used in the stage only when:
    a. Tandem transplants occur; or
    b. A Member changes Health Plans, in the middle of a transplant stage.
18. The Division shall submit the following documentation received from the AdSS to the AHCCCS Reinsurance SFTP folder to request Reinsurance reimbursement for transplant stages:
    a. The Transplant Stage Invoice Cover Sheet; and
    b. The transplant checklist documentation requirements from the AHCCCS Reinsurance Processing Manual.

19. The Division shall calculate timeliness for each transplant stage payment based on the latest adjudication date for the complete set of Encounters related to the stage.
20. The Division shall notify AHCCCS by email that the information in item 18 a. - b. has been posted to the AHCCCS Reinsurance SFTP folder.

N. REQUIREMENTS FOR TRANSPLANTS THAT SPAN CONTRACT YEARS

1. The Division shall base the transplant stage Reimbursement rate on the end date of the stage.
2. The Division shall require the AdSS to split a transplant stage spanning two Contract Years based on the actual dates within the two Contract Years.
3. The Division shall not require the AdSS to split transplant Encounters spanning two Contract Years unless a transplant component exceeding 60 days exists.
4. The Division shall submit the Reinsurance Action Request Form received from the AdSS to the AHCCCS DHCM Reinsurance Unit

to request the transfer of transplant Encounter(s) spanning Contract Years to the Case based on the end date of the stage.

O. OUTLIER THRESHOLD COVERAGE FOR TRANSPLANTS

1. The Division shall pay the AdSS transplant outlier coverage upon AHCCCS approval of the AdSS's request for outlier coverage of a transplant Case.
2. The Division shall submit the following documentation received from the AdSS to the AHCCCS DHCM Reinsurance Unit to request consideration for transplant outlier coverage:
    a. Transplant Outlier Template form located on the AHCCCS website; and
    b. The documentation listed in the outlier checklist from the AHCCCS Reinsurance Processing Manual.

P. CLAIM ENCOUNTER DOCUMENTATION AND TIMEFRAMES FOR TRANSPLANT CONTRACTS

1. The Division shall submit adjudicated transplant claims for each stage of the solid organ transplantation or hematopoietic cellular therapy received from the AdSS to the AHCCCS DHCM

Reinsurance Unit no later than 15 months from the end date of service.

2. The Division shall consider adjudicated and payable transplant Encounters for the particular transplant stage completed on or before the 15-month timeframe, as a Clean Claim.
3. The Division shall require the AdSS to submit outlier claim components to the Division no later than 15 months from the end date of the last completed stage.
4. The Division shall submit the transplant Encounter file received from the AdSS to the AHCCCS DHCM Reinsurance Unit at least 45 days prior to the 15-month deadline to ensure that the adjudication meets the 15-month timeframe.
5. If the Division submits the Encounter file to AHCCCS less than 45 days before the 15-month timeframe and the adjudication has not been completed by the 15-month deadline, then the claim will be denied for not having achieved Clean Claim status within the required timeframe.

6. The Division shall base timeliness of the claim submission for each stage of the transplant on the submission date for the complete set of Encounters related to the stage.
7. The Division shall base timeliness for each transplant stage payment on the latest adjudication date for the complete set of Encounters related to the transplant stage.

Q. POST TRANSPLANT INPATIENT STAYS EXCEEDING 11 OR 61 DAYS

1. The Division shall apply the following requirements for continuous post-transplant inpatient care from the date of the prep and transplant component from day 11+ and for kidney transplants from day 61+ for all other Case Types:
   a. The Division shall reimburse the claim or Encounter for the continuous inpatient stay for day 11+ for kidney and day 61+ for all other Case types for all Members at 75% of the transplant per diem rate less the Deductible.
   b. The Division shall pay outlier reimbursement when the cost threshold of the claim or Encounter for the continuous

inpatient stay for day 11+ for kidney transplants and day 61+ for all other Case Types is met or exceeded.

c. The Division shall ensure all day 11+ and day 61+ Encounters are received by AHCCCS prior to adjudication.

d. The Division shall split Encounters submitted for a day 11+ and day 61+ stage that spans Contract Years.

e. The Division shall refer to the AHCCCS website to access the Day 11+ or 61+ Transplant Component Worksheet and Instructions form.

2. The Division, using the Day 11+ or 61+ Outlier Worksheet and Instructions from the AHCCCS website, shall request from AHCCCS outlier reimbursement for transplant days 11+ and 61+ paid at the per diem rate pursuant to the AHCCCS transplant specialty Contract at an established cost threshold.

R. TRANSPLANT TRANSPORTATION AND LODGING REINSURANCE REIMBURSEMENT REQUIREMENTS

1. The Division shall reimburse Reinsurance for transportation, room, and board to the AdSS at the AHCCCS allowable rates for

the transplant candidate or recipient, potential donor or donor and, if needed, one adult caregiver.

2. The Division shall require the AdSS to submit a request to AHCCCS Reinsurance Finance using the Transplant Transportation Lodging form found on the AHCCCS website.

S. MULTI-ORGAN TRANSPLANTS THAT ARE NOT COVERED IN THE AHCCCS SPECIALTY CONTRACTS

1. The Division may request authorization from AHCCCS MM for transplant Cases that overlap when a second transplant component is started within the timeframe of an established component.
2. If a Member requires a multi-organ transplant, the Division shall request Reinsurance for the following:
   a. The preparation and transplant components for each organ when performed separately; and
   b. The post-transplant component that provides the AdSS with the highest reimbursement and covers the longest period of time.

c. The surgical component of the second transplant, if a second covered organ transplant is performed during the post-transplant periods of the first transplant.

3. If approved by AHCCCS, the Division shall reimburse prorated Reinsurance for the first transplant component and provide Reinsurance reimbursement for the surgical component of the second transplant. This component is followed by the initial day 1-30 post-transplant component and the day 31- 60 post-transplant component.

4. The Division shall follow all applicable notification and claims filing requirements when requesting authorization for Reinsurance reimbursement for multi-organ transplants that are not covered by AHCCCS.

T. MULTI-SEQUENCE TRANSPLANTS

1. The Division shall request authorization from AHCCCS MM for a transplant Case that requires an additional transplant for the same transplant type and an additional transplant sequence is started within the timeframe of an established component.

2. If a Member requires a second sequence transplant, the Division shall request Reinsurance for the initial transplant until the prep and transplant of the additional sequence occurs.
3. If an additional sequence is performed during the post-transplant periods of the previous transplant, the Division, upon approval from AHCCCS, shall reimburse the AdSS the prorated transplant component that coincides with the prep and transplant of the following sequence.
4. The Division shall follow all applicable AHCCCS notification and claims filing requirements when requesting Reinsurance reimbursement for multi-sequence transplants.

U. OUT OF STATE OR NON-CONTRACTED FACILITIES AND NON-CONTRACTED TRANSPLANTS

1. The Division shall, prior to the Member receiving out of state transplant services, require the AdSS to request approval for Reinsurance from AHCCCS if the transplant services are:
   a. At non-contracted transplant facilities; or
   b. At out-of-state contracted facilities for non-contracted transplant types.

2. The Division shall require the AdSS to obtain prior approval from the AHCCCS Medical Director for using an out of state non-contracted facility for an AHCCCS covered and contracted transplant service.
3. The AdSS shall, if prior approval is not obtained for using an out of state non-contracted facility for an AHCCCS covered and contracted transplant service:
    a. Incur costs for transplant services at the out of state facility;
    b. Be ineligible for either transplant or Regular Reinsurance; and
    c. Be ineligible for costs to be excluded from any applicable reconciliation calculations.
4. The Division shall, for an AHCCCS approved transplant performed out of state at a non-contracted facility, reimburse at 85% of the lesser of:
    a. The AHCCCS transplant contracted rate for the same organ or tissue, if available; or
    b. The AdSS paid amount.

5. The Division shall reimburse transplant Reinsurance depending on the unique circumstances of each AHCCCS approved non-contracted transplant, at 85% of the AdSS's paid amount for comparable Case or component rates.

V. SPLIT STAGES WHEN CONTRACTOR ENROLLMENT CHANGES

1. The Division shall require the AdSS to notify the Division when a Member changes AdSS during a transplant stage.
2. The Division shall edit the transplant stages in PMMIS for the dates of service each AdSS provided to the Member, when transplant stages are split between two AdSSs.

W. TRANSPLANT REINSURANCE REQUIREMENTS FOR THP MEMBERS

1. The Division shall submit the Request for Transplant Reinsurance form to the AHCCCS MM to create the transplant Case.
2. If the Request for Transplant Reinsurance is made by any entity other than the Division, the DDD Transplant Coordinator and DDD Reinsurance shall receive notification from AHCCCS MM.
3. The Division shall coordinate Transplant Reinsurance payment of claims and reimbursement with AHCCCS.

X. ENCOUNTER SUBMISSION REQUIREMENTS

1. The Division shall reimburse the AdSS for Reinsurance claims that correspond to Encounters that associate to a Reinsurance Case.
2. The Division shall require the following Reinsurance-associated Encounters except as provided for claim disputes, to reach an adjudicated status within 15 months from the end date of service, or date of eligibility posting, whichever is later to be considered as timely filed:
    a. Replacements;
    b. Voids; and
    c. New day Encounters
3. The AdSS shall not manually replace or void Encounters during the Reinsurance Payment Cycle.
4. The Division shall require the AdSS to void Encounters that are recouped in full.

Y. TIME LIMITS FOR FILING REINSURANCE CLAIMS

1. The Division shall pay the AdSS's Reinsurance claims for Regular Reinsurance Cases that are created automatically by PMMIS once

the Encounter reaches an adjudicated status through the Encounter System.

2. The Division shall require the AdSS to submit written requests for Reinsurance consideration for all other Reinsurance claims to the Division, except for Regular Reinsurance, using the required forms as described in this policy.
3. The Division shall require the AdSS to submit Encounters for Reinsurance that have attained a clean status no later than 15 months from the end date of service.
4. The Division shall require the AdSS to submit retro-eligibility Encounters that have attained a Clean Claim status no later than 15 months from the date of eligibility posting.
5. For Encounters undergoing Member appeal, provider claim dispute, grievance or other legal action, including an informal resolution originating from a request for a formal claim dispute or Member appeal, the Division shall consider the claim timely if:
    a. The decision letter is received by AHCCCS no later than 90 days from the date of the final decision in that action; and

b. The Encounters reach adjudicated status no later than 90 calendar days from the date of the final decision in that action, even if the 15-month deadline for attaining Clean Claim status has expired.

6. The Division shall not reimburse the AdSS Reinsurance if the AdSS fails to submit the adjudicated Encounter and the decision documentation within 90 calendar days of the date of the final claim dispute decision or hearing decision, or Director's decision, or other legal action, whichever is applicable.

Z. ADMINISTRATIVE DISPUTE REQUIREMENTS

The Division shall require the AdSS to follow the administrative dispute process as instructed in the AHCCCS Reinsurance Processing Manual located on the AHCCCS website, if the AdSS has exhausted Reinsurance refiling or reconsideration processes and still disagrees with an action taken regarding a Reinsurance claim.

AA. DIVISION OVERSIGHT

1. The Division shall oversee the AdSS utilizing the following methods to ensure compliance with policy:

a. Annual Operational Review of each AdSS,

b. Review and analyze deliverable reports submitted by the AdSS, and

c. Conduct oversight meetings with the AdSS for the purpose of:

i. Reviewing compliance,

ii. Addressing concerns with access to care or other quality of care concerns,

iii. Discussing systemic issues, and

iv. Providing direction or support to the AdSS as necessary.

SUPPLEMENTAL INFORMATION

A. ENCOUNTER VOIDS AND REPLACEMENTS

1. When a void Encounter is submitted for a previously paid associated Reinsurance Encounter, the Reinsurance payment related to the voided Encounter will be recouped by AHCCCS.
2. When a replacement Encounter is submitted timely for a previously paid associated Reinsurance Encounter and the replaced AdSS paid amount is less than the original AdSS paid amount, the difference will be recouped by AHCCCS.

3. When a replacement Encounter is submitted timely for a previously paid associated Reinsurance Encounter and the replaced AdSS paid amount is greater than the original AdSS paid amount, the additional amount will be paid if the replacement Encounter was adjudicated and reached approved status (CLM STAT 31) within 15 months from end date of service, or date of eligibility posting, whichever is later.
4. When a replacement Encounter is submitted timely for a previously paid associated Reinsurance Encounter and the replaced AdSS paid amount is greater than the original AdSS paid amount, but the replacement Encounter was not adjudicated and did not reach approved status (CLM STAT 31) within 15 months from end date of service, or date of eligibility posting, whichever is later within the same Encounter cycle, then the original AdSS paid amount will be recouped AHCCCS.
5. When a replacement Encounter is not submitted timely, and does not adjudicate to Encounter approved status (CLM STAT 31) within 15 months from the end date of service, or date of

eligibility posting, whichever is later, within the same Encounter cycle it was submitted, and any of the following scenarios occur:

a. The original Encounter was never associated to a Reinsurance Case; or

b. The original Encounter was never associated to a Reinsurance Case; or

c. The original Encounter associated with a Reinsurance Case but never reached pay status (PY); or

d. The original Encounter has a previous Reinsurance paid amount of zero ($0.00):

i. The replacement Encounter is then subject to the Reinsurance timely filing limit edits:

1) H583 Reinsurance claim received more than 15 months after end date of service; or

2) H584 Reinsurance claim received more than 15 months after eligibility posting.

6. When a Replacement Encounter is subject to the following scenarios:

a. Not submitted timely; and

b. Replacement Encounter did not adjudicate; and

c. Replacement Encounter did not reach approved status (CLM STAT 31); and

d. Within the same Encounter Cycle same Encounter cycle; and

e. Original Encounter (Encounter identified on the 837 & NCPDP) Reinsurance paid amount > $0:

i. The original AdSS paid amount will be recouped by AHCCCS.

7. The replacement Encounter consists of a two-step process:

a. The original AdSS paid amount will be recouped by AHCCCS.

b. The replacement Encounter transaction or process.

B. THIRD PARTY LIABILITY

1. Failure to comply with the TPL notification requirements may result in those sanctions specified in the AHCCCS Contract.

2. Should AHCCCS or its authorized representative identify TPL recovery payments received by the Contractors that do not

comply with the notification requirements in this section the following actions shall occur:

a. For open cases, AHCCCS shall reimburse itself 100% percent of any duplicate payments by adjusting the Reinsurance case. An administrative fee of 15 percent of the duplicate payments may be added to the adjustment.

b. For closed cases, AHCCCS or its authorized representative shall bill the Contractor directly for 100% percent of the duplicate payments. An administrative fee equal to the current TPL Contractor's contingency fee schedule shall be added to the billing.

3. In addition, the Medicare Allowed, Medicare Paid, TPL Payments and Value Code fields, as applicable, must be completed when the Encounter is submitted for Reinsurance consideration.

C. MEDICARE

1. Medicare Calculations

a. The Reinsurance system does not calculate the Medicare fields on the Encounter or 837. The data on the 837 is translated in the Encounter system. The Reinsurance data

is populated and mapped from the fields in the Encounter system.

b. If there are issues regarding how the Contractor submits Medicare amounts on the 837 and its translation to the Encounter, then the Contractor must address these issues with the AHCCCS Encounter Unit.

2. PMMIS' view of Medicare

a. The Encounter System categorizes Medicare as the type of Medicare appropriate for the stay. Meaning, if the Encounter is Form type I then the Encounter System reads the Medicare Field as Medicare Part A dollars.

b. If the Encounter is Form type A then the Encounter System reads the Medicare Field as Medicare Part B dollars.

c. Scenario Examples:

i. If the Member has only Medicare Part B and the Encounter is for an inpatient stay, then on the Encounter the Medicare Part B dollars should be placed under Other Coverage.

ii. If the Member has only Medicare Part B and the Encounter is for a doctor visit, then on the Encounter the Medicare Part B dollars should be placed under Medicare Coverage.

Form Type	Type of Medicare	Field on Encounter
I	Medicare Part A	Medicare
	Medicare Part B	Other Insurance
A	Medicare Part A	Does Not Apply
	Medicare Part B	Medicare
O	Medicare Part A	Other Insurance
	Medicare Part B	Does Not Apply

3. Medicare Lesser of Logic

   a. The Medicare copay, Coinsurance, or Deductible; or

   b. The difference between the Contractor's contracted rate and the Medicare paid amount.

4. Edit A510

   a. Medicare Deductible and Coinsurance Exceeds Allowed Amount

      i. Reinsurance Internal Pend

b. Approval/Denial of CRN is the decision of the Reinsurance Compliance Auditor.

Summary of Reinsurance Coverage

Case Type	Deductible	Co-Ins
RAC-Acute Contractors	$75,000	75%
RAC-DCS/CHP Contractor	$75,000	75%

6001-A CONFIDENTIALITY

REVISION DATE: 9/1/2014
EFFECTIVE DATE: July 31, 1993
REFERENCES: A.R.S. §§ 36-568(01), 36-551(07), 41-1346, 41-1959, 36-568(01), and, 36-551(01); A.A.C. R6-6-102, et seq., and, R6-6-102.

Confidential Information

Department of Economic Security (DES)/Division of Developmental Disabilities (DDD) adheres to statutory, administrative rule, and Departmental requirements that all personally identifiable information obtained, and records prepared during the course of application and provision of services concerning any applicant, claimant, recipient, employer or member is to be considered confidential and privileged, unless otherwise provided by law.

This confidentiality includes members or persons involved in dependency actions, case closure of parental right actions or in any protective services action.

Confidentiality Officer

Each District Program Manager (DPM) must designate, in writing, a person as confidentiality officer and provide the name of the designee to the Assistant Director and District staff. The confidentiality officer shall completely administer and supervise the use of all personally identifiable information including storage, disclosure, retention, and destruction of this information in accordance with departmental procedures of the DES and the Department of Library, Archives and Public Records.

Confidentiality officers or their designee(s) must ensure that members/responsible persons are notified of their rights of confidentiality regarding the disclosure of personally identifiable information such as name, Social Security Number (SSN), ASSISTS or Arizona Health Care Costs Containment System (AHCCCS) I.D. This notification must occur at the time of eligibility closure and during subsequent Individual Support Plans (ISPs). Rights of confidentiality include:

A. The right to inspect/review their own records without unnecessary delay (within 45 days) with the understanding that they may not be denied access to such records;

B. The right to be informed of the procedures for inspecting, reviewing, and obtaining copies of their records;

C. The right to receive one copy of their medical record free of charge annually;

D. The right to be informed of a description of circumstances whereby, for legitimate cause, the agency may deny a request for copies of a case record, even though the record may be reviewed;

E. The right to a listing of types and locations of records maintained and the titles/addresses of the officials responsible for such records;

F. The right to a policy regarding written consent for release of information shall insure that personally identifiable information shall not be released outside the DES/DDD without the written and dated consent of the responsible person except as required by federal law, State statute, court order, or in the event that the health or safety of the member is in jeopardy;

G. Subpoenas are not court orders. Notify the Office of Compliance and Review (OCR) immediately upon receipt of a subpoena for records and forward the subpoena to that office via interoffice mail to Site Code 016F;

H. The right to file complaints;

I. The right to seek correction of records; and

J. Should the agency refuse to amend the records, the member or the responsible person shall have the right to a hearing. Should the hearing find favor with the agency, the member or the responsible person shall have the right to insert in the record a statement or explanation.

Consent forms must be time limited and maintained in the central case record. Those consent forms taken during intake expire in 90 days. Subsequent releases are valid for only up to six months. The person signing the consent must have the capacity to understand the nature of the consent. The consent must be voluntary and signed without coercion.

6001-B RELEASE OF INFORMATION

REVISION DATE: 9/1/2014
EFFECTIVE DATE: July 31, 1993
REFERENCES: A.R.S. § 36-568(01); A.A.C. R6-6-104; 42 CFR 483.410(c) (3).

An authorized list of persons or titles, who may have access to personally identifiable information, shall be maintained and available for public inspection. Consents for the release of personally identifiable information, must be:

A. Obtained from the member or responsible person in writing and dated); and,

B. Maintained in the case file.

Consents for the release of information, obtained during intake, expire within ninety (90) days. Subsequent consents should be obtained on an as-needed basis, and are valid for no more than six (6) months.

6001-C ACCESS TO PERSONALLY IDENTIFIABLE INFORMATION

REVISION DATE: 9/1/2014
EFFECTIVE DATE: July 31, 1993
REFERENCES: A.A.C. R6-6-103.

A *Record of Access* documents all requests for receipt and review of confidential information. The confidentiality officer is responsible for assuring that a *Record of Access* is maintained for each member in service. Requests for information by other State agencies, local or State officials, organizations conducting approved studies, advocacy groups or accrediting organizations will be honored, with ALL personally identifying information deleted.

While Department of Economic Security (DES)/Division of Developmental Disabilities (DDD) do not require a standardized *Record of Access*, all *Record of Access* documents shall include:

A. Requestor's name;

B. Date information copied/sent;

C. Purpose for request;

D. Specific information released;

E. Where information was sent; and

F. Verification of consent.

A *Record of Access* is not required for the following:

A. Member/responsible person or their written designee;

B. Federally authorized members including AHCCCS and DHS staff; or

C. Direct care staff, Qualified Intellectual Disabilities Professional (QIDP)s or Support Coordinators in the performance of their job duties.

The confidentiality officer must maintain a Log Book which documents the names of persons, other than Support Coordinators, or supervisors reviewing the case record and date/time of the review is maintained. The *Record of Access* is typically maintained in the central case record, but may be kept in a location other than the member's master file. In such instances, the Support Coordinator shall document in the master file the required information recorded on the *Record of Access* (See Master Folder Access Log).

6001-E VIOLATIONS AND PENALTIES

REVISION DATE: 9/1/2014
EFFECTIVE DATE: July 31, 1993
REFERENCES: A.R.S. § 36-568(01); A.A.C. R6-6-204

ANY EMPLOYEE WHO UNLAWFULLY DISCLOSES PERSONALLY IDENTIFIABLE INFORMATION IS SUBJECT TO DISCIPLINARY ACTION OR DISMISSAL. KNOWN VIOLATIONS MUST BE REPORTED TO THE EMPLOYEE'S IMMEDIATE SUPERVISOR AND THE CONFIDENTIALITY OFFICER. VIOLATIONS ARE SUBJECT TO PENALTIES APPLIED BY STATUTE.

6001-F CASE RECORDS

REVISION DATE: 8/28/2019, 5/29/2019, 2/17/2017, 9/1/2014
EFFECTIVE DATE: July 31, 1993
REFERENCES: 42 CFR 483.410(c)(1)(6)

Central Case Records

The Division of Developmental Disabilities (Division) maintains a central case record for each member to whom services are provided. This record contains all pertinent information concerning services provided to a member and is kept in a location designated by the local Confidentiality Officer/designee, but it is usually in the Support Coordinator/Qualified Intellectual Disabilities Professional's (QIDP's) office.

Central case records are available to the member or responsible person upon written request to:

Office of Administrative Review
4000 North Central Avenue
3rd Floor, Suite 301
Mail Drop 2HE5
Phoenix, Arizona 85012
Fax: 602-277-0026

The Support Coordinator makes sure that all information generated regarding services to the member is documented in the central case record.

A. Central case records must contain the following:

1. Birth Certificate
2. Guardianship records, if applicable
3. Adoption records, if applicable
4. Divorce Decree, and/or Custody Orders, if applicable
5. Court Orders [including Orders of Protection], if applicable
6. Arizona Confidentiality Program (ACP) records, if applicable
7. A copy of the member's Planning Documents/Individualized Education Program (IEP)
8. Program data and progress notes
9. The member's identifying information and a brief social history
10. Pertinent health/medical information
11. Current evaluative data/assessments
12. Authorization for emergency care, if appropriate

13. Visitation records, if appropriate
14. Record of financial disbursements, if appropriate
15. Active treatment schedule (ICF/IID)
16. Resident fact sheet, if appropriate
17. Periodic dental records, if appropriate
18. ICAP, if appropriate
19. Documentation regarding the protection of member rights, including records authorizing the release of educational and protected health information.
20. An accepted diagnosis/diagnostic scheme
21. Documentation of an evaluation that identifies the member's specific needs
22. Reviews/modifications to the Planning Documents and IEP
23. Communication among persons involved with the member and his/her program, including emails
24. Documentation of protection of the legal rights of each person served including records of all actions that may significantly affect these rights
25. Documentation to furnish a basis of review, study and evaluation of overall programs provided by the Division
26. Member primary data from FOCUS
27. For members residing in a Nursing Facility (NF) placed on termination status:
    a. A Primary Care Physician (PCP) statement that the NF does or does not continue to meet the member's needs
    b. Documentation of the member's choice of placement
    c. The reason for non-placement in a NF placed on termination status for a new placement.

B. Case records, where applicable, must contain the following additional documentation:

1. Arizona Long Term Care System (ALTCS) eligibility
2. Utilization review report
3. Current photograph of the member, if needed
4. Physician statements of medical necessity
5. Pre-Admission Screening
6. Psychological evaluations/social history

7. Medication history
8. Immunization record
9. Incident, injury, illness, and treatment reports including hospital stays
10. Seizure reports
11. Records of contacts/referrals
12. An accounting ledger
13. Authorization for emergency care
14. Behavioral health records as described in this Policy Manual
15. Other pertinent information.

Program/Service Records

Occasionally, the delivery of services or a centralized recordkeeping system requires maintenance of separate program/service records; this includes overflow files. The Confidentiality Officer, Support Coordinator, or QIDP assures:

- Files are available at each site where the member receives services, as appropriate
- The Support Coordinator/QIDP has access to such files
- A summary of information contained in such records is entered into the member's Central record.

These files must contain:

A. The name, address and phone number of the physician or health facility providing medical care
B. Reports of accidents, illness, and treatments
C. Reports of significant behavioral incidents, if applicable
D. Current medication treatment plan, if applicable
E. A description of the member's specialized needs
F. A copy of the Planning Documents/IEP
G. Program data/progress notes
H. Identifying information/social summary
I. Pertinent health/medical information
J. Current evaluative data/assessments

K. Authorization for emergency care

L. Visitation records

M. Records of financial disbursements

N. Active treatment schedule (ICF/IID)

O. Resident fact sheet; and where applicable

P. Periodic dental reports.

6001-H RECORDS STORAGE AND SECURITY

REVISION DATE: 2/17/2017, 12/11/2015
EFFECTIVE DATE: July 31, 1993
REFERENCES: A.R.S. § 12-2297, *Records Reference Request* (J-240)

Internal Storage (Active Case Records)

The Division of Developmental Disabilities (Division) considers case records for members currently eligible for services to be active records. Active files may contain too much information to be confined to one case record. The Division may establish and use overflow files to store non-essential, outdated information.

Once established, overflow records can contain progress notes, educational records, Planning Documents, correspondence, status reports, guardianship records, medical records, etc. The Support Coordinator, Qualified Intellectual Disabilities Professional (QIDP) notes in the most current active record that there is an overflow(s) file and indicate where it is stored.

The overflow record is maintained within the Division in a place designated by the District for an unspecified period of time.

External Storage (Closed/Terminated Case Records)

The Records Center is the Department of Economic Security (DES) official depository for closed/terminated case records. The Records Center provides storage, retrieval, and re-file services for DES.

To transfer closed/terminated files for storage/retention, Division staff:

A. Review the records retention schedule to determine that the records are appropriate for retention at this time.

B. Pack records into standard boxes 15” L X 12” W X 10” H, leaving a minimum of two inches of space to permit retrieval.

C. Electronically complete a *DES Records Storage Request* (J-239) through the Records Center Management System (RCMS).

D. Assign a temporary box number to each box and place that number on the small side of the box, but not directly below the handles. The temporary numbers must be consecutive and continue in consecutive order for future pick-up.

E. Upon receipt of a Records Center box number, place that number directly below the handle.

Records Retrieval

To retrieve stored records, Division staff electronically complete a *Records Reference Request* (J-240) through RCMS.

Destruction of Records

Records are destroyed in accordance with the records retention schedule, in compliance with A.R.S. § 12-2297.

6001-I MANAGEMENT AND MAINTENANCE OF RECORDS

REVISION DATE: 12/22/2021, 9/1/2014
EFFECTIVE DATE: July 31, 1993
REFERENCES: A.R.S. § 12-2297,42 CFR 438.3(U)

POLICY

The Division of Developmental Disabilities (Division) must maintain all records for a period of five years from the date of final payment under contract with Arizona Health Care Cost Containment System (AHCCCS) unless a longer period of time is required by law.

For retention of the member's medical records, the Division must ensure compliance with A.R.S. § 12-2297, which provides, in part, that a health care provider must retain the member's medical records according to the following:

A. If the member is an adult, the Division must retain the member's medical records for at least six years after the last date the adult member received medical or health care services from the Division.

B. If the member is under 18 years of age, the Division must maintain the member's medical records either for at least three years after the child's 18th birthday or for at least six years after the last date the child received medical or health care services from the Division, whichever date occurs later.

The Division must comply with the record retention periods specified in HIPAA Privacy Rule and regulations.

If the Division's contract with AHCCCS is completely or partially terminated, the records relating to the work terminated must be preserved and made available for a period of five years from the date of any such termination.

Records that relate to grievances, disputes, litigation, or the settlement of claims arising out of the performance of the Division's contract with AHCCCS, or costs and expenses of the Division's contract with AHCCCS to which exception has been taken by AHCCCS, must be retained by the Division for a period of ten years after the date of final disposition or resolution thereof. [See 42 CFR 438.3(U)].

6001-J RECORDS MANAGEMENT LITIGATION HOLD

EFFECTIVE DATE: February 28, 2024

REFERENCES: A.R.S. § 38-421, A.R.S. § 39-121-.01, A.R.S. § 41-151.12, A.R.S. § 41-151.13, A.R.S. § 41-151.14, A.R.S. § 41-151.15, A.R.S. § 41-151.16, A.R.S. § 41-151, A.R.S. § 41-151.18, Arizona State Library, Archives and Public Records Schedule Numbers: DES-CS-1125 - 35132, 35131, 53310, and 53311

PURPOSE

This policy applies to all Division of Developmental Disabilities (the Division) staff. The purpose of this policy is to outline staff responsibility when there is a litigation hold Notice to Preserve.

DEFINITIONS

1. "Custodian of Records" or "Custodian" means any Division employee who manages records at the office level and is the base for implementing records management policies and procedures by applying a records-retention schedule.
2. "Disposition Schedule" or "Retention Schedule" means a list of record series titles that indicates the minimum length of time to

maintain each series and what should happen once the retention period has been met.

3. "Employee Tracking List" means a comprehensive list of Division employees who are or were associated with the coordination of care for a Member related to a litigation hold notice to preserve.
4. "Litigation Hold" means an internal process that an organization undergoes to preserve all data that might relate to a legal action involving the organization.
5. "Member" means the same as "client" as defined in A.R.S. § 36-551.
6. "Notice to Preserve" means a letter or other notice informing an employee of actual or reasonably anticipated litigation, otherwise known as a pre-claim, and directing the employee or group of employees to identify, collect, and preserve relevant information.
7. "Records" means all hardcopy and electronic books, paper, emails, maps, photographs, drafts, markups, or other documentary materials, regardless of physical form or characteristics, including prints or copies of such items produced or reproduced on film or electronic media pursuant to A.R.S. §

41-151.16; made or received by any governmental agency in pursuance of law or in connection with the transaction of public business and preserved or appropriate for preservation by the agency or its legitimate successor as evidence of the organization, functions, policies, decisions, procedures, operations, or other activities of the government, or because of the informational and historical value of the data contained therein, and includes records that are made confidential by statute. Library or museum material made or acquired solely for reference or exhibition purposes, extra copies of documents preserved only for convenience of reference and stocks of publications or documents intended for sale or distribution to interested persons are not included within the definition of records. All records media are included in this definition from the traditional paper forms to electronic types in use (i.e., email, social media), and/or forms of records not yet invented.

8. "Records Management Center" or "RMC" means the facility where DCS records are stored, retrieved, and eventually destroyed according to record retention schedules.

9. "Records Management Unit" or "RMU" means the Division's records department that maintains and oversees the management of Member records.

POLICY

A. The Division shall retain any record upon Notice to Preserve relevant to litigation as follows:

1. The Division shall retain relevant records:
    a. For six years after the prospect of litigation ends or according to the record disposition schedule for DES-CS-1125, whichever is later; and
    b. If there is no court action until the expiration of all time periods within which legal action may be taken.
2. Division employees having access to any records outlined in a Litigation Hold shall preserve all records in their original forms.
3. The Division shall prevent the destruction, alteration, or deletion of relevant information and records.
4. The Division shall preserve the following types of items for a Litigation hold:
    a. Emails;

b. Contact lists;

c. Text/chat messages;

d. Spreadsheets;

e. Presentations;

f. Databases, or other data stored;

g. Video, transcripts and audio recordings;

h. Medical documentation; and

i. Documentation of services, and anything else that can be electronically stored and is related to the litigation subject.

B. The RMU shall:

1. Gather all records related to the actual or anticipated litigation, including paper and electronically stored records, and
2. Review documents to identify Division staff names for the given time period outlined in the litigation hold;

C. The RMU shall preserve, catalog, and retain the related files within the Records Management Center:

1. The Custodian shall not remove, transfer, or destroy preserved records while the Litigation Hold is in place.

2. After the notice to preserve has been lifted, RMU staff shall adhere to the appropriate retention period ends.

6002-D MEMBERS AT RISK IF MISSING

REVISION DATE: 8/2/23, 3/16/22, 11/29/17, 5/20/16, 3/2/15 EFFECTIVE DATE: July 31, 1993

REFERENCES: A.R.S. § 46-451(A)(10), A.R.S. § 14-1501, A.R.S. §36-551, A.A.C. R6-6-805, Division Medical Policy 966

PURPOSE

To set forth the requirements of vendors and the Division of Developmental Disabilities' (Division) staff when a Member is missing and the subsequent review or revision of the Planning Document by the Planning Team.

DEFINITIONS

1. "Immediate Jeopardy" means a situation in which the vendor's noncompliance with one or more requirements of participation has caused, or is likely to cause, serious injury, harm, impairment, or death to a Member(s). An Immediate Jeopardy situation is one that is clearly identifiable due to the severity of its harm or likelihood for serious harm and the immediate need for it to be corrected to avoid further or future serious harm. See Division Medical Policy 966.

2. “Medallion Program” means Members enrolled in this program receive a medallion that can be worn as a bracelet or shoe tag. This medallion provides identification that helps first responders in case of an emergency or if a Division Member becomes lost in the community. Each identification tag includes the Member’s Focus ID number and a 24-hour phone number for first response emergency personnel to contact.

3. “Media” means any type of electronic, digital, or print communication including newspapers, TV, radio, flyers, newsletters. or other internet-based forms of electronic communication such as websites for social networking, blogs.

4. “Member” means the same as “Client” as defined in A.R.S. § 36-551.

5. “Planning Document” means a plan which is developed by the Planning Team, such as an Individualized Family Service Plan (IFSP) or Person Centered Service Plan (PCSP).

6. “Planning Team” means a group of people including the Member; the Responsible Person; the Support Coordinator; other State of Arizona Department of Economic Security staff, as necessary; and any person selected by the Member, Responsible Person, or the Department.

7. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a client or an applicant for whom no guardian has been appointed as cited in A.R.S § 36- 551.

8. "Support Coordinator" means the same as "Case Manager" under A.R.S. § 36-551.

POLICY

A. MISSING MEMBERS

1. If a Member without planned alone time, while receiving Division-authorized services, is missing or at is risk of harm, or when a Member with alone time as defined in the Planning Document is missing longer than the plan provides, including a Member missing from a licensed Behavioral Health Inpatient Facility (BHIF), Behavioral Health Residential Facility (BHRF), Division Group Home, Assisted Living Facility (ALF), Skilled Nursing Facility (SNF), Intermediate Care Facility, Adult Behavioral Health Therapeutic Home (ABHTH), or Therapeutic Foster Care (TFC), the vendor shall:

a. Conduct a search of the immediate area.

b. Notify the program supervisor or other staff to assist with the search if the Member is not located within 15 minutes.

c. Contact local hospitals, shelters, jails, and bus stations during the search.

d. If the Member is not located within 30 minutes the vendor shall notify law enforcement agencies in the immediate and surrounding communities and provide all relevant information, including medical conditions, medication, behavioral and communication needs.

3. The vendor shall immediately notify the following entities, document who was contacted, date and time, and send a confirmation email after notification is made:

a. The Division by calling the District specific Quality Assurance phone number, emailing the Incident Report Inbox, or calling the after-hours reporting system on evenings and weekends at 602-375-1403.

i. If a situation is determined to likely cause serious

injury, harm, impairment, or death to a Member(s), and an immediate need to be corrected to avoid further or future serious harm, indicate in the report that the situation may require an Immediate Jeopardy response.

b. Support Coordination during regular business hours or by calling the District after hours reporting system on evenings and weekends at (602) 375-1403 or provide the information in an email to the District specific Incident Report Inbox.

c. The guardian(s), if applicable.

4. The vendor shall report and submit a written incident report to the Division as soon as possible but no later than the next business day after the incident. The vendor may submit the incident report to the Division via fax or email using the District contact information.

5. The vendor shall include the following information in the incident report:

a. Age of Member

b. General description of the person

c. Time and location of disappearance

d. Effort to locate Member(s)

e. Vulnerability

f. Means of communication

g. Medical or special needs

h. Precursors to disappearance

i. Time police and parents or guardian notified

j. Time and person or method of Division notification

k. Other entities contacted

l. Legal status (e.g., foster care, probation).

6. The Support Coordinator shall, if the Member has prescribed medication, contact the physician or pharmacist to determine whether a potential medical risk may arise if the Member goes without prescribed medication for any length of time.

B. DIVISION RESPONSIBILITIES

1. The Support Coordinator shall convene the Planning Team within 30 days, or sooner as designated in the Planning Document, of

the date the Member was reported missing to:

a. Review the current Planning Document and Risk Assessment,

b. Modify the Planning Document as appropriate, and

c. Complete or update form DDD 1569A if the Member resides in a group home licensed by Arizona Department of Health Services consistent with A.A.C. R6-6-805.

C. MEDIA INVOLVEMENT

1. If law enforcement elects to contact the Media to assist in locating the Member, the vendor shall:

   a. Cooperate with law enforcement officials by providing essential information about the Member to be released to the Media,

   b. Notify the designated District Quality Assurance staff,

   c. Notify the designated support coordinator, and.

   d. Notify the parent(s) or guardian(s), if applicable.

2. The Division District Quality Assurance staff shall notify Executive Leadership via the Division's Executive Leadership

Notifications mailbox upon notification of Media involvement by the vendor.

Signature of Chief Medical Officer:

SUPPLEMENTAL INFORMATIONAL

1. Members who enroll in the Medallion Program agree to the disclosure of certain protected health information to rescuers in order to provide the Member with assistance in an emergency or if they are lost in the community.

2. The QMU staff answers the Medallion hotline during regular business hours and the Arizona Training Program at Coolidge staff answers the hotline calls after hours.

3. Upon receipt of a call, staff verifies that the caller obtained the phone number from the Medallion identification tag of the Member. Information may be disclosed to the caller, generally expected to be law enforcement, emergency medical providers, or individuals attempting to assist the Member, in the event the Member becomes ill, lost, injured or otherwise physically or

mentally impaired and needs assistance.

4. Protected health information which may be disclosed by staff includes address and applicable individual, parent or guardian contact information, and any health care information relating to the Member that staff determines is needed by the caller in order to provide appropriate medical treatment to the Member or to provide for the Member's safety and welfare until the Member's parent, guardian, or responsible party is able to resume custody of the Member.

5. Staff will not disclose protected health information to a caller who is not law enforcement or emergency medical providers, and contacts the Member's parent, guardian, or responsible party, and arrange for them to resume custody of the Member as soon as possible.

Signature of Chief Medical Officer: Anthony Dekker (Jul 31, 2023 15:16 PDT)

6002-F INVESTIGATIVE PROCESS

REVISION DATE: 11/8/23, 6/29/22, 12/18/19, 10/01/14
EFFECTIVE DATE: July 31, 1993
REFERENCES: Division Medical Policy 960 and 961

PURPOSE

To set forth the requirements for investigative activities performed by the Division of Developmental Disabilities' (Division) Quality Management Unit (QMU) to gather and review information and documentation related to reported incidents involving Members served by the Division.

DEFINITIONS

1. "Investigative Process" means a detailed and systematic collection and verification of facts for the purpose of describing and explaining an incident.

2. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

3. "Quality of Care Concern" means an allegation that any aspect of care or treatment, utilization of behavioral health services or utilization of physical health care services, that caused or could have caused an acute medical condition or acute psychiatric condition, or an exacerbation of a chronic medical condition or chronic psychiatric

condition, and may ultimately cause the risk of harm to a Member.

4. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability, or an adult with a developmental disability who is a member or an applicant for whom no guardian has been appointed as defined in A.R.S. §36-551.

5. "Trauma-Informed Care" means an approach to care that acknowledges the need to understand an individual's life experiences in order to deliver effective care and has the potential to improve engagement, treatment adherence, health outcomes, and provider and staff wellness.

6. "Sentinel Event" means an unexpected event that results in death, serious physical injury, or severe psychological harm.

POLICY

A. INVESTIGATIVE PROCESS AND TRAINING

1. The Division's QMU shall provide investigative training for QMU staff.

2. The QMU nursing leadership shall ensure that clinical staff

complete all required investigative training and achievement of competencies before conducting investigations independently.

3. The Division shall incorporate the principles of Trauma-Informed Care in the training content and requirements for investigations involving individuals with intellectual and developmental disabilities.

4. The Division shall maintain records of attendance and dates for all required investigative training.

B. INVESTIGATIVE PROCESS REQUIREMENTS AND TIMEFRAMES

1. The Division's QMU shall initiate the Investigative Process for all reportable incidents requiring further investigation and adhere to the following investigative requirements and timeframes:
   a. Upon notification of an incident determined to be a Quality of Care (QOC) Concern, initiate the Investigative Process within one business day.
   b. Assign a QMU investigative team to conduct the QOC Concern investigation.
   c. Ensure protective measures are in place to protect the health and safety of the Member or Members.

d. Ensure measures are in place to prevent any direct contact between the Member and any individual alleged to have endangered the health or safety of the Member until the completion of the investigation and any subsequent remediation.

e. Complete information requests for Sentinel Events within one business day.

f. Complete information requests for non-Sentinel Events within seven business days.

g. Information gathering may be completed for incidents determined not to be a QOC Concern as necessary and appropriate.

C. COORDINATION WITH OTHER AGENCIES

1. The QMU may delay its Investigative Process if an external investigation is initiated by a protective services agency, law enforcement agency, other state agencies or regulatory boards, until the external investigation has been completed in order to avoid potential conflicts.

2. If another state agency is involved, the QMU may coordinate

investigative activities with that agency when applicable and appropriate.

D. INVESTIGATIVE ACTIVITIES

1. The QMU shall include the following investigative activities in accordance with the principles of Trauma-Informed Care and the special needs of Members with intellectual and developmental disabilities:

    a. Collection and review of documentation, reports, and information relevant to the incident.

    b. Interview individuals involved in the incident and any witnesses, family members, qualified vendors, Division staff, first responders, or any other individual who may have relevant information.

    c. Allow the Responsible Person to decline an interview at any time during an investigation.

2. The QMU shall enter documentation of investigative activities in the AHCCCS Quality Management Portal.

3. The QMU shall store the compilation of collected information on a QMU shared drive and readily available to QMU staff on a

need-to-know basis containing:

a. The original incident report;

b. Completed District Assignment form; and

c. Information and documents gathered during the Investigative Process.

4. The QMU shall consider all information and documentation obtained during the Investigative Process as confidential and privileged for use in conducting quality assurance activities and use by Division review committees, as well as the information obtained through the Division's Investigative Process, inclusive of the determination and any remediation, is protected from release or discovery under the following Arizona Revised Statutes §§ 36-441, 36-445, 36-445.01, 36-2401 through 36-2404, 36-2917, 36-2932(O) and 41-1959(C)(5).

6002-G REPORTING MEMBER ABUSE, NEGLECT, AND EXPLOITATION

REVISION DATE: 6/14/23, 3/16/22, 9/4/19, 11/29/17, 10/1/14

EFFECTIVE DATE: July 31, 1993

REFERENCES: Title 13, Chapter 14, A.R.S. §§ 13-3620, 13-3401, 14-1501, 46-451(A), 46-454, 36-569, 8-201(2), Division Medical Policies 960, 961, 1620-O

PURPOSE

This policy applies to all Division of Developmental Disabilities (Division) staff and sets forth the responsibilities for reporting suspected Abuse, Neglect, and Exploitation of Members served by the Division to the Department of Child Safety (DCS) and Adult Protective Services (APS), and Tribal Social Services, when applicable, for Members enrolled in the Tribal Health Program.

DEFINITIONS

1. “Abuse” means the infliction of or allowing another individual to inflict or cause physical pain or injury, impairment of bodily function, disfigurement or serious emotional damage which may be evidenced by severe anxiety, depression, withdrawal, or untoward aggressive behavior. Such Abuse may be caused by acts or omissions of an individual having responsibility for the care, custody or control of a

Member receiving behavioral health services or community services. Abuse also includes sexual misconduct, assault, molestation, incest, or prostitution of, or with, a Member under the care of personnel of a mental health agency. A.A.C. R9-21-101(B).

a. "Abuse of a Child" means, as specified in A.R.S. §8-201(2):

i. The infliction or allowing of physical injury, impairment of bodily function or disfigurement or the infliction of or allowing another person to cause serious emotional damage, as evidenced by severe anxiety, depression, withdrawal, or untoward aggressive behavior and which emotional damage is diagnosed by a medical doctor or psychologist and is caused by the acts of omissions of an individual who has the care, custody, and control of a child. Abuse includes:

ii. Inflicting or allowing sexual abuse, sexual conduct with a minor, sexual assault, molestation of a Child, commercial sexual exploitation of a minor, sexual exploitation of a minor, incest, or child sex trafficking as those acts are described in the Arizona Revised Statute Title 13, Chapter 14.

iii. Physical Injury that results from permitting a Child to enter or remain in any structure or vehicle in which volatile, toxic, or flammable chemicals are found, or equipment is possessed by any person for the purpose of manufacturing a dangerous drug as defined in A.R.S. § 13-3401.

iv. Unreasonable confinement of a Child.

b. "Abuse of a Vulnerable Adult" means, as specified in A.R.S. §46-451(A)(1):

i. Intentional infliction of physical harm,

ii. Injury caused by negligent acts or omissions,

iii. Unreasonable confinement,

iv. Sexual abuse or sexual assault.

2. "Adult" means a member 18 years of age or older.

3. "Child" means a Member under the age of 18 years.

4. "Exploitation of a Vulnerable Adult" means, as specified in A.R.S. § 46-451(A)(5), the illegal or improper use of a Vulnerable Adult or the Vulnerable Adult's resources for another's profit or advantage.

5. "Incapacity" means an impairment by reason of mental illness, mental

deficiency, mental disorder, physical illness or disability, advanced age, chronic use of drugs, chronic intoxication, or other cause to the extent that the person lacks sufficient understanding or capacity to make or communicate informed decisions concerning their person.

6. "Member" means an individual enrolled with the Division of Developmental Disabilities.
7. "Neglect" means, as specified inA.R.S. § 36-569:
    a. Intentional lack of attention to physical needs of Members such as toileting, bathing, meals, and safety.
    b. Intentional failure to report health problems or changes in health condition to an immediate supervisor or nurse.
    c. Sleeping on duty or abandoning workstation.
    d. Intentional failure to carry out a prescribed treatment plan for a Member.
8. "Neglect of a Child" means, as specified in A.R.S. § 8-201:
    a. The inability or unwillingness of a parent, guardian, or custodian of a Child to provide that Child with supervision, food, clothing, shelter, or medical care if that inability or unwillingness causes substantial risk or harm to the Child's health or welfare, except if the inability of a parent, guardian, or custodian to provide

services to meet the needs of a Child with a disability or chronic illness is solely the result of unavailability of reasonable services.

b. Allowing a child to enter or remain in any structure or vehicle in which volatile, toxic or flammable chemicals are found or equipment is possessed by any person with the intent and for the purpose of manufacturing a dangerous drug as defined in section 13-3401.

9. "Neglect of a Vulnerable Adult" means, as specified in A.R.S. § 46-451(A)(7), the deprivation of food, water, medication, medical services, shelter, supervision, cooling, heating, or other services necessary to maintain a vulnerable adult's minimum physical or mental health.

10. "Physical Injury" means the impairment of physical condition, including skin bruising, pressure sores, bleeding, failure to thrive, malnutrition, dehydration, burns, fracture of any bone, subdural hematoma, soft tissue swelling, injury to any internal organ, or any physical condition which imperils health or welfare.

11. "Serious Injury" means any type of injury requiring medical care or treatment beyond first aid, including assessment or treatment in an emergency room, treatment center, physician's office, urgent care, or admission to a hospital.

12. "Vulnerable Adult" means, as specified in A.R.S. §46-451(A)(10), a Member who is 18 years of age or older who is unable to protect themselves from Abuse, Neglect, or Exploitation by others because of a mental or physical impairment. Vulnerable Adult includes an incapacitated person as defined in A.R.S. §14-1501.

POLICY

A. REPORTS TO DEPARTMENT OF CHILD SAFETY

1. Division staff who suspect Abuse of a Child or Neglect of a Child shall immediately report to the Department of Child Safety (DCS) in accordance with A.R.S. §13-3620.

    a. Reports must be made to DCS within 24 hours per instructions provided on the DCS website at https://dcs.az.gov/, including notification by phone: 1-888-SOS-CHILD (1- 888-767-2445), and documenting the Member's progress notes in Focus.

2. Division staff shall provide all pertinent information regarding the alleged Abuse or Neglect to the DCS worker, including:

    a. The names and addresses of the minor and their parents or person(s) having custody of such minor.

b. The minor's age and the nature and extent of their Abuse,Neglect, or Exploitation including any evidence of previous Abuse, Neglect, or Exploitation.

c. Any other information that might be helpful in establishing the cause of the Abuse, Neglect, or Exploitation.

3. Division staff shall cooperate with the DCS investigator during the DCS investigations.

4. Division staff shall submit a completed Incident Call Report (DDD-1746A-FORFF) to the appropriate District Incident Report mailbox when a report is made to DCS.

5. The Quality Management Unit shall triage all reported incidents to determine if the incident requires a quality of care investigation in accordance with Division Medical Policies 960 and 961.

B. REPORTS TO ADULT PROTECTIVE SERVICES

1. Division staff who suspect Abuse, Neglect, or Exploitation of an Adult shall immediately report to Adult Protective Services (APS).

2. Division staff shall report all pertinent information to APS, including:

a. The names and addresses of the Adult and any persons

having responsibility for or custody of the Adult, if known.

b. The Adult's age and the nature and extent of their incapacity or vulnerability.

c. The nature and extent of the Adult's Abuse, Neglect, or Exploitation.

d. Any other information that might be helpful in establishing the cause of Abuse, Neglect, or Exploitation.

3. Division staff shall submit a completed Incident Call Report to the appropriate District Incident Report mailbox when a report is made to APS.

4. The Division Quality Management Unit shall triage all reported incidents to determine if the incident requires a quality of care investigation in accordance with Division Medical Policies 960 and 961.

6002-I INCIDENT AND QUALITY OF CARE CONCERN CORRECTIVE ACTIONS AND CLOSURE

REVISION DATE: 8/2/23, 1/26/22, 11/29/17, 3/2/15

EFFECTIVE DATE: July 31, 1993

REFERENCES: A.R.S. §36-551; AMPM 960

PURPOSE

To establish the requirements for assigning Corrective Action Plans related to Incidents and Quality of Care Concerns, and closing cases.

DEFINITIONS

1. "Corrective Action Plan" means a written work plan that identifies the root cause(s) of a deficiency, includes goals and objectives, actions to be taken to facilitate an expedient return to compliance, methodologies to be used to accomplish Corrective Action Plan (CAP) goals and objectives, and staff responsible to conduct the CAP within established timelines.

2. "Incident" means an occurrence which has or could potentially affect the health and well-being of a Member enrolled with the Division of Developmental Disabilities or poses a risk to the community.

3. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

4. "Member-Specific Corrective Action" means a corrective action that requires the Member's Planning Team to reconvene to discuss the Incident and review the need for any changes in the Planning Document or Risk Assessment to ensure the health and safety of the Member.

5. "Quality of Care Concern" means an allegation that any aspect of care, or treatment, utilization of behavioral health services or utilization of physical health care services, which caused or could have caused an acute medical or psychiatric condition or an exacerbation of a chronic medical or psychiatric condition, and may ultimately cause the risk of harm to a Member.

6. "Systemic Corrective Action" means a corrective action that requires the vendor to revise or clarify their own policy, procedure, implement specialized training of staff, or take other quality improvement actions to increase the ability of the vendor to improve the health and well-being of Members served.

7. "Systemic Concern" means a concern derived from tracking and trending that indicates an issue inherent in the overall system.

POLICY

A. CORRECTIVE ACTION PLANS

1. The Division's Quality Management Unit shall determine if an Incident is deemed a Quality of Care (QOC) Concern. A QOC may require corrective action(s) which could be Member-Specific or Systemic.

2. If a QOC investigation results in substantiated allegations, the Division's Quality Management Unit (QMU) Investigative Nurse shall:

   a. Request the service provider to submit a corrective action for each substantiated allegation;

   b. Track the requests for corrective action;

   c. Send follow-up requests to the service provider if the previous requests remain unmet; and

   d. Elevate the matter to QMU Leadership if the service provider is unresponsive to the requests for corrective action.

3. The Quality Management (QM) Nursing Supervisors shall make referrals to the Contract Action Unit and notify the Chief Quality Officer, QM Medical Director and Chief Medical Officer of the service

provider's non-compliance and involvement of the Contract Action Unit.

4. The Division shall conduct monitoring through Incident track and trend data or an onsite visit to validate sustainment of the vendor's submitted Corrective Action Plan (CAP).

5. The QM Nursing Supervisors shall elevate non-compliance with CAP remediation to the Chief Quality Officer, QM Medical Director and Chief Medical Officer, which may involve the Contract Action Unit.

B. INCIDENT CLOSURE

1. The QMU shall send an Incident that is not deemed a QOC Concern to the corresponding District personnel. The Division shall consider it complete when District personnel makes a notation in Focus and closes the file, which is to be kept on record for tracking and trending.

2. The Division shall consider an Incident that is deemed a QOC Concern by the Division's QMU complete when all the following are completed:

   a. The fact-finding and investigation are completed;

b. Recommendations for corrective action(s) are identified and communicated to the qualified vendor or provider of service;

c. QMU monitors the receipt of CAPs;

d. QMU approves the CAPs;

e. QMU monitors the implementation of CAPs and recommends closure when the remediation is complete;

f. Designated District personnel receive either a No Action Required letter or a Remediation CAP letter indicating that the investigation is complete, then verifies the information entered in Focus and closes the case; and

g. QMU Investigator submits the QOC to AHCCCS via AHCCCS QM Portal.

6002-M MORTALITY REVIEW PROCESS

REVISION DATE: 6/14/23, 11/10/21, 11/29/17, 3/02/15
EFFECTIVE DATE: July 31, 1993

PURPOSE

To set forth the mortality review process and requirements used by the Division of Developmental Disabilities (Division) upon notification of deaths of Members served by the Division. The mortality review process is designed to identify issues and concerns that may have compromised the medical, behavioral, or overall care provided to a Member and trigger corrective action and strategies to mitigate future risk.

DEFINITIONS

1. "Fatal Five" means a group of preventable conditions that are often fatal for people with intellectual and developmental disabilities. They include aspiration, bowel obstruction, dehydration, gastroesophageal reflux, seizures.
2. "Member" means, for purposes of this policy, an individual enrolled with the Division of Developmental Disabilities at the time of death.
3. "Quality of Care Concern" means, for purposes of this policy, an allegation that any aspect of care or treatment, utilization of behavioral health services or utilization of physical health care

services, which caused or could have caused an acute medical or psychiatric condition or an exacerbation of a chronic medical or psychiatric condition, and ultimately caused or contributed to the death of a Member.

4. "Support Coordinator" means an individual assigned as responsible for locating, accessing, and monitoring the provision of services to individuals in conjunction with a clinical team.

POLICY

A. NOTIFICATION

1. The Division may receive notification of a Member's death from various sources including:

    a. Vendors,
    b. Family members,
    c. Support coordinators,
    d. Health Care Services,
    e. Subcontracted health plans, and
    f. Claims data or eligibility files.

2. Upon notification of the death of a Member Division staff shall ensure that an incident report is completed and entered in the

Incident Management System.

3. A triage nurse shall send the incident reports involving a death of a Member to the Chief Medical Officer (CMO) or designee for review.

4. The CMO or designee shall notify the Quality Management Unit (QMU) for investigation if the CMO or designee determine a death should be reviewed as a Quality of Care (QOC) Concern.

5. A QMU investigative nurse shall prepare a monthly mortality tracker spreadsheet that contains information from all deaths in the Incident Management System database since the last reporting period, and includes information collected from other sources relevant to the death such as:

    a. The deceased Member's service plan,
    b. Information about the qualifying diagnosis(es) of the deceased Member,
    c. Identity of the provider of services at the time of death,
    d. Location of death,
    e. Any other recent incident reports involving the deceased Member, and

f. Support Coordinator progress notes.

B. MORTALITY REVIEW COMMITTEE

1. The Division's Mortality Review Committee shall meet monthly to review and discuss deaths of Members served by the Division, and includes:

   a. Reviewing the monthly mortality tracker spreadsheet;
   b. Determining unanimously that a death is explained, involved no QOC Concerns, and needs no further investigation;
   c. Referring cases to the QMU for further investigation if at least one committee member believes it should be a QOC Concern;
   d. Identifying process or systemic issues surrounding a death;
   e. Identifying and maintaining aggregate data on cases involving deaths from one of the Fatal Five and deaths related to Covid-19; and
   f. Making recommendations to develop or revise policies, procedures, and standard work.

2. The MRC shall not review any cases with an incomplete QOC investigation.

3. The QM Nurse Administrator shall forward the MRC meeting minutes to the Quality Management Subcommittee and the Quality Management/Performance Improvement Committee for reporting to Division Executive Leadership, including aggregate data on deaths from one of the Fatal Five and deaths related to COVID-19.

4. The Mortality Review Committee may directly refer cases to the Division's Peer Review Committee, if appropriate.

5. The QM Medical Director shall forward cases identified as peer review to the Nursing Program Administrator for tracking and presentation at the Peer Review Committee.

Signature of Chief Medical Officer: Anthony Dekker (Jun 8, 2023 15:16 PDT)
Anthony Dekker, D.O.

6002-N FRAUD AND FALSE CLAIMS

REVISION DATE: 07/28/2021, 10/1/2019, 11/29/2017, 6/10/2016, 3/2/2015

EFFECTIVE DATE: July 31, 1993

REFERENCES: A.R.S. § 13-1802, 13-2002, 13-2310, 13-2311, 36-2918; A.A.C. R6-6-801 et seq., R6-6-1001 et seq., R6-6-1101 et seq., R6-6-1501 et seq.; 42 CFR 455.2; Public Law No: 109-171 (Deficit Reduction Act of 2005); 31 U.S.C. § 3729-3733 (False Claims Act)

PURPOSE

This policy provides an overview of key provisions of the False Claims Act (FCA) and related legal requirements as required by the Deficit Reduction Act of 2005 (DRA) for the Division of Developmental Disabilities (Division). This policy defines fraud and describes the procedures for prevention, detection, and reporting of fraud, false claims, and abuse within the Division.

POLICY OBJECTIVES

The objectives of this policy are to:

A. Prevent or detect fraud and abuse

B. Delineate reporting requirements

C. Define procedures

D. Explain Corporate Compliance

E. Describe training requirements

F. Specify policy requirements for providers

DEFINITIONS

Abuse - Provider practices that are inconsistent with sound fiscal, business or medical practices and result in an unnecessary cost to the Medicaid program, or in reimbursement for services that are not medically necessary, or that fail to meet professionally recognized standards for health care, noncompliance with licensure standards, misuse of billing numbers, or misuse or abuse of billing privileges. It also includes beneficiary practices that result in unnecessary cost to the Medicaid program as specified in 42 CFR 455.2.

Code of Federal Regulations (CFR) - is the codification of the general and permanent rules and regulations published in the Federal Register by the departments and agencies of the Federal Government.

Claim – Under the False Claims Act , the definition of “claim” includes any request or demand, whether under contract or otherwise, for money or property which is made to a contractor, grantee, or other recipient if the United States government provides any portion of the money or property which is requested or demanded, or if the government will reimburse such contractor, grantee, or other recipient for any portion of the money or property which is requested or demanded.

Deficit Reduction Act (DRA) –The Deficit Reduction Act of 2005, is a United States Act of Congress concerning the budget (Public Law No: 109-171 (02/08/2006)). It addresses deficit reductions ranging from education to housing and Medicare to Medicaid. In addition, any entity that receives or makes annual Medicaid payments, under the State plan, of at least $5 million must implement written policies for its employees, management, contractors and agents regarding the False Claims Act.

False Claims Act (FCA) - The FCA, also called the "Lincoln Law" is an American federal law that imposes liability on persons and companies (typically federal contractors) who defraud governmental programs (31 U.S.C. § 3729-3733). It is the federal Government's primary litigation tool in combating fraud against the Government. The law includes a qui tam provision that allows people who are not affiliated with the government, called "relators" under the law, to file actions on behalf of the government (informally called "whistleblowing" especially when the relator is employed by the organization accused in the suit).

Fraud - An intentional deception or misrepresentation made by a person with the knowledge that the deception could result in an unauthorized benefit to himself or another person. It includes any act that constitutes fraud under applicable federal or state law, as specified in 42 CFR 455.2. 42 CFR 455.2

An act of fraud has been committed when a member or provider:

1. Knowingly presents (or causes to be presented) to the federal government a false or fraudulent claim for payment.

2. Knowingly uses (or causes to be used) a false record or statement to get a claim paid by the federal government.

3. Conspires with others to get a false or fraudulent claim paid by the federal government.

4. Knowingly uses (or causes to be used) a false record or statement to conceal, avoid, or decrease an obligation to pay money to transmit property to the federal government

Potential - Based on one's professional judgment, the appearance that an incident of fraud and abuse may have occurred. The standard of professional judgment used would be that judgment exercised by a reasonable and prudent person acting in a similar capacity.

Preliminary Fact-Finding Investigation - When the Division receives a complaint of potential fraud and abuse from any source or identifies any questionable practice, it may conduct a preliminary fact-finding to determine whether there is a sufficient basis to warrant a full investigation by the Office of the Inspector General, Arizona Health Care Cost Containment System (AHCCCS) Office of Program Integrity.

Prevention - Keeping something from happening.

Primary Contact - The central person within the Division who is charged with the responsibility to report potential incidents of fraud and abuse to the AHCCCS as specified in this policy.

Provider - A person, entity or employee of an entity that subcontracts with the Division for the delivery of services to members. All providers must meet the specific qualifications outlined in the Division Policy Manual. All providers of Arizona Long Term Care System (ALTCS) services must be registered with AHCCCS. Health Plans under contract with the Division are responsible for credentialing acute care providers.

Remittance Advice - A document detailing the status of each line item in a provider claim, by member specificity. It reports the resolution for each line as paid, denied, or pended. Reason codes are attached and summarized for those lines denied.

Waste - As defined by AHCCCS, the overutilization of services or other practices that result in unnecessary costs to the Medicaid program.

POLICY

PREVENTION AND DETECTION

The Division is committed to fostering a culture of compliance and an environment conducive to preventing and detecting fraud, waste, and abuse. The Division provides training to its employees about their role in reporting concerns and problems in relation to compliance and ethics. All Division employees are required to report any concerns relating to potential fraud, waste, and abuse, including false claims. This responsibility is intended to allow the Division to monitor and do improvement planning pertaining to false claims processing or other aspect of organizational compliance. Any employee who fails to report properly either through internal lines of communication or to AHCCCS Office of Inspector General (AHCCCS OIG), when that person knows of conduct constituting a violation of the FCA or any other related legal provision in the Division's Corporate Compliance Program, will be subject to discipline, up to and including termination.

As part of the Division's Compliance Program objectives, all employees, contractors, agents, subcontractors, in particular those involved in the provision or arrangement of provision of services, under government programs including members and providers, must report potential violations of this policy. Reports may be made anonymously; the person doing the reporting may request confidentiality and will be protected from any retaliatory action. The Division establishes internal controls on the member payment system including claim edits and prior authorization requirements. The Claims System is used to prevent and/or detect payments to providers when services were not performed, not authorized, or otherwise inappropriate. The original claims process is tested for the validity of its ability to detect fraud and misuse by reporting high utilization by members, underutilization by members, inappropriate service costs, and analyzing units by service title, month by month over the fiscal year. referral to AHCCCS OIG for suspicion of fraud, waste, or abuse. The Business Operations Unit conducts a post-payment review process, as outlined below:

A. Claims Edits

Claims are edited through a computerized system. During the initial processing of a claim, the claim is reviewed for items such as member eligibility, covered services, excessive or unusual services, duplication of services, prior authorization, invalid rate codes, and duplicate claims. Claims are reviewed if the provider has exhausted all authorized units.

The Division segregates the functions of service authorization and claims processing.

B. Post Processing Review of Claims

Once claims are paid, the Division conducts a retrospective review of a sample of claims to ensure that the processing of the claim was specific to the processing instructions for the specific review. The Division conducts audits of claims payments to attain reasonable assurance that payments are being prepared correctly for the claims submitted by authorized providers for eligible AHCCCS members. The Division reviews detailed remittance advice. The Auditor General performs an annual audit of the ALTCS program including claims processing and payment.

C. Prior Authorization

All services must receive prior authorization. Prior authorization criteria are determined using the guidelines set forth in DDD Provider Policy Manual and the AHCCCS Medical Policy Manual (AMPM).

D. Utilization/Quality Management

The Division complies with the requirements set forth in the AMPM.

E. Contract Provisions

All providers must comply with the "Uniform General Terms and Conditions" and the "Special Terms and Conditions" of the Qualified Vendor Agreement or the terms of the Independent Provider's "Individual Service Agreement."

F. Reporting

The Division enters all reports of suspected fraud or false claims into the Incident Management System (IMS). The incidents are reviewed, trended, and reported as required.

The IMS is the tracking system for any suspected fraud or false claims reported by providers, members, or staff.

Report suspected fraud, waste, or abuse via one of the following:

1. Call the toll-free DES/DDD Hotline at 877-822-5799.

2. Report the incident by completing the online referral form:

   https://des.az.gov/how-do-i/report-suspected-fraud/developmental-disabilities-fraud

3. Mail to:

   DES/DDD
   Attention: Corporate Compliance Unit
   1789 W. Jefferson Street
   Phoenix, AZ 85007

4. Email: DDDFWA@azdes.gov

5. Contact AHCCCS through their website:

   https:/www.azahcccs.gov/Fraud/AboutOIG/

FALSE CLAIMS ACT

The False Claims Act (FCA) covers fraud involving any federally funded contract or program, with the exception of tax fraud. Liability for violating the FCA is equal to three times the dollar amount that the government is defrauded and civil penalties of $11,665 to $23,331 (adjusted time to time for inflation) for each false claim.

An individual can receive an award for "blowing the whistle" under the FCA. In order to receive an award, the person must file a "qui tam" lawsuit. An award is only issued if, and after, the government recovers money from the defendant as a result of the lawsuit.

The amount of the award is generally between 15 and 30 percent of the total amount recovered from the defendant, whether through a favorable judgment or settlement. The amount of the award depends, in part, upon the government's participation in the suit and the extent to which the person substantially contributed to the prosecution of the action.

The "whistleblower" is protected under the FCA. The FCA and related law commits that no person will be subject to retaliatory action for reporting credible misconduct. Pursuant to the Division's commitment to compliance with the FCA and other applicable laws, no employee will be discharged, demoted, suspended, threatened, harassed, or in any other manner discriminated against in the terms and conditions of employment by the Division solely because of actions taken to report potential fraud, waste and abuse, or other lawful acts by the employee in connection with internal reporting of compliance issues or an action filed or to be filed under the FCA.

CORPORATE COMPLIANCE

The Corporate Compliance Officer implements, oversees, and administers the Division's compliance program including fraud and abuse control. The Corporate Compliance Officer is an on-site management official, available to all employees, with designated and recognized authority to access and provide records and make independent referrals to the AHCCCS Office of Inspector General.

The Division reviews, analyzes, and trends fraud and false claims through the Corporate Compliance Committee meeting held at least quarterly. The committee is a body comprised of the Chief Compliance Officer and Executive Leadership. Executive Leadership is limited to the following positions/designees:

- Assistant Director/Chief Executive Officer
- Office of Person-Centered Care/Deputy Assistant Director
- Chief Financial Officer/Deputy Assistant Director
- Chief Medical Officer

- Legal & Regulatory Services Administrator
- Compliance Administrator
- Contract Compliance Officer
- Health Plan Compliance Officer
- Fraud, Waste and Abuse Manager
- Privacy Officer
- Policy Manager
- Chief Quality Officer
- Medical Management Manager
- DDD Human Resources Designee
- AzEIP Bureau Chief
- Legal Advisor/Attorney General's Office/DES Legal Representation

The Corporate Compliance Committee meeting includes information that has been forwarded for review through more frequent standing committees. Information that may be included at a Corporate Compliance Committee meeting includes but is not limited to:

- Incident Management System data (including suspected fraud)
- Resolution System data
- Program Monitoring reviews, claim disputes, appeals and state fair hearings
- Monthly meetings between the Attorney General's Office, Office of Administrative Review, Assistant Director and Executive Leadership to review any pending litigation
- Compliance Risk Management data analysis and remediation
- Development of strategies to promote compliance and detect any potential violations
- Development, implementation and monitoring of Corrective Action Plan (CAP)
- Training and Education
- Review of Compliance policies and procedures
- Approval of Standards of Conduct
- Identification of staffing needs and resources of the Compliance Unit
- Communications to all colleagues regarding compliance issues (e.g., HIPAA, Code of Conduct violations, Whistleblower Protections, False Claims)

The committee makes recommendations for improvement of the compliance program as identified through the analysis and review of reports. This committee is authorized to implement or require implementation of all necessary actions to ensure that the Division achieves the goals of an effective compliance program.

TRAINING

The Division provides training through the continuous core curriculum and computer-based training regarding fraud, waste, and abuse. The Corporate Compliance Unit provides additional in-service training to each District regarding compliance issues including the FCA. The Division has contract language requiring Qualified Vendors to comply with the Deficit Reduction Act including providing training to their employees.

6003-C APPEAL PROCESS FOR MEMBERS WHO RECEIVE STATE FUNDED SERVICES

REVISION DATE: 8/28/2019, 2/26/2016, 1/15/2016, 3/2/2015
EFFECTIVE DATE: July 31, 1993

When a decision is rendered by the Assistant Director (AD) with which the member or his/her responsible person does not agree, he/she may file a request for a hearing by the Department of Economic Security (DES) Office of Appeals. The appeal request must be made in writing and received by Office of Administrative Review (OAR) no later than 30 calendar days after the postmark date of the decision letter. The request should be sent to:

DES/DDD
Office of Administrative Review
4000 North Central Avenue
3 3rd Floor, Suite 301p 2HE5
Phoenix, Arizona 85012

Once the hearing request is made, OAR staff will prepare a duplicate file for submission to DES along with the hearing request. This file will include copies of the Notice of Intended Action, request for administrative review, investigative materials, and the decision letter.

DES representatives will schedule the hearing and the member/responsible person will be notified of the date and time of the hearing in writing. DES will also notify OAR of the hearing schedule.

At the hearing, the member or his/her responsible person, including any legal representative and a Division representative will meet with a DES Hearing Officer. This hearing is informal and the rules of evidence do not apply.

Based on the information gathered by the Hearing Officer through testimony, presentation of evidence, and the record supplied by OAR, the Hearing Officer will prepare written findings of fact and conclusions of law, and render a decision in writing. Any member adversely affected by the decision will be notified by the Hearing Officer of the right to appeal the decision.

An appeal of the Hearing Officer's decision, if requested, must be made to the DES Office of Appeals no later than 15 calendar days after the date of the decision. The request must completely explain the grounds on which the appeal is being made.

Appeal requests should be sent to:

DES Office of Appeals
1951 West Camelback Road, Suite 360
Phoenix, Arizona 85015

The DES Office of Appeals/Appeals Board (the Board) will decide the appeal. The Board will issue a final written decision on the matter within a reasonable time period.

If the member or his/her responsible person is still not satisfied with the decision, he/she may seek judicial review of the DES decision through the court system. All administrative remedies must be exhausted before the court will consider the case.

6003-D NOTICE OF INTENDED ACTION (STATE ONLY)

REVISION DATE: 3/2/2015
EFFECTIVE DATE: July 31, 1993
REFERENCES: A.R.S. § 36-563; A.A.C. R6-6-1802

A Support Coordinator or District representative must issue a written Notice of Intended Action to any member/responsible person who receives services from Department of Economic Security (DES)/Division of Developmental Disabilities (DDD) that is not eligible to receive Arizona Long Term Care System (ALTCS) services, or the service is not an ALTCS covered service.

State only actions include:

A. Service denial, change, reduction, termination; or,

B. Eligibility is denied or terminated.

The notice must be issued on the Division form, *Notice of Intended Action* or *Service System Discharge*, and include the following information:

A. The name and address of the responsible person;

B. The date that the notice is mailed;

C. The name of the member affected by this action;

D. The action that is being taken;

E. The effective date of the action;

F. The reason for the action;

G. What the member/responsible person can do if he/she does not agree with the action being taken; and,

H. The signature of the person authorized to make the decision regarding the determinations noted previously.

Every effort must be made to explain the action using vocabulary the member/responsible person will understand. The notice will be written in English and when appropriate and reasonably possible to do so, in the primary language of the recipient. If the recipient cannot understand the notice, the recipient may call the Support Coordinator for assistance with interpretation.

6003-E ADMINISTRATIVE REVIEW PROCESS (STATE ONLY)

REVISION DATE: 8/28/2019, 3/2/2015
EFFECTIVE DATE: July 31, 1993
REFERENCES: A.R.S. § 36-563; A.A.C. R6-6-1803

If the member or his/her responsible person does not wish to pursue informal resolution of his/her complaint, or the informal resolution process was not successful, a request for administrative review can be made. This request must be made within 35 calendar days of the attempted informal resolution or written notice of intended action. If there was no informal resolution process or written notice, the member or his/her responsible person has 35 calendar days from the date of the initial problem to request an administrative review.

The request should be made either in writing or by telephone to the Office of Administrative Review (OAR). Verbal requests will not be accepted.

Whatever manner of request for a review is used, the following information must be given:

A. Member's name, date of incident, address, identification number, birth date and health plan, if appropriate.

B. Responsible person's name, relationship, and telephone number.

C. Support Coordinator's name and telephone number.

D. Physician's name, if applicable.

E. Statement of the nature of the complaint and the action requested.

All written requests for Administrative review should be sent to:

DES/DDD
Office of Administrative Review
4000 North Central Avenue
3 3rd Floor, Suite 301p 2HE5
P hoenix, Arizona 85012

OAR will complete a review and investigation of the stated issues. OAR staff will submit a request for facts to the District office. Any documentation of the administrative review must be returned to OAR within 5 calendar days. OAR staff will then contact the member or his/her responsible person, medical providers, service providers and/or District staff to obtain additional information. Relevant policies will be reviewed and Central Office staff will be consulted as necessary. Once the fact finding is complete, a written decision will be rendered to the member or his/her responsible person within thirty (30) calendar days of receipt of the member's administrative review request.

There will be no change in the member's status or the services he/she receives while the administrative review is occurring. An exception may be allowed under certain circumstances (i.e., a member may need additional services and/or care if necessitated by a change in health status).

6003-F FAIR HEARINGS AND APPEALS

REVISION DATE: 02/22/2023, 03/02/2015

EFFECTIVE DATE: July 31,1993

REFERENCES: A.A.C R6-6-2201; A.A.C. R6-6-2202

PURPOSE

The purpose of this policy is to outline the process of appealing the outcome of an Administrative Review.

DEFINITIONS

1. "Administrative Decision" means the Division's written decision resulting from an Administrative Review.
2. "Appeal" means a request for a hearing pursuant to Article 22 under this Chapter to adjudicate the Division's Administrative Decision or proceeding pursuant to R6-6- 1808(B)(1).

POLICY

A. APPEALING AN ADMINISTRATIVE REVIEW DECISION

The Division shall accept a request for a hearing with the AHCCCS Administration to appeal the Administrative Decision when a member disagrees with a decision the Division rendered in an administrative review when:

1. The request is in writing, and
2. Filed no later than 15 calendar days of the personal delivery or postmark date of the Administrative Review decision.

B. FILING AN APPEAL

1. The Division shall consider appeals received when the document is received:
   a. Transmitted via the United States Postal Service, on the date it is mailed. The mailing date shall be:
      i. As shown by the postmark; or
      ii. As shown by the postage meter mark of the envelope in which it is received if there is no postmark; or
      iii. The date entered on the document as the date of its completion, if there is no postmark, or no postage meter mark, or if the mark is illegible.
   b. On the date it is received by the Department, if transmitted by any means other than the United States Postal Service.

c. The submission of any document not within the specified statutory or regulatory period shall be considered timely if it is established to the satisfaction of the Department that the delay in submission was due to Department error or misinformation, or to delay caused by the United States Postal Service.

2. The Division shall forward the request directly to the AHCCCS Grievance and Appeals Division.
3. Any document mailed by the Division shall be considered as having been served on the addressee on the date it is mailed to the addressee's last known address. The date mailed shall be presumed to be the date of the document, unless otherwise indicated.
4. The Division shall advise the requestor of the right to counsel and, if requested, provide additional information on how to complete the hearing request.

6003-G MEMBER INQUIRY AND GRIEVANCE RESOLUTION

REVISION DATE: 1/10/2024, 4/29/2020, 8/14/2019, 4/10/2019, 6/10/2016, 3/2/2015

REVIEW DATE: 6/3/2023

EFFECTIVE DATE: July 31, 1993

REFERENCES: 45 CFR Part 164, 42 CFR Part 438, Subpart F, 42 CFR §§ 438.408(a) and (b), A.A.C. Chapter 34: R9-34-202, R9-34-209, R9-34-210 and R9-34-212, AHCCCS Contract, Section D, Program Requirements, 20 Grievance and Appeal System, AHCCCS Contract, Section F, Attachment F1.

PURPOSE

This policy outlines the Division's responsibilities when an Inquiry is received or a Grievance is filed with the Division's Customer Service Center (CSC).

DEFINITIONS

1. "Business Days" means 8:00 a.m. to 5:00 p.m., Monday through Friday, excluding holidays listed in A.R.S. § 1-301.
2. "Complainant" means the person(s) expressing the dissatisfaction or requesting to file a grievance.
3. "Functional Area" means a business unit or department within the Division.

4. "Grievance" means a verbal or written expression of dissatisfaction with any matter, other than an adverse benefit determination.

5. "Grievance Manager" means the individual who is assigned to work with the complainant through resolution.

6. "Inquiry" means a question received by the Customer Service Center.

7. "Planning Team" means a defined group of individuals comprised of the Member, the Responsible Person if other than the Member, and, with the Responsible Person's consent, any individuals important in the member's life, including extended family members, friends, service providers, community resource providers, representatives from religious/spiritual organizations, and agents from other service systems.

8. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

9. "Quality of Care Concern" or "QOC Concern" means an

allegation that any aspect of care or treatment, utilization of behavioral health services, or utilization of physical health care services that:

a. Caused or could have caused an acute medical or psychiatric condition or an exacerbation of a chronic medical or psychiatric condition; and

b. May ultimately cause the risk of harm to a member.

10. "Resolution System" means the application within Focus used to document Member and Provider Grievances.

11. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a Member or an applicant for whom no guardian has been appointed.

12. "Support Coordinator" means the same as "Case Manager" under A.R.S. § 36-551.

POLICY

A. INTAKE TRIAGE

1. The Division's Customer Service Center (CSC) shall receive Inquiries and Grievances by:

   a. Phone - 1-844-770-9500 option 1, or

   b. Email - DDDCustomerServiceCenter@azdes.gov, or

   c. Mail - DES/DDD Customer Service Center

      1789 W. Jefferson St.

      Mail Drop 2HB3

      Phoenix, AZ 85007

   d. Referral from Division staff

2. The CSC shall evaluate each phone call, email, or letter received to determine if the correspondence is a Quality of Care Concern (QOC), an Inquiry, or a Grievance.

3. The CSC, when a QOC has been identified, shall:

   a. Notify the appropriate Functional Area immediately,

but no later than the close of the next business day, when an imminent health, safety, or clinically urgent risk exists.

b. Inform the individual who contacted the CSC that the concern will be elevated as a QOC and that the QOC triage process will be followed per Division Medical Policy 960.

4. The CSC shall respond to the Inquiry or inform the individual who contacted the CSC that they will be contacted within five Business Days when the Inquiry or Complaint is related to the Division, its contracted entities, or authorized services.

5. The CSC shall not disclose any confidential information in accordance with 45 CFR Part 164 Health Insurance Portability and Accountability Act (HIPAA) and in accordance with A.R.S. § 36-2917.

6. The CSC shall provide the individual who contacted the CSC with the contact information for the appropriate organization(s) when the Inquiry or Complaint is not

related to the Division, its contracted entities, or authorized services.

7. The CSC, when a Grievance is filed, shall provide the individual who contacted the CSC with their Grievance number and inform them they will be assigned a Grievance Manager who will work with them through resolution.

B. INQUIRY RESOLUTION

1. The CSC shall monitor Inquiries to ensure the individual who contacted the CSC is assisted timely.

2. The CSC shall maintain tracking logs that record the receipt, relevant information, and resolution of Inquiries.

3. The CSC shall request technical assistance when an Inquiry cannot be resolved timely.

4. The CSC shall resolve the Inquiry and provide the individual who contacted the CSC with a response.

C. GRIEVANCE RESOLUTION

1. The CSC shall provide the Complainant with a verbal

receipt of the Grievance at the time the Grievance is made and when requested by the Complainant, provide a written receipt of the Grievance.

2. The CSC shall document the receipt of the Grievance and the substance of the Grievance in the Division's Resolution System.

3. The CSC shall provide updates to the complainant on the progress of the Grievance.

4. The CSC shall ensure the person completing the Grievance investigation has no involvement in any previous level of review or decision-making regarding the Grievance.

5. The CSC shall ensure healthcare professionals have the appropriate clinical expertise to complete an investigation and make the decision when:

    a. A Grievance regarding a denial of an expedited resolution of appeal is received, or

    b. A Grievance involves clinical issues.

6. The CSC shall ensure all applicable documentation, including all aspects of care, is reviewed prior to making a decision.

7. The CSC shall engage additional Functional Areas when necessary to resolve the Grievance.

8. The CSC shall resolve the Grievance within 10 Business Days, but not to exceed 90 days, after the CSC receives the Grievance.

9. The CSC shall contact the Complainant to inform them of the resolution.

10. The CSC shall mail the Grievance disposition closure letter to the Complainant within 10 Business Days of resolution.

11. The CSC shall provide a Grievance disposition closure letter that includes a summary of the Grievance submitted and the resolution.

12. The CSC shall not provide the resolution in the Grievance disposition closure letter when the Grievance is closed due

to a QOC escalation.

13. The CSC shall ensure documentation of the Grievance, investigation steps, and actions taken for resolution are documented in the Division's Resolution System.

E. SUPPLEMENTAL INFORMATION

1. Refer to Division Operations Policy 446 for Grievances and Investigations concerning persons designated with a Serious Mental Illness.
2. For Provider Inquiries and Grievances, refer to Division Operations Policy 6003-H.

6003-H PROVIDER INQUIRY AND GRIEVANCE RESOLUTION

EFFECTIVE DATE: January 10, 2024
REFERENCES: Division Operations Policy 6003-G

PURPOSE

This policy outlines the Division's responsibilities when an Inquiry is received, or a Grievance is filed with the Division's Customer Service Center (CSC) by a Qualified Vendor or provider.

DEFINITIONS

1. "Business Days" means 8:00 a.m. to 5:00 p.m., Monday through Friday, excluding holidays listed in A.R.S. § 1-301.
2. "Complainant" means the person(s) expressing the dissatisfaction or requesting to file a grievance.
3. "Functional Area" means a business unit or department within the Division.
4. "Grievance" means a verbal or written expression of dissatisfaction with any matter, other than an Adverse Benefit Determination or provider Inquiries that are older than 30 days.
5. "Inquiry" means a question received by the Customer Service

Center.

6. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

POLICY

A. INTAKE TRIAGE

1. The Customer Service Center (CSC) shall receive Inquiries and Grievances by:
   a. Phone - 1-844-770-9500 option 1, or
   b. Email - DDDcustomerservice-providers@azdes.gov, or
   c. Mail - DES/DDD Customer Service Center
      1789 W. Jefferson St.
      Mail Drop 2HB3
      Phoenix, AZ 85007
   d. Referral from Division staff
2. The CSC shall evaluate each phone call, email, or letter received to determine if the correspondence is a Quality of Care Concern (QOC), an Inquiry, or a Grievance.
3. The CSC, when a QOC is identified, shall:
   a. Notify the appropriate Functional Area immediately, but no

later than the close of the next Business Day, when an imminent health, safety, or clinically urgent risk exists.

b. Inform the individual who contacted the CSC that the concern will be elevated as a QOC and that the QOC triage process will be followed as outlined in Division Medical Policy 960.

4. The CSC shall not disclose any confidential information in accordance with 45 CFR Part 164 Health Insurance Portability and Accountability Act (HIPAA) and in accordance with A.R.S. § 36-2917.

B. INQUIRY RESOLUTION

1. The CSC shall log and assign an Inquiry number when the Inquiry requires additional follow-up.

2. The CSC shall respond to the Inquiry or inform the individual who contacted the CSC that they will be contacted within three Business Days when the Inquiry is related to the Division, its contracted entities, or authorized services.

3. The CSC shall maintain a tracking log to record the receipt, relevant information, and resolution of Inquiries.

4. The CSC shall resolve the Inquiry and provide the individual who contacted the CSC with a response.

5. The CSC shall elevate any Inquiry not resolved within 30 days to a Grievance and document it in the Division's Resolution System.

C. GRIEVANCE RESOLUTION

1. The CSC shall provide the Complainant with a verbal or written receipt of the Grievance at the time the Grievance is made.
2. The CSC shall document the receipt of the Grievance and the substance of the Grievance in the Division's Resolution System.
3. The CSC shall provide updates to the Complainant on the progress of the Grievance.
4. The CSC shall engage additional Functional Areas when necessary to resolve the Grievance.
5. The CSC shall contact the Complainant to inform them of the resolution.
6. The CSC shall resolve a Provider Grievance within 30 days.
7. The CSC shall mail the Grievance disposition closure letter to the

Complainant within 10 Business Days of resolution.

8. The CSC shall provide a Grievance disposition closure letter that includes a summary of the Grievance submitted and the resolution.
9. The CSC shall not provide the resolution in the Grievance disposition closure letter when the Grievance is closed due to a QOC escalation.
10. The CSC shall ensure documentation of the Grievance, investigation steps, and actions taken for resolution are documented in the Division's Resolution System.

D. SYSTEMIC ACTION

The CSC, when Inquiry and Grievance trends are identified, shall take systemic action by elevating the trends to the CSC Managers and the Division's Leadership Team.

E. SUPPLEMENTAL INFORMATION

1. For Member Inquiries and Grievances, refer to Division Operations Policy 6003-G.
2. For Claim Disputes and Appeals, refer to Provider Chapter 11.

6003-I ARIZONA LONG TERM CARE SERVICES APPEAL PROCESS

REVISION DATE: 10/1/2021, 5/27/2020, 10/01/2019, 5/29/2019, 6/10/2016, 3/2/2015
EFFECTIVE DATE: July 31, 1993
REFERENCES: A.A.C. R9-34-209, R9-34-216

Definitions

AHCCCS means the Arizona Health Care Cost Containment System (AHCCCS) Administration as defined in A.R.S. § 36-2901.

Appeal means a request for review of an adverse benefit determination.

Administrative Services Subcontractors (AdSS) means an organization or entity that has a capitated contract with the Division to provide goods and services to its members either directly or through subcontracts with providers, in conformance with contractual requirements, state statutes and rules, and Federal law and regulations.

Adverse Benefit Determination means any of the following:

A. The denial or limited authorization of a requested service, including determinations based on the type or level of service, requirements for medical necessity, appropriateness, setting, or effectiveness of a covered benefit;

B. The reduction, suspension, or termination of a previously authorized service;

C. The denial, in whole or in part, of payment for a service;

D. The failure to provide services in a timely manner, as defined by the State;

E. The failure to act within the timeframes provided in 42 CFR 438.408(b)(1) and (2) regarding the standard resolution of grievances and appeals;

F. For a resident of a rural area with only one Managed Care Organization (MCO), the denial of a member's request to exercise the right, under 42 CFR 438.52(b)(2)(ii), to obtain services outside the network; or

G. The denial of a member's request to dispute a financial liability, including cost sharing, co- payments, premiums, deductibles, coinsurance, and other member financial liabilities.

Arizona Revised Statutes (A.R.S.) means the statutory laws in the state of Arizona.

Arizona Administrative Code (A.A.C.) means the official publication of Arizona's codified rules.

Department means the Arizona Department of Economic Security.

Division means the Division of Developmental Disabilities within the Department.

Day means calendar day unless otherwise specified.

Enrollee means a person eligible for AHCCCS under A.R.S. Title 36, Chapter 29 and who is enrolled with an AHCCCS AdSS.

Filed means the date the AdSS or the Division, whichever is applicable, receives the request

as established by a date stamp on the request or other record of receipt.

Limited Authorization means a service authorization that falls short of the original request with respect to the duration, frequency, or type of service requested.

Managed Care Organization (MCO) means an entity that has, or is seeking to qualify for, a comprehensive risk contract under 42 CFR Part 438 and that is [42 CFR 438.2]:

A. A Federally qualified HMO that meets the advance directives requirements of subpart I of 42 CFR Part 489; or

B. Any public or private entity that meets the advance directives requirements and is determined by the Secretary to also meet the following conditions:

1. Makes the services it provides to its Medicaid enrollees as accessible (in terms of timeliness, amount, duration, and scope) as those services are to other Medicaid beneficiaries within the area served by the entity.

2. Meets the solvency standards of 42 CFR 438.116.

Member means an individual enrolled with the Division.

Notice of Appeal Resolution means a written notice that includes the results of the resolution process per A.A.C. R9-34-216.

Notice of Adverse Benefit Determination means a notice that, per A.A.C. R9-34-205, explains:

A. The benefit determination the Division or AdSS has taken or intends to take;

B. The reasons for the benefit determination;

C. The enrollee's right to file an appeal with the Division or the AdSS;

D. The procedures for exercising the rights specified in Article 2 of A.A.C., Title 9, Chapter 34;

E. The circumstances under which an expedited resolution is available and how to request it; and

F. The circumstances under which an enrollee has a right to have services continue pending resolution of the appeal, how to request that services be continued, and the circumstances under which the enrollee is liable for the costs of services.

OAR means the Office of Administrative Review, which is the business unit within the Division of Developmental Disabilities responsible for processing member's appeals.

Prior authorization means a process used to determine in advance of provision whether a prescribed procedure, service, or medication will be covered.

Qualified Clinician means a behavioral health professional who is licensed or certified under A.R.S. Title 32 or a behavioral health technician who is supervised by a licensed or certified professional.

Recovering Costs means when the state fair hearing decision upholds the decision of the Division or the AdSS, the entities may initiate cost recovery for the service or services provided pending the outcome of the hearing decision. 42 CFR 431.230(b).

Representative means an individual authorized in writing by the responsible person to represent the member during the appeal process.

Responsible Person means the same as in A.R.S. § 36-551.

Rural means the same as in A.R.S. § 36-2171.

Seriously Mentally Ill (SMI) means persons who, as a result of a mental disorder as defined in section 36-501, exhibits emotional or behavioral functioning that is so impaired as to interfere substantially with their capacity to remain in the community without supportive treatment or services of a long-term or indefinite duration. In these persons, the mental disability is severe and persistent, resulting in a long-term limitation of their functional capacities for primary activities of daily living such as interpersonal relationships, homemaking, self-care, employment, and recreation as in A.R.S. § 36-550.

Suspension of Service means a decision to temporarily stop providing a service that was previously authorized or approved.

Termination of Service means a decision to stop providing a covered service that was previously authorized or approved.

Working day means Monday, Tuesday, Wednesday, Thursday, or Friday from the hours of 8:00 a.m. to 5:00 p.m., unless:

A. A legal holiday falls on Monday, Tuesday, Wednesday, Thursday, or Friday; or

B. A legal holiday falls on Saturday or Sunday and the Division or AdSS is closed for business the prior Friday or following Monday.

Applicability

This policy applies to a decision made by the Division or its Administrative Services Subcontractors (AdSS) regarding:

A. Timely provision, approval, or authorization of a requested service or continuation of a covered service, benefit, or associated copayments including determinations based on the type or level of service, requirements for medical necessity, appropriateness, setting, or effectiveness of a covered benefit.

B. For members with SMI only, this also includes:

1. SMI Eligibility determination decisions

2. A PASRR determination related to a preadmission screening or an annual resident review which adversely affects member

3. Clinical Team findings regarding member's competency, capacity to make decisions, need for guardianship/other protective services or need for special assistance Planning Document or Inpatient Treatment and Discharge Plan (ITDP) service goals, objectives, or timelines and long-term views

4. Recommended services identified in assessment reports, Planning Documents, or ITDPs

5. Application of procedures and timeframes for developing a Planning Document or

ITDP

6. Sufficiency or Appropriateness of an Assessment

7. Access to or prompt provision of services identified in the Planning Documents or ITDPs

8. Denial of request to review outcome of, modification to, or failure to modify or termination of a Planning Document, ITDP or portion thereof

9. Decision to provide service planning including provision of an assessment or case management to a person who is refusing such services or a decision not to provide such services to the member

10. Decision regarding a person's fee assessment or the denial of a request to waive fees

11. Denial of payment of claims

12. Failure of the Division, AdSS, or AHCCCS to act within established Appeal timeframes

Non-Applicability

For members with SMI this procedure does not apply to:

A. Determinations of categorical eligibility/ineligibility for Title XIX or Title XXI services

B. Title XIX Appeals of an adverse determination affecting services that are subject to Prior Authorization for individuals eligible for Title XIX/XXI covered services, (See RHBA Contract Exhibit-14)

C. Adverse Determinations that are a result of changes in state or federal law requiring an automatic change or in order to avoid exceeding the legislatively appropriated state funding for program services and benefits

D. Allegations of rights violations made by members with SMI (See ACOM Policy 446)

E. Decisions involving a request for a service that requires a physician's order and the physician's refusal to order the service

Reasonable Entity for Appeals Process

The Division has delegated appeals to the AdSS for the following services:

A. Physical Health Care (i.e., prescription medications, DME, dental services, etc.)Behavioral Health Services

B. Seriously Mentally Ill (SMI) Services

C. Nursing Facility (NF) Services

D. Habilitative Physical Therapy for Members 21 Years of Age or Older

E. Emergency Alert System (EAS)

Filing an Appeal (Non-SMI)

When a Notice of Adverse Benefit Determination is given by the Division or the Administrative Services Subcontractors (AdSS) with whom the member/responsible person/representative does not agree, he/she may file an appeal. An authorized representative, including a service provider, may file an appeal on the member's behalf, with written consent from the member/responsible person/representative.

Neither the Division nor the AdSS will take punitive action against a member/authorized representative or service provider who exercises the right to appeal or supports a member's request for a resolution of the appeal.

Neither the Division nor AdSS allows punitive action against a provider for requesting expedited review of a member's appeal.

Filing an Appeal (SMI)

A member with SMI or the member's authorized representative may also appeal in writing or orally without prior receipt of a Notice of Adverse Benefit Determination when he/she is appealing any denial, decision, finding or recommendations outlined in the **Applicability** section of this policy pertaining to members with SMI only.

An authorized representative includes a legal guardian, guardian ad litem, designated representative or attorney, parent with legal custody, a court-appointed guardian ad litem or attorney of a member under 18 years, or a state or government agency that has executed an Intergovernmental/Interagency Service Agreement (IGA/ISA) with the Division for the provision of behavioral health services but which does not have legal custody or control of the member.

Neither the Division nor the AdSS will take punitive action against a member/authorized representative or service provider who exercises the right to appeal or supports a member's request for a resolution of the appeal.

Appeal Filing Timeframes

Any member/responsible person/representative must file an appeal within **60 calendar days** after the date of the Notice of Adverse Benefit Determination either orally or in writing.

For members with SMI, an appeal may also be filed at any time even when there is no Notice of Adverse Benefit Determination when a member contests/disagrees with any denial, decision, finding or recommendation outlined in the **Applicability** section of this policy as referenced above.

For appeals from American Indian Health Plan members or appeals related to Long Term Services and Supports (LTSS) delivered by the Division to its members the appeal must be filed with the Division's Office of Administrative Review (OAR) at:

DDD Office of Administrative Review

4000 North Central Avenue
3rd Floor, Suite 301, Drop 2HE5
Phoenix, Arizona 85012
602-771-8163 or 1-844-770-9500

For appeals from members who are enrolled with an AdSS, member appeals must be filed to the

AdSS address specified in each Notice of Adverse Benefit Administration delivered to the member by the AdSS when it made its decision to deny, reduce, suspend or terminate a service. For appeals from **members with SMI who are enrolled with an AdSS**, appeal must be filed to the AdSS address or phone number listed in the Member's Handbook or communicated through the Health Plan Customer Services who will transmit this appeal request to the appropriate Appeals unit of the respective AdSS.

Each appeal receipt will be acknowledged in writing within **five calendar days**. At the time the appeal is filed, the member/responsible person/authorized representative may request an expedited appeal.

Late appeals will be accepted from an SMI member or his/her authorized representative only upon showing of good cause. If the Division or AdSS refuses to accept a late appeal or determines that a service may not be appealed, the Division or AdSS will inform the member/authorized representative, in writing that he/she may request an Administrative Review of the decision with AHCCCS within 10 business days. AHCCCS will issue a final decision on a timely request for Administrative Review within 15 calendar days of the request.

If the final day of any timeframe falls on a weekend or legal holiday, the period is extended until the end of the next day that is not a weekend or a holiday.

The Division will assist the member/responsible person/representative with the completion of forms and other procedural steps, upon request. The member/responsible person/representative may present information to the Division in person or in writing at any time during the appeal process. The member/responsible person/representative may review the member's records and other documents considered before and during the appeal process, not protected from disclosure by law. The Division ensures the member/responsible person/representative is included as a party to the appeal process.

Appeal Notifications and Documents (SMI)

Notices and written documents will be available in each prevalent non-English language spoken within geographic service area. These will be made available in alternative formats such as Braille, large font, enhanced audio and other special communication devices and methods necessary to understand information. When needed, Oral interpretation services will be made available to members to explain written content contained in notices and written documents.

Member/authorized representative will not be made financially liable for all types of communication assistance provided.

All notices and appeal decisions will be personally delivered or mailed by certified mail to the required party at their last known residence or place of work or as specified in member/authorized representative's oral or written appeal.

Copies of notices will be maintained in the Division's official files using a unique docket number for each appeal filed. which will be referenced in all appeal correspondence generated. All records will be maintained in a secure and locked place in compliance with HIPAAA standards and requirements. The member/authorized representative will have the right to examine those documents and records maintained in member's docket file that will be used in informal conferences or Administrative Hearings upon request. The Division or AHCCCS may DENY access to Appeal case docket records when permitted by State and Federal law.

Continuation of SMI Services

If an appeal relates to the modification or termination of a behavioral health service, the service under Appeal will continue pending the resolution of the appeal through the Division's decision unless:

A. A Qualified Clinician (see definition) determines that the modification or termination is necessary to avoid a serious or immediate threat to the health or safety of the person or another individual or

B. The member or guardian, if applicable, agrees in writing to the modification or termination.

Appeal Resolution Process for Members with SMI

When the appealing member with SMI is enrolled with THP, the appeals process will be followed by the Division's OAR Appeals Unit. When the appealing member with SMI is enrolled with an AdSS, the Appeals Unit within each respective AdSS will follow the same appeal resolution process outlined below.

A. Division Informal Conference

1. Within seven days of receipt of an oral or written appeal, the Division or AdSS will hold an informal conference with the member/authorized representative. If member has been identified as needing special assistance and does not have an assigned Advocate, the Division or AdSS will contact AHCCCS Office of Human Rights to request for an advocate to be present during the informal conference or any part of the appeal process.

2. The Division or AdSS will schedule the informal conference at a convenient time and place and notify all participants in writing, at least two days prior to the scheduled conference listing date, time, location, and the option to participate by telephone or teleconference when preferred and the member's right to be represented by a designated representative of his/her choice.

3. The Informal Conference will be chaired by the designated representative of the Division or AdSS with authority to resolve the issues under appeal and who will seek to mediate and resolve the issues in dispute. The Division may designate a staff from its Behavioral Health Unit, Quality Management Unit, or Support Coordination to represent OAR during an informal conference.

4. During the informal conference the Division's designated representative will record a statement of the nature of the appeal, the issue presented, any resolution(s) agreed upon and the date(s) of implementation. Any unresolved issues will be identified for further appeal.

5. Upon a satisfactory resolution of member's appeal, the Division or AdSS will issue a dated written notice to all parties that contains the statement of the nature of the appeal, the issue addressed, the resolution(s) achieved, and the resolution implementation dates agreed upon.

6. If member's appeal is not resolved to member's satisfaction and the appeal issue does NOT relate to the member's eligibility for behavioral health services/SMI services, the member and other representative present during the Informal conference (member's designated representative/authorized representative, Advocate) will be informed that the appeal will be forwarded to AHCCCS for a

second informal conference. The procedure for requesting a waiver of the AHCCCS informal conference will be communicated to member/designated representative at this time.

7. If member's appeal is not resolved to member's satisfaction and the appeal issue relates to the member's eligibility for behavioral health services/SMI services, or the member has requested a waiver from the AHCCCS informal conference in writing, the Division or AdSS will:

   a. Provide a written notice to the member/authorized representative of the process to request an Administrative Hearing.

   b. Determine during the informal conference if the member/authorized representative or Advocate is requesting an Administrative Hearing. If so, the Division will file a request with AHCCCs within three business days of the informal conference.

   c. Send a copy of the Appeal, informal conference results, and written notice of the process to request an administrative hearing and notice of an Administrative hearing to the AHCCCS Office of Human rights for members in need of Special Assistance whether the member has an assigned Advocate who attended the informal conference or not.

8. For all appeals that are unresolved after an informal conference, the Division will forward the Appeal case record to AHCCCS within three days from the conclusion of the informal conference.

9. If the member fails to attend the scheduled informal conference and fails to notify the Division or AdSS, another informal conference will be rescheduled following written notification requirements followed previously.

10. If the member fails to attend the rescheduled informal conference and fails to notify the Division or AdSS prior to conference, the Division or AdSS will close the Appeal docket and send written notice of the closure to the member/authorized representative.

11. If the member requests the appeal to be re-opened due to failure to receive the informal conference notification and/or due to other good cause, the Division or AdSS may re-open the appeal and proceed with another informal conference.

B. Expedited Appeals Requests (SMI)

1. At the time an Appeal is initiated, the member may request an expedited Appeal in writing. The Division or AdSS will accept requests to expedite an Appeal for good cause, and for the following:

   a. A Denial of admission to or the termination of a continuation of inpatient services, or

   b. A Denial or termination of crisis or emergency services.

2. Within one day of receipt of a request for an expedited Appeal, the Division or AdSS will:

a. Inform the member in writing that the Appeal has been received and of the time, date, and location of the expedited informal conference; or

b. Issue a written decision stating that the Appeal does not meet criteria as an expedited Appeal; and

c. Inform the member that he/she may, within three days of the Division or AdSS's decision, request an Administrative Review of the Division or AdSS's decision from AHCCCS.

3. Within two days of receipt of a written request for an expedited Appeal, the Division or AdSS will hold an informal conference to mediate and resolve the issues in dispute.

4. If the member requests an Administrative Review on a timely basis, AHCCCS will complete the review and issue a written decision within one day from the date of receipt. The decision of AHCCCS will be final.

C. AHCCCS Informal Conference

1. AHCCCS will hold another informal conference within 15 days of the notification from the Division that the Appeal was unresolved unless the member/authorized representative waives an informal conference with AHCCCS, or the appeal relates to eligibility for SMI services.

2. At least five days prior to the date of the AHCCCS-scheduled informal conference, AHCCCS will notify the participants in writing of the date, time, and location of the conference.

3. The informal conference will be chaired by a representative of AHCCCS who will seek to mediate and resolve the issues in dispute.The AHCCCS representative will record a statement of the nature of the Appeal, the issues involved, any resolution(s) achieved, the date by which the resolution(s) will be implemented and identify any unresolved issues for further Appeal.

4. If the issues in dispute are resolved to the satisfaction of the member, AHCCCS will issue a dated written notice to all parties, which will include a statement of the nature of the Appeal, the issues involved, the resolution achieved, and the date by which the resolution will be implemented.

5. For a person in need of Special Assistance, AHCCCS will send a copy of the informal conference report to AHCCCS Office of Human Rights.

6. If the issues in dispute are not resolved to the satisfaction of the member, AHCCCS will:

a. Provide written notice to the member of the process to request an administrative hearing;

b. Determine at the informal conference whether the member is requesting AHCCCS to request an administrative hearing on behalf of the member and, if so, file the request within three days of the informal conference;

c. For a person in need of Special Assistance, send a copy of the notice to AHCCCS Office of Human Rights.

7. If the member requests an **expedited** AHCCCS Informal Conference, AHCCCS will hold an informal conference to mediate and resolve the issue in dispute, within two days of notification from the Division or AdSS, unless the member/authorized representative waives the informal conference, in which case the Appeal will be forwarded within one day to AHCCCS to schedule an administrative hearing.

8. If the AHCCCS informal conference is not waived, and AHCCCS fails to resolve the Appeal, the Appeal will be forwarded to AHCCCS to schedule an administrative hearing within one day of the informal conference.

9. If the member/authorized representative fails to attend the AHCCCS informal conference and fails to notify AHCCCS of this, AHCCCS may issue a written notice, within three working days of the scheduled conference, which contains a description of the decision on the issue under appeal and advises the member/authorized representative of his/her right to request an Administrative hearing.

10. In the event the member requests the Appeal be re-opened due to not receiving the informal conference notification and/or due to other good cause, AHCCCS may re-open the Appeal and proceed with the informal AHCCCS conference.

D. Requests for Administrative Hearing

1. In the event a request for administrative hearing is filed with the Division or AdSS, the Division or AdSS will ensure that the written request for hearing, Appeal case record, and all supporting documentation is received by AHCCCS within three days from such date. A written request for hearing filed by the Division or AdSS with AHCCCS will contain the following information:

   a. Name of the member and person receiving services (if different),

   b. Member's case docket number,

   c. The decision being Appealed,

   d. The date of the decision being Appealed, and

   e. The reason for the Appeal.

2. Administrative Hearings will be conducted and decided pursuant to A.R.S. § 41-1092 et seq.

Standard Appeal Resolution Timeframe

The Division will respond to the standard appeal filed as a result of receipt of a Notice of Adverse Benefit Determination and mail the written Notice of Appeal Resolution to the member/responsible person/representative within 30 calendar days after the date the Division receives the appeal. The Division will extend the 30-day timeframe up to an additional 14 calendar days upon request by the member/responsible person/representative. The Division may request a 14-calendar day extension of the 30-day time frame if additional information is needed and the extension is in the best interest of the member. The OAR will provide the member/responsible person/representative written notice of the reason for the decision to extend the 30-day timeframe.

Appeal Notice Requirements

All notices and appeal decisions will be personally delivered or mailed by certified mail to the required party at their last known residence or place of work. In the event that it may be unsafe to contact the member/authorized representative at his/her home address, or the person indicated that he/she does not want to receive mail at home, the alternate communication methods specified by the member/authorized representative will be used.

Notices and written documents generated through the Appeals process will be available in alternative format such as Braille, large font, or enhanced audio and take into consideration the special communication needs of members.

Expedited Appeal

The member/responsible person/representative may request an expedited resolution of the appeal when the appeal is filed as a result of a Notice of Adverse Benefit Determination. The Division or AdSS will conduct an expedited appeal if it is determined that taking the time for a standard resolution could seriously jeopardize the member's life or health, or ability to attain, maintain, or regain maximum function. The Division will conduct an expedited appeal if a request is received directly from a health care provider, with written authorization from the member/responsible person/representative, and the health care provider indicates that taking the time for a standard resolution could seriously jeopardize the member's life or health, or ability to attain, maintain, or regain maximum function.

If the request for an expedited appeal is denied, the Division's OAR or AdSS will promptly contact the member/responsible person/representative orally to advise him/her of the denial. It will send a written notice of the denial no later than two calendar days to the member/responsible person/representative. If a request for an expedited appeal is denied, the Division will follow the standard appeal resolution timeframe and the appeal will be resolved no later than 30 calendar days after the day the Division received the appeal.

If the request for an expedited appeal is granted, the Division's OAR or AdSS will promptly contact the member/responsible person/representative orally to advise him/her of the approval. The Division will adjudicate the appeal and mail the written Notice of Appeal Resolution to the member/responsible person/representative within 72 hours from the day the Division or AdSS receives the request for an expedited appeal. The Division or AdSS will extend the 72-hour timeframe up to an additional 14 calendar days upon request by the member/responsible person/representative. The Division or AdSS may request a 14-calendar day extension of the 72-hour timeframe if additional information is needed and the extension is in the best interest of the member. The Division or AdSS will provide the member/responsible person/representative written notice of the reason for the decision to extend the 72-hour timeframe.

Appeal Decisions and Timeframes

For standard and expedited appeals filed as a result of a Notice of Adverse Benefit Determination, the Division will ensure the person who makes a decision on an appeal was not involved in any previous level of review or decision-making. The Division will ensure that healthcare professionals who make decisions have the appropriate clinical expertise to make the decision.

The Division will render a written Notice of Appeal Resolution to the member/responsible person/representative no later than 30 calendar days from the date the appeal was received. The Notice of Appeal Resolution will include the results of the resolution process and the date it was completed. If a Notice of Appeal Resolution is not rendered in 30 calendar days for a standard appeal or 72 hours for an expedited appeal, the member may consider the appeal denied. The

Notice of Appeal Resolution is issued to the member/responsible person/representative. If the appeal is not wholly resolved in favor of the member, the Notice of Appeal Resolution will include:

A. The member's right to request a fair hearing and how to do so;

B. In cases where the member requests the services continue, the member's right to receive services while the fair hearing is pending;

C. The factual and legal basis of the decision; and

D. The member/responsible person/representative's liability for the cost of the continued services if Arizona Health Care Cost Containment System (AHCCCS) upholds the Department of Economic Security (DES)/Division of Developmental Disabilities (DDD or Division) decision.

If the Notice of Appeal Resolution is reversed, the Division or AdSS will notify Support Coordination and the other entity (Division or AdSS), as appropriate. Upon notification, services will be provided expeditiously as the member's health condition requires. If the Notice of Appeal Resolution is upheld, and services were requested to continue pending resolution of the appeal, the Division may recover the cost of services from the member.

The Division or AdSS will ensure the person who makes a decision on an appeal was not involved in any previous level of review or decision-making. The AdSS will ensure that healthcare professionals who make decisions have the appropriate clinical expertise to make the decision.

The Division or AdSS will render a written Notice of Appeal Resolution to the member/responsible person/representative no later than 30 calendar days from the date the appeal was received. The Notice of Appeal Resolution will include the results of the resolution process and the date it was completed. If a Notice of Appeal Resolution is not rendered in 30 calendar days for a standard appeal or within 72 hours for an expedited appeal, the member may consider the appeal denied. The Notice of Appeal Resolution is issued to the member/responsible person/representative and the Division through the Office of Administrative Review. If the appeal is not wholly resolved in favor of the member, the Notice of Appeal Resolution will include:

A. The member's right to request a fair hearing and how to do so;

B. In cases where the member requests the services continue, the member's right to receive services while the fair hearing is pending;

C. The factual and legal basis of the decision; and

D. The member/responsible person/representative's liability for the cost of the continued services if Arizona Health Care Cost Containment System (AHCCCS) upholds the AdSS decision.

If the Notice of Appeal Resolution is reversed, the AdSS or the Division of Developmental Disabilities, Office of Administrative Review by the other. Upon notification services will be provided expeditiously as the member's health condition requires. If the Notice of Appeal Resolution is upheld, and services were requested to continue pending resolution of the appeal, the Division or AdSS may recover the cost of services from the member.

6003-J ARIZONA LONG TERM CARE SERVICES STATE FAIR HEARING PROCESS

REVISION DATE: 8/28/2019, 04/24/2019, 6/10/2016, 3/2/2015
EFFECTIVE DATE: July 31, 1993
REFERENCES: A.R.S. § 41-1092.07

When a Notice of Appeal Resolution is rendered by the Division with which the member or his/her responsible person does not agree, he/she may file a request for a fair hearing by the Office of Administrative Hearings. The fair hearing request must be filed in writing and received by Office of Administrative Review (OAR) no later than 120 calendar days from the date of the Notice of Appeal Resolution. The request should be sent to:

DES/DDD
Office of Administrative Review
4000 North Central Avenue
3rd Floor, Suite 301
Mail Drop 2HE5
Phoenix, Arizona 85012

Once the hearing request is filed, OAR staff will prepare a duplicate file for submission to the Arizona Health Care Cost Containment System (AHCCCS) along with the hearing request. The OAR staff will submit the file to AHCCCS within five (5) business days. This file will include the completed AHCCCS Submission of Request for Hearing form, a cover letter, copy of the entire file, copies of the Notice of Adverse Benefit Determination, request for fair hearing, investigative materials, and the decision letter.

The hearing will be scheduled by AHCCCS and the member or his/her responsible person will be notified of the date and time of the hearing in writing. The member and/or responsible person including any legal representative, an Assistant Attorney General, and a Division representative will meet with an Administrative Law Judge (ALJ). This hearing is informal, and the rules of evidence may not apply.

Based on the information gathered by the ALJ through testimony, presentation of evidence, and the record supplied by OAR and the appellant, the ALJ will prepare written findings of fact and conclusions of law and render a recommended decision to the AHCCCS Director. The AHCCCS Director will then issue his/her decision in writing and notify any party adversely affected of the right to request a rehearing or review. If it is decided that a review will not be petitioned, the OAR will arrange with the appropriate Division staff and/or contracted health plan staff to authorize and provide the service as expeditiously as possible.

A petition for rehearing or review, if requested, must be made to the AHCCCS Office of Administrative Legal Services no later than 30 calendar days after the date of the AHCCCS Director's decision. The petition must completely explain the grounds on which the rehearing is being made. Petitions for rehearing/review are to be sent to:

AHCCCS
Office of Administrative Legal Services
701 East Jefferson Street
Phoenix, Arizona 85034

The rehearing will be decided by the AHCCCS Director or designee and a final written decision of the matter will be issued.

If the member or his/her responsible person is still not satisfied with the decision, he/she may seek judicial review of the AHCCCS decision through the court system. All administrative remedies must be exhausted before the court will consider the case.

6003-K CLAIM DISPUTES

REVISION DATES: 10/1/2021, 5/24/2021, 5/27/2020, 10/1/2019, 8/28/2019, 5/29/2019, 6/10/16, 1/15/2016, 3/2/2015
EFFECTIVE DATE: July 31, 1993
REFERENCES: A.R.S. §§ 36-2903.01(B)(4) and 41-1092.01; A.A.C. R9-34-402 and R9-34- 405

Definitions

A. Administrative Services Subcontractors (AdSS) - means an organization or entity that has a capitated contract with the Division of Developmental Disabilities (Division) to provide goods and services to its members either directly or through subcontracts with providers, in conformance with contractual requirements, Arizona statutes, Arizona rules, federal law, and federal regulations.

B. AHCCCS Administration - means the Arizona Health Care Cost Containment System (AHCCCS) Administration as defined in A.R.S. § 36-2901(1).

C. Clean Claim - means the same as in A.R.S. § 20-3101(2).

D. Claim Dispute - A dispute, filed by a provider or DDD Contractor, whichever is applicable, involving a payment of a claim, denial of a claim, imposition of a sanction or reinsurance.

E. Contractor - means the following:

1. A contractor or program contractor as defined in A.R.S. § 36- 2901(1);

2. The Comprehensive Health Plan (CHP) in the Department of Economic Security; and

3. The Children's Rehabilitation Services and Behavioral Health Services in the Arizona Department of Health Services.

F. Day - means calendar day unless otherwise specified.

G. Director - means the Director of the AHCCCS Administration or the AHCCCS Administration designee.

H. Director's Decision - means the final administrative decision under A.R.S. § 41-1092(5).

I. FFS Member - means a Fee For Service Member eligible for AHCCCS coverage under Arizona Revised Statutes Title 36, Chapter 29, who is enrolled with AHCCCS on an FFS basis, and who is not enrolled with an AHCCCS contractor.

J. Filed - means the date AHCCCS receives a request established by a date stamp on the request or other record of receipt.

K. State Fair Hearing - means an administrative hearing under Arizona Revised Statutes, Title 41, Chapter 6, Article 10.

Applicability

This policy is applicable to:

A. Fee for Service Providers who are filing claims and claim disputes to the Division for services rendered to the Division's THP members.

B. Providers who are affiliated with an AdSS which processes claims and claim disputes from its providers for services rendered to its enrolled members.

Claim Dispute Process

A Division representative will provide written notice advising the service provider of a denial of claim payment and the reason for denial. The notice may be included in a remittance advice or other form of written communication that includes the service provider's right to file a claim dispute with the Division.

If the Division gives the service provider a notice that the service provider disagrees with, the service provider may file a claim dispute. The Division will accept a claim dispute only when the dispute involves a payment of a claim, a denial of a claim, an imposition of a sanction, or reinsurance.

The service provider must adhere to both of the following requirements when filing a claim dispute:

A. Submit the claim dispute to the Division in writing; and

B. Submit the claim dispute within the time period that will occur last out of the following, in accordance with A.R.S. § 36-2903.01(B)(4):

   1. Within the 12 consecutive months immediately following the date(s) of service;

   2. Within the 12 consecutive months immediately following the date that the member's eligibility is posted; or

   3. Within the 60 calendar days immediately following the date of denial for a timely claim submission.

The Division will date all claim disputes upon the Division's receipt. The Division will send the service provider a written notice acknowledging receipt of the claim dispute within the five business days immediately following the Division's date of receipt. If the service provider wishes to submit any additional information to the Division for consideration, the service provider must submit the additional information within the 10 calendar days immediately following the Division's date of receipt. The Division will advise the service provider about the 10-day deadline for the service provider to submit any additional information.

Division Business Operation staff may contact the service provider to obtain additional information. The Division will consider and review, relevant Arizona Revised Statutes, Arizona Administrative Code, AHCCCS policies, and Division policies. The Division staff will be consulted, as necessary.

The Division will investigate every claim dispute using applicable authorities and facts obtained from all parties. Both the Division and the service provider must mutually agree to any deadline

extension(s). If both parties mutually agree to extend the decision deadline either to allow additional time for the Division to make a decision or the service provider to submit supporting documentation, the Division will issue a letter to the service provider.

When the Division completes the fact-finding, the Division will render a written Notice of Decision to the service provider. The Division will send the Notice of Decision within the 30 calendar days immediately following the Division's date of receipt unless the parties mutually agree to a deadline extension.

The Notice of Decision must both comply with relevant regulatory and contractual requirements, as well as include all of the following:

A. The date of the decision,

B. The factual and legal basis for the decision,

C. The service provider's right to request a fair hearing, and

D. The instructions for requesting a fair hearing.

State Fair Hearings for Claim Disputes

If a service provider disagrees with the Division's Notice of Decision on the service provider's claim dispute, then the service provider may file a request for a fair hearing with the Department of Economic Security (DES) Appellate Services Administration/Arizona Long Term Care System (ALTCS). The service provider must make the fair hearing request in writing to the Office of Administrative Review (OAR) within the 30 calendar days immediately following the Division's dated receipt of the Notice of Decision.

The service provider must send the fair hearing request to:

DES/DDD Office of Administrative Review (OAR)
4000 N. Central Ave, 3rd Floor Suite 301
Phoenix, Arizona 85012

Once the fair hearing request is made, OAR staff will prepare a duplicate file and submit the duplicate file with the hearing request to both the DES Appellate Services Administration/ALTCS and the Attorney General's Office. The OAR staff will prepare the duplicate file to include all of the following:

A. Copies of the claim dispute,

B. Investigative materials, and

C. The Notice of Decision.

OAR staff will submit the documents to the DES Appellate Services Administration/ALTCS within the five business days immediately following the Division's dated receipt of the request for hearing.

A DES Appellate Services Administration/ALTCS representative will schedule the fair hearing. The service provider will receive written notification of the fair hearing's scheduled date and time. The DES Appellate Services Administration/ALTCS representative will notify both the

Attorney General's Office and the OAR about the scheduled hearing.

At the fair hearing, the service provider, a DES/Division of Developmental Disabilities (DDD) representative, and an Assistant Attorney General will meet with a DES Appellate Services Administration/ALTCS Hearing Officer. The rules of evidence will not apply to the fair hearing.

The Hearing Officer will prepare written findings of fact, written conclusions of law, and render a decision. The Hearing Officer will render the decision based on the following:

A. Information the Hearing Officer gathers through testimony,

B. Any presentation of evidence, and

C. Any other records supplied by OAR.

A DES Appellate Services Administration/ALTCS representative will forward a copy of the decision to all of the following:

A. The AHCCCS Office of Administrative Legal Services,

B. The service provider,

C. DES/DDD, and

D. The Attorney General's Office.

If the service provider wants to petition for rehearing or review, then the service provider must submit the request to the AHCCCS Office of Administrative Legal Services within the 30 calendar days immediately following the date of the DES Appellate Services Administration/ALTCS Administrative Law Judge's decision. The petition must completely explain the grounds for a rehearing or review.

Petitions for rehearing or review must be sent to:

AHCCCS Office of Administrative Legal Services
701 East Jefferson Street
Phoenix, Arizona 85034

The AHCCCS Director will issue a final written decision on the matter. If the AHCCCS Director overturns the Division's decision, the Division will confer with the Attorney General's Office to determine if a request for review will be petitioned to the AHCCCS Director. If the Division and the Attorney General's Office decide a review will not be petitioned, the OAR will arrange with the appropriate Division staff to both authorize payment and pay for the services as reasonably expeditious as possible.

If the Division or the service provider is still dissatisfied with the AHCCCS decision, the Division or service provider may seek judicial review of the AHCCCS decision through the court system. All administrative remedies must be exhausted before the court will consider the case.

Overturned or Reversed Claim Disputes

The Division shall reprocess and pay both overturned and reversed claim disputes within the 15 business days immediately following the date of the decision. The Division will make payments

in a manner consistent with the decision.

IMPORTANT TO NOTE: The Division will adhere to the same claim dispute process described herein for FFS claims on behalf of THP members.

THE DIVISION HAS DELEGATED ACUTE CARE CLAIM DISPUTES TO THE ADSS FOR ADJUDICATION FOR ALL THE FOLLOWING SERVICES:

- Physical Health Care (i.e., hospitalizations, prescription medications, DME, dental services, etc.)
- Behavioral Health Services
- Seriously Mentally Ill (SMI) Services
- Nursing Facility (NF) Services
- Habilitative Physical Therapy for Members 21 Years of Age or Older
- Emergency Alert System (EAS)

Claim Dispute Process

The AdSS representative will provide written notice advising the service provider of both a denial of claim payment and the reason for denial. The AdSS representative may include the notice either in a remittance advice or other form of written communication that includes the service provider's right to file a claim dispute with the AdSS.

If the service provider disagrees with a notice given by the AdSS, the service provider may file a claim dispute. The AdSS will accept a claim dispute only if the dispute involves one of the following:

A. A payment of a claim,

B. A denial of a claim,

C. An imposition of a sanction, or

D. Reinsurance.

The service provider must file the claim dispute in writing with the AdSS. In accordance with

A.R.S. § 36-2903.01(B)(4), the service provider must submit the claim dispute within the time period that will occur last out of the following:

A. Within the 12 consecutive months immediately following the date(s) of service,

B. Within the 12 consecutive months immediately following the date that the member's eligibility is posted, or

C. Within the 60 calendar days immediately following the denial date of a timely claim submission.

The AdSS will date all claim disputes upon AdSS's receipt. The AdSS will send the service

provider a written notice acknowledging receipt of the claim dispute within the five business days following the date the claim dispute is received. The AdSS will advise the service provider that any additional information the service provider wishes to submit to the AdSS for consideration must be done so in 10 calendar days.

The AdSS staff may contact the service provider to obtain additional information. Relevant Arizona Revised Statutes, Arizona Administrative Codes, and AHCCCS and Division policies will be reviewed, and the AdSS staff will be consulted as necessary.

AdSS will investigate all claim disputes using applicable authorities and facts obtained from all parties. Both parties must mutually agree on any deadline extensions. If there is a mutual agreement to extend the decision due date either to allow the AdSS to make a decision or allow the service provider additional time to submit supporting documentation, the AdSS will issue a letter to the service provider. Once the fact-finding is complete, a written Notice of Decision will be rendered to the service provider within 30 calendar days of receipt of the services provider's claim dispute unless the provider and the AdSS agree to a longer period.

The Notice of Decision must comply with regulatory and contractual requirements. The Notice of Decision must include all of the following:

A. The date of the decision,

B. The factual basis for the decision,

C. The legal basis for the decision,

D. The service provider's right to request a fair hearing, and

E. The instructions for requesting a fair hearing.

State Fair Hearings for Claim Disputes

If a service provider disagrees with the AdSS's Notice of Decision on a claim dispute, the service provider may file a request for a fair hearing with the Office of Administrative Hearings (OAH). The service provider must make the request for fair hearing in writing to the AdSS within the 30 calendar days immediately following AdSS's receipt of the Notice of Decision.

In accordance with DDD Operations Manual Policy 445, the AdSS will forward the service provider's fair hearing request file to the Division's Office of Administrative Review (OAR) to be submitted to the AHCCCS Office of Administrative Legal Services (OALS). The AdSS staff will prepare a duplicate file along with the hearing request, copies of the claim dispute, investigative materials, and the Notice of Decision for submission to the DDD Office of Administrative Review (OAR). The AdSS will submit the duplicate file to the DDD Office of Administrative Review (OAR) within the three business days immediately following AdSS's receipt of the request for fair hearing. OAR staff will submit the documents to the AHCCCS Office of Administrative Legal Services (OALS) within the two business days immediately following OAR's receipt of the file from the AdSS.

The fair hearing will be scheduled by the AHCCCS Office of Administrative Legal Services (OALS). The service provider will receive written notification of the date and time. The AHCCCS Office of Administrative Legal Services (OALS) will notify both the AdSS and the Division of the scheduled hearing.

At the hearing, the service provider, an AdSS representative, and the AdSS General Counsel, if appropriate, will meet with an Office of Administrative Hearings (OAH) Hearing Officer. The rules of evidence will not apply to the fair hearing.

The Hearing Officer will prepare written findings of fact, conclusions of law, and render a decision. The Hearing Officer will render a decision based on the following:

A. Information gathered through testimony,

B. Any presentations of evidence, and

C. Any other records from the AdSS or service provider.

An Office of Administrative Hearings (OAH) representative will forward a copy of the decision to the Arizona Health Care Cost Containment Service (AHCCCS) Director.

The AHCCCS Director will issue a final written decision on the matter. If the AHCCCS Director overturns the AdSS decision, the AdSS will determine if a request for review will be petitioned to the AHCCCS Director. If the AdSS decides that a review will not be petitioned, the AdSS will arrange with the appropriate AdSS staff to both authorize and pay for the services as expeditiously as reasonably possible.

Parties may file a petition for rehearing or review with the AHCCCS Office of Administrative Legal Services (OALS) by the AdSS or service provider. The petition must be submitted within the 30 calendar days immediately following the date of the AHCCCS Director's decision. The petition must completely explain the grounds for rehearing or review.

Petitions for rehearing or review must be sent to:

AHCCCS Office of Administrative Legal Services
701 East Jefferson Street
Phoenix, Arizona 85034

If the AdSS or the service provider is still dissatisfied with the decision, the AdSS or service provider may seek judicial review of the AHCCCS decision through the court system. All administrative remedies must be exhausted before the court will consider the case.

Overturned or Reversed Claim Disputes

The AdSS must reprocess and pay overturned or reversed claim disputes within the 15 business days immediately following the date of the decision. The AdSS will make payments in a manner consistent with the decision.

6003-L ATTORNEYS AT PLANNING MEETINGS

REVISION DATE: 5/20/2016, 3/2/2015
EFFECTIVE DATE: July 31, 1993

The member/responsible person may invite anyone to participate at planning meetings, including his/her attorney. It is recommended that the member/responsible person notify the Support Coordinator, at least two business days before the meeting is scheduled to occur, that legal counsel will participate with the responsible person at the planning meeting.

If prior notice is not given, the planning meeting may be postponed. If the Division's legal counsel is not present at the meeting and Division staff determines that legal counsel is needed, Division staff may temporarily stop the meeting in an effort to obtain legal counsel. In addition to Division staff, the Division may have an Assistant Attorney General at a meeting. Any meeting may be audio recorded.

6003-N ORAL AND WRITTEN REGULATORY INQUIRIES

EFFECTIVE DATE: September 8, 2021
REFERENCES: 42 U.S. Code § 1396u–6, 42 U.S.C. § 1396w–2, 42 U.S.C. § 1396w–5

PURPOSE

To comply with applicable statutes, regulations, contractual program requirements and maintain the integrity of the Compliance Program, the Division shall document and track oral and written inquiries and responses.

DEFINITIONS

Member Information Materials – Any materials given to DDD membership. This includes, but is not limited to member handbooks, member newsletters, provider directories, surveys, on hold messages and health related brochures/reminders and videos, form letter templates, mobile applications, and website content. It also includes the use of other mass communication technology such as e-mail and voice recorded information messages delivered to a member's phone

Vital Materials – Written materials that are critical to obtaining services which include, at a minimum, the following:

1. Member Handbooks
2. Provider Directories
3. Consent Forms
4. Appeal and Grievance Notices
5. Denial and Termination Notices Policy A. Member Information Materials

POLICY

The Corporate Compliance Officer or designee shall ensure the log for regulatory inquiries is completed daily. The log shall be available for review during any internal and external audits. Any requests for information, guidance, and advice from any government agency, fiscal intermediaries, subcontractors, vendors, providers, agents, and members shall be documented on the log.

The logging of oral inquiries is extremely important if Division relies on the response as guidance in future decisions, actions, or claim reimbursement requests or appeals. The Corporate Compliance Team process regulatory inquiries as follows:

1. DDD Long Term Care Services – Contract Compliance Unit
2. Acute Services Health Plans – Health Plan Compliance Unit

In addition, the log shall be relevant in a subsequent investigation to the issue of whether Division's reliance was "reasonable" and whether it exercised due diligence in developing procedures and practices to implement the advice.

This policy pertains to oral and written communication disseminated to the Division's enrolled members and to the content of the Division's website.

A. The Division must comply with the requirements in this Policy for all member information materials as outlined in the Division's Operations Manual and AHCCCS Contractor Operations Manual (ACOM):

1. Chapter 400 Operations

2. Chapter 404 Contractor Website and Member Information

3. ACOM Policy 405 for requirements regarding Cultural Competency, Language Access Plan and Family/Patient Centered Care

4. ACOM Policy 406 for requirements regarding the Member Handbook and Provider Directory

5. ACOM Policy 425 for requirements regarding Social Networking activities

6. ACOM Policy 433 for requirements regarding Member ID Cards

7. ACOM Policy 414 for sample Notice of Adverse Benefit Determination and Notice of Extension

8. The Division Contract, Grievance and Appeal System Standards section for the requirements of the Notice of Appeal Resolution letters and written grievance determination letters.

9. The Division must attest it is in compliance with member information requirements by signing and submitting ACOM 404, Attachment C, as specified in the Contract.

B. The Division must provide all member information materials to members and potential members in a manner and format that may be easily understood and is readily accessible by members and potential members.

C. The Division must inform members that member information is available in paper form, without charge and upon request, and must provide it upon request within five business days.

D. The Division must use State developed member notices as indicated in Contract and Policy [42 CFR 438.10(c)(4)(ii)].

6003-O RESPONDING TO GOVERNMENT AUDITS

EFFECTIVE DATE: September 8, 2021
REFERENCES: 42 CFR 455, Subpart A, A.R.S. §§36-2918 and 2957

PURPOSE

To establish a procedure for responding to government audits, interviews, and investigations beyond routine claims reviews.

DEFINITIONS

Federal Bureau of Investigation (FBI) – The investigative arm of the federal government

Centers for Medicare and Medicaid Services (CMS) – The federal agency overseeing the administration of the Medicare and Medicaid programs.

Medicaid Fraud Control Unit (MFCU) - The investigative arm of the state Medicaid agency.

Office of Inspector General (OIG) - The legal investigative arm of federal government programs.

State Attorney General's Office (AGO) - The legal prosecutorial arm of State government.

State Government Agency/AHCCCS - Any state agency responsible for clinical licensure or oversight of healthcare providers.

POLICY

The AHCCCS Office of Inspector General (AHCCCS-OIG) has the authority to conduct preliminary and full investigations relating to fraud, waste, and abuse involving the programs it administers. Pursuant to 42 CFR 455, Subpart A, an Intergovernmental Agreement with the Arizona Attorney General's Office, AHCCCS-OIG refers cases of suspected Medicaid fraud to the State Medicaid Fraud Control Unit for appropriate legal action. AHCCCS-OIG has the authority to make independent referrals to other law enforcement entities.

Pursuant to A.R.S. §36-2918, AHCCCS-OIG has the authority to issue subpoenas and enforce the attendance of witnesses, administer oaths or affirmations, examine witnesses under oath, and take testimony as the Inspector General deems relevant or material to an investigation, examination, or review undertaken by the Office.

Pursuant to A.R.S. §§36-2918 and 2957, AHCCCS-OIG has the authority to impose a civil monetary penalty of up to $2,000.00 for each item or service claimed, and/or an assessment of an amount not to exceed twice the amount claimed.

AHCCCS-OIG has been designated as a Criminal Justice Agency through the Federal Bureau of Investigations (FBI). This designation authorizes AHCCCS-OIG to access the National

Crime Information Center (NCIC) database as well as the Arizona Criminal Justice Information System. Additionally, AHCCCS-OIG is authorized to receive and share restricted criminal justice information with other federal, state, and local agencies.

RESPONSIBILITIES

The Corporate Compliance Officer or designee is responsible for leading the response to as well as coordinating and tracking all details of government audits, interviews, and investigations.

GUIDELINES

Federal and state governments have made the investigation and prosecution of healthcare fraud one of their highest priorities. They have also proposed many new initiatives for identifying fraudulent and abusive practices. A number of these initiatives include conducting audits of vendors. The Division's policy requires the implementation of internal controls to provide reasonable cooperation with these government authorities while at the same time protecting the rights of the Division and its employees.

A. Non-Routine Communication from Government Representatives

1. To fully understand a request from a government representative and provide a complete and accurate response to non-routine requests from a government representative, all such communications must be forwarded to the Corporate Compliance Officer.

2. Any employee receiving a nonroutine request or communication from a government representative should obtain the following information for the Corporate Compliance Officer or designee:

    a. The person's name, title, and department (if possible, obtain a business card), badge or identification number; for telephone requests, the office telephone number of the government representative; and

    b. As many details as possible about the information or documents being requested.

    c. If a list of requested items/documents is provided, prepare a copy of each document.

3. Inquiries into the location of files must be answered truthfully. All requests from a government representative to obtain any documents from the Division must be immediately forwarded to the Office of Administrative Review.

4. If an employee is contacted by an organization that is not on the list of agencies in the Definitions and Acronyms section of this policy and is unsure whether the organization is a federal or state government agency, they should contact their direct supervisor/manager, the Corporate Compliance Officer or designee directly.

5. If a request for documents or a subpoena is received from a government representative, it should be immediately forwarded to a supervisor/manager. The supervisor/manager should immediately send a copy to the Corporate Compliance Officer.

    a. Employees should not respond directly to the request until receiving direction from their supervisor/manager.

B. Interviews with Government Representatives

1. It is appropriate to respond to unannounced visits from a government representative with a reasonable request to schedule an appointment to speak with the representative at a later date. Any employee receiving an unannounced visit from a government representative should immediately contact their supervisor/manager and/or the Corporate Compliance Officer or designee, or AD for direction.

2. Division employees must contact their supervisor/manager and/or the Compliance Officer or designee as soon as possible after the contact by the government representative.

3. Employees are encouraged to take notes during any encounters with government representatives.

4. Division employees may have someone present during any interview with a government representative. The Division may arrange to have an appropriate individual (possibly an attorney) present at no cost to the employee or employees may consult with an attorney of their own choosing at their expense.

5. When a Division employee speaks with a government representative, they should answer the questions completely, accurately, and concisely to prevent any misunderstanding of the facts.

C. Searches by Government Representatives

1. Division employees should be courteous and helpful to government representatives but should not grant access for a search without guidance from a supervisor/manager, the Corporate Compliance Officer or designee, or AD.

2. A government search may not be conducted without a legally valid search warrant. Division employees should request time to contact the Corporate Compliance Officer and legal counsel to determine the validity of a search warrant.

3. Division employees must not:

    a. Alter or destroy documents sought in an investigation

    b. Falsely deny knowledge of information

c. Seek to influence another person to exercise the privilege against self-incrimination

d. Intimidate a witness with the intent of influencing testimony; or

e. Retaliate against a witness for testifying in an official proceeding.

4. Any Division employee that observes this prohibited behavior should immediately report this to the Corporate Compliance Officer.

5. Division employees should, when possible, make copies of all documents requested by a government representative. A government representative should not remove documents from the Division's premises without the Division first maintaining a copy of the documents. The Office of Administrative Review will provide instructions on the maintenance of these documents.

6. If a Division employee cannot make copies of all requested documents, they should request and obtain from the government representative a detailed log of all documents or items copied or removed.

7. Division employees are not authorized to sign, on behalf of the Division, any document that a government representative requests be signed. If a government representative requests that a Division employee sign an affidavit, that employee may request to have legal counsel review it before signing it.

D. Communications Regarding an Investigation

1. Inquiries for information from the media should be referred to the Department of Economic Security Public Information Officer (DES-PIO) at PIO@azdes.gov. Whenever possible, the employee should obtain the identity and telephone number of the inquiring party and provide that information to the Public Information Officer.

E. Administrative Issues

1. The Corporate Compliance Officer or designee will follow the Compliance Program policy and procedure for creation, maintenance, and retention of the documents related to a government audit, interview, or search under the guidance of legal counsel.

6003-R COMPLIANCE CONCERNS AND REPORTING REQUIREMENTS

REVISION DATE: 9/15/2021
EFFECTIVE DATE: September 8, 2021
REFERENCES: 42 CFR 455.17, CMS FWA Reporting, MIP Manual, AAC R6-6-1517

PURPOSE

To ensure Division employees understand it is everyone's responsibility to assist in preventing, identifying, and reporting any suspicion of fraud, waste, and abuse of the Division's programs.

POLICY

To encourage and establish communications for Division employees that shall remain "confidential and non-retaliatory" regarding reporting misconduct. Reporting of fraud, waste, and abuse shall be completed without retribution and retaliation of the individual reporting or filing a complaint. Employees shall report suspicion about legal and/or ethical violations.

A. Opening lines of communication between the Corporate Compliance Officer/Compliance Unit and Division employees is critical to the successful implementation of a Compliance Program and the reduction of potential Fraud, Waste, Abuse, and misconduct.

B. In addition to serving as a contact point for reporting non-compliance, the Corporate Compliance Officer/Compliance Unit shall be a resource to whom staff can receive clarification regarding policies related to corporate compliance.

C. Questions and responses shall be documented and dated and, if appropriate, addressed with the Corporate Compliance Committee so that standards and policies can be improved to reflect any necessary changes or clarification of existing Policies and Procedures.

D. Division employees shall report legitimate concerns about legal, ethical, or quality of care issues. Any activity that may compromise a member's health, safety, or welfare and/or the Division's reputation related to ethical health care and business practices shall be reported to the Corporate Compliance Officer/Compliance Unit immediately.

E. The Corporate Compliance Committee members or the established Corporate Compliance Program Integrity hotline is another means by which reporting may occur.

F. Each employee shall be encouraged, but not required, to follow the chain of command when reporting any allegation(s) involving suspected fraud, waste, or abuse in Medicare and Medicaid programs:

G. The Division's Corporate Compliance Officer (Compliance Officer) and Corporate Compliance Unit shall be the first point of contact for employees to report any allegations of fraud, abuse, or waste.

H. Suspected fraud, waste and abuse may be reported via one of the following mechanisms:

Fraud Contact Information

Member Fraud:

Maricopa County: (602) 417-4193
Outside Maricopa County: (888) 487-6686
General Questions:
Email: AHCCCSFraud@azahcccs.gov

I. Each employee has the right to remain anonymous when reporting any suspected allegations of fraud, waste, or abuse to Medicare, Medicaid, or other programs. The reporting process may be written or verbal.

J. The Compliance Officer or designee that receives reports of fraud, abuse, or waste may retain the confidentiality of staff member(s) who report information as deemed appropriate.

K. When reporting a compliance concern other than suspected fraud, waste and abuse, staff shall include information the Compliance Officer or designee will need to follow up. This includes but is not limited to:

1. The location where the concern occurred or is occurring
2. The date or dates of any incident
3. The names and job roles of individuals involved in the concern
4. A description of the concern
5. The name of the staff submitting the report
    a. If the person is comfortable letting the Compliance Officer/Office know.
    b. If the staff member is not comfortable leaving their name, staff may make an anonymous report by calling the FWA & Misconduct hotline or reporting directly to AHCCCS.

L. Anyone making such a report is assured that it will be treated as confidential and will be shared with others only on a need-to-know basis.

M. To protect those involved in a compliance investigation, the findings of the compliance investigation remain confidential. Therefore, details of the investigation shall be shared only on a need-to-know basis.

N. The Compliance Officer or designee ensures that all reports will be thoroughly and fairly investigated.

O. No adverse actions will be taken against someone for making a report in good faith or for cooperating with a compliance investigation in good faith.

6003-S COMPLIANCE PROGRAM TRAINING AND EDUCATION

EFFECTIVE DATE: September 8, 2021
REFERENCES: Division Operations Manual Chapter 6000 C. 1. A. v., 6000 C. 2, 6004-F, Compliance Program Components A, ACOM Chapter 100 Part B. 9, 10XXXXX

PURPOSE

To establish procedures for the mandatory compliance training and routine dissemination of information related to compliance activities.

POLICY

The Division will provide education and training related to compliance requirements and standards, to offer guidance, promote an organizational culture of ethics and compliance, and provide an environment in which stakeholders can act in good faith without fear of retaliation.

RESPONSIBILITIES

The Corporate Compliance Officer will ensure Division procedures for providing education and training are followed. In their absence, the Assistant Director will appoint an appropriate staff member.

GUIDELINES

Education and training are key factors in ensuring the effectiveness of the Division's Compliance Program. The Division must educate its employees on applicable federal, state, local, contractual, and organizational regulations by which the Division is governed. This includes the organization's policies the Division is committed to uphold. It is vital that all employees are informed of their individual responsibility to understand and comply with these regulations and policies. As a result, the Division's Compliance Program has established the following education and training policy.

A. Compliance Program Training Materials

1. The Corporate Compliance Officer or designee will create or oversee the creation of all training presentations and materials related to the Compliance Program, including the date on which the document was created and updated, if applicable.

2. The Corporate Compliance Officer or designee will review all Compliance Program training presentations and materials on an annual basis for content, and update as necessary to comply with, and include any regulatory changes.

3. The Compliance Officer or designee in coordination with the Office of Professional Development (OPD) will maintain a record of all compliance training programs, including training presentations, attendance records, and other related materials such as handouts and test results.

B. Compliance Program Orientation Training

1. The Corporate Compliance Officer or designee is responsible for ensuring that all new Division employees and associates receive the most current version of Compliance Program Orientation Training within 90 days of hire.

2. The Corporate Compliance Officer or designee will create and maintain records of training materials and attendance reports in the Corporate Compliance Unit permanent files.

C. Compliance Program Annual Refresher Training

1. The Corporate Compliance Officer or designee in coordination with OPD, is responsible for ensuring that all Division employees receive the most current version of Compliance Program Refresher Training every calendar year.

2. The Corporate Compliance Officer or designee will receive Refresher Training materials and attendance reports from OPD and monitor compliance.

3. The Corporate Compliance Officer or designee will work with OPD to coordinate Refresher Training.

D. Dissemination of Compliance Program Information

1. The Corporate Compliance Officer or designee in coordination with the Communications and Customer Care Units, is responsible for ensuring that Division employees are informed of compliance regulatory changes, events, and news, as it relates to Division services.

2. The Corporate Compliance Officer or designee may use a variety of tools or formats for these updates/newsletters, including, but not limited to e-mail bulletins, conference calls, and notices posted in employee break areas.

6003-U CORPORATE COMPLIANCE PROGRAM DOCUMENTATION

EFFECTIVE DATE: September 8, 2021
REFERENCES: 42 CFR 438.608, ACOM Policy 103, AHCCCS contract with DDD Section D paragraph 65 and 66

POLICY

To outline the process for establishing documentation creation, maintenance, and retention procedures for compliance activities such as:

A. Development and implementation of written policies and procedures

B. Reporting to the Compliance Committee

C. Training and Education

D. Developing effective lines of communication

E. Conducting internal and external monitoring and auditing

F. Enforcing standards through well publicized disciplinary guidelines

G. Responding promptly to detected noncompliance and undertaking corrective action

DOCUMENTATION

The Division's Corporate Compliance staff shall take steps to document its compliance processes. The Corporate Compliance Officer (Compliance Officer) will ensure procedures for document control are followed. In their absence, the Assistant Director (AD) or Corporate Compliance Committee will appoint an appropriate staff member.

Documentation is a key factor in the determination of a Compliance Program's effectiveness. An organization must be able to demonstrate the actions that have been taken throughout the development and implementation process to evaluate the reasonableness of decisions made in establishing and maintaining the program. Therefore, the Division's Compliance Program has established the following documentation guidelines to assist in creating an electronic record of the Division's compliance activities.

A. Maintenance of Compliance Program Documents

1. The Compliance Officer or designee will create and maintain and oversee the maintenance of all documentation of the Compliance Program, including the date on which the document was created and updated, if applicable.

2. The Compliance Officer or designee will maintain a log of all compliance-related documents of which he/she is aware or that are in his or her possession.

3. The Compliance Officer or designee may generate or receive documents that are of a confidential nature. These may include business documents, investigation materials, or member records that must be protected from

general disclosure or distribution. The Compliance Officer, in consultation with legal counsel when appropriate, will determine which documents should be maintained as "CONFIDENTIAL" documents. Each page of these documents will be labeled "CONFIDENTIAL/DO NOT DUPLICATE."

4. Records generated or obtained by the Compliance Officer or designee in the course of business may be of a confidential nature as a result of a communication with legal counsel. Those documents will be marked on each page: "CONFIDENTIAL ATTORNEY/CLIENT PRIVILEGED COMMUNICATION—NOT FOR REDISCLOSURE." The legend will be placed away from margins where it could be lost in the duplication process. All efforts will be made to refrain from duplicating documents that are "Confidential" or "Attorney/Client Privileged."

5. All documents that are "Confidential" or "Attorney/Client Privileged" will be maintained separately in secured electronic files. The Compliance Officer or designee will maintain records of who may access the "Confidential" and "Attorney/Client Privileged" documents.

B. Miscellaneous Documents (maintained in the Corporate Compliance Department Google drive)

1. Names, titles, and background for the Compliance Officer and any compliance staff.

2. Names, titles, and backgrounds for any high-level individuals responsible for compliance functions.

3. Job descriptions for the Compliance Officer and any compliance staff.

4. Information regarding the reporting structure to the Corporate Compliance Committee and the AD.

5. Copies of reports made to the Corporate Compliance Committee and the AD.

C. Human Resource Documents (maintained in Human Resource Department files)

1. Human Resource and Compliance Policies and Procedures regarding the hiring of new personnel.

2. Documentation evidencing background checks performed on new hires.

3. Documentation reflecting individuals refused employment based upon background check findings.

4. Information collected during exit interviews regarding compliance issues.

D. Compliance Training Documents (maintained in the Corporate Compliance Department Google drive)

1. Information regarding the development and roll-out of the compliance training program.

2. Information regarding the development and implementation of specialized training for certain groups of personnel.

3. Attendance sheets from all training sessions performed.

4. Agendas and contents of training, including length of session and instructor.

5. Copies of all training handout materials.

6. Copies of all tests given.

7. Copies of all employee-signed acknowledgement documents relating to the Compliance Program.

E. Disseminated Compliance-Related Materials (maintained in the Corporate Compliance Google drive and the Communications Team files)

1. Copies of all notices sent to employees, subcontractors, and vendors regarding the Compliance Program, the Compliance hotline, and other compliance-related topics.

2. Copies of all newsletters and other Division publications that address the Compliance Program.

F. Monitoring and Auditing Materials (maintained in the Corporate Compliance Department Google drive)

1. Information regarding the number and frequency of all audits and documentation requirements.

2. Information regarding benchmarks and progress made.

3. Information regarding individuals responsible for conducting audits, if outsourced.

4. Information regarding the individuals that make up the audit team if audits are conducted internally.

5. Information describing the scope, type, and frequency of audits performed.

G. Documentation Related to the Program Integrity (PIU) hotline (maintained in the Corporate Compliance Department Google drive)

1. Promotional materials on the PIU hotline.

2. Logbook of reports of potential non-compliant behavior received via the PIU hotline and through other means of communication made to the Compliance Officer.

3. Documentation regarding fraud, waste, and abuse (FWA) and misconduct referrals, if necessary, on each report received.

4. Documentation of corrective action measures and imposed corrective action plans (CAP).

H. Misconduct Investigation Records (maintained in the Corporate Compliance Department Google drive)

1. Referral information stored in PIU database.

2. Copies of all Standards of Conduct and Misconduct Investigations reports.

I. Documentation Related to the Response to, and Prevention of, Detected Offenses

1. Reports on the investigations conducted into areas of potential noncompliance.

2. Reports on monitoring and oversight of CAPs.

3. Information regarding voluntary self-disclosures on noncompliance.

J. Government Contacts (maintained in the Corporate Compliance Department Google drive)

1. Log of all contacts made between the Division and any government authority including, but not limited to, AHCCCS, a fiscal intermediary or carrier, CMS, HHS, and the Officer of Inspector General. The log will include the name, title, and agency of the person spoken to, the date and time of the call, the matter referenced, and the response received from the individual along with information regarding the source of the response.

2. All correspondence to/from a government authority.

3. Documentation of any response to a request from a government authority for documents, including a summary of any investigation conducted by Corporate Compliance Team prior to responding.

6004-A QUALITY MANAGEMENT

REVISION DATE: 8/30/2013
EFFECTIVE DATE: July 31, 1993
REFERENCES: A.R.S. §§ 36-550, 36-595 et seq.; A.A.C. R6-6, R9-28, R9-33, R6-18; 42 CFR 438.66

The purpose of Quality Management is to monitor and assure the quality of all care and services provided to individuals through a coordinated, comprehensive, and continuous effort. The goals of Quality Management include:

A. Ensuring services are available, accessible, timely, safe, supportive, and appropriate.

B. Providing ongoing, objective, and systematic measurement, analysis, and trending to facilitate performance improvement efforts.

C. Oversight for determining quality, efficiency, and effectiveness of service delivery.

Division employees are responsible for internal oversight of the following Quality Management activities: ensuring providers are compliant with requirements of external entities; providing oversight of Support Coordination; providing oversight of the Division's contracted Health Plans; and oversight of a variety of services; and settings such as:

A. Assisted living facilities;

B. Individual's home (not contracted with the Division);

C. Day programs (Day Treatment and Training (child and adult));

D. Employment programs;

E. Nursing facilities;

F. Provider's home; or,

G. Residential settings (group homes, Intermediate Care Facility for Persons with an Intellectual Disability (ICF/ID), developmental homes).

6004-E OPERATIONAL REVIEWS

EFFECTIVE DATE: May 20, 2016
REFERENCES: 42 CFR Part 438, AHCCCS 1115 Waiver

Purpose of Operational Reviews

The purpose of the Division performing an Operational Review (OR) is to:

A. Know the Contractor's system and operation.

B. Support Contractor compliance with Division requirements.

C. Improve Contractor's compliance with Division requirements.

D. Recognize Contractor accomplishments.

E. Perform Contractor oversight as required by the Centers for Medicare and Medicaid Services (CMS), in accordance with the Arizona Health Care Cost Control System (AHCCCS) 1115 Waiver.

F. Determine whether the Contractor satisfactorily meets:

1. Division contract requirements
2. Division policies
3. Arizona Revised Statute
4. Arizona Administrative Code
5. 42 CFR Part 438, Managed Care.

G. Determine progress made in implementing recommendations made during prior reviews.

H. Determine Contractor compliance with its own policies and procedures.

I. Evaluate the effectiveness of Contractor policies and procedures.

Types of Operational Reviews

The following are types of Operational Reviews:

A. Full Review, which includes a review of all standards

B. Focused Review, which includes review of specific:

1. Areas across all Contractors, e.g., implementation of value based purchasing
2. Standards related to individual Contractor performance.

Prior to Onsite Review Timeline

The timeline for performing Operational Reviews is as follows:

A. Three (3) weeks before onsite review, the Division provides formal notification of the onsite review to the Contractor.

B. Two (2) weeks before onsite review, the Contractor submits the first documents, which include Populations for Samples, e.g., Prior Approval (PA) Logs.

C. Within three (3) days of receipt of above documents, the Division notifies Contractor of which samples will be reviewed.

D. One (1) week before onsite review, the Contractor uploads all documents to the Division's File Transfer Protocol (FTP) site.

After Onsite Review Timeline

After the onsite review occurs, the following occur:

A. Six (6) weeks after the onsite review, the Division forwards a draft of its findings to the Contractor.

B. Within one week after above action, the Contractor may challenge The Division's finding by submitting a Challenge Letter to the Division.

C. Nine (9) weeks after the onsite review, the Division issues its Final Report.

D. Eleven (11) weeks after the onsite review, the Contractor Corrective Action Plan(s) (CAP) is due to the Division.

E. Six (6) months after the Division approves the CAP approval – CAPs must be completed and closed.

The Process – Document Review

The Division reviews documents at the Contractor's place of business (on-site), off-site, or a combination of both.

When the Division requests additional documents:

1. Before noon, the Contractor supplies the documents by close of business on the same day.

2. After noon, the Contractor supplies the documents by 9:00 a.m. on the following day.

6004-F COMPLIANCE PROGRAM

REVISION: 10/1/2019
EFFECTIVE DATE: June 10, 2016
REFERENCES: 42 CFR 438.230(b), 42 CFR 438.608, ACOM Policy 103

Compliance Program Overview

The Corporate Compliance Program consists of the development, maintenance, and implementation of compliance policies and procedures, and the use of training materials, to ensure the Division and its personnel, and contract providers (e.g., Administrative Services Subcontractors, providers and agents) meet all legal and regulatory requirements in the performance of their duties.

The Program provides measures to prevent, detect and correct issues of non-compliance with applicable policies, federal and state regulations, and AHCCCS' contractual requirement to guard against fraud, waste and abuse (FWA).

The Division ensures compliance with all federal, state, and local requirements, including but not limited to, those identified in:

A. 42 Code of Federal Regulation (CFR)

B. Health Insurance Portability and Accountability Act (HIPAA)

C. Arizona Revised Statutes (ARS)

D. Arizona Administrative Code (AAC)

E. The Division's Contract with the Arizona Health Care Cost Containment System (AHCCCS).

F. Centers for Medicare and Medicaid Services (CMS)

Definitions

A. Abuse - Related to this section, practices which are inconsistent with sound fiscal, business or medical practices and result in an unnecessary cost to the Division or in reimbursement for services which are not medically necessary, or which fail to meet professionally recognized standards for health care.

B. Claim – Under the FCA, the definition of "claim" includes any request or demand, whether under contract or otherwise, for money or property which is made to a contractor, grantee, or other recipient if the United States government provides any portion of the money or property which is requested or demanded, or if the government will reimburse such contractor, grantee, or other recipient for any portion of the money or property which is requested or demanded.

C. Corporate Compliance Program – a formal program specifying an organization's policies, procedures, and actions within a process to help prevent and detect violations of laws and regulations. It is designed, structured and implemented to correct identified compliance issues and assist the Division, providers, agents, and subcontractors in meeting legal, regulatory, and contractual obligations pertaining the services provided on behalf of the Division.

D. Code of Federal Regulations (CFR) - is the codification of the general and permanent rules published in the Federal Register by the departments and agencies of the Federal Government.

E. Deficit Reduction Act (DRA) –The DRA of 2005 is a United States Act of Congress concerning the budget. It addresses deficit reductions ranging from education to housing and Medicare to Medicaid. In addition, any entity that receives or makes annual Medicaid payments, under the State plan, of at least $5 million must implement written policies for its employees, management, contractors and agents regarding the False Claims Act.

F. Fraud - "An intentional deception or misrepresentation made by a person with the knowledge that the deception could result in an unauthorized benefit to himself or another person. It includes any act that constitutes fraud under applicable federal or state law." (42 CFR 455.2)

An act of fraud has been committed when a member or provider:

1. Knowingly presents (or causes to be presented) to the federal government a false or fraudulent claim for payment.

2. Knowingly uses (or causes to be used) a false record or statement to get a claim paid by the federal government.

3. Conspires with others to get a false or fraudulent claim paid by the federal government.

4. Knowingly uses (or causes to be used) a false record or statement to conceal, avoid, or decrease an obligation to pay money to transmit property to the federal government.

G. Governing Body – The Division as body of persons or officers who establishes the rules and policies, having the authority to exercise governance over its providers, agents and subcontractors.

H. Member – The eligible person enrolled to receive services with the Division.

I. Potential - Based on one's professional judgment, it appears as if an incident of fraud and abuse may have occurred. The standard of professional judgment used would be that judgment exercised by a reasonable and prudent person acting in a similar capacity.

J. Preliminary Fact-Finding Investigation - When the Division receives a complaint of potential fraud and abuse from any source or identifies any questionable practices, it may conduct a preliminary fact-finding to determine whether there is sufficient basis to warrant a full investigation by the Office of the Inspector General, Arizona Health Care Cost Containment System (AHCCCS) Office of Program Integrity.

K. Prevention - Keep something from happening.

L. Provider - A person, entity or employee of an entity that subcontracts with the Division for the delivery of services to members. All providers must meet the specific qualifications outlined in the Division's Policy Manual. All providers of Arizona Long Term Care System (ALTCS) services must be registered with AHCCCS. Health Plans under contract with the Division are responsible for credentialing acute care providers.

M. Waste - As defined by the Arizona Health Care Cost Containment System (AHCCCS), the overutilization of services, or other practices that, directly or indirectly, result in unnecessary costs to the Medicare program. Waste is generally not considered to be caused by criminally negligent actions but rather the misuses of resources.

Corporate Compliance Structure

The Corporate Compliance Program is designed to fulfill the Division's commitment to foster a culture of compliance and an environment conducive to preventing, detecting and correcting non-compliance issues with all applicable policies, federal and state laws and regulations, and AHCCCS contractual requirements. In addition, the Corporate Compliance Program provides guidance to Division staff, providers, agents and subcontractors in guarding against fraud, waste and abuse all levels of the organization.

The Corporate Compliance Committee monitors, reviews, and assesses the effectiveness of the Corporate Compliance program and the timeliness of reporting to ensure that the Corporate Compliance Program structure facilitates compliance with all legal and governmental requirements.

Corporate Compliance Committee members include:

- Assistant Director/Chief Executive Officer
- Corporate Compliance Office/Deputy Assistant Director
- Office of Person Centered Care/Deputy Assistant Director
- Chief Financial Officer/Deputy Assistant Director
- Medical Chief Officers
- Legal & Regulatory Services Administrator
- Compliance Administrator
- Contract Compliance Officer
- Health Plan Compliance Officer
- Fraud, Waste and Abuse Manager
- Privacy Officer
- Policy Manager
- Chief Quality Officer
- Medical Management Manager
- DDD Human Resources Designee
- AzEIP Bureau Chief
- Legal Advisor/Attorney General's Office/DES Legal Representation

The following personnel manage the Compliance Program to ensure compliance with all legal and governmental requirements:

- The Chief Compliance Officer, Corporate Compliance Committee, and all other Division Management
- Human Resources Department
- All other Division employees.

Corporate Compliance Program Components

The Corporate Compliance Program is based on the seven key elements of Compliance that facilitate prevention, detection and remediation of non-compliance with federal and state laws and regulations, AHCCCS contractual requirements and DES-DDD internal policies and procedures. The seven key elements are:

1. Written Policies, Procedures and Standards of Conduct
2. Corporate Compliance Program Oversight
3. Training and Education
4. Effective Lines of Communication
5. Enforcement of Standards
6. Monitoring and Auditing
7. Correcting Areas of Non-Compliance

The Corporate Compliance Program is centered on the Corporate Compliance Plan, compliance policies and procedures, oversight of compliance to law, and contractual obligations, education, monitoring, and enforcement. The Plan:

- Details the process and steps taken to prevent, detect, and remediate instances of non-compliance,
- Adheres to the Division's contract with AHCCCS,
- Is submitted annually to the AHCCCS Office of Inspector General (OIG).

A. Written Policies, Procedures and Standards of Conduct

The Corporate Compliance Program is based on written Policies, Procedures, and Standards of Conduct that facilitate compliance with federal and state laws, regulations, and AHCCCS contractual requirements.

Pursuant to the Deficit Reduction Act of 2005, written Policies address the Federal False Claims Act, administrative remedies for false claims/statements, civil and criminal penalties for false claims/statements, and whistleblower protections under law. See Operations Manual Policy 6002-N Fraud and False Claims, Provider Manual Chapter 20 Fraud, Waste and Abuse, and Provider Manual Chapter 21 False Claims Act.

B. Corporate Compliance Program Oversight

The Divisions Chief Compliance Officer and Corporate Compliance Committee provides Division-wide oversight to ensure compliance with Program and Fiscal Integrity. The Chief Compliance Officer is responsible for the strategy, implementation and oversight of the Division's Compliance Program.

The Corporate Compliance Program is structured to include Division staff responsible for the oversight of compliance related activities to include but not limited to:

1. Risk assessment and management of internal and external compliance
2. Development, implementation and/or monitoring of training and educational events for all Division staff, subcontractors, providers, and agents pertaining Corporate Compliance.
3. Provide technical assistance to all Division staff, subcontractors, providers and agents regarding compliance
4. Documentation of all referrals suspecting potential FWA or other issues of non-compliance
5. Development and monitoring of corrective action plans
6. Timely processing of referrals deemed credible of FWA and submission to AHCCCS OIG
7. Reporting to, and providing reports to, the Corporate Compliance Committee

C. Training and Education

1. Mandatory Training

a. In a manner that can be verified by AHCCCS, the Division trains all employees (including Management) on the following:

i. Compliance
ii. Article 9
iii. HIPAA (annually)
iv. Standards of Conduct for State Employees
v. Fraud Awareness (annually)
vi. Business Continuity
vii. Diversity
viii. AHCCCS Overview

b. The Division trains employees as appropriate to their job functions, including but not limited to:

i. Support Coordination/Member Services

ii. Network/Provider Relations

iii. Medical Management

iv. Quality Management

v. Claims/Business Operations

c. The Division provides refresher training to all employees as appropriate to their job functions, and as needed

2. Training Materials

The DES Office of Professional Development develops and maintains all training materials. Training materials are reviewed and updated as needed by the Corporate Compliance Unit.

3. Effective Lines of Communication

a. The Division provides updates to their personnel via the following formats:

i. Unit meetings/AMS

ii. Statewide meetings

iii. E-mails

iv. Echo Employee Newsletter

v. Policies and Procedures

b. The Division may provide updates to contracted providers in the following formats:

i. Provider/Coordination meetings

ii. Vendor Blasts/e-mails

iii. Policies and Procedure Manuals

iv. Contract monitoring units.

D. Enforcement of Standards

1. Evaluate the ability of prospective providers to perform the activities to be delegated, and using accepted risk assessment criteria, as needed.

2. Establish a written agreement (as defined by the Division's contract with AHCCCS) that:

a. Specifies activities and reporting responsibilities delegated to the contractor

b. Provides for revocation of such delegation, and application of sanctions

c. Includes other specific requirements, as stated in the Division's contract with AHCCCS.

3. Retain authority to direct delegated contract requirements

4. Communicate deficiencies to the provider so the provider is able to develop a Corrective Action Plan (42 CFR 438.230[b]).

E. Monitoring/Auditing and Enforcement

1. The Division monitors compliance via:

a. Compliance-related reports based on Division and Provider/AdSS data,

b. Investigations of allegations of non-compliance,

c. Review of functional areas and related systems,

d. Assessment of mechanisms to facilitate prevention, detection and remediation of non-compliance,

e. Internal and external audits.

2. Reporting of Non-Compliance to the Division

The Division maintains open lines of communication to support Division personnel, subcontractors, providers, agents, members, and all other individuals in reporting non-compliance. Toll-free hotlines and dedicated email addresses are identified in Division publications and available on the Division website for this purpose.

3. Correcting Areas of Non-Compliance

Upon learning of a potential incident of fraud, waste or abuse involving an AHCCCS Program, the Division:

a. May conduct a preliminary fact-finding to determine the nature of the incident,

b. Completes the confidential AHCCCS Referral for Preliminary Investigation form available on the AHCCCS website (for member and provider cases),

c. Notifies the AHCCCS-Office of the Inspector General, Arizona Health Care Cost Containment System (AHCCCS) Office of Program Integrity in accordance within ten days of discovery per AHCCCS ACOM Policy 103.

d. Responds to compliance issues to the extent required by law and within the mandated timeframes.

e. Enforces compliance and takes corrective actions as appropriate.

The Division generates regular compliance-related reports that include, but are not limited to:

a. Grievance System Report

b. Resolution System Report

c. CLT_0060 (high utilization by members) and CLT-0150 (underutilization by members); see Policy 6002-N Fraud and False Claims

d. Claims Dashboard

e. Encounters Report

f. Support Coordination Reports.

g. HIPAA violations report

6004-G Monitoring and Oversight

EFFECTIVE DATE: January 29, 2020

REFERENCES: 42 CFR 438.230(b); 42 CFR 438.608; ACOM 103; Operations Manual, Chapter 6000, Policy 6004.

This Policy stipulates requirements for the internal auditing, monitoring, and oversight of Long-Term Services and Supports (LTSS) provided by the Division, in accordance with the Division's Monitoring and Oversight Plan.

Definitions

A. Monitoring - The collection of data on a consistent basis as part of a plan to ensure contractual compliance and operational excellence.

B. Operational Area - Synonymous with business unit, functional area, or department within the Division.

C. Compliance Assurance Audit - A focused review of an operational area's compliance with contract requirements utilizing a standardized audit tool; the audit tool will include standards by which each business unit audited will be measured.

D. Key Performance Indicator (KPI) - A metric selected to provide quantifiable data in relation to the operational performance of a specific operational area or Business Unit

E. LTSS KPI Schedule of Annual Data Submissions - An overview of the KPI's collected from each operational area/Business Unit including the designated Subject Member Expert, frequency of data collection, and submission for each KPI required.

F. LTSS KPI Annual Data Submissions Template - The template provided by the Corporate Compliance Unit used by each operational area SME to collect and submit respective KPI's.

Monitoring and Oversight Plan Overview

The Monitoring and Oversight Plan has been developed as part of the Division's formal Corporate Compliance program. The plan implements a continuous, formal monitoring mechanism and compliance assurance auditing of various operational areas across the Division. The combined approach of monitoring and auditing aims to provide a preventive and corrective action approach that ensures compliance with AHCCCS contractual requirements and federal and state laws and regulations, while ensuring quality in operational and service delivery. Monitoring will be conducted across the Division's operational areas and will provide executive leadership an aggregated view of the organization's compliance health status.

A. Compliance Assurance Audits

A primary component of the Division's overall Monitoring and Oversight Plan is a system of compliance assurance auditing of each major LTSS operational area. Compliance assurance auditing will be performed by an internal auditing/monitoring business unit within the Corporate Compliance department in accordance with a planned schedule of focused audits throughout the year. The type, number, frequency, and timing of compliance assurance audits will be determined by the Compliance department leadership and approved by the Corporate Compliance Committee. Additionally, special, comprehensive audits of programs and operational areas will be

selected and conducted throughout the year by the Corporate Compliance team. The audits will focus on detecting and correcting fraud, waste and abuse; Health Insurance Portability and Accountability Act (HIPAA) violations; and risks to fiscal integrity but may also be a source of discovery that would identify a need for further compliance audits of specific operational processes.

B. Key Performance Indicators

Another key component of the Monitoring and Oversight Plan is a system of ongoing collection, compilation, and dissemination of Key Performance Indicators (KPI) across the Division's operational areas on a regular basis. KPI's were selected based on current internal, self-audit data, and AHCCCS contractual requirements and deliverables. Each operational area subject matter expert (SME) will be responsible for collecting and submitting designated KPIs on a consistent basis in accordance with the annual data submission schedule via the template provided by the Corporate Compliance Unit.

6005 - A COMPLIANCE PROGRAM CHARTER

EFFECTIVE DATE: July 1, 2020

REFERENCES: United States Sentencing Commission; *Federal Sentencing Guidelines*, Chapter Eight Effective Compliance Program, United States Department of Health and Human Services, Office of Inspector General.

The purpose is to oversee the Division's implementation of the compliance program, policies and procedures designed to address any identified regulatory risks facing the Division, and assist with the oversight responsibility for the Division's contractual and regulatory compliance, and standards of conduct.

The oversight responsibility of the Committee shall not extend to planning or conducting audits, conducting investigations, or assuring compliance with relevant laws, the Division's Code of Conduct, or other relevant standards, including those imposed by any resolution agreements such as corrective action plans, notice to cure or monetary sanctions. These are the responsibilities of the Division's Executive Leadership.

Definitions

Compliance Program - A compliance program is a set of internal policies and procedures within the Division to comply with laws, rules, and regulations, or contractual obligations. A compliance team examines the rules set forth by government bodies, creates a compliance program, implements it throughout the Division, and enforces adherence to it.

Elements of a Compliance Program - According to the Department of Health and Human Services-Office of Inspector General, an effective compliance program can enhance the Division's operations, improve quality of care, and reduce overall costs. There are seven fundamental elements of an effective compliance program:

- Policies and Procedures
- Oversight
- Education and Training
- Monitoring and Auditing
- Reporting
- Enforcement and Discipline
- Response and Prevention

Policy

Health care operates in a heavily regulated environment with a variety of identifiable risk areas; an effective Compliance Program can help mitigate those risks. Therefore, in the fulfillment of the Division's oversight responsibilities, management will be charged with the responsible of establishing a Compliance Program to help ensure that appropriate information as to AHCCCS contractual obligations, and all applicable state and federal laws

and regulations, will come to the attention of the Compliance Committee and Executive Leadership will be notified in a timely manner as a matter of ordinary operation.

A. The Division will establish a Compliance Committee to develop and maintain an effective Compliance Program.

B. A Compliance Officer will be appointed with the delegated authority to manage the Compliance Program's day-to-day operation.

C. The Compliance Officer and designees will ensure that the Compliance Program includes the seven elements that make an effective compliance program.

D. An annual risk assessment will be completed for the Division. Identified potential risk areas will be evaluated periodically, and reported to the Assistant Director and the Compliance Committee.

E. A report of Compliance Program activities will be presented periodically to the Assistant Director and the Compliance Committee.

F. The Compliance Committee will conduct an annual self-assessment of the Compliance Committee's activities.

6005 B - COMPLIANCE INVESTIGATION

EFFECTIVE DATE: July 1, 2020

REFERENCES: Corporate Compliance: Guide to Conducting Workplace Investigation

The purpose of this policy is to ensure prompt and appropriate investigation of compliance concerns and allegations.

Definition

Internal Investigation – An investigation of any concerns or allegations within an organization. The concerns or allegations for the Compliance Officer or designee to investigate may include but are not limited to, any allegations or complaints regarding non-Medicaid related fraud, waste, and abuse of the program and misconduct.

Investigation Requirements

A. All investigations begin with a review of submitted concerns or allegations.

B. There should be a thorough review of any documentation and information that is involved in the investigation. It may include an audit of billing practices and corrective actions, if necessary. The Division should cease all of the contributing factors that may be the cause of the non-compliance, as appropriate.

C. Interviews with a participating individual(s) are as follows:

1. The interview includes the “Who, What, When, Where, and Why” of the circumstances.

2. All interview notes and document notes reviewed shall be kept as part of the investigation file.

D. The Division initiates Corporate Compliance in-services and training if necessary, to the appropriate departments or individuals involved.

E. The results of the investigation are the last components in the file. As a result of the investigation, the Compliance Officer or Designee may include a corrective measure with the referral to bring the issue into compliance. The referral is sent to the DDD Employee Relations and DES Internal Affairs. However, based on findings from the investigation, the Corporate Compliance Team may review the circumstances that formed the basis for the investigation to determine whether similar problems have been uncovered. When the investigation is completed, the results will be filed in its designated file.

1. The Compliance Officer or designee summarizes the investigation, corrective actions, if applicable, and procedures that are put in place to prevent the non-compliance circumstances from recurring.

2. If the Compliance Officer or designee investigates an alleged violation and believes the integrity of the investigation may be at stake because of the presence of employee(s) under investigation, Division shall remove the

individual(s) involved from current responsibilities until the investigation is completed.

6006 AHCCCS DELIVERABLE SUBMISSION REQUIREMENTS

EFFECTIVE DATE: June 28, 2023

PURPOSE

The purpose of this policy is to outline the requirements of the Division staff when reviewing and submitting deliverables to AHCCCS. This policy applies to any Division staff responsible for receiving deliverables from the subcontracted health plans or completing an AHCCCS contract or ad hoc requests deliverable.

POLICY

A. DELIVERABLES RECEIVED FROM THE DIVISION'S SUBCONTRACTED HEALTH PLANS

Responsible Assigned Division staff shall follow AHCCCS Deliverable Submission Requirements and Administrative Services Subcontractor Compliance Monitoring procedures when completing a deliverable submission or response to AHCCCS involving engagement with the subcontracted health plans.

B. AHCCCS DELIVERABLE SUBMISSION

1. The Division shall complete accurate and timely deliverable submissions to AHCCCS.

2. Assigned Division staff shall follow AHCCCS Deliverable Submission Requirements procedure and submit accurate and complete deliverables to AHCCCS in accordance with the established due date.
3. Division staff shall ensure a backup plan is in place for all contract deliverables by providing training to the identified accountable staff member.

C. The Division's Operational Compliance shall assign a corrective action plan to the functional area if any of the requirements in this policy are not met.

7001 PRIVACY INCIDENT AND BREACH NOTIFICATION

EFFECTIVE DATE: January 18, 2023
REFERENCES: 45 CFR § 164.402; 45 CFR § 164.404; 45 CFR § 164.410; 45 CFR § 164.408, 45 CFR § 164.412; 45 CFR § 164.502; 45 CFR § 164.530; A.R.S. § 12-2297

PURPOSE

This policy applies to all Division of Developmental Disabilities (Division) staff. It describes the process the Division follows when a privacy incident occurs.

DEFINITIONS

1. "Breach" means an impermissible use or disclosure of Protected Health Information (PHI) unless the Covered Entity or Business Associate, as applicable, demonstrates that there is a low probability that the PHI has been compromised. Breach excludes:
    a. Any unintentional acquisition, access, or use of PHI by the Division's Workforce or a person acting under the authority of a Covered Entity or Business Associate if such acquisition, access, or use was made in good faith and within the scope of authority and does not result in further

use or disclosure in a manner not permitted under the Health Insurance Portability and Accountability Act (HIPAA).

b. Any inadvertent disclosure by a person who is authorized to access PHI at a Covered Entity or Business Associate to another person authorized to access PHI at the same Covered Entity or Business Associate, or organized health care arrangement in which the Covered Entity participates, and the information received as a result of such disclosure is not further used or disclosed in a manner not permitted under HIPAA.

c. A disclosure of PHI where a Covered Entity or Business Associate has a good faith belief that an unauthorized person to whom the disclosure was made would not reasonably have been able to retain such information.

2. "Business Associate" means a person or entity that performs certain functions or activities that involve the use or disclosure of PHI on behalf of, or provides services to, a Covered Entity.

3. "Covered Entity" means health plans, health care clearinghouses, and health care providers who electronically transmit any health information in connection with transactions for which Health and Human Services (HHS) has adopted standards.
4. "Protected Health Information (PHI)" means individually identifiable health information about a member that is transmitted or maintained in any medium where the information is:
    a. Created or received by a:
        i. Health care provider,
        ii. Health plan,
        iii. Employer, or
        iv. Health care clearinghouse.
    b. Relates to the:
        i. Past, present or future physical or mental health condition of a member;
        ii. Provision of health care to a member; or
        iii. Payment for the provision of health care to a member.

PHI excludes information in:

a. Education records covered by the Family Educational Rights and Privacy Act as amended, 20 U.S.C. 1232g;
b. Records described at 20 USC 1232g(a)(4)(B)(IV);
c. Employment records held by a Covered Entity in its role as an employer; or
d. Regarding a person who has been deceased for more than 50 years.

5. "Workforce" means employees, volunteers, trainees, and other persons under the direct control of the Covered Entity, whether or not they are paid by the Covered Entity.

POLICY

A. DISCOVERY OF A BREACH

1. The Division shall treat a Breach as discovered as of the first day on which such Breach is known to the Division or, by exercising reasonable diligence, would have been known to the Division or any person, other than the person committing the Breach, who is part of the Division's Workforce or an agent of the Division.

2. Anyone in the Division's Workforce who believes that member information has been used or disclosed in any way that compromises the security or privacy of that information shall immediately notify the Division's Privacy Compliance Unit by completing the Division's online form.

3. Following the discovery of a potential Breach, the Division's Privacy Compliance Unit under the guidance of the Health Information Manager shall:

   a. Begin an investigation;

   b. Conduct a risk assessment; and

   c. Based on the results of the risk assessment, begin the process of notifying each member whose PHI has been, or is reasonably believed by the Division to have been, accessed, acquired, used, or disclosed as a result of the Breach.

B. BREACH INVESTIGATION

1. The Division's Privacy Compliance Unit shall be responsible for the:

a. Management of the Breach investigation,

b. Completion of the risk assessment,

c. Coordination with others in the Division as appropriate, and

d. Facilitation of all Breach notification processes.

2. Anyone in the Division's Workforce involved in the privacy incident shall assist the Division's Privacy Compliance Unit in the investigation and provide information as requested.

C. RISK ASSESSMENT

1. The Division shall presume an impermissible use or disclosure of PHI is a Breach unless the Division's Privacy Compliance Unit performs a risk assessment and the results demonstrate a low probability that the PHI has been compromised.
2. The Division's Privacy Compliance Unit shall complete a thorough risk assessment in good faith and the conclusions should be reasonable.
3. The Division shall include the following factors in a risk assessment:

a. The nature and extent of the PHI involved, including the types of identifiers and the likelihood of re-identification;

b. The unauthorized person who used the PHI or to whom the disclosure was made;

c. Whether the PHI was acquired or viewed; and

d. The extent to which the risk to the PHI has been mitigated.

4. The Division's Privacy Compliance Unit shall consider the factors listed above in subsection C(3), or more, to determine the overall probability that PHI has been compromised.

5. Based on the outcome of the risk assessment, the Division's Privacy Compliance Unit shall determine the need to move forward with Breach notification.

6. The Division's Privacy Compliance Unit shall document the risk assessment and the outcome of the risk assessment process.

D. NOTIFICATION

1. Notice to member

a. If a Breach of PHI has occurred, the Division's Privacy Compliance Unit shall notify the affected member(s) without unreasonable delay and in no case later than 60

days after the Breach is discovered. "Unreasonable delay" means action based on a lack of good faith or justifiable reasons for the delay.

b. The Division shall ensure the notice is written in plain language and includes the following to the extent possible:

   i. A brief description of what happened,

   ii. A description of the types of information affected,

   iii. Steps that affected members should take to protect themselves from potential harm resulting from the Breach,

   iv. A brief description of what the Division is doing to investigate, mitigate, and protect against further harm or Breaches.

c. The Division's Privacy Compliance Unit shall notify the member as follows:

   i. Unless otherwise authorized by the member, by first class mail to the member's last known address.

   ii. If agreed to in writing by the member, by email.

iii. In the form of one or more mailing as information becomes available.

d. If the Division lacks sufficient contact information to provide direct written notice by mail to the member, the Division's Privacy Compliance Unit shall use a substitute form of notice reasonably calculated to reach the member.

i. If there is insufficient contact information for fewer than 10 affected members, the Division's Privacy Compliance Unit shall provide notice by telephone, email, or other means.

ii. The Division's Privacy Compliance Unit shall document if the Division lacks sufficient information to provide any such substitute notice.

iii. If there is insufficient contact information for 10 or more affected members, the Division's Privacy Compliance Unit shall do one of the following after consulting with the Department of Economic Security (DES) Chief Privacy Officer:

1) Post a conspicuous notice on the homepage of the Division's website for 90 days with a hyperlink to the additional information required to be given to members as provided above, or

2) Publish a conspicuous notice in major print or broadcast media in the area where affected members reside. The notice shall include a toll-free number that remains active for at least 90 days so members may call to learn whether their PHI was Breached.

e. The Division's Privacy Compliance Unit shall provide immediate notice to the member by telephone or other means if they believe that PHI is subject to imminent misuse. Such notice shall be in addition to the written notice described above.

2. Notice to next of kin for a deceased member

a. If the member is deceased and the Division knows the address for the member's next of kin or personal representative, the Division's Privacy Compliance Unit shall

mail the written notice described above to the next of kin or personal representative.

b. If the Division does not know the address of the next of kin or personal representative, the Division is not required to provide any notice to the next of kin or personal representative.

c. The Division's Privacy Compliance Unit shall document the lack of sufficient contact information.

3. Notice to Health and Human Services (HHS)

a. In the event a Breach of unsecured PHI affects 500 or more of the Division's members, the Division's Privacy Compliance Unit shall coordinate with the DES Chief Privacy Officer to ensure HHS will be notified.

b. If fewer than 500 of the Division's members are affected, the Division's Privacy Compliance Unit shall maintain a log of the Breaches to be submitted to the DES Chief Privacy Officer annually.

4. Delay of notification authorized for law enforcement purposes for notices made to members, the media, HHS, and by the Division's Business Associates

   a. If a law enforcement official states in writing that a notification, notice, or posting would impede a criminal investigation or cause damage to national security and specifies the time for which a delay is required, the Division's Privacy Compliance Unit shall delay for the time period specified by the official.

   b. If a law enforcement official states orally that a notification, notice, or posting would impede a criminal investigation or cause damage to national security, the Division's Privacy Compliance Unit shall:

      i. document the statement, including the identity of the official making the statement; and

      ii. delay the notification, notice, or posting temporarily and no longer than 30 days from the date of the oral statement, unless a written statement as described above is submitted during that time.

E. MAINTENANCE OF BREACH INFORMATION

1. The Division's Privacy Compliance Unit shall maintain a process to record or log all Breaches of unsecured PHI, regardless of the number of members affected.

F. WORKFORCE TRAINING

1. The Division shall ensure that everyone in the Workforce is trained on the Division's policies and procedures with respect to PHI as necessary and appropriate to carry out their job responsibilities.
2. The Division shall ensure that everyone in the Workforce is trained how to identify and report Breaches within the Division.

G. SANCTIONS

1. The Division shall refer anyone in the Workforce who fails to comply with this policy to the Program Integrity Unit and/or Human Resources for disciplinary action.

H. RETALIATION/WAIVER

1. The Division shall not intimidate, threaten, coerce, discriminate against, or take other retaliatory action against any member for exercising his or her privacy rights.

2. The Division shall not require members to waive their privacy rights as a condition of the provision of treatment, payment, enrollment in a health plan, or eligibility for benefits.

7002 AUTHORIZATION FOR USE AND DISCLOSURE OF PROTECTED HEALTH INFORMATION

EFFECTIVE DATE: 11/8/2023

REFERENCES: 45 C.F.R. § 164.502 and 45 C.F.R. § 164.508

PURPOSE

This policy applies to all Division of Developmental Disabilities (the Division) staff. It outlines the process for the authorization for use and disclosure of Protected Health Information (PHI) as otherwise permitted by the Health Insurance Portability and Accountability Act of 1996 (HIPAA).

DEFINITIONS

1. "Disclosure" means the release, transfer, or provision of access to or divulgence in any other manner of PHI to parties outside the entity holding the information.
2. "Health care operations" means the same as in 45 CFR 164.501.
3. "Health Insurance Portability and Accountability Act (HIPAA) Privacy Rule" means the Federal Regulation that establishes national standards to protect individuals' medical records and other individual health information that applies to health plans, health care clearinghouses, and those health care providers that

conduct certain health care transactions electronically. The Rule requires appropriate safeguards to protect the privacy of individual health information and sets limits and conditions on the uses and disclosures that may be made of such information without authorization from the Responsible Person. The Rule also gives members rights over their health information, including rights to examine and obtain a copy of their health records and to request corrections.

4. "Member" means the same as "client" as defined in A.R.S. § 36-551.
5. "Payment" means the same as in 45 CFR 164.501.
6. "Protected Health Information" or "PHI" means individually identifiable health information about a Member that is transmitted or maintained in any medium where the information is:
    a. Created or received by a:
        i. Health care provider,
        ii. Health plan,
        iii. Employer, or

iv. Health care clearinghouse.

b. Relates to the:

i. Past, present, or future physical or mental health condition of a Member;

ii. Provision of health care to a Member; or

iii. Payment for the provision of health care to a Member.

c. PHI excludes information in:

i. Education records covered by the Family Educational Rights and Privacy Act as amended, 20 U.S.C. 1232g;

ii. Records described at 20 USC 1232g(a)(4)(B)(IV);

iii. Employment records held by a Covered Entity in its role as an employer; or

iv. Regarding a person who has been deceased for more than 50 years.

7. "Responsible Person" means the same as in A.R.S. § 36-551.

8. "Treatment" means the same as in 45 CFR 164.501.

9. "Use" means the sharing, employment, application, utilization, examination, or analysis of PHI within the entity that maintains such information.

10. "Psychotherapy Notes" are notes recorded by a health care provider who is a mental health professional documenting or analyzing the contents of a conversation during a private counseling session or a group, joint, or family counseling session and that are separate from the rest of the patient's medical record.

POLICY

A. AUTHORIZATIONS

1. Uses and disclosures for which authorization is required.
    a. The Division shall develop an authorization form in writing and in plain language.
    b. The Division shall not require the Member to use the Division's authorization form.
    c. The Division's Privacy Officer and Records Manager shall determine whether an authorization form that was not

developed by the Division contains all of the required elements, as stated per the HIPAA Privacy Rule.

d. If a determination could not be reached, the Division's Privacy Officer and Records Manager shall consult the Attorney General's Office for additional guidance before disclosing protected health information based on that authorization.

B. VALID AUTHORIZATION CORE COMPONENTS

1. The Division shall verify that an authorization form contains the following components:
   a. A description of the information to be used or disclosed;
   b. The name or other specific identification of the Member or class of persons authorized to make the requested use or disclosure;
   c. The name or other specific identification of the Member or class of persons to whom the Division shall make the requested use or disclosure;
   d. A description of each purpose of the requested use or disclosure;

e. The statement "at the request of the Member" is a sufficient description of the purpose when a Member initiates the authorization and does not, or elects not to, provide a statement of the purpose;

f. An expiration date or an expiration event that relates to the Member or the purpose of the use or disclosure;

g. The signature of the Member and date;

h. If the authorization is signed by a personal representative of the Member, a description of such representative's authority to act for the Member, including a copy of the legal court document, if any, appointing the personal representative.

C. REQUIRED ADDITIONAL AUTHORIZATION INFORMATION

1. The Division shall ensure that the authorization form contains a statement informing the Member of their right to revoke the authorization at any time and how the Member may revoke the authorization.

2. The Division shall:

a. Not require the Member to sign an authorization as a condition of eligibility for benefits, enrollment in a health plan or the provision of treatment or payment; and

b. Make a statement on the authorization form to that effect.

3. Notwithstanding the requirement in subsection (2) of this section:

a. The Division may condition services to a Member on a signed authorization for the use or disclosure of protected health information for research purposes prior to providing research-related treatment.

b. The Division shall require a Member to sign an authorization if the information needed will determine the Member's eligibility, and the authorization does not include the use or disclosure of psychotherapy notes.

c. The Division shall require a Member to sign an authorization form before providing health care services unless otherwise approved by the Division as creating an impediment to the health and well-being of the Member.

D. INVALID AUTHORIZATION

1. The Division shall consider an authorization invalid if:
    a. The expiration date has passed or the expiration event is known by the Division to have occurred;
    b. The authorization form has not been filled out completely as to the core elements outlined in this policy;
    c. The authorization has been revoked;
    d. An authorization that states eligibility for benefits, enrollment in a health plan or treatment or payment of an authorization is a required condition, except as outlined in this policy;
    e. The authorization is a compound authorization, requesting information from separate and distinct sources that require separate authorizations, such as psychotherapy notes along with other protected health information;
    f. The Member did not voluntarily sign the disclosure form or was coerced into signing the authorization form; or
    g. Any material information in the authorization is known to be false.

E. The Division shall give a copy of the authorization to the Member upon request and maintain a copy in the Member's case file.

7003 MINIMUM NECESSARY STANDARD FOR USES AND DISCLOSURES OF PROTECTED HEALTH INFORMATION

REVIEW DATE:

EFFECTIVE DATE: December 27, 2023

REFERENCES: 45 C.F.R. § 164.502; 45 C.F.R. § 164.512

PURPOSE

This policy applies to all Division of Developmental Disabilities (the Division) staff. The purpose of this policy is to outline the requirements for making reasonable efforts to limit the use and disclosure of protected health information (PHI) as permitted by the Health Insurance Portability and Accountability Act of 1996 (HIPAA).

DEFINITIONS

1. "Business Associate" means the same as in 45 CFR § 160.103.
2. "Health care operations" means the same as in 45 CFR 164.501.
3. "Health Insurance Portability and Accountability Act (HIPAA) Privacy Rule" means the Federal Regulation that establishes national standards to protect individuals' medical records and other individual health information and applies to health plans,

health care clearinghouses, and those health care providers that conduct certain health care transactions electronically. The Rule requires appropriate safeguards to protect the privacy of individual health information and sets limits and conditions on the uses and disclosures that may be made of such information without patient authorization. The Rule also gives patients rights over their health information, including rights to examine and obtain a copy of their health records and to request corrections.

4. "Member" means the same as "client" as defined in A.R.S. § 36-551.

5 Minimum Necessary Standard" means the same as referenced in 45 CFR § 164.514(d)(2)(i)(A).

6. "Payment" means the same as in 45 CFR 164.501.

7. "Protected Health Information" or "PHI" means individually identifiable health information about a Member that is transmitted or maintained in any medium where the information is:

   a. Created or received by a:

i. Health care provider,

ii. Health plan,

iii. Employer, or

iv. Health care clearinghouse.

b. Relates to the:

i. Past, present, or future physical or mental health condition of a Member;

ii. Provision of health care to a Member; or

iii. Payment for the provision of health care to a Member.

c. PHI excludes information in:

i. Education records covered by the Family Educational Rights and Privacy Act as amended, 20 U.S.C. 1232g;

ii. Records described at 20 USC 1232g(a)(4)(B)(IV);

iii. Employment records held by a Covered Entity in its role as an employer; or

iv. Regarding a person who has been deceased for more than 50 years.

8. "Treatment" means the same as in 45 CFR 164.501.

POLICY

A. The Division shall limit unnecessary or inappropriate access to PHI:

1. Through the provision of healthcare services and related healthcare operations;
2. When it is required by law to be disclosed for an audit, for health oversight and public health; and
3. For use in court or administrative law proceedings.

B. The Division shall ensure the following utilizing the Minimum Necessary Standard:

1. Uses or disclosures for treatment, payment, and health care operations (TPO);
2. Uses or disclosures requiring the member to have an opportunity to agree or object;
3. Uses or disclosures that are permitted without the Member's authorization; and

4. Uses or disclosures by Business Associates if they are not for the reasons outlined in section (D) of this policy.

C. The Division shall disclose only the PHI necessary to accomplish the intended purpose of the use, disclosure, or request by:

1. Identifying persons or classes of persons who need access to the PHI to accomplish their job responsibilities, and
2. Establishing protocols that reasonably limit access to PHI.

D. The Division shall not utilize the Minimum Necessary Standard for the following:

1. Disclosures or requests by a health care provider for treatment.
2. Disclosures to a Member who is the subject of the PHI.
3. Uses or disclosures made pursuant to a Member's authorization on a HIPAA-compliant form.
4. Uses or disclosures required for compliance with HIPAA standard transactions.
5. Uses or disclosures required by the U.S. Department of Health and Human Services (DHHS) except when the Division has been required to provide PHI to DHHS for enforcement purposes.

6. Uses or disclosures that are required by law.

7004 ACCOUNTING OF DISCLOSURES OF PROTECTED HEALTH INFORMATION

REVIEW DATE:

EFFECTIVE DATE: December 13, 2023

REFERENCES: 45 C.F.R. § 164.528

PURPOSE

This policy applies to all Division of Developmental Disabilities (the Division) staff. This policy establishes the Division's requirements for the accounting of Disclosures of Protected Health Information (PHI) required by the Health Information Portability and Accountability Act of 1996 (HIPAA) as outlined in 45 CFR 164.528.

DEFINITIONS

1. "Business Associate" means the same as in 45 CFR § 160.103.
2. "Disclosure" means the release, transfer, or provision of access to or divulgence in any other manner of PHI to parties outside the entity holding the information.
3. "Health care operations" means the same as in 45 CFR 164.501.
4. "Health Insurance Portability and Accountability Act (HIPAA) Privacy Rule" means the Federal Regulation that establishes

national standards to protect individuals' medical records and other individual health information that applies to health plans, health care clearinghouses, and those health care providers that conduct certain health care transactions electronically. The Rule requires appropriate safeguards to protect the privacy of individual health information and sets limits and conditions on the uses and Disclosures that may be made of such information without authorization from the Responsible Person. The Rule also gives Members rights over their health information, including rights to examine and obtain a copy of their health records, and to request corrections.

5. "Member" means the same as "client" as defined in A.R.S. § 36-551.
6. "Protected Health Information" or "PHI" means individually identifiable health information about a Member that is transmitted or maintained in any medium where the information is:
    a. Created or received by a:
        i. Health care provider,

ii. Health plan,

iii. Employer, or

iv. Health care clearinghouse.

b. Relates to the:

i. Past, present, or future physical or mental health condition of a Member;

ii. Provision of health care to a Member; or

iii. Payment for the provision of health care to a Member.

c. PHI excludes information in:

i. Education records covered by the Family Educational Rights and Privacy Act as amended, 20 U.S.C. 1232g;

ii. Records described at 20 USC 1232g(a)(4)(B)(IV);

iii. Employment records held by a Covered Entity in its role as an employer; or

iv. Regarding a person who has been deceased for more than 50 years.

7. "Payment" means the same as in 45 CFR 164.501.

8. "Responsible Person" means the same as in A.R.S. § 36-551.
9. "Treatment" means the same as in 45 CFR 164.501.

POLICY

A. The Division shall provide the Member the right to receive an accounting of Disclosures of certain Protected Health Information (PHI).

B. The Division shall only accept an accounting of Disclosure when requested by the Responsible Person in writing.

C. The Division shall track the following types of PHI Disclosures:

1. Disclosures to a public health authority as permitted by law;
2. Disclosures to health oversight agencies as permitted by law, including government agencies that oversee the health care system, government benefits programs requiring health information, or other government regulatory programs;
3. Disclosures required by law, including court rules, administrative and court orders, statutes or agency rules, administrative and court subpoenas, or other lawful process;
4. Disclosures to Business Associates that are not exempt under section (D) of this policy;

5. Disclosures made in error or in violation of the law that are not exempt from accounting; and
6. Disclosures to law enforcement.

D. The Division shall not track the following PHI for accounting purposes:

1. Disclosures to carry out treatment, payment, and health care operations;
2. Disclosures to the Member who is the subject of the Protected Health Information;
3. Disclosures incidental to those permitted by the privacy rules;
4. Disclosures pursuant to a HIPAA-compliant authorization;
5. Disclosures to others involved in a Member's care or for disaster relief when the Member had an opportunity to agree or object;
6. Disclosures made for national security or intelligence purposes as provided in the regulations;
7. Disclosures to correctional institutions or law enforcement officials having custody of a Member if the Disclosure of the PHI is for treatment, the health and safety of other inmates, the health and safety of law enforcement staff, or the administration of the correctional institution; and

8. Disclosures when made as a limited data set.

E. The Division shall temporarily suspend a Member's right to an accounting of Disclosures of PHI to a health oversight agency or law enforcement agency under the following circumstances:

1. When the Division receives an oral request by the agency or entity for a suspension, the Division's Privacy Officer shall ensure it is documented:
   a. That an accounting to the Member would likely impede the Division's activities;
   b. The length of time of the suspension is not to exceed 30 days from the date of the oral statement, unless a written statement providing the time limit is submitted during the 30 days;
   c. The identity of the person in the agency or entity making the statement and the agency or entity represented; and
   d. That the right to an accounting is temporarily suspended.
2. When the Division receives a written, dated request for a suspension of an accounting, the Division's Privacy Officer shall ensure that the following is documented:

a. The name and identifying information of the Member who is the subject of the accounting;

b. A statement that such an accounting to the Member would be reasonably likely to impede the agency or entity activities;

c. The time for which such a suspension is required;

d. The official letterhead of the agency or entity requesting the suspension; and

e. The signature and title of the person representing the authorized agency that is requesting the suspension.

F. The Division shall account for Disclosures of PHI that occurred during the six years prior to the request for an accounting if the accounting is not past the retention period for documentation of the accounting for the Disclosure.

G. The Division's Privacy Officer shall provide a written response to a request for an accounting that contains:

a. Date of Disclosure of PHI;

b. Name of the entity or person who received the PHI;

c. Address of the entity or person, if known;

d. A brief description of the PHI disclosed; and

e. A brief statement of the purpose of the Disclosure that reasonably informs the Member of the basis for the Disclosure, or in lieu of such a statement, and a copy of the written request for Disclosure.

H. If, during the period covered by the accounting, the Division has made multiple Disclosures of PHI to the same person or entity for a single purpose, the Division shall ensure the accounting of Disclosure contains:

a. The information in section (G) of this policy;

b. The frequency, periodicity, or number of Disclosures made during the accounting period; and

c. The date of the last such disclosure during the accounting period.

I. After receipt of the written accounting request, the Division shall either:

1. Provide the accounting requested; or

2. If the Division cannot provide the accounting within the 30-day timeframe provide a one-time 30-day extension letter in writing that provides:
   i. An explanation of the delay, and
   ii. The date by which the accounting will be provided.

J. The Division shall maintain documentation of the Accounting for the Disclosure in the Member's case file and retain the documentation for six years from the date of the entry.

7005 RIGHT TO REQUEST RESTRICTION OF USES AND DISCLOSURES FOR PROTECTED HEALTH INFORMATION

EFFECTIVE DATE: 11/8/2023

REFERENCES: 45 C.F.R. § 164.522

PURPOSE

This policy applies to all Division of Developmental Disabilities (the Division) staff. This policy outlines the requirement when a Member requests a restriction of uses and disclosures, as permitted by the Health Insurance Portability and Accountability Act of 1996 (HIPAA).

DEFINITIONS

1. "Designated Record Set" means a group of records maintained by the provider that contains the following:
    a. Medical and billing records maintained by a provider,
    b. Case and medical management records, or
    c. Any other records used by the provider to make medical decisions about the Member.
2. "Disclosure" means the release, transfer, or provision of access to or divulgence in any other manner of PHI to parties outside the entity holding the information.

3. "Health care operations" means the same as in 45 CFR 164.501.
4. "Health Insurance Portability and Accountability Act (HIPAA) Privacy Rule" means the Federal Regulation that establishes national standards to protect individuals' medical records and other individual health information that applies to health plans, health care clearinghouses, and those health care providers that conduct certain health care transactions electronically. The Rule requires appropriate safeguards to protect the privacy of individual health information and sets limits and conditions on the uses and disclosures that may be made of such information without authorization from the Responsible Person. The Rule also gives Members rights over their health information, including rights to examine and obtain a copy of their health records, and to request corrections.
5. "Member" means the same as "client" as defined in A.R.S. § 36-551.
6. "Payment" means the same as in 45 CFR 164.501.
7. "Protected Health Information" or "PHI" means individually identifiable health information about a Member that is

transmitted or maintained in any medium where the information is:

a. Created or received by a:
    i. Health care provider,
    ii. Health plan,
    iii. Employer, or
    iv. Health care clearinghouse.

b. Relates to the:
    i. Past, present, or future physical or mental health condition of a Member;
    ii. Provision of health care to a Member; or
    iii. Payment for the provision of health care to a Member.

c. PHI excludes information in:
    i. Education records covered by the Family Educational Rights and Privacy Act as amended, 20 U.S.C. 1232g;
    ii. Records described at 20 USC 1232g(a)(4)(B)(IV);

iii. Employment records held by a Covered Entity in its role as an employer; or

iv. Regarding a Member who has been deceased for more than 50 years.

8. "Responsible Person" means the same as in A.R.S. § 36-551.

9. "Treatment" means the same as in 45 CFR 164.501.

10. "Use" means the sharing, employment, application, utilization, examination, or analysis of PHI within the entity that maintains such information.

POLICY

A. The Division shall give Members the right to request a restriction of the uses and disclosure of their Protected Health Information (PHI) under the following circumstances:

1. For treatment, payment, or health care operations; and
2. To family members, other relatives, or any other person identified by the Member who may be directly involved in the Member's care and for notification purposes.

B. The Division's Privacy Officer shall determine if the request will be accepted or denied based on the requirements of the Privacy Rule.

C. Notwithstanding the provision of section (A) of this policy, the Division shall not require the Division's Privacy Officer to agree to the restriction of the use and disclosure of PHI.

D. The Division shall advise the Responsible Person of the following:

1. If the Member is applying to another agency for benefits, restricting the disclosure of PHI may result in a delay or denial of benefits.
2. By restricting which providers can receive PHI may limit the services that can be provided by the Division.
3. If the restriction is agreed-upon, any use or disclosure by the Division contrary to the agreed restriction would be a violation of the Privacy Rule.

E. RESTRICTED RECORDS DISCLOSED FOR EMERGENCY TREATMENT

1. The Division shall request that the health care provider receiving the PHI shall not further use or disclose the information.
2. The Division shall document this request to the provider in the Member's designated record set.

F. The Division shall not restrict PHI when that information is:

1. Required for investigations by the Secretary of the Department of Health and Human Services (DHHS).
2. Required by law.
3. Required for emergency treatment, unless the Member has expressly advised that they do not want treatment.

G. TERMINATION OF RESTRICTION ON USE OR DISCLOSURE

1. The Division shall terminate or modify an agreement to a restriction if:
   a. The Responsible Person agrees to or requests termination or modification in writing;
   b. The Responsible Person orally agrees to the termination and the oral agreement is documented; or
   c. The Division informs the Member that it is terminating the agreement to a restriction with respect to the PHI created or received after the Division has informed the Member.

H. The Division's Privacy Officer shall provide a response to the request for restriction to the Member in writing within 30 days and maintain the response in the designated record set.

7007 RIGHT TO RECEIVE ALTERNATIVE MEANS OF COMMUNICATION FOR PROTECTED HEALTH INFORMATION

EFFECTIVE DATE: 11/8/2023

REFERENCES: 45 C.F.R. § 164.522 and 45 C.F.R. § 164.502

PURPOSE

This policy applies to all Division of Developmental Disabilities (the Division) staff. This policy outlines the Member's right to request privacy protection utilizing alternative means of communication.

DEFINITIONS

1. "Designated Record Set" means a group of records maintained by the provider that contains the following:
    a. Medical and billing records maintained by a provider,
    b. Case and medical management records, or
    c. Any other records used by the provider to make medical decisions about the Member.

2. "Disclosure" means the release, transfer, or provision of access to or divulgence in any other manner of PHI to parties outside the entity holding the information.
3. "Health Insurance Portability and Accountability Act (HIPAA) Privacy Rule" means the Federal Regulation that establishes national standards to protect individuals' medical records and other individual health information that applies to health plans, health care clearinghouses, and those health care providers that conduct certain health care transactions electronically. The Rule requires appropriate safeguards to protect the privacy of individual health information and sets limits and conditions on the uses and disclosures that may be made of such information without authorization from the Responsible Person. The Rule also gives Members rights over their health information, including rights to examine and obtain a copy of their health records, and to request corrections.
4. "Member" means the same as "client" as defined in A.R.S. § 36-551.

5. "Protected Health Information" or "PHI" means individually identifiable health information about a Member that is transmitted or maintained in any medium where the information is:

   a. Created or received by a:

      i. Health care provider,

      ii. Health plan,

      iii. Employer, or

      iv. Health care clearinghouse.

   b. Relates to the:

      i. Past, present, or future physical or mental health condition of a Member;

      ii. Provision of health care to a Member; or

      iii. Payment for the provision of health care to a Member.

   c. PHI excludes information in:

i. Education records covered by the Family Educational Rights and Privacy Act as amended, 20 U.S.C. 1232g;

ii. Records described at 20 USC 1232g(a)(4)(B)(IV);

iii. Employment records held by a Covered Entity in its role as an employer; or

iv. Regarding a person who has been deceased for more than 50 years.

6. "Responsible Person" means the same as in A.R.S. § 36-551.

POLICY

A. The Division shall allow the Responsible Person the right to request an alternate means of communication and an alternative address to receive communication of Protected Health Information (PHI).

1. The Division shall condition on the provision of a reasonable accommodation on:

a. When appropriate, information as to how payment, if any, will be handled; and

b Specification of an alternative address or other method of contact.

2. If a Member clearly indicates in the request for an alternative means of communication that disclosure of the PHI would put them in danger, then the Division shall make the accommodation.

B. The Member shall make the request for, and describe, the alternative means of communication or alternative location in writing.

1. The Division's Privacy Officer shall grant or deny the request based on 45 C.F.R. § 164.522 and 45 C.F.R. § 164.502.

2 The Division's Privacy Officer shall maintain all documentation regarding the request and whether the request is granted or denied in the designated record set.

C. The Division shall allow the Responsible Person to request the Division to send electronic PHI (ePHI) in an unencrypted format.

D. If the Responsible Person requests to receive PHI in an unsecured email transmission, prior to using an unsecure email transmission to provide PHI, the Division shall:

1. Inform the Responsible Person of the risk of unsecured email transmissions, and
2. Require the Responsible Person to acknowledge in writing the risk of unsecured email transmissions when transmitting PHI.

E. The Division shall review requests for an unencrypted transmission on an annual basis and maintain all documentation identified, reviewed, or involved in the request, in the case records.

7008 NOTICE OF PRIVACY PRACTICES FOR PROTECTED HEALTH INFORMATION

EFFECTIVE DATE: 3/13/2024

REFERENCES: 45 C.F.R. § 164.520

PURPOSE

This policy applies to all Division of Developmental Disabilities (the Division) staff. This policy outlines the requirements for the Notice of Privacy Practices (the Notice) of Protected Health Information as required by the Health Insurance Portability and Accountability Act of 1996 (HIPAA).

DEFINITIONS

1. "Disclosure" means the release, transfer, or provision of access to or divulgence in any other manner of PHI to parties outside the entity holding the information.
2. "Health care operations" means the same as in 45 CFR 164.501.
3. "Health Insurance Portability and Accountability Act (HIPAA) Privacy Rule" means the Federal Regulation that establishes national standards to protect individuals' medical records and other individual health information that applies to health plans, health care clearinghouses, and those health care providers that

conduct certain health care transactions electronically. The Rule requires appropriate safeguards to protect the privacy of individual health information and sets limits and conditions on the Uses and Disclosures that may be made of such information without authorization from the Responsible Person. The Rule also gives Members rights over their health information, including rights to examine and obtain a copy of their health records, and to request corrections.

4. "Member" means the same as "client" as defined in A.R.S. § 36-551.
5. "Protected Health Information" or "PHI" means individually identifiable health information about a Member that is transmitted or maintained in any medium where the information is:
    a. Created or received by a:
        i. Health care provider,
        ii. Health plan,
        iii. Employer, or
        iv. Health care clearinghouse.

b. Relates to the:

i. Past, present, or future physical or mental health condition of a Member;

ii. Provision of health care to a Member; or

iii. Payment for the provision of health care to a Member.

c. PHI excludes information in:

i. Education records covered by the Family Educational Rights and Privacy Act as amended, 20 U.S.C. 1232g;

ii. Records described at 20 USC 1232g(a)(4)(B)(IV);

iii. Employment records held by a Covered Entity in its role as an employer; or

iv. Regarding a person who has been deceased for more than 50 years.

6. "Payment" means the same as in 45 CFR 164.501.

7. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental

disability who is a member or an applicant for whom no guardian has been appointed.

8. "Treatment" means the same as in 45 CFR 164.501.
9. "Use" means the sharing, employment, application, utilization, examination, or analysis of PHI within the entity that maintains such information.

POLICY

A. The Division shall provide the Notice of Privacy Practices (the Notice) to Members receiving services from the Division annually and upon request.

B. The Division shall ensure the Notice:

1. Outlines the Uses and Disclosures of Protected Health Information (PHI),
2. Notifies the Member of their rights regarding PHI, and
3. Notifies the Member of the Division's legal duties with respect to PHI.

C. The Division shall Use or Disclose PHI in a manner consistent with the Notice.

D. The Division shall ensure the Notice is written in plain and simple language that Members, employees, or personal representatives can easily read and understand.

E. The Division shall promptly revise the Notice whenever there is a material change to:

1. The Uses or Disclosures,
2. The Member's rights,
3. The Division's legal duties, or
4. Other privacy practices stated in the Notice.

F. Except when required by law, the Division shall not implement a material change to any term of the Notice prior to the effective date of the material change.

G. The Division shall ensure the Notice of Privacy Practices contains:

1. The following statement as a header or otherwise prominently displayed:

   "THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY."

2. A description of the types of Uses and Disclosures that the Division is permitted to make for treatment, payment, and health care operations and include at least one pertinent example.
3. A description of all other purposes for which the Division is permitted or required to Use or Disclose PHI without the Member's written authorization.
4. A statement that if a Use or Disclosure for any purpose is prohibited or significantly limited by another applicable law, the description of such Use or Disclosure shall reflect the more stringent law.
5. A statement that other Uses and Disclosures will be made only with the Member's written authorization and that the Member may revoke such an authorization at any time.
6. A statement of the Member's rights with respect to PHI and a brief description of how the Member may exercise these rights, as follows:

a. The right to request restrictions of certain Uses and Disclosures of PHI, including a statement that the Division is not required to agree to a requested restriction.

b. The right to receive communications of PHI confidentially.

c. The right to inspect and copy PHI.

d. The right to request an amendment to PHI.

e. The right to receive an accounting of applicable Disclosures of PHI; and

f. The right of a Member, including an individual who has agreed to receive the Notice electronically, to obtain a paper copy of the Notice from the Division upon request.

7. A statement that the Division is required by law to maintain the privacy of PHI.

8. A statement of the Division's legal duties and privacy practices with respect to PHI.

9. A statement that the Division shall abide by the terms of the Notice currently in effect.

10. A statement that the Division reserves the right to change the terms of the notice and how it will provide a revised notice, along with the date the Notice goes into effect.
11. A statement that the Member has a right to file a complaint with the Division Privacy Officer, including their name and telephone number, and with the Secretary of the Department of Health and Human Services if a Member believes their privacy rights have been violated.
12. A statement that the Member will not be retaliated against if they file a complaint.

H. The Division shall document compliance with the Notice requirements by retaining copies of the Notices issued by the Division and, if applicable, any written acknowledgments of receipt of the Notice or documentation.

7009 DE-IDENTIFICATION - PROTECTED HEALTH INFORMATION

EFFECTIVE DATE: February 28, 2024

REFERENCES: 45 C.F.R. § 164.502; 45 C.F.R. § 164.514

PURPOSE

This policy applies to all Division of Developmental Disabilities (the Division) staff. This policy outlines the de-identification of protected health information as required by the Health Insurance Portability and Accountability Act of 1996 "HIPAA".

DEFINITIONS

1. "Disclosure" means the release, transfer, or provision of access to or divulgence in any other manner of PHI to parties outside the entity holding the information.
2. "Health Insurance Portability and Accountability Act (HIPAA) Privacy Rule" means the Federal Regulation that establishes national standards to protect individuals' medical records and other individual health information that applies to health plans, health care clearinghouses, and those health care providers that conduct certain health care transactions electronically. The Rule

requires appropriate safeguards to protect the privacy of individual health information and sets limits and conditions on the Uses and Disclosures that may be made of such information without authorization from the Responsible Person. The Rule also gives Members rights over their health information, including rights to examine and obtain a copy of their health records, and to request corrections.

3. "Member" means the same as "client" as defined in A.R.S. § 36-551.
4. "Protected Health Information" or "PHI" means individually identifiable health information about a Member that is transmitted or maintained in any medium where the information is:
    a. Created or received by a:
        i. Health care provider,
        ii. Health plan,
        iii. Employer, or
        iv. Health care clearinghouse.
    b. Relates to the:

i. Past, present, or future physical or mental health condition of a Member;

ii. Provision of health care to a Member; or

iii. Payment for the provision of health care to a Member.

c. PHI excludes information in:

i. Education records covered by the Family Educational Rights and Privacy Act as amended, 20 U.S.C. 1232g;

ii. Records described at 20 USC 1232g(a)(4)(B)(IV);

iii. Employment records held by a Covered Entity in its role as an employer; or

iv. Regarding a person who has been deceased for more than 50 years.

5. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a Member or an applicant for whom no guardian has been appointed.

6. "Use" means the sharing, employment, application, utilization, examination, or analysis of PHI within the entity that maintains such information.

POLICY

A. DE-IDENTIFIED PHI IS CREATED BY REMOVING IDENTIFIERS

1. The Division shall determine when Protected Health Information (PHI) is subject to de-identification by ensuring all of the identifiers defined as PHI are removed from the documents regarding the Member.
2. The Division shall ensure that the following identifiers of the Member, the Member's relatives, employers, or individuals living in the same household, are removed from the documents:
    a. Names
    b. All geographic subdivisions smaller than a State, including:
        i. Street address,
        ii. City,
        iii. County,
        iv. Precinct,
        v. Zip code, and

vi. Their equivalent geocodes.

c. All elements of dates, except year for dates directly related to an individual, including:

i. Birth date,

ii. Admission date,

iii. Discharge date,

iv. Date of death, and

v. All elements of dates that identify an individual to be age 90 or older are aggregated into a single category.

d. Telephone numbers.

e. Fax Numbers.

f. Electronic mail addresses.

g. Social Security Numbers.

h. Medical record numbers.

i. Health plan beneficiary numbers.

j. Account numbers.

k. Certificate/license numbers.

l. Vehicle identifiers and serial numbers, including license plate numbers.

m. Device identifiers and serial numbers.

n. Web Universal Resource Locators (URLs).

o. Internet Protocol (IP) address numbers.

p. Biometric identifiers, including finger and voice prints.

q. Full face photographic images and any comparable images.

r. Any other unique identifying number, characteristics, or code that can be re-identified.

B. ACTUAL KNOWLEDGE THAT INFORMATION CAN BE USED TO IDENTIFY AN INDIVIDUAL

1. If the Division has actual knowledge that any information remaining after de-identification could be used alone or in combination with other information to identify the Member, then the Division shall consider the information to be individually identifiable and not use or disclose without proper authorization.
2. If an employee of the Division has knowledge of any remaining identifiable information, the employee shall consult with the Division's Privacy Officer prior to releasing the information.

C. CODED DATA

1. The Division shall assign a code to health information or use some other similar means of identifying PHI to allow otherwise de-identified information to be re-identified provided that:
    a. The code or other means of identification do not come from or are related to the Member's identifying information.
    b. The code shall not be capable of being translated so as to identify the Member by an outside entity.
2. The Division shall document the codes in writing and record all analyses and information used to re-identify health information.
3. The Division shall not use or disclose the code or other means of record identification for any other purpose, and shall not disclose the mechanism for re-identification.

100-D DEFINITIONS

REVISION DATE: 5/24/2021, 7/3/2015, 9/1/2014
EFFECTIVE DATE: June 30, 1994
REFERENCES: A.R.S. §§ 36- 29, 36-553, 36-2901, 36-2904, 36-2931, 36-3401; A.A.C. R9-22-101, R6-6-903, R9-22-1201(w).

1115 Waiver – The 1115 Waiver refers to section 1115 of the Social Security Act (SSA). States must comply with Title XIX (Medicaid) and Title XXI (Children's Health Insurance Program) of the SSA. Since Arizona began providing Medicaid on October 1, 1982, the Arizona Health Care Cost Containment System (AHCCCS) has been exempt from specific provisions of the SSA, pursuant to an 1115 Research and Demonstration Waiver. The 1115 Waiver specifies provisions in the SSA and corresponding regulations AHCCCS is exempt from; terms and conditions that AHCCCS must fulfill; and approved federal budget amounts. (Arizona Section 1115 Demonstration Project Waiver).

Arizona Administrative Code (A.A.C.) - The Arizona Administrative Code is a publication of the official rules of the State of Arizona. Rules are adopted by state agencies, boards or commissions, with specific rulemaking authority from the State Legislature. Rule sections are published in Titles and Chapters.

Arizona Developmental Disabilities Planning Council (ADDPC) –The ADDPC works to support advocacy, bring about systems change and create increased capacity to support persons with developmental disabilities in the community. The ADDPC was established pursuant to Public Law 106-402, also known as the Developmental Disabilities Assistance and Bill of Rights Act of 2000. Pursuant of an Executive Order by the Governor of the State of Arizona on September 3, 2009, the Council was created. Council members are appointed by the Governor of Arizona.

Arizona Health Care Cost Containment System (AHCCCS) – The single State Medicaid agency, as described in A.R.S. § Title 36, Chapter 29, Arizona Medicaid Agency. AHCCCS is composed of the AHCCCS Administration, Contractors and other arrangements through which health care services (acute, long-term care, and behavioral) are provided to members.

Arizona Long Term Care System (ALTCS)- An AHCCCS program which delivers long term, acute, behavioral health care, and case management services as authorized by A.R.S. § 36-2931 *et seq*, to eligible members who are either elderly and/or have physical disabilities and to members with developmental disabilities, through contractual agreements and other arrangements.

Arizona Long Term Care System (ALTCS) Contractor- A contracted managed care organization (also known as a Program Contractor), that provides long term care, acute care, behavioral health and case management services to Title XIX eligible individuals who are either elderly and/or who have physical or developmental disabilities who are determined to be at immediate risk of institutionalization.

Arizona Revised Statute (A.R.S. §) - Laws of the State of Arizona.

Assistant Director Approval – Includes approval from the Assistant Director's designee.

Centers for Medicare and Medicaid Services (CMS) – An organization within the United States Department of Health and Human Services that administers the Medicare and Medicaid programs and the State Children's Health Insurance Program (known as KidsCare in Arizona).

Code of Federal Regulations (CFR) - The general and permanent rules published in the Federal Register by the departments and agencies of the federal government.

Comprehensive Health Plan (CHP) - The Comprehensive Health Plan (CHP) is a health care program for Arizona's children who are wards of the court and placed out of home. Eligibility is based on State law. Department of Child Safety (DCS) coordinates services related to CHP.

Contractor - An organization, person, or entity that has a prepaid capitated contract with AHCCCS pursuant to A.R.S. § 36-2904 to provide goods and services to members, either directly or through subcontracts with providers, in conformance with contractual requirements, AHCCCS statutes and rules, and federal law and regulations.

Developmental Disabilities Advisory Council (DDAC) – Advisory Council to the Division of Developmental Disabilities whose duties have been established by A.R.S. § 36-553 whose voting members are also appointed by the Governor of Arizona.

Direct Care Worker – A person who assists individuals with activities necessary to allow them to reside in their home. These workers may also be known as Direct Support Professionals.

Durable Medical Equipment (DME) – An item or appliance that is not an orthotic or prosthetic; is designed for medical purpose; is generally not useful to a person in the absence of an illness or injury; can withstand repeated use; and, is generally reusable by others.

Durable Medical Equipment (DME), Customized - Equipment that has been altered or built to specifications unique to a member's medical needs and which, most likely, cannot be used or reused to meet the needs of another individual.

Fee-For-Service (FFS) - A method of payment to an AHCCCS registered provider on an amount-per-service basis.

Focus – The automated web-based system used to maintain information on each member eligible for the Division.

Home and Community Based Services (HCBS) - Services provided, in lieu of institutionalization, to ALTCS members who reside in their own home or in an ALTCS approved home and community based alternative residential setting in order to maintain the member's highest level of functioning. Members enrolled in the ALTCS Transitional Program also receive HCBS.

Home Program – The Home Program provides for specific activities for the member to do with their families/caregivers during the course of their daily activities to enhance progress towards the chosen treatment goals.

Human Rights Committee (HRC) – This Committee provides independent oversight to monitor and ensure the civil and human rights for persons with developmental disabilities as guaranteed in the U.S. Constitution, federal law regulations, and the Arizona Revised Statutes.

Institutional Settings – Means a Skilled Nursing Facility (SNF) or Intermediate Care Facility (ICF).

Medically Necessary - As defined in A.A.C. R9-22-101, medically necessary means a covered service provided by a physician or other licensed practitioner of the healing arts within the scope of practice under state law to prevent disease, disability or other adverse conditions or their progression, or to prolong life.

Member – A person enrolled with the Division of Developmental Disabilities.

Planning Document – A plan which is developed by the Planning Team, such as an Individualized Family Service Plan (IFSP), Individualized Support Plan (ISP), and Person Centered Plan (PCP).

Primary Care Provider (PCP) - An individual who meets the requirements of A.R.S. § 36-2901, and who is responsible for the management of the member's health care. A PCP may be a physician defined as a person licensed as an allopathic or osteopathic physician according to A.R.S. Title 32, Chapter 13 or Chapter 17, or a practitioner defined as a physician assistant licensed under A.R.S. Title 32, Chapter 25, or a nurse practitioner licensed under A.R.S. Title 32, Chapter 15. The PCP must be an individual, not a group or association of persons, such as a clinic.

Prior Authorization (PA) – Process by which the Division approves a service.

Program Review Committee (PRC) – As defined in agency rules at A.A.C. R6-6 903, the PRC is an assembly designated by the District Program Manager that reviews any behavior treatment plans which meet the criteria also outlined in the same rules. The PRC approves plans, or makes recommendations for changes as necessary.

Regional Behavioral Health Authority (RBHA) – As defined in A.R.S. § 36-3401, the RBHA is an organization under contract with the Arizona Department of Health Services/Division of Behavioral Health Services (ADHS/DBHS) to administer covered behavioral health services in a geographically specific service area of the state. Tribal governments, through an agreement with the ADHS/DBHS, may operate a Tribal Regional Behavioral Health Authority (TRBHA), as defined in A.A.C. R9-22-1201(w), for the provision of behavioral health services to American Indian members living on-reservation. Through an intergovernmental agreement with ADHS/DBHS, the Division is responsible for all behavioral health services provided to members eligible for ALTCS.

Service Plan Year – The annual period of time beginning at the member's "ISP Start Date" as identified in Focus through the "ISP End Date" as identified in Focus.

Title XIX - Known as Medicaid, Title XIX of the Social Security Act provides for federal funds to the states for medical assistance programs.

200 BEHAVIORAL HEALTH PRACTICE TOOLS

210 WORKING WITH THE BIRTH THROUGH FIVE POPULATION

EFFECTIVE DATE: May 4, 2022

REFERENCES: AMPM Chapter 200, A.R.S. §13-3620, A.A.C. R9-20-205

PURPOSE

This policy applies to the Division of Developmental Disabilities (Division) and the system of care for behavioral health services for members enrolled with Medicaid. This policy is an optional resource for the Tribal Health Program; it is not a requirement. The policy is designed to strengthen the capacity of Arizona's Behavioral Health System in response to the unique needs of children age birth through five and emphasizes early intervention through the use of clinical assessment, service planning and treatment, all of which focus on identification of situations that may potentially impede infants'/toddlers' ability to:

1. Form close parent/caregiver relationships with those in the child's environment (these may be long term or temporary, familial, or non-familial),
2. Experience, regulate and express their emotions, and
3. Explore their environment in an accessible manner.

DEFINITIONS

Assessment (Behavioral Health) means the ongoing collection and analysis of an individual's medical, psychological, psychiatric, and social conditions in order to initially determine if a health disorder exists, if there is a need for behavioral health services, and on an ongoing basis ensure that the individual's service plan is designed to meet the individual's (and family's) current needs and long-term goals.

Child and Family Team (CFT) means a group of individuals that includes, at a minimum, the child and their family, or Health Care Decision Maker (HCDM). A behavioral health representative, and any individuals important in the child's life that are identified and invited to participate by the child and family. This may include teachers, extended family members, friends, family support partners, healthcare providers, coaches, and community resource providers, representatives from churches, temples, synagogues, mosques, or other places of worship/faith, agents from other service systems like the Arizona

Department of Child Safety (DCS) or the Division of Developmental Disabilities (DDD). The size, scope, and intensity of involvement of the team members are determined by the objectives established for the child, the needs of the family in providing for the child, and by who is needed to develop an effective service plan, and can therefore, expand and contract as necessary to be successful on behalf of the child.

Service Plan means a complete written description of all covered health services and other informal supports which includes individualized goals, family support services, peer and recovery support, care coordination activities and strategies to assist the member in achieving an improved quality of life.

POLICY

A. TARGET AUDIENCE

This policy is specifically targeted to the Division's Behavioral Health Administration in relation to their role with oversight of the AdSS and the role of Support Coordination. While the Division delegates the responsibility to AdSS for the implementation of behavioral health services in alignment with this practice tool, the Division remains responsible for case management (Support Coordination) and oversight of the AdSS. Support Coordination shall receive training on the practices outlined in this tool for purposes of increasing their ability to coordinate services for their members. The Division shall conduct formal oversight of the AdSS.

Refer to AdSS Medical Policy 210 for the roles and responsibilities of the AdSS and their subcontracted network, and provider agency behavioral health staff who complete assessments, participate in the service planning process, provide therapy, case management, and other clinical services.

B. TARGET POPULATION(S)

All Division members birth through five years of age (up to age six), who are ALTCS eligible and are receiving behavioral health services, in collaboration with their caregivers.

C. BACKGROUND AND EVIDENCE-BASED SUPPORT

The promotion of behavioral health in infants and toddlers is critical to the

prevention and mitigation of mental disorders throughout the lifespan. Over the past decade, the research has demonstrated mounting evidence pointing to the detrimental impact that early, negative childhood experiences can have on the developing brain. A well-known example of that research is a study conducted by a California Health Maintenance Organization. This longitudinal study, known as the ACES study (Adverse Early Childhood Experiences), showed a positive correlation between frequency of negative early childhood events (e.g., neglect, violence, trauma) and development of physical and behavioral health challenges in adulthood. The more negative events that occurred during early childhood, the more adults tended to have physical and behavioral health conditions in adulthood such as depression, alcoholism, obesity, and heart disease. Although the ACES study points to the negative impact of adverse early childhood experience, the field of infant behavioral health has promulgated the knowledge in intervention techniques designed to mitigate negative effects of early abuse, trauma, or violence.

Early childhood experiences can build strong foundations or fragile ones and can affect the way children react and respond to the world around them for the rest of their lives. The early social and emotional development of infants and toddlers is vulnerable to factors, such as repeated exposure to violence, persistent fear and stress, abuse and neglect, severe chronic maternal depression, biological factors such as prematurity and low birth weight, and conditions associated with prenatal substance exposure. Without intervention, these risk factors can result in behavioral health disorders including depression, attachment disorders, and traumatic stress disorders, which can have an effect on later school performance and daily life functioning.

Children who have been maltreated are at an increased risk for behavioral health concerns, poor psychological adaptation and lifelong health difficulties. Children entering the child welfare system have higher rates of exposure to traumatic events with most victims of child abuse and neglect being under the age of five. Important assets such as healthy attachment, social and emotional competency, self-assurance, confidence, and independence can be undermined as a result of

trauma.

1. An effective approach to promoting healthy social and emotional development shall include equal attention to the full continuum of behavioral health services including promotion, prevention, and treatment, plus improvement in system capacity for effective service delivery. Essential components of a comprehensive system include:

    a. Supporting the use of evidence-based early childhood service delivery models,

    b. Increasing the quality and capacity of trained infant and early childhood behavioral health professionals, and

    c. Improving access to services.

    Untreated behavioral health disorders can have disastrous effects on children's functioning and future outcomes. Unlike adults, infants and toddlers have a fairly limited repertoire of coping responses to stress and trauma. Behavioral Health disorders in young infants might be reflected through physical symptoms such as poor weight gain, slow growth, and constipation, as well as overall delayed development and inconsolable crying. In older infants, excessive tantrums, eating and sleeping problems, aggressive or impulsive behavior and developmental delays can be present. Toddlers may also present with paralyzing fears and withdrawal from social interaction.

    Early attachment disorders (including those resulting from early traumatic separations from parents and placement in foster care) can predict subsequent aggressive behavior. Some early behavioral health disorders have lasting effects and may appear to be precursors of behavioral health problems later in life. Early signs and symptoms of behavioral health disorders may include withdrawal, sleeplessness, or lack of appetite due to depression, anxiety, and trauma stress reactions.

    Increasingly, young children are being expelled from childcare and preschool

for behavior problems, including biting, tantrums, hitting, throwing objects, or inconsolable crying. Even if they do remain in a program, young children with behavioral concerns are challenging to teach and quickly lose motivation for learning. Additionally, they may withdraw from their peers or face social rejection.

Healthy social-emotional development is strongly linked to success in elementary school. Children who are not secure in relating to others and do not trust adults are not motivated to learn. Furthermore, children who are unable to respond to calming influences initiated by themselves or others will not be responsive to teaching methods or benefit from their early educational experiences and may lag behind their peers.

2. Parent's behavioral health can affect young children. Maternal depression, anxiety disorders and other forms of chronic depression often disrupt the parent-child bond as parents with an untreated mental disorder are less able to provide developmentally- appropriate stimulation and parent-child interactions. Parenting and child development are most affected when depression simultaneously occurs with other factors such as extreme poverty, substance abuse, adolescence, and maltreatment. Infants of clinically depressed mothers often withdraw from their caregivers, which ultimately affects their language skills, as well as their physical and cognitive development. Older children of depressed mothers show poor self-control, aggression, poor peer relationships, and difficulties in school. Although these sources cite maternal depression as a factor, these effects can also be attributed to relationships the young child has with other primary caregivers.

   Increased training in early childhood behavioral health is necessary and essential. In-depth knowledge of child development systems and multi-disciplinary approaches, as well as possession of diagnostic and clinical skills are critical components for professionals who assess and treat young children. Additionally, practitioners need to acquire and demonstrate a range of interpersonal skills in their work in order to build individualized, respectful,

responsive, and supportive relationships with families. These skills include:

a. The ability to listen and observe carefully,

b. Demonstrate concern and empathy,

c. Promote reflection,

d. Observe and highlight the child-parent/caregiver relationship,

e. Respond thoughtfully during emotionally intense interactions, and

f. Understand, regulate, and use one's own feelings.

Scientific advances in neurobiology have provided birth through five practitioners with greater insight into the complex system of the brain. The development of the central nervous system begins with the formation of the neural tube, which nears completion by three to four weeks of gestation and is the basis for all further nervous system development. Genes determine when specific brain circuits are formed, and each child's experiences then shape how that formation develops. Stable and responsive relationships along with proper sensory input through hearing and vision are what build healthy "brain architecture". Thus, the most important relationships begin with the child's family and extend outward to other adults important in that child's life such as day care and educational providers.

3. Empirical evidence has shown that young children are greatly impacted by their early development and experiences. By understanding how specific events impact a young child's brain function, the behavioral health professional is able to formulate individualized interventions. Therefore, it is incumbent upon all practitioners to become educated about brain development, functions of various parts of the brain and their role in the physical and emotional development of the child. Some additional resources in the area of brain development include:

a. "Brain Facts, A Primer on the Brain and Nervous System" through the Society for Neuroscience,

b. "Starting Smart, How Early Experiences Affect Brain Development,"

c. "From Neurons to Neighborhoods: The Science of Early Childhood Development," and

d. C.H. Zeanah, Jr., (Ed.). (2009). Handbook of Infant Toddler Behavioral Health.

D. METHODOLOGY

In an ongoing effort to improve the delivery of behavioral health services in an effective and recovery-oriented fashion, the Arizona Vision, as established by the Jason K. Settlement Agreement in 2001, implemented the use of the Child and Family Team (CFT) practice model and the 12 Arizona Principles, both of which strongly support the critical components of behavioral health practice with children birth through five and their families. Infant and Early Childhood Behavioral Health practice integrates all aspects of child development such as organic factors (genetics and health) with the child's experiences (relationships, events, opportunities for exploration). This is especially important in the first three years of life when changes in social-emotional development and adaptive functioning are rapid and significant.

The nature and pace of these changes, as well as the preverbal nature of this young population present the behavioral health professionals with uniquely complex challenges. It is crucial for children to rely on the knowledge of the parents/ caregivers and the expertise of a multidisciplinary team of professionals to provide them with information when conducting behavioral health evaluations, developing service plans, and implementing clinical interventions. Qualified professionals shall have an understanding of the correct use and interpretation of screening, assessment, and evaluation tools and processes, plus how to use these results for service planning and implementing clinical interventions.

1. Assessment and treatment of children age birth through five is based on the philosophical orientation that work is done on behalf of the child, predominantly through the child's parent or caregiver(s). Child development takes place within the context of the caregiving relationship, which is strongly influenced by child characteristics, parent/caregiver characteristics, and

perhaps most importantly the unique match or "fit" between a child and the child's caregivers. It is important that trained personnel:

a. Have comprehensive knowledge of early childhood development,

b. Possess excellent observational and relationship-building skills with children and adults,

c. Be able to identify resources and needs within the family/caregiving environment, and

d. Communicate assessment results in a comprehensible and accessible manner to parents/primary caregivers and other professionals.

2. For children who are ALTCS eligible and are under the custody of Department of Child Safety (DCS) and are being served by an AdSS who are referred through the Rapid Response process, it is important for the behavioral health provider to consider a full range of services at the time of removal. Multiple Division policies provide additional information regarding expectations working with children served by DCS including but not limited to the below:

a. Division Operations Policy 417,

b. Division Operations Policy 449,

c. Division Medical Policy 310-B

d. Division Medical Policy 320-O, and

e. Division Medical Policy 541.

As part of the assessment process, ongoing evaluation of the child after the initial removal is needed to assess the child's physical appearance, areas of functioning, the child's relationships, and adjustment to the new environment. If the child is placed with a different caregiver, re-assess again to monitor the child's adjustment to the new setting. When assessing children involved with DCS who are showing delays which can be due to the trauma of removal, neglect, or abuse, determine if a referral for additional trauma

informed care services or any other type of assistance is needed. Refer to AMPM 210 Attachment A for use with children living in a kinship placement, DCS resource parents (foster or adoptive), or congregate care (shelter or group home). Additional information outlining special considerations for providing services to infants, toddlers and preschool-aged children involved in the child welfare system can be accessed through: "The Unique Behavioral Health Service Needs of Children, Youth and Families Involved with DCS" (refer to AMPM Behavioral Health Practice Tool 260).

II. ESSENTIAL PROCESSES FOR ASSESSMENT, SCREENING AND SERVICE PLANNING

Evaluation practices with respect to children age birth through five involve awareness on the part of the behavioral health practitioner that all children have their own individual developmental progression, affective, cognitive, language, motor, sensory and interactive patterns. All children age birth through five are participants in relationships, with the child's most significant relationships being those with their primary caregiver(s). A full evaluation requires a clear understanding of how the child is developing in each area of functioning and the quality of the child's most significant relationships. This is best done over several sessions, in different settings (e.g., home, childcare, clinic), and whenever possible with all significant caregivers. In order to support a child in demonstrating the child's true capacities, screening and assessment processes are most effectively offered in natural and non-threatening settings, in the presence of a familiar and trusted caregiver, with materials and activities that are culturally sensitive and that reflect their daily life experiences. Identification of all significant caregivers and the child's relationship with each individual is a critical part of assessment practice.

A. DEVELOPMENTAL SCREENING

Division eligible children undergo developmental screening prior to enrollment with the Division. Refer to Division Medical Policies 430 and 541 for details. In addition, when a child aged birth to five is receiving behavioral health services, screening for sensory, behavioral, and developmental concerns continues as an ongoing process that organizes continuous observations regarding the needs, challenges, strengths

and abilities of the child and parent/caregiver. Screening or testing instruments become part of comprehensive assessment practice, are intended to be used for the specified purpose they were designed for, shall be reliable and valid, and are not to be used in isolation to render a diagnosis.

The use of AMPM 210 Attachment B provides assessors and caregivers with a set of dimensional milestones (e.g., movement, visual, hearing, smell, touch, speech, social and emotional, language, cognitive, hand and finger skills), as well as growth and developmental "red flags". As part of the assessment process for infants and young children, developmental checklists establish a baseline to which subsequent screenings during the course of treatment can be compared. Developmental checklists provide opportunities to assess the degree to which children are meeting developmental milestones. Should there be delays in meeting standard developmental milestones, it may be necessary to refer to the child's PCP for further evaluation. For children three to five, a referral to the public school system may be more appropriate. The various professionals supporting the child and family shall plan and communicate to avoid duplication of screening services. Multiple developmental screening tools are available. Some are suggested directly within this document and others are provided as attachments to AMPM 210. These tools are available as accompaniments to this Practice.

B. ASSESSMENT CONSIDERATIONS

It is essential that behavioral health practitioners continually evaluate their screening and assessment tools because the practice of infant and early childhood behavioral health is dynamic and continually changes due to improved technology and newly developed research techniques, strategies, and results. While the Division does not require the use of a specific assessment tool, minimum elements have been established that shall be included in any comprehensive behavioral health assessment as specified in Division Medical Policy 320-O. Refer to AMPM 210 Attachment C, as one example of an assessment tool for children age birth through five. Additional options for assessments specific to children birth through five, are included as AMPM 210 attachments.

1. There is no single tool that encompasses the full range of social, emotional,

and developmental skills and challenges that can occur in young children. The following tools and resources can provide additional information when assessing developmental milestones, behavioral, emotional, and social concerns, trauma and attachment:

a. Ages and Stages Questionnaire (ASQ): developmental and social-emotional screening for children aged one month to five and ½ years,

b. Hawaii Early Learning Profile (HELP): curriculum-based assessment covering regulatory/sensory organization, cognitive, language, gross and fine motor, social and self-help areas for children birth to three years, separate profile available for three- to six-year-old children,

c. Infant-Toddler Social-Emotional Assessment (ITSEA©): measures social-emotional and behavioral domains for children one to three years of age,

d. Connor's Early Childhood Assessment: aids in the early identification of behavioral, social, and emotional concerns and achievement of developmental milestones for children two to six years of age,

e. Parents' Evaluation of Developmental Status (PEDS): evidence-based screening of developmental and behavioral concerns for children birth to eight years, and

f. Trauma-Attachment Belief Scales (TABS™): measure cognitive beliefs about self and others for parents/caregivers age 17 and older to assist with identifying possible trauma history and its potential impact on the attachment relationship between the parent/caregiver and the child.

Considerable skill is required in the administration of the assessment process, integration of the data obtained from the assessment, and development of initial clinical conceptualizations and intervention recommendations. Refer to Technical Assistance Paper No. 4, "Developmental Screening, Assessment, and Evaluation: Key Elements for Individualizing Curricula in Early Head Start Programs" for further information on other resources and test reviews of

screening and assessment instruments.

Assessment with children age birth through five is a specialty area that requires specific competencies. Competent providers recognize the limitations of their knowledge and scope of practice. When necessary, they make use of the expertise of more experienced behavioral health practitioners, as well as the range of disciplines that address questions related to early development (e.g., pediatrics, speech/language therapy, occupational therapy, physical therapy) through collaboration, consultation, and referral practices.

2. Behavioral Health Assessment practice with children age birth through five typically involves:

   a. Interviewing the parent/primary caregiver(s) about the child's birth, developmental and medical histories,

   b. Direct observation of family functioning,

   c. Gaining information, through direct observation and report, about the child's individual characteristics, language, cognition, and affective expression,

   d. Assessment of sensory reactivity and processing, motor tone, and motor planning capacities,

   e. Observation of how the child uses the primary caregiving relationship to develop a sense of safety and security, to support exploration/ learning, and to help regulate emotions,

   f. Obtaining information on how the child and parent/caregiver think and feel about each other and themselves within the context of the relationship, and

   g. Interviewing the parent/primary caregiver(s) with respect to their own history and experiences (e.g., medical, behavioral health, parenting, legal, educational, domestic violence, military).

Division Medical Policy 310-B and Division Medical Policy 320-O provide additional information on the types of behavioral health providers that may conduct assessments.

C. DIAGNOSTIC CONSIDERATIONS

The diagnostic process consists of two aspects: the classification of disorders and the assessment of individuals. In classifying disorders, practitioners are able to communicate with one another about descriptive syndromes using universal terms and language. The diagnostic process is ongoing rather than a one-time "snapshot" of symptoms. Behavioral Health practitioners collect information over time in order to understand multiple aspects of the presenting concerns, as well as variations in adaptation and development that are revealed on different occasions within various contexts.

It is suggested that clinical personnel who conduct assessments of young children receive training to become proficient in the use of the Diagnostic Classification of Behavioral Health and Developmental Disorders in Infancy and Early Childhood (DC: 0-5). This diagnostic manual, which draws on empirical research and clinical practice that has occurred worldwide since the manual was first published in 1994 as the DC: 0-3 and revised in 2016. The DC: 0-5 is designed to help behavioral health and other professionals recognize behavioral health and developmental challenges in young children, understand how relationships and environmental factors contribute to behavioral health and developmental disorders, use diagnostic criteria effectively for classification and intervention, and work more effectively with parents and other professionals to develop effective service plans. The updated version provides clear and specific criteria for all diagnostic categories. Examples include:

1. Criteria for identifying autism spectrum disorders in children as young as 2, introduces.
2. New criteria for disorders of sleep, eating, relating, and communicating.
3. Clarifies the Parent-Infant Relationship Global Assessment Scale (PIRGAS).
4. Checklists for identifying relationship problems, psychosocial and

environmental stressors.

Copies of the DC: 0-5 manual are available through the Zero to Three Press. This manual contains the DC: 0-5 codes that correspond to DSM-5 codes, as well as the ICD-10 codes.

D. ANNUAL ASSESSMENT UPDATE

While assessment is an ongoing process that offers new information throughout the continuum of service delivery, a formal assessment update shall be completed on an annual basis, or sooner, if there has been a significant change in the child's/family's status. A child's response to treatment might be affected by significant events or trauma that have occurred since the last assessment/update, such as changes in the child's living environment, childcare arrangements, death of a primary caregiver, as well as medical/developmental conditions and hospitalizations. Input from the family/ caregiver, as well as observation(s) of the child in conjunction with a review of the clinical record, provides the information necessary for summarizing their response to treatment and progress toward meeting goals over the past year.

A review of the child's current level of functioning would include updating information related to the child's emotional and behavioral regulation, quality of the parent-child interaction, relationships with caregivers/significant others, living environment, family stressors, safety concerns, and stability of home/relationships. Developmental screening as part of the annual update, and during the course of treatment, will assist the behavioral health provider with identifying any potential developmental concerns that may require additional intervention or referral.

E. SERVICE PLANNING CONSIDERATIONS

1. Use of CFT Practice

   The early development of an engaged relationship with the child, parent/ caregiver, and family as part of the CFT process, is required practice when working with children age birth through five. This critical work directly involves the entire family, and it is the family that guides the therapeutic process. Refer to the Child and Family Team Practice Tool on the AHCCCS website under Guides - Manuals – Policies – AMPM Chapter 200. This Practice

Tool provides additional information on the specific components and the required service expectations of this practice model.

Infants and young children benefit from planning processes that support the inclusion of the following components:

a. Ongoing and nurturing relationships with one or two deeply attached individuals,

b. Physical protection, safety and regulation at all times,

c. Experiences suited to individual differences to include regular one-to-one interaction between the caregiver and child,

d. Developmentally appropriate experiences (e.g., one-to-one interaction that encourages an emotional dialogue that fosters a sense of self, problem solving, communication skills and a sense of purpose),

e. Limit setting, structure and expectations (e.g., clear messages and routines), and

f. Stable, supportive communities and cultural continuity which can be met through solid relationships between the child and one or two primary caregivers.

Families with young children are often socially isolated especially if they have a child who is exhibiting behavioral concerns and/or developmental delays. An essential part of the therapeutic process is to help reduce this social isolation. Encouraging the exploration of natural supports can spur a family to begin thinking differently about their support system(s).

Whenever possible, the utilization of natural environments for clinical intervention is recommended. If the natural environment is not a conducive setting due to a lack of privacy, site of traumatic event for the child/parent and/or safety concerns, alternative settings need to be considered with input from the family. In addition to location, natural environments also include

the everyday routines, relationships, activities, people and places in the lives of the child and family. health, right, and safeguards

2. Community Collaboration

Starting with the assessment process, intervention strategies incorporate information from all involved providers serving the child, parent, or caregiver. This may include healthcare, childcare, and early intervention providers, the parent's/caregiver's behavioral health provider(s), as well as friends and extended family that are important in the family's life. Examples of several early intervention providers include Head Start/Early Head Start, the Arizona Early Intervention Program, Early Childhood Education through the Arizona Department of Education, and the Division of Developmental Disabilities. These individuals, if the parent/caregiver wishes, then become part of the Child and Family Team who will develop an effective service plan that employs natural supports in conjunction with formalized services (Refer to Division Medical Policy 220 Child and Family Team). The size, scope and intensity of team member involvement are determined by the objectives established for the child and needs of the family in providing for the child.

In order to make informed referrals as part of the service planning process it is imperative that behavioral health professionals and technicians (BHPs & BHTs) who work with children age birth through five and their families, become familiar with community services and programs that serve young children, as well as the local school district programs for children three to five years of age. At minimum, BHPs and BHTs should have familiarity with AzEIP, Head Start, Division of Developmental Disabilities, ADHS Office of Children with Special Health Care Needs, First Things First, and school district services that may be available for children eligible for preschool.

If at any time throughout the assessment, treatment delivery, or service planning processes a behavioral health practitioner believes that a child is or has been the victim of non-accidental physical injury, abuse, sexual abuse or deprivation, there is a duty to report that belief to a peace officer or DCS per A.R.S. §13-3620. Behavioral Health staff is to consult with their supervisor if

they are unclear about their duty to report a situation.

Duplicative medication prescribing, contraindicated combinations of prescriptions and/or incompatible treatment approaches could be detrimental to a young child. For this reason, communication, and coordination of care between behavioral health providers and PCPs shall occur on a regular basis to ensure safety and positive clinical outcomes for young children receiving care. For non-enrolled children who are not Medicaid eligible, coordination and communication should occur with any known health care provider. Refer to Division Medical Policy 211 for additional information on the use and coordination of psychotherapeutic and psychopharmacological interventions.

Documentation in the clinical record is required to show the communication and coordination of care efforts with the health care provider related to the child's behavioral health treatment (refer to Division Medical Policy 320-O and 940).

F. SERVICE PLAN DEVELOPMENT

1. While a comprehensive and accurate assessment forms the foundation for effective service planning and is required before a service plan can be fully developed, needed services should not be delayed while the initial assessment process is being completed. In addition to consideration of clinical disorders, findings from a comprehensive assessment of children birth through five years of age should lead to preliminary ideas about:

    a. The nature of the child's pattern of strengths and difficulties, risk, and protective factors,

    b. Level of overall adaptive capacity and functioning in the major developmental areas as compared to age-expected developmental patterns,

    c. Contribution of family relationships, environmental protective factors, stress, interactive and maturational patterns, etc. to the child's

competencies and difficulties, and

d. How the service planning process will address these areas.

Service plans should be strength-based in addressing needs and whenever possible draw upon natural supports. For young children, home-based services, which virtually always include the child's principal caregiver, may be especially well-suited to enhancing parents' well-being and the child-parent relationship.

A comprehensive and intensive approach to service planning would include attention to those factors that place young children's healthy attachment and social-emotional development at risk. Critical planning includes interventions that address a parent's/caregiver's behavioral health concerns and how these may affect the ability of that parent/caregiver to interact with and respond sensitively to the child's emotional and physical needs. Prematurity, low birth weight and conditions associated with prenatal substance exposure may require specific interventions when they affect the early social and emotional development of infants and toddlers.

Service planning also needs to address a child's ability to form close parent/ caregiver relationships. These relationships can be undermined by traumatic events such as repeated exposure to violence, abuse, or neglect, or when children experience multiple caregiver changes. When the child/family has multi-agency involvement, every effort should be made to collectively develop a single, unified plan that addresses the needs and mandates of all the parties involved. Additionally, planning should address collaboration with early intervention service providers and early education programs. This is especially important for those children who are experiencing expulsion from childcare or preschool settings due to behavioral concerns.

The use of all service settings, the full array of covered services, and skilled, experienced providers are to be considered as identified by the Child and Family Team during the service planning process. Service planning that includes the use of Support and Rehabilitative Services is often an essential

part of community-based practice and culturally competent care, which focuses on helping young children to live successfully with their families as part of their community (refer to AMPM 230).

All service plan development with children age birth through five is completed collaboratively with the child's parent or primary caregiver. Development and prioritization of service plan goals are not focused solely on the child. It is essential to include the parent, caregiver, and the needs of the family as a whole. Due to the age of the birth through five population and the rapid changes in the growth and development of children during this time, monitoring activities need to include frequent reviews of the service plan goals and objectives. At the time of the Annual Update, the service plan should be modified to align with the needs identified in the updated Assessment. Refer to Division Medical Policy 320-O for further information on the minimum elements for Assessments, Service Plans, and required timeframes for completion.

2. Clinical Practice

The guiding principle in the practice of infant and early childhood behavioral health is to "do no harm". Clinical intervention assumes a preventative, early intervention treatment focus based on sound clinical practice, delivered in a timely and accessible manner across all settings, and implementation in accordance with the Arizona Vision and 12 Principles. Relationship-based models of intervention have been found to be the most effective in working with young children and their caregivers.

a. Infant and early childhood therapeutic approaches are supported by the following conceptual premises:

i. The child's attachment relationships are the main organizer of the child's responses to danger and safety in the first five years of life,

ii. Emotional and behavioral problems in early childhood are best

addressed within the context of the child's primary attachment relationships, and

iii. Promoting growth in the child-caregiver relationship supports healthy development of the child after the intervention ends.

b. The following skills and strategies are fundamental to the work of infant and early childhood behavioral health:

i. Building relationships and using them as instruments of change,

ii. Meeting with the infant and parent/caregiver together throughout the period of intervention,

iii. Sharing in the observation of the infant's growth and development,

iv. Offering anticipatory guidance to the parent/caregiver that is specific to the infant,

v. Alerting the parent/caregiver to the infant's individual accomplishments and needs,

vi. Helping the parent/caregiver to find pleasure in the relationship with the infant,

vii. Creating opportunities for interaction and communication exchange between parent/caregiver(s) and infant or parent/caregiver(s) and practitioner,

viii. Allowing the parent/caregiver to take the lead in interacting with the infant or determining the agenda or topic for discussion,

ix. Identifying and enhancing the capacities that each parent/ caregiver brings to the care of the infant,

x. Wondering about the parent/caregiver's thoughts and feelings

related to the presence and care of the infant and the changing responsibilities of parenthood,

xi. Wondering about the infant's experiences and feelings in interaction with and relationship to the caregiving parent,

xii. Listening/observing for the past as it is expressed in the present, inquiring, and talking,

xiii. Allowing core relational conflicts and emotions to be expressed by the parent/caregiver; holding, containing, and talking about them as the parent is able,

xiv. Attending and responding to parental histories of abandonment, separation, and unresolved loss as they affect the care of the infant's development, the parent/caregiver's emotional health and the early developing relationship,

xv. Attending and responding to the infant's history and early care within the developing parent/caregiver-infant relationship,

xvi. Identifying, treating and/or collaborating with others if needed, in the treatment of the disorders of infancy, delays and disabilities, parental mental illness and family dysfunction, and

xvii. Remaining open, curious and reflective.

While all the skills and strategies noted above are pertinent in working with children and families, item "xi" through "xvii" are of unique importance to the practice of the infant and early childhood behavioral health practitioner. These seven strategies address the emotional health and development of both the parent/caregiver and the child. The practitioner focuses on past and present relationships and the complexities many parents/caregivers encounter when nurturing, protecting, and responding to the emotional needs of their children. Within this context, the practitioner and parent/caregiver

may think deeply about the care of the young child, the emotional health of the parent/caregiver, the many challenges of early parenthood, and the possibilities for growth and change.

3. Clinical Approaches

Information obtained through the assessment process will guide infant and early childhood trained practitioners in determining which intervention(s) is most conducive in meeting the needs of the young child and the child's family. More than one approach may be utilized and integrated into the service plan.

Support is the most basic intervention, where behavioral health personnel function as a resource to assist primary caregivers in accessing community resources, such as housing, employment, childcare, health services and food. Emotional support may also be provided to families when they are faced with a crisis related to the care of their child(ren). This support can be shown by the clinician's attention to the expressed concerns of the caregiver, acknowledgement of the caregiver's needs and strengths, and showing empathy in response to the situation. Support and Rehabilitation services can also assist with reducing the family's distress so that they are able to focus on the care requirements of their young child.

Advocacy can take the form of helping caregivers in expressing their needs and navigating systems of care. It can be challenging for clinicians to know when and how to speak effectively on behalf of young children and their families, especially those who may be involved with the child welfare system.

Developmental Guidance provides information to the primary caregiver(s) on a young child's abilities, developmental milestones and needs, as well as practical caretaking guidance that may be delivered individually or in a group format. Within the therapeutic environment, the clinician can offer opportunities to the caregiver to enhance positive interaction and playful exchange with the child. These exchanges, if based on the child's developmental needs, reinforce what the caregiver is able to do with the child

and may promote a mutually pleasurable experience and purposeful response at the child/caregiver relationship level.

Relational Guidance helps primary caregivers to increase their knowledge of and experience with their infant or young child through spontaneous interactions. Caregivers are taught how to attend to their child's distinctive cues with clinicians modeling parenting behavior. When using guided interaction strategies, clinicians can then provide feedback directly or review videotapes with the caregiver.

The following two approaches to therapy focus on the relationship between the primary caregiver and the infant. *Child-parent psychotherapy* offers the opportunity for thoughtful exploration with the caregiver of the child's ideas about parenthood and the continuing needs of the infant or toddler. The clinician assists the primary caregiver in gaining access to repressed early experiences, re-examining the feelings associated with them and achieving insight into how these experiences may affect the caregiver's capacity to be responsive to the infant. Relational difficulties with the infant may take the form of a caregiver's inability to hold or feed their baby, set limits that are appropriate in keeping young children safe, or interacting and communicating in ways that will arouse the child's curiosity. The infant is included as a catalyst for change, with the clinician guiding the caregiver to interact in a different way with their infant. A second approach, *child-parent dyadic therapy*, reflects the perspective that infants contribute to relationships and holds that the infant is able to use the time therapeutically for him/herself, similarly to the caregiver.

Attachment theory based in part on John Bowlby's *internal working model*, proposes that early experiences with the parent or primary caregiver forms the basis of memory patterns or "internal working models" that influence behaviors for other social relationships. Interventions are consistent with attachment theory if they include the following elements:

a. Provide emotional and physical access to the mother/caregiver,

b. Focus directly on maternal/caregiver sensitivity and responsiveness to the infant's behavior and emotional signals,

c. Place the mother/caregiver in a non-intrusive stance,

d. Provide space in which the infant can work through relational struggles through play and interaction with the mother/caregiver, and

e. Provide a clinician who functions as a secure base for the dyad.

Developmental approaches to therapy offer an alternative to the traditional behavioral approach. Modalities under this approach can provide a framework for understanding and organizing assessment and intervention strategies when working with children with developmental delays and behavioral health concerns.

Reference materials on infant and early childhood mental health practice have been provided as a supplemental resource. This resource list is not meant to be exhaustive, given that research and clinical practice in this area continue to evolve.

G. TRAINING AND SUPERVISION RECOMMENDATIONS

Behavioral Health over the past several decades, has experienced significant advances in the understanding of early child development and the effects of trauma on early brain development. The need to have providers with trained expertise in this area has risen dramatically and is well recognized nationally and in Arizona. AHCCCS is focused on efforts in several areas to build workforce expertise and availability of services to children age birth through five and their families.

H. WORKFORCE DEVELOPMENT

The Infant and Toddler Behavioral Health Coalition of Arizona (ITMHCA) has adopted the Michigan Association for Infant Behavioral Health Endorsement® for Culturally Sensitive, Relationship-Based Practice Promoting Infant Behavioral Health. Endorsement® recognizes the professional development of practitioners within the diverse and rapidly expanding infant and family field. This endorsement® model

describes the areas of expertise, responsibilities, and behaviors that demonstrate competency and verifies that professionals have attained a specified level of understanding and functioning linked to the promotion of infant behavioral health. Of additional importance, endorsement provides an organized approach to workforce development that identifies competency- based trainings and reflective supervision experiences that enhance confidence and credibility among infant, toddler and family clinicians (Behavioral Health Professionals), as well as other professionals who work with this population (Behavioral Health Technicians/Behavioral Health Paraprofessionals). While competency-based training and reflective supervision supports behavioral health practitioners who work primarily with young children and their families, this expertise may also be applied to professionals working with adults with a serious mental illness or substance use concerns who are parenting their own infants/toddlers.

It is recommended that provider agencies have practitioners endorsed as appropriate to the mission of the agency. Endorsement® through the ITMHCA includes four levels of competency:

1. Level 1: Infant Family Associate - Individuals who possess Child Development Associate (CDA), or academic degree, or two years of infant and early childhood related paid work experience; recommended for childcare or respite workers.

2. Level 2: Infant Family Specialist - Bachelor's, Master's or Doctoral (e.g. Social Work, "Applied" studies, nursing, behavioral health related) degree and a minimum of two years' work related experience with infants/toddlers and families; recommended for behavioral health staff involved in service planning and delivery such as case management and peer/family support, support and rehabilitation service provider personnel, parent educators, childcare consultants, and DCS workers.

3. Level 3: Infant Behavioral Health Specialist - Masters, MSN (Nursing), PhD, PsyD, EdD, M.D. or D.O. with two years post-graduate work and training in infant, early childhood, and family fields; recommended for behavioral health

clinicians and supervisors, infant behavioral health specialists, clinical nurse practitioners, psychologists, and early intervention specialists. Reflective Supervision is required.

4. Level 4: Infant Behavioral Health Mentor - (Clinical, Policy, or Research/ Faculty) Individuals at the mastery level (Master's, Postgraduate, Doctorate, Post Doctorate, MD or DO) qualified to train other professionals; recommended for infant and early childhood program supervisors, administrators, policy specialists, and physicians/psychiatrists.

Endorsement information and application materials are available through the local Infant Toddler Behavioral Health website: Infant Toddler Behavioral Health Coalition of Arizona (www.itmhca.org).

I. TRAINING

This Practice Tool applies to the Division and their subcontracted network and provider agencies, including the behavioral health staff that provide direct service delivery to children age birth through five and their families. Behavioral health practitioners working with this population (children age birth through five) require specialized training. Professional development in the area of infant and early childhood behavioral health is necessary at all levels of the Behavioral Health System, along with the personnel of service systems that interface with behavioral health professionals, such as DCS, the Division, AzEIP, and other community-based early intervention programs.

Behavioral Health practitioners seeking increased knowledge in this area are encouraged to attend infant and early childhood behavioral health trainings that include:

1. A multidisciplinary approach that is strengths-based.
2. Effective interviewing, communicating and observational techniques.
3. Assessment of parent-infant relationships.
4. Screening and diagnostic measures for infants and toddlers.

5. Early childhood development.
6. Effects of early adverse experiences and trauma.
7. Understanding parent-child interactions and healthy attachment.
8. Cultural influences in parenting and family development.
9. Building a therapeutic alliance.
10. Treatment and intervention strategies/modalities endorsed by AHCCCS.
11. Collaboration practices with other providers/caregivers.
12. A reflective practice focus.

It is the expectation of the Division that behavioral health staff who complete assessments, participate in the service planning process, provide therapy, case management and other clinical services, or supervise staff that provide service delivery to children age birth through five and their families, be well trained and clinically supervised in the application of this tool. Each AdSS shall establish their own process for ensuring that all agency clinical and support services staff working with this population understand the recommended processes and procedures contained in this tool. Whenever this Practice Tool is updated or revised, each AdSS ensures that their subcontracted network and provider agencies are notified and required staff are retrained as necessary on the changes.

J. SUPERVISION

Supervision regarding implementation of this Practice Tool is to be incorporated into other supervision processes which the AdSS and their subcontracted network and provider agencies have in place for direct care clinical staff, in alignment with A.A.C. R9-20-205 Clinical Supervision requirements.

Reflective Supervision, as one aspect of Reflective Practice, is a distinctive style of professional development (different from administrative or clinical supervision) that focuses attention on supporting the growth of relationships that is critical to effective infant and early childhood behavioral health practice. How each of these relationships interrelates and influences the others is explored through reflective supervision and is referred to as the “parallel process.”

1. Relationship between supervisor and practitioner.
2. Relationship between practitioner, parent/caregiver/child.
3. Relationship between parent/caregiver/child.
4. Relationship between all of the above.

In each of these relationships there is an emphasis on learning, personal growth, and empathy. Through this process, supervisors assist practitioners in professional skill development and ensure that practitioners are maintaining the agency's standards for clinical performance.

Key elements of reflective supervision include reflection, collaboration, and consistency. With supervisory support, the practitioner reflects on the emotional content of the work and how one's reaction to this content affects their work. Supervisors support a practitioner's professional development through the acquisition of new knowledge by encouraging the supervisee to assess their own performance. The supervisor's ability to listen and wait allows the practitioner an opportunity to analyze their own work and its implications, and to discover solutions, concepts or perceptions on one's own, without interruption. Collaborative supervision is characterized by the development of a trusting relationship between the supervisor and practitioner in which both parties can safely communicate ideas and share responsibility for decision-making without fear of judgment. Establishment of a consistent and predictable schedule of supervisory sessions supports the professional development of infant and early childhood behavioral health practitioners.

It is the recommendation of the Division that personnel who supervise staff providing service delivery to children age birth through five and their families, receive adequate training in the elements of Reflective Practice and Supervision before implementing this approach in their supervisory activities. Criteria for provision of reflective practice is outlined on the Michigan Infant Toddler Behavioral Health website, but at minimum, Reflective Supervision requires Endorsement® for Infant Behavioral Health Specialist or Infant Behavioral Health Mentor with a minimum of 50 clock hours within a one-to-two-year timeframe. Additional information is also

available within AMPM 210 Attachment E for additional resource materials on reflective supervision and consultative practices.

Training and supervision support the acquisition of specific knowledge, skills, and competencies critical to delivering effective relationship-based services to children age birth through five and their families. While training and other academic learning venues build the practitioner's understanding of core concepts, it is through supervision that practitioners can assess their level of competency when applying these concepts within their scope of practice. When evaluating a practitioner's level of knowledge as part of supervisory activities, supervisors can compare the skills of the clinician with Endorsement® Competency Guidelines and Requirements available on either the Arizona or Michigan Infant Toddler Behavioral Health websites. However, possession of similar knowledge and skills does **not** equate to actual Endorsement®, given the proprietary nature of the Endorsement® process (e.g., evidence-based training standards, testing, ethical standards).

The Division delegates the delivery of behavioral health services to subcontracted health plans. The Division shall monitor and ensure the AdSS establish their own process for ensuring that all staff have been trained and understand how to implement the practice elements as outlined in this document. Whenever this Behavioral Health Practice Tool is updated or revised, the Division shall ensure the AdSS and their subcontracted network and provider agencies are notified and required staff is retrained as necessary on the changes. The Division upon request from AHCCCS, is required to provide documentation demonstrating that all required network and provider staff have been trained on this Practice Tool.

The Division shall monitor and ensure that the AdSS incorporates this behavioral health practice tool into other supervision processes which the AdSS and their subcontracted network and provider agencies have in place for direct care clinical staff, in alignment with A.A.C. R4-6-212 Clinical Supervision requirements.

K. ANTICIPATED OUTCOMES

1. Increased community and professional awareness of infant and early childhood behavioral health,

2. Improved use of effective screening, assessment, and service planning practices specific to the needs of children age birth through five and their families,

3. Increased knowledge and referrals to early intervention resources in the community, and

4. Improved outcomes through the use of accepted approaches in working with children age birth through five and their caregivers.

L. DIVISION OVERSIGHT OF AdSS

The Division shall complete oversight of the AdSS utilizing, but not limited to, the following methods to ensure compliance with this and associated policies:

1. Annual Operational Review of each standard related to birth to age five, including but not limited to:

    a. Policies/procedures to ensure, and evidence of, appropriate high-need identification for the birth to five population.

    b. Policies/procedures to promote/increase availability of, and evidence of, availability of trained specialists (ITMHCA standards).

    c. Policies/procedures to ensure, and evidence of, staff training and supervision is completed as outlined in this policy.

    d. Ongoing monitoring of, and evidence of, adequate network capacity for children age birth to five.

2. Review and analyze deliverable reports submitted by the AdSS.

3. Conduct oversight meetings with the AdSS for the purpose of reviewing compliance, addressing concerns with access to care or other quality of care concerns, discussing systemic issues and providing direction or support to the AdSS as necessary.

4. Ensure AdSS conducts ongoing monitoring and evidence of compliance through Behavioral Health Clinical Chart Reviews.

Signature of Chief Medical Officer: Anthony Dekker (Apr 28, 2022 10:38 PDT)
Anthony Dekker, D.O.

211 PSYCHIATRIC AND PSYCHOTHERAPEUTIC BEST PRACTICES FOR CHILDREN BIRTH THROUGH FIVE YEARS OF AGE

EFFECTIVE DATE: May 4, 2022
REFERRENCES: AMPM 211

PURPOSE

This policy applies to the Division of Developmental Disabilities (Division) and the system of care for behavioral health services for members enrolled with Medicaid. This policy is an optional resource for the Tribal Health Program; it is not a requirement. The policy establishes best practice processes and goals for psychiatric evaluation and the use of psychotherapeutic and psychopharmacological interventions for children birth through five years of age.

POLICY

A. TARGET AUDIENCE

This policy is specifically targeted to the Division's Behavioral Health Administration in relation to their role with oversight of the AdSS and the role of Support Coordination. While the Division delegates the responsibility to AdSS for the implementation of behavioral health services in alignment with this practice tool, the Division remains responsible for case management (Support Coordination) and oversight of the AdSS. Support Coordination shall receive training on the general practices outlined in this policy for purposes of increasing their ability to coordinate services for members. The Division shall conduct formal oversight of the AdSS. Refer to AdSS Medical Policy 211 for the roles and responsibilities of the AdSS, their subcontracted network, and providers, who furnish psychotherapeutic assessments and interventions, complete psychiatric evaluations and prescribe psychopharmacological treatment for children birth through five years of age.

B. TARGET POPULATION(S)

The target populations include all Division members eligible for ALTCS, birth through five (up to age six), receiving behavioral health services in collaboration with their caregiver(s) and Child and Family Teams (CFT). Additionally, this policy is also

applicable when working with parents and/or caregivers who have children aged birth through five, regardless of whether the child(ren) or parent were referred or are seeking services.

C. BACKGROUND AND EVIDENCE-BASED SUPPORT

Psychiatric disorders presenting in young children are a public health concern, and they can negatively impact normative developmental trajectories in all spheres, physical, social, emotional, and cognitive. One of the challenges in the field of behavioral health care for young children is the belief that young children cannot develop behavioral health disorders. Yet, these disorders if not recognized and appropriately diagnosed, may result in challenging behaviors, such as significant aggression toward others (e.g., biting, hitting, kicking) and emotional dysregulation (e.g., uncontrollable tantrums or crying). These behaviors, when not addressed, can result in serious consequences such as childcare expulsion, difficulty participating in family activities, and impaired peer relationships, making early intervention extremely important for families and caregivers that have young children with behavioral challenges.

Because of the complexities in treating infants and toddlers, the field of infant behavioral health has evolved to promote recognition of the rapid developmental processes and the importance of a healthy relationship between a secure child and the caregiver (either temporary or permanent caregiver for treatment purposes). Given the unique needs of infants and toddlers, numerous therapeutic interventions exist, summarized in a table (page 8), that can aid in reducing potentially damaging consequences. There is robust evidence supporting the use of relationship-based interventions, which focus on the child and parent/guardian/designated representative relationship. Generally, these treatment approaches focus on improving child and family/ guardian/designated representative functioning relative to the identified emotional and/or behavioral challenges and can often be successful without introduction of pharmacological intervention.

In the absence of marked or sustained improvement, it may be necessary to follow the appropriate steps toward psychotropic intervention. However, “Psychotropic

medications are only one component of a comprehensive biopsychosocial treatment plan that shall include other components in addition to medication," according to American Academy of Child and Adolescent Psychiatry.

It is critical to recognize that there are physical causes for behavioral health and developmental delays that may cause signs and symptoms which overlap with behavioral and developmental concerns. It is therefore essential to first ensure that potential physical health issues have been ruled out. Division Medical Policy 430 provides guidance for standard screening and testing for lead poisoning, which includes blood testing whenever a concern arises that indicates a need for blood lead testing.

The use of medications to treat psychiatric disorders in young children raises unique developmental and ethical challenges. While considering whether medication should be introduced in treatment, the benefits of the medication shall be evaluated and compared to the potential biological and psychosocial side effects. According to a 2007 set of Guidelines by the Preschool Psychological Working Group, little is known about the potential effects on neurodevelopmental processes in very young children when exposed to psychotropic medications. Research summaries indicate that younger children metabolize medications differently than older children. Moreover, a review of the current literature demonstrates that there is more evidence to support psychotherapeutic rather than psychopharmacologic interventions in young children presenting with psychiatric symptoms. Despite this, the literature reflects that a majority of these young children do not receive psychotherapeutic interventions prior to the initiation of medications. Best practice recommends at least three months of extensive assessment and psychotherapeutic intervention prior to any consideration of psychopharmacological intervention.

Due to the concerns outlined above, evidence of substantial increases in prescribing antipsychotics for children and increased federal and state attention toward prescribing practices, Arizona has recognized the need to implement revised initiatives for young children to address psychotropic medication use. As of May 2016, AHCCCS provided analysis and trending of current psychotropic prescribing

practices, particularly for young children and children in the foster care system. Data analysis for this report, revealed several key findings including:

- For Arizona in general, psychotropic prescribing rates in 2013 were higher for all foster children zero to 18, when compared to non-foster care children zero to 18.
- For Arizona, foster care children zero to six were prescribed psychotropics at a rate 4.6 times higher than non-foster care children zero to six in Arizona's Medicaid system.

Based on the AHCCCS May 2016 report and the recognition that, despite continued lack of consistent national guidelines, AHCCCS has reorganized the original practice guideline into five sections, which align with current process within Arizona. Additional revisions focus on updated research and findings with regard to psychotropic prescribing practices. Focus has been added to align with current Maternal Child Health/Early and Periodic Screening Diagnostic and Treatment (MCH/EPSDT) practice, plus Bright Futures. As such, the Guidelines within this document now comprise:

- Assessment by Behavioral Health Professional/Provider
- Psychotherapeutic Interventions
- Psychiatric Evaluation
- Psychopharmacological Interventions
- EPSDT: Assessing Physical and Behavioral Needs Through Developmental Surveillance, Anticipatory Guidance, and Social/ Emotional Growth.

Refer to Division Medical Policy 210 for additional information on behavioral health screening, assessment, and treatment for children birth through five years of age.

D. ASSESSMENT BY BEHAVIORAL HEALTH PROFESSIONAL/PROVIDER

The initial assessment for a young child, at a minimum, consists of the following components as described in The American Academy for the Psychiatric Assessment of Infants and Toddlers (0-36 Months):

1. Gathering information from those individuals who are most familiar with the child, as well as direct observation of the child with their health care decision maker (HCDM) or caregiver, if directly involved with the child for treatment purposes (caregiver may be a family member or foster parent – either temporary or permanent).

2. Reason for referral including the child's social, emotional, and behavioral symptoms,

3. Detailed medical and developmental history,

4. Current medical and developmental concerns and status,

5. Family, community, childcare, and cultural contexts which may influence a child's clinical presentation,

6. Parental and environmental stressors and supports,

7. Parent/guardian/designated representative perception of the child, ability to read/ respond to child's cues, and willingness to interact with the child,

8. Children's birth through five mental status exam:

    - Appearance and general presentation
    - Reaction to changes (e.g., new people, settings, situations)
    - Emotional and behavioral regulation
    - Motor function
    - Vocalizations/speech
    - Thought content/process
    - Affect and mood
    - Ability to play by self and with peers, explore
    - Cognitive functioning
    - Relatedness to parent/guardian/designated representative

9. Use of standardized instruments to identify baseline functioning and track progress over time. Examples of such instruments include, yet are not limited to the following:

NAME OF TOOL	PURPOSE/DESCRIPTION	AGE/POPULATION	USER
INFANT TODDLER SOCIAL-EMOTIONAL ASSESSMENT (BITSEA)	*Social/Emotional* Brief report questionnaire focused on child symptomatology	12 to 36 mos. Multicultural	Professional or Parents/guardians/ designated representatives
BEHAVIORAL ASSESSMENT OF BABY'S EMOTIONAL AND SOCIAL STYLE (BABES)	*Behavioral Screening for temperament*, ability to self-soothe and regulate	Ages birth to 36 months	Parent/guardian/design ated representative (for use in pediatric practices or early intervention programs)
CHILD BEHAVIOR CHECKLIST 1-5 (ASEBA) (ACHENBACH AND RESCORLA; 2001)	*Social/Emotional* Parent and teacher ratings, descriptions and concerns of child behaviors; Corresponds to DSM	Ages 1.5 years+ Multicultural	Professional Training required
PRESCHOOL AGE PSYCHIATRIC ASSESSMENT (PAPA); (EGGER & ANGOLD, 2006)	Psychiatric diagnosis incorporating both DSM and DC:0-3R	Ages 2 to 5 years Boys/Girls Multicultural	Professional only Training required
CLINICAL PROBLEM-SOLVING PROCEDURE (CROWELL AND FLEISHMANN; 2000)	Structured observations of parent/child interactions	Ages 1 year to 5 years	Professional Videotaping essential
AGES AND STAGES QUESTIONNAIRE (ASQ-3)	Routine screening to assess developmental performance	Ages at various points from 1 month to 66 months; Boys & girls Multicultural	Parent completion
CONNOR'S EARLY CHILDHOOD ASSESSMENT	Measures specific patterns related to ADHD, cognitive and behavioral challenges	Ages 3 to 6+ Boys and Girls	Parent & teacher responses

HAWAII EARLY LEARNING PROFILE (HELP)	Assessment of developmental skills and behaviors	Ages 0 to 3 Boys & girls	Training required for use
PARENTS' EVALUATION OF DEVELOPMENTAL STATUS (PEDS)	Developmental Screening Tool – variety of domains	Birth to 8 years Boys & girls	Parent completion
TRAUMATIC SYMPTOM CHECKLIST FOR YOUNG CHILDREN (TSCYC)	Assessment of PTSD Symptoms	Normed separately for boys and girls Ages 3 to 5	Can be completed by paraprofessionals
MCHAT (2009)	A parent report screening tool to assess risk for Autism Spectrum Disorder (ASD)	Designed for use at 18 – 24 months of age	Completed by parents and scored by pediatricians, child psychiatrists or child psychologists

E. PSYCHOTHERAPEUTIC INTERVENTIONS

There is strong evidence base for the use of psychotherapeutic interventions for young children with psychiatric diagnoses. Thus, these specialized approaches should be the initial interventions before considering a psychopharmacologic trial (see table on following page and the Division Medical Policy 210).

The recommended psychotherapeutic treatment interventions outlined in the table below are supported by current studies and best practice. Determination of the best psychotherapeutic approach is done in conjunction with the CFT and qualified infant and early childhood behavioral health practitioners. Psychoeducation and early intervention are essential components of any psychotherapeutic intervention program and therefore should be included in the treatment of all disorders. Other examples of accepted therapeutic approaches with this population are referenced in Division Medical Policy 210. The psychotherapeutic intervention selected and length of treatment should be clearly documented in the clinical record.
Suggested Best Practice Interventions for Infants and Toddlers (Table not inclusive of all available therapeutic modalities – any modalities utilized will be at the discretion of the treating BHP or BHMP).

TYPE OF INTERVENTON	TREATMENT APPROACH	TARGETED POPULATIONS	TREATMENT GOALS	GUIDING ASSUMPTION AND THEORETICAL ORIENTATION
FAMILY THERAPY Training through various organizations, institutional or educational settings; Numerous master's level educational programs have dedicated programs in marriage and family therapy Marriage and Family Therapists receive specific training and clinical supervision that focuses on working with family members at the relationship level (e.g., parent- parent, parent-child or child- child)	Focus on conflict management and influence of marital conflict during high-risk perinatal period; can also be used prenatally; Goal is to ensure parent/guardian/ designated representative consensus regarding child's behavioral health status AND that parenting strategies are consistent	Infants, toddlers, preschoolers and family triad (e.g., including mother and father);	Intervention takes place at the marital relationship level, as well as the relationships between each parent and the child; focus on evaluating and changing interaction patterns between triadic members	Behavioral challenges are linked to patterns of relationship challenges; an intervention directed at one family member will always have an effect on another family member; Can change behavior by changing relationships (dyadic, triadic, family system) Theoretical assumptions, which guide family therapy intervention techniques, provide essential element of clinical framework for relationship- based work within Circle of Security, and Infant/Child Parent Psychotherapy
CHILD PARENT PSYCHOTHERAPY (CPP) Training through various organizations, institutional or educational settings; Lieberman and Van Horn are originators of intervention principals	Relationship-based; focus on parent perceptions and behaviors to promote mutual positive exchanges between child and parent/ guardian/ designated representative	Infants, toddlers, & preschoolers with or at risk for behavioral health problems along with their high-risk parents/ guardian/ designated representative	Work at relationship level to promote partnership between child and parent/guardian/ designated representative that results in increased positive interaction and reduced discordant relationship styles	Based on premise that "nurturance, protection, culturally and age-appropriate socialization from the attachment figure(s) comprise the cornerstone of behavioral health in infancy and early childhood…"

TYPE OF INTERVENTION	TREATMENT APPROACH	TARGETED POPULATIONS	TREATMENT GOALS	GUIDING ASSUMPTION AND THEORETICAL ORIENTATION
INFANT PARENT PSYCHOTHERAPY Training through various organizations, institutional or educational settings; Lieberman and Van Horn are originators of intervention principals	Similar to Child Parent Psychotherapy, but with greater emphasis on impact of upbringing of parent/guardian/ designated representative and how that impacts current parent/guardian/ designated representative perceptions of infant and relationship with infant	Infants, typically birth to 24 months or prior to onset of language, locomotion, and ability to express feelings	Focus on parent/child relationship to build relationship with parent by helping caregiver understand the basis for infant behaviors and perceptions of their world (e.g., behavior based on need for safety and security)	IPP more reliant on the psychoanalytic work of Selma Fraiberg; focus on impact of psychological challenges of parent/guardian/ designated representative as child and how those challenges impact ability to act as nurturing, protective parent/guardian/ designated representative
CIRCLE OF SECURITY Training through Circle of Security International	Therapist builds trusting relationship with parent/guardian/ designated representative (secure base) as therapist moves through relationship-based interventions to identify relational distress	Infants, toddlers & preschoolers and their parent/guardian / designated representative	Use Circle of Security interview to gain information about parent/guardian /designated representative "internal working model" regarding relationship with their child	The need for a secure attachment base is essential for building healthy relationships *Based on Attachment Theory (joint work of John Bowlby and Mary Ainswort also based on relationship-based interventions arising out of family therapy and family systems guiding assumptions and psychoanalytic theory*

TYPE OF INTERVENTION	TREATMENT APPROACH	TARGETED POPULATIONS	TREATMENT GOALS	GUIDING ASSUMPTION AND THEORETICAL ORIENTATION
APPLIED BEHAVIORAL ANALYSIS	Applied behavior analysis is the process of systematically applying interventions based upon the principles of learning theory to improve socially significant behaviors to a meaningful degree, and to demonstrate that the interventions employed are responsible for the improvement in behavior	Applied Behavioral Analysis Techniques can be used with persons of all ages, with both behavioral health and developmental disabilities diagnoses. An Early Intensive ABA (EI/ABA) program specifically for children with Autism Spectrum Disorder who begin treatment before age 4 has been described by Lovaas and others.	ABA techniques are used to decrease unwanted behaviors and increase desired behaviors through a systematic and consistent intervention. EI/ABA is provided with the goal of integrating a young child with ASD into a regular education classroom with reduced behavioral symptoms by the entry into Grade 1.	That systematic behavioral intervention can decrease unwanted behaviors and increase desired behaviors.

F. PSYCHIATRIC EVALUATION

General practice within Arizona's System of Care includes a comprehensive behavioral health assessment prior to a psychiatric evaluation. A psychiatric evaluation may be completed based on CFT decision making and when clinically indicated. The psychiatric evaluation may take multiple sessions and is completed prior to the initiation of psychotropic medication. Birth through five behavioral health significant efforts should be made to ensure that the psychiatric evaluation is conducted by a board certified or board qualified child and adolescent psychiatrist with training or experience in the treatment of young children, aged 0 to 5.

The psychiatric evaluation for a young child continues to focus on gathering supplemental information that may be needed since completion of the comprehensive assessment. This is especially critical for identification of any additions or changes that may impact the child's functioning. Components may be

very similar:

1. Information from those persons who are most familiar with the child, as well as direct observation of the child with their parent/guardian/designated representative especially if changes have occurred within the caregiver constellation since the initial assessment.

2. Any potential changes in the reason for referral including changes in the child's social, emotional, and behavioral symptoms.

3. Updates related to the detailed medical and developmental history.

4. Updates related to current medical and developmental concerns and status.

5. Changes in family, community, childcare, and cultural contexts which may influence a child's clinical presentation.

6. Newly identified parental and environmental stressors and supports.

7. Ongoing or recent changes in parent/guardian/designated representative perception of the child, ability to read/respond to child's cues, and willingness to interact with the child.

8. Use of the Division Medical Policy 210 to ensure use of evidence-based Behavioral Health Practice Tool for working with infants and toddlers.

9. Collaboration with pediatrician/primary care physician and/or developmental pediatricians involved.

10. Collaboration with other agencies involved with the child and family including but not limited to Department of Child Safety (DCS), Division of Developmental Disabilities (DDD), Arizona Early Intervention Program (AzEIP), First Things First, Head Start, the local school district, Healthy

Families Arizona and other educational programs.

11. Development of DSM-5 Diagnoses and DC: 0 TO 5 Diagnosis following:

- Diagnostic Classification of Behavioral health and Developmental Disorders in Infancy and Early Childhood" (DC: 0-5).
- The Diagnostic and Statistical Manual of Mental Disorders Fifth Edition, (DSM-5).

Current best practice for infants and toddlers, utilizes the DC: 0-5 for a number of reasons. First, it is based on Behavioral Health normed developmental trajectories, family systemic and relationship-based approaches, along with attention to individual differences in motor, cognitive, sensory, and language capabilities. Secondly, it allows for more thorough and developmentally appropriate diagnosis of behavioral health conditions in early childhood. An important feature of the DC: 0-5 is that it includes both the DSM-5 diagnostic references, as well as the corresponding ICD-10 codes. The DC: 0-5 manual was first published in 1994 as the "DC 0-3" and then revised in 2016 by Zero to Three: National Center for Infants, Toddlers, and Families (now known as "Zero to Three").

G. PSYCHOPHARMACOLOGICAL INTERVENTIONS

1. General Guidelines

If it is determined that a psychopharmacologic intervention is indicated, goals of treatment should include facilitating normative developmental processes and maximizing the potential for effective psychotherapeutic interventions. Medications are to be reserved for children with moderate to severe psychiatric symptoms that significantly interfere with their normal development and result in impairment that persists despite the use of clinically appropriate psychotherapeutic interventions, as the evidence base for the treatment of young children under the age of five is quite limited.

Clear and specific target symptoms shall be identified and documented in the clinical record prior to the initiation of a medication trial. Target symptoms and progress are continually documented in the clinical record throughout the course of treatment (Division Medical Policy 940).

Medication is always started at the lowest possible dose with subsequent increases in medication undertaken with caution. Dosing can be challenging as young children may metabolize medications more rapidly than older children. In addition, children age birth through five experience rapid growth during this timeframe, which may change the dose that is required for optimal treatment over short periods. Since these young children are often very sensitive to side effects, they shall be monitored closely.

2. Informed Consent

Informed consent, as specified in Division Medical Policy 320-Q, is an active, ongoing process that continues over the course of treatment through active dialogue between the prescribing BHMP and parent or Health Care Decision Maker about the following essential elements (Please refer to Division Medical Policy 310-V and AMPM Policy 310-V Attachment A for more information):

- The diagnosis and target symptoms for the medication recommended
- The possible benefits/intended outcome of treatment
- The possible risks and side effects
- The possible alternatives
- The possible results of not taking the recommended medication
- FDA status of the medication
- Level of evidence supporting the recommended medication

Although there are medications approved by the Food and Drug Administration (FDA) for young children under the age of five, an FDA indication reflects empirical support but is not synonymous with a recommendation for use consistent with current studies and best practice. In

addition, lack of an FDA indication does not necessarily reflect a lack of evidence for efficacy. The Physician's Desk Reference states the following: "Accepted medical practice includes drug use that is not reflected in approved drug labeling." In the United States only a small percentage of medications are FDA indicated for use in pediatrics. Thus, BHMPs shall document the rationale for medication choice and the provision of informed consent to parents/ guardians/designated representatives.

3. Monitoring

Medications that have been shown to adversely affect hepatic, renal, endocrine, cardiac and other functions or require serum level monitoring shall be assessed via appropriate laboratory studies and medical care shall be coordinated with the child's primary care physician.

4. Coordination of Care

In Arizona, the behavioral health program has historically been separated from the acute care Medicaid program (Title XIX) and the State Children's Health Insurance Program (KidsCare/SCHIP/Title XXI). Both models have been structured in the past in such a way that eligible persons received general medical services through health plans and covered behavioral health services through a separate Contractor. Because of this separation in responsibilities, communication and coordination between behavioral health providers, AHCCCS Health Plan Primary Care Providers (PCPs) and Behavioral Health Coordinators is essential to ensure the well-being of young children receiving services from both systems. Since October 1, 2019, there has been a system-wide shift toward medical health homes and provision of integrated and coordinated care, which is bringing about a shift in provider practices to address early intervention needs using a more holistic approach. Since October 1, 2019, the Division has contracted with the AdSS to implement integrated and coordinated behavioral health and physical health care.

Duplicative medication prescribing, contraindicated combinations of

prescriptions and/or incompatible treatment approaches could be detrimental to a young child. For this reason, communication and coordination of care between behavioral health providers and PCPs shall occur on a regular basis to ensure safety and positive clinical outcomes for young children receiving care.

5. Polypharmacy

Polypharmacy is defined as using more than one psychotropic medication at a time with this population and is not recommended. This definition excludes a medication cross taper, where the young child may be on two medications for a short period in order to avoid abrupt withdrawal symptoms. More than one medication should only be considered and used in extreme situations where severe symptoms and functional impairment are interfering with the child's ability to form close relationships, experience, regulate and express their emotions, and developmental progress.

Complementary, alternative, and over-the-counter medications should be taken into consideration when evaluating the use of polypharmacy and potential drug interactions. If more than one medication is prescribed, there shall be documentation of clear target symptoms for each medication in the child's clinical record. When applicable, the Controlled Substance Prescription Monitoring Program (CSPMP) database should be checked (Refer to Division Medical Policy 940).

6. Medication Taper

In children who have a positive response to medication, as indicated by a remission of symptoms, a taper off medication should be considered at six to eight months of treatment. This consideration shall be clearly documented in the clinical record. The BHMP shall weigh the risks vs. benefits of each approach with the parent/guardian/designated representative, which includes the importance of reassessing the need for medication in the rapidly developing young child. Every six to eight months, a medication taper should

be considered until the child reaches the age of five. The BHMP should reassess for a persistent diagnosis and need for continuing medication at reasonable intervals beyond age five.

If the decision to taper the child off medication is made, the CFT shall be informed of this decision in order to discuss and address possible behavior disruptions that may arise as a result of this taper. The CFT shall also ensure that the need for additional supports or services for the child and/or caregiver be considered and implemented as necessary to maintain the child's stability (For specific guidelines for children involved with the Department of Child Safety and/or foster care, refer to AMPM Behavioral Health Practice Tool 260, Division Medical 320-Q, and A.R.S. § 8-514.05). Documentation of medication taper should be made with clinical rationale provided.

7. Prescription by a Non-Child Psychiatrist

As noted earlier with assessment and evaluation practice standards, BHMPs who provide treatment services to young children shall have training and possess experience in both psychotherapeutic and psychopharmacological interventions for children age birth through five. Medication management should be provided by a board certified or qualified child and adolescent psychiatrist whenever possible; in rural or underserved locations, this may be met through the use of telemedicine. A non-child psychiatrist BHMP shall adhere to the following when prescribing psychotropic medication for children birth through five years of age:

a. After the psychiatric evaluation has been completed and it is determined that the child may benefit from psychotropic medication(s), the case shall be reviewed with the designated child psychiatric provider as determined by the Contractor. The review shall include, at a minimum, the following elements:

   i. The proposed medication with the starting dosage,
   ii. Identified target symptoms,

iii. The clinical rationale for the proposed treatment,

iv. Review of all medications the child is currently taking, including over the counter and those prescribed by other medical/holistic providers,

v. Drug Review/Adverse Reactions,

vi. A plan for monitoring, potential side effects such as weight gain, and/or abnormal/involuntary movements, (based on recommended standards of care, and

vii. Identified targeted outcomes.

b. Follow-up consultation with a designated child psychiatric provider shall occur in the following instances:

i. If the child is not making progress towards identified treatment goals (at minimum of every three months),

ii. In the event that reconsideration of diagnosis is appropriate,

iii. When a new medication is being considered or when more than one medication is prescribed.

H. BIRTH THROUGH FIVE EPSDT: ASSESSING PHYSICAL AND BEHAVIORAL NEEDS THROUGH DEVELOPMENTAL SURVEILLANCE, ANTICIPATORY GUIDANCE AND SOCIAL/EMOTIONAL GROWTH

AHCCCS has historically incorporated the Early and Periodic Screening, Diagnostic and Treatment (EPSDT) program to ensure that members under the age of 21 receive appropriate preventive and early intervention services for physical and behavioral health conditions (refer to Division Medical Policy 430). Through formal policy and reporting requirements under CMS guidelines, participation has been measured in part through use of forms designated as “EPSDT Tracking Forms” (refer to AMPM Policy 430, Attachment E).

Although AHCCCS requires use of specific EPSDT forms available on the AHCCCS website, further guidance on the use of the forms is also available through Bright

Futures. Both the Bright Futures website and Bright Futures Pocket Guide offer more detailed guidance on use of content within the tracking forms. The focus of the last section of this policy is to assist PCPs and/or pediatricians in identifying concerns related to three central EPSDT domains:

- Anticipatory Guidance,
- Developmental Surveillance, and
- Social/Emotional Growth.

Often, the primary care setting is the most robust situation available for parents to address early developmental or behavioral concerns. During the course of EPSDT-required well-child visits, physicians and pediatricians have multiple opportunities over time to build relationships with parents and their young children, while simultaneously gathering valuable information. Through discussions guided by the use of the three domains listed above, they have the chance to identify strengths, needs and stressors for the parents and children that they follow. With thoughtful use of items within these domains, it is possible for physicians to identify a physical health concern that may also involve the need for further behavioral health services. For example, a language delay or developmental regression could be due to numerous physical causes. However, both are also symptoms of early childhood trauma for children birth to three years of age. Additionally, symptoms often associated with attention deficit hyperactivity disorder (ADHD) can mirror child traumatic stress.

The challenge for physicians, due to lack of training and knowledge, is often the ability to clearly identify behavioral and developmental concerns and then link parents/guardians/ designated representatives to adequate resources. Some physicians are comfortable providing basic treatment, whereas others are not. According to one study, PCPs had various comfort levels to conduct treatment or make referrals, but it related to the diagnoses involved. There was a comfort level treating ADHD but not depression – the preference for the latter, in most instances was to make a behavioral health referral.

Given acknowledgement to the lack of behavioral health training within the pediatric

community, dedicated and thorough use of EPSDT forms, as well as guidance provided under Bright Futures, can aid physicians in providing appropriate and early intervention treatment for children birth through five. The center sections of EPSDT forms offer opportunity to work with parents/guardians/designated representatives to offer guidance and encourage referrals to and use of behavioral health system when there is concern about behaviors that may indicate a potential behavioral health condition.

Although it is not the purpose of this policy to offer extensive details regarding early childhood developmental and behavioral health issues, the table below provides some examples of how EPSDT Developmental Screening sections can prompt opportunities (based on specific age-appropriate EPSDT domains) for discussion between parents/Responsible Person and PCPs regarding observations and concerns identified during visits. PCPs have multiple options at these visits to suggest community supports, case manager involvement (if available under the Medical Health Home model) or refer to behavioral health system/provider for further assistance (Refer to Division Medical Policy 580 for information on the Behavioral Health Referral Process).

The table below is designed to present bivariate ways (e.g., physical or behavioral) to examine developmental milestones, environmental factors and level of social/emotional growth. Because physical and familial environments have such a tremendous impact on the developing brain, it is important to recognize that if infants and toddlers are not meeting milestones, there could be either physical, environmental or behavioral health reasons.

EPSDT Domain Sample Table: Potential indicators for referral to Behavioral Health Services (Based on age, domain & need). (AMPM Policy 430, Attachment E; Bright Futures, 4th Edition)

EPSDT DOMAINS	AGE	DISCUSSION CHECKLIST ELEMENT	POTENTIAL BEHAVIORAL HEALTH NEED
DEVELOPMENTAL SURVEILLANCE	6 months	Sits without support, babbles sound such as "ma", "ba", "ga", looks when name is called.	Parent/guardian/designated representative engages with and is attentive toward infant; if infant is engaging in these early milestone behaviors, and there is lack of reaction or acknowledgement from parent, or reciprocal engagement explore further for evidence of potential maternal depression or other environmental factors (unsafe environment, violence, neglect) that may be causing stress or trauma for the infant.
ANTICIPATORY GUIDANCE PROVIDED	6 months	Discussion of social determinants of health (e.g., safe sleep, sleep/wake cycles, tobacco use, safe environment).	Any potential risk factors identified under this domain may warrant referral for community supports or referral for behavioral health services if there is concern about parental depression, substance use, neglect of child or dangerous environment).
SOCIAL EMOTIONAL HEALTH	6 months	Appropriate bonding and responsive to needs.	Is parent/guardian/designated representative feeding infant and engaging while feeding or is infant being fed via bottle propping while in carrier or crib? Lack of infant/parent engagement may warrant further discussion and referral to behavioral health system due to potential indicators for maternal depression or lack of appropriate bonding/attachment. Lack of appropriate bonding can manifest in multiple ways (lack of eye contact between baby and caregiver, baby shows signs of discomfort when being held, inability for caregiver to help baby sooth).
ANTICIPATORY GUIDANCE PROVIDED	1 yr.	Continued focus on social determinants of health such as food security, safe environment, parental use of tobacco, alcohol or other substances.	If there are parental risk factors for social determinants of health, there are opportunities to refer for community supports or behavioral health; in case there are underlying behavioral health needs (e.g., parental depression, substance use).
SOCIAL EMOTIONAL HEALTH	1 yr.	Prefers primary caregiver over others, shy with others, tantrums.	Lack of preference for primary caregiver could indicate insecure attachment for variety of reasons (e.g., lack of trust, abuse, neglect, early trauma); consider unaddressed behavioral health issues in parent.

EPSDT DOMAINS	AGE	DISCUSSION CHECKLIST ELEMENT	POTENTIAL BEHAVIORAL HEALTH NEED
DEVELOPMENTAL SURVEILLANCE	3 yrs.	Eats independently, uses three word sentences, plays cooperatively and shares.	Lack of these observed developmental milestones may be indicative of physical issues or lack of parental engagement with child; consider referral for community supports and/or behavioral health system to address potential for undiagnosed behavioral health issue on the part of the parent or child (barring any evidence of physical reasons).
ANTICIPATORY GUIDANCE PROVIDED	3 yrs.	Allow child to play independently; be available if child seeks out parent or caregiver.	Attachment issues can manifest as fear in child to play independently, even if allowed (over-dependence on caregiver), or reluctance of child to seek out parent/guardian/designated representative due to lack of secure "attachment" base. Could also be signs/symptoms related to abuse.
SOCIAL EMOTIONAL HEALTH	3 yrs.	Separates easily from parent, shows interest in other children, kindness to animals.	Observe parental conversations and interaction; is parent positive with child, offering praise, setting appropriate boundaries; lack of these observed behaviors on the part of either parent or child may indicate unaddressed child/parent relationship issues or potential mental issue issues for either parent or child.

I. DIVISION OVERSIGHT OF AdSS

The Division shall complete oversight of the AdSS utilizing, but not limited to, the following methods to ensure compliance with this and associated policies:

1. Annual Operational Review of standards related to birth to age five.

2. Conduct oversight meetings with the AdSS for the purpose of reviewing compliance, addressing concerns with access to care or other quality of care concerns, discussing systemic issues and providing direction or support to the AdSS as necessary.

3. Ensure AdSS conducts ongoing monitoring and evidence of compliance through Behavioral Health Clinical Chart Reviews.

Anthony Dekker, D.O.

230 SUPPORT AND REHABILITATION SERVICES FOR CHILDREN, ADOLESCENTS AND YOUNG ADULTS

EFFECTIVE DATE: June 15, 2022

REFERENCES: A.A.C. R9-10-115, AMPM Chapter 200, Division Medical Policy 320-O

PURPOSE

This policy applies to the AHCCCS System of Care for ALTCS eligible members. The policy is specifically targeted to the Division's Behavioral Health Administration in relation to their role with oversight of the Administrative Services Subcontractors (AdSS) and the role of Support Coordination. The policy establishes the expectations for the implementation of support and rehabilitation services as they are used in CFT practice. This policy does not apply to the Division's Tribal Health Program but may be used as an optional resource.

DEFINITIONS

Child and Family Team (CFT) means a group of individuals that includes, at a minimum, the child and their family, or health care decision maker. A behavioral health representative, and any individuals important in the child's life that are identified and invited to participate by the child and family. This may include teachers, extended family members, friends, family support partners, healthcare providers, coaches, and community resource providers, representatives from churches, temples, synagogues, mosques, or other places of worship/faith, agents from other service systems like the Arizona Department of Child Safety (DCS) or the Division of Developmental Disabilities (DDD). The size, scope, and intensity of involvement of the team members are determined by the objectives established for the child, the

needs of the family in providing for the child, and by who is needed to develop an effective service plan, and can therefore, expand and contract as necessary to be successful on behalf of the child.

Service Plan means a complete written description of all covered health services and other informal supports which includes individualized goals, family support services, peer-and-recovery support, care coordination activities and strategies to assist the member in achieving an improved quality of life.

Support and Rehabilitation Service Providers provide either a limited scope of Support and Rehabilitation Services (such as primarily specializing in respite services or skills training services) and/or services that may be designed for a specific population, age, gender, frequency, duration, or some other factor (such as a service specializing in working with teenagers or those with a history of displaying harmful sexual behaviors).

BACKGROUND

In March of 2007, ADHS/DBHS launched the Meet Me Where I Am (MMWIA) campaign with the intention of increasing the availability of Support and Rehabilitation Services. As a result of administrative simplification this goal remains a priority of AHCCCS. As part of the MMWIA campaign, nine modules were created and placed online offering assistance to practitioners of direct support services. These modules can be accessed at mmwia.com and referenced in this document.

POLICY

Support and rehabilitation services are an essential part of community-based practice and culturally competent care. These services help children live

successfully with their families in the community. Adhering to the expectations of this policy will enhance behavioral health outcomes for children and young adults. The Division delegates the responsibility to AdSS for the implementation of behavioral health services in alignment with this policy, and whose contract includes this requirement. The Division remains responsible for support coordination and oversight of the AdSS. Support Coordination shall receive training on the general practices outlined in this policy for purposes of increasing their ability to coordinate services for their members and participants of Child and Family Team (CFT) meetings. The Division shall conduct formal oversight of the AdSS. Refer to AdSS Medical Policy 230 for responsibilities of the AdSS implementing this policy.

A. SERVICE DEVELOPMENT

1. The Division performs oversight of the AdSS to ensure the following occurs in relation to service development:

    a. CFTs have access to the full range of Support and Rehabilitation Services;

    b. CFT facilitators and families are aware of the value of Support and Rehabilitation Services, as well as specific and current information regarding the different provider options available in their area;

    c. The AdSS adopt a Support and Rehabilitation Services system model outlining how these services will be structured in their region and their relation to other behavioral health services and providers. (Refer to Module 9, System and Program Models for Support and Rehabilitation Services Provision, of the online MMWIA modules for more information.)

d. Support and Rehabilitation Services are available to meet the behavioral health needs of youth and families as identified in their CFTs.

2. Division Support Coordinators shall participate in member CFT meetings to ensure integrated care coordination.

B. INTEGRATING SUPPORT AND REHABILITATION SERVICES WITH CFT PRACTICE

The CFT shall complete the following tasks when planning and arranging for Support and Rehabilitation Services. (Refer to Module 4, Assessing, Coordinating and Monitoring Support Services through the CFT, of the online MMWIA modules for detailed information about each task.)

1. Assess the underlying needs of the child/family and consider the various options presented through Support and Rehabilitation Services for meeting those needs. These options may include family, natural and community resources, resources of other involved stakeholder agencies (such as DCS, DDD, and family-run support or advocacy organizations) as well as paid behavioral health resources. The CFT determines which of the identified needs will be met through Support and Rehabilitation Services and documents these interventions in a service plan. The CFT determines which of the identified needs will be met through Support and Rehabilitation Services and documents these interventions in a service plan. (Refer to Division Medical

Policy 320-O.)

2. Locate and select Support and Rehabilitation Services provider(s) to help implement the plan. Collaborate with and use information provided by the Contractors to do the following:

   a. Determine which Support and Rehabilitation Services providers may meet the needs identified, determine whether those providers have current capacity, and

   b. Make a referral to the selected provider(s).

3. Work with the Support and Rehabilitation Services provider(s) to define their roles and tasks, specifying the anticipated frequency and duration associated with the Support and Rehabilitation Services requested. The CFT ensures this information is recorded in the service plan and the Support and Rehabilitation Services provider(s) promptly receive a copy of the plan. If unplanned services are needed due to crisis situations, the CFT notes this change in the service plan and the Support and Rehabilitation Services provider is authorized to respond with additional support if needed.

4. Coordinate effectively with the Support and Rehabilitation Services providers on an ongoing basis. This may be accomplished through CFT meetings as well as through regular communication with the Support and Rehabilitation Services provider. The CFT Facilitator/case manager sends the Support and Rehabilitation Services provider a complete Referral Packet

which includes copies of any updated assessments, service plans, notice of change to funding status, and other important documents whenever updates occur.

5. Support and Rehabilitation Services shall be documented accurately and differentiate between which services were provided. Module 1, Overview of Support and Rehabilitation Service Provision, of the MMWIA modules provides several appendices intended to assist with code differentiation and billing limitations of Support and Rehabilitation Services.

6. Monitor progress and adjust the Support and Rehabilitation Services provision as necessary. The CFT, which includes the Support and Rehabilitation Services provider, makes necessary adjustments to the authorized Support and Rehabilitation Services. These include the type, anticipated frequency and duration of the service(s), as well as and documents any changes in the service plan. CFTs meet regularly and make needed adjustments in the implementation of Support and Rehabilitation Services, both when services are successful and when they need to be modified because they are not achieving desired results.

7. All support and Rehabilitation Services should be provided using a Positive Behavior Support (PBS) philosophy. Module 3, Using Positive Behavior Support to Provide Effective Support and Rehabilitation Services, of the online MMWIA modules contains information regarding this type of approach. PBS is intended as

a meta-theory to guide Support and Rehabilitation Services provision rather than as a specific type of program. It is not the intent of the Division to prescribe specific programming practices, but rather to endorse the principles underlying Positive Behavior Support, such as focus on strengths, enhancing quality of life and eliminating coercive or punitive approaches.

8. When clinically appropriate, the CFT will direct a plan to discontinue formal Support and Rehabilitation Services delivery ensuring that the youth and family have been connected to community resources or services and natural support services that will provide ongoing support. (Refer to MMWIA Module 4, Assessing, Coordinating and Monitoring Support Services through the CFT, for more information about when it may be appropriate to end Support and Rehabilitation Services as well as suggestions for transition from these services.)

C. RESPONSIBILITIES REGARDING SUPPORT AND REHABILITATION SERVICES PROCESSES

1. AdSS and their network of behavioral health providers shall maintain and make available to the CFT, current and accurate information regarding Support and Rehabilitation Services providers and their current capacity/availability to provide support.

2. AdSS and their network of behavioral health providers shall require that Support and Rehabilitation Services providers use a standardized referral process that helps providers receive, store,

track, and respond in writing to all referrals received from CFT facilitators/case managers.

3. To better assess the need for increased Support and Rehabilitation Services capacity, AdSS and their network of behavioral health providers shall monitor information from CFT Facilitators/case managers who are unable to locate Support and Rehabilitation Services requested by the CFT in a timely manner. Information gathered may include the date of the request(s), number of providers approached, the type and/or amount of Support and Rehabilitation Services sought by the team, and what the team did as an alternative to address the needs of the youth and family.

4. AdSS and their network of behavioral health providers shall create and oversee a process whereby Support and Rehabilitation Services providers receive copies of any and all of the following documents in a timely manner each time they are updated. These documents are needed for quality service provision, and may also be necessary in the event of data validation audits they include:

   a. Assessments and Addenda,

   b. Review of Progress forms,

   c. Service Plan Documents,

   d. Data demographic forms,

e. Crisis/Safety Plans,

f. Strengths, Needs and Culture Discoveries, and

g. Child and Family Team Notes (if separate from the above items).

5. AdSS and their network of behavioral health providers shall ensure that procedures are in place to require Support and Rehabilitation Services providers to do the following:

a. Respond to referrals in a timely manner, (Refer to AdSS Operations Policy 417),

b. Participate actively in Child and Family Teams

c. Provide information regarding service delivery as it relates to established child/family goals, and

d. Provide training and supervision necessary to help staff provide effective Support and Rehabilitation Service as outlined by the CFT.

6. AdSS and their network of behavioral health providers shall develop a process to ensure that when children and families are receiving intense Support and Rehabilitation Services or are receiving them for an extended period of time, services are reviewed periodically to ensure resources are being used effectively. Such review should be done in person with the CFT rather than outside of the team. During such reviews, case-specific factors identified by the CFT as being important to the success of the family must be considered.

7. AdSS and their network of behavioral health providers shall develop processes to track outcomes of Support and Rehabilitation Services both qualitatively (such as narrative success stories) and quantitatively (such as outcome data).

D. TRAINING AND SUPERVISION RECOMMENDATIONS

1. AdSS and their network of behavioral health providers shall establish processes for ensuring all clinical and support services staff working with children and adolescents understand the elements for development and use of Support and Rehabilitation Services as specified in this document through formal training as noted here, including required reading of this Policy.

2. Several training resources have been developed as part of the MMWIA campaign to assist families, providers, and community members in using Support Rehabilitation Services effectively. Specifically, nine self-guided training modules/toolkits are available for any individuals or agencies across the state that participates in CFTs. These modules may be accessed online at www.mmwia.com.

3. AdSS and their network of behavioral health providers shall provide documentation, upon request from the Division or AHCCCS, demonstrating that all required network and provider staff have been trained on the elements contained in this policy. Whenever this policy or the attendant training modules are updated or revised, AdSS shall ensure their subcontracted network and provider agencies are notified and required staff are

retrained as necessary on the changes.

4. Supervision regarding implementation of this policy is to be incorporated into other supervision processes which the AdSS and their subcontracted network and provider agencies have in place for direct care clinical staff, in accordance with A.A.C. R9-10-115, Behavioral Health Paraprofessionals, Behavioral Health Technicians.

E. AdSS OVERSIGHT

1. The Division shall complete oversight of the AdSS utilizing, but not limited to, the following methods to ensure compliance with this policy and policies referenced within this policy:

   a. Annual Operational Review of compliance with this policy and related standards, including but not limited to:

      i. Policies/procedures for, and evidence of, assessing and prioritizing identified need for MMWIA services.

      ii. Policies/procedures for, and evidence of, tracking and documenting demand/unmet need for MMWI services.

      iii. Policies/procedures, and evidence of, implementing strategy for addressing the lack of timely availability of MMWIA services.

      iv. Policies/procedure for, and evidence of, managing and documenting service utilization/length of stay for MMWIA services.

      v. Evidence of training as described in section Training and Supervision above.

b. Receive and analyze deliverable reports or other data as submitted by the AdSS.

c. Conduct oversight meetings with the AdSS for the purpose of reviewing compliance and addressing concerns with access to care or other quality of care.

d. Ensure AdSS complete ongoing monitoring and evidence of compliance through Behavioral Health Clinical Chart Reviews.

280 TRANSITION TO ADULTHOOD

EFFECTIVE DATE: June 29, 2022

REFERENCES: A.A.C. R4-6-212, IDEA Part B, Section 1415 (m), Section 504 of the Rehabilitation Act of 1973

PURPOSE

This policy applies to the AHCCCS System of Care for ALTCS eligible members. This policy is specifically targeted to the Division's Behavioral Health Administration in relation to their role with oversight of the Administrative Services Subcontractors (AdSS) and the role of support coordination. This policy is an optional resource for the Tribal Health Program and is not a requirement for the Tribal Health Program.

The Division delegates the responsibility to AdSS for the implementation of behavioral health services in alignment with this policy. The Division remains responsible for support coordination and oversight of the AdSS.

The purpose of this policy is to strengthen practice in the system of care and promote continuity of care through collaborative planning by:

1. Supporting individuals transitioning into early adulthood in ways that reinforce their recovery process.
2. Ensuring a smooth and seamless transition from the AHCCCS Children System of Care to the AHCCCS Adult System of Care.
3. Fostering an understanding that becoming a self-sufficient adult is a process that occurs over time and can extend beyond the age of 18.

DEFINITIONS

Adult Recovery Team (ART) is a group of individuals that, following the Nine Guiding Principles for Recovery-Oriented Adult Behavioral Health Services and Systems, work in collaboration and are actively involved in a member's assessment, service planning, and service delivery. At a minimum, the team consists of the member, member's health care decision maker (if applicable), advocates (if assigned), and a qualified behavioral health representative. The team may also include the member's family, physical health, behavioral health or social service providers, other agencies serving the member, professionals representing various areas of expertise related to the member's needs, or other individuals identified by the member.

Assessment – Behavioral Health means the ongoing collection and analysis of an individual's medical, psychological, psychiatric, and social conditions in order to initially determine if a health disorder exists, if there is a need for behavioral health services, and on an ongoing basis ensure that the individual's service plan is designed to meet the individual's (and family's) current needs and long-term goals.

Child and Family Team (CFT) is a group of individuals that includes, at a minimum, the child and their family, or health care decision maker. A behavioral health representative, and any individuals important in the child's life that are identified and invited to participate by the child and family. This may include teachers, extended family members, friends, family support partners, healthcare providers, coaches, and community resource providers, representatives from churches, temples, synagogues, mosques, or other places of worship/faith, agents from other service systems like the Arizona Department of Child Safety (DCS) or the Division. The size, scope, and

intensity of involvement of the team members are determined by the objectives established for the child, the needs of the family in providing for the child, and by who is needed to develop an effective service plan, and can therefore, expand and contract as necessary to be successful on behalf of the child.

Service Plan means a complete written description of all covered health services and other informal supports which includes individualized goals, family support services, peer-and-recovery support, care coordination activities and strategies to assist the member in achieving an improved quality of life.

Serious Mental Illness is a designation as specified in A.R.S. 36-550 and determined in an individual 18 years of age or older.

Serious Mental Illness Evaluation is the process of analyzing current and past treatment information including assessment, treatment other medical records and documentation for purposes of making a determination as to an individual's serious mental illness eligibility.

BACKGROUND

The psychological and social development of adolescents transitioning into young adulthood is challenged by the economic, demographic, and cultural shifts that have occurred over several generations. Sociologist researcher, Frank F. Furstenberg, Jr., as Network Chair of the Network on Transitions to Adulthood stated: "Traditionally, early adulthood has been a period when young people acquire the skills they need to get jobs, to start families, and to contribute to their communities. But, because of the changing nature of families, the education system, and the workplace, the process has become more complex. This means that early adulthood has become a difficult

period for some young people, especially those who are not going to college and lack the structure that school can provide to facilitate their development." While some individuals adapt well as they transition into the responsibilities of adulthood, others experience challenges such as those youth who have mental health concerns.

Between 2008 and 2017, the amount of adults that experienced serious psychological distress in the last month increased among most age groups, with the largest increases seen among younger adults aged 18-25 (71%). Notably, rates of serious psychological distress increased by 78% among adults aged 20-21 during the time period. Meanwhile, there was a decline among adults aged 65 and older.

These findings were consistent across other measures, with the rate of adolescents and young adults experiencing depressive symptoms in the last year increasing by 52% and 63%, respectively, while rates remained stable adults aged 26 and older.

As the transition to adulthood has become more challenging, youth with mental health needs struggle to achieve the hallmarks of adulthood such as finishing their education, entering the labor force, establishing an independent household, forming close relationships, and potentially getting married and becoming parents. While these may be considered the trademarks of adulthood from a societal viewpoint, some studies suggest that youth may conceptualize this transition in more "intangible, gradual, psychological, and individualistic terms." Top criteria endorsed by youth as necessary for a person to be considered an adult emphasized features of individualism such as accepting "responsibility for the consequences of your actions," deciding one's "own beliefs and values independently of parents or other influences," and establishing "a relationship with parents as an equal

adult."

Oftentimes, youth who successfully transition to adulthood are those that acquire a set of skills and the maturational level to use these skills effectively. Transition planning can emphasize interpersonal skill training through a cognitive-behavioral approach to help youth develop positive social patterns, assume personal responsibility, learn problem-solving techniques, set goals, and acquire skills across various life domains.

With transition to adulthood occurring at later ages and over a longer span of time, many young people in their 20's may still require the support of their families. Involving families in the transition planning process and identifying the individual support needs of their children recognizes the diversity that is needed when accessing services and supports. Youth who have been enrolled in government programs due to family hardship, poverty, physical, or mental health challenges are often the least prepared to assume adult responsibilities. For others, such as youth leaving foster care, they must acquire housing without the financial support of a family.

Eligibility for public programs, such as Medicaid, Social Security, and vocational rehabilitation, as well as housing and residential services, may engender planning for changes at the age of 18. Youth who have disabilities that significantly impact their ability to advocate on their own behalf may require a responsible adult to apply for guardianship. Other youth may benefit from a referral to determine eligibility for services as an adult with a serious mental illness. Thus, it is the responsibility of the behavioral health system to ensure young adults are provided with the supports and services they need to acquire the capacities and skills necessary to navigate through this transitional period to adulthood.

POLICY

This policy addresses the recommended practice for transitioning youth from the AHCCCS Children System of Care to the AHCCCS Adult System of Care, with a focus on the activities that will assist youth in acquiring the skills necessary for self-sufficiency and independence in adulthood, and as specified in AMPM 520 which requires that transition planning begins when the youth reaches the age of 16, however, if the Child and Family Team (CFT) determines that planning should begin prior to the youth's 16th birthday, the team may proceed with transition planning earlier to allow more time for the youth to acquire the necessary life skills, while the team identifies the supports that will be needed. Age 16 is the latest this process should start. For youth who are age 16 and older at the time they enter the AHCCCS System of Care, planning shall begin immediately. It is important that members of the CFT look at transition planning as not just a transition into the AHCCCS Adult System of Care, but also as a transition to adulthood.

Support Coordination shall receive training on the general practices outlined in this policy for purposes of increasing their ability to coordinate services for their members. The Division shall provide formal oversight of the AdSS to ensure compliance with AdSS Medical Policy 280.

A. SERIOUS MENTAL ILLNESS DETERMINATIONS

1. When the adolescent reaches the age of 17 and the CFT believes that the youth may meet eligibility criteria as an adult designated as having a Serious Mental Illness (SMI), the Division and subcontracted providers shall ensure the young adult receives an eligibility determination at the age of 17.5, as specified in Division Medical Policy 320-P.

2. If the youth is determined eligible, or likely to be determined eligible for services as a person with a SMI, the adult behavioral health services case manager is then contacted to join the CFT and participate in the transition planning process. After obtaining permission from the parent/guardian, it is the responsibility of the children's behavioral health service provider to contact and invite the adult behavioral health services case manager to upcoming planning meetings. When more than one behavioral health service provider is involved, the responsibility for collaboration lies with the provider who is directly responsible for behavioral health service planning and delivery.

3. If the young adult is not eligible for services as a person with a SMI, it is the responsibility of the children's behavioral health provider, through the CFT, to coordinate transition planning with the adult general mental health provider. Whenever possible, it is recommended that the young adult and their family be given the choice of whether to stay with the children's provider or transition to the adult behavioral health service provider. The importance of securing representation from the adult service provider in this process cannot be overstated, regardless of the person's identified behavioral health category assignment (SMI, General Mental Health, Substance Use). The children's behavioral health provider should be persistent in its efforts to make this occur.

B. REQUIREMENTS FOR INFORMATION SHARING PRACTICES, ELIGIBLE SERVICE FUNDING, AND DATA SUBMISSION UPDATES

1. Prior to releasing treatment information, the CFT, including the adult service provider, will review and follow health record disclosure guidelines per AMPM 940.

2. If the young adult is not Medicaid eligible, services that can be provided under non-Medicaid funding will follow policy guidelines as specified in AMPM Policy 320-T1.

3. The behavioral health provider will ensure that the behavioral health category assignment is updated along with other demographic data consistent with the AHCCCS Technical Interface Guidelines.

4. Youth, upon turning age 18, will be required to sign documents that update their responsibilities with relation to their behavioral health treatment as an adult. Some examples include a new consent to treatment and authorizations for sharing protected health information to ensure that the team members can continue as active participants in service planning. A full assessment is not required at the time of transition from child to adult behavioral health services unless an annual update is due or there have been significant changes to the young adult's status that clinically indicate the need to update the Assessment or behavioral health Service Plan.

C. KEY PERSONS FOR COLLABORATION

1. Team Coordination:

   When a young person reaches age 17 it is important to begin establishing team coordination between the child and adult service delivery systems. This coordination must be in place no

later than four-six months prior to the youth turning age 18. In order to meet the individualized needs of the young adult on the day s/he turns 18 a coordinated effort is required to identify the behavioral health provider staff who will be coordinating service delivery, including the services that will be needed and the methods for ensuring payment for those services. This is especially critical if the behavioral health provider responsible for service planning and delivery is expected to change upon the youth's transition at the age of 18.

Orientation of the youth, their family and CFT to potential changes they may experience as part of this transition to the AHCCCS Adult System of Care will help minimize any barriers that may hinder seamless service delivery and support the youth's/family's understanding of their changing roles and responsibilities. It might be helpful to engage the assistance of a liaison (e.g., family and/or peer mentor) from the adult system to act as an ambassador for the incoming young adult and their involved family and/or caregiver.

As noted in AMPM 220, the young adult, in conjunction with other involved family members, caregivers or guardian, may request to retain their current CFT until the youth turns 21. Regardless of when the youth completes their transition into the AHCCCS Adult System of Care, the CFT will play an important role in preparing the Adult Recovery Team (ART) to become active partners in the treatment and service planning processes throughout this transitional period. Collaboration between the child and adult service provider for transition age youth is more

easily facilitated when agencies are dually licensed to provide behavioral health service delivery to both children and adult populations.

2. Family involvement and culture must be considered at all times especially as the youth prepares for adulthood. Although this period in a young person's life is considered a time for establishing their independence through skill acquisition, many families and cultures are interdependent and may also require a supportive framework to prepare them for this transition. With the assistance of joint planning by the child and adult teams, families can be provided with an understanding of the increased responsibilities facing their young adult while reminding them that although their role as legal guardian may change, they still remain an integral part of their child's life as a young adult. It is also likely that the youth's home and living environment may not change when they turn 18 and are legally recognized as an adult.

   During this transitional period, the role that families assume upon their child turning 18 will vary based on:

   a. Individual cultural influences,

   b. The young adult's ability to assume the responsibilities of adulthood,

   c. The young adult's preferences for continued family involvement, and

   d. The needs of parents/caregivers as they adjust to upcoming changes in their level of responsibility.

3. Understanding each family's culture can assist teams in promoting successful transition by:

   a. Informing families of appropriate family support programs available in the AHCCCS Adult System of Care,

   b. Identifying a Family Mentor who is sensitive to their needs to act as a "Liaison" to the AHCCCS Adult System of Care,

   c. Recognizing and acknowledging how their roles and relational patterns affect how they view their child's movement toward independence, and

   d. Addressing the multiple needs of families that may exist as a result of complex relational dynamics or those who may be involved with one or more state agencies.

   Some youth involved with DCS may express a desire to reunite with their family from whose care they were removed. In these situations it is important for the CFT to discuss the potential benefits and challenges the youth may face.

D. SYSTEM PARTNERS

Coordination among all involved system partners promotes collaborative planning and seamless transitions when eligibility requirements and service delivery programs potentially change upon the youth turning 18. Child welfare, juvenile corrections, education, developmental disabilities, and vocational rehabilitation service delivery systems can provide access to resources specific to the young adult's needs within their program guidelines. For example, students in special education services may continue their schooling through the age of 21. Youth in foster care may be eligible for services through a

program referred to as the Arizona Young Adult Program (AYAP) or Independent Living Program (ILP) through the Arizona Department of Child Safety (DCS).

System partners can also assist young adults and their families/caregivers in accessing or preparing necessary documentation, such as:

1. Birth certificates.
2. Social security cards and social security disability benefit applications.
3. Medical records including any eligibility determinations and assessments.
4. Individualized Education Program (IEP) Plans.
5. Certificates of achievement, diplomas, General Education Development transcripts, and application forms for college.
6. Case plans for youth continuing in the foster care system,
7. Treatment plans.
8. Documentation of completion of probation or parole conditions.
9. Guardianship applications.
10. Advance directives.

E. NATURAL SUPPORT

Maintaining or building a support structure will continue to be important as the youth transitions to adulthood and has access to new environments. This is especially relevant for young adults who have no family involvement. For some youth, developing or sustaining social

relationships can be challenging. The child and adult teams can assist by giving consideration to the following areas when planning for transition:

1. Identify what supports will be needed by the young adult to promote social interaction and relationships.
2. Explore venues for socializing opportunities in the community.
3. Determine what is needed to plan time for recreational activities.
4. Identify any special interests the youth may have that could serve as the basis for a social relationship or friendship.

F. PERSONAL CHOICE

Although young adults are free to make their own decisions about treatment, medications, and services, they are generally aware that their relationships, needs, and supports may not feel different following their 18th birthday. They may require assurance that their parents are still welcomed as part of their support system, that they still have a team, rules still apply, and that information will be provided to assist them with making their own treatment decisions. However, some young adults may choose to limit their parent's involvement, so working with youth in the acquisition of self-determination skills will assist them in learning how to speak and advocate on their own behalf. This may involve youth developing their own understanding of personal strengths and challenges along with the supports and services they may need. When planning for transition, teams may also need to provide information to young adults on how the behavioral health service delivery systems operate in accordance with the following:

1. Arizona Vision and 12 Principles for Children's Service Delivery, and
2. Nine Guiding Principles for Recovery Oriented Adult Behavioral Health Services and Systems.

G. CLINICAL AND SERVICE PLANNING CONSIDERATIONS

The Division supports clinical practice and behavioral health service delivery that is individualized, strengths-based, recovery-oriented, and culturally sensitive in meeting the needs of children, adults, and their families. Transitioning youth to adulthood involves a working partnership among team members between the children's behavioral health service system and the AHCCCS Adult System of Care. This partnership is built through respect and equality, and is based on the expectation that all people are capable of positive change, growth, and leading a life of value. Individuals show a more positive response when there is a shared belief and collaborative effort in developing goals and identifying methods (services and supports) to meet their needs.

H. CRISIS AND SAFETY PLANNING

The team is responsible for ensuring that crisis and safety planning is completed prior to the youth's transition as specified in AMPM 220. For some youth, determining potential risk factors related to their ability to make decisions about their own safety may also need to be addressed. Collaboration with the adult case manager and/or ART will ensure that the transitioning young adult is aware of the type of crisis services that will be available through the AHCCCS Adult System of Care and how to access them in their time of need.

I. TRANSITION PLANNING

The length of time necessary for transition planning is relevant to the needs, maturational level, and the youth's ability to acquire the necessary skills to assume the responsibilities of adulthood. When planning for the young person's transition into adulthood and the adult behavioral health system, a transition plan that includes an assessment of self-care and independent living skills, social skills, work and education plans, earning potential, and psychiatric stability must be incorporated into the Service Planning. Living arrangements, financial, and legal considerations are additional areas that require advance planning.

1. Self-care and Independent Living Skills

   As the youth approaches adulthood, the acquisition of daily living skills becomes increasingly important. Personal care and hygiene can include grooming tasks such as showering, shaving (if applicable), dressing, and getting a haircut. Learning phone skills, how to do laundry and shop for clothes, cleaning and maintaining one's personal living environment, use of public transportation or learning how to drive are other suggested areas for transition planning. Acquisition of various health-related skills includes fitness activities such as an exercise program, nutrition education for planning meals, shopping for food, and learning basic cooking techniques. Planning around personal safety would address knowing their own phone number and address, who to contact in case of emergency, and awareness of how to protect themselves when out in the community.

2. Social and Relational Skills

The young adult's successful transition toward self-sufficiency will be supported by their ability to get along with others, choose positive peer relationships, and cultivate sustainable friendships. This will involve learning how to avoid or respond to conflict when it arises and developing an understanding of personal space, boundaries, and intimacy. Some youth may require additional assistance with distinguishing between the different types of interactions that would be appropriate when relating to strangers, friends, acquaintances, boy/girlfriend, family member, or colleague in a work environment. For example, teams may want to provide learning opportunities for youth to practice these discrimination skills in settings where they are most likely to encounter different types of people such as a grocery store, shopping mall, supported employment programs, etc. Planning for youth, who have already disclosed to the behavioral health service provider their self-identity as gay, lesbian, bisexual, or transgender, may include discussions about community supports and pro-social activities available to them for socialization. Adolescents who do not have someone who can role model the differing social skills applicable to friendship, dating, and intimate relationships may need extra support in learning healthy patterns of relating to others relevant to the type of attachment.

3. Vocational/Employment

An important component of transitioning to adulthood includes vocational goals that lead to employment or other types of

meaningful activity. While a job can provide financial support, personal fulfillment, and social opportunities, other activities such as an internship or volunteering in an area of special interest to the young adult can also provide personal satisfaction and an opportunity to engage socially with others. The CFT along with involved system partners work together to prepare the young adult for employment or other vocational endeavors. It is imperative that a representative from the adult behavioral health system be involved in this planning to ensure that employment related goals are addressed before, during, and after the youth's transition to adulthood.

Service planning that addresses the youth's preparation for employment or other meaningful activity can include:

a. Utilizing interest inventories or engaging in vocational assessment activities to identify potential career preferences or volunteer opportunities,

b. Identifying skill deficits and effective strategies to address these deficits,

c. Determining training needs and providing opportunities for learning through practice in real world settings,

d. Learning about school-to-work programs that may be available in the community and eligibility requirements,

e. Developing vocational skills such as building a resume, filling out job applications, interviewing preparation, use of online job sites, etc. and

f. Learning federal and state requirements for filing annual

income tax returns.

Youth involved in school-based work activities (paid or non-paid) are able to “test the waters'' of the work world, develop a work history, better understand their strengths and weaknesses, explore likes and dislikes, and begin to develop employment related skills necessary for their success in competitive work settings. School based work activities can start as early as middle school yet should begin no later than the youth’s freshman year of high school. When youth reach the age of 14 they can be given work experience in the community, whether it is through a volunteer or internship experience. It is best for school and community-based work experience to be short term, so that youth can experience a variety of employment settings and perform different job duties in more than one vocation to assist them in identifying possible career choices. These work-related opportunities will assist teams in determining where the youth excels or struggles in each type of work undertaken, the types of supports that might be needed, and what the best “job match” might be in terms of the youth’s personal interests and skill level.

As youth narrow their career focus, it is useful to tour employment sites, job shadow, and interview employers and employees who work in the youth’s chosen fields of interest. It may be necessary to plan for on-going support after a job has been obtained to assist the young adult in maintaining successful employment. Identifying persons in the job setting who can provide natural support such as supervisors and co-workers, as

well as employer related accommodations may be necessary to ensure that the young adult can continue to perform their job duties.

4. Vocational/Employment Considerations for Youth with Disabilities

For youth who have a disability, regardless of whether they are in Special Education, may be eligible for services through the Arizona Department of Economic Security/Rehabilitation Services Administration (DES/RSA) under a Vocational Rehabilitation (VR) program when transitioning from school to work. The school can refer youth with a disability to the VR program as early as age 14 or at any time thereafter when they are ready to work with VR to address their career plans. Students with disabilities between the ages of 14 and 22 are able to participate in Pre-Employment Transition Services as potentially eligible students, meaning they do not have to be VR clients. Pre-Employment Transition Services are group based, general workshops covering five topic areas that may provide the information a youth needs to begin the career exploration process, develop skills for successful employment and learn about post-secondary education opportunities. Planning for employment is done in conjunction with the youth's VR counselor through the development of an Individual Plan of Employment. Including the VR counselor in the school's IEP planning that might involve VR services is necessary since only VR personnel can make commitments for DES/RSA program services. Refer to DES/RSA for information on the VR process regarding intake/eligibility, planning for employment, services, and program limitations.

5. Education

Collaboration between the CFT and the education system is helpful with preparing youth and their parents/caregivers in developing an understanding of what happens as young adults transition from secondary education to adult life. Asking the youth to share their individualized plans with the rest of the team may provide information to assist with transition planning. Individualized plans could include:

a. Education Career Action Plan (ECAP),

b. 504 Plan,

c. Transition Plan, and

d. Summary of Performance.

6. Individualized Plans

a. Educational Consideration for all Students:

i. Education Career Action Plan - In 2008 the Arizona State Board of Education approved Education and Career Action Plans for all Arizona students in grades 9-12. The ECAP is intended to develop the young adult's individual academic and career goals. An ECAP process portfolio has attributes that should be documented, reviewed, and updated, at a minimum, annually; academic, career, postsecondary, and extracurricular.

b. Education Considerations for Youth with Disabilities:

i. 504 Plan — Section 504 of the Rehabilitation Act of 1973 protects the civil rights of individuals with disabilities in programs and activities that receive federal funds. Recipients of these funds include public school districts, institutions of higher education, and other state and local education agencies. This regulation requires a school district to provide accommodations that can be made by the classroom teacher(s) and other school staff to help students better access the general education curriculum through a 504 Plan that outlines the individualized services and accommodations needed by the student.

ii. Transition Plan - While youth are in secondary education, Individuals with Disabilities Educational Act (IDEA) requires public schools to develop an individualized transition plan for each student with an IEP. The transition plan is the section of the IEP that is put in place no later than the student's 16th birthday. The purpose of the plan is to develop postsecondary goals and provide opportunities that will reasonably enable the student to meet those goals for transitioning to adult life. All of the following components are required as part of the transition plan:

1) Student invitation to all IEP meetings where transition topics are discussed.

2) Age-appropriate transition assessments.

3) Measurable Postsecondary Goals (MPGs) in the areas of:

   a) Education/Training,

   b) Employment, and

   c) Independent living, (if needed).

4) Annually updated MPGs.

5) Instruction and services that align with the student's MPGs:

   a) Coordinated set of transition activities,

   b) Courses of study, and

   c) Annual goals.

6) Outside agency participation with prior consent from the family or student that has reached the age of majority.

   a) Summary of Performance (SOP). The SOP is required under the reauthorization of the IDEA Act of 2004. An SOP is completed for every young adult whose special education eligibility terminates due to graduation from high school with a regular diploma or due to exceeding the age eligibility for FAPE under State law. In Arizona, the student reaches the maximum age of eligibility upon

completing the school year in which the student turns 22. A Public Education Agency must provide the youth with a summary of their academic achievement, functional performance, and recommendations on how to assist in meeting the young adult's postsecondary goals. The SOP must be completed during the final year of a student's high school education.

7. Other Considerations

   a. Transfer of Rights' Requirement for Public Education Agencies. Under Arizona State law, a child reaches the age of majority at 18. The right to make informed educational decisions transfers to the young adult at that time.

      i. According to IDEA, "beginning not later than one year before the child reaches the age of majority under State law, a statement that the child has been informed of the child's rights under this title, if any, that will transfer to the child on reaching the age of majority under section 1415(m)" must be included in the student's IEP. This means that schools must inform all youth with disabilities on or before their 17th birthday that certain rights will automatically transfer to them upon turning age 18, and

      ii. In order to prepare youth with disabilities for their transfer of rights, it is necessary for

parents/caregivers to involve their child in educational decision-making processes early. The CFT or ART, in conjunction with the adult behavioral health provider, should assist the youth/parent/caregiver with this process.

b. A student with a disability between the age of 18 and 22, who has not been declared legally incompetent, and has the ability to give informed consent, may execute a Delegation of Right to Make Educational Decisions. The Delegation of Right allows the student to appoint their parent or agent to make educational decisions on their behalf. The student has the right to terminate the agreement at any time and assume their right to make decisions.

8. Postsecondary Education Considerations

When postsecondary education is the goal for young adults, transition planning may include preparatory work in a number of areas, including, but not limited to, matching the young adult's interests with the right school, connecting the youth to the preferred schools Disability Resource Center if accommodations are needed, assisting with applications for scholarships or other financial aids, etc. The CFT should anticipate and help plan for such needs. If accommodations are needed, connect the youth with the Disability Resource Centers from their preferred postsecondary institutions, and

9. Medical/Physical Healthcare

Planning can include assisting the youth with:

a. Transferring healthcare services from a pediatrician to an adult health care provider, if pertinent,

b. Applying for medical and behavioral health care coverage, including how to select a health plan and a physician,

c. Preparing an application for submission at age 18 to AHCCCS for ongoing Medicaid services,

d. Obtaining personal and family medical history (e.g., copies of immunization records, major illnesses, surgical procedures),

e. Information on advance directives as indicated in the Division Medical Policy 640,

f. Methods for managing healthcare appointments, keeping medical records, following treatment recommendations, and taking medication,

g. How to identify healthcare concerns, address questions during appointments, and consult with doctors regarding diagnosis, treatment, and prognosis, and

h. Assuming responsibility for understanding and managing the symptoms of their mental illness and obtaining knowledge of the benefits, risks, and side effects of their medication.

10. Living Arrangements

Where young adults will live upon turning age 18 could change based on their current housing situation (e.g., living at home

with family, with a relative, in a behavioral health inpatient or residential facility, other out-of-home treatment setting), or whether they decide to choose housing on-site while pursuing their postsecondary education. Youth who do not have the support of their parents or extended family, or who may be under the care and custody of the child welfare system, may require intensive planning to evaluate their ability to live independently, identify the level of community supports needed, and match the type of living environment to their individual personality and preferences. Each situation will require planning that specifically uses the young adult's strengths in meeting their needs and addresses any personal safety concerns.

The most common types of living situations range from living independently in one's own apartment, with or without roommates, to a supported or supervised type of living arrangement. If needed, the team may assist the young adult with completing and filing applications for public housing or other subsidized housing programs. Refer to Arizona 2-1-1 for further information on housing options, state and federally funded programs, and other areas for consideration when addressing housing needs**.**

Youth living in a behavioral health inpatient facility at the time they turn age 18 can continue to receive residential services until the age of 22 if they were admitted to the facility before their 21st birthday and continue to require treatment.

Licensed residential agencies may continue to provide behavioral health services to individuals aged 18 or older if the following

conditions are met as specified in A.A.C. R9-10-318 (B):

a. Person was admitted before their 18th birthday and is completing high school or a high school equivalency diploma, or is participating in a job training program, is not 21 years of age or older, or

b. Through the last day of the month of the person's 18th birthday.

11. Financial

Assessing the financial support needed will include identifying how much money is required to support the young adult's living situation and how s/he will obtain it. This will include determining whether the income from employment will pay the bills or if Social Security Disability programs, food stamps, or other emergency assistance will cover the young adult's financial responsibilities. Depending on the special needs of the young adult, arranging for a conservator or guardian may also be necessary.

Together, the team should review and update any federal and/or state financial forms to reflect the young adult's change in status to ensure there is no disruption in healthcare or financial assistance services. Youth who are eligible for Social Security Income (SSI) benefits as a child will have a disability redetermination during the month preceding the month when they attain age 18. This determination will apply the same rules as those used for adults who are filing new applications for SSI benefits. The team can assist the young adult and their

family/caregiver with identifying any changes related to Social Security benefits, including opportunities for Social Security Work Incentives.

Young adults who learn about financial matters prior to age 18 have a better opportunity to acquire the skills necessary for money management. Skill development can include:

a. Setting up a simple checking and/or savings account to learn how it can be used to pay bills, save money, and keep track of transactions,

b. Identifying weekly/monthly expenses that occur such as food, clothes, school supplies, and leisure activities and determining the monetary amount for each area,

c. Learning how to monitor spending and budget financial resources,

d. Education on how credit cards work and differ from debit cards, including an understanding of finance charges and minimum monthly payments, and

e. Understanding the short and long-term consequences of poor financial planning (e.g., overdrawn account [Non-Sufficient Funds fee], personal credit rating, eligibility for home and/or car loans, potential job loss).

12. Legal Considerations

Transition planning that addresses legal considerations ideally begins when the youth is 17.5 years of age to ensure the young adult has the necessary legal protections upon reaching the age

of majority. This can include the following:

a. Document Preparation

Some families/caregivers may decide to seek legal advice from an attorney who specializes in mental health, special needs and/or disability law in planning for when their child turns 18 if they believe legal protections are necessary. Parents, caregivers, or guardians may choose to draw up a Will or update an existing one to ensure that adequate provisions have been outlined for supporting their child's continuing healthcare and financial stability. Other legal areas for consideration can include:

i. Guardianship,

ii. Conservator,

iii. Special needs trust, and

iv. Advance directives (e.g., living will, powers of attorney).

b. Legal Considerations for Youth with Disabilities

Persons with developmental disabilities, their families and caregivers may benefit from information about different options that are available when an adult with a disability needs the assistance of another person in a legally recognized fashion to help manage facets of their life. Refer to the Arizona Center for Disability Law's Legal Options Manual for access to information and forms. This publication also addresses tribal jurisdiction in relation to

the guardianship process for individuals who live on a reservation. While this resource is focused on planning for individuals with disabilities, teams can utilize this information to gain a basic understanding of the legal rights of individuals as they approach the age of majority.

13. Transportation

A training program, whether a formal or informal one, may be useful in helping the young adult acquire the skills necessary for driving or when using public transportation. Planning can include assisting the youth with test preparation and acquiring a driver's permit. Use of a qualified instructor, family member, or other responsible adult can provide the youth with "behind the wheel" driving experience including how to read maps or manage roadside emergencies. If obtaining a driver's license is not feasible, skill training activities for using public transportation can include reviewing bus schedules, planning routes to get to a designated location on time, and learning how to determine the cost and best method of transportation for getting to and from work or scheduled appointments.

When transitioning to the adult behavioral health system, educate the family and young adult on the transportation options available through the adult service delivery system. This will help support the young adult's continued attendance at behavioral health treatment appointments, as well as assist the team with identifying and planning for other transportation needs that are not necessarily associated with accessing medical or behavioral

health services.

14. Personal Identification

The team can assist the youth with acquiring a State issued identification card in situations where the young adult may not have met the requirements for a driver's license issued by the Arizona Motor Vehicle Division. An identification card is available to all ages (including infants); however, the youth may not possess an Arizona identification card and a valid driver's license at the same time.

15. Mandatory and Voluntary Registrations

Selective Service registration is required for almost all male U.S. and non-U.S. citizens who are 18 through 25 years of age and residing in the United States. Registration can be completed at any U.S. Post Office and a Social Security Number is not needed. When a Social Security Number is obtained after registration is completed, it is the responsibility of the young adult male to inform the Selective Service System.

Upon turning age 18 the young adult can register to vote. Online voter registration is available through Arizona's Office of the Secretary of State.

J. TRAINING AND SUPERVISION RECOMMENDATIONS

1. The practice elements of this policy apply to Division, AdSS, and subcontracted network and provider behavioral health staff who participate in assessment and service planning processes, provider case management and other clinical services, or who

supervise staff that provide service delivery to adolescents, young adults, and their families.

2. The Division shall monitor the AdSS to ensure each AdSS has established a process for ensuring the following:

   a. Staff are trained and understand how to implement the practice elements outlined in this policy;

   b. The AdSS' network and provider agencies are notified of changes in policy and additional training is available if required; and

   c. Upon request from AHCCCS or the Division, the AdSS shall provide documentation demonstrating that all required network and provider staff have been trained on this policy.

3. The Division shall monitor the AdSS for incorporation of this policy into other supervision processes the AdSS and their network and provider agencies have in place for direct care clinical staff, in alignment with A.A.C. R4-6-212, Clinical Supervision Requirements.

K. AdSS OVERSIGHT

The Division shall use, at a minimum, the following methods to ensure the AdSS are in compliance with AdSS Medical Policy 280 and associated policies:

1. Annual Operational Review of compliance with standards for Transition Aged Youth (TAY) and related evidence-based programs, including but not limited to:

a. Policies/procedures to promote, and evidence of, adequate programming for TAY utilizing the Transition to Independence (TIP) Model, or other evidence-based programs for this population.

b. Policies/procedures to track numbers, and evidence of, staff currently trained in TIP evidence-based programs.

c. Policies/procedures to analyze, and evidence of, sufficiency of current First Episode Psychosis (FEP) programming for TAY (aged 18-24).

d. Evidence of the AdSS completing an analysis of the data in Sections J.(1)(a.)(b.)(c.) and any related plans for developing additional FEP programming for TAY.

2. Analyze deliverable reports or other data as required, including but not limited to, Provider Network Development and Management Plans demonstrating network adequacy and plans to promote specialty services described in this policy.

3. Conduct oversight meetings with each AdSS for the purpose of reviewing compliance and addressing any access to care concerns or other quality of care concerns.

4. Review data submitted by the AdSS demonstrating ongoing compliance monitoring of their network and provider agencies through Behavioral Health Clinical Chart Reviews.

300 CHAPTER OVERVIEW

REVISION DATE: 10/1/2021, 5/24/2021, 5/13/2016, 7/3/2015, 9/15/2014
EFFECTIVE DATE: June 30, 1994

The services described in this Chapter are available to members enrolled in Title XIX. This includes Targeted (Title XIX Acute) and Arizona Long Term Care Services (ALTCS) members.

Contracted Health Plans

Members who are eligible for Long Term Care services are required to join one of the Division's contracted health plans, where available. The exception is Native Americans who may choose to enroll in American Indian Health Plan.

The contracted health plan subcontracts with physicians, hospitals, therapists, dentists, laboratories, pharmacies, medical equipment suppliers, and other providers to deliver acute care services to enrolled members.

All services must be delivered or ordered by the Primary Care Provider (PCP), determined to be medically necessary by the health plan and delivered by a contracted provider. The PCP is the member's designated physician who coordinates all aspects of the member's medical care. Members who are eligible for Long Term Care services that fail to follow these procedures and receive services that are not approved/provided by a health plan provider are responsible to pay for these services.

The members who are eligible for Long Term Care services may choose to use their own doctor if the physician is an Arizona Health Care Cost Containment System (AHCCCS) registered provider and is contracted with the health plan. In these instances, the health plan's or the Division's approval is still needed for services covered by Arizona Long Term Care System (ALTCS).

If the member who is long term care eligible is enrolled in a health plan and has a PCP, but also chooses to use another physician who may not be registered with AHCCCS, services provided or ordered by this physician are not covered by the AHCCCS. Services by a physician who is not registered with the AHCCCS can be covered by the health plan if approved by the PCP and the health plan. If approval is not received from the PCP and the health plan, the member will be required to pay for the services personally or through private insurance.

Children's Rehabilitative Services

Members eligible for ALTCS may also be eligible for Children's Rehabilitative Services (CRS). Members eligible for the Division and CRS will receive CRS specialty services and behavioral health services through United Healthcare Community Plan or its successor. These members will continue to receive acute care services through their Division acute health plan.

Extended Care Coverage

Health plans for members who are eligible for Long Term Care are financially responsible for a maximum of 90 days. This financial responsibility includes nursing facility care, and room and board, after hospital discharge. Nursing Facility (NF) care must be in lieu of hospitalization. If the member's place of residence prior to hospitalization was a NF the health plan is not financially responsible for placement. Members requiring nursing facility placement beyond 90 days are the financial responsibility of the Division. Preadmission Screening/Annual Resident Review (PASRR) Level II reviews must occur for each member whose expected stay in the NF will exceed 90 days.

Division staff will work expeditiously with the health plan's discharge planners to place the member in the least restrictive environment as required by state law.

Comprehensive Health Plan

The Comprehensive Health Plan (CHP) is a health care program for Arizona's children who are wards of the court and placed out of home. Eligibility is based on State law. Department of Child Safety (DCS) coordinates services related to CHP.

Member Acute Care Card

Members who are determined eligible for Long Term Care services will receive a membership card from the Division or the Division's contracted acute health plan, and will be enrolled in a contracted acute health plan by the Division or receive services on a fee-for-service basis through the Division.

Health Plan Responsibilities

Each contracted acute health plan is required to send members a health plan member handbook. The handbook explains the services that are covered, how to access these services, and what to do when emergency services are needed. It outlines the member's responsibility to follow procedures. All services must be provided or approved by the primary care provider

An ALTCS member who fails to follow procedures outlined in the member handbook and receives services that are not approved or provided by a health plan contracted physician may be responsible to pay for those services.

The Division may delegate some or all of its responsibility to a health plan for the following non-inclusive health care responsibilities. These services are rendered on behalf of members who are ALTCS members and enrolled with the health plan:

A. Prior authorization of services and procedures as specified by the health plan.

B. Claims processing according to policies and procedures defined by the health plan.

C. Concurrent review, including certification and denial of inpatient hospital stay days, according to health plan procedures.

D. Investigation and resolution of complaints and grievances according to policy and procedure specified by both AHCCCS and the health plan.

E. Provider relations and member services activities.

F. Financial monitoring and reporting as mandated under AHCCCS rules.

G. All other quality assurance and utilization management activities as defined in the Title 42 of the Code of Federal Regulations (http://www.gpoaccess.gov/cfr/), AHCCCS Rules (azahcccs.gov/Regulations/), and the health plan's quality assurance/utilization review procedures.

All such services/responsibilities must be in compliance with AHCCCS/ALTCS Rules and Regulations (azahcccs.gov/Regulations/Arizona).

310-A AUDIOLOGY

EFFECTIVE DATE: March 3, 2017

REFERENCES: 42 CFR 440.110

The Division of Developmental Disabilities (Division) covers medically necessary audiology services to evaluate hearing loss for all members, on an inpatient and outpatient basis. Only an AHCCCS-registered dispensing audiologist or an AHCCCS-registered individual with a valid hearing aid dispensing license may dispense hearing aids. Hearing aids, provided as a part of audiology services, are covered only for members for members age 21 and under who are eligible for AHCCCS.

Audiology services must be provided by an audiologist who is licensed by the Arizona Department of Health Services (ADHS) and who meets the federal requirements specified under Title 42 of the Code of Federal Regulations (42 CFR 440.110). Out-of-state audiologists must meet the federal requirements.

The federal requirements mandate that the audiologist have a master's or doctoral degree in audiology and meet one of the following conditions:

A. Have a certificate of clinical competence in audiology granted by the American Speech-Language-Hearing Association (ASHA), or

B. Have successfully completed a minimum of 350 clock-hours of supervised clinical practicum (or be in the process of accumulating such supervised clinical experience under the supervision of a qualified master's or doctoral-level audiologist), performed at least nine months of supervised full-time audiology services under the supervision of a qualified master or doctoral-level audiologist after obtaining a master's or doctoral degree in audiology or a related field, and successfully completed a national examination in audiology approved by the Secretary of the U.S. Department of Health and Human Services.

310-B TITLE XIX/XXI BEHAVIORAL HEALTH SERVICES

PURPOSE

This policy describes the Division of Developmental Disabilities (Division) responsibilities for providing Title XIX/XXI Behavioral Health Services to Members who are eligible for Arizona Long Term Care System (ALTCS), including additional requirements for Members that have chosen the DDD Tribal Health Program (THP) as their health plan.

DEFINITIONS

1. “Bed Hold” means days in which the facility reserves the Member’s bed, or Member’s space in which they have been

residing, while the member is on an authorized/planned overnight leave from the facility for the purposes of therapeutic leave to enhance psychosocial interaction or as a trial basis for discharge planning as specified the Arizona State Plan under Title XIX of the Social Security Act.

2. "Behavioral Health Paraprofessional" or "BHPP" means an individual who is not a Behavioral Health Professional who provides Behavioral Health Services at or for a Health Care Institution according to the Health Care Institution's policies and procedures that:

   b. If the Behavioral Health Services were provided in a setting other than a licensed Health Care Institution, the individual would be required to be licensed as a behavioral professional under A.R.S, Title 32, Chapter 33; and

   c. Are provided under supervision by a Behavioral Health Professional.

3. "Behavioral Health Professional" or "BHP" means

   b. An individual licensed under A.R.S. Title 32, Chapter 33, whose scope of practice allows the individual to:

i. Independently engage in the practice of behavioral health as defined in A.R.S. §32-3251, or

ii. Except for a licensed substance abuse technician, engage in the practice of behavioral health as defined in A.R.S.§32-3251 under direct supervision as defined in A.A.C. R4-6-101,

c. A psychiatrist as defined in A.R.S. §36-501,

d. A psychologist as defined in A.R.S. §32-2061,

e. A physician,

f. A behavior analyst as defined in A.R.S. §32-2091,

g. A registered nurse practitioner licensed as an adult psychiatric and mental health nurse, or

h. A registered nurse with:

i. A psychiatric-mental health nursing certification, or

ii. One year of experience providing Behavioral Health Services

4. “Behavioral Health Services” means physician or practitioner services, nursing services, health-related services, or ancillary

services provided to an individual to address the individual's behavioral health needs.

5. "Behavioral Health Technician" or "BHT" means an individual who is not a BHP who provides Behavioral Health Services at or for a Health Care Institution according to the Health Care Institution's policies and procedures that:

   b. If the Behavioral Health Services were provided in a setting other than a licensed Health Care Institution, would be required to be licensed as a Behavioral Health Professional under A.R.S. Title 32, Chapter 33, and

   c. Are provided with Clinical Oversight by a BHP.

6. "Clinical Oversight" means monitoring the Behavioral Health Services provided by a Behavioral Health Technician to ensure that the Behavioral Health Technician is providing the Behavioral Health Services according to the Health Care Institution's policies and procedures by:

   a. Providing on-going review of a Behavioral Health Technician's skills and knowledge related to the provision of Behavioral Health Services,

b. Providing guidance to improve a Behavioral Health Technician's skills and knowledge related to the provision of Behavioral Health Services, and

c. Recommending training for a Behavioral Health Technician to improve the Behavioral Health Technician's skills and knowledge related to the provision of Behavioral Health Services.

7. "Clinical Team" means Child and Family Teams and Adult Recovery Teams.

8. "Community Service Agencies" or "CSAs" means an unlicensed provider of non-medical, health related, support services. CSAs provide:

a. Individualized habilitation

b. Developmental learning,

c. Rehabilitation

d. Relearning or readapting,

e. Employment,

f. Advocacy services,

g. Peer support, and

h. Family support.

6. “Family Support Services” means home care training or family support with family member(s) directed toward restoration, enhancement, or maintenance of the family functions in order to increase the family’s ability to effectively interact and care for the individual in the home and community.

7. “Health Care Institution” means every place, institution, building or agency, whether organized for profit or not, that provides facilities with medical services, nursing services, Behavioral Health Services, health screening services, other health-related services, supervisory care services, personal care services or directed care services and includes home health agencies, outdoor behavioral health care programs and hospice service agencies.

8. “Medication Management” means medication management services such as:

   a. Review of medication(s) side effects, and

   b. The adjustment of the type and dosage of prescribed medications.

9. "Member" means the same as "Client" as defined in A.R.S. § 36-551.
10. "Peer-and-Recovery Support" means intentional partnerships based on shared, lived experiences of living with behavioral health and/or substance use disorders to provide social and personal support. This support is coupled with specific, skill-based training, coaching, or assistance to bring about social or personal change at the individual, family, or community level. These services can include a variety of individualized and personal goals, including living preferences, employment or educational goals and development of social networks and interests.
11. "Peer Services" means supports intended for enrolled Members or their families who require greater structure and intensity of services than those available through community-based recovery fellowship groups and who are not yet ready for independent access to community-based recovery groups.
12. "Planning Team" means a defined group of individuals that shall include the member/Responsible Person and with the

member's/Responsible Person's consent, their individual representative, Designated Representative (DR), and any individuals important in the member's life, including but not limited to extended family members, friends, service providers, community resource providers, representatives from religious/spiritual organizations, and agents from other service systems like Department of Child Safety (DCS). The size, scope, and intensity of involvement of the team members are determined by the objectives of the Planning Team to best meet the needs and individual goals of the member.

13. "Room and Board" means the amount paid for food and/or shelter. Medicaid funds can be expended for Room and Board when an individual lives in an institutional setting. Medicaid funds cannot be expended for Room and Board when a Member resides in an Alternative Home and Community Based Service (HCBS) Setting.
14. "Service Plan" means a complete written description of all covered health services and other informal supports which includes individualized goals, Peer-and-Recovery Support, Family

Support Services, care coordination activities and strategies to assist the Member in achieving an improved quality of life.

15. "Vocational Rehabilitation" means a program under Rehabilitation Services Administration (RSA) that provides a variety of services to persons with disabilities, with the goal to prepare for, enter into, or retain employment.

POLICY

A. GENERAL REQUIREMENTS

1. The Division shall ensure medically necessary Title XIX/XXI Behavioral Health Services for Members eligible for ALTCS are covered as a health plan benefit.
2. The Division shall require providers utilize national coding standards including the use of applicable modifier(s) as listed in the AHCCCS Medical Coding Resources webpage and AHCCCS Behavioral Health Services Matrix.
3. The Division shall ensure medically necessary outpatient Behavioral Health Services are covered, regardless of a Member's diagnosis, so long as there are documented behaviors or symptoms that will benefit from Behavioral Health Services.

4. The Division shall ensure that Service Plan services are provided timely and in accordance with requirements included in AHCCCS Medical Policy Manual (AMPM) 320-0.
5. The Division shall ensure that services are not delayed or pended in order to have all team members present for a Service Planning meeting or until all team members are able to sign off on the Service Plan.
6. The Division shall require providers to make available and offer the option of having a Peer Recovery Support Specialist (PRSS) or Family Support Specialist for child or adult members and their families to provide covered services when appropriate.
7. The Division shall ensure policies and procedures are established by the AdSS to ensure Members on any form of Medication Assisted Treatment (MAT) are not excluded from services or admission to any treatment program or facility based upon the use of MAT.
8. The Division shall ensure emergency Behavioral Health Services are being provided, including crisis intervention services, without prior authorization being required.

9. The Division shall require that BHPs provide supervision to BHPPs and BHTs that provide services in the public behavioral health system.
10. The Division shall ensure that the BHPs providing Clinical Oversight of BHTs demonstrate the following key competencies:
    a. Knowledge of the relevant best clinical practices and policies that guide the services being provided,
    b. Knowledge of the policies and principles governing ethical practice,
    c. Ability to develop individualized BHT competency development goals and action steps to accomplish these goals, and
    d. Ability to advise, coach, and directly model behavior to improve interpersonal and service delivery skills.
11. The Division shall ensure that Behavioral Health Services are provided to the Member's family members who consent to receiving these services, regardless of the family member's Title XIX/XXI entitlement status, as long as the Member's Service

Plan reflects that the provision of these services is aimed at accomplishing the Member's Service Plan goals.

12. The Division shall not require that the Member be present when the services are being provided to family members.
13. The Division shall allow as a covered service provided through indirect contact with Members includes:
    a. Email or phone communication, excluding leaving voicemails, specific to a Member's services;
    b. Obtaining collateral information; and
    c. Picking up and delivering medications. Refer to the AHCCCS behavioral health service matrix and AHCCCS medical coding resource webpage for requirements for billing and indirect contacts.
14. The Division shall not cover Room and Board except for inpatient hospitals, Intermediate Care Facilities for individuals with Intellectual Disability (ICF/ID), and nursing facilities.
15. The Division shall ensure the referral process to initiate Behavioral Health Services meets the following requirements:
    a. A referral may be made, but is not required;

b. A Member, guardian, or designated representative may initiate requests;

c. If a provider's service array does not include a service required by a member, the provider shall make a referral to a provider with the member's assigned health plan, who does offer the necessary service; and

d. Comply with the Rules set forth in A.A.C. Title 9, Chapters 10 and 21, as applicable.

16. The Division shall ensure that transportation is provided as referenced in AMPM 310-BB.

17. The Division shall ensure that behavioral health providers are eligible to bill for travel per AMPM 310-B to provide a covered Behavioral Health Service. The Division shall ensure that behavioral health providers are adhering to the following travel limitations:

a. Provider travel mileage may not be billed separately except when it exceeds 25 miles,

b. When a provider is traveling to one destination and returns to the office, the 25 miles is assumed to be included in the round trip, and

c. If a provider is traveling to multiple out-of-office settings, each segment of the trip is assumed to include 25 miles of travel.

18. The Division shall ensure providers do not bill for travel for missed appointments. This includes time spent conducting outreach without successfully finding the Member and for time spent driving to do a home visit and the Member is not home.

B. COVERED BEHAVIORAL HEALTH SERVICES

1. The Division shall ensure the following treatment services are covered under the behavioral health benefit:

a. Assessment, non-court ordered evaluation, and screening services, when provided by individuals who are qualified BHPs or BHTs supervised by BHPs when clinically appropriate as specified in AMPM 320-U.

b. Behavioral health counseling and therapy when provided by individuals who are qualified BHPs or BHTs supervised by BHPs when clinically appropriate, and

c. Psychophysiological therapy and biofeedback when provided by qualified BHPs.

2. The Division shall ensure the following Rehabilitation Services are covered as a health plan benefit:

a. Skills training and development and psychosocial rehabilitation living skills training.

i. Skills training includes teaching independent living, social, and communication skills to Members or their families.

ii. Services may be provided to a Member, a group of individuals or their families with the Member(s) present.

iii. Skills training and development and psychosocial rehabilitation living skills training is provided by individuals who are qualified BHPs or BHTs/BHPPs supervised by BHPs or qualified BHT.

iv. More than one provider agency may bill for skills training and development services provided to a Member at the same time if indicated by the Member's clinical needs as identified in their Service Plan.

b. Cognitive rehabilitation

i. Provided by qualified BHP's to facilitate recovery from cognitive impairments in order to achieve independence or the highest level of functioning possible.

ii. Goals of cognitive rehabilitation include:

1) Relearning of targeted mental abilities,

2) Strengthening of intact functions,

3) Relearning of social interaction skills,

4) Substitution of new skills to replace lost functioning, and

5) Controlling the emotional aspects of one's functioning.

iii. Training is done through exercises or stimulation, cognitive neuropsychology, cognitive psychology and behavioral psychology, or a holistic approach to include social and emotional aspects.

iv. Training is provided one on one and customized to each individual's strengths, skills, and needs.

c. Health promotion

i. Provided to educate and train about health-related topics to an individual or a group of people or their families.

ii. Presented using a standardized curriculum with the purpose of increasing an individual's behavioral knowledge of a health-related topic such as:

1) The nature of an illness,

2) Relapse and symptom management,

3) Medication management,

4) Stress management,

5) Safe sex practices,

6) Human Immunodeficiency Virus (HIV) education,

7) Parenting skills education, and

8) Healthy lifestyles.

iii. DUI health promotion education and training approved by Arizona Department of Health Services (ADHS), Division of Licensing Services (DLS).

iv. More than one provider agency may bill for health promotion provided to a Member at the same time if indicated by the Member's clinical needs as identified in their Service Plan.

d. Pre-Vocational Psychoeducational Services and ongoing support to maintain employment, post-vocational services, or job coaching that are designed to:

i. Assist Members to choose, acquire, and maintain employment or other meaningful community activity as outlined in AMPM 1240-J.

i. Prepare Members to engage in meaningful work-related activities, such as full- or part-time, competitive employment.

ii. Provided individually or in a group setting, but not telephonically and may include, but are not limited to the following:

1) Career or educational counseling;

2) Job training, assistance in the use of educational resources necessary to obtain employment;

3) Attendance to Vocational Rehabilitation Orientations;

4) Attendance to job fairs;

5) Assistance in finding employment, and other training, like resume preparation, job interview skills, study skills, budgeting skills;

6) Professional decorum; and

7) Time management.

iv. Provided only if the services are not available through the federally funded Rehabilitation Act program administered by Arizona Department of Economic Security/Rehabilitation Service Administration (ADES/RSA) DES-RSA, which is required to be the primary payer for Title XIX/XXI eligible individuals. The following services are not TXIX/TXXI covered treatment services:

1) Rehabilitative employment support assessments when available through the federally funded Rehabilitation Act program administered by the Tribal Rehabilitation Services Administration,

2) Preparation of a report of a Member's psychiatric status for primary use with a court.

e. Ongoing support to maintain employment services

i. Post-vocational services, often called job coaching, which enable Members to maintain their current employment.

ii. Utilized when assisting employed Members with services traditionally used as pre-vocational in order to gain skills for promotional employment or alternative employment.

iii. Provided individually or in a group setting, as well as telephonically.

iv. Services may include, but are not limited to, the following:

1) Monitoring and supervision,

2) Assistance in performing job tasks, and

3) Supportive counseling.

f. Pre-vocational services and ongoing support to maintain employment to include the following:

i. Provided using tools, strategies, and materials which meet the Member's support needs;

ii. Services are tailored to support Members in a variety of settings;

iii. Service may be utilized for exploring strengths and interests when a Member is not ready to identify an educational or employment goal;

iv. Provided by individuals who are qualified BHPs or BHTs/BHPPs supervised by BHPs or Qualified BHTs; and

v. Billed by more than one provider agency for services provided to a Member at the same time, if indicated by the Member's clinical needs as identified in their Service Plan.

vi. For Community Service Agencies, see AMPM Policy 965 for further detail on service standards and provider qualifications for this service.

3. The Division shall ensure medical services provided or ordered within the scope of practice by a licensed physician, nurse practitioner, physician assistant, or nurse are covered as a health plan benefit to reduce a Member's symptoms and improve or maintain functioning.

a. For covered medications, the Division shall maintain its own formulary list to meet the unique needs of Members with behavioral health disorders. At a minimum, the Division formulary shall include all of the medications listed on the AHCCCS formulary per AMPM 310-V.

b. Laboratory, radiology, and medical imaging services shall be prescribed by a licensed physician, nurse practitioner, or physician assistant within the scope of their practice for screening, diagnosis or monitoring of a behavioral health condition.

    i. Laboratory services shall be provided in Clinical Laboratory Improvement Act (CLIA) approved hospitals, medical laboratories and other health care facilities that meet state licensure requirements as specified in A.R.S. Title 36, Chapter 4, with the exception of specimen collections in a medical practitioner's office.

c. Medical management services shall be provided within the scope of practice by a licensed physician, nurse

practitioner, physician assistant or nurse to an individual as part of their medical visit for ongoing treatment purposes. Medical management includes:

1) Review of medication(s) side effects, and

2) The adjustment of the type and dosage of prescribed medications.

d. Outpatient Electroconvulsive Therapy (ECT) and outpatient Transcranial Magnetic Stimulation (TMS) performed by a physician within their scope of practice.

4. The Division shall ensure support services are covered as a health plan benefit to facilitate the delivery of or enhance the benefit received from other Behavioral Health Services and are provided by individuals who are qualified BHPs or BHTs/BHPPs supervised by BHPs. Support services are classified into the following subcategories:

a. Provider Case management as specified in AMPM 570.

b. Personal care services which involve the provision of support activities that assist an individual in carrying out daily living activities.

i. May be provided in an unlicensed setting such as a Member's own home or community setting.

ii. Parents including natural parent, adoptive parent and stepparent may be eligible to provide personal care services if the Member receiving services is 21 years or older and the parent is not the Member's legal guardian.

iii. Personal care services provided by a Member's spouse are not covered.

iv. More than one provider agency may bill for personal care services provided to a Member at the same time if indicated by the Member's clinical needs as identified through their Service Plan.

c. Home care training or Family Support Services which are directed toward restoration, enhancement, or maintenance of the family functioning to increase the family's ability to effectively interact and care for the Member in the home and community.

i. Family Support Services involve activities to assist the family to adjust to the Member's illness, developing skills to effectively interact or guide the Member, understanding the causes and treatment of behavioral health issues, and understanding and effectively utilizing the healthcare system.

i. More than one provider agency may bill for family support provided to a Member at the same time if indicated by the Member's clinical needs as identified through their Service Plan.

d. Peer Services which provide intentional partnerships based on shared lived experiences of living with behavioral health or substance use disorders, to provide social and personal support.

e. Therapeutic Foster Care (TFC) for Children as specified in AMPM 320-W and Adult Behavioral Health Therapeutic Home as specified in AMPM 320-X.

f. Unskilled respite care (respite) which provides an interval of rest or relief to a family Member or other individual

caring for the Member receiving Behavioral Health Services and delivered by providers who meet the requirements in A.A.C. R9-10-1025 and A.A.C. R9-10-1600.

i. The availability and use of informal supports and other community resources to meet the caregiver's respite needs shall be evaluated by the Division's Support Coordinator, and Provider Case Manager authorizing the respite services, in addition to formal respite services.

ii. The Service Plan shall identify if respite services will be provided by the behavioral health system or by the Division's Qualified Vendor system.

iii. Respite services are limited to 600 hours per year (October 1 through September 30) per person and are inclusive of both behavioral health and ALTCS respite care.

iv. Respite may include a range of activities to meet the social, emotional, and physical needs of the Member during the respite period. These services may be

provided on a short-term basis, a few hours during the day, or for longer periods of time involving overnight stays.

v. Respite services can be planned or unplanned. If unplanned respite is needed, the Division shall ensure the behavioral health provider assesses the situation with the caregiver and recommends the appropriate setting for respite.

vi. CSAs cannot provide respite services.

vii. Respite services covered as a behavioral health benefit may be provided in a variety of settings including:

1) Habilitation Provider,

2) Outpatient Clinic,

3) Adult Therapeutic Foster Care,

4) Behavioral Health Respite Homes,

5) Behavioral Health Residential Facilities,

6) Member's home, and

7) Community settings.

viii. A Member's Planning Team shall consider the appropriateness of the setting in which the recipient receives respite services:

1) When respite services are provided in a home setting, household routines and preferences shall be respected and maintained when possible.

2) The respite provider shall receive orientation from the family or caregiver regarding the Member's needs and the Service Plan.

3) Respite services, including the goals, setting, frequency, duration, and intensity of the service shall be defined in the Member's Service Plan.

4) Respite services are not a substitute for other covered services.

5) Summer day camps, day care, or other ongoing, structured activity programs are not respite unless they meet the definition or

criteria of respite services and the provider qualifications.

ix. Members who are parents and receive Behavioral Health Services receive necessary respite services for their non-enrolled children as indicated in their Service Plan, and

x. Non-enrolled siblings of a child receiving respite services are not eligible for behavioral health respite benefits.

g. Permanent Supportive Housing (PSH) Support Services which provide flexible housing-based supports targeted towards individuals most at need based upon their health condition, housing status, and current or potential system costs.

i. Scope, frequency, delivery, and setting should be individualized to the Member's need, circumstances, and choice.

ii. Services shall be consistent with PSH evidence-based standard, nationally recognized or identified best practice.

iii. Services shall be voluntary to the Member.

iv. Staff providing these services shall be knowledgeable and provide services consistent with evidence-based practice for PSH models.

5. The Division shall ensure intensive outpatient and behavioral health day programs are covered as a health plan benefit and include the following:

a. Intensive outpatient treatment programs

i. Structured non-residential treatment programs that address mental health and substance use disorders through a combination of individual, group and family counseling and therapy and educational groups but do not require detoxification.

b. Behavioral Health Day Programs

i. Regularly scheduled program of individual, group or family services related to the Member's treatment

plan designed to improve the ability of the person to function in the community and may include the following rehabilitative and support services:

1) Skills training and development,
2) Behavioral health prevention or promotion,
3) Medication training and support,
4) Pre-vocational services and ongoing support to maintain employment,
5) Peer and Recovery Support, and
6) Home care training or Family Support.

ii. May be provided by either ADHS DLS licensed behavioral health agencies or Title XIX certified CSA.

iii. Staff members that deliver specific services within the supervised behavioral health day program shall meet the individual provider qualifications associated with those services.

iv. BHT's shall supervise behavioral health treatment and day programs provided by a CSA.

c. Therapeutic behavioral health day programs

i. Regularly scheduled program of active treatment modalities which may include services such as:

a) Individual, group or family behavioral health counseling and therapy;

b) Skills training and development;

c) Behavioral health prevention or promotion;

d) Medication training and support;

e) Pre-vocational services and ongoing support to maintain employment;

f) Homecare training or family support;

g) Medication monitoring;

h) Case management;

i) Peer and Recovery Support; and

j) Medical monitoring.

ii. Provided by an ADHS licensed behavioral health agency and in accordance with applicable service requirements set forth in A.A.C. Title 9, Chapter 10.

iii. Under the direction of a BHP.

iv. Staff members that deliver specific services within the therapeutic behavioral health day program shall meet the individual provider qualifications associated with those services.

v. Behavioral health day programs cannot be provided on the same day Day Treatment and Training is provided.

d. Community Psychiatric Supportive Treatment Program

i. Provide regularly scheduled program of active treatment modalities, including medical interventions, in a group setting and may include:

1) Individual, group or family behavioral health counseling and therapy;

2) Skills training and development;

3) Behavioral health prevention/promotion;

4) Medication training and support;

5) Ongoing support to maintain employment;

6) Pre-vocational services;

7) Home care training or Family Support,

8) Peer and Recovery Support; and

9) Other nursing services such as medication monitoring, methadone administration, and medical/nursing assessments.

ii. Services are provided by an ADHS licensed behavioral health agency and as specified with applicable service requirements set forth in A.A.C. Title 9, Chapter 10.

iii. Programs shall be under the direction of a licensed physician, nurse practitioner or physician assistant.

iv. Staff members that deliver specific services within the medical behavioral health day program shall meet the individual provider qualifications associated with those services.

6. The Division shall ensure Behavioral Health Residential Facility Services are covered as a health plan benefit as specified in AMPM 320-V.

7. The Division shall ensure Behavior Analysis services are covered as a health plan benefit as specified in AMPM 320-S.

8. The Division shall ensure timely follow up and care coordination for Members after receiving crisis services as specified in AMPM 590.

10. The Division shall ensure Inpatient Services provided by ADHS licensed inpatient facilities are covered in accordance with A.A.C. R9-10-300 which provides a structured treatment setting with 24-hour supervision and an intensive treatment program, including medical support services and are further classified into the following subcategories:

    a. Hospital services that provide continuous treatment with 24-hour nursing supervision and physicians on site and on call that includes:

        i. General psychiatric care,

        ii. Medical detoxification,

        iii. Forensic services in a general hospital,

        iv. A general hospital with a distinct psychiatric unit, or

        iv. A freestanding psychiatric facility.

            1) General and freestanding hospitals that provide services to Members if the hospital:

a) Meets the requirements of 42 CFR 440.10 and CFR Title 42, Chapter IV, Subchapter G, Part 482.

b) Is licensed pursuant to A.R.S. Title 36, Chapter 4 and A.A.C. Title 9, Chapter 10.

2) Prior authorization is required for Bed Hold or Therapeutic Leave.

a) For Members age 21 and older, therapeutic leave may not exceed nine days, and Bed Hold days may not exceed 12 days, per contract year; and

b) For Members under 21 years of age, total therapeutic leave or Bed Hold days may not exceed 21 days per contract year.

b. Behavioral Health Inpatient Facilities (BHIF) which provide continuous treatment to a person who is experiencing acute and significant behavioral health symptoms. BHIFs may provide observation or stabilization services and child and adolescent residential treatment services, in addition

to other behavioral health or physical health services, as identified under their licensure capacity.

i. Observation or Stabilization Services

1) Services in addition to 24-hour nursing supervision and physicians on site or on call, include:

a) Emergency reception,

b) Screening,

c) Assessment,

d) Crisis intervention and stabilization,

e) Counseling, and

f) Referral to appropriate level of services or care. Refer A.A.C. R9-10- 1016 on facility-based crisis intervention services for more information.

2) Observation or stabilization services, within a BHIF, shall be provided according to the requirements in A.A.C. R9-10-1012 for outpatient treatment centers.

3) Facilities shall meet the requirements for reporting and monitoring the use of Seclusion and Restraint (S&R) as set forth in Arizona Administrative Code. The use of S&R Seclusion and Restraint shall only be used to the extent permitted by and in compliance with A.A.C. R9-21-204 and A.A.C. R9-10-316. For additional information and requirements regarding reporting and monitoring of seclusion and restraint, refer to AMPM 962.

ii. Partial Hospitalization programs (PHP) Include intensive therapeutic treatment and must be targeted to meet the goals of alleviating impairments and maintaining or improving functioning to prevent relapse or hospitalization.

1) May include the following rehabilitative and support services:

a) Individual therapy,

b) Group and family therapy, and

c) Medication management

2) PHP service shall be provided by an appropriately licensed ADHS DLS Outpatient Treatment Center.

3) Staff who deliver the specific services shall meet the individual provider qualifications.

iii. Residential treatment services shall be accredited and shall meet the requirements for seclusion and restraint specified set forth in 9 A.A.C. R9-10-316 and in accordance with 42 CFR 441 and 42 CFR 483 if the facility has been authorized by ADHS DLS to provide seclusion and restraint.

1) Child and adolescent residential treatment services shall be provided by a BHIF to an individual who is under 18 years of age or under 21 years of age and meets the criteria in A.A.C. R9-10-318.

C. DIVISION OVERSIGHT

1. The Division shall oversee the AdSS utilizing the following methods to ensure compliance with policy:
   a. Annual Operational Review of each AdSS,
   b. Review and analyze deliverable reports submitted by the AdSS, and
   c. Conduct oversight meetings with the AdSS for the purpose of:
      i. Reviewing compliance,
      ii. Addressing concerns with access to care or other quality of care concerns,
      iii. Discussing systemic issues, and
      iv. Providing direction or support to the AdSS as necessary.

SUPPLEMENTAL INFORMATION

Provider Travel

Provider travel is the cost associated with certain provider types traveling to provide a covered Behavioral Health Services. This is different than transportation, which is provided to take a Member to and from a covered Behavioral Health Services. Certain behavioral health professionals are eligible to bill for provider travel services as outlined below.

The mileage cost of the first 25 miles of provider travel is included in the rate calculated for each service, therefore, provider travel mileage may not be billed separately except when it exceeds 25 miles. In these circumstances providers bill the additional miles traveled in excess of 25 miles using the HCPCS code A0160. When a provider is traveling to one destination and returns to the office, the 25 miles is assumed to be included in the round trip. If a provider is traveling to multiple out-of-office settings, each segment of the trip is assumed to include 25 miles of travel.

- If Provider A travels a total of 15 miles (to the out-of-office setting in which the service is delivered and back to the provider's office), travel

time and mileage is included in the rate and may not be billed separately.

- If Provider B travels a total of 40 miles (to the out-of-office setting in which the service is delivered and back to the provider's office), the first 25 miles of provider travel are included in the rate but the provider may bill 15 miles using the provider code A0160 (40 miles minus 25 miles).
- If Provider C travels to multiple out-of-office settings (in succession), he/she shall calculate provider travel mileage by segment. For example:

  First segment = 15 miles, 0 travel miles are billed,

  Second segment = 35 miles, 10 travel miles are billed,

  Third segment = 30 miles, 5 travel miles are billed, and iv. Total travel miles billed = 15 miles are billed using provider code A0160. The provider may bill for travel miles in excess of 25 miles for the return trip to the provider office.

Provider Travel Limitations

If a BHP, BHT or BHPP travels to provide case management services, or provider type 85, 86, 87 or A4 travels to provide services to a client, and the client misses the appointment, the intended service may not be billed. Additionally, providers may not bill for travel for missed appointments. This applies for time spent conducting outreach without successfully finding the Member and for time spent driving to do a home visit and the Member is not home.

Skills Training

Examples of areas that may be addressed include self-care, household management, relationships, avoidance of exploitation, budgeting, recreation, development of social support networks, and use of individuals or their families with the Member(s) present.

Psychoeducational Services (pre-vocational services)

Psychoeducational Services are pre-vocational services that prepare Members to engage in meaningful work-related activities, such as full- or part-time, competitive employment. Such activities may include, but are not limited to, the following: career/educational counseling, job training,

assistance in the use of educational resources necessary to obtain employment, attendance to RSA Vocational Rehabilitation Orientations, attendance to job fairs, assistance in finding employment, and other training, like resume preparation, job interview skills, study skills, budgeting skills (when it pertains to employment), professional decorum, and time management.

Ongoing Support to Maintain Employment Services

Services may include, but are not limited to, the following: monitoring and supervision, assistance in performing job tasks, and supportive counseling. Ongoing Support to Maintain Employment can also be used.

Pre-vocational Services and Ongoing Support to Maintain Employment

While the goal may be for Members to achieve full-time employment in a competitive, integrated work environment, having other employment goals may be necessary prior to reaching that level.

Provider Case Management (provider level)

A supportive service provided to improve treatment outcomes. Examples of case management activities to meet Member's Service Plan goals include:

- Attendance and participation as a team Member in the Division's planning process including implementing the Planning Document/Service Plan,
- Assistance in maintaining, monitoring, and modifying Behavioral Health Services,
- Assistance in finding necessary resources other than Behavioral Health Services,
- Coordination of care as identified with the Planning Team, with the Member's healthcare providers, family, community resources, and other involved supports including educational, social, judicial, community and other State agencies,
- If needed, and as identified by the Planning Team, coordination of care activities related to continuity of care between levels of care (e.g., inpatient to outpatient care) and across multiple services (e.g., personal assistant, nursing services, and family counseling),

- Assisting Members in applying for Social Security benefits when using the SSI/SSDI Outreach, Access, and Recovery (SOAR) approach. SOAR activities may include:
    - Face-to-face meetings with Member,
    - Phone contact with Member, and
    - Face-to-face and phone contact with records and data sources (e.g., jail staff, hospitals, treatment providers, schools, Disability Determination Services, Social Security Administration, physicians).
- For provider case management used to facilitate a CFT, the modifier U1 is required and the claim must be submitted to the health plan the Member is enrolled with.
- SOAR services shall only be provided by staff who have been certified in SOAR through SAMHSA SOAR Technical Assistance Center. Additionally, when using the SOAR approach, billable activities do not include:
    - Completion of SOAR paperwork without Member present,
    - Copying or faxing paperwork,

- Assisting Members with applying for benefits without using the SOAR approach, and
- Email

For provider case management utilized when assisting Members in applying for Social Security benefits (using the SOAR approach) the modifier HK is required. Billing T1016 with an HK modifier indicates the specific usage of the SOAR approach and it cannot be used for any other service. Claims must be submitted to the health plan the Member is enrolled with.

Outreach and follow-up of crisis contacts and missed appointments, and Participation in staffing, case conferences, or other meetings with or without the Member or their family participating.

Case Management Limitations

Billing for case management is limited to providers who are directly involved with providing services to the Member.

Provider Case management services provided by licensed inpatient, behavioral health residential facility or day program providers are included in

the rate for these settings and cannot be billed separately; however, providers other than the inpatient, behavioral health residential facility or day program can bill case management services provided to the Member, iii. A single practitioner may not bill case management simultaneously with any other service.

For assessments, the provider may bill all time spent in direct or indirect contact (e.g., indirect contact may include email or phone communication specific to a Member's services) with the Member and other involved parties involved in implementing the Member's Treatment/Service Plan.

More than one provider agency may bill for case management at the same time, if it is clinically necessary and documented within the Member's Treatment/Service Plan. More than one individual within the same agency may bill for case management at the same time, if it is clinically necessary and documented within the Member's Treatment/Service Plan.

When a provider is picking up and dropping off medications for more than one Member, the provider shall divide the time spent and bill the appropriate case management code for each involved Member.

Peer and Recovery Support

Assists Members with accessing services and community supports, partnering with professionals, overcoming service barriers, and/or understanding and coping with the stressors of the Member's behavioral health condition. These services are aimed at assisting in the creation of skills to promote long-term sustainable recovery. This support is coupled with specific, skill-based training, coaching, or assistance to bring about social or personal change at the individual, family or community level. Peer and Recovery Support is intended for enrolled members and their families who require greater structure and intensity of services than those available through informal community-based support groups (e.g., 12-Step Programs, SMART Recovery).

310-C BREAST RECONSTRUCTION AFTER MASTECTOMY

EFFECTIVE DATE: October 26, 2022
REFERENCES: 42 U.S. Code § 300gg-52, A.A.C. R9-22-205, AMPM Policy 820

PURPOSE

This policy describes covered breast reconstruction surgery services following a mastectomy for DDD members who are eligible for ALTCS.

DEFINITIONS

1. "Contralateral" means relating to or denoting the side of the body opposite to that on which a particular structure or condition occurs.

POLICY

A. COVERED SERVICES

1. The Division shall cover breast reconstructive surgery post-mastectomy per 42 U.S. Code § 300gg-52.
2. The Division shall cover reconstructive breast surgery of the unaffected contralateral breast following mastectomy if required to achieve relative symmetry with the reconstructed affected breast.

3. The Division shall cover breast reconstruction surgery either immediately following the mastectomy or after the breast reconstruction, based on the choice of the member.
4. The Division shall cover medically necessary breast implant removal when the original implant was the result of a medically necessary mastectomy.
5. The Division shall cover an external prosthesis, including a surgical brassiere, for DDD Long Term Care members who choose not to have breast reconstruction post-mastectomy, or who choose to delay breast reconstruction until a later time.
6. The Division shall require Prior Authorization (PA) from the AHCCCS Division of Fee-For-Service Management to be obtained for breast reconstruction surgery provided to Tribal Health Program members.

B. LIMITATIONS

1. The Division shall not cover services provided solely for cosmetic purposes, per A.A.C. R9-22-205. If a member has had a breast implant procedure for cosmetic purposes, (i.e., augmentation),

not related to a mastectomy, medically necessary removal of the implant is covered, but implant replacement is not covered.

310-D1 EMERGENCY DENTAL SERVICES FOR MEMBERS 21 YEARS OF AGE AND OLDER

EFFECTIVE DATE: July 19, 2023
REFERENCES: A.R.S. § 32-1207 and 32-1231; AMPM 310-D1

PURPOSE

This policy establishes requirements for the provision of medically necessary dental services for Members of the Division of Developmental Disabilities (Division) who are age 21 and older.

DEFINITIONS

1. "Dental Emergency" means an acute disorder of oral health resulting in severe pain or infection due to pathology or trauma.
2. "Dental Provider" means an individual licensed under A.R.S. Title 32, Chapter 11, whose scope of practice allows the individual to:
    a. Independently engage in the practice of dentistry as defined in A.R.S. §32-1202,
    b. A dentist as defined in A.R.S. §32-1201,
    c. A dental therapist as defined in A.R.S. §32-1201,
    d. A dental hygienist as defined in A.R.S. §32-1201,

e. An affiliated practice dental hygienist as defined in A.R.S. §32-1201.

3. "Informed Consent" means a process by which the provider advises the Responsible Person of the diagnosis, proposed treatment and alternate treatment methods with associated risks and benefits of each, as well as the associated risks and benefits of not receiving treatment.

4. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

5. "Physician Service" means medical assessment, treatments, and surgical services provided by licensed allopathic or osteopathic physicians within the scope of practice.

6. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability, or an adult with a developmental disability who is a member or an applicant for whom no guardian has been appointed.

7. "Simple Restoration" means silver amalgam or composite resin fillings, stainless steel crowns or preformed crowns.

POLICY

A. GENERAL COVERED DENTAL SERVICES

1. The Division shall require the following dental services are covered and provided by a licensed Dental Provider for Members who are 21 years of age or older:
    a. Emergency dental services up to $1,000 per Member per contract year (October 1st to September 30th) as specified in A.R.S. § 36-2907.
    b. Medical and surgical services furnished by a Dental Provider when:
        i. The services may be performed under state law either by a physician or by a Dental Provider, and
        ii. The services would be considered a Physician Service if furnished by a physician.
2. The Division shall ensure emergency services relate to treatment of the following medical conditions:
    a. Acute pain,
    b. Infection, or
    c. Fracture of the jaw.

3. The Division shall ensure the following emergency services, which are not subject to the $1,000 adult emergency dental limit, are covered:
   a. Limited problem focused examination of the oral cavity,
   b. Required radiographs,
   c. Complex oral surgical procedures such as treatment of maxillofacial fractures,
   d. Administration of an appropriate anesthesia, and
   e. Prescription of pain medication and antibiotics.
4. The Division shall not cover the diagnosis and treatment of Temporomandibular Joint Dysfunction (TMJ) except for reduction of trauma. This item is not subject to the $1,000 adult emergency dental limit.
5. The Division shall ensure the following limited dental services, which are not subject to the $1,000 adult emergency dental limit, are covered for Members needing medically necessary dental services as a prerequisite to Division-covered organ or tissue transplantation:

a. Elimination of oral infections and the treatment of oral disease, which include:

i. Dental cleanings,

ii. Treatment of periodontal disease,

iii. Medically necessary extractions, and

iv. Provision of Simple Restorations.

6. The Division shall ensure services outlined in subsection (5) of this section are covered only after a transplant evaluation determines that the Member is an appropriate candidate for organ or tissue transplantation.

7. The Division shall ensure prophylactic extraction of teeth are covered in preparation for radiation treatment of cancer of the jaw, neck or head. This item is not subject to the $1,000 adult emergency dental limit.

8. The Division shall ensure cleanings for Members who are in an inpatient hospital setting and experiencing the following are covered:

a. Placed on a ventilator, or

b. Physically unable to perform oral hygiene.

B. EMERGENCY DENTAL SERVICES COVERAGE FOR PERSONS AGE 21 AND OLDER

1. The Division shall ensure medically necessary emergency dental care and extractions are covered for persons aged 21 years and older who meet the criteria for a Dental Emergency.
2. The Division shall ensure the following services and procedures are covered as emergency dental services:
    a. Emergency oral diagnostic examination;
    b. Radiographs and laboratory services, limited to the symptomatic teeth;
    c. Composite resin due to recent tooth fracture for anterior teeth;
    d. Prefabricated crowns, to eliminate pain due to recent tooth fracture only;
    e. Recementation of clinically sound inlays, onlays, crowns, and fixed bridges;
    f. Pulp cap, direct or indirect plus filling;
    g. Root canals and vital pulpotomies when indicated for the treatment of acute infection or to eliminate pain;

h. Apicoectomy performed as a separate procedure, for treatment of acute infection or to eliminate pain, with favorable prognosis;

i. Immediate and palliative procedures, including extractions if medically necessary, for relief of pain associated with an oral or maxillofacial condition;

j. Tooth reimplantation of accidentally avulsed or displaced anterior tooth, with favorable prognosis;

k. Temporary restoration which provides palliative/sedative care limited to the tooth receiving emergency treatment;

l. Initial treatment for acute infection, including:

   i. Periapical and periodontal infections, and

   ii. Abscesses by appropriate methods.

m. Preoperative procedures and anesthesia appropriate for optimal patient management; and

n. Cast crowns limited to the restoration of root canal treated teeth only.

3. The Division shall ensure follow-up procedures needed to stabilize teeth due the emergency services are covered, and subject to the $1,000 limit.

C. ADULT EMERGENCY DENTAL SERVICES LIMITATIONS FOR PERSONS AGE 21 YEARS AND OLDER

1. The Division shall not cover the following adult dental services:
    a. Maxillofacial dental services provided by a Dental Provider, except to the extent prescribed for the reduction of trauma, including reconstruction of regions of the maxilla and mandible;
    b. Diagnosis and treatment of temporomandibular joint dysfunction, except for the reduction of trauma;
    c. Routine restorative procedures and routine root canal therapy;
    d. Treatment for the prevention of pulpal death and imminent tooth loss, except for:
        1. Non-cast fillings,
        2. Crowns constructed from pre-formed stainless steel,
        3. Pulp caps, and

4. Root canals and vital pulpotomies when indicated for the treatment of acute infection or to eliminate pain.

e. Fixed bridgework to replace missing teeth; and

f. Dentures.

D. DIVISION AND FFS PROGRAM RESPONSIBILITIES

1. The Division shall require the AdSS to provide the following:

a. Coordination of covered dental services for enrolled Division Members;

b. Documentation of current valid contracts with Dental Providers who practice within the AdSS service area(s);

c. Primary care provider to initiate Member referrals to Dental Provider(s) when the Member is determined to need emergency dental services, or Members may self-refer to a Dental Provider when in need of emergency dental services;

d. Monitoring of the provision of dental services and reporting of encounter data to the Division; and

e. Assurance that copies of adult emergency dental policies and procedures have been provided to contracted Dental Provider(s).

2. The Division shall ensure the annual $1,000 adult emergency dental limit is Member specific and remains with the Member if the Member transfers between AdSS's or between Fee-For-Service (FFS) and an AdSS.
3. The Division shall ensure dental services provided to American Indian/Alaska Native Members within an IHS/638 Tribal facility are not subject to the $1,000 adult emergency dental limit.
4. The Division shall require the AdSS or Tribal Case Manager transferring the Member notifies the accepting entity regarding the current balance of the dental benefit.
5. The Division shall require the relinquishing AdSS to use the ALTCS Enrollment Transition Information (ETI) (DDD-1541A) and Division Medical Policy 520 for reporting dental benefit balance to the receiving AdSS that meet the following requirements:
   a. All services are subject to retrospective review to determine whether they satisfy the criteria for a Dental

Emergency. Services determined to not meet the criteria for a Dental Emergency are subject to recoupment;.

b. The Member is not permitted to carry-over unused benefit from one year to the next; and

c. A year begins on October 1st and ends September 30th.

6. The Division shall not require prior authorization for emergency dental services for Members enrolled with either FFS or Managed Care.

E. NOTIFICATION REQUIREMENTS FOR CHARGES TO MEMBERS

1. The Division shall ensure emergency dental services of $1,000 per contract year for Members age 21 years and older are covered. Billing of Division Members for emergency dental services in excess of the $1,000 annual limit is permitted only when the provider meets the requirements of A.A.C R9-22-702 for acute Members, and A.A.C. R9-28-701.10 for ALTCS Members.

2. The Division shall ensure providers who bill Members for emergency dental services exceeding the $1,000 limit conduct the following:

a. The provider must first inform the Member or Responsible Person in a way they understand, that the requested dental service exceeds the $1,000 limit and is not covered by the Division;

b. The provider must furnish the Member or Responsible Person with a document to be signed in advance of the service stating that the Member understands that the dental service will not be fully paid by the Division;

c. The document shall contain information describing the type of service to be provided and the charge for the service;

d. The Member agrees to pay for the amount exceeding the $1,000 emergency dental services limit, as well as services not covered by the Division; and

e. The Member must sign the document before receiving the service in order for the provider to bill the Member.

F. FACILITY AND ANESTHESIA CHARGES

1. The Division shall ensure facility and anesthesia charges are subject to the $1,000 emergency dental limit when:

a. A Member has an underlying condition which necessitates that services provided under the emergency dental benefit be provided in:

i. An ambulatory service center, or

ii. An outpatient hospital.

b. Anesthesia is required as part of the emergency service.

2. The Division shall require Dental Providers performing General Anesthesia (GA) on Members shall bill using dental codes and the cost will count towards the $1,000 emergency dental limit.

3. The Division shall require Physicians performing GA on Members for a dental procedure shall bill medical codes and the cost shall count towards the $1,000 emergency dental limit.

G. INFORMED CONSENT

1. The Division shall require providers to complete the appropriate Informed Consents and treatment plans for Members, in order to provide quality and consistent care.

2. The Division shall require Informed Consents for oral health treatment include the following:

a. A written consent for examination or any treatment measure, which does not include an irreversible procedure;

b. The consent is completed at the time of initial examination and is updated at each subsequent six-month follow-up appointment;

c. A separate written consent is completed for:

   i. Any irreversible procedures,

   ii. Invasive procedures,

   iii. Dental fillings, or

   iv. Pulpotomies.

d. Consent is used in a manner that protects the Member and is easily understood by the:

   i. Member,

   ii. Guardian, or

   iii. Designated representative.

e. A written treatment plan must be reviewed and signed by a Responsible Person with the Member;

f. Consents and treatment plans must be:

   i. In writing, and

ii. Signed and dated by both the provider and the Member, or Responsible Person, if:

1) The Member is under 18 years of age, or

2) The Member is 18 years of age or older and considered an incapacitated adult as specified in A.R.S. §14-5101.

g. The Responsible Person receives a copy of the complete treatment plan.

h. Extends to all Contractor mobile unit providers.

3. The Division shall require completed consents and treatment plans be maintained in the Members chart and are subject to audit.

310-D2 ARIZONA LONG TERM CARE SYSTEM ADULT ROUTINE DENTAL SERVICES

EFFECTIVE DATE: July 19, 2023
REFERENCES: AMPM 310-D2

PURPOSE

This Policy establishes requirements regarding the provision of medically necessary dental services for members in the Arizona Long Term Care Program (ALTCS).

DEFINITIONS

1. "Dental Provider" means an individual licensed under A.R.S. Title 32, Chapter 11, whose scope of practice allows the individual to:
    a. Independently engage in the practice of dentistry as defined in A.R.S. §32-1202,
    b. A dentist as defined in A.R.S. §32-1201,
    c. A dental therapist as defined in A.R.S. §32-1201,
    d. A dental hygienist as defined in A.R.S. §32-1201,
    e. An affiliated practice dental hygienist as defined in A.R.S. §32-1201.

2. "Informed Consent" means a process by which the provider advises the Responsible Person of the diagnosis, proposed treatment and alternate treatment methods with associated risks and benefits of each, as well as the associated risks and benefits of not receiving treatment.
3. "Member" means the same as "Client" as defined in A.R.S. § 36-551.
4. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a member or an applicant for whom no guardian has been appointed.

POLICY

A. GENERAL REQUIREMENTS

1. The Division shall ensure the following medically necessary dental benefits are covered up to $1,000 per member per contract year for ALTCS members age 21 or older in accordance with A.R.S. § 36-2939:

a. Diagnostic care,

b. Therapeutic care, and

c. Preventative care, including dentures.

2. The Division shall refer to AMPM 430 for dental services for Members under the age of 21.

3. The Division shall require emergent services for Members are covered as specified in AMPM 310-D1. These services do not count towards the ALTCS $1,000 limit.

B. DIVISION OVERSIGHT

1. The Division shall ensure the following is provided:

a. Coordination of covered dental services for enrolled members;

b. Documentation of current valid contracts with dentists who practice within the AdSS service area(s);

c. Monitoring of the provision of dental services and reporting of encounter data to the Division; and

d. Assurance that copies of dental policies and procedures have been provided to contracted dentist(s).

2. The Division shall require primary care providers initiate member referrals to dentist(s) when the member is determined to be in need of dental services. Members may also self-refer to a dentist when in need of dental services.
3. The Division shall ensure the annual dental benefit limit remains with the Member is the Member transfers to the following:
    a. Between one AdSS to another, or
    b. Between Fee-For-Service and an AdSS.
4. The Division shall require the transferring AdSS notifies the receiving AdSS regarding the current balance of the Member's dental benefit.
5. The Division shall ensure the AdSS utilizes the ALTCS Enrollment Transition Information (ETI) form, AMPM Policy 1620, Exhibit 1620-9, must be utilized for reporting any dental benefit balance.
6. The Division shall ensure dental services provided to American Indian/Alaska Native members within an Indian Health Service (IHS) or 638 Tribal Facility are also not subject to the ALTCS dental benefit $1,000 limit.

7. The Division shall require the Member is aware they are not permitted to carry-over unused benefit from one contract year to the next.
8. The Division shall refer to the Dental Uniform Prior Authorization List as listed on the AHCCCS website under Resources: Guides-Manuals-Policies to ensure frequency limitations and services that require prior authorization are met as specified in AMPM 431.

C. FACILITY AND ANESTHESIA CHARGES

1. The Division shall ensure facility and anesthesia charges are subject to the $1,000 emergency dental limit when:
   a. A member may have an underlying medical condition which necessitates that services provided under the dental benefit be provided in an ambulatory surgery service center or an outpatient hospital, and
   b. Anesthesia is required as part of the routine service.
2. The Division shall require dentists performing General Anesthesia (GA) on members shall bill using dental codes and the cost will count towards the $1,000 limit.

D. INFORMED CONSENT

1. The Division shall require providers complete the appropriate informed consents and treatment plans for Members, in order to provide quality and consistent care.
2. The Division shall require informed consents for oral health treatment include the following:
    a. A written consent for examination or any treatment measure, which does not include an irreversible procedure,
    b. The consent is completed at the time of initial examination and is updated at each subsequent six-month follow-up appointment,
    c. A separate written consent is completed for:
        i. Irreversible procedures,
        ii. Invasive procedures,
        iii. Dental fillings, or
        iv. Root canals and vital pulpotomies when indicated for the treatment of acute infection or to eliminate pain.
    d. Consent is used in a manner that protects the Member and is easily understood by the:

i. Member,

ii. Guardian, or

iii. Responsible Person.

e. A written treatment plan must be reviewed and signed by the Responsible Person with the Member,

f. Consents and treatment plans must be:

i. In writing, and

ii. Signed and dated by both the provider and the Member, or Responsible Person, if:

1) The Member is under 18 years of age; or

2) The Member is 18 years of age or older and considered an incapacitated adult as specified in A.R.S. §14-5101.

g. The Responsible Person receives a copy of the complete treatment plan.

3. The Division shall require completed consents and treatment plans are maintained in the Members chart and are subject to audit.

E. NOTIFICATION REQUIREMENTS FOR CHARGES TO MEMBERS

1. The Division shall ensure medically necessary services are provided within the $1,000 dental benefit allowable amount.
2. The Division shall ensure services are provided as set forth in A.A.C. R9-28-701(10) and R9-22-702, when medically necessary services are greater than $1,000.
3. The Division shall require the following notification when the provider informs the Member that the dental service requested is not covered and exceeds the $1,000 limit:
    a. Verbally,
    b. In writing, and
    c. In the member's primary language.
4. The Division shall require the following if the Member agrees to pursue the receipt of services:
    a. The provider shall supply the member a document describing the service and the anticipated cost of the service, and
    b. Prior to service delivery, the Member must sign and date a document indicating that they understand that they will be

responsible for the cost of the service to the extent that it exceeds the ALTCS $1,000 limit.

Signature of Chief Medical Officer: Anthony Dekker (Jul 11, 2023 16:25 PDT)

Anthony Dekker, D.O.

310–E DIALYSIS

EFFECTIVE DATE: March 3, 2017

The Division of Developmental Disabilities (Division) covers hemodialysis and peritoneal dialysis are covered services when provided by participating hospitals and End Stage Renal Disease facilities. All services, supplies, diagnostic testing (including routine medically necessary laboratory tests), and drugs medically necessary for the dialysis treatment are covered.

A. Medically necessary outpatient dialysis treatments are covered. Inpatient dialysis treatments are covered when the hospitalization is for the following:

   1. Acute medical condition requiring dialysis treatments (hospitalization related to dialysis)

   2. Division-covered medical condition requiring inpatient hospitalization experienced by a member routinely maintained on an outpatient chronic dialysis program

   3. Placement, replacement, or repair of the chronic dialysis route.

B. Hospital admissions solely to provide chronic dialysis are not covered.

C. Hemoperfusion is covered when medically necessary.

310-H HEALTH RISK ASSESSMENT AND SCREENING TESTS

EFFECTIVE DATE: MAY 13, 2016

A. The Division covers health risk assessment and screening tests provided by a physician, primary care provider or other licensed practitioner within the scope of his/her practice under State law for all members.

B. These services include appropriate clinical heath risk assessments and screening tests, immunizations, and health education, as appropriate for age, history and current health status. Health risk assessment and screening tests are also covered for members under the Early and Periodic Screening, Diagnosis and Treatment Program.

C. Preventive health risk assessment and screening test services are covered for adults, except when the adult member is hospitalized. Services include, but are not limited to:

1. Hypertension screening (annually).

2. Cholesterol screening (once, additional tests based on history).

3. Routine mammography annually after age 40 and at any age if considered medically necessary.

4. Cervical cytology, including pap smears (annually for sexually active women; after three successive normal exams the test may be less frequent).

5. Colon cancer screening (digital rectal exam and stool blood test, annually after age 50, as well as baseline colonoscopy after age 50).

6. Sexually transmitted disease screenings (at least once during pregnancy, other based on history).

7. Tuberculosis screening (once, with additional testing based on history, or, for members residing in a facility, as necessary per health care institution licensing requirement).

8. HIV screening.

9. Immunizations (See AHCCCS Policy AMPM 310 M for details).

10. Prostate screening (annually after age 50; and, screening is recommended annually for males 40 and older who are at high risk due to immediate family history), and

11. Physical examinations (includes well visits and well exams), periodic health

examinations or assessments, diagnostic work ups or health protection packages designed to:

a. Provide early detection of disease,

b. Detect the presence of injury or disease,

c. Establish a treatment plan,

d. Evaluate the results or progress of a treatment plan or the disease, or

e. Establish the presence and characteristics of a physical disability, which may be the result of disease or injury.

D. Screening services provided more frequently than these professionally recommended guidelines will not be covered unless medically necessary.

Exclusions

Physical examinations not related to covered health care services or performed to satisfy the demands of outside public or private agencies such as the following are not covered services:

A. Qualification for insurance.

B. Pre-employment physical examination.

C. Qualifications for sports or physical exercise activities.

D. Pilots examinations (Federal Aviation Administration).

E. Disability certification for the purpose of establishing any kind of periodic payments.

F. Evaluation for establishing third party liability.

310-I HOME HEALTH SERVICES

REVISION DATE: 12/07/2022, 7/3/2015, 9/15/2014

EFFECTIVE DATE: June 30, 1994

REFERENCES: A.R.S. § 32-1601, A.R.S. §36-2939, 42 CFR 440.70, AMPM 310-I, AMPM Policy 1240-G

PURPOSE

This policy describes and establishes requirements for covered Home Health Services for Division of Developmental Disabilities (Division) members who are eligible for Arizona Long Term Care System (ALTCS).

DEFINITIONS

1. "Face-to-Face Encounter" means a Face-to-Face visit, in person or via telehealth, with a member's Primary Care Physician (PCP) or physician of record, related to the primary reason the member requires Home Health Services (42 CFR 440.70).
2. "Home Health Agency (HHA)" means a public or private agency or organization, or part of an agency or organization, that is licensed by the State and meets requirements for participation in Medicare, including the capitalization requirements under 42 CFR 489.28 (42

CFR 440.70).

3. "Home Health Services" means nursing services, home health aide services, therapy services, and medical supplies, equipment, and appliances provided to a member at their place of residence and on the member's physician's orders, or ordered by the member's nurse practitioner, physician assistant, or clinical nurse specialist, as a part of the plan of care and reviewed by the practitioner annually as part of a written plan of care.

4. "Licensed Health Aide (LHA)" means a person who is licensed to provide or assist in providing nursing-related services and:

   a. Is the parent, guardian, or family member of the Arizona Long Term Care System (ALTCS) member who is under 21 years of age and eligible to receive Skilled Nursing or skilled nursing respite care services who may provide Licensed Health Aide (LHA) services only to that member and only consistent with that member's plan of care; and

   b. Has a scope of practice that is the same as a Licensed Nursing Assistant (LNA) and may also provide medication administration,

tracheostomy care, enteral care and therapy, and any other tasks approved by the State Board of Nursing in rule.

POLICY

A. HOME HEALTH AGENCIES

1. The Division shall cover Home Health Services that are medically necessary and provided by a Medicare Certified Home Health Agency (HHA) licensed by the Arizona Department of Health Services (ADHS) that is contracted by the Division. All other requirements of 42 CFR 440.70 apply; however, intermittent nursing services shall be provided by a Registered Nurse (RN) or a Licensed Practical Nurse (LPN).
2. The Division shall permit a non-Medicare certified, State certified HHA or an Arizona Health Care Cost Containment System (AHCCCS) registered Independent RN to provide Home Health Services only under the following circumstances:
   a. Intermittent nursing services are needed in a geographic service area not currently served by a Medicare certified HHA;

b. The Medicare certified HHA in the applicable geographic service area lacks adequate staff to provide the necessary services for the member(s); or

c. The Medicare certified HHA is not willing to provide services to, or contract with the Division .

3. The Division shall permit Home Health Services provided by a non-Medicare State certified HHA or AHCCCS registered Independent RN when the following apply:

a. Non-Medicare certified HHAs shall be licensed by the State and:

i. The Division shall maintain documentation supporting at least one of the three circumstances specified in subsections (2)(a), (b) and (c) above;

ii. The State licensed HHA shall be an AHCCCS registered provider which employs the individuals providing Home Health Services; and

iii. Intermittent nursing services shall be provided by an RN who is employed by the State licensed HHA.

b. Independent RNs shall be registered as an AHCCCS registered provider and:

i. Shall receive written orders from the member's PCP or physician of record, are responsible for all documentation of member care;

ii. Are responsible for the transmission of said documentation to the member's PCP or physician of record; and

iii. Sub-contractors who contract with Independent RNs to provide home health skilled nursing shall develop oversight activities to monitor service delivery and quality of care provided by the Independent RN.

B. INTERMITTENT NURSING AND HOME HEALTH AIDE SERVICES

1. The Division shall cover nursing services that are provided on an intermittent basis as ordered by a treating physician.
2. The Division shall require that home health aides provide non-skilled services under the direction and supervision of an RN.
3. The Division shall cover home health aide services in units of one

visit. Visits include at least one of the following components:

a. Monitoring the health and functional level, and assistance with the development of the HHA plan of care for the member;

b. Monitoring and documenting of member vital signs, as well as reporting results to the supervising HHA RN, PCP or physician of record;

c. Providing members with personal care;

d. Assisting members with bowel, bladder and/or ostomy programs, as well as catheter hygiene (does not include catheter insertion);

e. Assisting members with self-administration of medications;

f. Assisting members with eating, if required, to maintain sufficient nutritional intake, and providing information about nutrition;

g. Assisting members with routine ambulation, transfer, use of special appliances and/or prosthetic devices, range of

motion activities or simple exercise programs;

h. Assisting members in activities of daily living to increase member independence;

i. Teaching members and families how to perform home health tasks; and

j. Observation of and reporting to the HHA Provider or the support coordinator for members who exhibit the need for additional medical or psychosocial support, or a change (decline or improvement) in condition during the course of service delivery.

4. The Division shall cover intermittent nursing services only when provided by an RN or LPN under the supervision of an RN or PCP or physician of record as specified in A.A.C. R4-19-401.

5. The Division shall cover intermittent nursing services provided by an LPN only if they are working for an HHA.

6. The Division shall cover intermittent nursing services in 15 minute units, not to exceed two hours (eight units) per single visit.

7. The Division shall not cover more than four hours (16 units) per calendar day.
8. The Division shall cover intermittent nursing services to members residing in an Assisted Living Facility (ALF) when skilled nursing services are not included in the facility's per diem rate.
9. The Division shall cover home health aide services provided by a family member, including but not limited to parents and guardians of minor children or adults when the individual is a Licensed Nursing Assistant (LNA) and employed by a Medicare Certified HHA.

C. LICENSED HEALTH AIDE

1. The Division shall cover LHA services in units of one visit that include one or more of the following:
   a. Monitoring the health and functional level, and assistance with the development of the HHA plan of care for the member;
   b. Monitoring and documenting of member vital signs, as well

as reporting results to the supervising RN, PCP or physician of record;

c. Providing members with personal care;

d. Assisting members with bowel, bladder and/or ostomy programs, as well as catheter hygiene (does not include catheter insertion);

e. Administering or assisting members with self-administration of medications;

f. Assisting members with eating if required, to maintain sufficient nutritional intake and providing information about nutrition;

g. Assisting members with routine ambulation, transfer, use of special appliances and/or prosthetic devices, range of motion activities or simple exercise programs;

h. Assisting members in activities of daily living to increase member independence;

i. Teaching members and families how to perform home health tasks; and

j. Observation and reporting to the HHA Provider and/or the support coordinator of members who exhibit the need for additional medical or psychosocial support or a change (decline or improvement) in condition during the course of service delivery.

D. PHYSICAL THERAPY, OCCUPATIONAL THERAPY, AND SPEECH THERAPY SERVICES

1. The Division shall cover physical therapy, occupational therapy, and speech therapy services provided by an HHA for members as specified in AMPM Policy 310-X.

E. MEDICAL EQUIPMENT, APPLIANCES AND SUPPLIES

1. The Division shall cover medical equipment, appliances, and supplies provided by an HHA as specified in AMPM Policy 310-P.

F. FACE-TO-FACE ENCOUNTER REQUIREMENTS

1. The Division shall require the practitioner to complete a

Face-to-Face encounter with Tribal Health Program members for initiation of Home Health Services, that relates to the primary reason the member requires Home Health Services no more than 90 days before or within 30 days after start of services.

2. The Division shall require the Face-to-Face encounter for Tribal Health Program members be conducted by one of the following:
   a. The ordering PCP or physician of record or
   b. For members admitted to home health immediately after an acute or post-acute stay, the attending acute or post-acute physician.
3. The Division shall allow the practitioner to perform the Face-to-Face encounter for Tribal Health Program members to occur through telehealth.

Signature of Chief Medical Officer: Anthony Dekker (Nov 29, 2022 09:27 MST)
Anthony Dekker, D.O.

310–J HOSPICE SERVICES

REVISION DATE: 5/8/2019
EFFECTIVE DATE: November 17, 2017
REFERENCES: A.R.S. §§ 36-2907 and 2989, 42 CFR 418.20 and 70, and Arizona's Section 115(a) Medicaid Demonstration Extension.

This Policy establishes requirements for Hospice Services. Hospice services are covered for members eligible for AHCCCS. Hospice services are allowable under A.R.S. §§ 36-2907 and 2989, and 42 CFR 418.20, for terminally ill members who meet the specified medical criteria/requirements. Hospice services provide palliative and support care for terminally ill members and their family members or caregivers in order to ease the physical, emotional, spiritual, and social stresses, which are experienced during the final stages of illness and during dying and bereavement.

Hospice services are provided in the member's own home, an alternative residential setting, or the following inpatient settings when the conditions of participation are met as specified in 42 CFR 418:

A. Hospital

B. Nursing care institution

C. Freestanding hospice.

Providers of hospice must be Medicare certified, licensed by the Arizona Department of Health Services (ADHS), and have a signed AHCCCS provider agreement.

As directed by the Affordable Care Act, members receiving Early Periodic Screening, Diagnosis, and Treatment (EPSDT) may continue to receive curative treatment for their terminal illness while receiving hospice services. Adult members age 21 and older who elect hospice services must forgo curative care.

For dual eligible members, Medicare is the primary payer of hospice services.

Definitions

The following definitions apply to Hospice Services:

A. Bereavement Counseling - Emotional, psychosocial, and spiritual support and services provided before and after the death of a member to assist the family with issues related to grief, loss, and adjustment.

B. Continuous home care - Services provided during periods of crisis for a minimum of eight hours per 24-hour day (the hours do not have to be continuous) to maintain residence in their own home as specified in 42 CFR 418.204(a). Care must be predominantly nursing care, provided by a Registered Nurse (RN) or a Licensed Practical Nurse (LPN). Homemaker and home health aide services may also be provided to supplement the care.

C. Palliative care - Member and family-centered care that optimizes quality of life by anticipating, preventing, and treating suffering and is provided to address physical, intellectual, emotional, social, and spiritual needs and to facilitate member autonomy, access to information, and choice.

D. Period of crisis - A period (up to 24 hours per day) in which the hospice-eligible member

requires continuous care to achieve palliation or management of acute medical symptoms.

E. Terminally ill - A medical prognosis of life expectancy for six months or less if the illness runs its normal course.

Policy

Hospice Care is a comprehensive set of services identified and coordinated by an interdisciplinary group to provide palliative and support care for terminally ill members and their family members and caregivers for the physical, psychosocial, spiritual, and emotional needs as delineated in a specific patient plan of care.

Hospice Services are covered for all terminally ill members who meet the specified medical criteria and requirements under A.R.S. §§ 36-2907, 36-2939, and 36-2989, and 42 CFR Part 418 et seq.

In order to receive Hospice Care, Members must waive the right to duplicative services including: hospice care provided by a non-designated hospice service; services that are related to the treatment of the terminal condition or a related condition, unless provided by the designated hospice, provided by the attending physician, or provided as room and board by a nursing facility where the member is a resident as specified in CMS Medicaid Manual section 4305.2. This waiver does not apply to EPSDT-aged members.

If the Hospice agency is unable or unwilling to provide or cover medically necessary services related to the hospice diagnosis, the services must be provided by the Contractor. The Contractor however must report such cases to ADHS as the hospice licensing agency in Arizona.

A. Eligibility

1. A physician must provide a signed certification stating that the member's prognosis is terminal, with the member's life expectancy not exceeding six months. However, due to the uncertainty of predicting courses of illness, the hospice benefit is available beyond six months, provided additional physician certifications are completed.

2. A member may elect to receive Hospice Care during one or more of the following election periods:

   a. An initial 90-day period,

   b. A subsequent 90-day period, or

   c. An unlimited number of subsequent 60-day periods.

3. As specified in Section 2302 of the Affordable Care Act, EPSDT-aged members may continue to receive curative treatment for a terminal illness while receiving hospice services. Adult members age 21 and older who elect hospice services must forgo curative care related to the terminal diagnosis but may continue to receive services unrelated to the hospice diagnosis.

B. Hospice Services

Hospice services provide palliative and support care for terminally ill members and

their family members and caregivers in order to ease the physical, emotional, spiritual, and social stresses, which are experienced during the final stages of illness and during dying and bereavement. When the conditions of participation are met as specified in 42 CFR Part 418, hospice services are provided in the member's own home, or the following inpatient settings:

1. Hospital.

2. Nursing care institution.

3. Free standing Hospice Unit.

Hospice providers must also have social services, counseling, dietary services, homemaker, personal care and home health aide services, and inpatient services available as necessary to meet the member's needs. The following bundled hospice services are covered when provided in approved settings:

1. Physicians' services for the treatment of the member's terminal illnesses and related administrative and general supervisory activities, except for attending physician services provided by non-hospice employees;

2. Continuous Home Care;

3. Dietary services, which include a nutritional evaluation and dietary counseling when necessary;

4. Home health aide services;

5. Homemaker services;

6. Nursing services provided by or under the supervision of a registered nurse;

7. Pastoral/counseling services provided by an individual who is qualified through the completion of a degree in ministry, psychology, or a related field and who is appropriately licensed or certified;

8. Hospice respite care services which are provided on an occasional basis, not to exceed more than five consecutive days at a time. Respite care may not be provided when the member is a nursing facility resident or is receiving services in an inpatient setting;

9. Routine Home Care;

10. Social services provided by a qualified social worker;

11. Therapies that include physical, occupational, or speech therapy;

12. A 24 hour on-call availability to provide services such as reassurance, information, and referral for members and family members and caregivers;

13. Volunteer services provided by individuals who are specially trained in hospice and who are supervised by a designated hospice employee. Under 42 C.F.R. 418.70, if providing direct patient care, the volunteer must meet qualifications required to provide such services;

14. Medical supplies, appliances, and equipment, including:

    a. Pharmaceuticals, which are used in relationship to the palliation or management of the member's terminal illness; and

    b. Medical equipment and appliances may include but are not limited to:

        i. Wheelchairs,

        ii. Hospital beds, and

        iii. Oxygen equipment.

15. Bereavement counseling to the member's family and caregiver both before and up to 12 months following the death of that member. Bereavement Counseling, to the member's family and caregiver both before and up to 12 months following the death of the member, is part of the bundled hospice services and is not separately reimbursable, as specified in 42 CFR 418.204.30.

310-K HOSPITAL INPATIENT SERVICES

REVISION DATE: 11/29/2018, 11/17/2017, 7/3/2015, 3/2/2015, 9/15/2014
EFFECTIVE DATE: June 30, 1994
REFERENCES: A.R.S. § 32-801 through 871

The Division of Developmental Disabilities (Division) covers medically necessary inpatient hospital services, provided by a licensed participating hospital, for all members eligible for ALTCS. Inpatient hospital services are medically necessary services delivered or directed by a Primary Care Provider (PCP), a specialist physician, practitioner or dentist. These services are ordinarily furnished in an acute care hospital, except for services in public or correctional facilities, or Behavioral Health settings.

Inpatient hospital services for members include, but are not limited to, the following:

A. Hospital accommodation, and appropriate staffing, supplies, equipment and services for any or all of the following:

1. Acute physical care and behavioral health care
2. Intensive care and coronary care
3. Neonatal intensive care
4. Maternity care including labor, delivery and recovery rooms, birthing centers, and nursery and related services
5. Nursery for newborns and infants
6. Surgery including surgical suites and recovery rooms, and anesthesiology services
7. Nursing services necessary and appropriate for the member's medical condition, including assistance with activities of daily living asneeded
8. Medical detoxification and treatment services
9. Behavioral health forensic services
10. Dietary services
11. Medical supplies, appliances and equipment consistent with the level of accommodation
12. Perfusion and perfusionist services.

B. Ancillary Services

Ancillary services include any or all of the following:

1. Audiology services
2. Chemotherapy

3. Dental surgery for members in the Early and Periodic Screening, Diagnosis and Treatment Program (EPSDT)

4. Dental surgery for members 21 years of age and older within limitations as described in Division Medical Policy 310-D

5. Dialysis

6. Laboratory services

7. Pharmaceutical services and prescribed drugs

8. Radiological and medical imaging services

9. Rehabilitation services including physical, occupational and speech therapies

10. Respiratory therapy

11. Behavioral health assessments, and behavioral health therapy (including electroconvulsive therapy)

12. Services and supplies necessary to store, process, and administer blood and blood derivatives

13. Total parenteral nutrition

14. Wound care.

Limitations and Exclusions

The Division covers semiprivate inpatient hospital accommodations, except when the member's medical condition requires isolation.

The Division does not separately cover home-based services, such as Attendant/Personal Care, while the member is in inpatient settings.

310-L HYSTERECTOMY

REVISION DATE: 2/7/2024
REVIEW DATE: 7/3/2023
EFFECTIVE DATE: November 17, 2017
REFERENCES: 42 CFR 441.250 et seq, 42 CFR 441.251, 42 CFR 441.255, AMPM 820.

PURPOSE

This Policy establishes the requirements for coverage of Hysterectomy services in accordance with 42 CFR 441.250 et seq for Members within the Division of Developmental Disabilities who seek to obtain a medically necessary Hysterectomy.

DEFINITIONS

1. "Hysterectomy" means a medical procedure or operation for the purpose of removing the uterus as specified in 42 CFR 441.251.

2. "Initial Medical Acknowledgement" means documentation of the Member's understanding prior to surgery, the procedure will render them sterile.

3. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

4. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a member or an applicant for whom no guardian has been appointed.

5. "Second Level Review" means a review performed by a Division of Developmental Disabilities (Division) Medical Director who has the appropriate clinical expertise in managing a Member's condition or disease. Second Level Review is used to screen for medical necessity and compare the findings to clinical data in the Member's medical record to ensure Division Members are receiving medically appropriate and high quality care.

6. "Sterilization" means any medical procedure, treatment, or operation for the purpose of rendering an individual permanently incapable of reproducing as specified in 42 CFR 441.251.

POLICY

A. CONDITIONS WHEN A HYSTERECTOMY SHALL BE COVERED IF DEEMED MEDICALLY NECESSARY

1. The Division shall cover a Hysterectomy for the following conditions when medically necessary:

   a. Dysfunctional Uterine Bleeding or Benign Fibroids associated with Dysfunctional Bleeding, when medical and surgical therapy has failed, and childbearing is no longer a consideration;

   b. Endometriosis, with severe disease when future child-bearing is not a consideration, and when disease is refractory to medical or surgical therapy; or

   c. Uterine Prolapse, when childbearing is no longer a consideration and for whom non-operative or surgical correction, suspension or repair, will not provide the Member adequate relief.

B. CONDITIONS WHERE MEDICAL OR SURGICAL INTERVENTION IS NOT REQUIRED PRIOR TO HYSTERECTOMY

1. The Division shall cover medically necessary Hysterectomy services without prior trial of medical or surgical intervention in the following cases:
   a. Invasive carcinoma of the cervix;
   b. Ovarian carcinoma;
   c. Endometrial carcinoma;
   d. Carcinoma of the fallopian tube;
   e. Malignant gestational trophoblastic disease;
   f. Life-threatening uterine hemorrhage, uncontrolled by conservative therapy;
   g. Potentially life-threatening hemorrhage as in cervical pregnancy, interstitial pregnancy, or placenta abruption; or
   h. Other potentially life threatening conditions where removal of the reproductive organs is necessary and considered the standard of care.
2. The Division shall require the provider to complete AMPM

Attachment 820-A prior to performing Hysterectomy procedures.

C. MEDICAL ACKNOWLEDGEMENT AND DOCUMENTATION

1. The Division shall require providers comply with the following requirements prior to performing the Hysterectomy:
   a. Inform the Responsible Person both orally, in the Member's medical records and in AMPM Attachment 820-A that the Hysterectomy will render the Member incapable of reproducing, resulting in sterility;
   b. Obtain from the Responsible Person a signed and dated written acknowledgment stating that the information in AMPM Attachment 820-A has been received and that the individual has been informed and understands that the Hysterectomy will result in sterility.
2. The Division shall require the Primary Care Provider (PCP) keep a signed, and dated written acknowledgment in the Member's medical records.

3. The Division shall require providers use AMPM Attachment 820-A as specified in AMPM 820.

D. EXCEPTIONS FROM INITIAL MEDICAL ACKNOWLEDGEMENT

1. The Division shall not require the physician performing the Hysterectomy to obtain Initial Medical Acknowledgment in either of the following situations:
   a. The Member was already sterile before the Hysterectomy.
      i. In this instance the physician must certify in writing that the Member was already sterile at the time of the Hysterectomy and specify the cause of sterility.
      ii. Documentation shall include the specific tests and test results conducted to determine sterility if the cause of sterility is unknown; or
   b. The Member requires a Hysterectomy because of a life-threatening emergency situation in which the physician determines that Initial Medical Acknowledgement is not possible. In this circumstance, the physician must certify

in writing that the Hysterectomy was performed under a life-threatening emergency situation in which the physician determined that Initial Medical Acknowledgement was not possible.

2. The physician shall include a description of the nature of the emergency in the Member's medical record and when AMPM Attachment 820-A is submitted to AHCCCS.

E. LIMITATIONS

1. The Division shall not cover a Hysterectomy if:
   a. It is performed solely to render the individual permanently incapable of reproducing; or
   b. There was more than one purpose to the procedure, and the procedure would not have been performed but for the purpose of rendering the individual permanently incapable of reproducing.

F. SECOND LEVEL REVIEW

1. The Division Medical Director shall:

   a. Complete a Second Level Review of all approvals or denials for all requests for Hysterectomies for Members prior to the completion of the procedure, except in the event of a life-threatening emergency situation;

   b. Ensure all life-threatening emergency Hysterectomy cases are submitted to the Division for retrospective review;

   c. Consult with the AHCCCS Medical Director for Tribal Health Plan (THP) or the assigned AdSS health plan's Medical Director when there are questions regarding the Hysterectomy; and

   d. Have the final authority to approve or deny a Hysterectomy, except in the event of a life-threatening emergency situation.

G. DIVISION OVERSIGHT

1. The Division shall oversee the AdSS utilizing the following methods to ensure compliance with policy:
   a. Annual Operational Review of each AdSS,
   b. Review and analyze deliverable reports submitted by the AdSS, and
   c. Conduct oversight meetings with the AdSS for the purpose of:
      i. Reviewing compliance,
      ii. Addressing concerns with access to care or other quality of care concerns,
      iii. Discussing systemic issues, and
      iv. Providing direction or support to the AdSS as necessary.

SUPPLEMENTAL INFORMATION

Coverage of Hysterectomy services is limited to those cases in which medical necessity has been established by careful diagnosis. Prior to

performing a Hysterectomy, providers shall establish medical necessity in part by providing documentation relating to the trial of medical or surgical therapy which has not been effective in treating the Member's condition. The length of such trials shall also be documented in the Member's medical records.

310-M IMMUNIZATIONS

REVISION DATE: 05/10/2023, 10/26/2022, 04/24/2019
EFFECTIVE DATE: November 17, 2017
REFERENCES: A.R.S. § 32-1974, AMPM 310-V, AMPM 430

PURPOSE

The purpose of this policy is to describe covered immunization services for DDD members who are eligible for ALTCS.

DEFINITIONS

1. "Adult" means an individual 18 years of age and older.
2. "Child" means an individual under the age of 18 years.
3. "Immunization" means the administration of a vaccine to promote the development of immunity or resistance to an infectious disease.
4. "Vaccine" means the preparation administered to stimulate the production of antibodies and provide immunity against one or several diseases.

POLICY

A. COVERAGE

1. The Division shall allow pharmacists and pharmacy interns under the supervision of a pharmacist, within their scope of practice, to administer AHCCCS covered immunizations to adults 19 years and older as specified in A.R.S. § 32-1974.
2. The Division shall cover immunizations as appropriate for age, history, and health risk, for adults and children.
3. The Division shall follow recommendations as established by the Centers for Disease Control and Prevention (CDC) and the Advisory Committee on Immunization Practices (ACIP).
4. The Division shall not require prior authorization for medically necessary covered immunizations when administered by an AHCCCS-registered provider.
5. The Division shall cover immunizations for adults that include, but are not limited to:
    a. Diphtheria-tetanus,
    b. Influenza,

c. Coronavirus Disease 2019 (COVID-19),

d. Pneumococcus,

e. Rubella,

f. Measles,

g. Hepatitis A,

h. Hepatitis B,

i. Pertussis,

j. Zoster vaccine, for members 50 years of age and older,

k. Human Papillomavirus (HPV) vaccine.

6. The Division shall cover vaccinations for children as described in AMPM 430.

7. The Division shall not cover immunizations for members for passport, visa clearance, or for travel outside of the United States.

8. The Division shall cover pharmacy reimbursement for adult immunizations as described in AMPM 310-V.

310-N LABORATORY

REVISION DATE: 7/3/2015, 9/15/2014
EFFECTIVE DATE: June 30, 1994

Clinical Laboratory, Radiological and Medical Imaging Services (Acute Care Services)

Clinical laboratory procedures (including routine screening for Hepatitis B), radiological and medical imaging services prescribed by a Primary Care Provider (PCP) or by another physician, practitioner, or dentist upon referral by a PCP, and which are ordinarily administered in hospitals, clinics, physicians' offices or other health care facilities by licensed health care providers, shall qualify as covered services if medically necessary.

Clinical laboratory, radiological, and medical imaging service providers shall satisfy all applicable State license and certification requirements, be registered with the Arizona Health Care Cost Containment System (AHCCCS), and shall perform only those services specific to their license and certification.

310-P MEDICAL SUPPLIES, DURABLE MEDICAL EQUIPMENT, AND PROSTHETIC DEVICES (ACUTE CARE SERVICES)

REVISION DATE: 3/25/2016, 7/3/2015, 9/15/2014
EFFECTIVE DATE: June 30, 1994
REFERENCES: §36-2907; Laws 2015, Chapter 264, Section 3 (HB 2373); §36-2907.

A. Medical supplies, durable medical equipment (DME) orthotic and prosthetic devices provided to members who are eligible for Arizona Long Term Care System (ALTCS) services qualify as covered services if prescribed by a, specialist physician, practitioner or dentist upon referral by a Primary Care Provider (PCP).
Medical supplies and DME include:

1. Surgical dressings, splints, casts, and other disposable items covered by Medicare (Title XVIII).

2. Rental or purchase of DME, including, customized equipment.

3. Other items as determined medically necessary by joint consultation of the Medical Directors of the health plan and the Division.

B. Requirements for specific services:

1. Incontinence Briefs

a. Incontinence briefs for members over the Age of 21 Years:

i. The Division's acute care contracted health plans shall provide incontinence briefs, including pull-ups, for members 21 years of age and older to treat a medical condition or to prevent skin breakdown when all the following are met:

- The member is incontinent due to a documented medical condition that causes incontinence of bowel and/or bladder.

- The Primary Care Provider (PCP) or attending physician has issued a prescription ordering the incontinence briefs.

- Incontinence briefs do not exceed 180 briefs per month unless the prescribing physician presents evidence of medical necessity for more than 180 briefs per month.

- The member obtains incontinence briefs from vendors within the Contractor's network.

- Prior authorization has been obtained if required by the Administration, Contractor, or Contractor's designee, as appropriate. Contractors shall not require a new prior authorization to be issued more frequently than every 12 months.

ii. Authorized services must be for at least a 12 month period of time.

iii. Contractors may require a new prior authorization to be issued no more frequently than every 12 months.

iv. Payments for the use of incontinence briefs for the convenience of caregivers will not be authorized.

v. If a member is eligible for Fee-For-Service coverage, the Health Care Services Unit will prior authorize using the same criteria outlined above. Health Care Services Prior Authorization can be contacted by calling 602-771-8080.

vi. Any exceptions to this policy section must have the approval of the Assistant Director.

b. Incontinence briefs for members over three and under the Age of 21 Years:

Incontinence briefs are covered for members when necessary to treat a medical condition and/or for preventative purposes. For information on coverage and limitations see the *Division Medical Policy Manual Chapter 400, Section 430*.

2. DME means sturdy, long lasting items and appliances that can withstand repeated use, are designed to serve a medical purpose and are not generally useful to a person in absence of a medical condition, illness or injury.

Experience has demonstrated that the cost-effective provision of Durable Medical Equipment (DME) includes the involvement of a physical therapist in ordering and fitting customized equipment.

Documentation from therapists who have treated the member may be required. That documentation must establish the need for equipment and a comprehensive explanation of how the member will benefit from the equipment.

a. Orthotics- A device prescribed by a physical or other licensed practitioner to support a weak, injured, or deformed portion of the body.

i. Members 21 years of age and older:

Orthotics are covered within certain limitations if all of the following apply:

- The use of the orthotic is medically necessary as the preferred treatment option consistent with Medicare Guidelines.
- The orthotic is less expensive than all other treatment options or surgical procedures to treat the same diagnosed condition.
- The orthotic is ordered by a Physician or Primary Care Practitioner.

ii. Members under 21 years of age:

Orthotics are covered for members under the age of 21 as outlined in the *Division Medical Policy Manual Chapter 400 Section 430-C*.

iii. Orthotics Limitations- Reasonable repairs or adjustments of purchased orthotics are covered for all members to make the orthotic serviceable and/or when the repair cost is less than purchasing another unit. The component will be replaced if, at the time authorization is sought, documentation is provided to establish that the component is not operating effectively.

310-S OBSERVATION SERVICES

EFFECTIVE DATE: March 3, 2017

The Division of Developmental Disabilities (Division) covers Observations services. Observation services are those reasonable and necessary services provided on a hospital's premises for evaluation to determine whether the member should be admitted for inpatient care, discharged, or transferred to another facility. Observation services include: the use of a bed, periodic monitoring by a hospital's nursing or, if appropriate, other staff necessary to evaluate, stabilize or treat medical conditions of a significant degree of instability and/or disability on an outpatient basis.

It is not Observation when a member with a known diagnosis enters a hospital for a scheduled procedure/treatment that is expected to keep the member in the hospital for less than 24 hours (this is an outpatient procedure, regardless of the hour in which the member presented to the hospital, whether a bed was utilized, or whether services were rendered after midnight).

Extended stays after outpatient surgery must be billed as recovery room extensions.

Observation must be ordered in writing by a physician, or other individual authorized by hospital staff bylaws, in order to admit patients to the hospital or to order outpatient diagnostic tests or treatments. There is no maximum time limit for Observation services as long as medical necessity exists. The medical record must document the basis for Observation services.

Factors That Must Be Considered by the Physician or Authorized Individual When Ordering Observation

The following factors must be considered by the physician or authorized individual when ordering Observation:

A. Severity of the signs and symptoms of the member

B. Degree of medical uncertainty that the member may experience an adverse occurrence

C. Need for diagnostic studies that appropriately are outpatient services (i.e., their performance does not ordinarily require the member to remain at the hospital for 24 hours or more) to assist in assessing whether the member should be admitted

D. The availability of diagnostic procedures at the time and location where the member presents

E. It is reasonable, cost effective and medically necessary to evaluate a medical condition or to determine the need for inpatient admission

F. Length of stay for Observation is medically necessary for the member's condition.

Required Medical Record Documentation

The following are requirements for documenting medical records:

A. Orders for Observation must be written on the physician's order sheet, not the emergency room record, and must specify, "Observation." Rubber-stamped orders are not acceptable.

B. Follow-up orders must be written within the first 24 hours, and at least every 24 hours if Observation is extended.

C. Changes from "Observation to inpatient" or "inpatient to Observation" must be made per physician order.

D. Inpatient/outpatient status change must be supported by medical documentation.

Limitations

The following services are not Division-covered Observation services:

A. Substitution of Observation services for physician ordered inpatient services

B. Services that are not reasonable, cost effective and necessary for diagnosis or treatment of member

C. Services provided solely for the convenience of the member or physician

D. Excessive time and/or amount of services medically required by the condition of the member

E. Services customarily provided in a hospital-based outpatient surgery center and not supported by medical documentation of the need for Observation.

310-V PRESCRIPTION MEDICATION/PHARMACY SERVICES

REVISION DATE: 1/24/2024, 1/10/2024, 9/30/2020, 7/3/2015, 9/15/2014
REVIEW DATE: 12/23/2022

PURPOSE

This policy specifies the requirements for the the Division of Developmental Disabilities (Division) oversight and monitoring of the medication, Device and pharmacy coverage requirements and limitations of the Arizona Health Care Cost Containment System (AHCCCS) pharmacy benefit administered by the Administrative Services Subcontractors (AdSS) for Division Members enrolled in health plans managed by the AdSS and Members enrolled in the Tribal Health Program (THP) pharmacy benefits administered by AHCCCS Division of Fee-For-Service Management (DFSM) and it’s contracted

Pharmacy Benefits Manager (PBM).

DEFINITIONS

1. "340B Ceiling Price" means the maximum price that drug manufacturers may charge covered entities participating in the 340B Drug Pricing Program as reported by the drug manufacturer to the United States Department of Health and Human Services. The 340B Ceiling Price per unit is defined as the Average Manufacturer Price (AMP) minus the Federal Unit Rebate Amount.

2. "340B Contracted Pharmacies" means a separate pharmacy that a 340B Covered Entity contracts with to provide and dispense prescription and physician-administered drugs using medications that are subject to 340B Drug Pricing Program.

3. "340B Covered Entity" means an organization as defined by 42 United States Code Section 256b that participates in the 340B Drug Pricing Program.

4. "340B Drug Pricing Program" means the discount drug

purchasing program described in Section 256b of 42 United States Code.

5. "Abuse" means provider practices that are inconsistent with sound fiscal, business, or medical practices, and result in an unnecessary cost to the Division program, or in reimbursement for services that are not medically necessary or that fail to meet professionally recognized standards for health care, including beneficiary practices that result in unnecessary cost to the Division Program.

6. "Actual Acquisition Cost" or "AAC" means the purchase price of a drug paid by a pharmacy net of all discounts, rebates, chargebacks, and other adjustments to the price of the drug, not including Professional Fees.

7. "Adverse Drug Event" or "ADE" means an injury resulting from medical intervention related to a drug including harms that occur during medical care that are directly caused by the drug including but not limited to Medication Errors, adverse drug

reactions, allergic reactions, and overdose.

8. "AHCCCS/Division of Fee-For-Service Management" or "DFSM" means the division responsible for the clinical, administrative and claims functions of the Fee-For-Service (FFS) members.

9. "AHCCCS Drug List" means a list of Preferred Drugs in specific therapeutic categories that are Federally and State reimbursable behavioral health and physical health care medications and Medical Devices that the Division utilizes for the administration of acute and long-term care pharmacy benefits. The AHCCCS Drug List includes Preferred Drugs and was developed to encourage the use of safe, effective, clinically appropriate, and the most cost-effective medications and is supported by current evidence-based medicine.

10. "AHCCCS Fee For Service (FFS) PA criteria effective 10/1/22" means criteria which is based on clinical appropriateness, scientific evidence, and any of the following standards of practice:

    a. FDA approved indications and limits;

b. Published practice guidelines and treatment protocols;

c. Comparative data evaluating the efficacy, type and frequency of side effects and potential drug interactions among alternative products as well as the risks, benefits, and potential Member outcomes;

d. Drug Facts and Comparisons;

e. American Hospital Formulary Service Drug Information;

f. United States Pharmacopeia – Drug Information;

g. DRUGDEX Information System;

h. UpToDate;

i. MicroMedex;

j. Peer-reviewed medical literature, including randomized clinical trials, outcomes, research data and pharmacoeconomic studies; or

k. Other drug reference resources.

11. "AHCCCS Pharmacy and Therapeutics Committee" or "AHCCCS P&T Committee" means the advisory committee to AHCCCS, which is responsible for developing, managing, updating, and administering the AHCCCS Drug List. The AHCCCS Pharmacy and Therapeutics Committee (AHCCCS P&T Committee) is primarily composed of physicians, pharmacists, nurses, other health care professionals and community members.

12. "Average Manufacturer Price" or "AMP" means the average price paid by wholesalers for drugs distributed to the retail class of trade, net of customary prompt pay discounts.

13. "Biosimilar" means a biological drug approved by the Food and Drug Administration (FDA) based on a showing that it is highly similar to an FDA-Approved biological drug, known as the reference product, and has no clinically meaningful differences in terms of safety and effectiveness from the reference product.

14. "Centers For Medicare and Medicaid Services" or CMS" means the Federal agency within the United States Department of Health and Human Services (HHS) that administers the Medicare

program and works in partnership with State governments to administer Medicaid.

15. "Chronic Intractable Pain" means as specified in A.R.S. § 32-3248.01, meets both of the following:
    a. The pain is excruciating, constant, incurable and of such severity that it dominates virtually every conscious moment; and
    b. The pain produces mental and physical debilitation.

16. "Dual Eligible Member" means a Member who is eligible for both Medicare and Medicaid. There are two types of Dual Eligible Members:
    a. A Qualified Medicare Beneficiary (QMB) Dual Eligible Member (a QMB Plus or a QMB Only); or
    b. A Non-QMB Dual Eligible Member (a Special Low-Income Beneficiary [SLMB] Plus or an Other Full Benefit Dual Eligible).

17. "Emergency Medication" means for the purposes of this policy,

emergency epinephrine and diphenhydramine.

18. "Federal Supply Schedule" or "FSS" means the collection of multiple award contracts used by Federal agencies, U.S. territories, Indian tribes, and other specified entities to purchase supplies and services from outside vendors. Federal Supply Schedule (FSS) prices for the pharmaceutical schedule are negotiated by the Veterans Affairs and are based on the prices that manufacturers charge their "most-favored" non-Federal customers under comparable terms and conditions.
19. "Federal Unit Rebate Amount" means a calculation using the drug manufacturer's pricing. The specific methodology used is determined by statute, and depends upon whether a drug is classified as:
    a. Single source ("S" drug category) or Innovator multiple source ("I" drug category);
    b. "S" or "I" Line Extension Drug;
    c. Non-innovator multiple source ("N" drug category);
    d. Clotting Factor drug (CF); or

e. Exclusively Pediatric drug (EP).

20. "First Line Drug" a generic drug or lower-cost drug.

21. "Fraud" means an intentional deception or misrepresentation made by a person with the knowledge that the deception could result in some unauthorized benefit to himself or some other person, including any act that constitutes Fraud under applicable State or Federal law.

22. "Generic Drug" means a drug that contains the same active ingredients as a brand name drug and the FDA has approved it to be manufactured and marketed after the brand name drugs patent expires. Generic Drug substitution shall be completed in accordance with Arizona State Board of Pharmacy rules and regulations.

23. "Grandfathering of Non-Preferred Drugs" means the continued authorization of Non-Preferred Drugs for Members who are currently utilizing Non-Preferred Drugs without having completed Step Therapy of the Preferred Drugs on the AHCCCS Drug List,

as appropriate.

24. "Guest Dosing" means A mechanism for Members who are not eligible for take-home medication to travel from their home clinic for business, pleasure, or family emergencies and which also provides an option for Members who need to travel for a period of time that exceeds the amount of eligible take-home doses.

25. "Initial Prescriptions for Short Acting Opioid Medication" means a short-acting opioid medication for which the Member has not previously filled any prescription for a short-acting opioid medication within 60 days of the date of the pharmacy filling the current prescription as evidenced by the Member's PBM prescription profile.

26. "JW Modifier" means a Healthcare Common Procedure Coding System (HCPCS) Level II modifier required to be reported on a claim to report the amount of drug that is discarded and eligible for payment under the discarded drug policy.

27. "Medical Device" means per Section 201(h) of the Food, Drug,

and Cosmetic Act, a Device is: An instrument, apparatus, implement, machine, contrivance, implant, in vitro reagent, or other similar related article, including a component part, or accessory which is:

a. Recognized in the official National Formulary, or the United States Pharmacopoeia, or any supplement to them;

b. Intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment, or prevention of disease, in man or other animals;

c. Intended to affect the structure or any function of the body of man or other animals, and which does not achieve its primary intended purposes through chemical action within or on the body of man or other animals; and

d. Which does not achieve its primary intended purposes through chemical action within or on the body of man or other animals and which is not dependent upon being metabolized for the achievement of its primary intended purposes. The term "Device" does not include software

functions excluded pursuant to Section 520(o) of the Federal Food, Drug and Cosmetic Act.

28. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

29. "Naloxone" means a prescription medication that reverses the effects of an opioid overdose.

30. "Nominal Price" means a drug that is purchased for a price that is less than 10% of the AMP in the same quarter for which the AMP is computed.

31. "Non-Preferred Drug" means a medication that is not listed on the AHCCCS Drug List. Non-Preferred Drugs require Prior Authorization (PA).

32. "Non-Title XIX/XXI Member" means a Member who needs or may be at risk of needing covered health-related services but does not meet Federal and State requirements for Title XIX or Title XXI eligibility.

33. "Preferred Drug" means a medication that has been clinically

reviewed and approved by the AHCCCS P&T Committee for inclusion on the AHCCCS Drug List as a Preferred Drug due to its proven clinical efficacy and cost effectiveness.

34. "Professional Fee" means the amount paid for the professional services provided by the pharmacist for dispensing a prescription. The Professional Fee does not include any payment for the drug being dispensed.

35. "Repack" or "Repackage" means the act of taking a finished drug product or unfinished drug from the container in which it was placed in commercial distribution and placing it into a different container without manipulating, changing, or affecting the composition or formulation of the drug.

36. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a client or an applicant for whom no guardian has been appointed A.R.S. §36-551.

37. "Standing Order" means an AHCCCS registered prescriber's order that can be exercised by other health care workers for a Member that meets the designated criteria by the prescribing provider.

38. "Step Therapy" means the practice of initiating drug therapy for a medical condition with the most cost-effective and safe drug and stepping up through a sequence of alternative drug therapies if the preceding treatment option fails.

39. "Usual and Customary Price" or "U&C Price" means the dollar amount of a pharmacy's charge for a prescription to the general public, a special population, or an inclusive category of customers that reflects all advertised savings, discounts, special promotions, or other programs including membership-based discounts.

40. "Waste" means over-utilization or inappropriate utilization of services, misuse of resources, or practices that result in unnecessary costs to the Medicaid Program.

POLICY

A. THE AHCCCS DRUG LIST

1. The Division shall require the AdSS to maintain its own drug list to meet the unique needs of the Members they serve. The Division shall ensure the AdSS drug list includes all the drugs listed on the AHCCCS Drug List.

2. The Division shall require the AdSS to cover all medically necessary, clinically appropriate, and cost-effective medications that are Federally and State reimbursable regardless of whether these medications are included on the AHCCCS Drug List.

3. The Division shall require the AdSS to maintain Preferred Drug lists that include every drug exactly as listed on the AHCCCS Drug List.

4. The Division shall not permit the AdSS to add other Preferred Drugs to their Preferred Drug lists in those therapeutic classes when the AHCCCS Drug List specifies a Preferred Drug in a particular therapeutic class.

5. The Division shall require the AdSS to inform their Pharmacy Benefit Managers (PBM) of the Preferred Drugs and shall require the AdSS' PBM to institute Point-of-Sale (POS) edits that communicate back to the pharmacy the Preferred Drugs of a therapeutic class whenever a claim is submitted for a Non-Preferred Drug.

6. The Division shall require the AdSS to cover the Preferred Drugs recommended by the AHCCCS P&T Committee and approved by AHCCCS, with an effective date by the first day of the first month of the quarter following the AHCCCS P&T Committee meeting, unless otherwise communicated by AHCCCS.

7. The Division shall require AdSS to approve the Preferred Drugs listed for the therapeutic classes contained on the AHCCCS Drug List, as appropriate, before approving a Non-Preferred Drug unless:
   a. The Member has previously completed Step Therapy using the Preferred Drugs; or
   b. The Member's prescribing clinician provides documentation

supporting the medical necessity of the Non-Preferred Drug over the Preferred Drug for the Member.

8. The Division shall require that the AdSS does not disadvantage one Preferred Drug over another Preferred Drug when AHCCCS has approved Preferred Drugs or supplemental rebates for a therapeutic class.

9. The Division shall not permit the AdSS to require a trial and failure of one preferred agent when there are others that are also preferred and have the same indication as part of their Prior Authorization(PA) criteria.

10. The Division shall require the AdSS to require PA for the Non-Preferred Drug when the prescribing clinician is not in agreement with transition to the Preferred Drug.

11. The Division shall not require the AdSS to provide a Notice of Adverse Benefit Determination when the prescribing clinician agrees with the change to the First Line or Preferred Drug.

12. The Division shall require the AdSS to issue a Notice of Adverse

Benefit Determination for service authorizations when a PA request for a Preferred Drug is denied or a previously approved authorization is terminated, suspended, or reduced.

13. The Division shall require the AdSS to Grandfather Members on medications that AHCCCS has communicated to the Division and AdSS as approved for Grandfathering.

14. The Division shall ensure all Federally and State reimbursable drugs that are not listed on the AHCCCS Drug List or the AdSS drug lists are available through the PA process.

15. The Division shall require the AdSS to not deny a Federally and State reimbursable medication solely due to the lack of an FDA indication. Off-Label prescribing may be clinically appropriate when evidenced by subsections (a) through (k) above.

16. The Division shall prohibit the AdSS from adding PA or Step Therapy requirements to medications listed on the AHCCCS Drug List when the List does not specify these requirements.

17. The Division shall prohibit the AdSS from denying coverage of a

medically necessary medication when the Member's primary insurer, other than Medicare Part D, refuses to approve the request and the primary insurer's grievance and appeals process has been completed.

18. The Division shall require the AdSS to evaluate the medical necessity of the submitted PA for all Federally and State reimbursable medications, including those listed and those not listed on the AHCCCS Drug List.
19. The Division shall require the AdSS to evaluate the submitted PA request on an individual basis for medications that are Non-Preferred Drugs and not listed on the AHCCCS Drug List.
20. The Division shall require the AdSS to submit requests for medication additions, deletions, or other changes to the AHCCCS Drug List to the AHCCCS P&T Committee for review no later than 60 days prior to the AHCCCS P&T Committee meeting to the AHCCCS Pharmacy Department email at: AHCCCSPharmacyDept@azahcccs.gov.
21. The Division shall require the AdSS to provide the following

information with the request for medication additions, deletions, or other changes to the AHCCCS Drug List:

a. Name of medication requested (brand name and generic name);

b. Dosage forms, strengths, and corresponding costs of the medication requested;

c. Average daily dosage;

d. FDA indication and accepted off-label use;

e. Advantages or disadvantages of the medication over currently available products on the AHCCCS Drug List;

f. Adverse Drug Event (ADE) reported with the medication;

g. Specific monitoring requirements and costs associated with these requirements; and

h. A clinical summary for the addition, deletion, or change request.

22. The Division shall require the AdSS to adopt the quantity limits and Step Therapy requirements exactly as they are presented on the AHCCCS Drug List for all Preferred Drugs specified on the

AHCCCS Drug List.

23. The Division shall require the AdSS to develop Step Therapy requirements for therapeutic classes when there are no Preferred Drugs identified on the AHCCCS Drug List.

24. The Division shall require the AdSS to obtain PA for the second-line drug when the prescribing clinician is not in agreement with the transition request to the first-line drug.

25. The Division shall require the AdSS to issue a Notice of Adverse Benefit Determination for service authorizations when a PA request for quantity limits or Step Therapy is denied, or a previously approved authorization is terminated, suspended, or reduced.

B. GENERIC AND BIOSIMILAR DRUG SUBSTITUTIONS

1. The Division shall require the AdSS to utilize a mandatory Generic Drug substitution policy that requires the use of a generic equivalent drug whenever one is available, except for the following:

a. A brand name drug shall be covered when a generic equivalent is available and the AHCCCS negotiated rate for the brand name drug is equal to or less than the cost of the Generic Drug; or

b. When the cost of the Generic Drug has an overall negative financial impact to the State. The overall financial impact to the State includes consideration of the Federal and supplemental rebates.

2. The Division shall require the AdSS to require prescribing clinicians to clinically justify the use of a brand-name drug over the use of its generic equivalent through the PA process.

3. The Division shall not permit the AdSS to transition to a Biosimilar drug until AHCCCS has determined that the Biosimilar drug is overall more cost-effective to the State than the continued use of the brand name drug.

4. The Division shall require the AdSS to provide the Generic Drug substitution policy during the Operational Review.

5. The Division shall review the Generic Drug substitution policy provided by the AdSS during the Operational Review.

C. ADDITIONAL INFORMATION FOR MEDICATION COVERAGE

1. The Division shall require the AdSS to cover medications for Members transitioning to a different health plan or FFS as follows:
   a. The transferring AdSS or AHCCCS DFSM provide coverage for medically necessary, cost-effective, and Federally and State reimbursable medications until such time that the Member transitions to their new health plan or FFS Program; and
   a. The AdSS, providers, and Tribal Regional Behavioral Health Authorities (TRBHAs) are responsible for coordinating care when transferring a Member to a new health plan or FFS Program to ensure that the Member's medications are continued during the transition.

2. The Division shall require the AdSS to provide coverage for medically necessary, cost-effective, and Federally and State

reimbursable behavioral health medications provided by a Primary Care Physician (PCP) within their scope of practice which includes the monitoring and adjustments of behavioral health medications.

3. The Division shall require the AdSS to obtain PA for antipsychotic medication class based on age limits depending on the form of the medication.

4. The Division shall require the AdSS to ensure PCPs and BHMPs coordinate the Member's care and that the Member has a sufficient supply of medications to last through the date of the Member's first appointment with the PCP or BHMP when a Member is transitioning from a BHMP to a PCP or from a PCP to a BHMP.

5. The Division shall require the AdSS to allow an individual receiving Methadone or Buprenorphine administration services who is not a recipient of take-home medication to receive Guest Dosing of Methadone or Bupenorphine from the area contractor when the individual is traveling outside of home Opioid

Treatment Program (OTP) center.

6. The Division shall require the AdSS to allow a Member to be administered sufficient daily dosing from an OTP center other than their home OTP center when:
   a. A Member is unable to travel to the home OTP center, or
   b. When traveling outside of the home OTP center's area.

7. The Division shall require the AdSS to allow a Member to receive Guest Dosing from another OTP center (guest OTP center) within their Geographic Service Areas (GSA), or outside their GSA.

8. The Division shall require the AdSS to approve Guest Dosing outside the State of Arizona when the prescribing physician determines the Member's health would be endangered if travel were required back to the state of residence.

9. The Division shall require the AdSS to permit a Member to qualify for Guest Dosing when:
   a. The Member is receiving administration of Medications for Opioid Use Disorder (MOUD) services from a

SAMHSA-Certified OTP (Substance Abuse and Mental Health Services Administration);

b. The Member needs to travel outside their home OTP center area,

c. The Member is not eligible for take home medication, and

d. The home OTP center (sending OTP center) and guest OTP center have agreed to transition the Member to the guest OTP center for a scheduled period of time.

10. The Division shall require the AdSS does not charge Title XIX/XXI Members for Guest Dosing except as permitted by A.A.C. R9-22-702 and A.A.C. R9-22-711.

11. The Division shall require the AdSS does not charge Non-Title XIX/XXI eligible Members copayments for Guest Dosing.

D. OVER THE COUNTER MEDICATION

The Division shall require the AdSS to cover an over-the-counter (OTC) medication under the pharmacy benefit when it is prescribed in place

of a covered prescription medication when it is clinically appropriate, equally safe, effective, and more cost effective than the covered prescription medication.

E. PRESCRIPTION DRUG COVERAGE, BILLING LIMITATIONS, AND PRESCRIPTION DELIVERY

1. The Division shall require the AdSS to not cover a new prescription or refill prescription in excess of a 30-day supply unless:
    a. The medication is prescribed for chronic illness and the prescription is limited to no more than a 90-day supply;
    b. The Member will be out of the provider's service area for an extended period of time and the prescription is limited to the extended time period, not to exceed 90 days; or
    c. The medication is prescribed for contraception and the prescription is limited to no more than a 90-day supply.
2. The Division shall require the AdSS to provide prescription drugs for covered transplant services in accordance with AdSS Medical

Policy Manual Policy 310-DD.

3. The Division shall require the AdSS to cover the following for Members who are eligible to receive Medicare:
   a. OTC medications that are not covered as part of the Medicare Part D prescription drug program and the drug meets the requirements in Section (D) of this policy;
   b. A drug that is excluded from coverage under Medicare Part D by the Centers For Medicare and Medicaid Services (CMS) and the drug is medically necessary and Federally reimbursable; and
   c. Cost sharing for medications to treat behavioral health conditions for individuals with an SMI designation.
4. The Division shall not permit the AdSS to allow pharmacies to charge a Member the cash price for a prescription, other than an applicable copayment, when the medication is Federally and State reimbursable and the prescription is ordered by an AHCCCS registered prescribing clinician.

5. The Division shall not permit the AdSS to allow pharmacies to split-bill the cost of a prescription claim to the AdSS PBMs for Members.

6. The Division shall not permit the AdSS PBMs pharmacies to allow a Member to pay cash for a partial prescription quantity for a Federally and State reimbursable medication when the ordered drug is written by an AHCCCS registered prescribing clinician.

7. The Division shall require the AdSS to communicate to the pharmacies that they are prohibited from auto-filling prescription medications.

8. The Division shall not permit the AdSS to allow pharmacies to submit prescription claims for reimbursement in excess of the Usual and Customary Price (U&C Price) charged to the general public.

9. The Division shall require the AdSS to ensure that the sum of charges for both the product cost and dispensing fee does not exceed a pharmacy's U&C Price for the same prescription.

10. The Division shall require the AdSS to ensure that the U&C Price submitted ingredient cost is the lowest amount accepted from any Member of the general public who participates in the pharmacy provider's savings or discount programs including programs that require the Member to enroll or pay a fee to join the program.

11. The Division shall require the AdSS to ensure pharmacies that purchase drugs at a Nominal Price outside of 340B or the FSS bill their Actual Acquisition Cost (AAC) of the drug.

F. PA REQUIREMENTS FOR LONG-ACTING OPIOID MEDICATIONS

1. The Division shall require the AdSS, AdSS' PBM or AHCCCS' PBM, as applicable, to require the prescriber to obtain PA for all long-acting opioid prescription medications unless the Member's diagnosis is one the following:
   a. Active oncology diagnosis with neoplasm related pain;
   b. Hospice care; or
   c. End of life care (other than hospice).

2. The Division shall require the AdSS, AdSS' PBM or AHCCCS' PBM as applicable, to require the prescriber to obtain their approval or an exception for all long-acting opioid prescription medications.

G. 5-DAY SUPPLY LIMIT OF PRESCRIPTION SHORT-ACTING OPIOID MEDICATIONS FOR MEMBERS UNDER 18 YEARS OF AGE

1. The Division shall require the AdSS to require a prescriber to limit the initial and refill prescriptions for any short-acting opioid medication for a Member under 18 years of age to no more than a 5-day supply, except as otherwise specified in Section (G) (2) below, "Conditions and Care Exclusion from the 5-day Supply Limitation".

2. The Division shall require the AdSS abide by the following Conditions and Care Exclusions from the 5-day Supply Limitation:

   a. The initial and refill prescription 5-day supply limitation for short- acting opioid medications does not apply to prescriptions for the following conditions and care

instances:

i. Active oncology diagnosis;

ii. Hospice care;

iii. End-of-life care (other than hospice);

iv. Palliative Care;

v. Children on an opioid wean at the time of hospital discharge;

vi. Skilled nursing facility care;

vii. Traumatic injury, excluding post-surgical procedures;

viii. Chronic conditions for which the provider has received PA approval through the AdSS;

b. The initial prescription 5-day supply limitation for short-acting opioid medications does not apply to prescriptions for post-surgical procedures. However, Initial Prescriptions for Short-Acting Opioid Medications for postsurgical procedures are limited to a supply of no more than 14 days. Refill prescriptions for short-acting opioid medications for post-surgical procedures are limited to no more than a 5-day supply.

H. 5-DAY SUPPLY LIMIT OF PRESCRIPTION SHORT-ACTING OPIOID MEDICATIONS FOR MEMBERS 18 YEARS OF AGE AND OLDER

1. The Division shall require the AdSS to require a prescriber to limit the initial prescription for any short-acting opioid medication for a Member 18 years of age and older to no more than a 5-day supply, except as otherwise specified in Section (H) (2) below, "Conditions and Care Exclusion from the 5-day Supply Limitation".

2. The Division shall require the AdSS to abide by the following Conditions and Care Exclusions from the 5-day Initial Supply Limitation:

    a. The initial prescription 5-day supply limitation for short-acting opioid medications does not apply to prescriptions for the following conditions and care instances:

        i. Active oncology diagnosis;

        ii. Hospice care;

        iii. Palliative Care;

iv. Skilled nursing facility care;

v. Traumatic injury, excluding post-surgical procedures;

vi. Post-surgical procedures; and

vii. The medication is for SUD treatment.

b. Initial Prescriptions for Short-Acting Opioid Medications for post-surgical procedures are limited to a supply of no more than 14 days.

I. ADDITIONAL FEDERAL OPIOID LEGISLATION (42 USC 1396A(OO)) MONITORING REQUIREMENTS

1. The Division shall require the AdSS to implement automated processes to monitor the following opioid safety edits at the POS:

a. A 5 days supply limit for opioid naïve members;

b. Quantity limits;

c. Therapeutic duplication limitations;

d. Early fill limitations;

e. Opioid naïve Members prescribed an opioid, and the Morphine Equivalent Daily Dose (MEDD) is 50 or greater;

f. Member utilization when the cumulative current utilization of opioids is a MEDD of greater than 90 and the Member is not opioid naive;

g. Members with concurrent use of an opioid in conjunction with a benzodiazepine or an antipsychotic;

h. Members are prescribed an opioid after being prescribed drugs used for MOUD for an Opioid Use Disorder (OUD);

i. OUD diagnosis;

j. Antipsychotic prescribing for children;

k. Fraud, Waste, and Abuse by enrolled Members, pharmacies, and prescribing clinicians; and

l. Prospective and retrospective opioid reviews.

2. The Division shall require the AdSS to report Drug Utilization Review management activities annually to the Division.

3. The Division shall require the AdSS to allow a health care professional to write for a prescription that is more than 90 Morphine Milligram Equivalents (MME) per day if the prescription is:

   a. A continuation of a prior prescription order issued within the previous 60 days;

   b. An opioid with a maximum approved total daily dose in the labeling as approved by the U.S. Food and Drug Administration (FDA);

   c. For a Member who has an active oncology diagnosis or a traumatic injury;

   d. Receiving opioid treatment for perioperative surgical pain;

   e. For a Member who is hospitalized;

   f. For a Member who is receiving hospice care, end-of-life care, palliative care, skilled nursing facility care or treatment for burns;

   g. For a Member who is receiving MAT for a substance use

disorder; or

h. For chronic intractable pain.

J. NALOXONE

1. The Division shall require the AdSS to cover and consider Naloxone as an essential prescription medication to reduce the risk and prevent an opioid overdose death.

2. The Division shall require the AdSS to require a prescription, ordered by an AHCCCS registered provider, be on file at the pharmacy when Naloxone is dispensed to or for a specific Member.

3. The Division shall require the AdSS to adhere to the following process:

   a. Have a Standing Order written by the Director of the Arizona Department of Health Services on file at all Arizona pharmacies;

   b. Identify the following eligible candidates that may obtain

Naloxone:

i. Members who use illicit or non-prescription opioids with a history of such use;

ii. Who have a history of opioid misuse, intoxication, or a recipient of emergency medical care for acute opioid poisoning;

iii. Members who have been prescribed high dose opioid prescriptions of 90 MEDD or less if there are other risk factors;

iv. Members who have been prescribed an opioid with a known or suspected concurrent alcohol use;

v. Members who are from opioid detoxification and mandatory abstinence programs;

vi. Members who have been treated with methadone for addiction or pain;

vii. Members who have an opioid addiction and smoking or Chronic Obstructive Pulmonary Disease (COPD) or

other respiratory illness or obstruction;

viii. Members who have been prescribed opioids who also have renal, hepatic, cardiac, or HIV/AIDs (Human Immunodeficiency Virus/Acquired Immunodeficiency Syndrome) disease;

ix. Members who have difficulty accessing emergency services;

x. Members who have been assigned to a pharmacy or prescribing clinician;

xi. Members who voluntarily request Naloxone and are the family member or friend of a Member at risk of experiencing an opioid related overdose; and

xii. Members who voluntarily request Naloxone and are in the position to assist a Member at risk of experiencing an opioid related overdose.

4. The Division shall require the AdSS to cover:

a. Naloxone Solution plus syringes,

b. Naloxone Nasal Spray known as Narcan Nasal Spray, and

c. Refills of the above Naloxone products on an as needed basis.

5. The Division shall require the AdSS to require the pharmacy to educate every Member on the use of Naloxone by the pharmacist dispensing the medication in accordance with Arizona State Board of Pharmacy Regulations.

K. PHARMACY BENEFIT EXCLUSIONS

1. The Division shall require the AdSS to treat the following pharmacy benefits as excluded and shall not be covered:

a. Medications prescribed for the treatment of a sexual or erectile dysfunction, unless:

i. The medication is prescribed to treat a condition other than a sexual or erectile dysfunction, and

ii. The FDA has approved the medication for the specific

condition.

b. Medications that are personally dispensed by a physician, dentist, or other provider except in geographically remote areas where there is no participating pharmacy or when accessible pharmacies are closed;

c. Drugs classified as Drug Efficacy Study Implementation (DESI) drugs by the FDA;

d. Outpatient medications for Members under the Federal Emergency Services Program, except for dialysis related medications for extended services individuals;

e. Medical Marijuana;

f. Drugs eligible for coverage under Medicare Part D for Members eligible for Medicare whether or not the Member obtains Medicare Part D coverage except for Dual Eligible Members that have creditable coverage or individuals with an SMI designation;

g. Experimental medications as specified in A.A.C. §

9-22-203;

h. Medications furnished solely for cosmetic purposes;

i. Medications used for weight loss treatment; or

j. Complementary and Alternative Medicines.

L. RETURN OF AND CREDIT FOR UNUSED MEDICATIONS

1. The Division shall require the AdSS to require the return of unused medications to the outpatient pharmacy from Nursing Facilities (NFs) upon the discontinuance of prescriptions due to the transfer, discharge, or death of a Member.
2. The Division shall require the AdSS to have the outpatient pharmacy issue a payment or credit reversal to the AdSS or the AdSS PBM for unused prescription medications. The pharmacy may charge a restocking fee when agreed upon with AHCCCS and the Division or AdSS.
3. The Division shall require the AdSS to require the return of unused prescription medication in accordance with Federal and

State laws.

4. The Division shall require the AdSS to maintain documentation and include the quantity of medication dispensed and utilized by the Member.

5. The Division shall require the AdSS to issue a credit to AHCCCS if the Member is enrolled in the THP, TRBHA, or FFS Program, to the Member's AdSS for Members who are not FFS when the unused medication is returned to the pharmacy for redistribution.

M. DISCARDED PHYSICIAN-ADMINISTERED MEDICATIONS

1. The Division shall allow any discarded portion of Federally and State reimbursable, physician-administered drugs that are unit-dose or unit-of-use designated products in MediSpan or First DataBank to be billed to the AdSS.

2. The Division shall require AdSS to ensure prescribers use the most cost-effective product(s) for the required dose to be

administered.

3. The Division shall require the AdSS to not allow billing from the prescriber or reimburse the prescriber for any use or discarded portion of a unit-of-use or unit dose Repackaged drugs.

4. The Division shall require the AdSS to ensure, for multidose products, prescribers only bill for the actual amount of drug that was used and the AdSS only reimburse the actual amount of used drug.

N. PRIOR AUTHORIZATION CRITERIA FOR SMOKING CESSATION AIDS

The Division shall require the AdSS to follow the AHCCCS established PA criteria for tobacco cessation aids.

O. VACCINES AND EMERGENCY MEDICATIONS ADMINISTERED BY PHARMACISTS TO INDIVIDUALS THREE YEARS OF AGE AND OLDER

1. The Division shall require the AdSS to cover vaccines and Emergency Medication without a prescription order when

administered by a pharmacist who is currently licensed and certified by the Arizona State Board of Pharmacy consistent with the limitations of this Policy and A.R.S. § 32-1974.

2. The Division shall require the AdSS to ensure pharmacists, pharmacy technicians, and pharmacy interns under the supervision of a pharmacist, within their scope of practice, only administer influenza and COVID immunizations to Members who are at least three years of age through 18 years of age.

3. The Division shall require the AdSS to ensure pharmacists, pharmacy technicians, and pharmacy interns under the supervision of a pharmacist, within their scope of practice, administer AHCCCS covered immunizations to adults at least 18 years and older as specified in A.R.S. § 32-1974.

4. The Division shall require the AdSS to ensure the pharmacies providing the vaccine are an AHCCCS registered provider.

5. The Division shall require the AdSS to retain the discretion to determine the coverage of vaccine administration by

pharmacists, pharmacy interns and technicians under the supervision of a pharmacist and that coverage is limited to the AdSS network pharmacies unless otherwise directed by AHCCCS.

P. 340B COVERED ENTITIES AND CLAIM SUBMISSION

1. The Division shall require the AdSS to ensure that 340B covered entities submit the AAC of the drug for Member's POS prescription and physician-administered drug claims that are identified on the 340B pricing file, whether or not the drugs are purchased under the 340B Drug Pricing Program.

2. The Division shall require the AdSS to reimburse POS claims at the lesser of:
   a. The AAC, or
   b. The 340B Ceiling Price, and
   c. A Professional Fee (dispensing fee).

3. The Division shall require the AdSS to ensure physician administered drugs are reimbursed at the lesser of the AAC or the 340B ceiling price, and the Professional (dispensing) Fee is

not reimbursed and is not permitted when a physician administered drug is administered by the prescribing clinician.

4. The Division shall require the AdSS to not reimburse 340B Contracted Pharmacies for drugs that are purchased, dispensed, or administered as part of or subject to the 340B Drug Pricing Program.

5. The Division shall require the AdSS to comply with any changes to reimbursement methodology for 340B entities.

Q. PHARMACEUTICAL REBATES

1. The Division shall require the AdSS, including the THP PBM and AdSS' PBM, to be prohibited from negotiating any rebates with drug manufacturers for preferred or other pharmaceutical products when AHCCCS has a supplemental rebate contract for the product.

2. The Division shall require the AdSS or its PBM's consider outpatient drug claims, including provider-administered drugs for which AHCCCS is obtaining supplemental rebates, to be exempt

from such rebate agreements if they have an existing rebate agreement with a manufacturer.

R. INFORMED CONSENT

1. The Division shall require the AdSS to ensure the prescriber obtains informed consent from the Responsible Person for each psychotropic medication prescribed.

2. The Division shall require the AdSS to ensure that prescribers are documenting the essential elements for obtaining informed consent in the comprehensive clinical record, utilizing AMPM Attachment 310-V (A).

S. YOUTH ASSENT

1. The Division shall require the AdSS to ensure prescribers educate youth under the age of 18 on options, are allowed to provide input, and are encouraged to assent to medications

being prescribed.

2. The Division shall require the AdSS to ensure prescribers discuss this information with the youth in a clear and age-appropriate manner consistent with the developmental needs of the youth.

3. The Division shall require the AdSS to ensure prescribers share information with Members who are under the age of 18 that is consistent with the information shared in obtaining informed consent from adults.

4. The Division shall require the AdSS to ensure the prescribers obtain informed consent for a minor through the minor's authorized Responsible Person unless the minor is emancipated.

5. The Division shall require the AdSS to ensure prescribers discuss the youth can give consent for medications when they turn 18.

6. The Division shall require the AdSS to begin the discussion about consent for medication no later than age 17½ years old, especially for youth who are not in the custody of their parents.

7. The Division shall require the AdSS to ensure prescribers address

the effect of medications on the reproductive status and pregnancy, as well as long term effects on weight, abnormal involuntary movements, and other health parameters.

8. The Division shall require the AdSS to ensure the prescribers document evidence of the youth's consent to continue medications after their 18th birthday through use of AMPM Attachment 310-V (A).

T. PRESCRIPTION DRUG COUNSELING

The Division shall require the AdSS to communicate to the pharmacy network that pharmacists, and graduate and non-graduate pharmacy interns, under the supervision of a pharmacist are to provide counseling on prescription drugs, prescribed and dispensed to AHCCCS members, in accordance with the Arizona State Board of Pharmacy A.A.C. 4-23-402.

U. DIVISION OVERSIGHT AND MONITORING

1. The Division shall oversee the AdSS utilizing the following methods to ensure compliance with policy:

a. Annual Operational Review of each AdSS,

b. Review and analyze deliverable reports submitted by the AdSS, and

c. Conduct oversight meetings with the AdSS for the purpose of:

i. Reviewing compliance,

ii. Addressing concerns with access to care or other quality of care concerns,

iii. Discussing systemic issues, and

iv. Providing direction or support to the AdSS as necessary.

SUPPLEMENTAL INFORMATION

1. A controlled substance is defined in A.R.S. § 32-3248.01. For opioid prescribing guidelines refer to the Arizona Opioid Epidemic Act.
2. The Division shall require the AdSS to cover medically necessary,

cost-effective and federally and State reimbursable medications and devices for Members as prescribed or administered by a physician, physician's assistant, nurse practitioner, dentist, or other AHCCCS registered practitioner with prescriptive authority in the State of Arizona and dispensed by an AHCCCS registered licensed pharmacy pursuant to 9 A.A.C. 22 Article 2, 9 A.A.C. 28 Article 2, and 9 A.A.C. 31 Article 2, and for persons with a SMI designation, pursuant to A.R.S. § 36-550.

3. Generic and Biosimilar substitutions shall adhere to Arizona State Board of Pharmacy rules and regulations.

4. Arizona 340B entity hospitals, and outpatient facilities owned and operated by a 340B entity hospital, are not exempt from the reimbursement methodology listed in Section (P) (2).

5. Effective with a future date to be determined, 340B hospitals and outpatient facilities, owned and operated by a 340B hospital, shall be required to submit claims at the entity's AAC.

6. The provider shall use the most cost-effective product(s) for the

required dose to be administered. For example, if the dose to be administered is 12mg and the product is available in a 10mg and 50mg vial, the provider shall use two - 10mg vials to obtain the 12mg dose. The 12mg dose shall be billed as the administered dose and 8mg shall be billed as discarded waste using the JW modifier.

7. Effective 01/01/22 repackaged medications are not Federally and State reimbursable.

8. Mental Health Block Grant (MHBG) provisions shall apply to Children with Serious Emotional Disturbance (SED), Individuals in First Episode Psychosis (FEP), and Adults with SMI designation. For individuals with a Substance Use Disorder (SUD), Substance Abuse Block Grant (SABG) provisions shall apply.

9. The AHCCCS Pharmacy and Therapeutics (P&T) Committee is responsible for developing, managing, and updating the AHCCCS Drug List to assist providers in selecting clinically appropriate

and cost-effective drugs or devices for Members.

10. The AHCCCS Drug List is not an all-inclusive list of medications for Members.

11. The AHCCCS P&T Committee shall make recommendations to the AdSS on the Grandfathering status of each Non-Preferred Drug for each therapeutic class reviewed by the committee.

12. The AHCCCS Drug List specifies which medications require PA prior to dispensing the medication.

13. Step Therapy programs apply coverage rules at the point of service when a claim is adjudicated that typically require the use of a more cost effective drug that is safe and effective to be used prior to approval of a more costly medication.

14. Guest Dosing is consistent with Substance Abuse and Mental Health Services Administration's (SAMHSA's) guidance regarding medication safety and recovery support.

15. Pharmacies, at their discretion, shall deliver or mail prescription medications to a Member or to an AdSS registered provider's

office for a specific Member.

The Sending OTP Center

1. The Sending OTP Center shall forward information to the Receiving OTP Center prior to the Member's arrival, information shall include:
    a. A valid release of information signed by the Member;
    b. Current medications;
    c. Date and amount of last dose administered or dispensed;
    d. Physician order for Guest Dosing, including first and last dates of Guest Dosing;
    e. Description of clinical stability including recent alcohol or illicit drug Abuse; and
    f. Any other pertinent information.
2. The Sending OTP Center shall provide a copy of the information to the Member in a sealed, signed envelope for the Member to present to the Receiving OTP Center.
3. The Sending OTP Center shall submit notification to the AdSS of

enrollment of the Guest Dosing arrangement.

4. The Sending OTP Center shall accept the Member upon return from the Receiving OTP Center unless other arrangements have been made.

The Guest OTP Center

1. The Guest OTP Center shall:
    a. Respond to the Sending OTP Center in a timely fashion, verifying receipt of information and acceptance of the Member for guest medication as quickly as possible;
    b. Provide the same dosage that the Member is receiving at the Member's Sending OTP Center, and change only after consultation with Sending OTP Center;
    c. Bill the Member's Contractor of enrollment for reimbursement utilizing the appropriate coding and modifier;
    d. Provide address of Guest OTP Center and dispensing hours;

e. Determine appropriateness for dosing prior to administering a dose to the Member. The Guest OTP Center has the right to deny medication to a Member if they present inebriated or under the influence, acting in a bizarre manner, threatening violence, loitering, or inappropriately interacting with other Members;

f. Communicate any concerns about a guest-dosing the Member to the Sending OTP Center including termination of guest-dosing if indicated; and

g. Communicate the last dose date and amount back to the Sending OTP Center.

Signature of Chief Medical Officer: Anthony Dekker (Jan 18, 2024 17:39 MST)
Anthony Dekker, D.O.

310-X REHABILITATIVE THERAPY

REVISION DATE: 7/3/2015, 9/15/2014
EFFECTIVE DATE: June 30, 1994

Rehabilitation is the process of re-establishing former functions or skills. This includes physical, occupational, and speech therapies. This service may occur after a trauma has decreased the functioning of a member. Rehabilitative therapies are not designed to build a skill or functioning level that had not been previously present in the member.

310–Y RESPIRATORY THERAPY

EFFECTIVE DATE: March 3, 2017
REFERENCES: A.R.S. § 32-3501

The Division of Developmental Disabilities (Division) covers respiratory therapy treatment service for members eligible for ALTCS, when ordered by a primary care provider, to restore, maintain, or improve respiratory functioning.

Services include:

A. Administering pharmacological, diagnostic, and therapeutic agents related to respiratory and inhalation care procedures

B. Observing and monitoring signs and symptoms

C. General behavioral and physical response(s) to respiratory treatment and diagnostic testing, including a determination of whether these signs, symptoms, reactions, or response(s) exhibit abnormal characteristics

D. Implementing appropriate reporting referral

E. Implementing respiratory care protocols or changes in treatment based on observed abnormalities.

The Division covers medically necessary respiratory therapy services for all members eligible for ALTCS on both an inpatient and outpatient basis. Services must be provided by a qualified respiratory practitioner under A.R.S. § 32-3501 (respiratory therapist or respiratory therapy technician), licensed by the Arizona Board of Respiratory Care Examiners. Respiratory practitioners providing services to Division members outside the State of Arizona must meet the applicable state and/or federal requirements.

310-BB TRANSPORTATION FOR PHYSICAL AND BEHAVIORAL HEALTH SERVICES

REVISION DATE: 02/22/2023, 10/1/2021, 11/17/2017, 7/3/2015, 9/15/2014
EFFECTIVE DATE: June 30, 1994
REFERENCES: A.R.S. § 28-2515; A.A.C. R9-22-211, A.A.C. R9-22-211,AMPM 310, AMPM 310-BB, AMPM 320-I, AMPM 700

PURPOSE

This policy describes covered transportation services for members who are eligible for Arizona Long Term Care System (ALTCS).

DEFINITIONS

1. "Alternative Destination Partner" means an Arizona Health Care Cost Containment System (AHCCCS) registered provider, such as a Federally Qualified Healthcare Center/Rural Health Clinic (FQHC/RHC), primary care provider doctor, specialist, behavioral health center or urgent care clinic.

2. "Certificate of Necessity (CON)" means regulations that require healthcare providers to get special permission from the government before adding or expanding healthcare services or

facilities.

3. "Emergency Transportation" means ground and air ambulance services that are medically necessary to manage an emergency physical or behavioral health condition and which provide transport to the nearest appropriate facility capable of treating the individual's condition. Emergency transportation is needed when due to a sudden onset of a physical or behavioral health condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that the absence of immediate medical attention could be expected to result in:
   a. Placing the member's health in serious jeopardy, or
   b. Serious impairment of bodily functions, or
   c. Serious dysfunction of any bodily organ or part, or
   d. Serious physical harm to self or another individual.

4. "Emergency Triage, Treat, and Transport", "ET3" means a program designed to allow greater flexibility for ambulance providers registered with AHCCCS as Emergency Transportation providers to address a member's health care needs following a

9-1-1 call. ET3 permits Emergency Transportation providers to transport a member to the nearest appropriate AHCCCS-registered facility, and to initiate and facilitate a members' receipt of medically necessary covered service(s) at the scene of a 9-1-1 response either in-person on the scene or via telehealth.

5. "Maternal Transport Program (MTP)"/" Newborn Intensive Care Program (NICP)" means programs that are administered by the ADHS that provide special training and education to designated staff in the care of maternity and newborn emergencies during transport to a perinatal center.

POLICY

A. EMERGENCY TRANSPORTATION

1. The Division shall cover Emergency Transportation in emergent situations in which specially staffed and equipped ambulance transportation is required to safely manage the member's condition.

2. The Division shall cover basic life support, advanced life support, and air ambulance services when medically necessary.
3. The Division shall cover emergency transportation for an emergency medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that the absence of immediate medical attention could be expected to result in:
    a. Placing the member's health in serious jeopardy,
    b. Serious impairment of bodily functions,
    c. Serious dysfunction of any bodily organ or part, or
    d. Serious physical harm to another person (for behavioral health conditions).
4. The Division shall not require prior authorization for emergency transportation.
5. The Division shall cover Emergency Transportation that includes the transportation of a member to a higher level of care for immediate medically necessary treatment, including when occurring after stabilization at an emergency facility.

6. The Division shall cover emergency medical transportation to the nearest appropriate AHCCCS-registered facility capable of meeting the member's physical and behavioral health needs.

B. AIR AMBULANCE

1. The Division shall cover air ambulance services under the following conditions:
   a. The air ambulance transport is initiated at the request of:
      i. Emergency response unit,
      ii. Law enforcement official,
      iii. Clinic or hospital medical staff member, or
      iv. Physician or practitioner.
   b. The point of pickup is:
      i. Inaccessible by ground ambulance,
      ii. There is a great distance from the nearest hospital or other provider with appropriate facilities to treat the member's condition and ground ambulance will not suffice, or

iii. The medical condition of the member requires immediate intervention of emergency ambulance personnel or providers with the appropriate facilities to treat the member's condition.

2. The Division shall ensure that air ambulance companies are licensed by the Arizona Department of Health Services (ADHS) and registered as a provider with AHCCCS.

C. EMERGENCY TRIAGE, TREAT AND TRANSPORT PROGRAM (ET3)

1. The Division shall cover the Emergency Triage, Treat, and Transport Program (ET3) when an Emergency Transportation provider responds to a "9-1-1", fire, police, or other locally established system for emergency calls.

2. The Division shall require the Emergency Transportation provider be AHCCCS-registered and have a Certificate of Necessity (CON) from ADHS; or are tribal providers who have a signed AHCCCS attestation of CON equivalency in order to transport a member to an appropriate AHCCCS-registered provider or provide

treatment to the member on the scene.

3. The Division shall cover transportation to an Alternative Destination Partner when the emergency response team's field evaluation of the member shows the services are medically necessary but not emergent, when the following conditions are met:

   a. Transport to an Alternative Destination Partner will meet the member's level of care more appropriately than transport to an emergency department;

   b. The appropriate AHCCCS-registered provider is within or near the responding Emergency Transportation provider's services area;

   c. The Emergency Transportation provider has a pre-established arrangement with the AHCCCS-registered provider located within their region; and

   d. The Emergency Transportation provider has knowledge of the AHCCCS-registered provider's:

i. Hours of operation;

ii. Clinical Staff available;

iii. Services provided; and

iv. Ability to arrange transportation for the member to return home, as needed.

4. The Division shall cover emergency treatment on the scene when:

a. The emergency response team's evaluation of the member shows that services are medically necessary but not emergent;

b. The Emergency Transportation provider treats the member in accordance with the provider's scope of practice and their emergency transport service's medical direction, including the use of telemedicine when medically indicated.

D. EMERGENCY TRANSPORTATION PROVIDER REQUIREMENTS FOR EMERGENCY TRANSPORTATION SERVICES PROVIDED TO MEMBERS LIVING ON TRIBAL LANDS

1. The Division shall ensure that in addition to other requirements specified in this policy, Emergency Transportation providers rendering services on tribal lands meet the following requirements:

   a. Tribal emergency transportation providers shall be certified by the Tribe and Center for Medicare and Medicaid Services (CMS) as a qualified provider and shall be registered as an AHCCCS provider.

   b. If a non-tribal emergency transportation provider renders services under a contract with a Tribe, either on-reservation or to and from an off-reservation location, the provider shall be State licensed and certified and shall be registered as an AHCCCS provider.

   c. Non-tribal emergency transportation providers not under contract with a Tribe shall meet requirements specified in this Policy for emergency transport providers.

E. MEDICALLY NECESSARY NON-EMERGENCY TRANSPORTATION FOR MEDICAL AND BEHAVIORAL HEALTH SERVICES

1. The Division shall cover medically necessary, non-Emergency Transportation when furnished by non-Emergency Transportation providers to transport the member to and from a covered physical or behavioral service. Such transportation services may also be provided by Emergency Transportation providers after assessment by the Emergency Transportation team or paramedic team that the team determines the member's condition requires medically necessary transportation. Medically necessary non-emergency transportation is also referred to as Non-Emergency Medical Transportation (NEMT).

2. The Division shall cover NEMT services under the following conditions:

   a. The physical or behavioral health service for which the transportation is needed, is a service covered by the Division;

   b. The member is not able to provide, secure, or pay for their

own transportation, and free transportation is not available; and

c. The transportation is provided to and from the nearest appropriate AHCCCS-registered provider.

3. The Division shall also cover NEMT services to transport a member to obtain their Medicare Part D covered prescriptions.

4. The Division shall cover medically necessary NEMT services furnished by all AHCCCS-registered providers who offer transportation for members traveling to a pharmacy. For those members living in Maricopa and Pinal counties, the travel mileage to a pharmacy is limited to 15 miles. Mileage is calculated from the pick-up location to the drop off location, one direction. NEMT trips for members traveling to Multi-Specialty Integrated Clinics (MSIC) or IHS/638 facilities are exempt from this limitation.

5. The Division shall cover non-Emergency Transportation of a family member or caregiver without the presence of the member

when provided for the purpose of carrying out medically necessary services identified in the member's service/treatment plan.

6. The Division shall cover medically necessary non-Emergency Transportation provided by non-ambulance providers when:
   a. The member must not require medical care enroute;
   b. Passenger occupancy must not exceed the manufacturer's specified seating occupancy;
   c. Members, companions, and other passengers must follow state laws regarding passenger restraints for adults and children;
      i. Vehicle must be driven by a licensed driver, following applicable State laws;
      ii. Vehicles must be insured;
      iii. Vehicles must be in good working order;
      iv. Members, companions, and other passengers must be transported inside the vehicle; and
      v. School-based providers should follow the

school-based policies in effect.

7. The Division may cover the cost of non-Emergency Transportation, if medically necessary, provided by a non-ambulance air or equine NEMT provider only when all of the following conditions are met:
   a. The service is exclusively used to transport the member to ground accessible transportation;
   b. The member's point of pick-up or return is inaccessible by ground transport; and
   c. Ground transport is not accessible because of the nature and extent of the surrounding rural or tribal terrain.

8. The Division shall cover non-Emergency Transportation when medically necessary and furnished by ambulance providers when the following conditions are met:
   a. Other methods of transportation are contraindicated, this must be documented;
   b. The medical condition (regardless of bed confinement) of

the member requires the medical treatment be provided by qualified staff in an ambulance;

c. For hospitalized members only:

i. The Division shall cover round trip air or ground transportation services if an inpatient hospitalized member travels to another facility to obtain necessary specialized diagnostic or therapeutic services.

d. The Division shall cover the cost of the transportation if the services are not available in the hospital in which the member is hospitalized.

9. The Division shall ensure public transportation is offered as an option to a member when it is available within the service area and NEMT services are requested and is limited to AHCCCS approved services. The following shall be considered when offering public transportation:

a. Location of the member to a transportation stop;

b. Location of the Provider and/or AHCCCS approved services to a transportation stop;

c. Coordination of the member's appointment with the public transportation schedule;

d. Ability of the member to travel alone on public transportation; or

e. Member preference.

F. MATERNAL AND NEWBORN TRANSPORTATION

1. The Division shall cover medically necessary maternal and newborn transportation through the Maternal Transport Program (MTP) and the Newborn Intensive Care Program (NICP).

310-DD COVERED TRANSPLANTS AND RELATED IMMUNOSUPPRESSANT MEDICATIONS

REVISION DATE: 4/26/2023, 3/1/2023, 5/18/2022, 7/3/2015, 9/15/2014
EFFECTIVE DATE: June 30, 1994
REFERENCES: A.R.S. §36-2907, 2939; A.A.C. R9-22-202, 203, 28-201, 42 CFR 438.208, AHCCCS Medical Policy Manual Chapter 300 Policy 310-DD

PURPOSE

This policy outlines the coverage for transplants, related services, and immunosuppressant medications.

DEFINITIONS

1. "Behavioral Health Professional" or BHP" means
    a. An individual licensed under A.R.S. Title 32, Chapter 33, whose scope of practice allows the individual to:
        i. Independently engage in the practice of behavioral health as defined in A.R.S. §32-3251, or
        ii. Except for a licensed substance abuse technician, engage in the practice of behavioral health as defined in A.R.S.§32-3251 under direct supervision as defined in A.A.C. R4-6-101,
    b. A psychiatrist as defined in A.R.S. §36-501,

c. A psychologist as defined in A.R.S. §32-2061,

d. A physician,

e. A behavior analyst as defined in A.R.S. §32-2091,

f. A registered nurse practitioner licensed as an adult psychiatric and mental health nurse, or

g. A registered nurse with:

i. A psychiatric-mental health nursing certification, or

ii. One year of experience providing behavioral health services

2. "Disability" means a physical or mental impairment that substantially limits one or more major life activities, a person who has a history or record of such an impairment, or a person who is perceived by others as having such an impairment.

3. "Early and Periodic Screening, Diagnostic, and Treatment" or EPSDT" is a comprehensive child health program of prevention, treatment, correction, and improvement of physical and behavioral health conditions for members under the age of 21, to ensure the availability and accessibility of health care resources as well as to assist Medicaid recipients in effectively utilizing

these resources. EPSDT services provide comprehensive health care through primary prevention, early intervention, diagnosis, medically necessary treatment, and follow-up care of physical and behavioral health conditions for AHCCCS Members less than 21 years of age. EPSDT services include screening services, vision services, dental services, hearing services and all other medically necessary mandatory and optional services as specified in Federal Law 42 U.S.C. 1396d(a) to correct or ameliorate defects and physical and behavioral health illnesses and conditions identified in an EPSDT screening whether or not the services are covered under the AHCCCS State Plan. Limitations and exclusions, other than the requirement for medical necessity and cost effectiveness, do not apply to EPSDT services.

4. “Foundation for the Accreditation of Cellular Therapy” or FACT” is a non-profit corporation co-founded by the International Society for Cellular Therapy (ISCT) and the American Society of Blood and Marrow Transplantation (ASBMT) for the purposes of

voluntary inspection and accreditation in the field of cellular therapy.

5. "Member" means the same as "Client" as defined in A.R.S. § 36-551.
6. "Organ Procurement and Transplantation Network" or "OPTN" is a public-private partnership operated through the United States Department of Health and Human Services and established through the National Organ Transplant Act (NOTA). The OPTN policies govern operation of all Member transplant hospitals, Organ Procurement Organizations (OPOs) and histocompatibility labs in the United States.
7. "Standard of Care" means a medical procedure or process that is accepted as treatment for a specific illness, injury or medical condition through custom, peer review or consensus by the professional medical community.
8. "Second Level Review" means a review performed by a Division of Developmental Disabilities (Division) Medical Director who has the appropriate clinical expertise in managing a Member's condition or disease. Second Level Review is used to screen for

medical necessity and compare the findings to clinical data in the Member's medical record to ensure Division Members are receiving medically appropriate and high quality care.

9. "United Network for Organ Sharing" or UNOS" means a Private, non-profit organization that manages the nations' organ transplant system under contract with Organ Procurement and Transplantation Network , including managing the national transplant Waiting List and maintaining the database that contains all organ transplant data for every transplant event that occurs in the United States.

10. "Waiting List" as defined by OPTN, is a computerized list of candidates who are waiting to be matched with specific deceased donor organs for transplant.

POLICY

A. GENERAL INFORMATION

1. The Division of Developmental Disabilities (Division) shall follow all Federal, State and Arizona Health Care Cost Containment System (AHCCCS) requirements for coverage of transplants, related services, and immunosuppressant medications.

2. The Division shall delegate the responsibility of implementing this policy to the Administrative Services Subcontractors (AdSS) for Members enrolled in a subcontracted health plan.

3. The Division shall coordinate physical and behavioral health services for Members enrolled in the Tribal Health Program (THP), while the provision and administration of organ transplant benefits will be completed by AHCCCS Department of Fee for Service Management (DFSM).

B. COVERED TRANSPLANTS

1. The Division shall cover the following transplant types for Members aged 21 and older:

   a. Heart;

   b. Single lung and double lung ;

   c. Heart-Lung;

   d. Liver

   e. Cadaveric kidney and living donor kidney;

   f. Simultaneous liver and kidney;

   g. Simultaneous pancreas and kidney;

   h. Pancreas after kidney; and

i. Hematopoietic Stem Cell Transplants:

i. Allogeneic related,

ii. Allogeneic unrelated,

iii. Autologous, and

iv. Tandem Hematopoietic Stem Cell Transplant.

2. The Division shall cover all non-experimental transplants for Members under the age of 21 under the Early and Periodic Screening Diagnostic and Treatment (EPSDT) Program that are medically necessary to correct or ameliorate defects, illnesses, and physical conditions. Transplants for EPSDT Members are covered when medically necessary irrespective of whether the particular non-experimental transplant is specified as covered in AMPM 310-DD.

3. The Division shall ensure that transplants are medically necessary, non-experimental, and federally reimbursable, state reimbursable, and fall within the medical Standard of Care for coverage.

4. The Division shall use national standards for transplantation which include policy for:

a. Organ Procurement Transplant Network,

b. Centers for Medicare and Medicaid Services (CMS),

c. United Network for Organ Sharing, and

d. Foundation for the Accreditation of Cellular Therapy.

5. The Division shall cover Circulatory Assist Devices (CADs), including Left Ventricular Assist Devices (LVADs) services for destination therapy and as a bridge to transplant when medically necessary and non-experimental.

6. The Division shall cover corneal transplants and bone grafts when medically necessary, cost effective and non-experimental as specified in AMPM Exhibit 300-1 and AMPM Policy 820.

7. The Division Medical Director shall:

a. Complete a Second Level Review of all denials for transplant services and transplant related immunosuppressant medications for Members,

b. Have the final authority to approve or deny transplant services, and

c. Consult with the AHCCCS Medical Director for THP or the assigned subcontracted health plan's Medical Director

when there are questions regarding the transplant services.

C. COVERED TRANSPLANT SERVICES

1. The Division shall cover the following services, as required by the specific type of transplant:
   a. Inpatient or outpatient pre-transplant evaluation , which includes, but is not limited to, the following:
      i. Physical examination,
      ii. Psychological evaluation,
      iii. Laboratory studies,
      iv. Radiology and diagnostic imaging or procedures, and
      v. Biopsies.
   b. Donor search, Human Leukocyte Antigen (HLA) typing, and harvest as necessary for hematopoietic transplants;
   c. Pre-transplant dental evaluation and treatment as described in AMPM Policy 310-D1 under Exception for Transplant Cases;
   d. Transplantation;

e. Inpatient or outpatient post-transplant care, which may include the following:

i. Laboratory studies,

ii. Radiology and diagnostic imaging or procedures,

iii. Biopsies,

iv. Home health,

v. Skilled nursing facility services,

vi. All related transplant medications, including transplant related immunosuppressant medications, as referenced in Division Medical Manual Policy 310-V, and

vii. Transportation, and room and board for the transplant candidate, donor and, if needed, one adult caregiver as identified by the transplant facility.

1) Coverage is limited to medical treatment transportation, to and from the facility, during the time it is necessary for the Member to remain in close proximity to the transplant center.

2) Coverage includes the periods of evaluation, on-going testing, transplantation, and post-transplant care by the transplant center.

2. The Division shall ensure the Living Donor Coverage is limited to the following when provided in the United States:

a. Evaluation and testing for suitability;

b. Solid organ or hematopoietic stem cell procurement, processing, and storage; and

c. Transportation and lodging when it is necessary for:

i. The potential donor to travel for testing to determine if they are a match, and

ii. Donating either stem cells or organs.

D. CONDITIONS FOR TRANSPLANTATION

1. The Division through oversight of the AdSS shall ensure the following conditions are met for transplantation:

a. Transplant candidates meet the criteria to be added to the Waiting List.

b. Medical comorbidities are assessed through history and physical with a plan developed for appropriate care and ensure the following:

   i. Changes in medical conditions shall be assessed for the impact upon transplant candidacy.

   ii. All transplant candidates shall undergo routine age-condition appropriate screening for disease.

c. Identified indolent or chronic infections have a plan of containment in accordance with an infectious disease specialist's recommendation.

d. Members with identified neoplasms are assessed in accordance with an oncologist's recommendations.

e. Psychosocial environment is assessed, and appropriate plans are generated to mitigate issues of adherence.

f. For Members with prior adherence issues, plans with a BHP are developed.

g. The Division shall ensure that Members with substance use disorder(s) have:

i. Plans for treatment before and after the organ replacement; and

ii. Consultation with a BHP who will work as a part of the treatment team to support the Member needs and maintain wellness and recovery oriented treatment, services and supports.

E. TRANSPLANT SERVICES AND SETTINGS

1. The Division through oversight of the AdSS shall ensure solid organ transplant services are provided in a CMS certified and UNOS approved transplant center which meets the Medicare conditions for participation and special requirements for transplant centers as specified in 42 CFR Part 482.
2. The Division through oversight of the AdSS shall ensure hematopoietic stem cell transplant services are provided in a facility that has achieved FACT accreditation. The facility shall meet the Medicare conditions for participation and any additional federal requirement for transplant facilities.

3. The Division through oversight of the AdSS shall ensure reimbursement is only available for transplant centers that meet the above requirements.

F. ADDITIONAL REQUIREMENTS

1. The Division shall ensure the AdSS covers out-of-network solid organ or hematopoietic stem cell transplants that meet the following requirements:
   a. Services are covered for Members who have current medical requirements that cannot be met by an AHCCCS contracted transplant center.
   b. Medical requirements for an out-of-network transplant request are clearly documented, specifying the level of technical expertise or program coverage that is not provided at an AHCCCS contracted facility.
   c. Review the quality and outcome data published for the out-of-network facility.
   d. The Division shall ensure the AdSS cover solid organ living donor-related costs for pediatric kidney and liver transplants and adult kidney transplants.

2. The Division shall consider living donor transplants on a case-by-case basis for solid organs other than pediatric and adult kidney and pediatric liver when medically necessary and cost effective.
    a. Payment is limited for solid organ living donors other than pediatric and adult kidney and pediatric liver to the surgical procedure and follow-up post-op care provided to the donor through post-op day three.
    b. For any additional charges, the living donor shall accept the terms of financial responsibility for the charges associated with the transplant that are in excess of the AHCCCS Specialty Contract for Transplantation Services.
3. The Division shall provide limited coverage for medically necessary and non-experimental services following the discharge from the acute care hospital, if a Division Member receives a transplant that is not covered by AHCCCS guidelines.
    a. Excluded services:
        i. Evaluations and treatments to prepare for transplant candidacy,

ii. The actual transplant procedure and accompanying hospitalization, or

iii. Organ or tissue procurement.

b. Covered services include:

i. Transitional living arrangements appropriately ordered for post-transplant care when the Member does not live in close proximity to the transplant center,

ii. Essential laboratory and radiology procedures,

iii. Therapies that are medically necessary post-transplant,

iv. Immunosuppressant medications, and

v. Transportation that is medically necessary post-transplant.

4. The Division shall utilize the AHCCCS Specialty Contract for Transplantation Services for second covered organ transplant performed during the follow-up care periods of the first transplant.

5. The Division shall utilize the AHCCCS Reinsurance Processing Manual for transplantation reinsurance standards.
6. The Division shall utilize the AHCCCS Specialty Contract for Transplantation Services for detailed information regarding transplant coverage and payment for transplant services and transplant related services.

G. TRANSPLANT CARE COORDINATION

1. The Division's Transplant Coordinator shall coordinate with the AdSS Transplant Coordinator or the AHCCCS Transplant Coordinator at least quarterly and on an ad hoc basis to ensure Member's health services needs are being met and to ensure continuity of care.
2. The Division shall ensure on a quarterly basis, the subcontracted health plans submit Division specific AHCCCS Transplant Logs for review and tracking.
3. The Division shall ensure Members receiving care through the Tribal Health Program who are being considered for transplant services, will coordinate with the Transplant Coordinator to ensure continuity of care for the Member is maintained.

4. The Division Transplant Coordinator shall notify the Division Support Coordinator regarding the Member's transplant status. The Division Support Coordinator will work with the planning team, the Division Transplant Coordinator, and other adjunct services or support representatives and the Member to identify and address needs, modify the planning document to support the delivery of services and support as needed.

H. ORGAN TRANSPLANT ELIGIBILITY

1. The Division shall not, solely on the basis of a Member's Disability, do any of the following:
   a. Determine that the Member is ineligible to receive an organ transplant
   b. Deny the Member's medical or other services related to an organ transplant, including:
      i. Evaluation,
      ii. Surgery,
      iii. Counseling, and
      iv. Postoperative treatment.

c. Refuse to refer the Member to a transplant hospital or other related specialist for evaluation or receipt of an organ transplant.

d. Refuse to place the individual on an organ transplant Waiting List or place the Member at a position lower in priority on the list than the position the Member would be placed if not for the Member's Disability.

e. Decline insurance coverage for the Member for any procedure associated with the receipt of an organ transplant or related services associated with the receipt of an organ transplant or for related services if the procedure or services would be covered under such insurance for the Member if not for the Member's Disability.

2. The Division shall not consider a Member's inability to independently comply with posttransplant medical requirements as medically significant if the Member has a known Disability and the necessary support system to assist the Member in reasonably complying with the requirements.

I. DIVISION OVERSIGHT

1. The Division shall oversee the AdSS utilizing the following methods to ensure compliance with policy:
   a. Annual Operational Review of each AdSS,
   b. Review and analyze deliverable reports submitted by the AdSS, and
   c. Conduct oversight meetings with the AdSS for the purpose of:
      i. Reviewing compliance,
      ii. Addressing concerns with access to care or other quality of care concerns,
      iii. Discussing systemic issues, and
      iv. Providing direction or support to the AdSS as necessary.

310-FF MONITORING CONTROLLED AND NON-CONTROLLED MEDICATION UTILIZATION

REVISION DATE: 1/3/2024, 09/06/2023, 9/30/2020
REVIEW DATE: 9/6/2023
EFFECTIVE DATE: October 1, 2019
REFERENCES: 42 CFR 431.54; 42 CFR 455.2; 42 USC 1396A(OO); 21 U.S.C § 802(6); A.A.C. R9-34-302; A.A.C. R9-43-202; A.A.C. Title 9, Chapter 34, Articles 2 and 3; AMPM 310-FF; AMPM 310-V; AMPM 910; AMPM 1024; ACOM 103.

PURPOSE

This policy sets forth the requirements for monitoring controlled and non-controlled medication use and the requirements to ensure Members receive clinically appropriate prescriptions.

DEFINITIONS

1. "Abuse" means provider practices that are inconsistent with sound fiscal, business, or medical practices, and result in an unnecessary cost to the AdSS program, or in reimbursement for services that are not medically necessary or that fail to meet professionally recognized standards for health care. It also includes beneficiary practices that result in unnecessary cost to the Division Program.

2. "Controlled Substance" means drugs and other substances that are defined as Controlled Substances under 21 U.S.C § 802(6).

3. "CSPMP" means the Arizona State Board of Pharmacy Controlled Substance Prescription Monitoring Program.

4. "Drug Diversion" means redirection of prescription drugs for illicit purposes.

5. "Emergencies" means medical services provided for the treatment of an emergency medical condition that manifests itself by acute symptoms of sufficient severity, including severe pain, such that a prudent layperson who possesses an average knowledge of health and medicine could reasonably expect the absence of immediate medical attention to result in any of the following:

    a. Placing the Member's health in serious jeopardy;

    b. Serious impairment to bodily functions;

    c. Serious dysfunction of any bodily organ or part;

d. The medication is out-of-stock at the Exclusive Pharmacy; or

e. The Exclusive Pharmacy is closed.

6. "Exclusive Pharmacy" means an individual pharmacy, which is chosen by the Member or assigned by the Administrative Delegated Subcontractor Services (AdSS) to provide all medically necessary, federally reimbursable pharmaceuticals to the Member.

7. "Fraud" means an intentional deception or misrepresentation made by a person with the knowledge that the deception could result in some unauthorized benefit to himself or some other person. It includes any act that constitutes Fraud under applicable State or Federal law.

8. "Intervention" means for the purpose of this policy, the requirements to ensure members receive clinically appropriate prescriptions.

9. "Member" means the same as "Client" as defined in A.R.S. §

36-551.

10. "Waste" means over-utilization or inappropriate utilization of services, misuse of resources, or practices that result in unnecessary costs to the Medicaid Program.

POLICY

A. MONITORING REQUIREMENTS

1. The Division shall oversee and monitor controlled and non-controlled medications on an ongoing basis at quarterly meetings with reporting at the Division's Pharmacy and Therapeutics subcommittee meeting, Quality Management and Performance Improvement and Medical Management meetings.
2. The Division shall monitor the evaluation of prescription use by Members, prescribing patterns by clinicians and dispensing by pharmacies.
3. The Division shall use drug utilization data to identify and screen high-risk Members and providers who may facilitate Drug Diversion.

4. The Division shall identify monitoring requirements that determine potential misuse of the drugs used in the following therapeutic classes:
    a. Atypical Antipsychotics,
    b. Benzodiazepines,
    c. Hypnotics,
    d. Muscle Relaxants,
    e. Opioids, and
    f. Stimulants.

5. The Division shall use the following resources, when available, for their monitoring activities:
    a. Prescription claims data;
    b. Controlled Substance Prescription Monitoring Program (CSPMP);
    c. TRBHA prescription claims data; and
    d. Pertinent data used for monitoring controlled and non-controlled medication utilization.

6. The Division shall monitor the prescription encounter data quarterly to identify:
    a. Medications filled prior to the calculated days supply,
    b. Number of prescribing clinicians,
    c. Number of different pharmacies used by the Member, and
    d. Other potential indicators of medication misuse.

B. INTERVENTION REQUIREMENTS

1. The Division shall require the AdSS to implement the following required Interventions to ensure Members receive the appropriate medication, dosage, quantity, and frequency:
    a. Provider education,
    b. Point-of-Sale (POS) safety edits and quantity limits,
    c. Care management,
    d. Assignment by the AdSS of Members who meet either of the following evaluation parameters listed below to an Exclusive Pharmacy, exclusive provider or both for up to a 12-month period:

i. A Member using the following in a three-month time period:

a) Greater than four prescribers, and

b) Greater than four different Abuse potential drugs, and

c) Four Pharmacies; or

d) The Member has received 12 or more prescriptions of the medications listed in the Monitoring Requirements section in the past 3 months.

ii. A Member has presented a forged or altered prescription to the pharmacy.

2. The Division shall permit the AdSS to implement additional interventions and more restrictive parameters for referral to, or coordination of care with behavioral health service providers or other appropriate specialists when the AdSS deems it necessary or beneficial to their Members.

3. The Division shall require the AdSS to provide a written notice

detailing the factual and legal basis for the restriction, to any Member who has been assigned to an exclusive provider or pharmacy or both for up to 12 months utilizing AMPM 310-FF Attachment A.

4. The Division shall ensure the AdSS treats this restriction as an "action" pursuant to A.A.C. R9-43-202 and A.A.C. R9-34-302.

5. The Division shall require the AdSS to provide written notice that informs the Member of the opportunity to file an appeal to the restriction and the timeframes and process for doing so as described in A.A.C. Title 9, Chapter 34, Articles 2 and 3.

6. The Division shall ensure that the AdSS shall not implement the restriction before providing the Member written notice of the restriction and opportunity for an appeal or State fair hearing.

7. The Division shall require that the AdSS not impose a restriction if the Member has filed an appeal, until:
   a. The Medical Director of the AdSS' decision has affirmed the restriction,

b. The Member has voluntarily withdrawn the appeal or request for hearing, or

c. The Member fails to file an appeal or request for hearing no later than 30 calendar days from the date of the notice.

8. The Division shall require the AdSS to review the Member's prescription and other utilization data to determine whether the Interventions will be continued or discontinued, at the end of the designated time period which is no longer than every 12 months.

9. The Division shall require AdSS to notify the Member in writing of the decision to continue or discontinue the assignment of the pharmacy or provider.

10. The Division shall require the AdSS to utilize AMPM 310-FF Attachment A to include instructions for the appeals or fair hearing process to the Member if the decision is to continue the assignment.

11. The Division shall not require the AdSS to apply the Intervention of assigning an Exclusive Pharmacy or provider to emergency

services furnished to the Member.

12. The Division shall require the AdSS to ensure that the Member has reasonable access to services covered by the Division, taking into account the geographic location and reasonable travel time.
13. The Division shall require the AdSS to provide specific instructions to the Member, the assigned Exclusive Pharmacy or exclusive provider, and their Pharmacy Benefit Manager, on how to address Emergencies.
14. The Division shall allow the AdSS to assign Members who meet any of the parameters in Section (B)(15) to a single prescriber in addition to the assignment to an Exclusive Pharmacy.
15. The Division shall not allow the AdSS to subject Members with one or more of the following conditions to the Intervention requirements described in Section (B)(1):
    a. Treatment for an active oncology diagnosis,
    b. Receiving hospice care, or
    c. Residing in a skilled nursing facility or intermediate care facility.

C. REPORTING REQUIREMENTS

1. The Division shall require the AdSS to refer any identified cases of Member deaths due to medication poisoning, overdose or toxic substances and an incident must be filed with the Division's Quality Management staff for research and review.

2. The Division shall require the AdSS to report all suspected Fraud, Waste, and Abuse to the appropriate entity, and copy the Division as specified in ACOM 103.

3. The Division's Health Plan Oversight Committee shall review all Fraud, Waste and Abuse reports.

4. The Division shall require the AdSS report the number of Members on that day that are assigned to an Exclusive Pharmacy or single prescriber, or both, due to excessive use of prescription medications, controlled and non-controlled medications , utilizing AMPM Attachment 1024-A.

5. The Division shall require the AdSS to report to the Division any material changes when the AdSS has additional changes and

implements additional Interventions and more restrictive parameters as noted in this policy.

D. DIVISION OVERSIGHT

1. The Division shall oversee the AdSS utilizing the following methods to ensure compliance with policy:
    a. Annual Operational Review of each AdSS,
    b. Review and analyze deliverable reports submitted by the AdSS, and
    c. Conduct oversight meetings with the AdSS for the purpose of:
        i. Reviewing compliance,
        ii. Addressing concerns with access to care or other quality of care concerns,
        iii. Discussing systemic issues, and
        iv. Providing direction or support to the AdSS as necessary.

Anthony Dekker, D.O.

310-GG NUTRITIONAL THERAPY, METABOLIC FOODS, AND TOTAL PARENTERAL NUTRITION

REVISION DATE: 2/7/2024
REVIEW DATE: 7/25/2023
EFFECTIVE DATE: 06/07/2023
REFERENCES: A.R.S. § 20-2327, AMPM 310-GG, AMPM Policy 430, AMPM 520, AMPM Policy 820

PURPOSE

This policy describes coverage of and requirements for nutritional therapy, metabolic foods and Total Parenteral Nutrition (TPN) for Division of Developmental Disability (DDD) Members, 21 years of age and older, who are eligible for Arizona Long Term Care System (ALTCS).

DEFINITIONS

1. "Commercial Oral Supplemental Nutrition" means nourishment available without a prescription that serves as sole caloric intake or additional caloric intake.

2. "Enteral Nutrition" means liquid nourishment provided directly to the digestive tract of a Member who cannot ingest an appropriate amount of calories to maintain an acceptable

nutritional status. Enteral nutrition is commonly provided by Jejunostomy Tube (J-Tube), Gastrostomy Tube (G-Tube) or Nasogastric (N/G Tube).

3. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

4. "Metabolic Medical Food Formulas" or "Medical Foods" means nutrition and specialized diets used to treat inherited metabolic disorders that are rare genetic conditions in which normal metabolic function is inhibited by a deficiency in a critical enzyme. Metabolic formula or modified low protein foods are produced or manufactured specifically for persons with a qualifying metabolic disorder and are not generally used by persons in the absence of a qualifying metabolic disorder. In order to avoid toxic effects, the treatment of the associated metabolic disorder depends on dietary restriction of foods containing substances that cannot be metabolized by the Member.

5. "Responsible Person" means the parent or guardian of a minor

with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a client or an applicant for whom no guardian has been appointed.

6. "Total Parenteral Nutrition", "TPN" means nourishment provided through the venous system to Members with severe pathology of the alimentary tract that does not allow absorption of sufficient nutrients to maintain weight and strength appropriate for the individual's general condition. Nutrients are provided through an indwelling catheter.

POLICY

A. NUTRITIONAL ASSESSMENT AND THERAPY

1. The Division shall require a nutritional assessment for a Member who has been identified as having a health status which may improve or be maintained with nutritional interventions.

2. The Division shall require a nutritional assessment as determined medically necessary and as a part of health risk assessment and

screening services provided by the Member's Primary Care Provider (PCP) be covered.

3. The Division shall require Nutritional assessment services provided by a registered dietitian also are covered when ordered by the Member's PCP.

4. The Division shall require nutritional therapy on an enteral, parenteral or oral basis when determined medically necessary to provide either complete daily dietary requirements, or to supplement a Member's daily nutritional and caloric intake be covered.

5. The Division shall ensure nutritional supplementation is procured and funded for any other nutritional supplementation medically necessary for Women, Infants, and Children (WIC) exempt formula.

6. The Division shall implement protocols for transitioning a Member who is receiving nutritional therapy to or from subcontractors or providers.

B. PRIOR AUTHORIZATION

1. The Division shall require Prior Authorization (PA) for commercial oral nutritional supplements, enteral nutrition, and parenteral nutrition unless:
   a. The Member is currently receiving nutrition through enteral or parenteral feedings for which PA has already been obtained; or
   b. For the first 30 days with Members who require oral supplemental nutritional feedings on a temporary basis due to an emergent condition, i.e. post-hospitalization.

C. COMMERCIAL ORAL NUTRITIONAL SUPPLEMENTS

1. The Division shall require the Member's PCP or specialty provider to determine the medical necessity for commercial oral nutritional supplements on an individual basis using the criteria specified in this policy.
2. The Division shall require the PCP or specialty provider to use AMPM Attachment 310-GG (A) to obtain authorization.

3. The Division shall require AMPM Attachment 310-GG (A) be used when assessing the medical necessity of providing commercial oral nutritional supplements.

4. The Division shall require the Member meet each of the following requirements in order to obtain medically necessary oral nutritional supplements:

   a. The Member is currently underweight with a Body Mass Index (BMI) of less than 18.5, presenting serious health consequences for the Member, or has already demonstrated a medically significant decline in weight within the past three months prior to the assessment;

   b. The Member is not able to consume or eat more than 25% of their nutritional requirements from typical food sources;

   c. The Member has been evaluated and treated for medical conditions that may cause problems with weight gain and growth (e.g. feeding problems, behavioral conditions or psychosocial problems, endocrine or gastrointestinal

problems); and

d. The Member has had a trial of higher caloric foods, blenderized foods, or commonly available products that may be used as dietary supplements for a period no less than 30 days in duration.

5. The Division shall require the provider to submit AMPM Attachment 310-GG (A), along with supporting documentation from the Division's Medical Director or designee's consideration, demonstrating the risk posed to the Member in approving the provider's PA request, if it is determined through clinical documentation and other supporting evidence that a trial of higher caloric foods would be detrimental to the Member's overall health.

6. The Division shall require supporting clinical documentation received with AMPM Attachment 310-GG (A) is provided to the authorizing health plan that demonstrates the Member meets all of the following required criteria:

   a. Initial Requests:

i. Documentation demonstrating that nutritional counseling has been provided as a part of the health risk assessment and screening services provided to the Member by the PCP or specialty provider, or through consultation with a registered dietitian;

ii. Clinical notes or other supporting documentation dated no earlier than three months prior to date of the request, providing a detailed history and thorough physical assessment and demonstrating evidence of the Member meeting all of the required criteria listed in AMPM Attachment 310-GG (A). The physical assessment shall include the Member's current and past height, weight, and BMI;

iii. Documentation detailing alternatives that were tried in an effort to boost caloric intake or changes in food consistencies that have proven unsuccessful in resolving the nutritional concern identified, as well as Member adherence to the prescribed dietary

plan and alternatives attempted.

b. Ongoing Requests:

i. Subsequent submissions shall include a clinical note or other supporting documentation dated no earlier than three months prior to the date of the request that includes the Member's overall response to supplemental therapy and justification for continued supplement use. This shall include the Member's tolerance, recent hospitalizations, current height, weight, and BMI;

ii. Documentation demonstrating encouragement and assistance provided to the caregiver in weaning the Member from supplemental nutritional feedings should be included, when appropriate;

iii. Members receiving nutritional therapy shall be physically assessed by the Member's PCP, specialty provider, or registered dietitian at least annually; and

iv. Initial and ongoing certificate of medical necessity is

considered valid for a period of six months.

D. METABOLIC MEDICAL FOODS

1. The Division shall require metabolic formulas and medical foods are covered for Members diagnosed with metabolic conditions that are screened for using the Newborn Screening Panel authorized by the Arizona Department of Health Services.

   p. The Division shall require Metabolic formulas and medical foods are covered as specified in A.R.S. § 20-2327 and within the following limitations:

   a. Metabolic formula or modified low protein foods shall be:

      i. Processed or formulated to be deficient in the nutrients specific to the Member's metabolic condition;

      ii. Meet the Member's distinctive nutritional requirements;

      iii. Determined to be essential to sustain the Member's optimal growth within nationally recognized height,

weight, BMI and metabolic homeostasis;

iv. Obtained under physician order; and

v. The Member's medical and nutritional status is supervised by the Member's PCP, attending physician or appropriate specialist.

b. Modified low protein foods shall be formulated to contain less than 1 gram of protein per unit or serving. For purposes of this policy, modified low protein foods do not include foods that are naturally low in protein;

c. Soy formula is covered only for Members receiving Early and Periodic Screening, Diagnosis and Treatment (EPSDT) services, and only until the Member is able to eat solid lactose-free foods;

d. Foods that are available in the grocery store or health food store are not covered as a metabolic food; and

e. Education and training is required regarding proper

sanitation and temperatures to avoid contamination of foods which are blended or specially prepared for the Member if the Responsible Person elects to prepare the Member's food.

E. TOTAL PARENTERAL NUTRITION

1. The Division shall follow Medicare requirements for the provision of Total Parenteral Nutrition (TPN) services.

2. The Division shall require TPN is covered for Members over age 21 when it is medically necessary and the only method to maintain adequate weight and strength.

3. The Division shall require TPN when medically necessary, is covered for members receiving EPSDT.

F. DIVISION OVERSIGHT

1. The Division shall oversee the AdSS utilizing the following methods to ensure compliance with policy:

   a. Annual Operational Review of each AdSS,

b. Review and analyze deliverable reports submitted by the AdSS, and

c. Conduct oversight meetings with the AdSS for the purpose of:

i. Reviewing compliance,

ii. Addressing concerns with access to care or other quality of care concerns,

iii. Discussing systemic issues, and

iv. Providing direction or support to the AdSS as necessary.

G. SUPPLEMENTAL INFORMATION

For a listing of metabolic conditions and the Newborn Screening Panel refer to the Arizona Department of Health Services at https://www.azdhs.gov/documents/preparedness/state-laboratory/newborn-screening/providers/az-newborn-screening-panel-of-conditions.pdf?v=20230504.

310-HH END OF LIFE CARE AND ADVANCE CARE PLANNING

EFFECTIVE DATE: June 22, 2022
REFERENCES: A.R.S §§ 36-3231, 36-551; 42 C.F.R. 489.102; AdSS 310-J, 415, 640

PURPOSE

This policy establishes guidelines for the concept of End of Life (EOL) care and the provision of Advance Care Planning.

DEFINITIONS

1. "Advance Care Planning" is a part of the End of Life care concept and is a billable service that is a voluntary face-to-face ongoing discussion between a qualified health care professional and the member to:
    a. Educate the member/responsible person about the member's illness and the health care options that are available to them.
    b. Develop a written plan of care that identifies the member's choices for treatment.
    c. Share the member's wishes with family, friends, and his or her physicians.
2. "Advance Directive" is a document by which a person makes provision for health care decisions in the event that, in the future, he/she becomes unable to make those decisions.

3. “Curative Care” includes health care practices that treat patients with the intent of curing them, not just reducing their pain or stress. An example is chemotherapy, which seeks to cure cancer patients.
4. “End-of-Life Care” is a concept of care, for the duration of the member’s life, that focuses on Advance Care Planning, the relief of stress, pain, or life limiting effects of illness to improve quality of life for a member at any age who is currently or is expected to experience declining health, or is diagnosed with a chronic, complex or terminal illness.
5. “Hospice Services” is a program of care and support for terminally ill members who meet the specified medical criteria/requirements.
6. “Practical Support” includes non-billable services provided to a member by a family member, friend or volunteer to assist or perform functions such as, but not limited to housekeeping, personal care, food preparation, shopping, pet care, or non-medical comfort measures.
7. “Qualified Direct Care Worker” is an individual who demonstrates Direct Care Worker (DCW) competencies by passing the required knowledge and skills tests. The DCW Agency is responsible for determining the DCWs competency to provide care utilizing the agency’s policies and procedures, the DCW job description and the supports needs of the members served

by the DCW. In some instances, qualified DCWs may not yet be employed or contracted by a DCW Agency.

8. "Qualified Healthcare Professional" is, for the purposes of Advance Care Planning, a Medical Doctor (MD), Doctor of Osteopathy (DO), Physician Assistant (PA), or Nurse Practitioner (NP).
9. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a client or an applicant for whom no guardian has been appointed. A.R.S. § 36-551.

POLICY

A. END OF LIFE CARE

The Division shall ensure that members receive End of Life (EOL) care that is member-centric, includes Advance Care Planning, and the delivery of appropriate health care services and practical supports by the AdSS and Support Coordination.

The goals of EOL care shall focus on providing treatment, comfort, and quality of life for the duration of the member's life. Care management

is provided to qualifying members/responsible persons to coordinate with treatment provider(s) to meet the member's individual needs.

EOL care is available to members under the age of 21 in conjunction with curative care and hospice care. EOL care for members aged 21 and older can be provided in conjunction with curative care until the member chooses to receive hospice care.

EOL care strives to ensure members achieve quality of life through the provision of services coordinating between the AdSS care management and Division Support Coordination to determine the services and supports necessary to meet the member's needs, including:

1. Physical and/or behavioral health medical treatment to:
    a. Treat the underlying illness and other comorbidities,
    b. Relieve pain,
    c. Relieve stress.
2. Referrals to community resources for services such as, but not limited to:
    a. Pastoral/counseling services,

b. Legal services.

3. Practical supports are non-billable services provided by a family member, friend or volunteer, who are not paid as Direct Care Workers, to assist or perform functions such as, but not limited to:

a. Housekeeping,

b. Personal care,

c. Food preparation,

d. Shopping,

e. Pet care,

f. Non-medical comfort measures.

B. ADVANCE CARE PLANNING

Advance Care Planning shall be initiated by the member's qualified healthcare professional for a member at any age that is currently or is expected to experience declining health or is diagnosed with a chronic, complex or terminal illness. Advance Care Planning shall be an ongoing process for the duration of the member's life.

1. The AdSS shall ensure network providers perform the following as part of the Advance Care Planning/EOL concept of care when treating Division members:

   a. Conduct a face-to-face discussion with the member/responsible person.

   b. Educate the member/responsible person about the member's illness and the health care options that are available to the member to enable them to make educated decisions.

   c. Identify the member's healthcare, social, psychological and spiritual needs.

   d. Develop a written member centered EOL plan of care that identifies the member's choices for care and treatment, as well as life goals.

   e. Share the EOL plan with the care manager and Division Support Coordinator.

f. Share the member's wishes with appropriate designated family, friends, and specialty providers, as appropriate, his or her physicians.

g. Complete Advance Directives.

h. Complete referrals to community resources based on member's needs.

i. Assist the member/responsible person in identifying practical supports to meet the member's needs.

2. The AdSS ensures Advanced Care Planning is a covered, reimbursable service when provided by a qualified health care professional. The service may be billed separately during a well or sick visit.

C. ADVANCE DIRECTIVES

Advance Care Planning often results in the creation of an Advance Directive for the member. Members have the right to have information provided to them about the importance of Advance Directives including their rights to establish and rescind Directives at any time.

1. The AdSS shall ensure providers comply with AdSS Medical Policy 640 pertaining to Advance Directives. At a minimum, providers shall comply with the following:

   a. Maintain written policies for adult members receiving care through their organization regarding the member's ability to make decisions about medical care, including the right to accept or refuse medical care and the right to execute an Advance Directive.

   b. Provide written information to adult members regarding the provider's policies concerning Advance Directives, including any conscientious objections.

   c. Document in the member's medical record whether or not the adult member has been provided the information, and whether an Advance Directive has been executed.

   d. Prevent discrimination against a member because of his or her decision to execute or not execute an Advance Directive, and not place conditions on the provision of care to the member, because of his/her decision to execute or not execute an advance directive.

e. Provide education to staff on issues concerning Advance Directives including notification to staff who provide services such as home health care and personal care services (e.g., attendant care, respite, personal care) if any Advance Directives are executed by members to whom they are assigned to provide services.

f. Ensure alternative Home and Community Based Services (HCBS) setting staff have immediate access to advance directive documents to provide to first responder requests.

2. All AdSS enrolled adult members, and when the member is incapacitated or unable to receive information, the member's family or surrogate as defined in A.R.S. §36-3231, shall be provided written information regarding Advance Directives as delineated in 42 CFR 489.102(e) concerning:

a. The member's rights, regarding Advance Directives under Arizona State law.

b. The AdSS's policies respecting the implementation of those rights, including a statement of any limitation regarding

the implementation of advance directives as a matter of conscience.

c. Written policies including a clear and precise statement of limitations if the provider cannot implement an Advance Directive as a matter of conscience. This statement, at a minimum, shall:

i. Clarify institution-wide conscientious objections and those of individual physicians,

ii. Identify state legal authority permitting such objections, and

iii. Describe the range of medical conditions or procedures affected by the conscience objection.

d. A description of the applicable state law and information regarding the implementation of these rights.

e. The member's right to file complaints with ADHS Division of Licensing Services.

3. AdSS providers shall provide a copy of a member's executed Advance Directive or documentation of refusal, to the member's

Primary Care Provider (PCP) for inclusion in the member's medical record and provide education to staff on issues concerning Advance Directives.

D. HOSPICE SERVICES

The AdSS shall provide hospice services in accordance with Division AdSS Medical Policy 310-J.

E. TRAINING

1. The AdSS shall ensure providers and their staff are educated in the concepts of EOL care, Advance Care Planning and Advance Directives.

2. The appropriate AdSS staff shall be educated in the concepts of EOL care, Advance Care Planning and Advanced Directives.

    a. Documentation of the training and attendance shall be submitted to the Division on an annual basis.

F. NETWORK ADEQUACY

The AdSS shall ensure an adequate network of providers who are trained to conduct Advance Care Planning in accordance with AdSS Operations Manual Policy 415.

G. OVERSIGHT

At least quarterly, the Division meets with the AdSS to provide ongoing evaluation including data analysis and recommendations to refine processes to optimize results. On an annual basis, the Division performs an Operational Review of the AdSS to review compliance.

Signature of Chief Medical Officer: Anthony Dekker (Jun 14, 2022 17:42 PDT)

310-II GENETIC TESTING

REVIEW DATE:
EFFECTIVE DATE: December 13, 2023
REFERENCES: AMPM 310-II

PURPOSE

This policy establishes the coverage requirements and limitations of Genetic Testing for Division of Developmental Disabilities (Division) Members who are eligible for ALTCS.

DEFINITIONS

1. "Genetic Testing" means the sequencing of human Deoxyribonucleic Acid (DNA) obtained from a small sample of body fluid or tissue in order to discover genetic differences, anomalies, or mutations.
2. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

POLICY

A. GENETIC TESTING

1. The Division shall cover medically necessary Genetic Testing and counseling when the following criteria are met:
    a. When the Member:
        i. Displays clinical features of a suspected genetic condition;
        ii. Is at direct risk of inheriting the genetic condition in question which could be due to:
            a) A causative familial variant has been identified in a close family member, or
            b) The Member's family history indicates a high risk.
        iii. Is being considered for treatment which has significant risk of serious adverse reactions, or is ineffective, in a specific genotype.
    b. The results of the Genetic Testing are necessary to:
        i. Differentiate between treatment options;
        ii. The Member has indicated they will pursue treatment based on the results of the testing; and

iii. An improved clinical outcome is probable as evidenced by:

a) Clinical studies of fair-to-good quality published in peer-reviewed medical literature have established that actions taken as a result of the test will improve clinical outcome for the Member; or

b) Treatment has been demonstrated to be safe and likely to be effective based on the weight of opinions from specialists who provide the service or related services if the condition is rare.

c. The test is proven to be scientifically valid for the identification of the specific genetically-linked disease or clinical condition; and

d. A licensed genetic counselor or the ordering provider has counseled the Member about the medical treatment options prior to the genetic test being conducted.

2. The Division shall cover the following medically necessary Genetic Testing and counseling, irrespective of the requirements listed above:
    a. The results of the Genetic Testing will confirm either:
        i. A diagnosis and by so doing avoid further testing that is invasive and has risks of complications; or
        ii. A significant developmental delay in an infant or child and the cause has not been determined through routine testing with one of the following met:
            a) The genetic testing is limited to Chromosomal Microarray (CMA),
            b) Chromosomal testing for Fragile X, or
            c) Any further gene testing meets all other criteria in this policy.
    b. The test is proven to be scientifically valid for the identification of the specific genetically-linked disease or clinical condition; and

c. A licensed genetic counselor or the ordering provider has counseled the Member prior to the genetic test being conducted.

B. LIMITATIONS

1. The Division shall not cover Genetic Testing under the following circumstances:
   a. To determine specific diagnoses or syndromes when such diagnoses would not definitively alter the medical treatment of the Member except as described above in A (2)(a);
   b. To determine the likelihood of associated medical conditions occurring in the future;
   c. As a substitute for ongoing monitoring or testing of potential complications or sequelae of a suspected genetic anomaly;
   d. For purposes of determining current or future reproductive decisions;
   e. For determining eligibility for a clinical trial; or

f. Paying for panels or batteries of tests that include one or more medically necessary tests, along with tests that are not medically necessary, when the medically necessary tests are available individually.

C. PRIOR AUTHORIZATIONS

1. The Division shall require that prior authorization requests include documentation regarding how the Genetic Testing is consistent with the Genetic Testing coverage and include:
   a. Recommendations from a licensed genetic counselor or ordering provider;
   b. Clinical findings including family history and any previous test results;
   c. A description of how the genetic test results will differentiate between treatment options for the Member or meet the requirements of section A(2)(a) or A(2)(b);
   d. The rationale for choosing one of these types of Genetic Testing:
      i. Full gene sequencing,
      ii. Deletion or duplication,

iii. Microarray, and

iv. Individual variants.

e. Medical literature citations as applicable.

D. AdSS MONITORING AND OVERSIGHT

1. The Division shall meet with the AdSS at least quarterly to:

   a. Provide ongoing evaluation including data analysis and recommendations to refine processes; and

   b. Identify successful interventions and care pathways to optimize results.

2. The Division shall perform an Operational Review of the AdSS on an annual basis that includes review of compliance.

SUPPLEMENTAL INFORMATION

Pursuant to A.R.S. §36-694, all babies born in Arizona are tested for specific congenital disorders through the Arizona Department of Health Newborn Screening Program. Newborn screening including confirmatory testing is not subject to the requirements of this Policy.

Signature of Chief Medical Officer: Anthony Dekker (Dec 7, 2023 10:16 MST)

310-KK BIOMARKER TESTING

REVIEW DATE:
EFFECTIVE DATE: December 13, 2023
REFERENCES: AMPM 310-KK

PURPOSE

This policy establishes the coverage requirements of Biomarker Testing for the Division of Developmental Disabilities (Division).

DEFINITIONS

1. "Biomarker" means a characteristic that is objectively measured and evaluated as an indicator of normal biological processes, pathogenic processes or pharmacologic responses to a specific therapeutic intervention which includes gene mutations or protein expression.
2. "Biomarker Testing" means the analysis of a patient's tissue, blood or other biospecimen for the presence of a biomarker, which includes single-analyte tests, multiplex panel tests and whole genome sequencing.
3. "Clinical Utility" means the test result provides information that is used in the formulation of a treatment or monitoring strategy

that informs a patient's outcome and impacts the clinical decision. The most appropriate test may include both information that is actionable and some information that cannot be immediately used in the formulation of a clinical decision.

4. "Member" means the same as "Client" as defined in A.R.S. §36-551.

POLICY

A. BIOMARKER TESTING

1. The Division shall require medically necessary non-experimental Biomarker Testing is covered for the purposes of diagnosis, treatment, appropriate management, or ongoing monitoring of a Member's disease or condition to guide treatment decisions when the test provides Clinical Utility as demonstrated by the following medical and scientific evidence:
    a. Labeled indications for tests that are approved or cleared by the United States Food and Drug Administration (FDA) or indicated tests for a drug that is approved by the FDA;

b. Centers for Medicare and Medicaid Services (CMS) national coverage determinations or Medicare administrative contractor local coverage determinations, or

c. Nationally recognized clinical practice guidelines and consensus statements as outlined in A.R.S. § 20-841.13.

2. The Division shall require Biomarker Testing is covered with the same scope, duration, and frequency as the system otherwise provides to Members pursuant to A.R.S. § 36-2907.03.

3. The Division shall require that coverage is provided in a manner that limits disruptions in care, including the need for multiple biopsies or biospecimen samples.

4. The Division shall require prior authorization for Biomarker Testing.

5. The Division shall require a clear and readily available process to accept electronic requests from providers for exceptions to a coverage policy.

6. The Division shall refer to AMPM Policy 810 for Tribal Health Plan (THP) prior authorization submission requirements.

B. AdSS MONITORING AND OVERSIGHT

1. The Division shall meet with the AdSS at least quarterly to:
   a. Provide ongoing evaluation including data analysis and recommendations to refine processes; and
   b. Identify successful interventions and care pathways to optimize results.
2. The Division shall perform an Operational Review of the AdSS on an annual basis that includes review of compliance.

Signature of Chief Medical Officer: Anthony Dekker (Dec 7, 2023 10:17 MST)

320-B MEMBER PARTICIPATION IN EXPERIMENTAL SERVICES AND CLINICAL TRIALS

EFFECTIVE DATE: March 1, 2023
REFERENCES: A.R.S. §36-1331; A.R.S. §36-1336; AMPM 320-B

PURPOSE

This policy describes the responsibilities related to Experimental Services and Qualifying Clinical Trials for Arizona Long Term Care System (ALTCS) eligible members.

DEFINITIONS

1. "Eligible Patient" means a patient who meets all of the following conditions:
    a. Has a life-threatening disease or condition or a severely debilitating illness, attested to by the patient's physician.
    b. Has considered all other treatment options currently approved by the United States Food and Drug Administration.
    c. Has received a recommendation from the patient's physician for an Individualized Investigational Treatment

based on an analysis of the patient's genomic sequence, human chromosomes, deoxyribonucleic acid, ribonucleic acid, genes, gene products, such as enzymes and other types of proteins, or metabolites.

d. Has given written informed consent for the use of the individualized investigational drug, biological product or device.

e. Has documentation from the patient's physician that the patient meets the requirements of this paragraph.

2. "Experimental Services" means a service which is not generally and widely accepted as a standard of care in the practice of medicine in the United States and is not a safe and effective treatment for the condition for which it is intended or used as specified in A.A.C. R9-22-203.

3. "Individualized Investigational Treatment" means

a. A drug, biological product or device that is unique to and produced exclusively for use by an individual patient based on the patient's own genetic profile.

b. Includes individualized gene therapy, antisense oligonucleotides and individualized neoantigen vaccines.

4. "Qualifying Clinical Trial" means any clinical phase of development that is conducted in relation to the prevention, detection, or treatment of any serious or life threatening disease or condition and is described in any of clauses (i)-(iii) of section 1905(gg)(2)(A) of the Act. A study or investigation must be approved, conducted, peer-reviewed, or supported (including by funding through in-kind contributions) by national organizations.

5. "Second Level Review" means a review performed by a Division of Developmental Disabilities (Division) Medical Director who has the appropriate clinical expertise in managing a member's condition or disease. Second Level Review is used to screen for medical necessity and compare the findings to clinical data in the member's medical record to ensure Division members are receiving medically appropriate and high quality care.

POLICY

A. PARTICIPATION IN CLINICAL TRIALS

1. The Division shall ensure that members may participate in clinical trials if they desire, but will not reimburse for the Experimental Service.
2. The Division shall cover services related to the Qualifying Clinical Trial, including but not limited to:
    a. Routine care,
    b. Screenings,
    c. Laboratory tests,
    d. Imaging services,
    e. Physician services,
    f. Treatment of complications arising from clinical trial participation, or
    g. Other medical services and costs.
3. The Division shall not block or attempt to block an Eligible Patient's access to an Individualized Investigational Treatment.
4. The Division Medical Director shall:

a. Complete a Second Level Review of all requests for participation in Experimental Services and/or clinical trials for members.

b. Have the final authority to approve or deny the member's participation in Experimental Services and/or clinical trials.

c. Consults with the assigned AHCCCS Medical Director for Tribal Health Plan (THP) or the assigned subcontracted health plan's Medical Director when there are questions regarding the member's participation in Experimental Services and/or clinical trials.

B. COVERAGE DETERMINATION

1. The Division shall ensure coverage for a member to participate in a Qualifying Clinical Trial. Coverage shall be:

   a. Expedited and completed within 72 hours regardless of the geographic location or if the provider is in network;

   b. Based on where the clinical trial is conducted, including out of state; or

c. Based on whether the provider treating the member is outside of the network, the member may not be denied.

2. The Division's Medical Director shall review a member's participation in an FDA Phase I or Phase II clinical trial for approval. Factors for consideration for approval will include:

a. The clinical regimen is well-designed, and adequate protection of the member's welfare is assured;

b. Provider specification of the clinical trial and any associated service are not provided to prevent, diagnose, monitor, or treat complications resulting from participation in the clinical trial;

c. Verification that full financial liability for the clinical trial is taken by the researcher or the sponsor, and not be charged to, or paid by AHCCCS;

d. The trial provides adequate participant information and assures participant consent;

e. Completion of Attachment A and Medicaid Attestation Form on the Appropriateness of the Qualified Clinical Trial;

f. Fees, finder's fees, or other payment for referring members for clinical trials are not received; and

g. The member's primary care provider shall not have any financial interest in the clinical trial.

3. The Division shall ensure members rights are being protected when members are approved to participate in a clinical trial.

Signature of Chief Medical Officer: Anthony Dekker (Feb 21, 2023 12:22 MST)

320-F HIV/AIDS TREATMENT SERVICES

REVISION DATE: 10/1/2021
EFFECTIVE DATE: November 17, 2017
REFERENCES: A.A.C. R4-16-101

The Division of Developmental Disabilities (Division) covers medically necessary treatment services rendered by qualified providers, for members who are eligible for the Division, ALTCS, or DDD Tribal Health Program (THP), and who have been diagnosed with human immunodeficiency virus/acquired immunodeficiency syndrome (HIV/AIDS). The Division and the Administrative Services Subcontractors (AdSS) must follow the Centers for Disease Control and Prevention (CDC) guidelines for the treatment of HIV/AIDS. The Division and the Administrative Services Subcontractors are responsible for distributing these guidelines, and all updates, to HIV/AIDS treatment professionals included in their network.

As appropriate, AHCCCS reviews new technological advances in HIV/AIDS treatment, including recommended pharmacological regimens.

This review shall include the AHCCCS Chief Medical Officer, the AHCCCS Medical Director, the Division Medical Director, the Administrative Services Medical Director, and physician experts in the treatment of HIV/AIDS.

The review may include, but is not limited to, information regarding:

A. Established treatment and pharmaceutical regimens

B. Changes in technology and treatment protocols

C. Cost implications of treatment/pharmaceutical regimens.

Monitoring

The Division and the AdSS must develop policies and protocols that document care coordination services provided to members with HIV/AIDS. This includes monitoring of member medical care in order to ensure that medical services, medication regimens, and necessary support services (e.g., transportation) are provided within specified timelines, as defined in contractual arrangements with the Division, and that these services are used appropriately. Support services may be coordinated with existing community resources.

The AdSS must also ensure that the care for members diagnosed with HIV/AIDS, who are receiving services specified by, and in accordance with, the guidelines set by AHCCCS, is well coordinated and managed in collaboration with the member‘s treating physician.

If a conflict regarding treatment or denial of treatment arises between the member‘s treating physician and the Division’s Medical Director, the issue may be referred to the AHCCCS Medical Director or designee. However, this does not preclude the member‘s right to file an appeal.

HIV/AIDS Treatment Professionals

AHCCCS compiles, updates, and makes available, upon request, a listing of qualified HIV/AIDS treatment professionals (physicians, nurse practitioners, and/or physician assistants). The listing will be based on information submitted by the Division as specified in contractor reporting requirements.

A qualified HIV/AIDS treatment professional, for the purpose of this policy, is defined as a physician or practitioner who:

A. Is recognized in the community as having a special interest, knowledge, and experience, in the treatment of HIV/AIDS

B. Agrees to adhere to CDC treatment guidelines for HIV/AIDS

C. Agrees to provide primary care services and/or specialty care to AHCCCS members with HIV/AIDS

D. Demonstrates ongoing professional development by clinically managing at least five patients with HIV/AIDS during the last year

E. Meets one of the criteria below:

   1. Current Board Certification or Recertification in Infectious Diseases, or

   2. Annual completion of at least ten hours of HIV/AIDS-related Continuing Medical Education (CME), which meet the CME requirements under A.A.C. R4-16-101.

Limitations

A physician or practitioner not meeting the criteria to be a qualified HIV/AIDS treatment professional who wishes to provide primary care services to a member with HIV/AIDS must send documentation to the Division or AdSS demonstrating that s/he has an established consultative relationship with a physician who meets the criteria for a qualified HIV/AIDS treatment professional as identified in this policy.

This documentation must be maintained in the Division and AdSS' credentialing file. These practitioners may treat members with HIV/AIDS under the following circumstances:

A. In geographic areas where the incidence of members with HIV/AIDS is low, and/or where there are no available AHCCCS-registered network HIV/AIDS treatment professionals meeting this criteria, or

B. When a member with HIV/AIDS chooses a provider who does not meet the criteria.

Contract Network

The Division and the AdSS must include in its individual provider network sufficient numbers of qualified HIV/AIDS treatment professionals (physicians, nurse practitioners and/or physician assistants). The AdSS must also have policies and procedures to assure that provider requirements and standards specified in the Division Policy Manuals and the AMPM are met. Each provider network of HIV/AIDS treatment professionals is subject to review and approval by AHCCCS, Division of Health Care Management (DHCM). The AdSS must submit, annually by December 15, a list of HIV/AIDS treatment providers (to the Division Health Care Services Unit, through the Compliance Unit) that includes:

A. Name and location of all qualified HIV/AIDS treatment professionals treating members with HIV/AIDS

B. For each Primary Care Provider (PCP) treating members with HIV/AIDS who is not a qualified HIV/AIDS treatment specialist, the name and location of the consulting HIV/AIDS treatment professional.

The AdSS must also notify the Division of any material change to the HIV/AIDS provider network during the year. The Division will notify AHCCCS of any major changes.

AdSS policies must reflect that members with HIV/AIDS have freedom of choice to select an HIV/AIDS provider from the AdSS's network. If the member selects a PCP in the AdSS's network who is not a provider designated by the AdSS as a qualified HIV/AIDS disease treatment professional, the member must be informed that only those designated providers are authorized to render treatment regimens such as antiretroviral therapies. The selected PCP must consult with a qualified HIV/AIDS provider and follow the recommendations of the consultant in order for the treatment regimen (such as protease inhibitors) to be a covered service.

320-G LUNG VOLUME REDUCTION SURGERY

REVISION DATE: 4/1/2022, 10/1/2021

EFFECTIVE DATE: March 3, 2017

REFERENCES: AHCCCS Medical Policy 1100, Federal Emergency Services Program Overview; AHCCCS Medical Policy 320-G, Attachment A, US Department of Health and Human Services Centers for Medicare and Medicaid National Coverage Decision for Lung Volume Reduction Survey (Reduction Pneumoplasty)

PURPOSE

This policy establishes the requirements for the lung volume reduction surgery (LVRS) as applies to DDD subcontracted health plans as well as DDD FFS Tribal Health Program (THP).

DEFINITIONS

“Lung Volume Reduction Surgery (LVRS)” is a surgical procedure that removes diseased lung tissue. This procedure reduces the size of an over-inflated lung and allows for the expansion of the remaining (healthy) lung. Also referred to as reduction pneumoplasty, lung shaving or lung contouring.

POLICY

The Division of Developmental Disabilities (Division) covers lung volume reduction surgery (LVRS), or reduction pneumoplasty, for members eligible for ALTCS with severe emphysema. This surgery must be performed at a facility approved by Medicare in accordance with all of the established Medicare guidelines.

The Centers for Medicare and Medicaid Services (CMS) issued a National Coverage Decision (NCD) for lung volume reduction surgery (reduction pneumoplasty) specifying covered and non-covered criteria. In the event Medicare‘s policy is revised, DDD may reevaluate and/or revise its policy

accordingly. National Coverage Decision (NCD) for lung volume reduction surgery (reduction pneumoplasty) can be located in AMPM 320-G as Attachment A.

The member's treating physician is responsible for providing appropriate documentation, establishing medical necessity, and verification of compliance with Medicare, the Division's Administrative Services Subcontractor (AdSS), and AHCCCS guidelines.

Prior Authorization

When requesting authorization for members enrolled in a DDD subcontracted health plan, the documentation must be sent to the health plans prior authorization team for review.

24-Hour Nurse Line: 1 (877) 440-0255

For members enrolled in the DDD Tribal Health Program (THP), please contact AHCCCS at:

AHCCCS Prior Authorization (PA) Unit
AHCCCS-Division of Fee-for-Service Management Care Management System Unit (CMSU), Mail Drop 8900
701 East Jefferson Street
Phoenix, AZ 85034

1-602-417-4400 (Phoenix area direct line to the PA area)
1-800-433-0425 (In state direct line into the PA area)
1-800-523-0231 (Out of state line to AHCCCS switchboard; dial extension 602-417-4400 or ask for PA area)

When possible, such surgeries, and the required pre- and post-operative therapies, will be performed at facilities approved by Medicare for LVRS reimbursement within the State of Arizona. However, AHCCCS may cover this procedure at out-of-state facilities, if needed. All facilities must meet Medicare LVRS facility requirements as well as AHCCCS Provider Registration requirements.

If medically necessary, the Division's subcontracted health plans, THP or AHCCCS, may pay for an adult caregiver to accompany members when out-of-state-travel is required. Transportation, lodging, and board may be covered as appropriate. Please refer to each health plan's prior authorization department related to this coverage. Please refer to each health plan's prior authorization department related to this coverage.

320-I TELEHEALTH AND TELEMEDICINE

REVISION DATE: 12/21/2022, 10/17/2017
EFFECTIVE DATE: May 13, 2016
REFERENCES: 42 U.S.C. 1396d, A.R.S. § 36-3602, A.R.S. § 36-3605, A.R.S. § 36-3606, A.R.S. § 36-3607, AMPM 310-P, AMPM Policy 431, AMPM 670, AMPM 820, ACOM 436.

PURPOSE

This policy describes covered Telehealth and Telemedicine services for Division of Developmental Disability (DDD) members who are eligible for Arizona Long Term Care System (ALTCS).

DEFINITIONS

1. "Asynchronous" means the transfer of data from one site to another through the use of a camera or similar device that records an image that is sent via Telecommunication to another site for consultation. Asynchronous applications would not be considered Telemedicine but may be utilized to deliver services. Asynchronous services are rendered after the initial collection of data from the member and are provided without real-time interaction with the member.

2. "Consulting Provider" means any Arizona Health Care Cost Containment System (AHCCCS)-registered provider who is not located at the Originating Site who provides an expert opinion to assist in the diagnosis or treatment of a member.

3. "Distant Site" means the site at which the physician or other licensed practitioner delivering the service is located at the time the service is provided via Telecommunications system.

4. "Originating Site" means the location of the patient at the time the service being furnished via a Telecommunications system occurs. Telepresenters may be needed to facilitate the delivery of this service. The Place of Service (POS) on the service claim is the Originating Site.

5. "Synchronous" means the "real time" two-way interaction between the member and provider, using interactive audio and video.

6. "Telecommunications Technology" (which includes Asynchronous applications) means the transfer of medical data from one site to

another through the use of a camera, electronic data collection system such as an Electrocardiogram (ECG), or other similar device, that records an image which is then sent via Telecommunication to another site for consultation. Services delivered using Telecommunications Technology, but not requiring the member to be present during their implementation, are not considered Telemedicine.

7. "Teledentistry" means the acquisition and transmission of all necessary subjective and objective diagnostic data through interactive audio, video or data communications by a AHCCCS-registered dental provider to a distant dentist for triage, dental treatment planning, and referral.

8. "Telehealth" means the use of Telecommunications and information technology to provide access to health assessment, diagnosis, intervention, consultation, supervision and information across distances.

9. "Telemedicine" means the practice of health care delivery, diagnosis, consultation and treatment and the transfer of medical data between the Originating and Distant Sites through real time interactive audio, video or data communications that occur in the physical presence of the member.

POLICY

A. TELEHEALTH

1. The Division shall cover medically necessary, non-experimental, and cost-effective services delivered via Telehealth for Division covered services.

2. The Division shall cover services delivered via Telehealth in rural and urban regions; there are no geographic restrictions for Telehealth.

3. The Division shall not limit or deny the coverage of services provided through Telehealth and shall apply the same limits or exclusions on a service provided through Telehealth that are applicable to an in-person encounter for the same service,

except for services for which the weight of evidence, determines the service not to be appropriate to be provided through Telehealth, based on:

a. Practice guidelines,

b. Peer-reviewed clinical publications or research, or

c. Recommendations by the telehealth advisory committee on Telehealth best practices.

4. The Division shall not permit services delivered via Telehealth to replace member or provider choice for healthcare delivery modality.

5. The Division shall ensure a provider makes a good faith effort in determining both of the following:

   a. Whether a service should be provided through Telehealth instead of in-person. The provider shall use clinical judgment in considering whether the nature of the services necessitates physical interventions and close observation and the circumstances of the member, including:

i. Diagnosis,

ii. Symptoms,

iii. History,

iv. Age,

v. Physical location, and

vi. Access to Telehealth.

b. The communication medium of Telehealth and whenever reasonably practicable, the Telehealth communication medium that allows the provider to most effectively assess, diagnose and treat the member. Factors the provider may consider in determining the communication medium include:

i. The member's lack of access to or inability to use technology, or

ii. Limits in Telecommunication infrastructure necessary to support interactive Telehealth encounters.

6. The Division may allow a provider who is not licensed within the State of Arizona to provide Telehealth services to a member located in the state if the following conditions are met:
   a. The provider is an AHCCCS-registered provider, and
   b. The provider complies with all requirements listed within A.R.S. § 36-3606.

B. TELEMEDICINE SERVICES

1. The Division shall cover Telemedicine services, including health care delivery, diagnosis, consultation, treatment, and the transfer of medical data through real-time Synchronous interactive audio and video communications that occur in the physical presence of the member.

2. The Division shall reimburse providers at the same level of payment for equivalent services as identified by Healthcare Common Procedure Coding System (HCPCS) whether provided via Telemedicine or in-person.

C. ASYNCHRONOUS SERVICES

1. The Division shall provide reimbursement for consultation limited to clinically appropriate services that are provided without real-time interaction. Reimbursement is limited to the following services:
    a. Dermatology,
    b. Radiology,
    c. Ophthalmology,
    d. Pathology,
    e. Neurology,
    f. Cardiology,
    g. Behavioral Health,
    h. Infectious Diseases, or
    i. Allergy/Immunology.

D. E-CONSULT SERVICES

1. The Division shall cover medically necessary e-consult visits, to aid in the coordination of care between a Primary Care Provider

(PCP) and a specialist, and to improve timely access to specialty providers.

E. REMOTE PATIENT MONITORING SERVICES

1. The Division shall cover both Synchronous and Asynchronous remote patient monitoring.
2. The Division shall limit coverage of equipment and/or supplies for remote patient monitoring to when:
   a. The service being provided is an Division covered service eligible for remote monitoring, and
   b. The equipment and/or supplies are Division covered items.

F. AUDIO-ONLY SERVICES

1. The Division shall cover audio-only services if a Telemedicine encounter is not reasonably available due to the member's functional status, the member's lack of technology or Telecommunications infrastructure limits, as determined by the provider.
2. The Division shall reimburse providers at the same level of payment for equivalent in-person mental health and substance

use disorder services, as identified by HCPCS, if provided through Telehealth using an audio-only format.

G. TELEDENTISTRY SERVICES

1. The Division shall cover Teledentistry for members eligible for Early and Periodic Screening, Diagnostic and Treatment (EPSDT) when provided by an AHCCCS-registered dental provider.

2. The Division shall cover Teledentistry including the provision of preventative and other approved therapeutic services by the AHCCCS-registered Affiliated Practice Dental Hygienist, who provides dental hygiene services under an affiliated practice relationship with a dentist.

3. The Division shall not use Teledentistry to replace the dental examination by the dentist. Limited exams may be billed through the use of Teledentistry. Periodic and comprehensive examinations cannot be billed through the use of Teledentistry alone.

H. CONDITIONS AND LIMITATIONS

1. The Division shall ensure all Telehealth reimbursable services are provided by an AHCCCS-registered provider within their scope of practice.

2. The Division shall cover Non-Emergency Transportation (NEMT) to and from the Originating Site where applicable.

3. The Division shall ensure services provided through Telehealth or resulting from a Telehealth encounter are subject to all applicable statutes and rules that govern prescribing, dispensing and administering prescription medications and devices.

4. The Division shall ensure informed consent standards for Telehealth services adhere to all applicable statutes and policies governing informed consent.

5. The Division shall ensure privacy and confidentiality standards for Telehealth services adhere to all applicable statutes and policies governing healthcare services, including the Health Insurance Portability and Accountability Act (HIPAA).

6. The Division shall not place Place Of Service (POS) restrictions for a Distant Site.

7. The Division may qualify Telehealth as a Federally Qualified Healthcare Center/Rural Health Clinic (FQHC/RHC) visit, if all other applicable conditions in this Policy are met.

I. SUPPLEMENTAL INFORMATION

1. The AHCCCS Telehealth code set defines which codes are billable, the applicable modifier(s) and place of service that providers must use when billing for the following services when provided through remote patient monitoring:
   a. Telemedicine services,
   b. Asynchronous services,
   c. E-consult services,
   d. Remote patient monitoring services, and
   e. Audio-only services.

2. Telehealth includes such technologies as telephones, facsimile machines, electronic mail systems, and remote patient

monitoring devices, which are used to collect and transmit patient data for monitoring and interpretation. While they do not meet the Medicaid definition of Telemedicine, they are often considered under the broad umbrella of Telehealth services. Even though such technologies are not considered Telemedicine, they may nevertheless be covered and reimbursed as part of a Medicaid coverable service, such as laboratory service, x-ray service or physician services.

Signature of Chief Medical Officer: Anthony Dekker (Dec 19, 2022 08:06 MST)

320-K TOBACCO CESSATION PRODUCT POLICY

EFFECTIVE DATE: March 3, 2017

REFERENCES: AHCCCS Medical Policy Manual Exhibit 320-K-1

The Division of Developmental Disabilities (Division) covers tobacco cessation products, ordered by a Primary Care Provider (PCP), which include Nicotine Replacement Therapy (NRT) and tobacco use medications, for members who are eligible for the ALTCS who wish to stop using tobacco. The Division encourages members to enroll in a tobacco cessation program offered by the Arizona Department of Health Services (ADHS).

The following criteria apply to members choosing to receive a tobacco cessation product.

A. Members 18 years and older are encouraged to enroll in a tobacco cessation program through ADHS. To enroll in an ADHS cessation program the member must call 1-800-556-6222.

B. Members must contact their Primary Care Provider (PCP) for a prescription for a tobacco cessation product. The PCP will identify an appropriate tobacco cessation product. This includes all tobacco cessation products, including those that are available over-the-counter.

C. The maximum supply a member may receive of a tobacco cessation product is a 12-week supply in a six-month time period. The six-month period begins on the date the pharmacy fills the first tobacco cessation product.

D. The Division has adopted the prior authorization protocol described in AHCCCS Medical Policy Manual Exhibit 320-K-1, which must be followed by the Administrative Services Subcontractors.

320-M MEDICAL MARIJUANA AND CBD OIL PRODUCTS

REVISION DATES: 7/13/2022, 1/15/2020, 04/17/2015
EFFECTIVE DATE: March 2, 2015
REFERENCES: 9 A.A.C. 22, Article 2, 42 CFR 440.120, AMPM 320-M Medical Marijuana

PURPOSE

This policy applies to members who receive services from the Division and vendors and subcontractors who provide services to Division members. This policy establishes requirements for the coverage and use of medical marijuana and all cannabidiol (CBD) products (regardless of plant derivation).

DEFINITIONS

1. "AHCCCS Registered Provider" means a contracted provider or non-contracting provider who enters into a provider agreement with AHCCCS and meets licensing or certification requirements to provide AHCCCS-covered services.
2. "Medical Marijuana" means products that are a cannabis product requiring a medical marijuana card and are sold in a Marijuana Dispensary or a CBD Oil store.

POLICY

A. Medical Marijuana and CBD Products

The Division covers medically necessary federally and state reimbursable medications prescribed by a physician, physician assistant, nurse practitioner, dentist or other AHCCCS approved practitioner and dispensed by a licensed AHCCCS registered pharmacy, as defined in 9 A.A.C. 22, Article 2. Under 42 CFR 440.120 Medical Marijuana or CBD Oil products do not qualify as federally reimbursable medications. The Division does not cover medical marijuana or CBD Oil. The Division will not provide reimbursement for an office visit, these products or any other services that are primarily for the purpose of determining if a member would benefit from medical marijuana. The Division recognizes that AHCCCS registered providers operating within the scope of their license may recommend the use of medical marijuana or CBD Oil although it is not a covered benefit.

Under no circumstance shall any employee of the Department and any owner, director, principal, agent, employee, subcontractor, volunteer, and staff of the Division's service providers administer or

store medical marijuana or CBD Oil products (regardless of the plant) for Division members. Examples of medical marijuana products would include marijuana plants, pre-rolled marijuana cigarettes, marijuana edibles, marijuana vaping products etc.

B. FDA Approved Cannabidiol Products

This policy does not apply to the prescribing or administering of FDA approved medications that may include cannabidiol or its components. Under Federal Law, there are currently prescription medications commercially available that contain cannabidiol ingredients. Medications such as Epidiolex™ (cannabidiol) and Marinol™ (dronabinol), are allowed because they are FDA approved products requiring a prescription and dispensed by an AHCCCS registered pharmacy.

320-O BEHAVIORAL HEALTH ASSESSMENTS AND TREATMENT/SERVICE PLANNING

REVISION DATE: 10/1/2021
EFFECTIVE DATE: March 3, 2021
REFERENCES: A.R.S. § 32-2061, A.R.S. § 32-2091, A.R.S. § 32-3251 et seq., A.R.S. § 36-501; A.A.C. R4-6-101, A.A.C. R9-10, A.A.C R9-21

PURPOSE

The Division covers behavioral health assessments and treatment/service planning for members eligible for ALTCS regardless of the health plan they choose. The responsibilities of the Division for providing behavioral health assessments and treatment/service planning to members are outlined in this policy including additional requirements for members that have chosen THP as their Health Plan. The Division is responsible for collaborating with Tribal entities and behavioral health providers to ensure access to services for THP members. See AdSS Policy 320-O for responsibilities of the AdSS providing behavioral health assessments and treatment/service planning.

DEFINITIONS

Behavioral Health Assessment is the ongoing collection and analysis of an individual's medical, psychological, psychiatric and social conditions in order to initially determine if a health disorder exists, if there is a need for behavioral health services, and on an ongoing basis ensure that the individual's service plan is designed to meet the individual's (and family's) current needs and long-term goals.

Behavioral Health Professional (BHP)

1. An individual licensed under A.R.S. Title 32, Chapter 33, whose scope of practice allows the individual to:
    a. Independently engage in the practice of behavioral health as defined in A.R.S. §32-3251, or
    b. Except for a licensed substance abuse technician, engage in the practice of behavioral health as defined in A.R.S.§32-3251 under direct supervision as defined in A.A.C. R4-6-101,
2. A psychiatrist as defined in A.R.S. §36-501,
3. A psychologist as defined in A.R.S. §32-2061,
4. A physician,
5. A behavior analyst as defined in A.R.S. §32-2091,
6. A registered nurse practitioner licensed as an adult psychiatric and mental health nurse, or
7. A registered nurse with:

a. A psychiatric-mental health nursing certification, or

b. One year of experience providing behavioral health services.

Behavioral Health Technician (BHT) as specified in A.A.C. R9-10-101, an individual who is not a BHP who provides behavioral health services at or for a health care institution according to the health care institution's policies and procedures that:

1. If the behavioral health services were provided in a setting other than a licensed health care institution, would be required to be licensed as a behavioral professional under A.R.S. Title 32, Chapter 33, and

2. Are provided with clinical oversight by a behavioral health professional.

DESIGNATED REPRESENTATIVE for purposes of this Policy, an individual chosen by a member who carries a serious mental illness designation and has been identified by AHCCCS Special Assistance. The Designated Representative protects the interests of the member during service planning, inpatient treatment discharge planning, and the SMI grievance, investigation or appeal process.

Health Care Decision Maker is an individual who is authorized to make health care treatment decisions for the patient. As applicable to the situation, this may include a parent of an un-emancipated minor or a person lawfully authorized to make health care treatment decisions pursuant to A.R.S. title 14, chapter 5, article 2 or 3; or A.R.S. §§ 8-514.05, 36-3221, 36-3231 or 36-3281.

Health Home is a provider that either provides or coordinates and monitors the provision of all primary, physical health, behavioral health services and supports to treat the whole person. A Health Home can be an Outpatient Behavioral Health Clinic, a Federally Qualified Health Center, or an Integrated Care Provider. Members may or may not be formally assigned to a Health Home.

Service Plan is a complete written description of all covered health services and other informal supports which includes individualized goals, peer and recovery support, family support services, care coordination activities and strategies to assist the member in achieving an improved quality of life.

Treatment Plan is a written plan of services and therapeutic interventions based on a complete assessment of a member's developmental and health status, strengths and needs that are designed and periodically updated by the multispecialty, interdisciplinary team.

Requirements for Behavioral Health Providers

A. Overview

1. The model for behavioral health assessment, treatment/service planning and service delivery shall be strength-based, member-centered, family-friendly, based on voice and choice, culturally and linguistically appropriate, and clinically supervised.

2. The model incorporates the concept of a "team," established for each member receiving behavioral health services.

3. The model is based on four equally important components:

   a. Input from the member, or when applicable the health care decision maker and designated representative regarding the member's needs, strengths, and preferences;

   b. Input from other individuals involved in the member's care who have important relationships with the member;

   c. Development of a therapeutic alliance between the member, or when applicable the health care decision maker and the designated representative, and behavioral health provider that promotes an ongoing partnership built on mutual respect and equality; and

   d. Clinical expertise/qualifications of individuals conducting the assessment, treatment/service planning, and service delivery.

2. For children, this team is the Child and Family Team (CFT). For adults, this team is the Adult Recovery Team (ART). At a minimum, the functions of the CFT and ART include:

   a. Ongoing engagement of the member, or when applicable the health care decision maker, and the designated representative, family, assigned Support Coordinator, and others who are significant in meeting the behavioral health needs of the member, including their active participation in the decision-making process and involvement in treatment. The member's Support Coordinator must participate in all CFT and ART meetings.

   b. An assessment process that is conducted to:

      i. Elicit information on the strengths and needs of the member and his/her family,

      ii. Identify the need for further or specialty evaluations, and

      iii. Support the development and updating of the treatment/service plan which effectively meets the member and family needs and results in improved health outcomes.

   c. Continuous evaluation of treatment effectiveness through the CFT or ART process, the ongoing assessment of the member, and input from the member, or when applicable the health care decision maker, and the designated representative, and Support Coordinator, resulting in modification to the treatment plan, as necessary.

d. Provision of all covered services as identified on the treatment/ service plan(s), including assistance in accessing community resources as appropriate.

e. For children, services are provided consistent with the Arizona Vision - 12 Principles as specified in the AMPM Policy 100 and the AHCCCS Child and Family Team Behavioral Health System Practice Tool. For adults, services are provided consistent with the Adult Service Delivery System - 9 Guiding Principles.

f. Ongoing collaboration with other people and/or entities with whom delivery and coordination of services is important to achieving positive outcomes (e.g., primary care providers, specialty service providers, school, child welfare, AdSS, justice system and others). This shall include sharing of clinical information as appropriate.

g. Ensure continuity of care by assisting members who are transitioning to a different treatment program, changing behavioral health providers, and/or transferring to another service delivery system (e.g., out of state). For more details see AdSS Operations Policy 402 and Division Medical Policy 520.

3. At least one Peer Recovery Support Specialist may be assigned to each ART to provide covered services, when appropriate, and provide access to peer support services for individuals with Substance Use Disorders, including Opioid Use Disorders, for purposes of navigating members to Medication Assisted Treatment (MAT) and increasing participation and retention in MAT treatment and recovery supports.

4. The Division requires subcontractors and subcontractor providers to make available and offer the option of having a Family Support Specialist for each CFT, to provide covered services when appropriate.

B. Assessment and Service Planning

Regardless of the Health Plan, including the Division's THP, the member is enrolled with the following requirements must be met. For members enrolled in THP, the Division's Support Coordinator is responsible for coordinating care between the physical health provider and behavioral health provider including Tribal Behavioral Health Authorities (TRBHA). Support Coordinators can request the Behavioral Health Administration and Health Care Services to assist in care coordination activities for THP members.

1. General Requirements for behavioral health assessments and treatment/service planning shall comply with the Rules in A.A.C. R9-10 and A.A.C. R9-21, as applicable. AMPM 320-O, Attachment A, shall be utilized by the member, or when applicable the health care decision maker, and the designated representative to indicate agreement or disagreement with Service Plan and awareness of rights to appeal

process if not in agreement with Service Plan.

2. Assessments, Service and Treatment Plans shall be completed by BHPs or BHTs under the clinical oversight of a BHP.

3. Behavioral health providers outside of the Health Home may complete assessment, service and treatment planning to support timely access to medically necessary behavioral health services as allowed under licensure. (A.A.C. R9, et. seq.)

    a. Should a specialty provider complete any type of behavioral health assessment, the specialty provider shall communicate with the Health Home regarding assessment findings. In situations where a specific assessment is duplicated and findings are discrepant, specialty provider and Health Home BHP or BHT shall discuss the differences and clinical implications for treatment needs. Differences shall be addressed within the CFT with participation from both the Health Home and Specialty Provider,

    b. Behavioral health providers shall supply completed Assessment and Service and Treatment Plan documentation to the Health Home for inclusion in the member's medical record,

    c. The assessment and service planning shall be implemented to align, as much as possible, with the Division's assessment and service planning, and

    d. For those Division members that have also been determined SMI, service planning and treatment shall be implemented to align with all requirements for SMI members under Division, AHCCCS and State of Arizona policy and rules including Division Medical Policies 310-B, 320-P, 320-Q and 320-R; Division Operational Policies 444 and 446.

4. If the assessment is completed by the BHT, the requirements of A.A.C. R9-10-1011(B)(3) shall be met.

5. At a minimum, the member, or when applicable the health care decision maker, and the designated representative, and a BHP, shall be included in the assessment process and development of the treatment/service Plan.

6. The assessment and treatment/service plan must be included in the clinical record in accordance with Division Medical Policy 940.

7. The treatment/service plan shall be based on the current assessment and identify the specific services and supports to be provided, as specified in Division Medical Policy 310-B. The Treatment Plan shall be developed based on specific treatment needs (e.g., out-of-home services, specialized behavioral health

therapeutic treatment for substance use or other specific treatment needs). Services within the Treatment/Service Plan are based on the range of services covered under AHCCCS policies.

8. The behavioral health provider shall document whether the member, or when applicable the health care decision maker, and the designated representative agrees with the treatment/service plan by either a written or electronic signature on the Service or Treatment Plan.

9. The member, or when applicable the health care decision maker, and the designated representative shall be provided with a copy of his/her service plan within seven calendar days of completion of the service plan and/or upon request.

10. SMI determination shall be completed for members who request an SMI determination in accordance with Division Medical Policy 320-P.

11. For members determined SMI:

    a. Assessment and treatment/service planning shall be conducted in accordance with A.A.C. R9-21-301 et seq. and A.A.C. R9-21-401 et seq.

    b. Special Assistance assessment shall be completed in accordance with Division Medical Policy 320-R.

    c. The completed treatment/service plan must be signed by the member, or when applicable the health care decision maker and the designated representative, in accordance with A.A.C. R9-21-308.

    d. For appeal requirements see A.A.C. R9-21-401 et seq. and Division Operations Policy 444.

12. The Health Home is responsible for maintaining the comprehensive assessment and conducting periodic assessment updates to meet the changing behavioral health needs for members who continue to receive behavioral health services.

13. Behavioral Health Assessments, Treatment and Service Plans shall be updated at a minimum of once annually, or more often as needed, based on clinical necessity and/or upon significant life events including but not limited to:

    a. Moving,

    b. Death of a friend or family member,

    c. Change in family structure (e.g., divorce, incarceration),

    d. Hospitalization,

e. Major illness of member or family member,

f. Incarceration, and

g. Any event which may cause a disruption of normal life activities.

14. The Health Home is responsible for maintaining the treatment/service plan and conducting periodic treatment/service plan updates to meet the changing behavioral health needs for members who continue to receive behavioral health services.

15. The Health Home shall coordinate with any entity involved in the member's Behavioral Health Assessment and Treatment and Service Planning care. (Refer to Division Medical Policy 541)

16. Special Circumstances:

a. Children Age 6 through 17 - An age-appropriate assessment shall be completed by the Health Home during the initial assessment and updated at least every six months, and this information shall be provided to the TRBHA or Division,

b. Children Age 6 through 17 - Strength, Needs and Culture Discovery Document shall be completed, as deemed appropriate, by the Health Home, and this information shall be provided to the TRBHA or Division, and

c. Children Age 11 through 17 - Standardized substance use screen and referral for further evaluation when screened positive shall be completed by the Health Home, and this information shall be provided to the TRBHA or Division.

E. Crisis and Safety Planning

1. General Purpose of a Crisis and Safety Plan

A Crisis and Safety Plan provides a written method for potential crisis support or intervention which identifies needs and preferences that are most helpful in the event of a crisis. The Crisis and Safety Plan shall be developed in accordance with the Vision and Guiding Principles of the Children's System of Care and the Nine Guiding Principles of the Adult System of Care as specified in AMPM Policy 100. Crisis and Safety plans shall be trauma informed with a focus on safety and harm reduction.

The development of a Crisis and Safety Plan shall be completed in alignment with the member's Service and Treatment Plan, and any existing Behavior Plan, if applicable. It shall be considered when clinically indicated. Clinical indicators may include, but are not limited, needs identified in members Treatment, Service, or Behavior Plan in addition to any one or a combination of the following:

a. Previous psychiatric hospitalizations,

b. Out-of-home placements,

c. HCBS settings,

d. Nursing facilities,

e. Group Home settings,

f. Special Health Care Needs,

g. Court-Ordered Treatment,

h. History of DTS/DTO,

i. Individuals with an SMI designation, and

j. Individuals identified as high risk/high needs.

Crisis and Safety Plans shall be updated annually, or more frequently if a member meets one or a combination of the above criteria, or if there is a significant change in the member's needs. A copy of the Crisis and Safety Plan shall be distributed to the team members that assisted with development of the Crisis and Safety Plan.

A Crisis and Safety Plan does not replace or supplant a Mental Health Power of Attorney or behavior plan, but rather serves as a compliment to these existing documents.

2. Essential Elements

A Crisis and Safety Plan shall establish goals to prevent or ameliorate the effects of a crisis and shall specifically address:

a. Techniques for establishing safety, as identified by the member and/or healthcare decision maker, as well as members of the CFT or ART,

b. Identification of realistic interventions that are most helpful or not helpful to the individual and his/her family members or support system,

c. Reduction of symptoms,

d. Guiding the support system toward ways to be most helpful,

e. Any physical limitations, comorbid conditions, or unique needs of the member (e.g., involvement with DCS or Special Assistance),

f. Adherence to Court-Ordered Treatment (if applicable),

g. Necessary resources to reduce the chance for a crisis or minimize the effects of an active crisis for the member. This may include but is not limited to:

i. Clinical (support staff/professionals), medication, family, friends, parent, guardian, environmental,

ii. Notification to and/or coordination with others, and

iii. Assistance with and/or management of concerns outside of crisis (e.g., animal care, children, family members, roommates, housing, financials, medical needs, school, work).

F. AdSS Oversight

The Division completes an annual Operational Review of each AdSS. Compliance with this policy and associated procedures may be reviewed during the Annual Operational Review. Each AdSS is expected to comply with requirements described in the associated AdSS Policy 320-O, Behavioral Health Assessments and Treatment/Service Planning

320-P SERIOUS EMOTIONAL DISTURBANCE AND SERIOUS MENTAL ILLNESS ELIGIBILITY DETERMINATIONS

REVISION DATE: 2/7/2024
REVIEW DATE: 9/19/2023
EFFECTIVE DATE: July 14, 2021
REFERENCES: A.R.S. 36-550, A.A.C. R9-21-101(B), AMPM Policy 320-P

PURPOSE

This policy applies to the Division of Developmental Disabilities (Division) and establishes requirements for eligibility determinations for individuals with Serious Emotional Disturbance (SED) and Serious Mental Illness (SMI).

Further, this policy describes requirements for Division oversight and monitoring of duties delegated to Administrative Services Subcontractors (AdSS) as specified in contract and AdSS Medical Policy 320-P.

DEFINITIONS

1. "Business Day" means a Monday, Tuesday, Wednesday, Thursday or Friday, excluding State and Federal Holidays.

2. "Determining Entity" means an entity designated by Arizona Health Care Cost Containment System (AHCCCS) and authorized to make SED and SMI eligibility determinations, or a Tribal Regional Behavioral

Health Authority (TRBHA) authorized to make the final determination of SED or SMI eligibility.

3. "Designated Representative" means an individual parent, guardian, relative, advocate, friend, or other individual, designated orally or in writing by a Member or Responsible Person who, upon the request of the Member, assists the Member in protecting the Member's rights and voicing the Member's service needs.

4. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

5. "Removal of Serious Emotional Disturbance Designation" means the process that results in the removal of the SED behavioral health category from the individual's most recent, active enrollment segment.

6. "Removal of Serious Mental Illness Designation" means the process that results in a modification to a Member's medical record by changing the behavioral health category designation from SMI to General Mental Health.

7. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a Member or an applicant for whom no guardian has been

appointed.

8. "Serious Emotional Disturbance" means a designation for individuals from birth up to age 18 who currently or at any time during the past year have had a diagnosable mental or emotional disorder of sufficient duration to meet diagnostic criteria specified within the current version of the Diagnostic and Statistical Manual of Mental Disorders that resulted in functional impairment, which substantially interferes with or limits the child's role or functioning in family, school, or community activities.

9. "Serious Mental Illness" means a designation as defined in A.R.S. § 36-550 and determined in an individual 18 years of age or older.

10. "Serious Emotional Disturbance or Serious Mental Illness Eligibility Determination" means a process used to determine whether an individual meets the diagnostic and functional criteria established for the purpose of determining an individual's eligibility for SED or SMI services.

POLICY

A. GENERAL REQUIREMENTS

1. The Division shall ensure all Members from birth to 18 years of age are evaluated for SED eligibility by a qualified clinician and have an SED eligibility determination made by the Determining Entity if the Responsible Person or Designated Representative makes such a request.

2. The Division shall ensure all Members age 17.5 or older are evaluated for SMI eligibility by a qualified clinician, as defined in A.A.C. R9-21-101(B), and have an SMI eligibility determination made by the Determining Entity if:
   a. The Member or Designated Representative makes the request,
   b. An Arizona Court issues an order instructing a Member to undergo an SMI Evaluation,
   c. It is clinically indicated by the presence of a qualifying diagnosis, or
   d. There is reason to believe that the assessment may indicate the presence of a qualifying diagnosis and functional limitation(s), and
   e. The actual SMI eligibility category will not become effective until a member turns 18 years of age.

3. The Division shall require the SED and SMI eligibility evaluation records contain all documentation considered during the review, including current and historical treatment records, and may be maintained in either hardcopy or electronic format.

4. The Division shall provide assistance and guidance on SED and SMI eligibility evaluation record location and maintenance, if needed.

5. The Division shall use computation of time during the SED and SMI determination process as follows:
    a. Day zero: The day the initial assessment is completed by a qualified clinician, regardless of time of the assessment.
    b. Day one: The next business day after the initial assessment is completed. The individual or organization completing the initial assessment must provide it to the Determining Entity as soon as practicable, but no later than 11:59 pm on day one.
    c. Day three: The third business day after the initial assessment is completed. The Determining Entity shall have at least two business days to complete the final SMI determination, but the final SMI determination must be

completed no later than day three.

d. Determination due date: Day three, three business days after day zero, excluding weekends and holidays, and is the date that the determination decision must be rendered. This date may be amended if an extension is approved in accordance with this policy.

B. PROCESS FOR COMPLETION OF THE INITIAL SED OR SMI ASSESSMENT

1. The Division shall require behavioral health providers, upon receipt of a request, referral, or identification of the need for an SED or SMI determination, to schedule an assessment with the Member and a qualified clinician if one has not been completed within the past six months.
   a. Assessments are to be scheduled as expeditiously as the Member's health condition requires, but no later than seven business days after receipt of the request or referral.
   b. For urgent eligibility determination referrals for Members admitted to a hospital for psychiatric reasons, the Determining Entity is able to accept an assessment completed by the hospital if it meets the criteria needed to

render a decision.

2. During the assessment meeting with the Member, the qualified clinician shall:

   a. Make a clinical judgment as to whether the Member is competent to participate in an evaluation;

   b. Obtain written consent to conduct the assessment from the Member, or if applicable the Member's Responsible Person, unless the Member has been ordered to undergo evaluation as part of court-ordered treatment proceedings;

   c. Provide to the Member, and if applicable the Member's Responsible Person, the information required in A.A.C. R9-21 301(D)(2), a Member rights brochure, and the Member's notice of right to appeal required by A.A.C. R9-21- 401(B);

   d. Obtain authorization for the release of information, if applicable, for any documentation that would assist in the determination of the Member's eligibility for SED or SMI designation;

   e. Conduct an assessment that is an accurate representation of the Member's current level of functioning if one has not

been completed within the past six months;

f. Complete the SED or SMI determination packet on the AHCCCS SMI Provider Submission Portal; and

g. Upon completion, submit all information to the Determining Entity within one business day.

C. CRITERIA FOR SED ELIGIBILITY

1. The Division shall require the final determination of SED to include both a qualifying SED diagnosis and functional impairment because of the qualifying diagnosis.

2. The Division shall refer to the Medical Coding Page on the AHCCCS website for a list of qualifying diagnoses.

3. To meet the functional criteria for SED status, the Division shall require, as a result of a qualifying diagnosis, dysfunction in at least one of the following four domains for most of the past six months or for most of the past three months with an expected continued duration of at least three months:

   a. Seriously disruptive to family or community:

      i. Pervasively or imminently dangerous to self or others' bodily safety;

ii. Regularly engages in assaultive behavior;

iii. Has been arrested, incarcerated, hospitalized or is at risk of confinement because of dangerous behavior;

iv. Persistently neglectful or abusive towards others;

v. Severe disruption of daily life due to frequent thoughts of death, suicide, or self-harm, often with behavioral intent or plan; or

vi. Affective disruption causes significant damage to the Member's education or personal relationships

b. Dysfunction in role performance:

i. Frequently disruptive or in trouble at home or at school;

ii. Frequently suspended or expelled from school;

iii. Major disruption of role functioning;

iv. Requires structured or supervised school setting;

v. Performance significantly below expectation for cognitive or developmental level; or

vi. Unable to attend school or meet other developmentally appropriate responsibilities.

c. Child and Adolescent Level of Care Utilization System

(CALOCUS) recommended level of care 4, 5, or 6.

d. Risk of deterioration:

i. A qualifying diagnosis with probable chronic, relapsing, and remitting course;

ii. Comorbidities including developmental or intellectual disability, substance use disorder, or personality disorders;

iii. Persistent or chronic factors, such as social isolation, poverty, extreme chronic stressors; or

iv. Other, such as past psychiatric history, gains in functioning have not solidified or are a result of current compliance only, court-committed, care is complicated and requires multiple providers.

4. The Division shall not allow the following reasons alone to be sufficient for denial of SED eligibility:

a. An inability to obtain existing records or information; or

b. Lack of a face-to-face psychiatric or psychological evaluation.

D. CRITERIA FOR SMI ELIGIBILITY

1. The Division shall require the final determination of SMI to include a qualifying SMI diagnosis and functional impairment because of the qualifying diagnosis.

2. The Division shall refer to the Medical Coding Page on the AHCCCS website for a list of qualifying diagnoses.

3. To meet the functional criteria for SMI status, the Division shall require, as a result of a qualifying SMI diagnosis, dysfunction in at least one of the following four domains for most of the past 12 months or for most of the past six months with an expected continued duration of at least six months:
    a. Inability to live in an independent or family setting without supervision:
        i. Neglect or disruption of ability to attend to basic needs;
        ii. Needs assistance in caring for self;
        iii. Unable to care for self in a safe or sanitary manner;
        iv. Housing, food and clothing is provided or arranged for by others;
        v. Unable to attend to the majority of basic needs of hygiene, grooming, nutrition, medical and dental

care;

vi. Unwilling to seek prenatal care or necessary medical/dental care for serious medical or dental conditions;

vii. Refuses treatment for life threatening illnesses because of behavioral health disorder; or

viii. A risk of serious harm to self or others.

b. Seriously disruptive to family or community:

i. Pervasively or imminently dangerous to self or others' bodily safety;

ii. Regularly engages in assaultive behavior;

iii. Has been arrested, incarcerated, hospitalized or at risk of confinement because of dangerous behavior;

iv. Persistently neglectful or abusive towards others;

v. Severe disruption of daily life due to frequent thoughts of death, suicide, or self-harm, often with behavioral intent or plan; or

vi. Affective disruption causes significant damage to the Member's education, livelihood, career, or personal relationships.

c. Dysfunction in role performance:

i. Frequently disruptive or in trouble at work or at school;

ii. Frequently terminated from work or suspended/ expelled from school;

iii. Major disruption of role functioning;

iv. Requires structured or supervised work or school setting;

v. Performance significantly below expectation for cognitive/developmental level;

vi. Unable to work, attend school, or meet other developmentally appropriate responsibilities; or

d. Risk of deterioration:

i. A qualifying diagnosis with probable chronic, relapsing and remitting course;

ii. Comorbidities including developmental or intellectual disability, substance use disorder, personality disorders;

iii. Persistent or chronic factors such as social isolation, poverty, extreme chronic stressors; or

iv. Other, such as past psychiatric history, gains in functioning have not solidified or are a result of current compliance only, court-committed, or care is complicated and requires multiple providers.

4. The Division shall not allow the following reasons alone to be sufficient for denial of SMI eligibility:
   a. An inability to obtain existing records or information; or
   b. Lack of a face-to-face psychiatric or psychological evaluation.

E. MEMBERS WITH CO-OCCURRING SUBSTANCE USE

1. The Division shall require the presumption of functional impairment as follows for Members with co-occurring substance use when assessing for SED or SMI eligibility:
   a. For psychotic diagnoses other than substance-induced psychosis (bipolar I disorder with psychotic features, delusional disorder, major depression, recurrent, severe, with psychotic features, schizophrenia, schizoaffective disorder, and any other diagnosis of persistent psychotic disorder) functional impairment is presumed to be due to

the qualifying mental health diagnosis.

b. For other qualifying psychiatric disorders, functional impairment is presumed to be due to the psychiatric diagnosis unless:

i. The severity, frequency, duration, or characteristics of symptoms contributing to the functional impairment cannot be attributed to the qualifying mental health diagnosis; or

ii. The assessor can demonstrate, based on a historical or prospective period of treatment, that the functional impairment is present only when the Member is actively using substances or experiencing symptoms of withdrawal from substances; and

iii. To make such determinations, the assessor shall first look at a period of either 30 days or longer of abstinence, or 60 days or longer of reduced use that is less than the threshold expected to produce the resulting symptoms and disability, and establish that the symptoms and resulting disability were no longer present after the 30- or 60-day period and no longer

required mental health treatment to prevent recurrence of symptoms.

c. A diagnosis of substance-induced psychosis can only be made if both of the following conditions are present:

   i. There is no psychosis present before a period of substance use that is of sufficient type, duration, and intensity to cause psychotic symptoms; and

   ii. The psychosis remits completely (not partially) after a period of abstinence of 30 days or less.

d. Continuation of new onset psychotic symptoms after a 30-day period of abstinence requires a presumptive diagnosis of a persistent psychotic disorder.

e. For persistent psychosis of undetermined onset, the absence of clear remission of psychosis during a period of abstinence of 30 days or less should be considered presumptive evidence of a persistent psychotic disorder for SED or SMI eligibility purposes.

f. For Members who are not able to attain or maintain a period of abstinence from substance use, who continue to use substances or do not experience consecutive days of

abstinence, this is not a disqualifier to initiate the SED or SMI eligibility determination process.

g. For Members who do not meet the 30-day period of abstinence, this does not preclude them from the SED or SMI eligibility determination process.

F. ISSUES PREVENTING TIMELY COMPLETION OF ELIGIBILITY DETERMINATION AND EXTENSION OF TIME

1. The Division shall require the evaluating agency to respond to a Determining Entity's request for additional information to make a final SED of SMI eligibility determination within three business days of receipt of the request.

2. The Division shall allow an extension of no more than 20 calendar days to initiate or complete the SED or SMI eligibility determination if the individual agrees to the extension and:
   a. There is substantial difficulty scheduling a meeting in which all necessary participants can attend;
   b. The individual fails to keep an appointment for assessment, evaluation, or any other necessary meeting;
   c. The individual is capable of, but temporarily refuses to cooperate in the preparation of the completion of an

assessment or evaluation;

d. The individual, or if applicable the individual's Responsible Person, requests an extension of time;

e. Additional documentation has been requested but not received; or

f. There is insufficient functional or diagnostic information to determine SED or SMI eligibility within the required time periods.

3. The Division shall ensure that "insufficient diagnostic information" means that the information available to the reviewer is suggestive of two or more equally likely working diagnoses, only one of which qualifies as SED or SMI, and an additional piece of existing historical information or a face-to-face psychiatric evaluation is likely to support one diagnosis more than the other(s).

G. NOTIFICATION OF SED OR SMI ELIGIBILITY DETERMINATION

1. The Division Behavioral Health Administration shall review notifications of SED or SMI determination results received from the Determining Entity or AHCCCS Division of Fee-For-Service

Management (DFSM).

2. The Division Behavioral Health Administration shall notify the assigned Support Coordinator of the SED or SMI determination results.

3. The Division shall ensure the Member's record is updated to reflect the status of the Member's SED or SMI eligibility.

H. RE-ENROLLMENT OR TRANSFER

1. The Division shall require the following:
   a. If the Member's status is SED or SMI at disenrollment, while incarcerated, or transition to another Contractor, the Member's status shall continue as SED or SMI.
   b. A Member shall retain their SED or SMI status unless the Member's enrollment is active and a determination is made by a Determining Entity that the Member no longer meets criteria.
   c. The SMI determination process is initiated for adolescents as specified in Division Medical Policy 520.

I. REMOVAL OF SED OR SMI DESIGNATION

1. The Division shall ensure behavioral health providers are aware

of the following process for review of SED or SMI designations:

a. A review of the eligibility determination may not be requested within the first six months from the date the Member has been designated as SED or SMI eligible.

b. A behavioral health provider may request a review of a Member's SED or SMI designation from the Determining Entity:

   i. As part of an instituted, periodic review of all Members with an SED or SMI designation;

   ii. If there has been a clinical assessment that supports the Member no longer meets the functional or diagnostic criteria; or

   iii. As requested by the Member who has been determined to meet SED or SMI eligibility criteria, or their Responsible Person or Designated Representative.

c. Based on review of the request and clinical data provided, removal of the SED or SMI behavioral health category will occur if:

   i. The individual is an enrolled Member and has not

received any behavioral health service within the past six months, or

ii. The Member is determined to no longer meet the diagnostic and or functional requirements for SED or SMI designation.

d. In the event of the removal of the designation, the following shall occur:

i. The Determining Entity will inform the Member of changes that may result with the removal of the SED or SMI designation, and

ii. Provide written notice of the determination and the Member's right to appeal within 30 calendar days from the date the written notice is issued.

2. The Division shall ensure that services are continued in the event of a timely filed appeal and that services are appropriately transitioned.

J. DIVISION OVERSIGHT AND MONITORING OF ADMINISTRATIVE SERVICES SUBCONTRACTORS

1. The Division shall provide oversight and monitoring of compliance by Administrative Services Subcontractors serving

Members enrolled in a Division subcontracted health plan with respect to any contractual delegation of duties as specified in AdSS Medical Policy 320-P using the following methods:

a. Meet with the AdSS at least quarterly to provide ongoing evaluation, including data analysis, recommendations to refine processes, and address quality of care concerns.

b. Conduct an Operational Review of each AdSS on an annual basis that includes review of policy compliance.

c. Review data submitted by the AdSS demonstrating ongoing compliance monitoring of their network and provider agencies.

SUPPLEMENTAL INFORMATION

The information contained in Sections K through M of this policy are AHCCCS requirements for the Determining Entity authorized by AHCCCS to make the final SED and SMI designation determinations.

K. DETERMINING ENTITY RESPONSIBILITY FOR COMPLETION OF FINAL ELIGIBILITY DETERMINATION

1. A licensed psychiatrist, psychologist, or nurse practitioner designated by the Determining Entity shall make a final determination as to whether the Member meets the eligibility

requirements for SED or SMI status based on:

a. A face-to-face assessment or reviewing a face-to-face assessment by a qualified clinician; and

b. A review of current and historical information, if any, obtained orally or in writing by the assessor from collateral sources and/or present or previous treating clinicians.

2. The following shall occur if the designated reviewing psychiatrist, psychologist, or nurse practitioner has not conducted a face-to-face assessment and has a disagreement with the current evaluating or treating qualified behavioral health professional or behavioral health technician that cannot be resolved by oral or written communication:

a. Disagreement regarding diagnosis: Determination that the Member does not meet eligibility requirements for SMI status shall be based on a face-to-face diagnostic evaluation conducted by a designated psychiatrist, psychologist, or nurse practitioner. The resolution of (specific reasons for) the disagreement shall be documented in the Member’s comprehensive clinical record.

b. Disagreement regarding functional impairment:

Determination that the Member does not meet eligibility requirements shall be documented by the psychiatrist, psychologist, or nurse practitioner in the Member's comprehensive clinical record to include the specific reasons for the disagreement and will include a clinical review with the qualified clinician.

3. If there is sufficient information to determine SED or SMI eligibility, the Determining Entity shall provide the Member with notice, in writing, of the eligibility determination within three business days of the initial meeting with the qualified clinician.

4. The Determining Entity shall provide notification of the eligibility determination result to AHCCCS via the AHCCCS Behavioral Health Web Portal and to the provider who completed the Assessment/evaluation through an agreed upon medium. For Division THP members, the Determining Entity shall also provide notification to AHCCCS DFSM.

5. Once an SED or SMI eligibility determination decision is made and submitted to AHCCCS, AHCCCS will update the member's

behavioral health category to SED or SMI respectively and will provide the eligibility determination documentation to the MCO of enrollment, as applicable, via the AHCCCS Secured File Transfer Protocol (SFTP) server.

L. DETERMINING ENTITY RESPONSIBILITY DUE TO ISSUES PREVENTING TIMELY COMPLETION OF ELIGIBILITY DETERMINATION AND EXTENSION OF TIME

1. The Determining Entity shall:
    a. Document the reasons for the delay in the Member's eligibility determination record when there is an administrative or other emergency that will delay the determination of an SED or SMI status; and
    b. Not use the delay as a waiting period before determining an SED or SMI status or as a reason for determining that the Member does not meet the criteria for SED or SMI eligibility (because the determination was not made within the time standards).

2. In situations in which the extension is due to insufficient information:
    a. The Determining Entity shall request and obtain the

additional documentation needed (e.g., current and/or past medical records) and/or perform or obtain any necessary psychiatric or psychological evaluations;

b. The designated reviewing psychiatrist, psychologist, or nurse practitioner shall communicate with the Member's current treating clinician, if any, prior to the determination of an SED or SMI, if there is insufficient information to determine the Member's level of functioning; and

c. Eligibility shall be determined within three days of obtaining sufficient information, but no later than the end date of the extension.

3. If the evaluation or information cannot be obtained within the required time period because of the need for a period of observation or abstinence/reduction from substance use in order to establish a qualifying mental health diagnosis, the Member shall be notified by the Determining Entity that the determination may, with the agreement of the Member, be extended for up to 60 calendar days for an extended evaluation period. This is a 60-day period of abstinence, or reduced use from drug and/or alcohol use in order to help the reviewing

psychologist make an informed decision regarding SED or SMI eligibility.

4. This extension may be considered a technical re-application to ensure compliance with the intent of A.A.C. R9-21-303; however, the Member does not need to reapply. Alternatively, the determination process may be suspended and a new application initiated upon receipt of necessary information.

5. If the Member refuses to grant an extension, SED or SMI eligibility shall be determined based on the available information.

6. If SED or SMI eligibility is denied, the Member shall be notified of their appeal rights and the option to reapply in accordance with this policy.

M. DETERMINING ENTITY RESPONSIBILITY FOR NOTIFICATION OF SED OR SMI ELIGIBILITY DETERMINATION

1. If the Member is determined to qualify for an SED or SMI designation, this shall be reported to the Member, Responsible Person, or Designated Representative by the Determining Entity, in writing, including notice of the Member's right to appeal the decision on the form approved by AHCCCS.

2. If the eligibility determination results in a determination that the Member does not qualify for an SED or SMI designation, the Determining Entity shall provide written notice of the decision and include:
   a. The reason for denial of SED or SMI eligibility,
   b. The right to appeal, and
   c. The statement that Title XIX/XXI eligible Members will continue to receive needed Title XIX/XXI covered services. In such cases, the Member's behavioral health category assignment shall be assigned based on criteria in the AHCCCS Technical Interface Guidelines.

Signature of Chief Medical Officer: Anthony Dekker (Jan 30, 2024 14:17 MST)

Anthony Dekker, D.O.

320-S BEHAVIOR ANALYSIS SERVICES

REVISION DATE 10/1/2021

EFFECTIVE DATE: March 17, 2021

PURPOSE

This policy applies to the Behavior Analysis Services delivered to Division members enrolled in ALTCS. The Division covers Behavior Analysis Services for members eligible for ALTCS regardless of the health plan they choose. The responsibilities of the Division for providing Behavior Analysis Services to members are outlined in this policy, including additional requirements for members that have chosen THP as their health plan. The Division is responsible for collaborating with Tribal entities and behavioral health providers to ensure access to services for THP members. See AdSS policy 320-S for responsibilities of the AdSS providing behavioral analysis services.

DEFINITIONS

Behavior Analysis Services - The use of behavior analysis to assist a person to learn new behavior, increase existing behavior, reduce existing behavior and emit behavior under precise environmental conditions in accordance with A.R.S. §32-2091.

Behavior Analysis Trainee - An individual who has met the credentialing requirements of a nationally recognized behavior analyst certification board as a board certified behavior analyst, assistant behavior analyst, or a matriculated graduate student or trainee whose activities are part of a defined behavior analysis program of study, practicum, intensive practicum, or supervised independent fieldwork. The practice under this role requires direct and ongoing supervision consistent with the standards set by a nationally recognized behavior analyst certification board as determined by the Arizona Board of Psychologist Examiners, and in accordance with A.R.S. §32-2091.08.

Behavior Analyst - A person who is licensed pursuant to A.R.S §32-2091 to practice behavior analysis.

Behavioral Health Professional (BHP)

1) An individual licensed under A.R.S. Title 32, Chapter 33, whose scope of practice allows the individual to:

   a) Independently engage in the practice of behavioral health as defined in A.R.S. §32-3251, or

   b) Except for a licensed substance abuse technician, engage in the practice of behavioral health as defined in A.R.S.§32-3251 under direct supervision as defined in A.A.C. R4-6-101,

2) A psychiatrist as defined in A.R.S. §36-501,

3) A psychologist as defined in A.R.S. §32-2061,

4) A physician,

5) A behavior analyst as defined in A.R.S. §32-2091,

6) A registered nurse practitioner licensed as an adult psychiatric and mental health nurse, or

7) A registered nurse with:

   a. A psychiatric-mental health nursing certification, or

   b. One year of experience providing behavioral health services.

Behavior Technician - For purposes of this Policy, a paraprofessional credentialed by a nationally recognized Behavior Analyst certification board or as specified in A.A.C. R9-10-101(39), an individual who is not a BHP who provides behavioral health services at or for a health care institution according to the health care institution's policies and procedures that:

1) If the behavioral health services were provided in a setting other than a licensed health care institution, the individual would be required to be licensed as a behavioral professional under A.R.S. Title 32, Chapter 33, and

2) Are provided with clinical oversight by a Behavioral Health Professional as specified in A.A.C. R9-10-101 (39).

A. PROGRAM DESCRIPTION

Regardless of the Health Plan, including the Division's THP, the member is enrolled with the following program and services are available. For members enrolled in THP, the Division's Support Coordinator is responsible for coordinating care between the physical health provider and behavioral health provider including Tribal Behavioral Health Authorities. Support Coordinators can request the Behavioral Health Administration and Health Care Services to assist in care coordination activities for THP members.

Behavior Analysis Services are an AHCCCS covered benefit for individuals with Autism Spectrum Disorder and/or other diagnoses as justified by medical necessity. Behavior Analysis Services are designed to accomplish one or more of the following: Increase functional skills, increase adaptive skills (including social skills), teach new behaviors, increase independence and/or reduce or eliminate behaviors that interfere with behavioral or physical health.

Behavior Analysis Services are prescribed or recommended in specific dosages, frequency, intensity, and duration by a qualified Behavioral Health Professional as the result of an assessment of the member, the intensity of the behavioral targets, and complexity and range of treatment goals.

Refer to the Behavioral Health Services Billing Matrix and Medical Coding Resources on the AHCCCS website for more information regarding required coding information, including covered settings.

B. PROVIDER QUALIFICATIONS

Behavior Analysis Services shall be directed and overseen by Behavior Analysts and supported, where applicable, by Behavior Analysis Trainees and/or Behavior Technicians.

The Behavior Analyst is responsible for training Behavior Analysis Trainees and Behavior Technicians to implement assessment and intervention protocols with members. The Behavior Analyst is responsible for all aspects of clinical direction, supervision, and provider-level case management.

The Behavior Analyst shall be responsible for ensuring that the extent, kind, and quality of the Behavior Analysis Services the Behavior Analysis Trainee and Behavior Technician performs are consistent with his or her training and experience.

The Behavior Analyst shall be responsible for Behavior Analysis Trainee and Behavior Technician compliance with this Policy and Arizona State rules and regulations including those provisions set forth in A.R.S. §32-2091.

C. BEHAVIOR ANALYSIS ASSESSMENTS

Behavior Analysis Services are based upon assessment(s) that include standardized and/or non-standardized instruments through both direct and indirect methods.

1. Standardized instruments and procedures include, but are not limited to, behavior checklists, rating scales, and adaptive skill assessment instruments that comprise a fixed set of items and are administered and scored in a uniform way with all members (e.g., Pervasive Developmental Disabilities Behavior Inventory, Brigance Inventory of Early Development, Vineland Adaptive Behavior Scales).

2. Non-standardized instruments and procedures include, but are not limited to, curriculum-referenced assessments, stimulus preference assessment procedures, and other procedures for assessing behaviors and associated environmental events that are specific to the individual member and their behaviors.

D. SERVICE ADMINISTRATION

Behavior Analysis Services are rendered according to an Individualized Behavior Analysis Treatment Plan which will:

1) Be developed by a Behavior Analyst, based upon an assessment completed of the member and their behaviors as described above.

2) Be person-centered and individualized to the member's specific needs.

3) Specify the setting(s) in which services will be delivered.

4) Identify the modality by which the service will be delivered (whether in person or via telehealth, or in group or individual setting, or combination thereof).

5) Identify the baseline levels of target behaviors.

6) Specify long- and short-term objectives that are defined in observable, measurable, and behavioral terms.

7) Specify the criteria that will be used to determine treatment progress and achievement of objectives.

8) Include assessment and treatment protocols for addressing each of the target behaviors.

9) Clearly identify the schedule of services planned and roles and responsibilities for service delivery.

10) Include frequent review of data on target behaviors.

11) Include adjustments of the treatment plan and/or protocols by the LBA as needed based upon the review of data, including recommendations for treatment intensity and duration based upon the member's response to treatment.

12) Include training, supervision, and evaluation of procedural fidelity for BCaBA®s, Behavior Analysis Trainees, and Behavior Technicians implementing treatment protocols.

13) Include training and support to enable parents and/or other caregivers, if applicable, to participate in treatment planning and treatment plan implementation.

14) Include care coordination activities involving the member's team in order to assist in the generalization and maintenance of treatment targets. This may include Child and Family Team (CFT) or Adult Recovery Team (ART), Health Care Decision Maker, the Primary Care Provider (PCP), school, medical specialists, behavioral health prescribers, Department of Child Services, and/or other state-funded programs, and others as applicable.

15) Result in progress reports at minimum every six months. Progress reports includes, but are not limited to, the following components:

    i) Member Identification,

    ii) Background Information (family dynamics, school placement, cultural considerations, prenatal and/or developmental history, medical history, sensory, dietary and adaptive needs, sleep patterns, and medications),

    iii) Assessment findings (communication, social, motor, and self-help skills, maladaptive behaviors, and primary caregiver concerns), and

    iv) Outcomes (measurable objectives, progress towards goals, clinical recommendations, treatment dosage, family role and family outcomes, and nature of family participation).

    v) Care Coordination (transition statement and individualized discharge criteria).

16) Be consistent with applicable professional standards and guidelines relating to the practice of Behavior Analysis Services as well as Arizona Medicaid laws and regulations and Arizona state behavior analyst licensure laws and regulations (A.R.S. §32-2091).

E. Oversight of AdSS provision of Behavior Analysis Services

The Division will perform an annual operational review of each AdSS and at that time may review the receipt of Behavioral Analysis Services by the AdSS covered members. In addition, during the Division's quarterly Health Plan Oversight Committee the AdSS may be requested to report on tracking and trending of these services among their covered membership.

320-U PRE-PETITION SCREENING, COURT-ORDERED EVALUATION, AND COURT-ORDERED TREATMENT

EFFECTIVE DATE: June 16, 2021

PURPOSE

This policy applies to services delivered to Division members of the DDD Tribal Health Program (THP) by establishing guidelines, as applicable, for the provision and coordination of behavioral health services regarding the pre-petition screening, court-ordered evaluation, and court-ordered treatment process. The Division is responsible for collaborating with Tribal entities and behavioral health providers to endure access to services for THP members.

DEFINITIONS

Court-Ordered Evaluation (COE) - Evaluation ordered by the court (A.A.C R9-21-101). The COE process as specified in this Policy.

Court-Ordered Treatment (COT) - Treatment ordered by the court (A.A.C R9-21-101). The COT process as specified in this policy.

Evaluation Agency - A health care agency licensed by the Arizona Department of Health Services that has been approved pursuant to A.R.S. Chapter 5 Title 36, providing those services required of such agency.

Mental Disorder - A substantial disorder of the individual's emotional processes, thought, cognition, or memory as defined in A.R.S. §36-501.

Pre-Petition Screening - The review of each application requesting court-ordered evaluation, including an investigation of facts alleged in such application, an interview with each applicant and an interview, if possible, with the proposed individual. The purpose of the interview with the proposed member is to assess the problem, explain the application, and, when indicated, attempt to persuade the proposed member to receive, on a voluntary basis, evaluation or other services as specified in A.R.S. § 36-501.

Screening Agency - A health care agency licensed by ADHS and that provides those services required of such agency pursuant to A.R.S. Chapter 5 Title 36 (A.R.S. § 36-501).

Voluntary Evaluation - For purposes of this Policy, an inpatient or outpatient professional multidisciplinary service based on analysis of data describing the individual person's identity, biography, and medical, psychological, and social conditions that is provided after a determination that an individual willingly agrees to consent to receive the service and is unlikely to present a danger to self or others until the service is completed. A voluntary evaluation is invoked after the filing of a pre-petition screening but before the filing of a court-ordered evaluation and requires the informed consent of the individual. Additionally, the individual must be able to manifest capacity to give informed consent.

POLICY

This Policy outlines the processes and responsibilities applicable when it is necessary to initiate COE/COT proceedings detailed in A.R.S. §§ 36-501 et seq. This process is used to ensure the safety of an individual or the safety of others when, due to an individual's mental disorder, that individual is unable or unwilling to participate in treatment. The Division's

responsibilities may vary for Pre-Petition Screening and COE based on contractual arrangements between the Division, AHCCCS, TRBHA and the counties. The Division must ensure providers responsible for the COE/COT process adhere to requirements of this Policy.

When necessary, in accordance with A.A.C. R9-21-101 and A.R.S. § 36-520, any responsible person may submit an application when another individual is alleged to be, as a result of a mental disorder:

- Danger to Self (DTS).
- Danger to Others (DTO).
- Persistently or Acutely Disabled (PAD), or
- Gravely Disabled (GD).

If the individual who is the subject of a court-ordered commitment proceeding is subject to the jurisdiction of a tribal nation, rather than the state, the laws of that tribal nation will govern the commitment process. Information about the tribal court process and the procedures under state law for recognizing and enforcing a tribal court order are found in this Policy.

Pre-Petition Screening includes an examination of the individual's mental status and/or other relevant circumstances by a designated Screening Agency. Upon review of the application, examination of the individual and review of other pertinent information, a licensed Screening Agency's medical director or designee will determine if the individual meets criteria for DTS, DTO, PAD, or GD as a result of a mental disorder.

If the pre-petition application screening indicates that the individual may be DTS, DTO, PAD or GD, the Screening Agency will file an Application for Emergency Admission for Evaluation for a COE. Based on the immediate safety of the individual or others, an emergency admission for evaluation may be necessary. The Screening Agency, upon receipt of the application must determine the need for continued evaluation and immediately act as prescribed, not to exceed 48 hours of the filing of the application excluding weekends and holidays as specified in A.R.S. § 36-520.

Based on the COE, the Evaluating Agency may petition for COT on behalf of the

individual. The subsequent hearing is the determination as to whether the individual will be court ordered to treatment as specified in A.R.S. § 36-539. COT may include a combination of inpatient and outpatient treatment. Inpatient treatment days are limited contingent on the individual's designation as DTS, DTO, PAD, or GD. Individuals identified as:

- DTS may be ordered up to 90 inpatient days per year.
- DTO and PAD may be ordered up to 180 inpatient days per year, and
- GD may be ordered up to 365 inpatient days per year.

If the court orders a combination of inpatient and outpatient treatment, a mental health agency will be identified by the court to supervise the individual's outpatient treatment. Before the court can order a mental health agency to supervise the individual's outpatient treatment, the agency medical director must agree and accept responsibility by submitting a written treatment plan to the court.

At every stage of the Pre-Petition Screening, COE and COT process, an individual who manifests the capacity to give informed consent pursuant to A.R.S. § 36-518 will be provided an opportunity to change the status to voluntary. Under voluntary status, the individual will voluntarily receive an evaluation and is unlikely to present as DTO/DTS during the time pending the voluntary evaluation.

Entities responsible for COE must ensure the use of the following forms prescribed in 9

A.A.C. 21, Article 5 for individuals determined to have a Serious Mental Illness (SMI) and may also use these forms for all other populations:

Although the Division may not be contracted for providing Pre-Petition Screening services, emergency/crisis petition filing, and COE services in all counties, the Division must provide policies and procedures for providers outlining these processes.

A. Licensing Requirements

Behavioral health providers who are licensed by the ADHS/Division of Public Health Licensing as a COE or COT agency must adhere to ADHS licensing requirements.

B. Pre-Petition Screening

1. Unless otherwise indicated in an Intergovernmental Agreement (IGA) with a county, Arizona counties are responsible for managing, providing, and paying for Pre-Petition Screening and COEs and are required to coordinate provision of behavioral health services with the member's contractor or FFS program, responsible for the provision of behavioral health services. For additional information, visit the AHCCCS website, https://www.azahcccs.gov.

   During the Pre-Petition Screening, the designated Screening Agency must offer assistance, if needed, to the applicant in the preparation of the application for involuntary COE Any behavioral health provider that receives an application for COE (AMPM Attachment A, COE Deliverable Template) must immediately refer the application for Pre-Petition Screening and petitioning for COE to the Division-designated Pre-Petition Screening agency or county facility.

2. The Division shall develop policies that outline its role and responsibility related to the treatment of individuals who are unable or unwilling to consent to treatment. The policy must conform to the processes provided in A.R.S. §§ 36-501 et seq, and at a minimum address:

   a. Involuntary evaluation,

   b. Petitioning process,

   c. COE/COT process, including tracking the status of Court orders,

   d. Execution of Court orders, and

   e. Judicial Review.

C. Responsibility for Providing Pre-Petition Screening

When the Division is responsible through an IGA with a county for Pre-Petition Screening and petitioning for COE, the Division must refer the applicant to a subcontracted Pre-Petition Screening Agency.

The Pre-Petition Screening Agency must follow these procedures:

1. Provide Pre-Petition Screening within 48 hours excluding weekends and holidays.

2. Prepare a report of opinions and conclusions. If Pre-Petition Screening was not possible, the Screening Agency must report reasons why the screening was not possible, including opinions and conclusions of staff members who attempted to conduct the Pre-Petition Screening.

3. Ensure the agency's medical director or designee review of the report if the report indicates that there is no reasonable cause to support the allegations for COE by the applicant.

4. Prepare a Petition for COE and file the petition if the Screening Agency determines that due to a mental disorder, there is reasonable cause to believe that the individual meets the criteria set forth in § 36-521(D).

5. Ensure completion of Application for Emergency Admission for Evaluation and take all reasonable steps to procure hospitalization on an emergency basis, if it determines that there is reasonable cause to believe that the individual, without immediate hospitalization, is likely to harm themselves or others.

6. Contact the county attorney prior to filing a petition if it alleges that an individual is DTO.

D. Emergent/Crisis Petition Filing Process for Contractors Contracted as Evaluating Agencies

When it is determined that there is reasonable cause to believe that the individual being screened is in a condition that without immediate hospitalization is likely to harm themselves or others, an emergent application must be filed. The petition must be filed at the appropriate agency as determined by the Division. Pursuant to A.R.S. § 36-501 et seq., when considering the emergent petition process, the following apply:

1. Only applications indicating DTS and/or DTO can be filed on an emergent basis.

2. The applicant shall have knowledge of the behavior(s) displayed by the individual that is a danger to self or others consistent with requirements specified in A.R.S. § 36-524.

3. The applicant shall complete an Application for Emergency Admission for Evaluation.

4. The applicant and all witnesses identified in the application as direct observers of the dangerous behavior(s) may be called to testify in court if the

application results in a petition for COE.

5. Immediately Upon receipt of an Application for Emergency Admission for evaluation and all corroborating documentation necessary to successfully complete a determination, the admitting physician will determine if enough evidence exists for an emergency admission for evaluation. If there is enough evidence to support the emergency admission for evaluation, the appropriate facility is not currently operating at or above its allowable member capacity, and the individual does not require medical care, then facility staff will immediately coordinate with local law enforcement for the detention of the individual and transportation to the appropriate facility.

6. If the individual requires a medical facility, or if appropriate placement cannot be arranged within the 48-hour timeframe identified above relating to an Application for Emergency Admission for Evaluation, the Medical Director of the Division will be consulted to arrange for a review of the case.

7. The Application for Emergency Admission for Evaluation may be discussed by telephone with the facility admitting physician, the referring physician, and a peace officer to facilitate transportation of the individual to be evaluated.

8. An individual proposed for emergency admission for evaluation may be apprehended and transported to the facility under the authority of law enforcement using the Application for Emergency Admission for Evaluation in accordance with A.R.S. §§ 36-524(D) and 36-525(A), which outlines criteria for a peace officer to apprehend and transport an individual based upon either a telephonic or written application for emergency admission.

9. An emergency admission for evaluation begins at the time the individual is detained involuntarily by the admitting physician who determines if there is reasonable cause to believe that the individual, as a result of a mental disorder, is a DTS or DTO and that during the time necessary to complete pre-screening procedures the individual is likely, without immediate hospitalization, to suffer harm or cause harm to others.

10. During the emergency admission period of up to 23 hours the following occurs:

    a. The individual's ability to consent to voluntary treatment is assessed,

    b. The individual must be offered and receive treatment to which the individual may consent; otherwise, the only treatment administered involuntarily will be for the safety of the individual or others, i.e.,

       seclusion/restraint or pharmacological restraint in accordance with A.R.S. § 36-513, and

    c. When applicable, the psychiatrist will complete the Voluntary Evaluation within 24 hours of determination that the individual no longer requires an involuntary evaluation.

E. Court-Ordered Evaluation

1. If, after review of the petition for evaluation, the individual is reasonably

believed to be DTS, DTO, PAD, GD as a result of a mental disorder, the court can issue an order directing the individual to submit to an evaluation at a designated time and place. The order must specify whether the evaluation will take place on an inpatient or an outpatient basis.

a. The court may also order that, if the individual does not or cannot submit, the individual be taken into custody by a peace officer and delivered to an Evaluation Agency. For further requirements surrounding COEs on an inpatient basis, refer to A.R.S. § 36-529.

2. If the Pre-Petition Screening indicates that the individual may be DTS, DTO, PAD, or GD, the Screening Agency will file a petition for COE. When, through an IGA with a county, the Division is contracted to provide COE, they must adhere to the following requirements when conducting COEs:

a. An individual who is reasonably believed to be DTO, DTS, PAD, or GD as a result of a mental disorder must have a petition for COE prepared, signed and filed by the Medical Director of the agency or designee,

b. An individual admitted to an Evaluation Agency must receive an evaluation as soon as possible, and receive care and treatment as required by their condition for the full period they are hospitalized,

c. A clinical record must be kept for each individual that details all medical and psychiatric evaluations and all care and treatment received by the individual,

d. An individual being evaluated on an inpatient basis must be released within 72 hours if further evaluation is not appropriate, unless the individual makes application for further care and treatment on a voluntary basis or unless an application for COT has been filed, and

e. On a daily basis, at minimum, an evaluation must be conducted throughout the COE process for the purpose of determining if an individual desires to be switched to a voluntary status or qualifies for discharge.

3. For information on individuals being released from COE, and on COE dispositions, refer to A.R.S. § 36-531.

F. Voluntary Evaluation

1. The Division shall require behavioral health providers who receive an application for Voluntary Evaluation to immediately refer the individual to a facility responsible for Voluntary Evaluations. The Voluntary Evaluation may be on an inpatient or outpatient basis. Voluntary Evaluation may be carried out only if chosen by the individual during the course of a Pre-Petition Screening after an application for evaluation has been made.

2. When an individual consents to Voluntary Evaluation, the evaluating agency shall follow these procedures:

a. Obtain the individual's informed consent prior to the evaluation,

b. Provide an evaluation at a scheduled time and place within five business days of the notice that the individual will voluntarily receive an evaluation, and

c. For inpatient Voluntary Evaluations, complete evaluations in less than 72 hours of receiving notice that the individual will voluntarily receive an evaluation.

3. The Division must require behavioral health providers that conduct Voluntary Evaluation services to include the following in the comprehensive clinical record (see Division Medical Policy 940):

a. A copy of the application for Voluntary Evaluation

b. A completed informed consent form (see Division Medical Policy 320-Q), and

c. A written statement of the individual's present medical condition.

G. Court-Ordered Treatment Following Civil Proceedings

Based on the COE, the evaluating agency may petition for COT. As specified in

A.R.S. §§ 36-501 et seq, the Division must require behavioral health providers to follow these procedures:

1. Upon determination that a person is DTS, DTO, GD or PAD, and if no alternatives to COT exist, the Medical Director of the agency that provided the COE shall file a petition with the court for COT.

2. Any behavioral health provider filing a petition for COT must do so in

consultation with the individual's clinical team prior to filing the petition.

3. The petition shall be accompanied by the affidavits of the two physicians who conducted the examinations during the evaluation period and by the affidavit of the applicant for the evaluation.

4. In cases of GD, a copy of the petition must be mailed to the public

fiduciary in the county of the individual's residence, or the county in which the individual was found before evaluation, and to any person nominated as guardian/legal representative. In addition, a copy of all petitions must be mailed to the superintendent of the Arizona State Hospital.

5. For information regarding court options for treatment, release, discharge, annual reviews, or COT violations, refer to A.R.S. §§ 36-540 et seq. For requirements relating to Judicial Review, see A.R.S. §§ 36-546 and 36-546.01.

a. For COT relating to DUI/Domestic Violence or other criminal offenses, refer to Division Operations Policy 423.

H. Individuals Who Are Title XIX/XXI Eligible and/or Determined to Have a Serious Mental Illness

When an individual referred for COT is Title XIX/XXI eligible and/or determined or suspected to have an SMI, the Division must:

1. Conduct an evaluation to determine if the individual has an SMI in accordance with the Division Medical Policy 320-P and conduct a behavioral health assessment to identify the individual's service needs, in conjunction with the individual's clinical team, as specified in the Division Medical Policy 320-O.

2. Provide necessary COT and other covered behavioral health services in

   accordance with the individual's needs, as determined by the individual's clinical team, family members, other involved parties.

3. Perform, either directly or by contract, all treatment required by A.R.S. Title 36, Chapter 5, Article 5, and 9 A.A.C. 21, Article 5.

I. Court-Ordered Treatment for American Indian Tribal Members in Arizona

Arizona tribes are sovereign nations and tribal courts have jurisdiction over their members residing on reservation. Tribal court jurisdiction, however, does not extend to tribal members residing off the reservation or to state issued COE or COT due to a behavioral health crisis occurs off reservation.

Several Arizona tribes have adopted procedures in their tribal codes, which are similar to Arizona law for COE and COT, however, each tribe has its own laws that must be followed for the tribal court process.

Additional information on the history of the tribal court process, legal documents and forms, a diagram of payment structures, as well as contact information for the tribes, tribal liaisons, TRBHAs, and tribal court representatives can be found on the AHCCCS website under Tribal Court Procedures for Involuntary Commitment.

1. Tribal (COT) for American Indian tribal members in Arizona is initiated by the tribal behavioral health staff, the tribal prosecutor or other individuals as authorized under tribal laws. In accordance with tribal codes, tribal members who may be a danger to themselves or others and in need of treatment due to a mental disorder are evaluated and recommendations are provided to the tribal judge for a determination of whether tribal COT is necessary. Tribal court orders specify the type of treatment needed.

2. Since many tribes do not have treatment facilities on reservation to provide the treatment ordered by the tribal court, tribes may need to secure treatment off reservation for tribal members. To secure COT off reservation, the court order must be "recognized" or transferred to the jurisdiction of the state.

3. The process for establishing a tribal court order for treatment under the jurisdiction of the state is a process of recognition or "enforcement" of the tribal court order (see A.R.S. § 12-136). Once this process occurs, the state recognized tribal court order is enforceable off reservation. The state recognition process is not a rehearing of the facts or findings of the tribal

court. Treatment facilities must provide treatment as identified by the tribe and recognized by the state. Attachment B (A.R.S. §12-136 Flow Chart) is a flow chart demonstrating the communication between tribal and state entities in accordance with A.R.S § 12-136

4. Contractors and providers shall comply with notice requirements as specified in A.R.S. §12-136(B) and A.R.S. §36-541.01.

5. The Division and providers shall comply with state recognized tribal court orders for Title XIX/XXI and Non-Title XIX individuals with an SMI determination. When tribal providers are also involved in the care and treatment of court-ordered tribal members, the Division and providers must involve tribal providers to ensure the coordination and continuity of care of the members for the duration of COT and when members are transitioned to services on the reservation, as applicable. The Division is encouraged to enter into agreements with tribes to address behavioral health needs and improve the coordination of care for tribal members.

6. The enforcement process must run concurrently with the tribal staff's initiation of the tribal court-ordered process in an effort to communicate and ensure clinical coordination with the Division. This clinical communication and coordination with the Division is necessary to assure continuity of care and to avoid delays in admission to an appropriate facility for treatment upon state/ county court recognition of the tribal court order. The Arizona State Hospital must be the last placement alternative considered and used in this process.

7. The Court must consider all available and appropriate alternatives for the treatment and care of the member. The Court must order the least restrictive treatment alternative available (A.R.S. § 36-540(B)). The Division is expected to partner with American Indian tribes, TRBHAs, and tribal courts in their geographic service areas to collaborate in finding appropriate treatment settings for American Indians in need of behavioral health services.

8. Due to the options American Indians have regarding their health care, including behavioral health services, AHCCCS eligible American Indians may be covered and/or coordinate behavioral health services through a TRBHA, THP (Division for THP DDD ALTCS members), AHCCCS contractor, Tribal ALTCS, IHS, or 638 tribal provider.

J. Reporting Requirements

COE and COT processes, tracking, and reporting shall align with and adhere to the requirements of A.R.S. Title 36 Chapter 5 and A.A.C. Title 9 Chapter 21 including requirements for COE and COT forms as delineated in A.A.C. Title 9 Chapter 21 Article 5:

- Exhibit A - Application for Involuntary Evaluation
- Exhibit B - Petition for Court-Ordered Evaluation
- Exhibit C - Application for Emergency Admission for Evaluation

- Exhibit D - Application for Voluntary Evaluation
- Exhibit E - Affidavit
- Exhibit F - Petition for Court-Ordered Treatment
- Exhibit G - Demand for Notice by Relative or Victim
- Exhibit H - Petition for Notice
- Exhibit I - Application for Voluntary Treatment

K. Reimbursement

1. Reimbursement for court-ordered screening and evaluation services are the responsibility of the county pursuant to A.R.S. § 36-545. For additional information regarding behavioral health services refer to 9 A.A.C. 22.

2. Refer to Division Operations Policy 437 for clarification regarding financial responsibility for the provision of medically necessary behavioral health services rendered after the completion of a COE.

3. Title XIX/XXI funds must not be used to reimburse COE services.

4. For COEs that do not require an inpatient stay, any medically necessary physical health services provided to the individual who is an THP ALTCS DDD member shall be the responsibility of the Division.

320-V BEHAVIORAL HEALTH RESIDENTIAL FACILITIES

REVISION DATES: 1/10/2024, 4/6/2022, 6/16/2021, 4/22/2020
REVIEW DATE: 6/3/2023
EFFECTIVE DATE: April 24, 2019
REFERENCES: A.R.S. §§ 32-2061, 32-2091, 32-3251 et seq., 36-501; A.A.C. R9-10-101, 702, 707, 708, 715, 814; International Classification of Diseases, 10th Revision, Clinical Modification

PURPOSE

This policy sets forth the requirements for the provision of care and services provided to eligible Division of Developmental Disabilities (Division or DDD) Members in a Behavioral Health Residential Facility (BHRF) setting, including requirements for fee-for-service providers serving Members enrolled in the Division's fee-for-service Tribal Health Program (THP) in collaboration with applicable Tribal representatives and Tribal Social Services.

Further, the purpose of this policy is to establish Division requirements for oversight and monitoring of duties delegated to the Administrative Services Subcontractors (AdSS) with respect to eligible Division Members enrolled in a DDD subcontracted health plan as specified in AdSS Medical Policy 320-V.

DEFINITIONS

1. "Adult Recovery Team" means a group of individuals who, following the

nine Guiding Principles for Recovery-Oriented Adult Behavioral Health Services and Systems, collaborate and are actively involved in an assessment of the Member, service planning, and service delivery.

2. "AHCCCS" means the Arizona Health Care Cost Containment System.

3. "Behavioral Health Condition" means a mental, behavioral, or neurodevelopmental disorder diagnosis defined by International Classification of Diseases, Tenth Revision, Clinical Modification.

4. "Behavioral Health Professional" means:

   a. An individual licensed under A.R.S. Title 32, Chapter 33, whose scope of practice allows the individual to:

      i. Independently engage in the practice of behavioral health as defined in A.R.S. § 32-3251; or

      ii. Except for a licensed substance abuse technician, engage in the practice of behavioral health as defined in A.R.S. § 32-3251 under direct supervision as defined in A.A.C. R4-6-101;

   b. A psychiatrist as defined in A.R.S. § 36-501;

   c. A psychologist as defined in A.R.S. § 32-2061;

d. A physician;

e. A behavior analyst as defined in A.R.S. §3 2-2091;

f. A registered nurse practitioner licensed as an adult psychiatric and mental health nurse; or

g. A registered nurse with a psychiatric-mental health nursing certification or one year of experience providing behavioral health services.

5. "Behavioral Health Residential Facility" means, as defined in A.A.C. R9-10-101, a health care institution that provides treatment to a Member experiencing a behavioral health issue that limits the Member's ability to be independent or causes the Member to require treatment to maintain or enhance independence.

6. "Behavioral Health Residential Facility Staff" means any employee of the Behavioral Health Residential Facility agency including administrators, Behavioral Health Professionals and Behavioral Health Technicians.

7. "Behavioral Health Technician" means an individual who is not a Behavioral Health Professional, who provides behavioral health services at or for a health care institution, according to the health care

institution's policies and procedures, with clinical oversight by a behavioral health professional, and that if provided in a setting other than a licensed health care institution would require the individual to be licensed as a behavioral health professional under A.R.S Title 32, Chapter 33.

8. "Child and Family Team" means a group of individuals that includes, at a minimum, the child and their family, a behavioral health representative, and any individuals important in the child's life that are identified and invited to participate by the child and family. The size, scope, and intensity of involvement of the team members is determined by the objectives established for the child, the needs of the family in providing for the child, and by who is needed to develop an effective Service Plan and can expand and contract as necessary to be successful on behalf of the child.

9. "Crisis and Safety Plan" means a written description for potential crisis support or intervention which identifies needs and preferences that are most helpful in the event of a crisis; establishes goals to prevent or ameliorate the effects of a crisis, and specifically address techniques for establishing safety, identification of realistic interventions, physical limitations or unique needs of the Member, trauma informed, and

developed in alignment with the Member's Service and Treatment Plans, and any existing behavior plan, if applicable, and adherence to court-ordered treatment when applicable.

10. "Medication Assisted Treatment" means the use of medications in combination with counseling and behavioral therapies for the treatment of substance use disorders.

11. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

12. "Outpatient Treatment Team" means a group of individuals working in collaboration with the Behavioral Health Residential Facility and are actively involved in a Member's assessment, service planning, and service delivery. Outpatient Treatment Team as used throughout this policy can indicate a Child and Family Team, Adult Recovery Team, Tribal Regional Behavioral Health Authority, American Indian Medical Home, Indian Health Services, Tribally operated 638 Facility, or the Division.

13. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a Member or an applicant for whom no guardian has been

appointed.

14. "Second Level Review" means a review performed by a Division Medical Director who has clinical expertise in managing a Member's condition or disease. Second Level Review is used to screen for medical necessity and compare the findings to clinical data in the Member's medical record to ensure Division Members are receiving medically appropriate and high quality care.

15. "Secure Behavioral Health Residential Facility" means the same as specified in A.R.S. § 36-425.06(B) and A.A.C. R9-10-101 (36).

16. "Service Plan" means a written description of covered health services, and other supports which may include individual goals, family support services, care coordination, and plans to help the Member better their quality of life.

17. "Treatment Plan" means a written description of all services to be provided by the Behavioral Health Residential Facility. The Treatment Plan is based on the intake assessments, outpatient Service Plan, and input from the Outpatient Treatment Team.

18. "Tribal Health Program" means a fee-for-service program administered by the Division for Title XIX/XXI eligible American Indians that

reimburses for physical and behavioral health services provided by any AHCCCS registered provider, and for Title XIX Members, that are not provided by or through the Indian Health Services tribal health programs operated under 638.

19. "Tribal Regional Behavioral Health Authority" means a tribal entity that has an intergovernmental agreement with AHCCCS, the primary purpose of which is to coordinate the delivery of comprehensive mental health services to all eligible Members assigned by AHCCCS to the tribal entity. Tribal governments, through an agreement with the State, may operate a Tribal Regional Behavioral Health Authority for the provision of behavioral health services to American Indian Members as specified in A.R.S. § 36-3401, § 36-3407, and A.A.C. R9-22-1201.

POLICY

A. BEHAVIORAL HEALTH RESIDENTIAL FACILITY REQUIREMENTS

1. The Division and BHRF providers providing services to Tribal Health Program (THP) members shall adhere to the following:

   a. BHRFs are Arizona Department of Health Services licensed facilities in accordance with A.A.C. Title 9, Chapter 10,

Article 7.

b. Care and services provided in a BHRF for Tribal Health Program (THP) Members:

   i. Are based on an AHCCCS fee-for-service rate;

   ii. Require AHCCCS prior and continued authorization; and

   iii. Do not include room and board.

c. Prior and continued authorization is not required for a Member's admission to a Secure BHRF.

d. Abide by all Superior Court Orders, as specified in A.R.S § 36-550.09, for admission and duration of stay in a Secure BHRF.

e. A Child and Family Team or Adult Recovery Team is not required for THP Members to receive services.

f. A BHRF level of care is inclusive of all treatment services provided by the BHRF in accordance with the Treatment Plan created by the Outpatient Treatment Team.

g. AHCCCS is responsible for authorizations and payments for physical and behavioral health services for Members enrolled in the THP or receiving services through a Tribal

Regional Behavioral Health Authority (TRBHA).

h. Provide care coordination, if applicable, upon notification from AHCCCS Division of Fee-For-Service Management (DFSM) of admissions to and discharges from BHRFs for ALTCS eligible Members enrolled in the THP.

i. Refer to the AHCCCS fee-for-service web page for information on prior authorization requirements for THP Members.

j. BHRF fee-for-service providers adhere to the admission and discharge criteria set forth in this policy.

2. The Division's Behavioral Health Administration shall notify Support Coordination of any admissions to and discharges from BHRFs.

3. The Division shall develop medical necessity criteria for admission to, continued stay in, and discharge from a BHRF and submit the criteria to AHCCCS for approval.

4. The Division shall post the AHCCCS-approved criteria on the Division's website.

B. CRITERIA FOR ADMISSION

1. The Division shall develop criteria for admission to a BHRF that

contains the following elements:

a. Member has a diagnosed Behavioral Health Condition that reflects the symptoms and behaviors necessary for a request for residential treatment level of care.

b. The Behavioral Health Condition causing the functional or psychosocial impairment is evidenced in the assessment by the following:

i. At least one area of significant risk of harm within the past three months as a result of:

a) Suicidal, aggressive, self-harm or homicidal thoughts or behaviors without current plan or intent;

b) Impulsivity with poor judgment or insight;

c) Maladaptive physical or sexual behavior;

d) Member's inability to remain safe within their environment despite environmental supports; or

e) Medication side effects due to toxicity or contraindications; and

ii. At least one area of serious functional impairment as

evidenced by:

a) Inability to complete developmentally appropriate self-care or self-regulation due to the Behavioral Health Condition;

b) Neglect or disruption of ability to attend to majority of basic needs;

c) Frequent inpatient psychiatric admissions or legal involvement due to lack of insight or judgment associated with psychotic or affective mood disorder symptoms or major psychiatric disorders;

d) Frequent withdrawal management services, which can include detox facilities, Medication Assisted Treatment and ambulatory detox;

e) Inability to independently self-administer medically necessary psychotropic medications despite interventions such as education, regimen simplification, daily outpatient dispensing, and long-acting injectable medications; or

f) Impairments persisting in the absence of situational stressors that delay recovery from the presenting problem.

c. A behavioral health need for 24-hour supervision to develop adequate and effective coping skills that will allow the Member to live safely in the community.

d. Anticipated stabilization cannot be achieved in a less restrictive setting.

e. Evidence that behavioral health treatment in a less restrictive level of care has not been successful or is not available, therefore warranting a higher level of care.

f. The Responsible Person agrees to participate in treatment.

g. Agreement to participate in treatment is not a requirement for Members who are court ordered to a Secure BHRF.

h. The Member's Outpatient Treatment Team is part of the pre-admission assessment and Treatment Plan formulation, including when the documentation is created by another qualified provider. An exception to this requirement exists

when the Member is evaluated by a crisis provider, emergency department, or behavioral health inpatient facility.

i. The BHRF shall notify the Member's Outpatient Treatment Team of admission prior to creation of the BHRF Treatment Plan.

2. BHRF providers providing services to THP Members shall adhere to the above elements listed in this section.

C. EXPECTED TREATMENT OUTCOMES

1. The Division shall require treatment outcomes to align with the following:
   a. The Arizona Vision-12 Principles for Children's Behavioral Health Service Delivery as directed in Division Medical Policy 430;
   b. The Nine Guiding Principles for Recovery-Oriented Adult Behavioral Health Services and Systems; and
   c. The Member's individualized basic physical, behavioral, and developmentally appropriate needs.

2. The Division shall require treatment goals to be developed in

accordance with the following:

a. Specific to the Member's Behavioral Health Condition;

b. Measurable and achievable;

c. Unable to be met in a less restrictive environment or level of care;

d. Based on the Member's unique needs and tailored to the Member and family/Responsible Person choices where possible; and

e. Supportive of the Member's improved or sustained functioning and integration into the community.

D. EXCLUSIONARY CRITERIA

1. The Division shall not allow admission to a BHRF to be used as a substitute for the following:

a. Detention or incarceration.

b. Ensuring community safety in circumstances where a Member is exhibiting primarily conduct disorder behavior without the presence of risk or functional impairment.

c. Providing safe housing, shelter, supervision or

permanency placement.

d. A behavioral health intervention when other less restrictive alternatives are available and meet the Member's treatment needs, including situations when the Responsible Person is unwilling to participate in the less restrictive alternative.

e. An intervention for runaway behaviors unrelated to a Behavioral Health Condition.

E. CRITERIA FOR CONTINUED STAY

1. The Division shall develop criteria for continued stay that contains the elements listed below in Section E.(2).

2. BHRF providers providing care and services to THP fee-for-service Members shall submit to AHCCCS DFSM documentation of all participants in the treatment planning during the continued stay review process and adhere to the following elements:

a. Assessment of continued stay by the BHRF Staff in coordination with the Outpatient Treatment Team

during each Treatment Plan review and update.

b. Assessment of progress toward treatment goals and continued display of risk and functional impairment.

c. Treatment interventions, frequency, crisis and safety planning, and targeted discharge adjusted accordingly to support the need for continued stay.

d. Consider the following criteria when determining continued stay:

i. The Member continues to demonstrate significant risk of harm or functional impairment as a result of a Behavioral Health Condition; and

ii. Providers and supports are not available to meet current behavioral and physical health needs at a less restrictive lower level of care.

F. DISCHARGE READINESS

1. The Division shall develop criteria for discharge from a BHRF that contains the elements listed in Section F.(2).

2. BHRF providers providing care and services to THP Members shall adhere to the following minimum discharge elements:

a. Discharge planning begins at the time of admission; and

b. Discharge readiness is assessed by the BHRF Staff in coordination with the Outpatient Treatment Team during each Treatment Plan review and update.

c. Consider the following criteria when determining discharge readiness:

i. Symptom or behavior relief is reduced as evidenced by completion of Treatment Plan goals.

ii. Functional capacity is improved.

iii. Essential functions such as eating or hydrating necessary to sustain life have significantly improved or are able to be cared for in a less restrictive level of care.

iv. Member is able to self-monitor for health and safety, or a caregiver is available to provide monitoring in a less restrictive level of care.

v. Providers and supports are available to meet current behavioral and physical health needs at a less restrictive level of care.

G. ADMISSION, ASSESSMENT, TREATMENT AND DISCHARGE PLANNING

1. The Division shall require the AdSS to establish a policy to ensure the admission, assessment, and treatment planning process is completed consistently among all providers in accordance with A.A.C. R9-10-707 and 708, and as stated in Section G.(2).

2. BHRF providers shall adhere to the following admission, assessment, treatment, and discharge planning requirements:

   a. Except as provided in subsection R9-10-707(A)(9), a behavioral health assessment for a Member is completed before treatment is initiated and within 48 hours of admission.

   b. The Outpatient Treatment Team is included in the development of the Treatment Plan within 48 hours of admission.

   c. BHRF documentation reflects:

      i. All treatment services provided to the Member;

      ii. Each activity documented in a separate,

individualized medical record, including the date, time, and behavioral health professional conducting treatment activity;

iii. Which Treatment Plan goals are being achieved;

iv. Progress toward desired treatment goals; and

v. Frequency, length, and type of each treatment service or session.

d. BHRF Staff coordinates care with the Outpatient Treatment Team throughout the admission, assessment, treatment, and discharge process.

e. The Treatment Plan connects back to the Member's Service Plan.

f. A Secure BHRF Treatment Plan aligns with the court order.

g. A discharge plan is created during development of the initial Treatment Plan and reviewed at each review thereafter and updated accordingly.

h. A discharge plan documents the following:

i. Clinical status for discharge;

ii. The Responsible Person and Outpatient Treatment Team understands the follow-up treatment, Crisis and Safety Plan; and

iii. Coordination of care and transition planning are in process.

i. The BHRF Staff and Outpatient Treatment Team meet to review and modify the Treatment Plan at least once a month until discharge.

j. A Treatment Plan may be completed by a Behavioral Health Professional or by a Behavioral Health Technician with oversight and signature by a Behavioral Health Professional within 24 hours.

k. Implementation of a system to document and report on timeliness of the Behavioral Health Professional signature/review when the Treatment Plan is completed by a Behavioral Health Technician.

l. The BHRF provider has a process to actively engage the family and Responsible Person, or other designated

individuals, in the treatment planning process as appropriate.

m. Clinical practices, as applicable to services offered and populations served, demonstrate adherence to best practices for treating the following specialized service needs:

i. Cognitive/intellectual disability;

ii. Cognitive disability with comorbid Behavioral Health Condition;

iii. Older adults and co-occurring disorders; and

iv. Comorbid physical and Behavioral Health Condition.

n. Services deemed medically necessary through the assessment or Outpatient Treatment Team and not offered at the BHRF are documented in the Member's Service Plan with a description of the need, identified goals, and identification of providers who will be meeting the need.

3. The BHRF shall make the following services available and provided by the BHRF, and cannot be billed separately unless

otherwise noted below:

a. Counseling and therapy (group or individual):

Behavioral Health Counseling and Therapy shall not be billed on the same day as BHRF services unless specialized behavioral health counseling and therapy have been identified in the Service Plan as a specific Member need that cannot otherwise be met as required within the BHRF setting.

b. Skills Training and Development:

i. Independent Living Skills,

ii. Community Reintegration Skill Building, and

iii. Social Communication Skills.

c. Behavioral Health Prevention/Promotion Education and Medication Training and Support Services:

i. Symptom management;

ii. Health and wellness education;

iii. Medication education and self-administration skills;

iv. Relapse prevention;

v. Psychoeducation services and ongoing support to

maintain employment and vocational skills, educational needs assessment and skill building;

vi. Treatment for a substance use disorder; and

vii. Personal care services.

H. BHRF AND MEDICATION ASSISTED TREATMENT

BHRF providers shall have written policies and procedures to ensure Members on Medication Assisted Treatment are not excluded from admission and are able to receive Medication Assisted Treatment to ensure compliance with Arizona Opioid Epidemic Act SB 1001, Laws 2018. First Special Session.

I. BHRF WITH PERSONAL CARE SERVICE LICENSE

1. BHRFs providing personal care services shall be licensed by the Arizona Department of Health Services to provide those personal care services and offered in accordance with A.A.C. R9-10-702 and A.A.C. R9-10-715.
2. BHRFs shall ensure that all identified needs can be met in accordance with A.A.C. R9-10-814 (A)(C)(D) and (E).

J. ADMINISTRATIVE SERVICES SUBCONTRACTOR MONITORING AND OVERSIGHT

1. The Division shall provide oversight and monitoring of compliance by Administrative Services Subcontractors serving Members enrolled in a DDD subcontracted health plan with respect to any contractual delegation of duties specific to this policy and as specified in AdSS Medical Policy 320-V using the following methods:

    a. Conduct a Second Level Review of each case in which a BHRF prior authorization request was denied by the AdSS.
    b. Complete annual operational reviews of compliance.
    c. Analyze deliverable reports and other data as required.
    d. Review Provider Network Development and Management Plans demonstrating network adequacy and plans to promote specialty services described in policy.
    e. Conduct oversight meetings with each AdSS for the purpose of reviewing compliance and addressing any access to care concerns or other quality of care concerns.
    f. Review data submitted by the AdSS demonstrating ongoing compliance monitoring of their network and provider agencies through Behavioral Health Clinical Chart Audits.

2. The Division may request to review additional documentation, if necessary.

SUPPLEMENTAL INFORMATION

Examples of Personal Care Services

- ACE wraps, arm and leg braces
- Administration of oxygen
- Application and care of orthotic devices
- Application and care of prosthetic devices
- Application of bandages and medical supports, including high elastic stockings
- ACE wraps, arm and leg braces
- Application of topical medications
- Assistance with ambulation
- Assistance with correct use of cane/crutches
- Bed baths
- Blood sugar monitoring, Accu-Check diabetic care

- Care of hearing aids
- Catheter care
- Denture care and brushing teeth
- Dressing member
- G-tube care
- Hair care, including shampooing
- Incontinence support, including assistance with bed pans/bedside commodes/ bathroom supports
- Measuring and giving insulin, glucagon injection
- Measuring and recording blood pressure
- Non-sterile dressing change and wound care
- Ostomy and surrounding skin care
- Passive range of motion exercise
- Radial pulse monitoring
- Respiration monitoring
- Shaving
- Shower assistance using shower chair
- Skin and foot care
- Skin maintenance to prevent and treat bruises, injuries, pressure sores and infections. (Members with a stage 3 or 4 pressure sore are not to

be admitted to a BHRF pursuant to A.A.C. R9-10-715(3).

- Supervising self-feeding of members with swallowing deficiencies
- Use of chair lifts
- Use of pad lifts

Signature of Chief Medical Officer: Anthony Dekker (Jan 5, 2024 12:57 MST)

Anthony Dekker, D.O.

320-W THERAPEUTIC FOSTER CARE FOR CHILDREN

REVISION DATE: 1/10/2024, 2/2/2022
EFFECTIVE DATE: March 24, 2021
REFERENCES: A.R.S. Title 14, Chapter 5, Article 2 or 3; A.R.S. §§ 8-451.01, 8-514.05, 36-3221, 36-3231 or 36-3281; A.A.C. R9-10-101; ACOM Policy 414

PURPOSE

To delineate the responsibilities of the Division of Developmental Disabilities (Division) staff, contracted service providers, and other persons involved in providing Therapeutic Foster Care (TFC) and services to eligible Division Members, including Members enrolled in the Division's Tribal Health Program.

Further, this policy establishes requirements for Division oversight and monitoring of duties delegated to Administrative Services Subcontractors (AdSS) as specified in contract and AdSS Medical Policy 320-W.

DEFINITIONS

1. "Agency Worker" means a Therapeutic Foster Care Agency Worker that meets the minimum qualifications at the level of Behavioral Health Technician with a minimum of one year of experience in a human

services field.

2. "AHCCCS" means the Arizona Health Care Cost Containment System.

3. "Arizona Department of Child Safety" means the department established pursuant to A.R.S. § 8-451 to protect children and to perform the following:

   a. Investigate reports of abuse and neglect.

   b. Assess, promote, and support the safety of a child in a safe and stable family or other appropriate placement in response to allegations of abuse or neglect.

   c. Work cooperatively with law enforcement regarding reports that include criminal conduct allegations.

   d. Without compromising child safety, coordinate services to achieve and maintain permanency on behalf of the child, strengthening the family and provide prevention, intervention, and treatment services pursuant to A.R.S. Title 8, Chapter 4.

4. "Behavioral Health Professional" means:

   a. An individual licensed under A.R.S. Title 32, Chapter 33, whose scope of practice allows the individual to:

      i. Independently engage in the practice of behavioral health as defined in A.R.S. § 32-3251; or

ii. Except for a licensed substance abuse technician, engage in the practice of behavioral health as defined in A.R.S. § 32-3251 under direct supervision as defined in A.A.C. R4-6-10;

b. A psychiatrist as defined in A.R.S. § 36-501;

c. A psychologist as defined in A.R.S. § 32-2061;

d. A physician;

e. A behavior analyst as defined in A.R.S. § 32-2091;

f. A registered nurse practitioner licensed as an adult psychiatric and mental health nurse; or

g. A registered nurse with a psychiatric-mental health nursing certification or one year of experience providing behavioral health services.

5. "Behavioral Health Technician" means an individual who is not a Behavioral Health Professional, who provides behavioral health services at or for a health care institution, according to the health care institution's policies and procedures, and with clinical oversight by a Behavioral Health Professional, that if provided in a setting other than a health care institution would require the individual to be licensed as a behavioral health professional under A.R.S Title 32, Chapter 33.

6. "Caregiver" means an adult who is providing for the physical, emotional, and social needs of a child.

7. **"**Child and Family Team" means a defined group of individuals that includes the child and their family, a behavioral health provider, and any individuals important in the child's life that are identified and invited by the child and family to participate.

8. "Crisis Plan" means a written plan established by the Member that is designed to prevent or reduce the effects of a behavioral health crisis. This plan identifies what is or is not helpful in crisis prevention through the identification of contacts and resources, and actions to be taken by the Member, family, Responsible Person, parents, guardians, friends, or others.

9. "Immediate Jeopardy" means a situation in which the provider's noncompliance with one or more requirements of participation has caused, or is likely to cause, serious injury, harm, impairment, or death to a member.

10. "Service Plan" means a comprehensive written description of all covered health services and other informal supports which includes individualized goals, family support services, care coordination

activities and strategies to assist the Member in achieving an improved quality of life. The Service Plan is created and managed by the CFT. It is a dynamic document that is regularly updated to adequately match the strengths and needs of the Member and family.

11. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

12. "Respite Care" means short-term relief for primary caregivers.

13. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a Member or an applicant for whom no guardian has been appointed.

14. "Telemedicine" means the practice of synchronous (real-time) health care delivery, diagnosis, consultation, and treatment and the transfer of medical data through interactive audio and video communications that occur in the physical presence of the member.

15. "Therapeutic Foster Care" means a covered behavioral health service that provides daily behavioral interventions within a licensed family setting and is designed to maximize the Member's ability to live and participate in the community and to function independently, including

assistance in the self-administration of medication and any ancillary services indicated by the Member's comprehensive Service Plan, as appropriate.

16. "Therapeutic Foster Care Agency Provider" means a TFC Agency Provider credentialed by a Managed Care Organization to oversee professional TFC Family Providers and holds contracts with pertinent health plans or the Department of Child Safety to provide TFC services to children.

17. "Therapeutic Foster Care Family Provider" means specially trained adult(s) in a family unit licensed by the Department of Child Safety and endorsed to provide TFC services to children.

18. "Therapeutic Foster Care Treatment Plan" means a written plan that details the specific behavioral goals that the TFC Family and TFC Agency Providers will help the Member achieve during the Member's time in TFC. These TFC treatment goals are explicit, observable, attainable, tailored to the Member's strengths and needs, and align with the comprehensive Service Plan of the CFT. The TFC Treatment Plan outlines the steps the TFC Family and TFC Agency Providers will implement to help the Member attain the TFC treatment goals and successful discharge from TFC.

POLICY

A. THERAPEUTIC FOSTER CARE

1. The Division and TFC Agency Providers shall adhere to the following requirements:
    a. Programmatic support is available to the TFC Family Providers 24 hours per day, seven days per week.
    b. Care and services provided in TFC:
        i. Are based on a 24-hour day per diem rate;
        ii. Require prior and continued authorization; and
        iii. Do not include room and board.
    c. TFC services are provided for no more than three children in a professional foster home.
    d. Appropriate notification is sent to the primary care provider and behavioral health home agency or TRBHA, as applicable, upon admission to and discharge from TFC.
2. TFC Family Providers and TFC Agency Providers shall adhere to The Department of Child Safety (DCS) policies and procedures for children involved with DCS.

B. CRITERIA FOR ADMISSION

1. The Division shall develop medical necessity criteria for

admission to TFC, and submit to AHCCCS for approval, that contains the following elements:

a. Recommendation for TFC comes through the Child and Family Team (CFT) process.

b. Following an assessment by a licensed Behavioral Health Professional (BHP), the Member has been diagnosed with a behavioral health condition that reflects the symptoms and behaviors necessary to warrant a request for TFC.

c. There is evidence that the Member has had a disturbance of mood, thought, or behavior within the past 90 days that renders the Member incapable of independent or age-appropriate self-care or self-regulation as a result of the Behavioral Health Condition, and that this moderate functional or psychosocial impairment, per assessment by a BHP:

   i. Cannot be reasonably expected to improve in response to a less intensive level of care; and

   ii. Does not require or meet clinical criteria for a higher level of care; or

iii. Demonstrates that appropriate treatment in a less restrictive environment has not been successful or is not available, therefore warranting a higher level of care.

d. At the time of admission, in collaboration with the CFT and other individuals as applicable, there are documented plans for discharge and transition that identifies:

i. Tentative living arrangement, and

ii. Recommendations for aftercare treatment based on treatment goals.

C. EXCLUSIONARY CRITERIA

1. The Division shall not allow admission to TFC to be used as a substitute for the following:

a. Detention or incarceration;

b. Ensuring community safety in an individual exhibiting primarily conduct disorder behaviors;

c. Providing safe housing, shelter, supervision, or permanency placement;

d. The Responsible Person's capacity or other agency's capacity to provide for the Member; or

e. A behavioral health intervention when other less restrictive alternatives are available and meet the Member's treatment needs; including situations when the Responsible Person is unwilling to participate in the less restrictive alternative.

D. EXPECTED TREATMENT OUTCOMES

1. TFC Agency Providers shall align treatment outcomes with:

   a. The Arizona Vision-12 Principles for Children's Behavioral Health Service Delivery as specified in AMPM Policy 100; and

   b. The Member's individualized physical, behavioral, and developmentally appropriate needs.

2. TFC Agency Providers shall ensure treatment goals for the Member's time in TFC are:

   a. Specific to the Member's behavioral health condition that warranted treatment;

   b. Measurable and achievable;

c. Cannot be met in a less restrictive environment;

d. Based on the Member's unique needs;

e. Include input from the Member's family, Responsible Person, and other designated representatives where applicable; and

f. Support the Member's improved or sustained functioning and integration into the community.

3. TFC Agency Providers shall ensure active treatment with the services available at this level of care can reasonably be expected to:

a. Improve the Member's condition in order to achieve discharge from TFC at the earliest possible time; and

b. Facilitate the Member's return to primarily outpatient care in a non-therapeutic, non-licensed setting.

E. CRITERIA FOR CONTINUED STAY

1. The Division shall develop medical necessity criteria for continued stay, and submit to AHCCCS for approval, that contains the following elements:

a. The Member continues to meet the diagnostic threshold for

the behavioral health condition that warranted admission to TFC.

b. It can reasonably be expected that continued treatment will improve the Member's condition to the point that TFC will no longer be needed.

c. The CFT is meeting at least monthly to review progress and revise the TFC Treatment Plan and Service Plan to respond to any lack of progress.

d. The transitioning Caregiver after discharge has been identified and is actively involved in the Member's care and treatment, if applicable.

e. The Member continues to demonstrate moderate functional or psychosocial impairment within the past 90 days as a result of the behavioral health condition, as identified through disturbances of mood, thought, or behavior, which substantially impairs independent or age-appropriate self-care or self-regulation.

f. Active treatment is reducing the severity of disturbances of mood, thought, or behaviors that were identified as reasons for admission to TFC and treatment is empowering the Member to gain skills to successfully function in the

community.

F. CRITERIA FOR DISCHARGE

1. The Division shall develop medical necessity criteria for discharge from TFC, and submit to AHCCCS for approval, that contains the following elements:

   a. Sufficient symptom or behavior relief is achieved as evidenced by completion of the TFC treatment goals.

   b. The Member's functional capacity is improved and the Member can be safely cared for in a less restrictive level of care.

   c. The Member can participate in age-appropriate self-monitoring and follow-up services or a Caregiver is available to provide monitoring in a less restrictive level of care.

   d. Appropriate services, providers, and supports are available to meet the Member's current behavioral health needs at a less restrictive level of care.

   e. There is no evidence to indicate that continued treatment in TFC would improve the Member's clinical outcome.

f. There is potential risk that continued stay in TFC may precipitate regression or decompensation of the Member's condition.

g. A current clinical assessment of the Member's symptoms, behaviors, and treatment needs has been reviewed by the CFT and has established that continued care in a TFC setting is no longer adequate to provide for the safety and treatment.

G. DISCHARGE PLANNING PROGRAM REQUIREMENTS

1. The TFC Agency Provider shall adhere to the following discharge planning program requirements:
   a. Discharge planning details are included in the TFC Treatment Plan, updated monthly, and align with the Service Plan.
   b. Discharge plans are completed using the approved standardized criteria.
   c. Discharge plans include identification of and consistent work with Responsible Persons, if applicable.
   d. The TFC team continues to plan for discharge as soon as an appropriate lower level of community-based care is

identified.

e. Successful discharge planning includes engagement of the receiving caregiver to participate in transitionary visits.

f. The TFC team assesses the needs of the receiving caregiver and provides the appropriate coaching and mentorship.

2. The CFT shall review and approve the discharge plans to ensure successful implementation of discharge planning details such that sustainable transition into a less restrictive setting is possible.

3. If a decision is made to move the Member to a higher level of care, the TFC Agency Provider shall work in collaboration with the TFC Family Provider and CFT to make the transition as seamless as possible.

H. TREATMENT PLANNING PROGRAM REQUIREMENTS

1. The TFC Provider Agency shall ensure the TFC Treatment Plan includes:

a. Development in conjunction with the CFT;

b. Strategies to address TFC Family Provider needs and

successful transition for the Member to begin service with the TFC Family Provider, including pre-service visits, when appropriate, as well as respite planning;

c. Complementing and not conflicting with the Service Plan and other defined treatments, and reference to the Member's:

i. Current physical, emotional, behavioral health, and developmental needs;

ii. Current educational placement and needs;

iii. Current medical treatment;

iv. Current behavioral treatment through other providers; and

v. Current prescribed medications.

d. Updating Member's current Crisis Plan in alignment with the TFC setting;

e. Addressing safety, social and emotional well-being, discharge criteria, acknowledgement of Member's permanency objectives and post-discharge services; and

f. Short-term, proactive treatment goals that are measurable, time-limited, and in keeping with the Service Plan.

g. When age and developmentally appropriate, youth and biological family, kinship family, and adoptive family participation in development of the TFC Treatment Plan is required;

h. Specific elements that build on the Member's strengths, while also promoting pro-social, adaptive behaviors, interpersonal skills and relationships, community, family and cultural connections, self-care, daily living skills, and educational achievement; and

i. Specifics to coordinate with natural supports and informal networks as a part of treatment.

j. If the TFC Treatment Plan includes co-parenting engagement with the Member's Caregiver, development of specific goals to prepare the receiving Caregiver and successfully transition the Member to the new placement;

k. Plans for engagement of the Member's biological family,

kinship family, adoptive family, and or transition foster family, and other natural supports that can support the Member during TFC placement and after transition;

l. Respite planning;

m. Review by:

i. The TFC Family Provider and TFC Agency Provider at each home visit;

ii. The TFC Agency Provider and clinical supervisor at each staffing; and

iii. The TFC Agency Provider and CFT at each revision or at minimum quarterly.

n. Documentation of the TFC Treatment Plan which is kept by the TFC Family Provider and the TFC Agency Provider and shared with the CFT.

I. THERAPEUTIC FOSTER CARE ROLES, RESPONSIBILITIES AND QUALIFICATIONS

1. TFC Agency Providers shall be credentialed through the Division Administrative Services Subcontractors.

2. The TFC Agency Provider shall:

a. Ensure TFC Family Providers comply with all applicable state and local licensing requirements, including application, training, life safety inspections, and administrative requirements.

b. Ensure submission of deliverables.

c. Conduct one home visit per week during the initial six weeks of placement; these visits may be in person or Telemedicine.

d. Conduct a minimum of two home visits per month for continued stay beyond the initial six weeks of placement, with supporting documentation of each visit that includes:

i. Review of the TFC Treatment Plan with the TFC Family Provider;

ii. Review case files and required documentation; and

iii. Check medical records and medication logs.

e. Complete all AHCCCS required group biller requirements.

f. Conduct TFC Family Provider recruitment to maintain and

increase the number of providers that can meet the needs of Members receiving TFC services.

g. Conduct ongoing training per state licensing rules that develops the skills of TFC Family Providers to enable them to meet the needs of Members.

3. The TFC Agency Provider shall have staff to operate resource teams to support the TFC Family Provider as follows:

a. Beginning at the level of the Agency Worker, extending to the clinical supervisor;

b. Provide oversight by one or more independently licensed BHPs;

c. Work in concert, applying the specialized skills and knowledge for service planning, training, and support of direct service providers and the CFT; and

d. Each member of the team shall have in-depth familiarity with the strengths and needs of the TFC Family Provider in order to be effective resources in the provision of care, developing training plans, and assisting in matching Members to service environments.

4. The TFC Agency Provider shall have a documented agency crisis response policy that specifies:

    a. Supervisor's availability and the use of crisis response provider to augment hours of availability;

    b. The TFC Agency Provider fulfilling the role of first-line support for the TFC Family Provider and Member during times of crisis;

    c. Access to a TFC Agency Provider or appropriate agency staff available 24 hours a day, seven days a week; and

    d. Escalation to the appropriate TFC Agency Provider's clinical leadership is available at all times.

5. The TFC Agency Provider shall coordinate the TFC Treatment Plan with the Service Plan and incorporate the TFC Family Provider's participation in CFT meetings.

6. The TFC Agency Provider shall support the TFC Family Provider through clinical supervision available upon request or as the TFC Agency Worker that identifies needs, including:

    a. Provide training and specific skill building to enhance the

family's ability to stabilize behaviors and intervene as challenges arise;

b. Facilitate respite;

c. Attend all CFT, court, and professional meetings with or on behalf of the family; and

d. Contact between the TFC Family Provider and other caregivers in preparation for discharge.

7. The TFC Agency Provider shall ensure the following documentation, assessments, and records are updated and available:

a. Current TFC Treatment Plan;

b. Current Service Plan;

c. Crisis Plan;

d. Discharge plan;

e. Social history information;

f. Previous and current (within a year of referral date) behavioral health annual assessments, psychiatric

evaluations, psychological evaluations;

g. School and educational information;

h. Medical information,

i. Previous placement history and outcomes; and

j. Member and family strengths and needs, including skills, interests, talents, and other assists.

8. The TFC Agency Worker shall:

a. Be qualified, at minimum, at the level of Behavioral Health Technician with a minimum one year of experience in a human services field.

b. Be supervised by staff that possess a master's degree in a behavioral health field, and licensed in the state of Arizona, with a minimum two years of experience in a human services field.

c. Be the primary agency representative at the CFT meetings who shall:

i. Be present to review the Service Plan,

ii. Document progress to those plans,

iii. Support the CFT,

iv. Support the TFC Family Provider, and

v. Participate in the CFT meetings.

d. Lead the development of the TFC Treatment Plan with the TFC Family Provider and obtain clinical supervisor review.

e. Ensure the TFC Family Provider completes full and accurate clinical documentation of interventions on the TFC Treatment Plan to demonstrate progress toward meeting treatment needs is fully captured and provides an accurate record of case progress.

f. Ensure the TFC Treatment Plan is shared with the behavioral health agency and other treating providers or individuals, as applicable, as part of the Member's Service Plan to assure care coordination.

g. Monitor the number of Members assigned to a single Agency Worker.

i. The preferred maximum number of Members

assigned to a single Agency Worker is 10 members.

ii. The supervisor may lower the number of assigned Members to an Agency Worker if additional time is needed for one or more assigned families/members for oversight and support.

h. Have direct in-person or Telemedicine contact with the TFC Member and TFC Family Provider a minimum of once a week for the first six weeks of placement.

i. Have direct in-person or Telemedicine contact with the TFC Member and TFC Family Provider every other week or as needed for the remainder of the treatment, with one visit per month with the TFC Member to assess physical, emotional, and behavioral health needs are being met.

j. Encourage coordination, collaboration, and advocacy with the educational system to support the TFC Family Provider and Member in meeting treatment and educational goals.

J. TFC AGENCY PROVIDER SUPERVISION REQUIREMENTS

1. The TFC Agency Provider shall ensure the following supervision requirements are met:

a. Clinical Supervision requires behavioral professional or higher, with a graduate degree in a human services field, and licensed with a minimum two years of experience:

   i. Clinical supervision of TFC Agency staff that directly supports TFC Family Providers is completed by a qualified clinical professional through regular direct clinical supervision.

   ii. An Agency may employ a shared supervision model where administrative supervision is conducted by a non-clinical professional.

b. Administrative supervision requires a master's degree in a human services field and a minimum two years of experience.

c. Treatment planning for TFC Agency Providers is overseen by a qualified clinical professional as specified below:

   i. The TFC Agency Provider shall define and document minimum frequency of TFC Treatment Plan reviews no less than once per quarter.

   ii. The clinical supervisor shall have direct in-person or

Telemedicine contact with the TFC Family Provider at least once per month;

iii. The clinical supervisor is part of the treatment team and shall be active in the case review and not solely independently reviewing the TFC Treatment Plan.

iv. The clinical supervisor shall participate in the CFT meetings on an as-needed basis depending on the progress of the TFC Treatment Plan.

K. TFC FAMILY PROVIDER REQUIREMENTS

1. TFC Family Providers shall meet the following requirements:

   a. Have at least one year of experience as an active licensed foster home working directly with Members or professional experience working directly with Members that have behavioral health issues or developmental disabilities or both.

   b. Adhere to AHCCCS registration and requirements as an AHCCCS registered provider.

   c. Complete all TFC Agency Provider training requirements

and evaluations in prepatration to provide TFC services effectively and safely to members and their families, as well as any ongoing training requirements identified by the TFC Agency Provider in collaboration with the CFT.

d. Abide by all licensing regulations as outlined in applicable state and federal statutes for family foster parent licensing requirements, therapeutic level of licensure.

e. Provide basic parenting functions consistent with providing food, clothing, shelter, educational support, medical needs, transportation; teaching daily living skills, social skills; developing community activities; and supporting cultural, spiritual and religious beliefs.

f. Provide behavioral interventions associated with anger management, crisis de-escalation, psychosocial rehabilitation, living skills training and intervention, and other behavioral interventions as needed, that aid the Member in making progress on TFC Treatment Plan goals.

g. Provide a family environment with opportunities for:

i. Familial and social interactions and activities;

ii. Use of behavioral interventions;

iii. Development of age-appropriate living and self-sufficiency skills; and

iv. Integration into a family and community-based setting.

h. Meet the individualized needs of the Member in their home as defined in the Member's TFC Treatment Plan.

i. Be available to care for the Member 24 hours per day, seven days a week, for the entire duration that the Member is receiving out-of-home treatment services, including times the Member is with respite caregivers.

j. Ensure that the Member's needs are met when the Member is in Respite Care with other TFC Family Providers.

k. Participate in planning processes such as CFTs, TFC discharge planning, and individualized education programs.

l. Keep the following documentation per requirements of the

TFC Agency Provider:

i. Record behavioral health symptoms,

ii. Incident reports,

iii. Interventions utilized,

iv. Progress toward the TFC Treatment Plan goals, and

v. Discharge plan.

m. Assist the Member in maintaining contact with their family and natural supports.

n. Assist in meeting the Member's permanency planning or TFC discharge planning goals.

o. Advocate for the Member in order to achieve TFC Treatment Plan goals and to ensure timely access to educational, vocational, medical, or other indicated services.

p. Provide medication management consistent with AHCCCS guidelines for Members in out-of-home care.

q. Report allegations of abuse, neglect, and misconduct

toward Members as required by state and federal law.

r. Maintain confidentiality as required by state and federal law.

2. Any request to move a Member from placement prior to successful completion of the TFC Treatment Plan shall be made through the CFT, and written notice provided following contractual time frames, with the only exception being Immediate Jeopardy.

3. TFC Family Providers shall follow the Crisis Plan and work to preserve the placement, including consultation with the CFT for consideration of additional in-home supports and services as appropriate and necessary to support the Member and family.

4. The TFC Family Provider shall utilize the Crisis Plan and accept agency worker and supervisor support, including the use of respite, to maintain the placement until an emergency CFT meeting is convened, services implemented, and the placement is preserved.

5. If a TFC placement cannot be preserved, the TFC Agency Provider shall support the Member and TFC Family Provider until

a transition is identified.

L. DIVISION OVERSIGHT AND MONITORING OF AdSS

1. The Division shall use the following methods to ensure the AdSS are in compliance with AdSS Medical Policy 320-W:

   a. Complete annual operational reviews of compliance.

   b. Analyze deliverable reports or other data as required, including Provider Network Development and Management Plans demonstrating network adequacy and plans to promote specialty services described in this policy.

   c. Conduct oversight meetings with the AdSS for the purpose of reviewing compliance and addressing any access to care concerns or other quality of care concerns.

   d. Review data submitted by the AdSS demonstrating ongoing compliance monitoring of their network and provider agencies through Behavioral Health Chart Reviews.

SUPPLEMENTAL INFORMATION

1. For aftercare planning for DCS involved members, the TFC Family Provider may be the discharge placement. In such cases where the TFC Family Provider is the discharge placement, DCS foster care rates, policies, and procedures apply. Licensing agencies shall coordinate these actions through the CFT and DCS as they are not governed by this Policy.

2. Ongoing appropriate and approved relationship and communication with the TFC family provider after discharge is encouraged. This is determined with Responsible Person approval and in the best interest of the member.

3. TFC Family Providers are licensed through DCS and do not require credentialing by the AdSS.

Signature of Chief Medical Officer: Anthony Dekker (Jan 5, 2024 12:50 MST)

320-X ADULT BEHAVIORAL HEALTH THERAPEUTIC HOMES

REVISION DATE: February 2, 2022
EFFECTIVE DATE: March 24, 2021

PURPOSE

This Policy establishes requirements for the provision of care and services to Division members in Adult Behavioral Health Therapeutic Homes. The Division covers Adult Behavioral Health Therapeutic Home services for members eligible for ALTCS regardless of the health plan they choose. The Division is responsible for collaborating with Tribal entities and behavioral health providers to ensure access to services for Division members enrolled in the Tribal Health Program (THP). See AdSS Policy 320-X for responsibilities of the AdSS providing Adult Behavioral Health Therapeutic Home services.

DEFINITIONS

Adult Behavioral Health Therapeutic Home (ABHTH) - A licensed residence that provides behavioral health treatment, which maximizes the ability of an individual experiencing behavioral health symptoms to live and participate in the community and to function in an independent manner that includes assistance in the self- administration of medication and any ancillary services (such as living skills and health promotion) indicated by the member's treatment plan, as appropriate.

Adult Recovery Team (ART) – A group of individuals that follows the Nine Guiding Principles for Recovery-Oriented Adult Behavioral Health Services and Systems. Working in collaboration and are actively involved in an individual's assessment, service planning, and service delivery.

Assessment – An analysis of a patient's needs for physical health services or behavioral health services to determine which services a health care institution shall provide to the patient as specified in A.A.C. R9-10-101

Behavioral Health Professional (BHP) –

A. An individual licensed under A.R.S. Title 32, Chapter 33, whose scope of practice allows the individual to:

   1. Independently engage in the practice of behavioral health as defined in A.R.S. §32-3251, or

   2. Except for a licensed substance abuse technician, engage in the practice of behavioral health as defined in A.R.S. §32-3251 under direct supervision as defined in A.A.C. R4-6-101,

B. A psychiatrist as defined in A.R.S. §36-501,

C. A psychologist as defined in A.R.S. §32-2061,

D. A physician,

E. A behavior analyst as defined in A.R.S. §32-2091, or

F. A registered nurse practitioner licensed as an adult psychiatric and mental health nurse, or

G. A registered nurse with:

1. A psychiatric-mental health nursing certification, or

2. One year of experience providing behavioral health services.

Collaborating Health Care Institution (CHI) – A health care institution licensed to provide outpatient behavioral health services that has a written agreement with an adult behavioral health therapeutic home or a behavioral health respite home to:

A. Coordinate behavioral health services provided to a resident at the adult behavioral health therapeutic home or a recipient at a behavioral health respite home, and

B. Work with the provider to ensure a resident at the adult behavioral health therapeutic home or a recipient at a behavioral health respite home receives behavioral health services according to the resident's treatment plan. A.A.C. R9-10-101 (51.)

Designated Representative – An individual acting on behalf of the member with the written consent of the member or member's legal guardian. As used in this policy the designated representative is distinct and separate from the health care decision maker.

Health Care Decision Maker – An individual who is authorized to make health care treatment decisions for the patient. As applicable to the particular situation, this may include a parent of an unemancipated minor or a person lawfully authorized to make health care treatment decisions pursuant to A.R.S. title 14, chapter 5, article 2 or 3; or A.R.S. §§8-514.05, 36-3221, 36-3231 or 36-3281.

Provider – Any individual or entity that contracts with AHCCCS or a Contractor for the provision of covered services to members according to the provisions A.R.S. §36-2901 or any subcontractor of a provider delivering services pursuant to A.R.S. §36-2901.

Service Plan – A complete written description of all covered health services and other informal supports which includes individualized goals, family support services, care coordination activities and strategies to assist the member in achieving an improved quality of life.

Treatment Plan – For the purpose of this policy, treatment plan is used to describe a complete written description of all services to be provided by the ABHTH based on the intake assessments and service plan.

POLICY

An Adult Behavioral Health Therapeutic Home (ABHTH) is a residential setting in the community that provides daily behavioral interventions within a licensed family setting. This service is designed to maximize the member's ability to live and participate in the community and to function independently, including assistance in the self-administration of medication and any ancillary services (such as living skills and health promotion) indicated by the member's service plan and/or treatment plan as appropriate.

Programmatic support is available to the ABHTH providers 24 hours per day, seven days per week by the collaborating health care institution (CHI). Care and services provided in an ABHTH are based on a per diem rate (24-hour day) and do not include room and board (Arizona State Plan for Medicaid).

ABHTH providers shall adhere to this policy as well as procedure requirements as specified in A.A.C. R9-10-1801 et. seq., and the Arizona State Plan for Medicaid.

A. Criteria for Admission

The Division shall develop admission criteria for medical necessity which, at a minimum, includes the below elements. The Division shall submit admission criteria to AHCCCS for approval and publish the approved criteria on the Division's website.

1. Criteria for Admission:

   a. The recommendation for ABHTH shall come through the Adult Recovery Team (ART) process,

   b. Following an assessment by a licensed behavioral health professional (BHP), the member has been diagnosed with a behavioral health condition which reflects the symptoms and behaviors necessary for a request for ABHTH,

   c. As a result of the behavioral health condition, there is evidence that the member has recently (within the past 90 days) had a disturbance of mood, thought, or behavior which renders the member incapable of independent or age-appropriate self-care or self-regulation. This moderate functional and/or psychosocial impairment per assessment by a BHP:

      i. Cannot be reasonably expected to improve in response to a less intensive level of care, and

      ii. Does not require or meet clinical criteria for a higher level of care, or

      iii. Demonstrates that appropriate treatment in a less restrictive environment has not been successful or is not available, therefore warranting a higher level of care.

   d. At time of admission to an ABHTH, in participation with the health care decision maker and all relevant stakeholders, there is a documented plan for discharge which includes:

      i. Tentative disposition/living arrangement identified, and

      ii. Recommendations for aftercare treatment based upon treatment goals.

B. Exclusionary Criteria

Admission to an ABHTH shall not be used as a substitute for the following:

1. An alternative to detention or incarceration.

2. As a means to ensure community safety in an individual exhibiting primarily conduct disordered behaviors.

3. As a means of providing safe housing, shelter, supervision or permanent placement.

   A behavioral health intervention when other less restrictive alternatives are available and meet the member's treatment needs, including situations when the member/health care decision maker is unwilling to participate in the less restrictive alternative.

C. Expected Treatment Outcomes

1. Treatment outcomes shall align with:

   a. The Nine Guiding Principles for Recovery-Oriented Adult Behavioral Health Services and Systems as specified in AMPM, Policy 100, and

   b. The member's individualized physical, behavioral, and developmentally appropriate needs.

2. Treatment goals for members placed in an ABHTH shall be:

   a. Specific to the member's behavioral health condition that warranted treatment,

   b. Measurable and achievable,

   c. Unable to be met in a less restrictive environment,

   d. Based on the member's unique needs,

   e. Inclusive of input from the member's family/health care decision maker and designated representative's choices where applicable, and

   f. Supportive of the member's improved or sustained functioning and integration into the community.

3. Active treatment with the services available at this level of care can reasonably be expected to:

   a. Improve the member's condition in order to achieve discharge from the ABHTH at the earliest possible time, and

   b. Facilitate the member's return to primarily outpatient care in a non-therapeutic/non-licensed setting.

D. Adult Behavioral Health Therapeutic Homes Treatment Planning

The ABHTH treatment plan shall be developed by the CHI in collaboration with the ABHTH provider and the ART within the first 30 days of placement:

1. The treatment plan shall:

   a. Describe strategies to address ABHTH provider needs and successful transition for the member to begin service with ABHTH provider, including pre-service visits when appropriate,

   b. Compliment and not conflict with the ART service plan and other defined treatments, and shall also include reference to the member's:

      i. Current physical, emotional, behavioral health and developmental needs,

      ii. Current educational placement and needs,

      iii. Current medical treatment,

      iv. Current behavioral health treatment through other providers, and

      v. Current prescribed medications.

   c. Address safety, social, and emotional well-being, discharge criteria, acknowledgement of member's permanency objectives and post-discharge services,

   d. Include short-term, proactive treatment goals that are measurable, time-limited, and in keeping with the ART service plan,

   e. Clearly identify responsible individuals from treatment team to implement each aspect of the ABHTH treatment plan and the timing of completion. The CHI has the responsibility to ensure the treatment team is implementing the ABHTH treatment plan,

   f. Include specific elements that build on the members' strengths while also promoting pro-social, adaptive behaviors, interpersonal skills and relationships, community, family and cultural connections, self-care, daily living skills, and educational achievement,

   g. Include specifics to coordinate with natural supports and informal networks as a part of treatment,

   h. Include plans for engagement of the member's family of choice and other natural supports that can support the member during ABHTH placement and after transition,

   i. Be reviewed by the ABHTH provider and CHI at every home visit,

   j. Be reviewed by the CHI clinical supervisor at each staffing,

   k. Be revised as appropriate or quarterly at minimum, and

   l. Include documentation of the ABHTH treatment plan which shall be kept by the ABHTH Provider and CHI.

2. The Division and providers shall ensure that members/health care decision maker and designated representatives receive a copy of the treatment plan and any updated treatment plans.

E. Criteria for Continued Stay

The Division shall develop medically necessary criteria for continued stay which, at a minimum, include the below elements. The Division shall submit continued stay criteria to AHCCCS for approval and publish the approved criteria on the Division's website.

1. All of the following shall be met:

   a. The member continues to meet diagnostic threshold for the behavioral health condition that warranted admission to ABHTH,

   b. The member continues to demonstrate (within the last 90 days) moderate functional or psychosocial impairment as a result of the behavioral health condition, as identified through disturbances of mood, thought, or behavior, which substantially impairs independent or appropriate self-care or self-regulation,

   c. Active treatment is reducing the severity of disturbances of mood, thought, or behaviors, which were identified as reasons for admission to ABHTH, and treatment at the ABHTH is empowering the member to gain skills to successfully function in the community,

   d. There is an expectation that continued treatment at the ABHTH shall improve the member's condition so that this type of service shall no longer be needed, and

      The ART is meeting at least monthly to review progress and have revised the treatment plan and/or Service Plan to respond to any lack of progress.

F. Adult Behavioral Health Therapeutic Homes Discharge Planning

A comprehensive discharge plan shall be created during the development of the initial treatment plan and shall be reviewed and/or updated at each review thereafter. The discharge plan shall document the following:

1. Clinical status for discharge.

2. Follow-up treatment, crisis, and safety plan.

3. Coordination of care and transition planning are in process when appropriate.

G. Criteria for Discharge

The Division shall develop medical necessity criteria for discharge from an ABHTH setting which, at a minimum, includes the below elements. The Division shall submit discharge criteria to AHCCCS for approval, as specified in Contract, and publish the approved criteria on the Division's website.

1. Sufficient symptom or behavior relief is achieved as evidenced by completion of the ABHTH treatment goals.

2. The member's functional capacity is improved, and the member can be safely cared for in a less restrictive level of care.

3. The member can participate in needed monitoring and follow-up services or a Provider is available to provide monitoring in a less restrictive level of care.

4. Appropriate services, providers, and supports are available to meet the member's current behavioral health needs at a less restrictive level of care.

5. There is no evidence to indicate that continued treatment in an ABHTH would improve member's clinical outcome.

6. There is potential risk that continued stay in an ABHTH may precipitate regression or decompensation of member's condition.

H. The Division's Reporting Requirements

1. The Division shall monitor and report ABHTH bed utilization as specified in ACOM Policy 415, Attachment G, or as requested by AHCCCS.

2. The Division shall report medical necessity criteria for admission, continued stay, and discharge for prior approval as specified in Contract.

320-Z MEMBERS ON CONDITIONAL RELEASE

EFFECTIVE DATE: August 30, 2023
REFERENCES: A.R.S. § 12-136; A.R.S. § 13- 3991; A.R.S. §§ 13-3994 through 13-4000; APMPM 320-U; AMPM 320-Z; TRBHA Intergovernmental Agreement (IGA).

PURPOSE

This Policy establishes requirements for the Care Management and oversight of individuals who have been granted conditional release from the Arizona State Hospital (ASH) by the Superior Court.

DEFINITIONS

1. "Arizona State Hospital" or "ASH" means the state hospital providing long-term inpatient psychiatric care to Arizonans with mental illnesses who are under court order for treatment.

2. "Care Management" means a group of activities performed to identify and manage clinical interventions or alternative treatments for identified Members to reduce risk, cost, and help achieve better health outcomes. Distinct from Support Coordination, Care Management does not include the day-to-day duties of service delivery.

3. "Conditional Release Plan" or "CRP" means a supervised treatment plan ordered by the Superior Court in conjunction with the State mental health facility and behavioral health community providers which specifies the conditions of a Member's release.

4. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

5. "Service Plan" means a complete written description of all covered health services and other informal supports which includes individualized goals, peer-and-recovery support, family support services, care coordination activities and strategies to assist the member in achieving an improved quality of life. For purposes of this Policy, for fee-for-service populations, the term Treatment Plan may be used interchangeably with the term Service Plan.

6. "Support Coordination" means a collaborative process which assesses, plans, implements, coordinates, monitors, and evaluates options and services to meet an individual's health needs through communication and available resources to

promote quality, cost-effective outcomes.

7. "Support Coordinator" means the same as "Case Manager" under A.R.S. § 36-551.

POLICY

A. CARE MANAGEMENT

1. The Division shall not delegate the Superior Court Contractor Care Management functions to the Administrative Services Subcontractors (AdSS) for Members who have been granted conditional release from the Arizona State Hospital (ASH).

2. The Division's HCS Complex Care team shall be responsible for:
   a. Acting as the single key point of contact who is responsible for collaboration with the Arizona State Hospital (ASH) and the Superior Court;
   b. Coordinating with ASH for discharge planning, including ensuring the Member with diabetes has appropriate diabetic monitoring equipment and supplies, and has been educated and trained to the use prior to discharge;
   c. Participating in the development and implementation of the

CRP;

d. Participating in the modification of an existing or the development of a new Service Plan that complies with the CRP;

e. Ensuring coordination of care with the Member's treatment team, Tribal Regional Behavioral Health Authority (TRBHA) assigned Support Coordinator, and providers of both physical and behavioral health services to implement the Service Plan and the CRP;

f. Providing Member outreach and engagement at least once per month to assist the Superior Court in evaluating compliance with the approved CRP;

g. Attending outpatient staffing at least once per month either telephonically or face-to-face;

h. Providing routine review of administrative and clinical activities, submitting the Conditional Release Monthly Monitoring Report, and confirmation of delivery of

reporting to the Superior Court, and ASH;

2. The Division shall confirm immediate notification was completed by the outpatient provider to the Superior Court and ASH if a Member violates any term of his or her CRP, psychiatric decompensation, or use of alcohol, illegal substances or prescription medications not prescribed to the Member, and provide a copy to AHCCCS.

3. The Division, in conjunction with ASH and supervision of the courts shall engage the outpatient provider in care coordination as necessary, when there is any necessary revocation to inpatient or secured status for patients on full conditional release.

4. The Division shall provide outpatient provider monitoring to include:

   a. Monitoring activities and services provided to assure Member compliance with Conditional Release Plan (CRP); and

   b. Ensuring behavioral health provider completion and

notifications to the Superior Court, AHCCCS, and ASH including:

i. Mental health reports,

ii. Monitoring Conditional Release Monthly Monitoring Report, for Members on conditional release, and

iii. Providing additional documentation at the request of AHCCCS, ASH, or the Superior Court.

B. DIVISION RESPONSIBILITIES

1. The Division shall:

   a. Ensure AdSS provides training to outpatient providers serving Members on conditional release and ensure outpatient providers demonstrate understanding of A.R.S. § 13-3991 and A.R.S. §§ 13-3994 through 13- 4000, duties of outpatient providers; and

   b. Establish relationships with the Superior Court and ASH to support streamlined communication and collaboration between the Division, outpatient treatment team, ASH, and the Superior Court.

2. The Division Behavioral Health Complex Care Specialist shall coordinate with the Support Coordinator and care manager, as needed, for Members on Conditional Release from the Arizona State Hospital (ASH) consistent with the CRP issued by the Superior Court to facilitate discharge.

3. The Division shall monitor the status and outcomes of Members subject to a Conditional Release issued by the Superior Court and AHCCCS, including through the Conditional Release Monthly Monitoring Report as directed by the Contractor Chart of Deliverables

4. The Division shall follow all obligations, including those stated in this section, applicable to it as set forth as specified in A.R.S. § 13-3994.

C. FOR MEMBERS ENROLLED WITH TRIBAL HEALTH PLAN (THP) OR TRBHA

1. The Support Coordinator shall provide case management for THP members in collaboration with TRBHA or behavioral health case manager, as applicable.

2. The Support Coordinator shall notify the case managers of the requirement to directly coordinate with ASH and the Superior Court if case management is being provided by a FFS provider.

3. Support Coordination shall refer FFS behavioral health providers to AMPM 320-Z for requirements.

4. The Division shall refer to AMPM 320-U Pre-Petition Screening, Court Ordered Evaluation and Court Ordered Treatment for additional information regarding the recognition of tribal court orders.

Anthony Dekker, D.O.

330 CHILDREN'S REHABILITATIVE SERVICES

REVISION DATE: 10/1/2018, 7/3/2015, 9/15/2014
EFFECTIVE DATE: June 30, 1994
REFERENCES: A.R.S Title 32; A.A.C. R9-22-1301, A.A.C. R9-22-1303

Members eligible for Arizona Long Term Care System (ALTCS) with certain diagnoses may be eligible to receive Children Rehabilitative Services (CRS) at one the multi-specialty/interdisciplinary care settings, in addition to community based providers in independent offices. The respective Administrative Service Subcontractors (AdSS) provides covered medical, surgical, or therapy modalities for CRS enrolled members. The AdSS provides CRS covered services for CRS qualifying condition and conditions arising as a result of or related to the CRS qualifying condition when medically necessary. The AdSS does not cover routine, preventive, or other non-CRS related covered services. Members will receive acute care services through their Division acute health plan when being treated for a non-Children's Rehabilitative Services (CRS) diagnoses. Members who are 21 years of age and older are subject to all limitations and exclusions applicable to the adult population.

CRS medical services are in accordance with Arizona Administrative Code Title 9, Chapter 22, Article 2. Coverage limitations and exclusions for members 21 years of age and older apply.

The AdSS or authorized subcontractors provide medically necessary CRS services in both inpatient and outpatient settings, including contracted hospitals, multispecialty interdisciplinary clinics (MSICs), community-based field clinics, community based provider offices, behavioral health, and skilled nursing facilities.

Certain services may be available only in limited types of service settings or may be medically appropriate only for members with a particular clinical presentation. Services may require prior authorization from the AdSS and may require additional documentation to determine the medical necessity of the service requested for treating the CRS qualifying condition or a condition that is related to, or the result of, a CRS condition.

The AHCCCS Division of Member Services (DMS) will provide information to the AdSS related to the CRS qualifying condition(s) that are identified during the eligibility process. DMS may also provide information received for purposes of eligibility determination for the CRS designation regarding care, services or procedures that may have been approved or authorized by the member's current health plan. The AdSS is responsible for ensuring that information provided by AHCCCS Division of Member Services is made available to the appropriate areas and staff within its organization who may need the information. The AdSS is responsible for appropriately transitioning members utilizing established transition processes. Members are permitted to opt out of, or refuse enrollment into, the CRS designation.

The AdSS provides services through an approach to service delivery that is family centered, coordinated and culturally competent, in a manner that considers the unique medical and behavioral holistic needs of the member.

CRS members may been seen for care and specialty services by the AdSS contracted network providers within the community that are qualified or trained in the care of the

member's condition. CRS members may also benefit from treatment in clinic-based multi-specialty/interdisciplinary care settings when active treatment is required, in addition to care and services provided by community based providers in independent offices. The AdSS also provides community based services including services provided in field clinics. When medically necessary services are not available in state, the AdSS is required to provide services out of state.

Covered benefits for CRS Partially Integrated members are the same as those provided by the Acute Contractors and the Behavioral Health Contractors including any necessary placement settings such as skilled nursing facilities, chemotherapy, hospice, transplant services, and behavioral health placement settings, as determined to be medically necessary and resulting from the CRS qualifying condition or a condition that is related to, or the result of, a CRS condition.

Definitions

A. Active Treatment - a current need for treatment. The treatment is identified on the member's service plan to treat a serious and chronic physical, developmental, or behavioral condition requiring medically necessary services of a type or amount beyond that generally required by members that last, or is expected to last one year or longer, and requires ongoing care not generally provided by a primary care provider.

B. Chronic - expected to persist over an extended period of time.

C. CRS condition - any of the covered medical conditions in A.A.C. R9-22-1303 which are referred to as covered conditions in A.R.S. 36-2912.

D. CRS Fully Integrated - a coverage type which includes members who receive all services from the CRS AdSS including acute health, behavioral health and CRS-related services.

E. CRS Partially Integrated Acute - a coverage types which includes American Indian members who receive all acute health and CRS-related services from the CRS AdSS and who receive behavioral health services from a Tribal Regional Behavioral Health Authority (TRBHA).

F. CRS Partially Integrated Behavioral Health - a coverage type which includes DDD members who receive all behavioral health and CRS-related services from the primary program of enrollment.

G. CRS Only - a coverage type which includes members who receive all CRS-related services from the CRS AdSS, who receive acute health services from the from the primary program of enrollment, and DDD American Indian member who receive behavioral health services from the TRBHA.

H. CRS Provider - a person who is authorized by employment or written agreement with the AdSS to provide covered CRS services to a member or covered support services to a member or a member's family.

I. Field Clinic - a "clinic" consisting of single specialty health care providers who travel to health care delivery settings close to members and their families than the Multi-Specialty Interdisciplinary Clinics (MSICs) to provide a specific set of services including evaluation, monitoring, and treatment for CRS-related conditions on a periodic basis.

J. Functionally Limiting - a restriction having a significant effect on an individual's ability to perform an activity of daily living as determined by a CRS provider. (A.A.C. R9-22-1303)

K. Medically Eligible - meeting the medical eligibility requirements of A.A.C. R9-22-1303.

L. Multi-Specialty Interdisciplinary Clinic (MSIC) - an established facility where specialists form multiple specialties meet with members and their families for the purpose of providing interdisciplinary services to treat members.

Medical Services

Medical services are provided in accordance with A.A.C. R9-22, Article 2. The Administrative Services Subcontractor is responsible for the following services:

A. Audiology Services

Audiology is a covered service as described in Division Medical Policy 310-A-Audiology, within certain limitations, to evaluate and rehabilitate members with hearing loss. For purposes of providing CRS, the following applies:

1. Audiologic Assessments must be consistent with accepted standards of audiologic practice.

2. Hearing Aid Fittings and Evaluations are covered as follows:

   a. Hearing aids

      i. The member may have their hearing aid reevaluated annually.

      ii. A hearing aid may be replaced once every three years, unless the member experiences a change in hearing levels or is determined by a CRS contracted audiologist to require a hearing aid replacement due to the hearing aid being lost, broken, or non-functioning.

   b. Implantable bone conduction devices

   c. Cochlear implants. For further information, refer to Division Medical Policy 430, Early Periodic Screening, Diagnostic and Treatment (EPSDT) Services.

B. Dental and Orthodontia Services

Dental and Orthodontia Services are covered services, with certain limitations as described in Division Medical Policy 431 Oral Health Care (EPSDT-Age Members). For purposes of providing CRS, the following applies:

1. Dental Services

Full ranges of dental services are covered for members eligible for CRS having at least one of the following:

a. Cleft lip and/or cleft palate

b. A cerebral spinal fluid diversion shunt where the member is at risk for subacute bacterial endocarditis

c. A cardiac condition where the member is at risk for subacute bacterial endocarditis

d. Dental complications arising as a result of treatment for a CRS condition

e. Documented significant functional malocclusion

i. When the malocclusion is defined as functionally impairing in a member eligible for CRS with a craniofacial anomaly or

ii. When one of the following criteria is present:

(a) Masticatory and swallowing abnormalities that affect the nutritional status of the individual resulting in growth abnormalities

(b) Clinically significant respiratory problems, induced by the malocclusion, such as dynamic or static airway obstruction

(c) Serious speech impairment, determined by a speech therapist, that indicates the malocclusion as the primary etiology for the speech impairment and that speech cannot be further improved by speech therapy alone.

2. Orthodontia Services

Medically necessary Orthodontia Services are covered for a member eligible for CRS with a diagnosis of cleft palate or documented significant functional malocclusion as described in B.1.a. and B.1.e. (above).

C. Diagnostic Testing and Laboratory Services

Medically necessary diagnostic testing and laboratory services are covered as described in Division Medical Policy 310. For purposes of providing CRS, the following applies:

Limitations

1. Genetic testing is only covered when the results of such testing are necessary to differentiate between treatment options as described in Division Medical Policy 310, and when related to a CRS condition.

2. Follow-up laboratory evaluations for conditions unrelated to the CRS condition are excluded. The member must be referred to his or her primary care provider for follow-up care.

D. Durable Medical Equipment (DME)

Medically necessary DME is covered as described in Division Medical Policy 310-P Medical Supplies, Durable Medical Equipment, and Prosthetic Devices (Acute Care Services). For purposes of providing CRS, the following applies:

- Durable medical equipment for rehabilitative care
- Equipment repairs
- Equipment modifications.

1. Exclusion and Limitations of Durable Medical Equipment Services

Note: Refer to D.4 and D.5 (below) for specific information related to wheelchair and ambulation devices.

a. Members are eligible for equipment only when ordered by a CRS-contracted provider and/or authorized by the AdSS.

b. Cranial modeling bands are excluded except for members who are 24 months of age or younger who have undergone CRS-approved cranial modeling surgery and demonstrate postoperative progressive loss of surgically achieved correction and that without intervention would most likely require additional surgery.

2. Equipment Maintenance for Durable Medical Equipment Services

Covered services include equipment modifications necessary due to the member's growth or due to a change in the member's orthopedic or health needs. The request for modification must come from a CRS contracted provider.

3. Equipment Replacement or Repair for Durable Medical Equipment Services

The AdSS must ensure that Durable Medical Equipment found to be unsatisfactory due to imperfect or faulty construction is corrected, adjusted, or replaced.

4. Wheelchairs and Ambulation Devices

a. Routine or custom wheelchairs and/or ambulation assistive devices (crutches, canes, and walkers) are provided for members eligible to receive CRS, based on medical necessity.

b. Medically necessary equipment modifications and replacement are covered.

c. Custom fit standards and parapodiums are covered for members eligible to receive CRS with spinal cord defects who have walking potential.

d. Trays for wheelchairs are provided when documentation indicates that the need is directly related to improvement in functional skill.

e. The member and/or their family must demonstrate that they can safely use all equipment provided to the member, as verified and documented by the treating provider or wheel chair fitting provider. Practical and functional use of the equipment must be documented in the CRS medical record.

5. Limitations and Exclusions Related to Wheelchairs and Ambulation Devices

a. Replacement of wheelchairs and ambulation devices is not a covered service when the equipment is functional and can be repaired such that the equipment is safe to operate.

b. Physical or structural modifications to a home are excluded.

c. After initial delivery, care and transportation of the equipment, including vehicle modifications, is the responsibility of the member and/or the member's guardian.

d. Repairs or maintenance to equipment that was not provided to the member by the AdSS are provided, when a CRS provider has determined the equipment to be safe and appropriate.

E. High Frequency Chest Wall Oscillation Therapy

High Frequency Chest Wall Oscillation (HFCWO) therapy is a covered service, for members under 21 years of age.

1. HFCWO is covered when there is:

a. A diagnosis of cystic fibrosis

b. Documentation of excessive sputum production combined with the member's inability to clear the sputum without assistance

c. Copy of chest x-ray report and pulmonary function tests showing findings consistent with moderate or severe Chronic Obstructive Pulmonary Disease (COPD)

d. Prescription signed by M.D. or D.O. with a specialty in pulmonary disease, indicating the need for at least daily chest physiotherapy

e. Member is two years of age or older, or has a documented chest size of 20 inches or greater, whichever comes first

f. Specific documentation supporting why HFCWO therapy for the member is superior to other more cost-effective therapy methods, including at least one of the following:

i. Promotes independent self-care for the individual

ii. Allows independent living or university or college attendance for the individual

iii. Provides stabilization in single adults or emancipated individuals without able partners to assist with Chest Physical Therapy (CPT), or

iv. Severe end-stage lung disease requiring complex or frequent CPT.

g. Evidence that the member can use the vest effectively, including continuing compliance with all forms of prescribed therapy and treatment and member and family acceptance of HFCWO therapy

h. Coordination prior to implementation of HFCWO therapy for long-term use between the CRS provider office/clinic or DDD Contractor, or other payer source has occurred.

2. Discontinuation Criteria for HFCWO

HFCWO services will be discontinued if there is:

1. Member and/or prescribing physician request, or

2. Patient treatment compliance at a rate of less than 50% usage, as prescribed in the medical treatment plan, that is verified at two and six months of use.

F. Home Health Care Services

Medically necessary home health care services, as described in Division Medical Policy 310-I Home Health Services. Home health care services include professional nurse visits, therapies, equipment, and medications. Home health

care services must be ordered by a CRS contracted provider. The home health care service is covered for a CRS member when the home health service is specifically for the treatment of a CRS or CRS-related condition.

G. Inpatient Services

The AdSS covers medically necessary inpatient services, as described in Division Medical Policy 310-K Hospital Inpatient Services. The hospitalization is covered for a member when the hospitalization is for the treatment of a CRS condition or a condition that is related to, or the result of, the CRS condition.

CRS requirements for admission and coverage for an inpatient acute care stay are as follows:

1. CRS authorized providers with admitting privileges can admit and treat CRS members for CRS qualifying conditions or those conditions related to, or the result of, a CRS condition. Providers must have a contract with the AdSS or receive an authorization from the AdSS. The admitting provider must obtain prior authorization from the AdSS for all non-emergency hospital CRS-related admissions.

2. Prior authorization is not required for an emergency service.

3. The primary reason for hospitalization must be related to, or the result of, the CRS condition.

H. Growth Hormone Therapy

Growth hormone therapy is only covered for members with panhypopituitarism.

I. Nutrition Services

CRS covers medically necessary nutritional services. For purposes of the CRS designation, nutrition services include screening, assessment, intervention, and monitoring of nutritional status. The AdSS must cover nutrition services for CRS members with special nutritional needs when the nutritional need is related to a CRS condition or resulting from the CRS condition. The CRS designation covers nutritional supplements upon referral from CRS providers with consultation by a registered dietician.

Note: Covered services also include special formula to meet the nutritional needs of members with metabolic needs.

Limitations

1. A registered dietitian must provide nutrition services.

2. Total Parenteral Nutrition (TPN) for long-term nutrition is covered if medical necessity and is related to, or resulting from, the CRS condition.

J. Outpatient Services

The AdSS is responsible for outpatient services where the diagnosis is a CRS qualifying condition or a condition that is related to, or the result of, a CRS condition.

CRS outpatient services include:

1. Ambulatory/outpatient surgery

2. Outpatient diagnostic and laboratory services

3. Ancillary services: Laboratory, Radiology, Pharmacy Services, Medical Supplies, Blood, Blood Derivatives, Therapies, Ambulatory Surgeries

4. Clinic services

   a. CRS members may benefit from multi-specialty, interdisciplinary care teams, in addition to community-based providers. The AdSS shall make available these care teams throughout the state.

      Community-based field clinics are specialty clinics that are held periodically in outlying towns and communities in Arizona, or on Indian Reservations.

   b. CRS members may be seen by AdSS community based providers in independent offices for CRS qualifying conditions or conditions that are related to, or the result of, a CRS condition.

Limitations

The member's primary health care system must be used for routine and acute medical care that is not related to the CRS condition, such as periodic visits for scheduled immunizations and periodic physical examinations and check-ups.

K. Pharmaceutical Services

The AdSS covers medically necessary prescription medication and pharmacy services, as described in Division Medical Policy 310-V Prescription Medication and Pharmacy Services. Under the CRS designation, pharmaceuticals are covered when appropriate for the treatment of the CRS condition or a condition that is related to, or the result of, a CRS condition, when ordered by the CRS provider, and provided through a CRS contracted pharmacy. The AdSS is required to provide community-based pharmacy services.

Limitations

1. Pharmaceuticals or supplies that would normally be ordered by the primary care provider for the non-CRS covered condition(s) are not covered.

2. Medications covered under Medicare Part D for CRS members who are dual eligible (AHCCCS/Medicare) enrollees are not covered by the CRS designation.

L. Physical and Occupational Therapy Services

The Division covers medically necessary physical and occupational therapy services, as described in Division Medical Policies 310-K Hospital Inpatient Services and 310-X Rehabilitative Therapies. For purposes of the CRS designation, physical therapy and occupational therapy services are provided when the service is medically necessary and prescribed to treat the CRS condition and other conditions arising as a result of the CRS qualifying condition. Limitations listed for members age 21 and older in AMPM Policy 310, Covered Services apply.

M. Physician Services

The Division covers medically necessary physician services, as described in Division Medical Policy 310-T Physician Services. For purposes of the CRS designation, physician services must be furnished by an AHCCCS registered, licensed physician and must be covered for members when rendered within the physician's scope of practice under A.R.S Title 32. The AdSS is responsible for contracting with physician specialists with expertise in pediatrics to provide CRS covered services.

Medically necessary physician services may be provided in an inpatient or outpatient setting.

N. Prosthetic and Orthotic Devices

The Division covers medically necessary prosthetic and orthotic services, as described in Division Medical Policy 310-P Medical Supplies, Durable Medical Equipment and Prosthetic Devices (Acute Care Services). Under the CRS designation, prosthetic and orthotic devices are provided when medically necessary to treat the CRS condition and other conditions arising as a result of the CRS qualifying condition.

1. Maintenance and Replacement

a. The CRS designation covers prosthetic and orthotic modifications or repairs that are related to the CRS condition and medically necessary.

b. The CRS designation covers ocular prostheses and replacements when medically necessary and when related to a CRS condition.

c. Prior authorization is required for replacement of lost or stolen prosthetic and orthotic devices.

The CRS designation must provide or fabricate orthotic/prosthetic devices that assist CRS members in performing normal living activities and skills. Requirements include:

i. All orthotic/prosthetic devices must be constructed or fabricated using high quality products.

ii. All orthotics must be completed, modified or repaired, and

delivered to the CRS member within 15 working days of the provider's order.

iii. All prosthetics must be completed, modified or repaired, and delivered to the CRS member within 20 working days following the member's provider order.

iv. Orthotic/prosthetic repairs ordered by a CRS provider as urgent must be delivered within five working days.

v. Same day service must be provided for emergency adjustments for members unable to undertake their normal daily activities without the repairs and/or modifications.

d. The CRS designation will assure there will be no additional charge for modifications and/or repairs during the normal life expectancy of the device, except as required to accommodate a documented change in the member's physical size, functional level, or medical condition.

2. Limitations and Exclusions

a. Myoelectric prostheses are excluded.

b. Limitations for members age 21 and older apply as described in AMPM 310-JJ.

O. Psychology/Behavioral Health Services

For discussion of behavioral health services, please see AMPM Policy 310-B, Behavioral Health Services.

P. Second Opinions

The CRS designation covers second opinions by other CRS contracted physicians, when available. If not available, CRS will provide a second opinion by a contracted specialty provider able to treat the condition or a same specialty non-CRS contracted provider.

Q. Speech Therapy Services

The Division covers medically necessary speech therapy services, as described in AMPM Policy 310. Speech therapy services are provided by the CRS designation when the service is medically necessary and prescribed to treat the CRS diagnosed or a related condition. Limitation for members age 21 and older apply as per AMPM Policy 310, Covered Services.

R. Transplant Services

The CRS designation covers transplant services for CRS qualifying conditions or those conditions related to, or resulting from, the CRS condition.

S. Telemedicine

The Division covers telemedicine, as described in Division Medical Policy 320-I Telehealth and Telemedicine. The CRS designation covers telemedicine when it is related to the member's CRS condition. The purpose of telemedicine is to provide clinical and therapeutic services by means of telemedicine technology. This technology is used to deliver care and services directly to the member and to maximize the provider network.

T. Transportation

The Division covers medically necessary transportation services, as described in Division Medical Policy 310-BB Transportation. The CRS designation covers transportation for a member who is receiving services for a CRS condition or a CRS-related service.

U. Vision Services

The CRS designation covers vision services including examinations, eyeglasses, and/or contact lenses for the treatment of a CRS or CRS-related condition.

410 MATERNITY CARE SERVICES

REVISION DATE: 10/25/2023, 6/08/2022
EFFECTIVE DATE: August 5, 2021
REFERENCES: A.A.C. R9-16-111 through 113, A.R.S. § 14-5101; AMPM 400:410; AMPM Attachment 410-B, C, D, and E; AMPM Exhibit 400-2A; Exhibit F3, Contractor Chart of Deliverables

PURPOSE

This policy establishes requirements for the Division of Developmental Disabilities (Division) regarding Maternity Care Services.

DEFINITIONS

1. "Certified Nurse Midwife" or "CNM" means an individual certified by the American College of Nursing Midwives (ACNM) on the basis of a national certification examination and licensed to practice in Arizona by the State Board of Nursing. CNMs practice independent management of care for pregnant women and newborns, providing antepartum, intrapartum, Postpartum, gynecological, and newborn care, within a health care system that provides for medical consultation, collaborative management, or referral.

2. "Free Standing Birthing Centers" means an out-of-hospital, outpatient obstetric facility, licensed by the ADHS and certified by the Commission for the Accreditation of Free Standing Birthing Centers. These facilities are staffed by registered nurses to assist with labor and delivery services. They are equipped to manage uncomplicated, low-risk labor and delivery. These facilities are affiliated with, and in close proximity to, an acute care hospital for the management of complications, should they arise.
3. "High-Risk Pregnancy" means a pregnancy in which the birthing mother, fetus, or newborn is, or is anticipated to be, at increased risk for morbidity or mortality before or after delivery. High-risk is determined through the use of the American College of Obstetricians and Gynecologists (ACOG) standardized medical risk assessment tools.
4. "Licensed Midwife" or "LM" means an individual licensed by the Arizona Department of Health Services (ADHS) to provide Maternity Care pursuant to A.R.S. Title 36, Chapter 6, Article 7 and A.A.C. Title 9, Chapter 16 This provider type does not

include Certified Nurse Midwives licensed by the Board of Nursing as a nurse Practitioner in midwifery or physician assistants licensed by the Arizona Medical Board.

5. "Maternity Care" means identification of pregnancy, Prenatal Care, labor or delivery services, and Postpartum Care.
6. "Maternity Care Coordination" means the following Maternity Care related activities:
    a. Determining the member's medical or social needs through a risk assessment evaluation;
    b. Developing a plan of care designed to address those needs;
    c. Coordinating referrals of the member to appropriate service providers and community resources;
    d. Monitoring referrals to ensure the services are received; and
    e. Revising the plan of care, as appropriate.
7. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

8. "Postpartum" means the period beginning on the last day of pregnancy and extends through the end of the month in which the 60-day period follows the end of pregnancy. For individuals determined eligible for 12-months postpartum coverage, postpartum is the period that begins on the last day of pregnancy and extends through the end of the month in which the 12-month period following termination of pregnancy ends. For individuals determined eligible for 60-days postpartum coverage, postpartum is the period that begins on the last day of pregnancy and extends through the end of the month in which the 60-day period following termination of pregnancy ends. Quality measures used in Maternity Care quality improvement may utilize different criteria for the Postpartum period.
9. "Postpartum Care" means care provided during the period beginning the last day of pregnancy and extends through the end of the month in which the 60-day period follows the end of pregnancy.
10. "Practitioner" means certified nurse Practitioners in midwifery, physician assistants, and other nurse Practitioners.

11. "Preconception Counseling" means the provision of assistance and guidance aimed at identifying/reducing behavioral and social risks, through preventive and management interventions, in women of reproductive age who are capable of becoming pregnant, regardless of whether she is planning to conceive. This counseling focuses on the early detection and management of risk factors before pregnancy and includes efforts to influence behaviors that can affect a fetus prior to conception. The purpose of Preconception Counseling is to ensure that a woman is healthy prior to pregnancy. Preconception counseling is considered included in the well-woman preventive care visit and does not include genetic testing.
12. "Prenatal Care" means health care provided during pregnancy and is composed of three major components:
    a. Early and continuous risk assessment,
    b. Health education and promotion including written member educational outreach materials, and
    c. Medical monitoring, intervention, and follow-up.

13. "Providers" means any individual or entity that is engaged in the delivery of services, or ordering or referring for those services, and is legally authorized to do so by the State in which it delivers the services, as specified in 42 CFR 457.10 and 42 CFR 438.2.
14. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a member or an applicant for whom no guardian has been appointed.
15. "Second Level Review" means a review performed by a Division of Developmental Disabilities (Division) Medical Director who has the appropriate clinical expertise in managing a Member's condition or disease. Second Level Review is used to screen for medical necessity and compare the findings to clinical data in the Member's medical record to ensure Division Members are receiving medically appropriate and high quality care.

POLICY

A. GENERAL REQUIREMENTS

1. The Division shall ensure the following Maternity Care Services are covered for all eligible, enrolled ALTCS members of childbearing age:
    a. Medically necessary Preconception Counseling;
    b. Identification of pregnancy;
    c. Medically necessary education and written member educational outreach materials;
    d. Treatment of pregnancy-related conditions;
    e. Prenatal services for the care of pregnancy;
    f. Labor and delivery services;
    g. Postpartum Care;
    h. Outreach;
    i. Family Planning Services and Supplies; and
    j. Related services.
2. The Division shall require all Maternity Care Services to be delivered by qualified Providers and in compliance with the most current ACOG standards for obstetrical and gynecological services.

3. The Division shall allow LM's to provide Prenatal Care, labor, delivery, and Postpartum Care services within their scope of practice, while adhering to AHCCCS risk-status consultation and referral requirements.
4. The Division shall require all cesarean sections include medical documentation of medical necessity.
    a. The Division shall require all inductions and cesarean sections done prior to 39 weeks follow the ACOG guidelines.
    b. The Division shall require any inductions performed prior to 39 weeks or cesarean sections performed at any time that are found not to be medically necessary are not eligible for payment.
    c. The Division shall require related services such as outreach and Family Planning Services and Supplies are covered, when appropriate, based on the member's current eligibility and enrollment as specified in AMPM 420.

B. REQUIREMENTS FOR PROVIDING MATERNITY CARE SERVICES

1. The Division shall have a written Maternity and Family Planning Services Annual Plan as specified in AMPM 410 that addresses:
   a. Minimum requirements;
   b. Objectives that are focused on achieving Division and AHCCCS requirements; and
   c. Monitoring and evaluation activities for these minimum requirements as specified in AMPM Exhibit 400-2A and AMPM 410.
2. The Division shall require the AdSS to establish and operate a Maternity Care program with program goals directed at achieving optimal birth outcomes.
3. The Division shall coordinate care for THP Members to ensure the same requirements are met.
4. The Division shall require the following minimum requirements of the Maternity Care program are met:
   a. Sufficient numbers of qualified local personnel to meet the requirements of the Maternity Care program for eligible enrolled Members and achieve contractual compliance;

b. Provision of written Member educational outreach utilizing mechanisms for Member dissemination to meet the following requirements as specified in AMPM Exhibit 400-3:

i. Risks associated with elective inductions and cesarean sections prior to 39 weeks gestation;

ii. Healthy pregnancy measures addressing at a minimum:

a) Nutrition;

b) Sexually transmitted infections;

c) HIV testing;

d) Alcohol, opioids, and substance use and other risky behaviors;

e) Measures to reduce risks for low or very low infant birth weight; and

f) Recognizing active labor.

iii. Dangers of lead exposure to birthing mother and baby during pregnancy and how to prevent exposure;

iv. Postpartum depression;

v. Postpartum services available and the importance of timely prenatal and Postpartum Care;

vi. Provision of information regarding the opportunity to change health plans to ensure continuity of Prenatal Care to newly assigned pregnant women and those currently under the care of an out-of-network Provider;

vii. Postpartum warning signs that require contacting a Provider;

viii. Maternity Care practices that are supportive of breastfeeding, and breastfeeding information;

ix. Safe sleep and ways to reduce Sudden Infant Death Syndrome (SIDS) or Sudden Unexpected Infant Death (SUID) risk;

x. Interconception spacing recommendations and family planning options, including Immediate Postpartum Long-Acting Reversible Contraceptives (IPLARC) as specified in AMPM Policy 420;

xi. Ways to minimize interventions during labor and birth as recommended by ACOG;

xii. Support resources and programs such as:

a) Arizona Supplemental Nutrition Program for Women, Infants, and Children (WIC),

b) Strong Families AZ home visitation programs,

c) Arizona Department of Health Services breastfeeding hotline,

d) Early Head Start or Head Start, and

e) Birth to Five Helpline.

xiii. Information on how to obtain pregnancy related services and assistance with scheduling appointments;

xiv. A statement that there is no copayment or other charge for pregnancy-related services as specified in ACOM Policy 431;

xv. A statement that assistance with medically necessary transportation is available to obtain pregnancy

related services as specified in AMPM Policy 310-BB; and

xvi. Other selected topics.

c. Implementation of written protocols to inform pregnant women and Maternity Care providers of voluntary prenatal HIV or AIDS testing, and the availability of medical counseling and treatment, as well as the benefits of treatment, if the test is positive.

i. The Division shall require the AdSS to include information to encourage pregnant women to be tested and provide instructions on where testing is available as specified in AMPM Exhibit 400-3.

ii. The Division shall require the AdSS to report the number of pregnant women who are HIV or AIDS positive, as specified in Contract, and AMPM 410 Attachment A.

d. Conducting outreach and educational activities to identify currently enrolled Members who are pregnant and enter them into Prenatal Care as soon as possible.

i. The Division shall require programs include protocols for service Providers to notify the AdSS promptly when Members have tested positive for pregnancy.

ii. The Division shall require the AdSS to notify the Division at maternalandchildhealth@azdes.gov and dddcctreferral@azdes.gov when Members have tested positive for pregnancy.

iii. The Division shall require the AdSS to have an ongoing process to monitor and evaluate the effectiveness of outreach activities for all pregnant women and implement different activities if activities prove to be ineffective.

e. Participation in community and quality initiatives, including but not limited to, efforts to reduce maternal mortality and morbidity and address health disparities in maternal and infant health within the communities served by the AdSS.

f. Designation of a Maternity Care Provider for each Member who is pregnant for the duration of her pregnancy and Postpartum Care.

i. The Division shall require the AdSS to allow for freedom of choice, while not compromising the continuity of care.

ii. The Division shall require the AdSS to allow Members who transition to a different AdSS or become newly enrolled with an AdSS during their third trimester to complete Maternity Care with their current AHCCCS registered Provider, regardless of contractual status, to ensure continuity of care.

g. Written new Member assessment procedures for the provider that include identifying risk factors through the use of a comprehensive assessment tool from ACOG covering psychosocial, nutritional, medical and educational factors.

h. Mandatory Maternity Care Coordination services for all pregnant women to include:

i. Identified barriers with navigating the health care system, evident by missed visits,

ii. Difficulties with transportation, or

iii. Other perceived barriers.

i. Demonstration of an established process for assuring:

i. Network Physicians, Practitioners, and LMs adhere to the highest standards of care, including the use of a standardized medical risk assessment tool for initial and ongoing risk assessments, and appropriate consults or referrals for increased-risk or high-risk pregnancies using ACOG criteria;

ii. Maternity Care Providers educate Members about healthy behaviors during the perinatal period, including:

a) The importance of proper nutrition;

b) Dangers of lead exposure to birthing mother and child;

c) Tobacco cessation;

d) Avoidance of alcohol and other harmful substances, including illegal drugs;

e) Prescription opioid use;

f) Screening for sexually transmitted infections;

g) The physiology of pregnancy;

h) The process of labor and delivery;

i) Breast-feeding;

j) Other infant care information;

k) Interconception health and spacing;

l) Family planning services and supplies, including IPLARC;

m) Postpartum follow-up; and

n) Other education as needed for optimal outcomes.

iii. Members are referred for the following support services to:

a) Special Supplemental Nutrition Program for WIC,

b) Home visitation programs for pregnant women and their children, and

c) Other community-based resources to support healthy pregnancy outcomes.

iv. Maternity care providers maintain a complete medical record, documenting all aspects of Maternity Care;

v. Pregnant women have been referred to and are receiving appropriate care from a qualified physician; and

vi. Postpartum services are provided to Members within the time frame that aligns with performance measures as specified in AMPM 970.

j. Mandatory provision of initial Prenatal Care appointments within the following established timeframes and as specified in ACOM Policy 417:

i. First trimester - within 14 calendar days of a request for an appointment;

ii. Second trimester - within seven calendar days of a request for an appointment;

iii. Third trimester - within three business days of a request for an appointment; or

iv. High risk pregnancies as expeditiously as the Member's health condition requires and no later than three business days of identification of high risk by the AdSS, Division or Maternity Care Provider or immediately, if an emergency exists.

k. Verification of Members who are pregnant, to ensure that the above timeframes are met, and to effectively monitor Members are seen in accordance with those timeframes.

l. Monitoring and evaluation of infants born with low or very low birth weight, and implementation of interventions to decrease the incidence of infants born with low or very low birth weight.

m. Monitoring and evaluation of cesarean section and elective induction rates prior to 39 weeks gestation, and implementation of interventions to decrease occurrence, including addressing variations in provider cesarean section rates for first-time pregnant women with a term, singleton baby in a vertex or head down position.

n. Monitoring and evaluation of maternal mortality and implementation of interventions to decrease the occurrence of pregnancy-related mortality and health disparities in both the prenatal and Postpartum period.

o. Monitoring and evaluation to ensure that Maternity Care practices that support breastfeeding success are being utilized per ACOG and American Academy of Pediatrics (AAP) guidance.

p. Identification of Postpartum depression with the required use of any norm-criterion referenced validated screening tool to assist the Provider in assessing the Postpartum needs of women regarding depression and decisions regarding health care services provided by the Maternity Care Provider or subsequent referral for behavioral health services if clinically indicated.

q. Process for monitoring Provider compliance for perinatal and Postpartum depression screenings conducted at least once during the pregnancy and then repeated at the

Postpartum visit, with appropriate counseling and referrals made, if a positive screening is obtained.

r. Return visits scheduled in accordance with ACOG standards. A process shall be in place to monitor these appointments and ensure timeliness.

s. Inclusion of the first and last Prenatal Care dates of service and the number of obstetrical visits that the Member had with the Provider on claim forms to AHCCCS regardless of the payment methodology.

t. Continued payment of obstetrical claims upon receipt of claim after delivery and shall not postpone payment to include the Postpartum visit. The AdSS shall require a separate zero-dollar claim for the Postpartum visit.

u. Timely provision of medically necessary transportation services, as described in Division Medical Policy 310-BB.

v. Monitoring and evaluation of Postpartum activities and implementation of interventions to improve the utilization rate where needs are identified.

w. Participation in reviews of the Maternity Care Services program conducted by the Division as requested, including Provider visits and audits.

C. MATERNITY CARE PROVIDER REQUIREMENTS

1. The Division shall require Providers adhere to the following Maternity Care requirements:
   a. Maternity Care Providers follow the ACOG standards of care, including the use of a standardized medical risk assessment tool and ongoing health risk assessment.
   b. LMs, if included in the AdSS Provider network, adhere to the requirements contained within Division and AHCCCS policy, procedures, and contracts.
2. The Division shall monitor the AdSS to ensure that all Maternity Care Providers adhere to the following:
   a. Division Members have been referred to a qualified Provider and are receiving appropriate care;
   b. All pregnant women are screened through the Controlled Substances Prescription Monitoring Program (CSPMP) once a trimester and appropriate intervention and counseling

shall be provided, including referral of Members for behavioral health services as indicated for Substance Use Disorder (SUD) assessment and treatment, for those Members receiving opioids;

c. All pregnant women are screened for Sexually Transmitted Infections (STI), including syphilis during:
   i. First prenatal visit,
   ii. Third trimester, and
   iii. Time of delivery.

d. Members are educated about the following healthy behaviors during pregnancy:
   i. The importance of proper nutrition;
   ii. Dangers of lead exposure to birthing mother and child;
   iii. Tobacco cessation;
   iv. Avoidance of alcohol and other harmful substances, including illegal drugs;
   v. Prescription opioid use;
   vi. Screening for sexually transmitted infections;

vii. The physiology of pregnancy;

viii. The process of labor and delivery;

ix. Breastfeeding;

x. Other infant care information;

xi. Interconception health and spacing;

xii. Family Planning Services and Supplies, including IPLARC;

xiii. Postpartum follow-up; and

xiv. Other education as needed for optimal outcomes.

e. All pregnant women receive a brief verbal screening and intervention for substance use utilizing an evidence-based screening tool and an appropriate referral shall be made as needed,

f. Providers utilize evidence-based practices per ACOG and the AAP to increase the initiation and duration of breastfeeding including:

i. Provider recommendation for breastfeeding;

ii. Placement of the infant in skin-to-skin contact;

iii. Early initiation of breastfeeding;

iv. No food or drink other than breastmilk; unless medically necessary; and

v. Rooming in.

g. Perinatal and Postpartum depression screenings are conducted at least once during the pregnancy and then repeated at the Postpartum visit with appropriate counseling and referrals made if a positive screening is obtained.

i. Postpartum depression screening is not a separately reimbursable service as it is considered part of the global service.

ii. Providers shall refer to any norm-referenced validated screening tool to assist the Provider in assessing the Postpartum needs of birthing mother regarding depression and decisions regarding health care services provided by the PCP or subsequent referral to a behavioral health Provider, if clinically indicated.

h. Member medical records are appropriately maintained and document all aspects of the Maternity Care provided.

i. Members are referred to the following for support services to support healthy pregnancy and infant outcomes:

   i. Special Supplemental Nutrition Program for Women, Infants and Children (WIC),

   ii. Strong Families Az home visiting programs,

   iii. Arizona Department of Health Services breastfeeding hotline,

   iv. Birth to Five Helpline, and

   v. Other community-based resources.

j. Members are notified where they may obtain low-cost or no-cost maternity services, in the event they lose AHCCCS eligibility.

k. The first and last Prenatal Care dates of service and the number of obstetrical visits that the Member had with the Provider are submitted on all claim forms, regardless of the payment methodology used.

l. Postpartum services as clinically indicated are provided to Members within the Postpartum period and adhere to current AHCCCS minimum performance measures.

1. The Division shall require Maternity Care Providers utilize a separate zero-dollar claim for the Postpartum visit.

D. PREGNANCY TERMINATION

1. The Division shall cover pregnancy termination, if one of the following criteria is present:

   a. The pregnant woman suffers from the following, which places the Member in danger of death unless the pregnancy is terminated, as certified by a physician:

      i. A physical disorder;

      ii. Physical injury; or

      iii. Physical illness including a life-endangering physical condition caused by, or arising from, the pregnancy itself.

   b. The pregnancy is a result of incest;

   c. The pregnancy is a result of rape; or

d. The pregnancy termination is medically necessary according to the medical judgment of a licensed physician, who attests that continuation of the pregnancy could reasonably be expected to pose a serious physical or behavioral health problem for the pregnant woman by:

i. Creating a serious physical or behavioral health problem for the pregnant woman;

ii. Seriously impairing a bodily function of the pregnant woman;

iii. Causing dysfunction of a bodily organ or part of the pregnant woman;

iv. Exacerbating a health problem of the pregnant woman; or

v. Preventing the pregnant woman from obtaining treatment for a health problem.

2. The Division shall require the following to be met regarding Prior Authorization (PA) except in cases of medical emergencies:

a. The Provider obtains a prior authorization for all covered pregnancy terminations;

b. The attending physician submits a request for review of the pregnancy termination qualifying diagnosis and condition for enrolled pregnant women with clinical information that supports the medical necessity or other criteria met for the procedure;

c. The Division reviews the prior authorization request, as specified in AMPM 410 Attachments C and D, and expeditiously authorize the procedure, if the documentation meets the criteria for justification of pregnancy termination;

d. The attending physician submits all documentation of medical necessity within two working days of the date on which the pregnancy termination procedure was performed, in cases of medical emergencies.

3. The Division shall require that any decision to deny or authorize a service is made by a Healthcare Professional who has appropriate clinical expertise in treating the Member's condition or disease.

4. The Division shall require authorization requests for the following services are submitted to the Division, by the AdSS or directly from the Provider for a THP Member, for Second Level Review prior to issuing a decision:
    a. Hysterectomy;
    b. Sterilization; or
    c. Termination of pregnancy.
5. The Division shall review and respond to standard service authorization requests within seven business days and two business days for expedited service authorization requests.
6. The Division shall require expedited requests be clearly labeled as expedited.
7. The Division shall allow the AdSS Medical Director to request a peer-to-peer review with the Division Medical Director if there is a disagreement regarding a service authorization.
8. The Division may request a peer-to-peer directly with the Provider at the Division's discretion for THP Members.
9. The Division shall require:

a. A written consent obtained by the Provider and file in the Member's medical record for a pregnancy termination;

b. If the pregnant woman is younger than 18 years of age, or is 18 years of age or older and considered an incapacitated adult as specified in A.R.S. § 14-5101, a dated signature from the Responsible Person indicating approval of the pregnancy termination procedure is required;

c. When the pregnancy is the result of rape or incest, documentation that the incident was reported to the proper authorities, including the name of the agency to which it was reported, the report number if available, and the date the report was filed;

d. The documentation requirement above in subsection (c) is waived if the treating physician certifies that, in his or her professional opinion, the Member was unable, for physical or psychological reasons, to comply with the requirement;

e. Providers follow Food and Drug Administration (FDA) medication guidance for the use of medications to end a pregnancy, current standards of care per ACOG shall be

utilized when the duration of pregnancy is unknown or if ectopic pregnancy is suspected;

f. Pregnancy termination by surgery or standard of care is recommended in cases when medications are used and fail to induce termination of the pregnancy;

g. When medications are administered to induce termination of the pregnancy, the following documentation is also required:

i. Name of medications used,

ii. Duration of pregnancy in days,

iii. The date medication was given,

iv. The date any additional medications were given unless a complete abortion was already confirmed, and

v. Documentation that pregnancy termination occurred.

8. The Division shall require the following reporting requirements are submitted to AHCCCS and the Division:

a. AHCCCS Certificate of Necessity for Pregnancy Termination and AHCCCS Verification of Diagnosis by AdSS for

Pregnancy Termination Requests, AMPM 410 Attachments C and D, as specified in Contract; and

b. Pregnancy Termination Report and the required documentation as listed in AMPM 410 Attachment E, as specified in Contract.

9. The Division shall require the AdSS to develop procedures to identify and monitor all claims and encounters with a primary diagnosis of pregnancy termination.

E. ADDITIONAL RELATED SERVICES

1. The Division shall cover circumcision for males as follows:
   a. Circumcision for males, only when it is determined to be medically necessary, under the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) program;
   b. Routine circumcision for newborn males is not a covered service; and
   c. The procedure requires Prior Authorization (PA) if required by the newborn's Health Plan.
2. The Division shall require home uterine monitoring technology is covered when determined to be medically necessary as follows:

a. Covered for Members with premature labor contractions before 35 weeks gestation, as an alternative to hospitalization.

b. If the Member has one or more of the following conditions, home uterine monitoring may be considered for:

i. Multiple gestation, particularly triplets or quadruplets;

ii. Previous obstetrical history of one or more births before 35 weeks gestation;

iii. For a pregnant woman ready to be discharged home after hospitalization for premature labor before 35 weeks gestation with a documented change in the cervix, controlled by tocolysis.

c. These guidelines refer to home uterine activity monitoring technology and do not refer to daily Provider contact by telephone or home visit.

3. The Division shall require labor and delivery services provided in Free Standing Birthing Centers are covered.

a. For Members who meet medical criteria specified in this policy when labor and delivery services are provided by Maternity Care Providers.

b. Only Members for whom an uncomplicated prenatal course and a low-risk labor and delivery can be anticipated may be scheduled to deliver at a Free Standing Birthing Center.

c. Risk status shall be determined by the attending physician or Certified Nurse Midwife (CNM), using the standardized ACOG assessment tools for high-risk pregnancies. In any area of the risk assessment where standards conflict, the most stringent will apply.

d. The age of the Member shall also be a consideration in the risk status evaluation as Members younger than 18 years of age are generally considered high risk.

e. Refer to A.A.C. R9-16-111 through 113 for a more detailed explanation of what are not considered low-risk deliveries, nor appropriate for planned home-births or births in Free Standing Birthing Centers.

4. The Division shall require labor and delivery services in a home setting provided by the Member's maternity Provider are covered.
    a. For Members who meet medical criteria, AHCCCS covers labor and delivery services provided in the home by:
        i. Member's maternity Provider physicians,
        ii. CNMs, or
        iii. LMs.
    b. Only AHCCCS Members for whom an uncomplicated prenatal course and a low-risk labor and delivery can be anticipated, may be scheduled to deliver in the Member's home.
    c. Risk status is initially determined at the time of the first visit, and each trimester thereafter, by the Member's Maternity Care Provider, using the current standardized ACOG assessment criteria and protocols for High-Risk Pregnancies.

d. A risk assessment conducted when a new presenting complication or concern arises to ensure appropriate care and referral to a qualified Provider, if necessary.

e. Physicians and CNMs who render home labor and delivery services have admitting privileges at an acute care hospital in close proximity to the site where the services are provided in the event of complications during labor and delivery.

f. LMs who render home labor and delivery services have an established plan of action, including methods of obtaining services at an acute care hospital in close proximity to the site where services are provided for each anticipated home labor and delivery.

g. Referral information to an AHCCCS registered physician who can be contacted immediately, in the event that management of complications is necessary, are included in the plan of action.

h. The Maternity Care Provider notifies the birthing mother's AdSS or the AHCCCS Newborn Reporting Line of the birth

for infants born to THP Members. Notification is given no later than three days after the birth in order to enroll the newborn with AHCCCS.

5. The Division shall require licensed midwife services are provided by LMs for Members, if LMs are included in the AdSS' Provider network or AHCCCS registered Providers who accept THP.
   a. Members who choose to receive maternity services from this Provider type meet eligibility and medical criteria specified in this policy.
   b. Risk status is initially determined at the time of the first visit, and each trimester, thereafter, using the current standardized assessment criteria and protocols for high-risk pregnancies from ACOG.
   c. An ACOG risk assessment is conducted when a new presenting complication or concern arises to ensure proper care and referral to a qualified Provider, if necessary.
   d. Before providing midwife services, documentation certifying the risk status of the Member's pregnancy is submitted to the AdSS or to DFSM for THP Members.

e. A consent form signed and dated by the Member is submitted, indicating that the Member has been informed and understands the scope of services that will be provided by the LM, including the risks to a home delivery.

f. Members are immediately referred to an AHCCCS registered physician for THP or within the Provider network of the Member's AdSS for Maternity Care Services who:

   i. Are initially determined to have a High-Risk Pregnancy, or

   ii. Members whose physical condition changes to high-risk during the course of pregnancy.

g. Labor and delivery services provided by a LM cannot be provided in a hospital.

   i. LMs shall have a plan of action, including the name and address of an AHCCCS registered physician and an acute care hospital in close proximity to the planned location of labor and delivery for referral, in the event that complications should arise.

ii. This plan of action is submitted to the DFSM Medical Director or designee for THP Members, or to the AdSS Medical Director or designee for Members enrolled with an AdSS.

h. Upon delivery of the newborn, the LM is responsible for conducting newborn examination procedures, including:

i. A mandatory Bloodspot Newborn Screening Panel,

ii. A referral of the infant to an appropriate health care Provider for a mandatory hearing screening,

iii. A second mandatory Bloodspot Newborn Screening Panel, and

iv. A second newborn hearing screening.

i. The LM shall notify the birthing mother's AdSS or the AHCCCS Newborn Reporting Line for infants born to THP Members, of the birth no later than one day from the date of birth, in order to enroll the newborn with AHCCCS.

D. AdSS OVERSIGHT AND MONITORING

1. The Division shall meet with the AdSS at least quarterly to provide ongoing evaluation including data analysis and

recommendations to refine processes, identify successful interventions and care pathways to optimize results.

2. The Division shall perform an Operational Review of the AdSS on an annual basis that includes a review of compliance.

411 WOMEN'S PREVENTIVE CARE SERVICES

REVISION DATES: 6/08/2022, 10/1/2021, 7/3/2019
EFFECTIVE DATE: May 27, 2016

PURPOSE

This policy establishes requirements for well-woman preventive care visits as a covered benefit for women to obtain the recommended preventive services, including Preconception Counseling.

DEFINITIONS

1. "Clinical Breast Exam" means a physical examination of the breasts by a health care provider used as a primary diagnostic procedure for early detection of breast cancer.

2. "Family Planning Services and Supplies" means the provision of accurate information, counseling, and discussion with a health care provider to allow members to make informed decisions about the specific family planning methods available that align with the member's lifestyle and provision of indicated supplies.

3. "Human Papillomavirus (HPV)" means a sexually transmitted infection for which a series of immunizations are available for both males and females.

4. "Mammogram" means an x-ray of the breasts used to look for early signs of breast cancer.

5. "Preconception Counseling" means the purpose of Preconception Counseling is to ensure that a woman is healthy prior to pregnancy by identifying/reducing behavioral and social risks, through preventive and management interventions, in women of reproductive age who are capable of becoming pregnant, regardless of whether she is planning to conceive. This counseling focuses on the early detection and management of risk factors before pregnancy and includes efforts to influence behaviors that can affect a fetus prior to conception. Preconception Counseling is considered included in the well-woman preventive care visit.

POLICY

A. A well-woman preventive care visit is covered on an annual basis.

B. Well-Woman Preventive Care Services include:

1. Well Exam - An annual well-woman preventive care visit is intended for the identification of risk factors for disease, identification of existing physical/behavioral health problems,

and promotion of healthy lifestyle habits essential to reducing or preventing risk factors for various disease processes.

C. Requirements for Well-Woman Preventive Care Services:

1. The Division's contracted health plans are responsible for covering Well- Woman Preventive Care Services for Division members enrolled in one of the subcontracted health plans in accordance with AdSS Policy 411.

D. AdSS Oversight And Monitoring

At least quarterly, the Division meets with the AdSS to provide ongoing evaluation including data analysis and recommendations to refine processes, identify successful interventions and care pathways to optimize results. On an annual basis, the Division performs an Operational Review of the AdSS that includes review of compliance.

420 FAMILY PLANNING SERVICES AND SUPPLIES

REVISION DATE: 1/10/2024, 9/6/2023, 6/8/2022, 10/1/2021, 10/01/2019, 8/22/2018, 7/3/2015, 9/15/2014
REVIEW DATE: 9/14/2023
EFFECTIVE DATE: June 30, 1994
REFERENCES: A.R.S. §36.2904(L), ACOM Policy 405, AMPM 420

PURPOSE

This policy establishes requirements and describes covered services regarding Family Planning Services and Supplies for Division of Developmental Disabilities (Division) Members.

DEFINITIONS

1. "Business Days" means Monday, Tuesday, Wednesday, Thursday, or Friday unless a legal holiday falls on Monday, Tuesday, Wednesday, Thursday, or Friday.
2. "Family Planning Provider" means individuals who are involved in providing family planning services to individuals and may include physicians, physician assistants, nurse practitioners, nurse midwives, midwives, nursing staff and health educators.
3. "Family Planning Services and Supplies" means the provision of accurate information, counseling, and discussion with a

healthcare provider to allow Members to make informed decisions about the specific family planning methods available that align with the Member's lifestyle and provision of indicated supplies. Family Planning Services and Supplies include covered medical, surgical, pharmacological, and laboratory benefits specified in this policy.

4. "Hysterosalpingogram" means an X-ray procedure used to confirm sterility (occlusion of the fallopian tubes).
5. Immediate Postpartum Long-Acting Reversible Contraceptives" or "IPLARC" means immediate postpartum placement of reversible methods for family planning that provide effective contraception for an extended period of time with little or no maintenance or user actions required, including intrauterine devices and subdermal and implantable contraceptives.
6. "Long-Acting Reversible Contraceptives" or "LARC" means reversible methods for family planning that provide effective contraception for an extended period of time with little or no maintenance or user actions required, including intrauterine devices and subdermal and implantable contraceptives.

7. "Maternity Care Provider" means the following provider types who may provide maternity care when it is within their training and scope of practice:
    a. Arizona licensed allopathic or osteopathic physicians who are obstetricians or general practice or family practice providers who provide maternity care services,
    b. Physician Assistant,
    c. Nurse Practitioners,
    d. Certified Nurse Midwives, and
    e. Licensed Midwives
8. "Member" means the same as "Client" as defined in A.R.S. § 36-551.
9. "Reproductive Age" means Division Members, regardless of gender, from 12 to 55 years of age.
10. "Second Level Review" means a review performed by a Division Medical Director who has the appropriate clinical expertise in managing a Member's condition or disease. Second Level Review is used to screen for medical necessity and compare the findings to clinical data in the Member's medical record to ensure Division

Members are receiving medically appropriate and high quality care.

POLICY

A. GENERAL REQUIREMENTS

1. The Division shall require Family Planning Services and Supplies to be covered for Members when provided by the appropriate Family Planning Providers or Maternity Care Providers, regardless of gender, who voluntarily choose to delay or prevent pregnancy.
2. The Division shall require that Family Planning services provided are within each provider's training and scope of practice.
3. The Division shall require the provision of medically accurate information and counseling to allow Members to make informed decisions about specific family planning methods available.
4. The Division shall ensure Members enrolled with a health plan maintain the option to choose Family Planning Services and Supplies from any appropriate provider regardless of whether or not the Family Planning Service Providers are network providers.

5. The Division shall ensure Members enrolled with DDD Tribal Health Program (THP) have the option to select any AHCCCS-registered Family Planning Provider.
6. The Division shall ensure pregnant or postpartum Members whose AHCCCS eligibility continues, may remain with their assigned maternity provider, or may select another provider for Family Planning Services and Supplies.

B. SECOND LEVEL REVIEW

1. The Division shall review the following services prior to approval or denial by the AdSS:
   a. Hysterectomy,
   b. Sterilization, or
   c. Termination of pregnancy.
2. The Division shall ensure the AdSS submits the following clinical documentation to support medical necessity for requested services:
   a. Medical records related to the request;
   b. AHCCCS Certificate of Necessity for Pregnancy Termination, if applicable;

c. Verification of diagnosis by contractor for a Pregnancy Termination, if applicable; and

d. Consent to Sterilization, if applicable.

3. The Division shall require the AdSS to submit requests in a timely manner, at minimum, seven Business Days, for review and response for standard service authorization requests.

4. The Division shall require the AdSS to submit expedited service requests within two Business Days and clearly label these requests as expedited.

5. The Division may request a peer-to-peer review with the AdSS Medical Director if there is a disagreement regarding a service authorization.

6. The Division shall make the final decision on prior authorization requests elevated for Second Level Review.

C. AMOUNT, DURATION, AND SCOPE

1. The Division shall require the AdSS to cover the following Family Planning Services and Supplies for Members:

a. Contraceptive counseling, medication, and supplies:

i. Oral and injectable contraceptives;

ii. LARC;

iii. IPLARC;

iv. Diaphragms;

v. Condoms;

vi. Foams; and

vii. Suppositories.

b. Associated medical and laboratory examinations and radiological procedures, including ultrasound studies related to family planning;

c. Treatment of complications resulting from contraceptive use, including emergency treatment;

d. Natural family planning education or referral to other qualified health professionals;

e. Post-coital emergency oral contraception, excluding Mifepristone (Mifeprex or RU-486) within 72 hours after unprotected sexual intercourse; and

f. Sterilization by Hysteroscopic Tubal Sterilization or Vasectomy

i. The Division shall require the provider counsels and recommends the Member continue another form of birth control to prevent pregnancy for up to 3 months following the Hysteroscopic Tubal Sterilization or Vasectomy.

ii. The Division shall require the provider to perform a Hysterosalpingogram or sperm count according to the current standard of care for the sterilization procedure to confirm the Member is sterile following the Hysteroscopic Tubal Sterilization or Vasectomy.

2. The Division shall ensure the following Family Planning Services and Supplies are covered:

a. Pregnancy screening;

b. Pharmaceuticals when associated with medical conditions related to family planning or other medical conditions;

c. Screening and treatment for Sexually Transmitted Infections (STI) for Members, regardless of gender;

d. Sterilization, regardless of Member's gender, when the requirements for sterilization services are met; and

e. Pregnancy termination only as specified in AMPM Policy 410.

3. The Division shall ensure service providers are aware the following services are not covered for the purpose of Family Planning Services and Supplies:

a. Infertility services including diagnostic testing, treatment services and reversal of surgically induced infertility;

b. Pregnancy termination counseling;

c. Pregnancy terminations, except as specified in AMPM Policy 410; and

d. Hysterectomy for the purpose of sterilization.

D. REQUIREMENTS FOR PROVIDING FAMILY PLANNING SERVICES AND SUPPLIES

1. The Division shall monitor required Member outreach per AMPM Exhibit 400-3 to notify Members of Reproductive Age, regardless of gender, of the specific covered Family Planning Services and Supplies available and how to request them.

2. The Division shall require the AdSS to ensure the following information is provided to Members:

a. A complete description of available covered Family Planning Services and Supplies,

b. Information advising how to request or obtain these services,

c. Information that assistance with scheduling is available,

d. A statement that there is no copayment or other charge for Family Planning Services and Supplies as specified in ACOM Policy 431, and

e. A statement that medically necessary transportation services as specified in AMPM 310-BB are available.

3. The Division shall require the AdSS to have policies and procedures in place to ensure Family Planning Providers are educated regarding covered and non-covered services, Family Planning Services and Supplies, including LARC and IPLARC options.

4. The Division shall ensure Family Planning Services and Supplies are:

a. Provided in a manner free from coercion or behavioral or mental pressure;

b. Available and easily accessible to Members;

c. Provided in a manner which assures continuity and confidentiality;

d. Provided by, or under the direction of, a qualified physician or practitioner; and

e. Documented in the medical record that each Member of Reproductive Age was notified verbally or in writing of the availability of Family Planning Services and Supplies.

5. The Division shall require the AdSS to ensure providers incorporate medical audits for Family Planning Services and Supplies within Quality Management activities to determine conformity with acceptable medical standards.
6. The Division shall require the AdSS to establish quality or utilization management indicators to effectively measure and monitor the utilization of Family Planning Services.
7. The Division shall require the AdSS to ensure that guidelines detail specific procedures for the provision of LARC or IPLARC and are written in accordance with acceptable medical standards.

8. The Division shall require that the Family Planning or Maternity Care Provider has provided proper counseling to the eligible Member prior to insertion of intrauterine and subdermal implantable contraceptives to increase the Member's success with the device according to the Member's reproductive goals.

E. PROTOCOL FOR MEMBER NOTIFICATION OF FAMILY PLANNING SERVICES

1. The Division requires the AdSS to have a process to ensure the sterilization reports specified in this policy comply with the procedural guidelines for encounter submissions.
2. The Division shall ensure the following minimum requirements are met specific for notification of covered Family Planning Services and Supplies:
    a. Members of Reproductive Age shall be notified either directly or through the Responsible Adult of the specific covered Family Planning Services and Supplies available to them, and a plan to provide those services and supplies to Members who request them by:

i. Provisions for written notification, other than the Member handbook;

ii. Member newsletter; and

iii. Verbal notification during a Member's visit with the PCP.

b. Family Planning notification is sent by the end of the second trimester for pregnant Members and includes information on LARC or IPLARC;

c. The AdSS shall conform to confidentiality requirements as specified in 45 C.F.R. 164.522(b) (i and ii);

d. Communications and correspondence shall be approved by the Division;

e. Distribution at least once per year by November 1st. For Members who enroll with the AdSS after November 1st, notification is sent at the time of enrollment;

f. Notification of the covered Family Planning Services and instructions given to Members regarding how to access these services;

g. Written notification at reading level and easily understood as specified in ACOM 404;

h. Notification in accordance with cultural competency requirements as specified in ACOM Policy 405;

i. The AdSS shall ensure Maternity Care Providers verbally notify Members of the availability of Family Planning Services during office visits; and

j. The AdSS shall report all Members under 21 years of age, undergoing a procedure that renders the Member sterilized, using the AHCCCS Sterilization Reporting Form, AMPM 420 Attachment B and submitting documentation supporting the medical necessity for the procedure.

F. STERILIZATION

1. The Division shall ensure the following criteria are met for the sterilization of a Member to occur:

   a. The Member is at least 21 years of age at the time the consent is signed, using AHCCCS Consent to Sterilization AMPM 420 Attachment A;

   b. The Member has not been declared mentally incompetent;

c. Voluntary consent was obtained by the Member or Responsible Person without coercion;

d. 30 days, but not more than 180 days, have passed between the date of informed consent and the date of sterilization, except in the case of premature delivery or emergency abdominal surgery.

i. Members may consent to be sterilized at the time of a premature delivery or emergency abdominal surgery, if at least 72 hours have passed since they gave informed consent for the sterilization.

ii. Consent is given at least 30 days before the expected date of delivery in the case of premature delivery.

2. The Division shall ensure any Member requesting sterilization signs the AHCCCS Consent to Sterilization form with a witness present when the consent is obtained as specified in AMPM 420.

3. The Division shall ensure suitable arrangements are made to ensure the information in the consent form is effectively communicated to Members with limited English proficiency or

reading skills and those with diverse cultural and ethnic backgrounds, as well as Members with visual or auditory limitations as specified in ACOM 404 and ACOM 405.

4. The Division shall ensure the Member receives a copy of the consent form and is offered factual information prior to signing the consent form that includes the following:
   a. Consent form requirements as specified in 42 CFR 441.250;
   b. Answers to questions asked regarding the specific procedure to be performed;
   c. Notification that withdrawal of consent can occur at any time prior to surgery without affecting future care or loss of federally funded program benefits;
   d. Advice that the sterilization procedure is considered to be irreversible;
   e. A thorough explanation of the specific sterilization procedure to be performed;
   f. A description of available alternative methods;

g. A full description of the discomforts and risks that may accompany or follow the performing of the procedure, including an explanation of the types and possible effects of any anesthetic to be used;

h. A full description of the advantages or disadvantages that may be expected as a result of the sterilization;

i. Notification that sterilization cannot be performed for at least 30 days post consent.

5. The Division shall ensure sterilization consents are not obtained when a Member is:

a. In labor or childbirth;

b. Seeking to obtain, or is obtaining, a pregnancy termination; or

c. Under the influence of alcohol or other substances that affect that Member's state of awareness.

G. OVERSIGHT AND MONITORING

1. The Division shall meet with the AdSS at least quarterly to provide:

a. Ongoing evaluation including data analysis,

b. Recommendations to refine processes,

c. Identify successful interventions, and

d. Care pathways to optimize results.

2. The Division shall perform an Operational Review of the AdSS that includes review of compliance on an annual basis.

430 EARLY AND PERIODIC SCREENING, DIAGNOSTIC AND TREATMENT SERVICES

REVISION DATES: 6/08/2022, 10/01/2019, 3/25/2016, 7/3/2015, 4/15/2015, 9/15/2014
EFFECTIVE DATE: June 30, 1994
REFERENCES: 42 U.S.C. 1396d (a), Division Medical Policy Manual, 310-P

PURPOSE

This policy establishes requirements for the provision of Early and Periodic Screening, Diagnostic, and Treatment (EPDST) services.

DEFINITIONS

1. "Commercial Oral Supplemental Nutrition" means nourishment available without a prescription that serves as sole caloric intake or additional caloric intake.

2. "Diagnostic" means determination of the nature or cause of a condition, illness, or injury through the combined use of health history, physical, developmental, and psychological examination, laboratory tests, and X-rays, when appropriate.

3. "Early" means in the case of a child already enrolled with an AHCCCS Contractor, as soon as possible in the child's life, or in other cases, as soon after the member's eligibility for AHCCCS services has been established.

4. "Early and Periodic Screening, Diagnostic and Treatment (EPSDT)" means a comprehensive child health program of prevention, treatment, correction, and improvement of physical and behavioral health conditions for AHCCCS members under the age of 21. EPSDT services include screening services, vision services, dental services, hearing services and all other medically necessary mandatory and optional services listed in Federal Law 42 U.S.C. 1396d(a) to correct or ameliorate defects and physical and mental illnesses and conditions identified in an EPSDT screening whether or not the services are covered under the AHCCCS State Plan. Limitations and exclusions, other than the requirement for medical necessity and cost effectiveness, do not apply to EPSDT services.

5. "Periodic" means at intervals established by AHCCCS for screening to assure that a condition, illness, or injury is not incipient or present.

6. "Screening" means regularly scheduled examinations and evaluations of the general physical and behavioral health, growth, development, and nutritional status of infants, children, and adolescents, and the identification of those in need of more

definitive evaluation. For the purpose of the AHCCCS EPSDT program, screening and diagnosis are not synonymous.

7. "Treatment" means any of the 29 mandatory or optional services described in 42 U.S.C. 1396d(a), even if the service is not covered under the (AHCCCS) State Plan, when necessary to correct or ameliorate defects and physical and mental illnesses and conditions detected by screening.

POLICY

A. EPSDT / Well Child Visit

The EPSDT/Well Child visit is all-inclusive and includes the following:

1. A comprehensive health and Developmental history, including growth and Developmental Screening which includes physical, nutritional, and behavioral health assessments. Refer to the Centers for Disease Control and Prevention website: www.cdc.gov/growthcharts/ for Body Mass Index (BMI) and growth chart resources.

2. Nutritional Screening provided by a primary care physician (PCP).

3. Nutritional Assessment provided by a PCP, refer to AdSS Medical Policy 430.

4. Behavioral Health Screening and Services provided by a PCP.

    a. The Division covers behavioral health services for members eligible for EPSDT. PCPs may provide behavioral health services within their scope of practice.

    b. American Indian members may receive behavioral health services through an Indian Health Service or Tribally operated 638 facility, regardless of health plan enrollment or behavioral health assignment.

5. Developmental Surveillance shall be performed with the PCP at each EPSDT visit.

6. A comprehensive unclothed physical examination.

7. Immunizations

    a. EPSDT covers all child and adolescent immunizations, as specified in the Centers for Disease Control and Prevention (CDC) recommended childhood immunization schedules.

b. Appropriate immunizations according to age and health history (administration of the immunizations may be billed in addition to the EPSDT visit using the CPT-4 code appropriate for the immunization with an SL modifier). Combination vaccines are paid as one vaccine.

c. Providers shall be registered as Vaccines for Children (VFC) providers and VFC vaccines shall be used.

8. Laboratory tests

a. Laboratory including, anemia testing and Diagnostic testing for sickle cell trait.

b. EPSDT covers blood lead Screening for all members at 12 months and 24 months of age and for those members between the ages of 24 through 6 years of age who have not been previously tested or who missed either the 12 month or 24 month test. Lead levels may be measured at times other than those specified if thought to be medically indicated by the provider, by responses to a lead poisoning verbal risk assessment, or in response to parent/responsible person's concerns. Additional

Screening for children under 6 years of age is based on the child's risk as determined by either the member's residential zip code or presence of other known risk-factors.

9. Health education, counseling, and chronic disease self-management.

10. Oral Health Screening

    a. Appropriate oral health Screening, intended to identify oral pathology, including tooth decay and/or oral lesions, and the application of fluoride varnish conducted by a physician, physician's assistant, or nurse practitioner.

    b. Fluoride varnish is limited in a primary care provider's office to 1 every 6 months, during an EPSDT visit for children who have reached 6 months of age with at least 1 tooth erupted, with recurrent applications up to 2 years of age.

11. Appropriate vision, hearing, and speech Screenings

a. EPSDT covers eye examinations as appropriate to age per the AHCCCS EPSDT Periodicity Schedule and as medically necessary using standardized visual tools.

b. Ocular photo screening with interpretation and report, bilateral is covered for children ages three through 6 as part of the EPSDT visit due to challenges with a child's ability to cooperate with traditional chart-based vision Screening techniques. Ocular photo screening is limited to a lifetime coverage limit of 1.

c. Automated visual Screening is for vision Screening only, and not recommended for or covered when used to determine visual acuity for purposes of prescribing glasses or other corrective devices.

d. Prescriptive lenses and frames are provided to correct or ameliorate defects, physical illness, and conditions discovered by EPSDT Screenings, subject to medical necessity. Frames for eyeglasses are also covered.

12. Tuberculosis (TB) Screening

a. Tuberculin skin testing as appropriate to age and risk.

b. Confirmed or suspected as having TB,

c. In jail or prison during the last 5 years,

d. Living in a household with an HIV-infected individual or the child is infected with HIV, and/or

e. Traveling/immigrating from or having significant contact with individuals indigenous to endemic countries.

B. Sick Visit Performed in Addition to an EPSDT

A “sick visit” can be performed at the same time as an EPSDT visit:

1. An abnormality is encountered, or a preexisting problem is addressed in the process of performing an EPSDT service and the problem or abnormality is significant enough to require additional work to perform the key components of a problem-oriented Evaluation Management service, and.

2. The “sick visit” is documented on a separate note.

3. History, exam, and member/responsible person components of the separate “sick visit” already performed during an EPSDT visit are not to be considered when determining the level of the additional services. An insignificant or trivial

problem/abnormality that is encountered in the process of performing the preventive medicine evaluation and management service, and which does not require additional work and the performance of the key components of a problem-oriented E/M service is included in the EPSDT visit and should not be reported.

C. AdSS Specific Requirements

For AdSS specific requirements, see AdSS Medical Policy 430.

D. Requirements for the EPSDT Program Plan Checklist

The Division and AdSS shall have a written EPSDT Program Plan Checklist that addresses minimum requirements. For AdSS specific requirements, see AdSS Medical Policy 430.

1. Provider Requirements

   EPSDT services shall be provided according to community standards of practice and Division rules and policies including the AHCCCS EPSDT and Dental Periodicity Schedules. Providers shall refer members for follow-up, diagnosis, and treatment. Treatment is to be initiated within 60 days of screening services.

a. Providers are required to provide health counseling/education at initial and follow-up visits.

b. Refer to the specific AdSS for managed care members and to the Division for Tribal Health Plan (THP) members, regarding (Prior Authorization) PA requirements.

c. A PCP referral is not required for Naturopathic services.

2. Additionally, providers shall adhere to the below specific standards and requirements for the following covered services, see AdSS Medical Policy 430:

a. Breastfeeding Support

b. Immunizations

c. Blood Lead Screening

d. Organ and Tissue Transplantation Services

Refer to AMPM Policy 310-DD for information regarding AHCCCS-covered transplants.

e. Metabolic Medical Foods

If a Division member has a congenital metabolic disorder identified through the Bloodspot Newborn Screening Panel (such as Phenylketonuria, Homocystinuria, Maple Syrup Urine Disease, or Galactosemia), refer to AMPM Policy 310-GG.

f. Nutritional Therapy

i. The Division covers nutritional therapy for EPSDT members on an Enteral Nutrition, TPN Therapy, or oral basis when determined medically necessary to provide either complete daily dietary requirements, or to supplement a member's daily nutritional and caloric intake.

ii. PA is required from the AdSS or Tribal ALTCS Case Manager or The Division for Tribal Health Plan (THP) members for Commercial Oral Supplemental Nutrition, unless the member is also currently receiving nutrition through Enteral Nutrition or TPN Therapy.

g. Oral Health Services

As part of the physical examination, the physician, physician's assistant, or nurse practitioner shall perform an oral health Screening. A Screening is intended to identify gross dental or oral lesions but is not a thorough clinical examination and does not involve making a clinical diagnosis resulting in a treatment plan. Referral to a dentist or dental home shall be made as outlined in policy, see AMPM Policy 431.

h. Cochlear and Osseointegrated Implantation

i. Cochlear implantation

j. Conscious Sedation

The Division covers conscious sedation for members receiving EPSDT services.

k. Behavioral Health Services

The Division covers behavioral health services for members eligible for EPSDT services as described in Contract and Policy. EPSDT behavioral health services include the services necessary to correct or ameliorate

mental illnesses and conditions discovered by the Screening services.

For the diagnosis of behavioral health conditions including, but not limited to Attention Deficit Disorder/Attention Deficit Hyperactivity Disorder (ADD/ADHD), depression (including postnatal depression), and/or anxiety disorders, there are clinical guidelines that include assessment tools and algorithms. If allowable within their scope of practice, the clinical guidelines are to be used by PCPs as an aid in treatment decisions.

l. Religious Non-Medical Health Care Institution Services

The Division covers religious non-medical health care institution services for members eligible for EPSDT services as specified in AMPM Policy 1210.

m. Care Management Services

The Division covers care management services for both physical and behavioral health care, as appropriate for members eligible for EPSDT services. In EPSDT, care management involves identifying the health needs of a

child, ensuring necessary referrals are made, maintaining health history, and initiating further evaluation/diagnosis and treatment when necessary.

n. Chiropractic Services

The Division covers chiropractic services to members eligible for EPSDT services, when ordered by the member's PCP and approved by the AdSS to ameliorate the member's medical condition.

o. Personal Care Services

The Division covers personal care services, as appropriate, for members eligible for EPSDT services.

p. Incontinence Briefs

q. Medically Necessary Therapies

The Division covers medically necessary therapies including physical therapy, occupational therapy, and speech therapy, necessary to correct or ameliorate defects, physical and mental illnesses, and conditions discovered by the Screening services. Therapies are

covered under both an inpatient and outpatient basis when medically necessary.

E. AdSS Oversight and Monitoring

At least quarterly, the Division meets with the AdSS to provide ongoing evaluation including data analysis and recommendations to refine processes, identify successful interventions and care pathways to optimize results. On an annual basis, the Division performs an Operational Review of the AdSS that includes review of compliance.

431 DENTAL/ORAL HEALTH SERVICES FOR EPSDT ELIGIBLE MEMBERS

REVISION DATE: 2/7/2024, 6/8/2022, 10/1/2021
REVIEW DATE: 7/26/2023
EFFECTIVE DATE: November 22, 2017
REFERENCES: 42 U.S.C. 1396d(a), 9 A.A.C. 22, Article 2; A.R.S. §36.-551, A.R.S. § 14-5101; AMPM 431 Attachment B, AMPM Policy 430 Attachment A, AMPM Policy 431 Attachment A

PURPOSE

This policy establishes requirements for dental/oral health care for Members under 21 years of age who are eligible for Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) services.

DEFINITIONS

1. "Dental Home" means the ongoing relationship between the dentist and the member, inclusive of all aspects of oral healthcare delivered in a comprehensive, continuously accessible, coordinated, and family-centered way. The dental home should be established no later than 12 months of age to help children and their families institute a lifetime of good oral health. A dental home addresses anticipatory guidance and preventive, acute, and comprehensive oral health care and

includes referral to dental specialists when appropriate. [American Academy of Pediatric Dentistry (AAPD)].

2. "Dental Provider" means an individual licensed as specified in A.R.S. Title 32, Chapter 11, whose scope of practice allows the individual to:
   a. Independently engage in the practice of dentistry as specified in A.R.S. § 32-1202,
   b. A dentist as specified in A.R.S. § 32-1201,
   c. A dental therapist as specified in A.R.S. § 32-1201,
   d. A dental hygienist as specified in A.R.S. § 32-1201, or
   e. An affiliated practice dental hygienist as specified in A.R.S. § 32-1201.
3. "Early and Periodic Screening, Diagnostic and Treatment" or "EPSDT" means a comprehensive child health program of prevention, treatment, correction, and improvement of physical and behavioral health conditions for AHCCCS members under the age of 21. EPSDT services include screening services, vision services, dental services, hearing services and all other medically necessary mandatory and optional services listed in Federal Law

42 U.S.C. 1396d(a) to correct or ameliorate defects and physical and mental illnesses and conditions identified in an EPSDT screening whether or not the services are covered under the AHCCCS State Plan. Limitations and exclusions, other than the requirement for medical necessity and cost effectiveness, do not apply to EPSDT services.

4. "Informed Consent" means an agreement to receive physical or behavioral health services following the presentation of facts necessary to form the basis of an intelligent consent by the Member or Responsible Person with no minimization of known dangers of any procedures.
5. "Medically Necessary" means a covered service provided by a physician or other licensed practitioner of the health arts within the scope of practice under State law to prevent disease, disability or other adverse conditions or their progression, or to prolong life as specified in A.A.C. R9-22-101.
6. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

7. "Primary Care Provider" or "PCP" means an individual who meets the requirements as specified in A.R.S. § 36-2901, and who is responsible for the management of the member's health care. A PCP may be a physician defined as an individual licensed as an allopathic or osteopathic physician as specified in A.R.S. Title 32, Chapter 13 or Chapter 17, or a practitioner defined as a physician assistant licensed as specified in A.R.S. Title 32, Chapter 25, or a certified nurse practitioner licensed as specified in A.R.S. Title 32, Chapter 15, or a naturopathic physician for AHCCCS members under the age of 21 receiving EPSDT services. The PCP shall be an individual, not a group or association of individuals, such as a clinic.
8. "Provider" means a person, institution, or group engaged in the delivery of services, or ordering and referring those services, who has an agreement with AHCCCS to provide services to AHCCCS members.
9. "Referral" means a verbal, written, telephonic, electronic, or in-person request for health services.

10. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a client or an applicant for whom no guardian has been appointed as defined in A.R.S. §36.-551
11. "Screening" means the regularly scheduled examinations and evaluations of the general physical and behavioral health, growth, development, and nutritional status of infants, children, and adolescents, and the identification of those in need of more definitive evaluation. For the purpose of the AHCCCS EPSDT program, screening and diagnosis are not synonymous.
12. "Treatment Plan" means a written plan of services and therapeutic interventions based on a complete assessment of a Member's developmental and health status, strengths and needs that are designed and periodically updated by the multi-specialty, interdisciplinary team.

POLICY

A. GENERAL REQUIREMENTS

1. The Division shall require an oral health screening to be conducted by a PCP as part of an EPSDT screening.
2. The Division shall require oral health screenings as part of the physical examination are performed by a:
    a. Physician,
    b. Physician's assistant, or
    c. Nurse practitioner.
3. The Division shall require PCPs to refer EPSDT Members for appropriate services based on needs identified through the screening process and for routine oral health care based on the AHCCCS EPSDT Periodicity Schedule.
4. The Division shall require the Referral be documented on the EPSDT Clinical Sample Template as specified in AMPM Policy 430, Attachment E and in the Member's medical record.
5. The Division shall require one of the following Referrals to a dental provider to be made depending on the results of the oral health screening:
    a. Urgent referrals as expeditiously as the Member's health condition requires, but no later than 3 days of request;

b. Routine referrals within 45 calendar days of request; or

c. Within 30 calendar days of request for the Department of Child Safety (DCS) Comprehensive Health Plan (CHP) only.

6. The Division shall require reimbursement for PCPs who have completed the AHCCCS-required training for fluoride varnish applications completed at the EPSDT visits for Members as early as six months of age with at least one tooth eruption.

7. The Division shall require reimbursement for PCPs according to AHCCCS-approved fee schedules for additional fluoride applications occurring every three months during an EPSDT visit, up until the member's fifth birthday.

8. The Division shall require that PCPs are notified that application of fluoride varnish by the PCP does not take the place of an oral health visit.

9. The Division shall require providers to submit a copy of their certificate upon completion of the required training prior to payment being issued for PCP-applied fluoride varnish.

B. DENTAL HOME

1. The Division shall require that the Dental Home provides:

a. Comprehensive oral health care including acute care and preventive services in accordance with AMPM 431 Attachment A;

b. Comprehensive assessment for oral diseases and conditions;

c. Individualized preventive oral health program based upon a caries-risk assessment and a periodontal disease risk assessment;

d. Anticipatory guidance about the following growth and development issues:

   i. Teething,

   ii. Digit,

   iii. Pacifier habits, or

   iv. Similar issues.

e. A plan for acute dental/oral trauma;

f. Information about proper care of the child's teeth and gingiva, including the prevention, diagnosis, and treatment of disease of the supporting and surrounding tissues and

the maintenance of health, function, and esthetics of those structures and tissues;

g. Dietary counseling; and

h. Referrals to dental specialists when care cannot directly be provided within the Dental Home.

2. The Division shall require THP Members be referred by a PCP to a Dental Provider by one year of age or upon enrollment.
3. The Division shall require Members enrolled with an AdSS are assigned a dental home by six months of age or upon enrollment, and seen by a Dental Provider for routine preventative care according to the AMPM 431 Attachment A.
4. The Division shall require PCPs to refer Members with identified additional oral health care concerns to a Dental Provider for evaluation or treatment.
5. The Division shall require PCPs are informed to refer EPSDT Members for a dental/oral health assessment at an earlier age, if their oral health screening reveals potential carious lesions or other conditions requiring assessment or treatment by a Dental Provider.

6. The Division shall require EPSDT Members are informed that they are allowed to self-refer to a Dental Provider who is included in the AdSS provider network.
7. The Division shall allow THP Members to self-refer to any AHCCCS registered Dental Provider.

C. COVERED SERVICES

1. The Division shall require the following EPSDT dental/oral health services are covered:
    a. Emergency dental/oral services including:
        i. Treatment for pain, infection, swelling or injury;
        ii. Extraction of:
            a) Symptomatic, infected, and non-restorable primary and permanent teeth, and
            b) Retained primary teeth.
        iii. General anesthesia, conscious sedation, or anxiolysis sedation where Members respond normally to verbal commands, when local anesthesia is contraindicated or when management of the member requires it, as specified in AMPM 430.

b. Preventive dental/oral health services provided as specified in AMPM Policy 431, Attachment A:

i. Diagnostic services including the following comprehensive and periodic examinations:

a) Two oral examinations, and two oral prophylaxis and fluoride treatments per Member per year for Members up to 21 years of age;

b) Fluoride varnish four times a year for Members up to five years of age; and

c) Additional examinations or treatments deemed Medically Necessary through the AdSS Prior Authorization process.

ii. Radiology services screening for diagnosis of dental abnormalities or pathology, including:

a) Panoramic or full-mouth x-rays;

b) Supplemental bitewing x-rays; and

c) Occlusal or periapical films, as medically necessary and following the recommendations

by the American Academy of Pediatric Dentistry.

iii. Panorex films as recommended by the American Academy of Pediatric Dentistry, up to three times maximum per provider for children between the ages of three to 20. Further panorex films needed above this limit shall be deemed Medically Necessary through the AdSS PA process;

iv. The following preventive services:

a) Oral prophylaxis performed by a Dental Provider that includes self-care oral hygiene instructions to Member, if able, or to the Responsible Person;

b) Application of topical fluorides and fluoride varnish with the exception of a prophylaxis paste containing fluoride or fluoride mouth rinses;

c) Dental sealants for first and second molars are covered twice per first or second molar, per

provider or location, allowing for three years intervention between applications up to 15 years of age which includes the ADHS school-based dental sealant program and the participating providers;

d) Additional applications deemed medically necessary and require prior authorization (PA); and

e) Space maintainers when posterior primary teeth are lost and when deemed medically necessary through the AdSS PA or AHCCCS PA for THP Members.

c. All of the following, although potentially subject to a PA as specified in the AdSS Dental Provider Manuals, when they are considered Medically Necessary and cost effective:

i. Periodontal procedures, scaling and root planing, curettage, gingivectomy, and osseous surgery;

ii. Crowns;

iii. Endodontic services including pulp therapy for permanent and primary teeth, except third molars unless a third molar is functioning in place of a missing molar;

iv. Restoration of carious permanent and primary teeth with accepted dental materials other than cast or porcelain restorations unless the member is 18 to 21 years of age and has had endodontic treatment;

v. Restorations of anterior teeth for children under the age of five, when medically necessary;

vi. Extraction for children five years and over, with primary anterior tooth decay if presenting with pain or severely broken-down tooth structure, or be considered for observation until the point of exfoliation as determined by the Dental Provider;

vii. Removable dental prosthetics, including complete dentures and removable partial dentures when Medically Necessary;

viii. Orthodontic services and orthognathic surgery, when these services are Medically Necessary to treat a handicapping malocclusion, and are determined to be the primary treatment of choice or an essential part of an overall treatment plan developed by both the PCP and the Dental Provider in consultation with each other.

ix. Conditions that require the following orthodontic treatment:

a) Congenital craniofacial or dentofacial malformations requiring reconstructive surgical correction in addition to orthodontic services;

b) Trauma requiring surgical treatment in addition to orthodontic services;

c) Skeletal discrepancy involving maxillary or mandibular structures; or

d) Other severe orthodontic malformations that meet PA criteria.

2. The Division shall not cover services or items furnished solely for cosmetic purposes.

D. PROVIDER REQUIREMENTS

1. The Division shall require that dental/oral health services are provided by AHCCCS-registered Dental Providers.
2. The Division shall require a written Informed Consent for examination or any preventative treatment measure, excluding irreversible or invasive procedure, is completed at the time of initial examination and is updated at each subsequent six months follow-up appointment.
3. The Division shall require a separate written consent is completed for any irreversible or invasive procedure.
4. The Division shall require all Dental Providers review and sign a written Treatment Plan with the Member or Responsible Person receiving a copy of the complete Treatment Plan.
5. The Division shall require all Dental Providers complete the appropriate Informed Consents and Treatment Plans for Division Members in order to provide quality and consistent care in a

manner that protects and is easily understood by the Member or Responsible Person.

6. The Division shall require consents and Treatment Plans are in writing, signed and dated by both the Dental Provider and the Member or Responsible person, if:
   a. The Member is under 18 years of age, or
   b. The Member is 18 years of age or older and considered an incapacitated person as defined in A.R.S. § 14-5101.
7. The Division shall require Dental Providers maintain completed consents and Treatment Plans in the Member's chart which are subject to audit.

E. ADSS REQUIREMENTS

The Division shall ensure the AdSS meets the requirements specified in AdSS Medical Policy 431.

F. REQUIREMENTS FOR THE DENTAL ANNUAL PLAN

1. The Division shall have a written Dental Annual Plan that:
   a. Addresses minimum requirements as specified in this policy;

b. Addresses the objectives of the Division and AdSS programs that are focused on achieving Division requirements; and

c. Incorporate monitoring and evaluation activities for these minimum requirements as outlined in AMPM 431 – Attachment B.

2. The Division shall submit the Dental Annual Plan no later than July 31st to the Division's Dental Director through the Compliance Unit for review and approval.

3. The Division shall require the following is contained in the written Dental Annual Plan:

a. Narrative Plan that includes:

i. A written narrative description of all planned dental activities to address the Division and AdSS minimum requirements for dental/oral health services, as specified in this policy;

ii. A narrative description of the AdSS activities to identify Member needs and coordination of care; and

iii. Follow-up activities to ensure appropriate treatment is received in a timely manner.

b. Dental Work Plan Evaluation of the previous year's Work Plan to determine the effectiveness of strategies, interventions, and activities used toward meeting stated objectives;

c. Dental Work Plan that includes:

i. Specific measurable objectives based on AHCCCS established Performance Measure Performance Standards (PMPS) as adopted by the Division;

ii. Strategies and specific measurable interventions to accomplish the following objectives:

a) Member outreach,

b) Provider education, and

c) Provider compliance with mandatory components of the Dental Program.

d. Targeted implementation and completion dates of work plan activities;

e. Assigned local staff positions responsible and accountable for meeting each established goal and objective;

f. Identification and implementation of new interventions, continuation of or modification to existing interventions, based on analysis of the previous year's Work Plan Evaluation; and

g. Relevant policies and procedures, referenced in the Dental Annual Plan, submitted as separate attachments.

F. AFFILIATED PRACTICE DENTAL HYGIENIST

1. The Division shall require the following in addition to the requirements as specified in A.R.S. §§ 32-1281 and 32-1289:

   a. Both the dental hygienist and the dentist in the affiliated practice relationship are registered AHCCCS providers;

   b. The affiliated practice dental hygienist maintains individual patient records of the following for Division Members in accordance with the Arizona State Dental Practice Act:

      i. Member identification,

      ii. Responsible Person identification,

      iii. Signed authorization for services,

iv. Patient medical history, and

v. Documentation of services rendered.

c. The affiliated practice dental hygienist registers with AHCCCS and is identified as the treating Dental Provider under his or her individual AHCCCS Provider identification number or National Provider Identification (NPI) number;

d. The affiliated practice dental hygienist and the dentist with whom he or she is affiliated is a credentialed network provider if the services are to be billed to an AdSS;

e. The affiliated practice dental hygienist is identified as the treating Dental Provider under their individual AHCCCS provider identification number or NPI number when practicing under an affiliated practice agreement;

f. The affiliated practice dental hygienist will only be reimbursed for providing services in accordance with:

i. State statute and regulations;

ii. AHCCCS policy;

iii. Division policy;

iv. Provider agreement; and

v. Affiliated practice agreement.

g. Affiliated practice dental hygienists provide documentation of the affiliation practice agreement with an AHCCCS registered dentist that is recognized by the dental board confirming the affiliation agreement.

h. Reimbursement for dental radiographs is restricted to Dental Providers who are qualified to perform both the exposure and the interpretation of dental radiographs.

G. AdSS OVERSIGHT AND MONITORING

The Division shall refer to Division Operations 438 for monitoring and oversight responsibilities of the AdSS.

SUPPLEMENTAL INFORMATION

A Screening is intended to identify gross dental or oral lesions, but it is not a thorough clinical examination and does not involve making a clinical diagnosis resulting in a treatment plan. The oral health screening does not substitute for examination through direct Referral to a dental Provider.

AHCCCS-recommended training for fluoride varnish application is located on the Smiles for Life oral health website, https://www.aap.org/en/patient-care/oral-health/oral-health-education-and-training/
Refer to the website for training that covers caries-risk assessment, fluoride varnish, and counseling.

Crowns:
Stainless-steel crowns are used for both primary and permanent posterior teeth when appropriate.
Composite, prefabricated stainless steel crowns with a resin window or crowns with esthetic coatings should be used for anterior primary teeth.

Precious or cast semi-precious crowns may be used on functional permanent endodontically treated teeth, except third molars, for Members who are 18 to 21 years of age.

Certificate may be used in the credentialing process to verify completion of training necessary for reimbursement.

In cases where the Performance Measure Performance Standards have been met, other generally accepted benchmarks that continue the AdSS improvement efforts will be used (e.g., National Committee on Quality Assurance, Healthy People 2020 standards).

Dental work plan includes specific measurable goals and objectives aimed at enhancing the Dental Program when the PMPS have been met.

510 PRIMARY CARE PROVIDERS

REVISION DATE: 4/17/2024, 9/6/2023
REVIEW DATE: 5/10/2023
EFFECTIVE DATE: May 13, 2016
REFERENCES: AMPM 510

PURPOSE

This policy outlines the requirements applicable to the Division of Developmental Disabilities (Division) regarding Primary Care Providers participating in Arizona Health Care Cost Containment System (AHCCCS) programs.

DEFINITIONS

1. "Business Days" means 8:00 a.m. to 5:00 p.m., Monday through Friday, excluding holidays listed in A.R.S. §1-301.
2. "Early and Periodic Screening, Diagnostic and Treatment" or "EPSDT" means a comprehensive child health program of prevention, treatment, correction, and improvement of physical and behavioral health conditions for Members under the age of 21. EPSDT services include:
    a. Screening services,

b. Vision services,

c. Dental services,

d. Hearing services, and

e. All other medically necessary mandatory and optional services listed in Federal Law 42 U.S.C. 1396d(a) to correct or ameliorate defects and physical and mental illnesses and conditions identified in an EPSDT screening whether or not the services are covered under the AHCCCS State Plan. Limitations and exclusions, other than the requirement for medical necessity and cost effectiveness, do not apply to EPSDT services.

3. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

4. "Non-Contracting Provider" means an individual or entity that provides services as prescribed in A.R.S. § 36-2901 who does not have a subcontract with an AHCCCS Contractor.

5. "Primary Care Provider" or "PCP" means a person who is responsible for the management of the member's health care. A PCP may be a:

a. Person licensed as an allopathic or osteopathic physician,

b. Practitioner defined as a licensed physician assistant, or

c. Certified nurse practitioner.

6. "Provider" means any individual or entity that is engaged in the delivery of services, or ordering or referring for those services, and is legally authorized to do so by the State in which it delivers the services, as specified in 42 CFR 457.10 and 42 CFR 438.2.

7. "Resident Physician" means doctors who have graduated from medical school and are completing their residency in a specialty.

8. "Teaching Physician" means a physician other than another Resident Physician who involves residents in the care of his or her patients.

POLICY

A. PRIMARY CARE PROVIDER AND RESPONSIBILITIES

The Division shall ensure that PCPs are:

a. Providing initial and primary care services to assigned Members;

b. Initiating, supervising, and coordinating referrals for specialty care and inpatient services;

c. Maintaining continuity of Member care; and

d. Maintaining the Member's medical record as specified in AHCCCS Medical Policy Manual (AMPM) 940.

B. PROVISION OF INITIAL AND PRIMARY CARE SERVICES

1. The Division shall require PCPs to provide the following covered preventive and primary care services to Members:
   a. Health screenings,
   b. Routine illness,
   c. Maternity services if applicable,
   d. Immunizations, and
   e. EPSDT services.
2. The Division shall ensure that all Members under the age of 21 receive health screening and services to correct or ameliorate defects or physical and behavioral illnesses or conditions identified in an EPSDT screening as specified in AMPM Policy 430.
3. The Division shall ensure that Members 21 years of age and over receive health screening and medically necessary treatment as specified in AMPM Chapter 300.

C. BEHAVIORAL HEALTH SERVICES PROVIDED BY THE PRIMARY CARE PROVIDER

1. The Division shall cover medically necessary, cost-effective, Federal and State reimbursable behavioral health services provided by a PCP within their scope of practice.
2. The Division shall require that PCPs obtain prior authorization for antipsychotic class of medications if required, to include monitoring and adjusting behavioral health medication as specified in AMPM 310-V.
3. The Division shall require PCPs to coordinate and collaborate with behavioral health providers.

D. PRIMARY CARE COORDINATION RESPONSIBILITIES

1. The Division shall require PCPs in their care coordination role, serve as a referral agent for specialty and referral treatment, and services for physical or behavioral health services as needed for Members.
2. The Division shall require PCPs to meet the following coordination responsibilities:

a. Referring Members to Providers or hospitals within the AdSS network or AHCCCS registered Providers for Tribal Health Program (THP) Members;

b. Referring Members to Non-Contracting specialty Providers and non-contracting community benefit organizations if necessary;

c. Coordinating services with the Division with the following entities for THP Members:

   i. AHCCCS Division of Fee-For-Service Management (DFSM) for care coordination for physical and behavioral health prior authorizations; and

   ii. THP Members enrolled with the Tribal Regional Behavioral Health Authority (TRBHA) for behavioral health; and

   iii. American Indian Medical Home (AIMH) for coordination of physical and behavioral health services for American Indian Health Program (AIHP) Members enrolled with an AIMH, to include coordination with TRBHAs when applicable.

d. Coordinating when applicable with a Member's:

i. AdSS care manager, including maternity;

ii. Provider case manager;

iii. Division Support Coordinator;

iv. Division Behavioral Health Complex Care Team;

v. Behavioral Health Provider; and

vi. Division Nurses.

e. Conducting or coordinating follow-up for referral services that are rendered to their assigned Members by:

i. Other Providers,

ii. Specialty Providers, or

iii. Hospitals.

f. Coordinating the following medical care of Members:

i. Oversight of medication regimens to minimize side effects or drug interactions;

ii. Follow-up for all emergency services;

iii. Coordination of discharge planning post inpatient admission;

iv. Home visits if medically necessary;

v. Member education;

vi. Preventative health services;

vii. Screening and referral for health-related social needs;

viii. Coordination of the following services:

a) Specialty Providers;

b) Laboratory and Diagnostic Testing;

c) Behavioral health services;

d) Dental services;

e) Therapies including:

1) Occupational,

2) Physical, and

3) Speech language pathology.

f) Durable Medical Equipment;

g) Home health;

h) Palliative care; and

i) Hospice care.

ix. Oversight that care rendered by specialty Providers is appropriate and consistent with each Member's health care needs, and

x. Maintaining records of services provided by physical and behavioral health specialty Providers or hospitals.

g. Coordinating care for behavioral health medication management to include:

i. Require and ensure coordination of referral to the behavioral health Provider when a PCP has initiated medication management services for a Member to treat a behavioral health disorder, and it is subsequently determined by the PCP that the Member should be referred to a behavioral health Provider for evaluation or continued medication management.

ii. Policies and procedures that address the following:

a) Guidelines for PCP initiation and coordination of a referral to a behavioral health Provider for medication management;

b) Guidelines for transfer of a Member with a Serious Mental Illness (SMI) or Serious Emotional Disturbance (SED) designation for ongoing treatment coordination, as applicable;

c) Protocols for notifying entities of the Member's transfer, including:

    1) Reason for transfer,

    2) Diagnostic information, and

    3) Medication history.

d) Protocols and guidelines for the transfer or sharing of medical records information and protocols for responding to requests for additional medical record information;

e) Protocols for transition of prescription services, including:

1) Notification to the appropriate Providers of the Member's current medications and timeframes for dispensing and refilling medications during the transition period,
2) Ensuring that the Member does not run out of prescribed medication prior to the first appointment with the behavioral health Provider, allowing for at least a minimum of 90 days transition between Providers,
3) Forwarding all medical information, including the reason for transfer to the behavioral health Provider prior to the Member's first scheduled appointment.

f) AdSS monitoring activities to ensure that Members are appropriately transitioned for care and receive the services they are referred for.

E. PRIMARY CARE PROVIDER ASSIGNMENT AND APPOINTMENT STANDARDS

1. The Division shall require the AdSS to assign newly enrolled Members to a PCP.
2. The Division shall require the AdSS to notify Members within 12 Business Days of the enrollment notification.
3. The Division shall require that AHCCCS-registered contracted PCPs receive an AHCCCS Provider ID number.
4. The Division shall require the AdSS maintain a current file of Member PCP assignments to facilitate continuity of care, control utilization, and obtain encounter data.
5. The Division shall require the AdSS to make PCP assignment rosters and clinical information regarding Member's health and medications, including behavioral health providers, available to the assigned PCP within 10 Business Days of a Provider's request as specified in ACOM Policy 416.
6. The Division shall allow Members to choose PCPs available within the AdSS network.

7. The Division shall require the AdSS to automatically assign the Member to a PCP if the Member does not select one.
8. The Division shall allow Members to choose an AHCCCS registered PCP if the Member is enrolled with THP.
9. The Division shall monitor that PCPs provide Members with available and accessible services within the time frames specified in ACOM Policy 417.
10. The Division shall require that the AdSS provide information to the Member on how to contact the Member's assigned PCP.
11. The Division shall require that the AdSS assigns pregnant Members to a qualified physician and are receiving appropriate care as specified in AMPM Policy 410.
12. The Division shall require the AdSS assigns Members who are age 12 and younger and who have complex medical conditions to board certified pediatricians.
13. The Division shall require the AdSS to assign Members to Providers participating in value-based purchasing initiatives who have demonstrated high value services or improved outcomes.

F. REFERRALS AND APPOINTMENT STANDARDS FOR SPECIALITY CARE

The Division shall require that the AdSS oversee appropriate availability and monitoring of health care services and if required, referrals are in place.

G. PHYSICIAN ASSISTANT (PA) AND NURSE PRACTITIONER (NP) VISITS IN A NURSING FACILITY

The Division shall cover initial and any subsequent visits to a Member in a nursing facility made by a PA or NP when all of the following criteria are met:

a. The PA or NP is not an employee of the facility, and

b. The source of payment for the nursing facility stay is Medicaid.

H. AdSS MONITORING AND OVERSIGHT

1. The Division shall meet with the AdSS at least quarterly to:

   a. Provide ongoing evaluation including data analysis and recommendations to refine processes; and

   b. Identify successful interventions and care pathways to optimize results.

2. The Division shall perform an Operational Review of the AdSS on an annual basis that includes review of compliance.

520 MEMBER TRANSITIONS

REVISION DATE: 03/01/2023
EFFECTIVE DATE: April 1, 2016
REFERENCES: A.R.S. §§36-2931, 36-2901.01 and 36-2981; 42 CFR 431.300, 438.62, 440.70, 457.1216; AMPM 280, AdSS Medical Manual Policy 540, ACOM Policy 402, Division Operations Policy 406

PURPOSE

This policy establishes requirements applicable to the Division of Developmental Disabilities (Division) to identify and facilitate Member transitions between the Administrative Services Subcontractors (AdSS), the Division and other AHCCCS contractors and the Division's oversight of the AdSS.

DEFINITIONS

1. "Enrollment Transition Information" or "ETI" means Member specific information the Relinquishing Contractor must complete and transmit to the Receiving Contractor or Fee-For-Service (FFS) program for those members requiring coordination of services as a result of transitioning to another contractor or FFS program.

2. "Medical Equipment and Appliances" means an item as specified in 42 CFR 440.70, that is not a prosthetic or orthotic; and
   a. Can withstand repeated use, and
   b. Can be reusable by others or is removable.
3. "Member" means an eligible individual who is enrolled in AHCCCS, as specified in A.R.S. §36-2931, §36-2901.01 and A.R.S.§36-2981.
4. "Member Transition" is the process during which members change from one contractor or Fee-for-Service program to another.
5. "Receiving Contractor" is the contractor with which the Member will become enrolled as a result of Annual Enrollment Choice (AEC), open enrollment, a contractor change or a change in eligibility.
6. "Relinquishing Contractor" is the contractor from which the Member will be leaving as a result of AEC, open enrollment, a contractor change or a change in eligibility.
7. "Special Health Care Needs" or "SHCN" means serious and chronic physical, developmental, or behavioral conditions

requiring medically necessary health and related services of a type or amount beyond that required by Members generally; that lasts or is expected to last one year or longer and may require ongoing care not generally provided by a Primary Care Provider (PCP). All Division members are designated as individuals with Special Health Care Needs.

POLICY

A. MEMBER TRANSITIONS

1. The Division shall identify and facilitate coordination of care for all members eligible for Arizona Long Term Care System (ALTCS) during:
   a. Changes or transitions between health plans,
   b. Changes in service areas, or
   c. Changes in health care providers as specified in AMPM 520.
2. The Division shall work collaboratively with Members with special circumstances which may require additional or distinctive assistance during a period of transition such as:
   a. Pregnancy;

b. Major organ or tissue transplantation services which are in process;

c. Chronic illness, which has placed the Member in a high-risk category and/or resulted in hospitalization or placement in nursing, or other facilities;

d. Significant medical or behavioral health conditions that require ongoing specialist care and appointments;

e. Chemotherapy and/or radiation therapy;

f. Dialysis;

g. Hospitalization at the time of transition;

h. Members with the following ongoing health needs:

i. Durable Medical Equipment, including ventilators and other respiratory assistance equipment;

ii. Home health services;

iii. Medically necessary transportation on a scheduled basis;

iv. Prescription medications; or

v. Plan management services.

i. Members who frequently contact AHCCCS, State and local officials, the Governor's Office and/or the media;

j. Members with qualifying Children's Rehabilitation Services (CRS) conditions or are transitioning into adulthood;

k. Members diagnosed with Human Immunodeficiency Virus and Acquired Immune Deficiency Syndrome (HIV/AIDS);

l. Members who are being considered for or are actively engaged in a transplant process and for up to one-year post transplant;

m. Members enrolled in the ALTCS program who are elderly and/or have a physical or developmental disability;

n. Members who are engaged in care or services through the Arizona Early Intervention Program (AzEIP);

o. Members who are diagnosed with a Serious Mental Illness (SMI).

p. Any child that has an Early Childhood Service Intensity Instrument/Child and Adolescent Level of Care Utilization System (ECSII/CALOCUS) score of 4+;

q. Members who have a Seriously Emotionally Disturbed (SED) diagnosis flag in the system;

r. Substance exposed newborns and infants diagnosed with Neonatal Abstinence Syndrome (NAS);

s. Members diagnosed with Severe Combined Immunodeficiency (SCID);

t. Members with a diagnosis of autism or who are at risk for autism;

u. Members diagnosed with opioid use disorder, separately tracking pregnant Members and Members with co-occurring pain and opioid use disorder;

v. Members enrolled with the Division of Child Safety/Comprehensive Health Program (CHP);

w. Members who transition out of the CHP up to one-year post transition;

x. Members identified as a High Need/High Cost Member;

y. Members on conditional release from Arizona State Hospital;

z. Other services not indicated in the State Plan for eligible Members but covered by Title XIX and Title XXI for Early and Periodic Screening, Diagnostic and Treatment (EPSDT) eligible Members, including Members whose conditions require ongoing monitoring or screening;

3. At the time of transition, have received prior authorization or approval for:

a. Scheduled elective surgery(ies);

b. Procedures and/or therapies to be provided on dates after their transition, including post-surgical follow-up visits;

c. Sterilization and have a signed sterilization consent form, but are waiting for expiration of the 30 calendar day period;

d. Behavioral health services;

e. Appointments with a specialist located out of the AdSS service area; and

f. Nursing facility admission.

B. NOTIFICATION REQUIREMENTS

1. The Division shall ensure the relinquishing AdSS provides relevant information regarding Members who are transitioning to a receiving AdSS. The Enrollment Transition Information (ETI) Form shall be utilized for the transfer of information for Members with special circumstances who are transitioning enrollment to an AdSS, FFS program or other contractor.
2. The Division shall ensure the relinquishing AdSS completes and electronically transmits the appropriate ETI Form to the Division no later than 10 business days from date of receipt of the AHCCCS notification.
3. The Division shall ensure the relinquishing AdSS covers the Members care for up to 30 calendar days following the identified transition date if the relinquishing AdSS fails to notify the Division of transitioning Members with special circumstances, fails to send the completed ALTCS Enrollment Transition Information (ETI), or AHCCCS AMPM 520 Attachment for non-ALTCS Division Members.

4. The Division shall ensure the transfer of pertinent medical records as well as the timely notification to Members, subcontractors, or other providers during times of transition.
5. The Division shall provide new Members with a Member Handbook, provider directory and emergency numbers as specified in ACOM 406.
6. The Division shall follow-up with the Member to address the needs of the Member identified on the ETI form. Follow-up and care coordination may include support coordination, care management, pharmacy, behavioral health services, and transportation.
7. The Division, in coordination with AHCCCS DFSM, shall extend previously approved prior authorizations for a minimum of 30 calendar days from the date of the Member's transition unless a different time period is mutually agreed to by the Member or Member's representative.

C. COORDINATION ACTIVITIES

1. The Division's transition coordinator shall:

a. Ensure all pertinent Member information is communicated to support coordination to initiate assessment and review of a newly transitioned Member.

b. Collaborate with the Division internal partners, AHCCCS department and/or AdSS for all identified existing authorizations to be extended for up to 90 calendar days, as appropriate. Activities may include continuation of medically necessary covered services during the transition through any of the following:

   i. Contracting on a negotiated rate basis with the Member's current provider(s),

   ii. Negotiating a single Membercontract,

   iii. Assisting Members with referrals to alternate in-network providers.

c. Communicate with support coordination and, if applicable, Division Care Management to coordinate discharge planning with the relinquishing ALTCS or ACC contractor if the Member is hospitalized at the time of the transition.

d. Notify the behavioral health administrator when a Member who is receiving behavioral health services has transitioned between health plans.

e. Work collaboratively with the support coordinator and the AdSS to:

i. Avoid any disruption in care during the transition, enrollment or disenrollment.

ii. Ensure access to appropriate providers, level of care and facilitate resolution of any barriers though the established processes.

1) The support coordinator may request technical assistance from complex care and behavioral health specialists to ensure Members who are medically complex and require intensive physical, and/or behavioral health support services during the transition to avoid any disruption in care.

2. The support coordinator shall work with the Division transition coordinator and AdSS to ensure access to the appropriate level

of care, appropriate providers and facilitate the resolution of any barriers.

D. TRANSITION FROM CHILD TO ADULT SERVICES

1. The Division shall ensure transitions involving co-occurring behavioral and physical health conditions include the following:
    a. Coordination plan between child providers and the anticipated adult providers;
    b. Process that begins no later than when the child reaches the age of 16;
    c. A transition plan for the Member focused on assisting the Member with gaining the necessary skills and knowledge to become a self-sufficient adult within their capabilities and facilitates a seamless transition from child services to adult services;
    d. An SMI eligibility determination that is completed when the adolescent reaches the age of 17, but no later than age 17 and six months; and
    e. A coordination plan to meet the unique needs for Members with special circumstances.

2. The Division shall ensure additional stakeholder, behavioral or physical healthcare entity involved with the child shall be included in the transition process, as applicable.

E. MEMBERS HOSPITALIZED DURING ENROLLMENT CHANGE

1. The Division shall provide a smooth transition of care for Members who are hospitalized on the day of an enrollment change. These provisions shall include processes for the following:
    a. Notification to the receiving AdSS or FFS Program prior to the date of the transition.
    b. Notification to the hospital and attending physician of the transition by the relinquishing AdSS as follows:
        i. Notify the hospital and attending physician of the pending transition prior to the date of the transition,
        ii. Instruct the providers to contact the receiving AdSS or FFS Program for authorization of continued services,
        iii. Cover services rendered to the hospitalized Member for up to 30 calendar days if they fail to provide

notification to the receiving AdSS, hospital, and the attending physician, relative to the transitioning Member.

c. Coverage of the hospital stay by the AdSS in which the Member is enrolled upon discharge per Diagnosis Related Group (DRG).

d. Coordination with providers regarding activities relevant to concurrent review and discharge planning.

F. TRANSITION DURING MAJOR TRANSPLANTATION SERVICES

1. The Division shall ensure Members who have been approved for a major organ or tissue transplant are covered through the relinquishing or receiving AdSS.
2. The Division shall ensure each AdSS covers the respective dates of service if a Member changes to a different AdSS while undergoing transplantation at a transplant center that is not an AHCCCS contracted provider.

G. ENROLLMENT CHANGES FOR MEMBERS RECEIVING OUTPATIENT TREATMENT

1. The Division shall ensure ongoing care of Members with active or chronic health care needs during the transition period.
2. The Division shall ensure timely transition of the Member from the relinquishing PCP to the receiving PCP, in order to maintain continuity of care.
3. The Division shall ensure pregnant women who transition to a new AdSS within the last trimester of their expected date of delivery be allowed the option of continuing to receive services from their established physician and anticipated delivery site through the postpartum visits as specified in AMPM 410.

H. MEDICALLY NECESSARY TRANSPORTATION

1. The Division shall provide information to new Members on what and how medically necessary transportation can be obtained.
2. The Division shall provide information to providers on how to order medically necessary transportation for Members.

I. TRANSITION OF PRESCRIPTION MEDICATION SERVICES

1. The Division shall ensure the relinquishing AdSS:

a. Covers the dispensation of the total prescription amount of either continuing or time-limited medications, if filled before midnight on the last day of enrollment;

b. Does not reduce the quantity of the ordered prescription unless it exceeds a 30-day supply or 100 unit doses; and

c. Provides sufficient continuing medications for up to 15 days after the transition date.

2. The Division shall ensure previously approved prior authorizations are extended for a period of 30 calendar days from the date of the Member's transition unless a different time period is mutually agreed to by the Member or Member's representative.

3. The Division shall ensure Member's transitioning from a Behavioral Health Medical Professional (BHMP) to a PCP for behavioral health medication management shall continue on the medication(s) prescribed by the BHMP until the Member can transition to their PCP.

4. The Division shall coordinate care and ensure the Member has a sufficient supply of behavioral health medications to last through the date of the Member's first appointment with their PCP.

J. DISPOSITION OF MEDICAL EQUIPMENT, APPLIANCES, AND MEDICAL SUPPLIES DURING TRANSITION

1. The AdSS shall ensure the disposition of Medical Equipment, appliances, and supplies during a Member's transition period and develop policies that include the following:
    a. Non-customized Medical Equipment
        i. Relinquishing AdSS shall provide accurate information about Members with ongoing Medical Equipment needs to the receiving AdSS or FFS programs.
    b. Customized Medical Equipment
        i. Customized Medical Equipment purchased for Members by the relinquishing AdSS will remain with the Member after the transition. The purchase cost of the equipment is the responsibility of the relinquishing AdSS.

ii. Customized Medical Equipment ordered by the relinquishing AdSS but delivered after the transition to the receiving AdSS shall be the financial responsibility of the relinquishing AdSS.

iii. Maintenance contracts for customized Medical Equipment purchased for Members by a relinquishing AdSS will transfer with the Member to the new AdSS.

iv. Contract payments due after the transition will be the responsibility of the receiving AdSS, if the receiving AdSS elects to continue the maintenance contract.

c. Augmentative Communication Devices (ACD)

i. A 90-day trial period to determine if the ACD will be effective for the Member, or if it should be replaced with another device.

ii. If a Member Transitions from an AdSS during the 90-day trial period, one of the following shall occur:

1) The device shall remain with the Member if the ACD is proven to be effective. Payment for the

device shall be covered by the relinquishing AdSS.

2) The cost of any maintenance contract necessary for the ACD shall be the responsibility of the receiving AdSS if they elect to continue the maintenance contract.

3) The device shall be returned to the vendor if the ACD is proven to be ineffective. The receiving AdSS shall then coordinate a new device trial and purchase if it is determined to meet the Member's needs.

K. MEDICAL RECORDS TRANSFER

1. The Division shall ensure transition of medical records timely but no later than within 10 business days from receipt of the request for transfer to ensure continuity of Member care during the time of enrollment change as specified in AMPM 940.

L. THERAPEUTIC FOSTER CARE

1. The Division shall work closely with the Department of Child Safety (DCS) and other entities to ensure continuity of care

including access to covered services, treatment and supports, in-network and out-of-network providers as determined by the transition plan for children receiving behavioral health services in out-of-home placement.

a. The Division transition coordinator notifies the Division Behavioral Health Administration and support coordinator of all ALTCS Member transitions between health plans in which Members are receiving behavioral health services, including therapeutic foster care.

b. The Division Behavioral Health Administration provides technical assistance to the support coordinator supervisor to identify circumstances in which the provider is not in the new health plan's network.

c. The Behavioral Health Administration coordinates with the AdSS to ensure continuity of care is maintained for the Member.

M. DIVISION OVERSIGHT RESPONSIBILITIES

1. Health Care Services (HCS) shall review performance data and conduct quarterly meetings with the AdSS to ensure compliance,

evaluate performance, identify opportunities for improvement, make recommendations to refine processes and resolve barriers, identify successful interventions and care pathways to optimize results and improve outcomes.

2. The Division shall review compliance and performance during its annual operational review of the AdSS including performance metrics regarding Member Transitions for children and adults with behavioral health, complex care, and other Special Health Care Needs.

3. The HCS transition coordinator shall report performance metrics regarding Member Transitions to the Medical Management Committee quarterly. These metrics shall include the number of Member Transitions, unresolved barriers or concerns and any recommendations to improve performance.

Signature of Chief Medical Officer: Anthony Dekker (Feb 21, 2023 12:20 MST)

Anthony Dekker, D.O.

530 MEMBER TRANSFERS BETWEEN FACILITIES

REVISION DATE: 4/17/2024, 11/22/2017
REVIEW DATE: 8/18/2023
EFFECTIVE DATE: May 13, 2016
REFERENCES: A.R.S. § 36-2909(B), 42 CFR 422.113, 42 CFR 438.114

PURPOSE

This policy establishes requirements applicable to the Division of Developmental Disabilities (Division) when a Member transitions between facilities.

DEFINITIONS

1. "Emergency" means a serious and unexpected situation requiring immediate action to avoid harm to health, life, property, or environment.
2. "Member" means the same as "Client" as defined in A.R.S. § 36-551.
3. "Primary Hospital" means hospitals that are licensed institutions with at least six beds whose primary function is to provide diagnostic and therapeutic patient services for medical conditions

by an organized physician staff and have continuous nursing services under the supervision of registered nurses.

4. "Secondary Hospital" means hospitals capable of providing the majority of hospital based services, both general medical and surgical, often Obstetrician (OB) and other services, but limited with regards to specialist access.
5. "Tertiary Hospital" means hospitals with access to a broad range of specialists and equipment necessary and usually receiving their patients from a large catchment area and referral base.

POLICY

A. TRANSFER BETWEEN FACILITIES

1. The Division shall require the following criteria are met when a transfer is initiated by the Administrative Services Subcontractors (AdSS) between inpatient hospital facilities following an Emergency hospitalization:
   a. The attending Emergency physician, or the attending provider treating the Member, determines that the Member

is stabilized for transfer and will remain stable for the period of time required for the distance to be traveled;

b. The receiving physician agrees to the Member transfer;

c. Transportation orders are prepared specifying:

i. The type of transport,

ii. Training level of the transport crew, and

iii. Level of life support.

d. A transfer summary accompanies the Member.

2. The Division shall require compliance with Medicaid Managed Care guidelines regarding the coordination of Post Stabilization Care as specified in 42 CFR 438.114 and 42 CFR 422.113.

3. The Division shall require the following criteria are met when a Member transitions to a lower level of care facility:

a. The Member's condition does not require the full capabilities of the transferring facility; or

b. The Member's condition has stabilized or reached a plateau and will not benefit further from intensive intervention in the transferring facility; and

c. The receiving physician agrees to a Member transfer;

d. Transportation orders are prepared specifying the:

i. Type of transport,

ii. Training level of the transport crew, and

iii. Level of life support.

e. A transfer summary accompanies the Member.

4. The Division shall require the following criteria are met when a Member transfers to a higher level of care facility:

a. The transferring hospital cannot provide the level of care needed to manage the Member beyond stabilization required to transport, or cannot provide the required diagnostic evaluation and consultation services needed;

b. The receiving physician agrees to the Member transfer;

c. Transport orders are prepared which specify:

i. The type of transport,

ii. Training level of the transport crew, and

iii. Level of life support. of transport.

d. A transfer summary accompanies the Member.

5. The Division shall require when the transfer is initiated by the AdSS, the attending Emergency physician or the attending

provider treating the Member and the AdSS Medical Director or designee are responsible for determining whether a particular case meets criteria established in this policy.

B. AdSS OVERSIGHT AND MONITORING

The Division shall refer to Division Operations 438 for monitoring and oversight responsibilities of the AdSS.

SUPPLEMENTAL INFORMATION

Transfer to a lower level of care facility (e.g., Tertiary to Secondary or primary, or Secondary to Primary Hospital, or transfer to a skilled nursing facility).

Transfers to a higher level of care facility (e.g., Primary to Secondary or Tertiary, or Secondary to Tertiary Hospital).

Signature of Chief Medical Officer: Anthony Dekker (Apr 9, 2024 13:15 PDT)
Anthony Dekker, D.O.

540 OTHER CARE COORDINATION ISSUES

REVISION DATE: 7/15/2016, 7/3/2015, 10/1/2015, 10/1/2014
EFFECTIVE DATE: July 3, 1993
REFERENCES: A.R.S. §§ 8-546, 15-765, 36-552(C), 36-558(A), 36-560(B); A.A.C. R9-28-509; and, Social Security Act § 1915 (k).

Acute Medical Care

The Support Coordinator, along with Health Care Services (HCS), ensures coordination of care for each member. Each subcontracted health plan has an identified liaison to assist with the coordination of care for Division members enrolled through the Arizona Long Term Care System (ALTCS) program.

The Support Coordinator will:

A. Contact the health plan liaison when a member has a concern related to medical services received or needed from the subcontracted health plan; and,

B. Contact HCS when there are issues that cannot be resolved with the liaisons.

Children's Rehabilitative Services

The Support Coordinator, along with Health Care Services (HCS), ensures coordination of care for each member receiving medical and behavioral health services from Children's Rehabilitative Services (CRS).

The Support Coordinator will:

A. Contact the CRS liaison when a member has a concern related to medical or behavioral health services received or needed from CRS; and,

B. Contact HCS when there are issues that cannot be resolved with the liaison.

Behavioral Health

When the Planning Document indicates a need for behavioral health services, the Support Coordinator shall initiate and coordinate such services with the Regional Behavioral Health Authority (RBHA). Additional information is available on the Arizona Division of Health Services/Division of Behavioral Health Services (ADHS/DBHS) website for each RBHA Provider Manual.

A. Qualified Behavioral Health Professional Consult (QBHP)

The Support Coordinator shall complete an initial consultation and quarterly consultations thereafter with the qualified behavioral health professional for all members receiving/needing behavioral health services. Quarterly consultations are not required for members who are stable on psychotropic medications and are not receiving any other behavioral health services.

B. Behavioral Health Treatment Plan (From RBHA Provider)

The Behavioral Health Treatment Plan from the RBHA Provider becomes part of the Division's Planning Document. The Support Coordinator must include outcomes relevant to a Behavioral Health Treatment Plan on the Division's Planning Document.

C. Child and Family Teams

The Child and Family Team (CFT) is a group of people that include, at a minimum, the child and the family, a behavioral health representative, the Support Coordinator, and any members important in the child's life who are identified and invited to participate by the child and family. The size, scope, and intensity of involvement of the team members are determined by the CFT outcomes, with oversight by the behavioral health representative.

Residential Placements

At the time of placement, the Support Coordinator is responsible for the following:

A. If a member's behaviors pose a danger to residents or staff, the Division will share this information with the parents/ guardians of other residents in the home. The agency director, designee, or Division staff will only provide non-personally identifiable information to the guardian.

B. For a member currently in placement or using out-of-home respite and potentially at risk, the Support Coordinator along with the Individual Support Plan (ISP) team will identify the appropriate person to inform the family of the risk.

In cases of emergency placement, the checklists capturing potential safety concerns for everyone in the home must be available to the guardian/family of the member moving in.

Department of Child Safety

The Support Coordinator is responsible for coordinating services with the Department of Child Safety (DCS) Case Manager when a child eligible for Division services is in the custody of DCS.

Department of Economic Security Vocational Rehabilitation

The Support Coordinator/Employment Specialist is responsible for submitting and coordinating referrals to DES Vocational Rehabilitation for employment related services.

Arizona Department of Education/ Local Education Agency

The Division shall coordinate services with the Arizona Department of Education Local Education Agency (LEA) under three distinct circumstances:

A. When the Division makes an out-of-home placement for educational purposes (A.R.S. §15-765, www.azleg.gov);

B. When the Division makes an out-of-home placement of a member receiving public education for other than educational purposes; and,

C. When a child receiving early intervention services (day treatment and training) from the Division reaches ages two years six months and two years nine months, in order to plan for preschool transition.

Residential Placement for Educational Reasons (A.R.S.§15-765)

A.R.S. § 15-765 allows for residential placements for children for educational reasons. It is not intended to provide long term or permanent residential placements for children. These placements should be for a limited period of time and only for the purpose of accomplishing specific educational goals that promote the child's ability to benefit from a special education program in a less restrictive environment. A.R.S. § 15-765 www.azleg.state.az.us/arizonarevisedstatutes.asp requires that residential placement be made for educational reasons only and not for other issues, such as family matters.

In the event the child may need some level of intervention beyond what is available through the Local Education Agency, a representative from the school should collaborate with the family or legal guardian to identify resources available to the child, This may include services covered by either private insurance or the Arizona Health Care Cost Containment System (AHCCCS) behavioral health benefits. If the child is currently not enrolled in AHCCCS but may be eligible through Title XIX/XXI (KidsCare), the Public Education Agency should assist the family in the enrollment process.
When an out-of-home placement is considered, priority should be given to placement in the home school district so the child can maintain placement, transition into the district when specific behavioral, or meet educational goals. Exceptions may exist for children with unusually complex educational needs that cannot be met in the home district, for example, in remote areas of the State. However, these reasons must be clearly documented before the placement is approved.

When the Individual Education Program (IEP) indicates that out-of-home placement for educational purposes may be necessary, the Support Coordinator shall immediately notify the District Program Manager for involvement in the placement process. If placement is to be made out of the Division District where the child resides, the Support Coordinator/originating District Program Manager must contact the District Program Manage in the receiving District in order to facilitate appropriate placement and services.

When requesting residential services for educational reasons through the Division, the following documentation must be provided by the requesting school district to the Support Coordinator. Copies of this documentation shall be placed in the case file. This information is then forwarded to the District Program Manager (DPM) and Central Office.

A. A letter of request for services.

B. Parental signature for consent for evaluation and services.

C. A copy of the Individual Education Program (IEP) that includes:

1. Documentation of least restrictive environment considerations, including the specific reasons why the child cannot be educated in a less restrictive environment;

2. Specific services requested, such as residential placement;

3. Length of time for the placement. For example, six months, one school year; and,

4. The exit criteria (goals which when accomplished will indicate that the child is ready to return home or to the home school district).

A. If the member is being placed outside the state and is eligible for the ALTCS, the AHCCCS must approve the placement in advance.

Incomplete documentation of the educational reasons for requesting residential placement will result in a delay. The Division Central Office may also deny the request.

Following approval and placement in an out-of-home setting for educational purposes, the need for placement shall be reviewed every 30 days after placement by the respective planning processes (Individual Education Program/Individualized Family Services Plan/Person Centered Plan meetings). The results of the review shall be documented in the progress notes. Requests for continuation of the placement must be submitted to the Division Central Office for approval by June 15 of each year. Requests for continued placement shall contain the same information and be submitted in the same manner as required for initial placements.

During the 30-day reviews, all parties shall consider progress according to the goals and objectives of the treatment plan and the Individual Educational Program (IEP) exit criteria. Each review shall also include a discussion surrounding the type of educational and behavioral health supports that would be needed to return the child to a less restrictive placement.

Anticipated transitional supports shall be discussed during the 30-day reviews. The Local Education Agency (LEA) and the Regional Behavioral Health Authority (RHBA) shall both strive to ensure that the necessary educational and Title XIX/XXI behavioral health supports shall be available to the child and family at time of discharge.

Any proposed change in a residential placement for educational reasons must be made through the IEP review process. Changes in placement must be consistent with the goals of the child's IEP and recommended by the team. Placements may not be changed for reasons other than those related to educational purposes. When a child's parents move to a new school district, the District that placed the child must notify the new school District of the placement arrangements.

The new District has the responsibility to review the appropriateness of the placement and use the IEP process to make any recommended changes.

When a child is promoted to a high school district, the District that placed the child must treat the promotion as a change of placement and must include the high school District in the IEP review process.

When the team determines that a child needs Extended School Year Services, no change in the residential placement may be made unless specified in the IEP.

Transition to the Community

A. When the child's treatment goals and the IEP exit criteria have been met, the Division, LEA, RBHA, family or legal guardian and residential provider shall collaborate on the necessary planning for transition to a less restrictive setting. At that time, the IEP shall be revised and the treatment plan updated.

B. The Division, LEA, RBHA and family or legal guardian shall coordinate with the residential facility provider to schedule a discharge date.

C. The Division, LEA and the RBHA shall ensure the agreed upon educational and Title XIX/XXI behavioral health supports are in place for the child and family upon discharge.

Post-discharge, the Division, the LEA and the RBHA shall continue to monitor the child's status in the less restrictive placement. Communication between the Division, the LEA and the RBHA shall continue in order to monitor and support the child's successful integration in the new setting.

Coordination of Care Between The Division And The School System

In addition to the review and annual due dates for the Planning Documents, the Support Coordinator is responsible for ensuring the overall provision of care in coordination of care with other agencies for each member, including educational services. It is important that the Support Coordinators and Support Coordinator Supervisors understand the appropriate ways to coordinate care with a local school system.

It is also important to develop working relationships with the various school districts within the proximity of the Support Coordinator's assigned Division office. This includes identifying the appropriate teachers and the school hierarchy for addressing any issues that may arise. The development of these relationships before serious concerns occur will assist in resolving issues in a more collaborative and timely manner.

The Support Coordinator should work with the family to identify the dates and times for meeting with the school, and participate in the development of the IEP. Coordinating the efforts of the education plan with the Division's Planning Documents can ensure these plans complement each other and provide better care for the member. If the family does not remember to invite the Division staff to the IEP meeting, the school representative should be invited to the Division's Planning Meeting.
When the Division identifies an educational need, the Support Coordinator will take the following steps:

A. Discuss identified need with the family;

B. Within five working days of obtaining the family's agreement, contact the local schoolteacher and/or principal to inquire about the identified educational need;

C. Contact the District Program Administrator/District Program Manager within two working days of contacting the school to request support with their counterpart in the local school district if the teacher and/or principle have not responded;

D. Contact the Division's Central Office within two weeks to request support in coordination with the Special Education Division of the Arizona Department of Education when there has not been a response from the local school district;

E. As appropriate, raise the general issue(s) at the Arizona Department of Education (ADDE) through Central Office; and,

F. Follow up with the member or the representative regarding whether or not the need has been/was met.

Discharge Planning

Discharge planning is a systematic process for the transition of a member from one health care setting to another or the transition of a medically involved member from one residential placement to another. The key to successful discharge planning is communication between member, family/caregiver and health care team. Depending on the specific needs of the member, the following people may participate in the discharge planning process:

A. Member/family/caregiver;

B. Primary care provider/specialist;

C. Discharge Coordinator/Social Worker/Quality Assurance Nurse;

D. Utilization Review Nurse (hospital, Division or Health plan);

E. The Division Discharge Planning Coordinator;

F. The Division Support Coordinator; and;

G. Other Planning Team members, as necessary.

In order to ensure that Support Coordinators and District Nurses are aware of hospitalizations of ALTCS eligible members, the Medical Services Representative will e-mail the Support Coordinator and District Nurse identified in Focus when notified of an admission. It is the responsibility of the Support Coordinator to notify the Division's District Nurse or Discharge Planning Coordinator of transfers of medically-involved members, or the hospitalization of a non-ALTCS eligible member.
The discharge planning process is applicable in health care settings, and in the transfer of a medically involved member from one Child Developmental Home, Adult Developmental Home, Group Home, and Intermediate Care Facility for Individuals with an

Intellectual Disability or Nursing Facility to another. The process will generally include the following activities:

A. Complete a Division Discharge Plan Assessment, e.g., nursing assessment;

B. Review of discharge orders written by doctor;

C. Ensure that the member/family/caregiver has received proper training to carry out the discharge orders;

D. Ensure that all necessary equipment and supplies have been ordered and will be available when needed;

E. Ensure that transportation arrangements have been made;

F. Reinstate applicable service(s) that may have been interrupted, or initiate services now determined needed (update Planning Documents);

G. The District Nurse or Discharge Planning Coordinator will complete a Utilization Review Nursing Worksheet – Health Care Services, and send copies to the Support Coordinator and Health Care Services (HCS); and,

H. Notification and/or signatures as required on the *Utilization Review Nursing Worksheet* – HCS form:

1. Health Care Services Representative (District Nurse and/or Discharge Planning Coordinator);

2. District Program Manager or designee (to be notified about all changes of placement);

3. Medical Director (to be notified by HCS of level of care changes); and,

4. The Division Assistant Director/designee (signature also required for placement in a planning document).

Members with Medical Needs

Members are considered to be medically involved when they require two or more hours per day of skilled nursing care. Thorough discharge planning for people who are medically involved ensures continuity of a members' services when the member is moving from one setting to another. Placement and services should be appropriate and established prior to the member being discharged.
The Support Coordinator, District Nurse, and/or the Discharge Planning Coordinator will work together to initiate the discharge planning process. Their communication can include a Planning Document. Convening a Planning Team meeting is at the discretion of any member.

The following procedures shall be implemented for all members who are medically involved:

A. The District Nurse will verify hospitalization notification and/or transfer intentions with the Support Coordinator;

B. The District Nurse or Discharge Planning Coordinator shall follow the hospitalization and keep the Support Coordinator updated on the member's condition and the concerns expressed by the member/family/caregiver; and,

C. A Planning Team meeting should be called prior to discharge for complex cases. The hospital discharge planner is considered the lead in this meeting, and should assemble the family/caregiver, attending physician, primary care provider (if possible), social services, the Support Coordinator and Division Nurse, and the health plan utilization review nurse. Other disciplines may be included, particularly if their role influences the member's discharge status/planning (i.e., Department of Child Safety or Adult Protective Services).

D. If placement is an issue:

1. A nursing assessment will be updated/completed, to assess the nursing/medical needs of the member and identify the appropriate type of facility/residence.

2. If behavioral health is a need, referral to the Regional Behavioral Health Authority (RBHA) should be made by the Support Coordinator to initiate assessment and their participation in the discharge planning process.

3. Based on the Planning Documents, the Support Coordinator will work with the appropriate staff to arrange for the facility/residence which will provide for the identified needs.

E. If the Division is expected to pay for a Planning Document placement, a thorough review is required, including HCS, before any admission is made. All placements in Planning Document(s) must have the approval of the Assistant Director. These facilities are restrictive environments, therefore, placement is temporary and transitional, occurring only after the following alternative options have been eliminated:

1. In-home supports;

2. Individually Designed Living Arrangement; and,

3. Community based placements, e.g.; Group Home; Child Developmental Home (CDH); or Adult Developmental Home (ADH).

See Division Medical Policy Manual for more information on Planning Document.

A. For those members who are returning to a Planning Document, the District Nurse or Discharge Planning Coordinator shall participate in the planning process. The entire planning process shall be completed before the discharge/transfer is made.

B. In the absence of a Planning Meeting, the District Nurse and/or Discharge Planning Coordinator will coordinate the discharge orders, caregiver training, equipment/supplies, home health care, and transportation.

C. The Division Nurse or Discharge Planning Coordinator shall complete a *Utilization Review Nursing Worksheet* –upon discharge, and send copies to the Support Coordinator and HCS.

D. The Discharge Plan shall take precedence over any Planning Document objectives that are in conflict. If there is a conflict, a new Planning Document shall be developed as soon as possible. The member/responsible person, primary care provider, or any other attending physician involved shall resolve disagreements. The medical records and a summary of the disagreement may be sent to the Discharge Planning Coordinator to be reviewed. The Division's Medical Director may be contacted to review the case and assist in the resolution of the disagreement.

E. The member's primary care provider shall be given the opportunity to participate in the discharge planning and review the completed Planning Document.

Nurse Consultation to Determine Medical Needs

The District Nurse or Discharge Planning Coordinator may be contacted directly by the Support Coordinator to review a member's hospitalization or transfer plans to determine if medical discharge planning is needed. A *Utilization Review Nursing Worksheet* should be completed by the District Nurse or Discharge Planning Coordinator and submitted with appropriate documentation to HCS and the Support Coordinator indicating if skilled nursing needs have been identified.

Members Without Medical Needs

For non-medically involved members who are being discharged from a hospital or skilled nursing facility, the following procedures shall be implemented:

A. The Support Coordinator shall assess for medical needs prior to discharge. If needed the District Nurse or Discharge Planning Coordinator will complete a Nursing Assessment - HCS to plan and recommend an appropriate level of care;

B. If the member is non-medically involved, the Support Coordinator will:

1. Ensure that training of caregivers has taken place;

2. Assess for and authorize in-home supports as appropriate;

3. Make arrangements for equipment, supplies, medications, etc. through appropriate systems; and,

4. Ensure that follow-up instructions are in place.

C. In those situations where a residential setting will change, the Planning Document process shall be an essential part of discharge planning.

Foster Care Discharge Planning

For all members in foster care, the following discharge planning procedures shall be implemented:

A. The Support Coordinator, District Nurse or Discharge Planning Coordinator will assess for medical needs prior to hospital discharge. If medical needs are present, the nurse will complete a Utilization Review Nursing Worksheet − HCS, and coordinate a plan of care, training for caregivers, and equipment and supply needs. A Nursing Assessment - HCS will be updated/completed to determine home based nursing services and/or placement needs.

B. The District Nurse or Discharge Planning Coordinator must be notified:

   1. Prior to any foster child being admitted to or discharged from a planning document or Nursing Facility (NF).

   2. Prior to any foster child that is medically involved, receiving home based nursing services, or being considered for a change in placement.

C. The Planning Team must be notified prior to this change of placement. The District Nurse or Discharge Planning Coordinator will complete the *Utilization Review Nursing Worksheet* − HCS, and coordinate plan of care, training, and equipment and supply needs. The District Nurse or Discharge Planning Coordinator will notify HCS of changes in placement. The Support Coordinator will notify the District. Specific to a planning document admission, the personal authorization of the Assistant Director (or designee) is required.

D. Children in foster care whose cases have been transferred from DCS to the Division may also require the participation of court appointed special advocates, attorneys, guardian ad litems, or other professionals from the juvenile court.

Discharge/Transition of Members with Severe Behavioral Challenges

When a member with severe behavioral health challenges is placed into a psychiatric hospital setting, the Support Coordinator will begin discharge planning immediately and District Personnel will attend a hospital staffing within 72 hours. Support Coordinators shall, if possible, attend all subsequent hospital staffings. Prior to discharge, the Support Coordinator will:

A. Involve staff responsible for contracting with Provider Agencies as soon as possible;

B. Begin the appropriate Planning Process; and,

C. Ensure that staff from the behavioral health system is invited to all planning sessions.

Use of the Discharge/Transition Checklist for Individuals with High Risk Behavioral Challenges is mandated when planning discharge from an inpatient setting for members with severe behavioral challenges. The form can also be used when someone with behavioral challenges moves from one setting to another. The form is intended to provide

reminders to the team about important areas to consider and should be used to plan for the discharge/move.

The Emergency Contact Plan is intended to record very basic information about the person that would be helpful to others coming in to assist in a crisis situation, such as crisis mobile team members or police officers. The form should be completed at the discharge/transition-planning meeting and updated as necessary. The representative from the behavioral health system should assist in filling out the form and the same information should, if possible, be on file with the Regional Behavioral Health Authority (RBHA). The Emergency Contact Plan should be kept in an easily accessible place in the setting, but it should never be posted.

The Emergency Contact Plan does not take the place of the Behavior Plan. Begin development of the behavior plan prior to discharge, so that the person is discharged with at least a rough draft of the plan that eventually gets submitted to the Program Review Committee. This initial plan may be called a "crisis plan." It should have information about precursors/antecedents and creative strategies for preventing challenging behaviors. It should give staff ideas for teaching replacement behaviors, and it should let staff know whom to call when a crisis occurs.

541 COORDINATION OF CARE WITH OTHER GOVERNMENT AGENCIES

REVISION DATE: 9/6/2023
EFFECTIVE DATE: October 1, 2019
REFERENCES: A.R.S. §§ 15-761 et seq, A.R.S. § 15-1181, AMPM 541, Division Operation Policy 417

PURPOSE

This policy outlines how the Division shall develop and maintain collaborative relationships with other government entities that deliver services to Members and their families, ensure access to services, and coordinate care with consistent quality. This policy also outlines how the Division shall provide monitoring and oversight of the Administrative Services Subcontractors (AdSS) in their performance of the coordination with other government agencies.

DEFINITIONS

1. "Adult Recovery Team" or "ART" means a group of individuals that, following the nine Guiding Principles for Recovery-Oriented Adult Behavioral Health Services and Systems, work in collaboration and are actively involved in a Member's assessment, service planning, and service delivery. At a minimum, the team consists of the Member, the Member's Responsible Person if applicable, advocates if assigned, and a

qualified behavioral health representative. The team may also include the enrolled Member's family, physical health, behavioral health, or social service providers, the Support Coordinator, other agencies serving the Member, professionals representing various areas of expertise related to the Member's needs, or other Members identified by the enrolled Member.

2. “Child and Family Team” or “CFT” means a defined group of individuals that includes, at a minimum, the child and his or her family or Responsible Person, the assigned Support Coordinator, a behavioral health representative, and any individuals important in the child’s life that are identified and invited to participate by the child and family or Responsible Person. This may include teachers, extended family members, friends, family support partners, healthcare providers, coaches, and community resource providers, representatives from churches, synagogues, mosques, or other places of worship and faith, agents from other service systems like the Department of Child Safety (DCS) or the Division of Developmental Disabilities (DDD), which includes AzEIP. The size, scope, and intensity of involvement of the team members are determined by the objectives established for the child, the needs of the family in providing for the child, and by

who is needed to develop an effective Planning Document and can therefore expand and contract as necessary to be successful on behalf of the child.

3. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

4. "Rapid Response" means a process that occurs when a child enters into DCS custody. When this occurs, a behavioral health service provider is dispatched within 72 hours, to assess a child's immediate behavioral health needs, and refer for further assessments through the behavioral health system.

5. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a Member or an applicant for whom no guardian has been appointed.

6. "Service Plan" means a complete written description of all covered behavioral health services and other informal supports that includes individualized goals, family support services, care coordination activities, and strategies to assist the Member in achieving an improved quality of life.

7. "State Placing Agency" means the Department of Juvenile Corrections, Department of Economic Security (DES), Department of Child Safety (DCS), the Arizona Health Care Cost Containment System (AHCCCS), or the Administrative Office of the Court. (A.R.S. §15- 1181(12).

8. "Team Decision Making" or "TDM" means when an emergency removal of a child has occurred or the removal of a child is being considered, a TDM Meeting is held. The purpose of the meeting is to discuss the child's safety and where they will live.

POLICY

A. COORDINATION OF CARE WITH OTHER GOVERNMENT AGENCIES

1. The Division shall have policies, protocols, and procedures that describe how the Division coordinates and manages Member care with other governmental entities.

2. The Divisions shall ensure collaboration by participating in the Member's:

   a. Planning Team meetings,

   b. Child and Family Team (CFT) meetings, and

c. Adult Recovery (ART) meetings.

3. The Division shall ensure all required protocols and agreements with State agencies are specified in the provider manuals.

4. The Division shall develop and maintain mechanisms and processes to identify barriers to timely services for Members served by other governmental entities.and work collaboratively with them to remove barriers to Member care and to resolve any Member quality of care concerns.

5. The Division shall work in collaboration with DCS to coordinate Member care.

6. The Division shall coordinate with Tribal Regional Behavioral Health Authorities (TRBHAs) for Members receiving behavioral health services through a TRBHA.

7. The Division shall participate in the Member's Planning Team meetings, CFTs or ARTs to coordinate services for the family and temporary caregivers for Members referred through the Arizona Families F.I.R.S.T. (AFF) program.

8. The Division shall work in collaboration with the Arizona Department of Education and the Member’s school to assist with

resources and referral linkages to help a Member achieve success in school for children with behavioral health needs.

9. The Division shall not be financially responsible for services provided by Local Educational Authorities (LEAs), as specified in AMPM Policy 710, for Members receiving special education services.

10. The Division shall collaborate and coordinate care for Members involved with the following governmental entities as outlined in AMPM Policy 1021 and 1022:

    a. Arizona Department of Corrections (ADOC),

    b. Arizona Department of Juvenile Corrections (ADJC),

    c. Administrative Offices of the Court (AOC), or

    d. County Jails System

B. MONITORING AND OVERSIGHT

1. The Division shall conduct an annual operational review of the AdSS to ensure the AdSS:

    a. Has policies and procedures that describe how Member care is coordinated and managed when other government

entities are involved.

b. Demonstrates evidence of collaborative work with the following:

i. Arizona Department of Child Safety (DCS)

ii. DCS Arizona Families F.I.R.S.T. (Families in Recovery Succeeding Together) (AFF) Program

iii. Arizona Department of Education (ADE), Schools, or other local Educational Authorities.

iv. Arizona Department of Economic Security (DES) Arizona Early Intervention Program (AzEIP)

v. Arizona Department of Economic Security/Rehabilitation Services Administration (ADES/RSA)

vi. Courts and Corrections

2. The Division shall conduct quarterly oversight meetings with the AdSS for the purpose of reviewing AdSS performance and addressing any Member access to care concerns.

3. The Division shall review data submitted by the AdSS

demonstrating ongoing compliance monitoring of their network of provider agencies through Behavioral Health Clinical Chart Reviews.

Signature of Chief Medical Officer: Anthony Dekker (Aug 29, 2023 14:52 PDT)

570 BEHAVIORAL HEALTH PROVIDER CASE MANAGEMENT

REVISION DATE: 11/9/2022, 7/3/2015
EFFECTIVE DATE: June 30, 1993
REFERENCES: A.R.S § 36-551; ACOM 407; AMPM Chapter 200; AMPM 320-O; AMPM 570

PURPOSE

The purpose of this policy is to outline requirements for Behavioral Health Provider Case Management services for Division of Developmental Disabilities (Division) members who are Arizona Long Term Care System (ALTCS) eligible.

DEFINITIONS

1. "Assertive Community Treatment Case Management" focuses upon members with severe and persistent mental illness that seriously impairs their functioning in community living, in conjunction with a multidisciplinary team approach to coordinating care across multiple systems.
2. "CALOCUS" is a standardized assessment tool that provides determination of the appropriate intensity of services needed by a child or adolescent and their family, and guides provision of

ongoing service planning and treatment outcome monitoring in all clinical and community-based settings.

3. "Connective Case Management" means to focus upon members who have largely achieved recovery and who are maintaining their level of functioning. Connective case management involves careful monitoring of the member's care and linkage to service. Caseloads may include both members with an SMI designation as well as members with a general mental health condition or Substance Use Disorder as clinically indicated.

4. "High Needs Case Management" means focus upon providing case management and other support and rehabilitation services to children with complex needs and multiple systems involvement for whom less intensive case management would likely impair their functioning. Children with high service intensity needs who require to be offered the assignment of a high needs case manager are identified as:

    a. Children 0 through five years of age with two or more of the following:

i. Involvement with Arizona Intervention Program (AzEIP), Department of Child Safety (DCS), and/or Division of Developmental Disabilities (DDD), and/or

ii. Out of home residential services for behavioral health treatment within past six months, and/or

iii. Utilization of two or more psychotropic medications, and/or

iv. Evidence of severe psycho-social stressors (e.g. family member serious illness, disability, death, job loss, eviction), and

b. Children six through 17 years of age: CALOCUS level of 4, 5, or 6.

5. "Member" means an individual who is receiving services from the Division of Developmental Disabilities (Division).

6. "Provider Case Management" means a collaborative process provided by a behavioral health provider which assesses, plans, implements, coordinates, monitors, and evaluates options and services to meet an individual's health needs through

communication and available resources to promote quality, cost-effective outcomes.

7. "Provider Case Manager" means the person responsible for locating, accessing, and monitoring the provision of services to clients in conjunction with a clinical team.
8. "Responsible Person" means the parent or guardian of a developmentally disabled minor, the guardian of a developmentally disabled adult or a developmentally disabled adult who is a client or an applicant for whom no guardian has been appointed.
9. "Substance Use Disorder" means a range of conditions that vary in severity over time, from problematic, short-term use/abuse of substances to severe and chronic disorders requiring long-term and sustained treatment and recovery management.
10. "Support Coordinator" means the same as "Case Manager" under A.R.S. § 36-551
11. "Supportive Case Management" means focus upon members for whom less intensive case management would likely impair their functioning. Supportive case management provides assistance,

support, guidance and monitoring in order to achieve maximum benefit from services. Caseloads may include members with an SMI designation as well as members with a general mental health condition or substance use disorder as clinically indicated.

POLICY

A. The Division shall ensure that members receive behavioral health case management services in addition to support coordination when requested by the member/responsible person and determined medically necessary for coordination of services. These services may be provided by:

1. A behavioral health provider for members enrolled in subcontracted health plans, or
2. A Tribal Regional Behavioral Health Authority (TRBHA) case manager for members enrolled in the Tribal Health Program.

B. The Division shall cover case management services provided by behavioral health providers involved with a member's care outside of the role of an assigned behavioral health case manager.

C. The Division shall ensure that Provider Case Managers monitor the member's current needs, services, and progress through regular and ongoing contact with the member/responsible person.

D. The DDD Support Coordinator shall participate as part of the Child and Family Team (CFT) or Adult Recovery Team (ART) in determining the frequency and type of contact during the treatment planning process, and adjust as needed, considering clinical need and member preference.

E. The DDD Support Coordinator shall participate as part of the CFT or ART in assessing the intensity level for one of the following types of Provider Case Management:

1. Connective Case Management
2. Supportive Case Management
3. High Needs Case Management
4. Assertive Community Treatment Case Management

F. The Division shall ensure that Provider Case Managers coordinate care on behalf of DDD members to ensure they receive the treatment and support services that will most effectively meet the member's needs by:

1. Coordinating with the member/responsible person, social rehabilitation, vocational/employment and educational providers, supportive housing and residential providers, crisis providers, health care providers, peer and family supports, other state agencies, and natural supports as applicable.
2. Obtaining input from providers and other involved parties in the assessment and service planning process.
3. Providing coordination of the care and services specified in the member's service plan and each provider/program's treatment plan, to include physical and behavioral health services and care.
4. Obtaining information about the member's course of treatment from each provider at the frequency needed to monitor the member's progress.
5. Participating in all provider staffing and treatment/service planning meetings.
6. Obtaining copies of provider treatment plans and entering them as part of the medical record.
7. Providing education and support to members/responsible persons, family members, and significant others regarding the

member's diagnosis and treatment with the member/responsible person's consent.

8. Providing a copy of the member's service plan to other involved providers and involved parties with the consent of the member/responsible person's consent.
9. Providing medication and laboratory information to residential and independent living service providers or other caregivers involved with the consent of the member/responsible person.
10. Coordinating care with the member's assigned care manager as applicable.
11. Utilizing the Behavioral Health Practice Tools located in AHCCCS Medical Policy Manual (AMPM) Chapter 200 for children.
12. In crisis situations:
    a. Identifying, intervening, and/or following up with a potential or active crisis situation in a timely manner,
    b. Providing information, backup, and direct assistance to crisis and emergency personnel, including "on-call" availability of case manager or case management team to the Crisis System

c. Providing follow-up with the member/responsible person after crisis situations, including contact with the member within 24 hours of discharge from a crisis setting,

d. Immediately assessing for, providing, and coordinating additional supports and services as needed to accommodate the individual's member's needs, and

e. Ensuring the member's annual crisis and safety plan is updated as clinically indicated, based on criteria as specified in AMPM Policy 320-O, and readily available to the crisis system, clinical staff and individuals involved in the development of the crisis and safety plan.

G. The Division shall ensure the AdSS develops a provider network with a sufficient number of qualified and experienced behavioral health case managers and meet the following requirements:

1. Behavioral health case managers are available to provide Case Management services to all enrolled members and shall meet the caseload ratios as specified in AMPM 570 Attachment A except as otherwise specified and approved by AHCCCS.

2. All DDD members with a Serious Mental Illness (SMI) designation are assigned to a Provider Case Manager in accordance with A.A.C. R9-21-101, and that all other individual members are assigned a Provider Case Manager as needed, based upon a determination of the individual's member's service acuity needs.
3. Providers are orienting new Provider Case Managers to the fundamentals of providing Case Management services, evaluating their competency to provide Case Management, and providing basic and ongoing training in the specialized subjects relevant to the populations served by the provider, and as specified in ACOM Policy 407.
4. Member/responsible person shall be provided adequate information in order to be able to contact the behavioral health case manager or AdSS for assistance. The AdSS shall also ensure that adequate information is provided to the member/responsible person for what to do in cases of emergencies and/or after hours.

5. Providers have a system of back-up Case Managers in place for members who contact an office when their assigned Provider Case Manager is unavailable and that members be given the opportunity to speak to the back-up provider Case Manager for assistance. The AdSS shall ensure when messages are left for Provider Case Managers that members/responsible persons are called back within two business days.
6. Case Managers are not assigned duties unrelated to member specific case management for more than 10% of their time if they carry a full caseload. (as specified in AMPM 570 Attachment A)
7. Providers establish a supervisor to Provider Case Manager ratio that is conducive to a sound support structure for case managers as per AMPM 570 Attachment A, including establishing a process for reviewing and monitoring supervisor staffing assignments in order to adhere to the AdSS's designated supervisor to Provider Case Manager ratio.
8. Provider Case Manager supervisors have adequate time to train and review the work of newly hired Provider Case Managers as

well as provide support and guidance to established Provider Case Managers.

9. In order to prevent conflicts of interest, ensure that a Provider Case Manager is not:
    a. Related by blood or marriage or other significant relation to a member or to any paid caregiver for a member on their caseload.
    b. Financially responsible for a member on their caseload.
    c. Empowered to make financial or health-related decisions on behalf of a member on their caseload.
    d. In a position to financially benefit from the provision of services to a member on their caseload.
    e. A provider of paid services (e.g., Home and Community Based Services (HCBS), privately paid chores, etc.) for any member on their caseload.

H. The Division shall ensure the AdSS establishes and implements mechanisms to promote coordination and communication between Provider Case Management and AdSS care management teams, with particular emphasis on ensuring coordinated approaches with the

AdSS's Chief Medical Officer (CMO), Medical Management (MM) and Quality Management (QM) teams as appropriate.

I. The Division shall ensure the AdSS submits a Case Management Plan that addresses how the AdSS will collaborate with other Contractors to implement and monitor Provider Case Management standards and caseload ratios for adult and child members, as well as including:

1. performance outcomes,
2. lessons learned, and
3. strategies targeted for improvement, and
4. evaluation of the AdSS's Case Management Plan from the previous year.

J. The Division shall oversee the AdSS utilizing the following methods to ensure compliance with policy:

1. Annual Operational Review of each AdSS
2. Review and analyze deliverable reports submitted by the AdSS
3. Conduct oversight meetings with the AdSS for the purpose of:
   a. reviewing compliance,
   b. address concerns with access to care or other quality of care concerns,

c. discuss systemic issues and

d. provide direction or support to the AdSS as necessary

4. Ongoing monitoring and evidence of compliance through Behavioral Health Chart Audits.

Signature of Chief Medical Officer: Anthony Dekker (Nov 1, 2022 11:06 PDT)

580 BEHAVIORAL HEALTH REFERRAL PROCESS

REVISION DATE: 6/15/2022

EFFECTIVE DATE: August 4, 2021

REFERENCES: A.R.S. § 8-512.01; CFR 45-164.520 (c)(1)(B)

PURPOSE

This policy applies to the Division of Developmental Disabilities (Division) with regard to ensuring that eligible ALTCS members enrolled in a DDD Health Plan, including the Tribal Health Program with behavioral health and substance use disorders, can gain prompt access to behavioral health services. For Division members enrolled in other AHCCCS health plans (i.e., targeted support coordination members), the Support Coordinator shall coordinate with the member's AHCCCS Complete Care plan for behavioral health services.

The Division delegates the responsibility to Administrative Services Subcontractor (AdSS) for the implementation of behavioral health services, whose contract includes this requirement, for eligible members enrolled in a DDD Health Plan. (Refer to AdSS Medical Policy 580.) The Division remains responsible for support coordination, care coordination for members enrolled in the Tribal Health Program and oversight of the AdSS. (Refer to Division Medical Policy 1620-G related to behavioral health referrals and service coordination.)

DEFINITIONS

Assessment means the ongoing collection and analysis of a member's medical, psychological, psychiatric, and social conditions in order to initially determine if a health disorder exists, if there is a need for behavioral health services, and on an ongoing basis ensure that the member's planning

document is designed to meet the member's (and family's) current needs and long-term goals.

Intake means the initial evaluation and collection, by appropriately trained staff, of basic demographic information and preliminary identification of the member's needs.

Referral means, for purposes of this policy, a verbal, written, telephonic, electronic, or in-person request for behavioral health services.

Responsible Person means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a client or an applicant for whom no guardian has been appointed as cited in A.R.S § 36-551.

Serious Mental Illness (SMI) Determination means a determination as to whether or not an individual meets the diagnostic and functional criteria established for the purpose of determining an individual's eligibility for SMI services.

POLICY

A. GENERAL REQUIREMENTS FOR BEHAVIORAL HEALTH SERVICES REFERRAL

1. A referral may be made, but is not required, to initiate behavioral health services. A member/responsible person may directly outreach a behavioral health provider, the Division, or their health plan, to initiate services or to identify a contracted service provider. If behavioral health services are not available within the service array of an existing provider, a referral may

be made by any of the following:

a. A member or the member's responsible person,
b. The Division,
c. DDD subcontracted health plan,
d. Primary care provider (PCP),
e. Other providers within their scope of practice,
f. Hospital,
g. Jail,
h. Court,
i. Probation or parole officer,
j. Tribal entity,
k. Indian Health Services/638 Tribally operated facility,
l. School,
m. Other governmental or community agency, and
n. Members in the legal custody of the DCS, the out-of-home placement as specified in A.R.S. §8-512.01 and Division Operations Policy 449.

2. TRBHA responsibilities regarding referrals are specified in the TRBHA Intergovernmental Agreements (IGAs).

3. To facilitate timely access to behavioral health services, the Division shall ensure an effective referral process is in place for members seeking or screened as at-risk for needing behavioral health services including but not limited to general mental health/substance use services, members determined to have an SMI, and those seeking an SMI designation. The referral process shall include:

a. Engaging with the member/responsible person to communicate the process for making referrals, including

self-referrals, ensuring that the referral process maximizes member and family voice and a choice of service providers, as well as the allowance of THP members to see any AHCCCS registered provider;

b. Referrals are accepted for behavioral health services 24 hours a day, seven days a week. The processing of referrals shall not be delayed due to missing or incomplete information. An acknowledgement of receipt of a referral shall be provided to the referring entity within 72 hours from the date it was received.

c. Sufficient information is collected through the referral process to:

   i. Assess the urgency of the member's needs;

   ii. Track and document the disposition of referrals to ensure subsequent initiation of services. The Division shall ensure the AdSS comply with timeliness standard specified in AdSS Operational Policy 417; and

   iii. Ensure members who have difficulty communicating due to a disability, or who require language services, are afforded appropriate accommodations to assist them in fully expressing their needs;

d. Information or documents collected in the referral process are kept confidential and protected in accordance with applicable federal and state statutes, regulations, and

policies.

e. Providers offer a range of appointment availability and flexible scheduling options based upon the needs of the member.

B. REFERRALS FOR INDIVIDUALS ADMITTED TO A HOSPITAL

1. The Division shall ensure referrals involving members admitted to a hospital, who are identified as in need of behavioral health services, are responded to as follows:

   a. Upon notification of a member not currently receiving behavioral health services, the Division shall ensure a referral is made to a provider agency within 24 hours.

   b. The Division shall ensure the AdSS' provider agencies attempt to conduct a face-to-face intake evaluation with the member within 24 hours of referral and the evaluation occurs prior to discharge from the hospital.

   c. For members already receiving behavioral health services, the Division shall ensure coordination, transition, and discharge planning activities are completed in a timely manner as specified in Division Medical Policy 1021.

   d. TRBHA responsibilities regarding referrals are outlined in the TRBHA Intergovernmental Agreements.

C. DIVISION OVERSIGHT OF AdSS

1. The Division shall complete an Annual Operational Review of each AdSS in the following areas:

a. The AdSS has policies and procedures to ensure members receive behavioral health services.

b. The AdSS ensures the initiation and coordination of a referral when a behavioral health need has been identified and follows up to determine if the member received behavioral health services.

c. The AdSS ensures that training and education is provided to PCPs regarding the behavioral health referral process.

d. The AdSS informs PCPs of the ability and process to directly refer members with suspected diagnosis of autism or other DDD eligible diagnoses directly to a specialized Autism Spectrum Disorder, Cognitive/Intellectual Disability or other DDD qualifying diagnosing provider. For the purpose of eligibility, refer to the Division's Eligibility Policy 200-G and 200-H for a list of diagnostic and functional criteria.

e. The AdSS documentation reflects evidence that medically necessary behavioral services were determined by a qualified behavioral health professional.

f. Review and analyze deliverable reports submitted by the AdSS.

g. Conduct oversight meetings with the AdSS for the purpose of reviewing compliance; address concerns with access to care or other quality of care concerns; discuss systemic issues and provide direction or support to the AdSS as

necessary.

h. Ensure the AdSS conducts ongoing monitoring and evidence of compliance through Behavioral Health Chart Audits.

Signature of Chief Medical Officer: Anthony Dekker (Jun 14, 2022 17:35 PDT)
Anthony Dekker, D.O.

590 BEHAVIORAL HEALTH CRISIS SERVICES AND CARE COORDINATION

EFFECTIVE DATE: January 18, 2023
REFERENCES: AHCCCS Contract

PURPOSE

This policy describes the requirements related to the behavioral health Crisis system for Arizona Long Term Care System (ALTCS) eligible members.

DEFINITIONS

1. "Crisis" means an acute, unanticipated, or potentially dangerous behavioral health condition, episode, or behavior. A Crisis is self-defined and determined by the individual experiencing the situation. An individual is in Crisis if the individual finds they lack the skills or are unable to cope with a situation or event that is impacting them.
2. "Crisis Services" means services that are community based, recovery-oriented, and member-focused that shall work to stabilize members as quickly as possible so as to assist them in returning to their baseline of functioning.

3. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a member or an applicant for whom no guardian has been appointed.
4. "Support Coordinator" means the same as "Case Manager" under A.R.S. § 36-551.

POLICY

A. The Division shall ensure medically necessary services and care are provided to members following a Crisis episode or discharge from a crisis stabilization setting.

B. The Division shall be financially responsible for services after the initial 24 hours of a Crisis episode, which is covered by the AHCCCS Complete Care Regional Behavioral Health Authority (ACC-RBHA), or discharge from a Crisis stabilization setting, whichever occurs first.

C. The Division shall ensure emergency transportation from Crisis receiving facilities is covered as a health plan benefit.

D. The Division shall ensure non-emergent transportation from Crisis receiving facilities is covered as a health plan benefit for members not

residing in community residential settings and Intermediate Care Facilities for the Intellectually Disabled.

E. The Division shall ensure community residential settings and Intermediate Care Facilities for the Intellectually Disabled provide non-emergent transportation from Crisis receiving facilities for members residing in those settings.

F. The Division shall publicize Crisis Services, including the statewide Crisis phone number, prominently on their websites, in their resource directories, and on the following relevant member and community materials:

1. Division website,
2. Member handbook, and
3. Member identification cards.

G. The Division shall ensure care coordination occurs between:

1. The member's health plan;
2. Behavioral health provider;
3. The Division;
4. Crisis providers; and
5. The member, if applicable.

H. The Support Coordinator shall follow up with the Responsible Person within two business days from receiving the focus global notification to gather information regarding what event occurred before the Crisis line was called and assess the following:

1. Whether additional support is needed from either the Division or behavioral health provider.
2. Whether the member is receiving the appropriate behavioral health services and:
    a. Make a referral within one business day, if needed; or
    b. Advocate if additional behavioral health services are needed.

I. The Support Coordinator shall:

1. Ensure all planning team members and/or Child and Family Team/Adult Recovery Team are aware of recent contact with behavioral health Crisis services.
2. Coordinate care with the planning team and/or Child and Family Team/Adult Recovery Team as needed to:
    a. Verify medications are taken as prescribed,

b. Verify the member is currently enrolled with a behavioral health provider,

c. Assess for additional behavioral health services, and

d. Ensure the member has a Crisis plan and/or update plan for current needs.

3. Request assistance from the District Behavioral Health Complex Care Specialist as needed.

4. Submit a referral to the Division's Behavioral Health Advocate as needed.

5. Request assistance from the District Nurse if medical concerns are presented.

6. Complete a referral for a Care Manager through the member's ALTCS health plan as needed.

J. The Division shall ensure the Administrative Services Subcontractors (AdSS) develop policies establishing post-Crisis care coordination expectations that provide the following:

1. Transfer of medical records of services received during a Crisis episode, including prescriptions.

2. Tracking of admission, discharge, and re-admissions, including admission setting.
3. Requirements for follow-up directly with the individual, within 72 hours, when discharged from a Crisis setting.
4. Engagement of peer and family support services when responding to post-Crisis situations.
5. The provision of ongoing care is done in an expedient manner in accordance with ACOM Policy 417.

K. The Division shall ensure the AdSS regularly evaluates post-Crisis care coordination activities and work to improve internal and external collaboration efforts. Care coordination activities shall include use of Health Information Technology, as available, to improve member outcomes.

L. The Division shall oversee the AdSS utilizing the following methods to ensure compliance with policy:

1. Annual Operational Review of each AdSS,
2. Review and analyze deliverable reports submitted by the AdSS, and
3. Conduct oversight meetings with the AdSS for the purpose of:

a. Reviewing compliance,

b. Addressing concerns with access to care or other quality of care concerns,

c. Discussing systemic issues, and

d. Providing direction or support to the AdSS as necessary.

Signature of Chief Medical Officer: Anthony Dekker (Jan 13, 2023 11:13 MST)
Anthony Dekker, D.O.

610 AHCCCS PROVIDER QUALIFICATIONS

EFFECTIVE DATE: November 17, 2017
REFERENCES: AHCCCS Medical Policy Manual Exhibit 610-1

All providers of services that are covered by the Division of Developmental Disabilities must:

A. Register with AHCCCS, which requires signing the Provider Participation Agreement or Group Biller Participation Agreement that includes all federal and state requirements as applicable.

B. Comply with all federal, state, and local laws, rules, regulations, executive orders, and agency policies governing performance of duties under the contract.

C. Sign and return attestations, found on the Provider Registration section of the AHCCCS website, that apply to their individual practices or facilities.

D. Meet AHCCCS requirements for professional licensure, certification, or registration, including current Medicare certification.

E. Complete all applicable registration forms.

Institutional and other designated providers are required to submit an enrollment fee (see AHCCCS Medical Policy Manual Exhibit 610-1).

Specific provider types require an AHCCCS Office of the Inspector General (AHCCCS-OIG) site visit prior to enrollment, and they are subject to unannounced post enrollment site visits (see AHCCCS Medical Policy Manual Exhibit 610-1).

AHCCCS Provider Registration Materials

AHCCCS-OIG Provider Registration materials are available on the AHCCCS web site. On the AHCCCS website, click on the “Plans/Providers” tab. In the resulting screen, click on the “New Providers” link and, in the resulting dropdown menu, click on the “Provider Reenrollment” link. The forms can be completed on the AHCCCS website, but they must be submitted by fax or mail.

AHCCCS Provider Types

AHCCCS providers are registered under a provider type (e.g., hospital, nursing facility, physician) established by AHCCCS. The AHCCCS-OIG “Provider Registration” section on the AHCCCS website will help providers to identify the most appropriate provider type, based on the provider's license/certification and other documentation.

Refer to the AHCCCS website for additional information regarding provider registration requests.

680-C PRE-ADMISSION SCREENING AND RESIDENT REVIEW

REVISION DATE: 11/15/23, 12/21/22, 9/25/19, 4/1/14
EFFECTIVE DATE: July 31, 1993
REFERENCES: 42 CFR 4 83.100 – 438.138, 42 CFR 447, 42 CFR 483.20

PURPOSE

This policy outlines the Division of Developmental Disabilities (Division) role in the Pre-Admission Screening and Resident Review (PASRR) requirements with the Intergovernmental Agreement.

DEFINITIONS

1. "Determination" means the outcome of the Level II assessment which ensures the nursing facility placement is, or continues to be, appropriate, and that services provided to individuals with a mental illness, intellectual disability, or related condition meet the individual's needs, including the need for specialized services.

2. "Health Care Decision Maker (HCDM)" means an individual who is authorized to make health care treatment decisions for the patient. As applicable to the situation, this may include a parent of an unemancipated minor or an individual lawfully

authorized to make health care treatment decisions as specified in A.R.S. §§ Title 14, Chapter 5, Article 2 or 3; or A.R.S. §§ 8514.05, 36-3221, 36-3231 or 36-3281.

3. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

4. "Resident Review" means a subsequent Level II assessment and determination for existing nursing facility residents, triggered whenever an individual undergoes a significant change in status and that change has a substantial impact on their functioning as it relates to their mental illness/intellectual disability status.

5. "Significant Change" means a major decline or improvement in the resident's status that will not normally resolve itself without further intervention by staff or by implementing standard disease-related clinical interventions, that has an impact on more than one area of the resident's health status, and requires interdisciplinary review or revision of the care plan, or both (42 CFR 48 3.20).

POLICY

A. DIVISION REQUIREMENTS

1. The Division shall conduct Level II PASRR assessment for individuals suspected to have an Intellectual Disability (ID) or a related condition:

    a. Within nine business days from the date the completed Level I PASRR screening is received.

    b. Within five business days from the date the completed Level I PASRR screening is received when the Member is awaiting discharge from a hospital.

2. The Division shall ensure upon completion of Level II PASRR assessment, a Letter of Determination is sent to the following when applicable:

    a. Arizona Health Care Cost Containment System (AHCCCS);

    b. Social worker from the referring facility;

    c. Member and/or HCDM;

    d. Attending physician;

e. Support Coordinator; and

f. Social worker from a discharging facility.

B. RESIDENT REVIEW

The Division shall review resident review requests for individuals experiencing a significant change in condition within nine business days of the completed PASRR Level I screening being received.

C. ADMINISTRATIVE REVIEW PROCESS

1. The Division shall ensure an administrative review is provided for:

   a. Members to appeal a notice of intent to discharge or transfer the Member, and

   b. Members who have been adversely affected by a PASRR Determination in the context of:

      i. Preadmission screening, or

      ii. Annual resident review.

2. The Division shall ensure an appeals process is provided

as outlined in §483.15(h) and §431(e).

3. The Division shall ensure the following information is provided to the Member when filing an appeal:

   a. Statement of the Member's appeal rights;

   b. Name, address and telephone number of the entity receiving the request;

   c. How to obtain an appeal form;

   d. Assistance in completing and submitting the form for an appeal hearing request.

Signature of Chief Medical Officer: Anthony Dekker (Nov 9, 2023 11:53 MST)

700 School Based Claiming For Medicaid

REVISION DATE: 9/15/2014
EFFECTIVE DATE: June 30, 1994

The School Based Claiming Program through Arizona Health Care Cost Containment System (AHCCCS) covers both school-age children who are Medicaid Long Term Care eligible, and members supported by the Division's Targeted Support Coordination. The member must be at least three years of age but younger than 22 years of age, and have been determined by the school to be eligible for special education and related services. (See AHCCCS Medical Policy Manual Chapter 700.)

910 QUALITY MANAGEMENT AND PERFORMANCE IMPROVEMENT PROGRAM SCOPE

REVISION DATE: 10/11/2023, 12/07/2022, 10/01/2020, 8/1/2018, 7/15/2016

EFFECTIVE DATE: May 27, 2016

REFERENCES: 42 CFR Part 438, 42 CFR 438.2, 42 CFR 438.208, 42 CFR 438.242, 42 CFR 438.310(c)(2), 42 CFR 438.320, 42 CFR 438.330, AMPM 910, AMPM 900,

PURPOSE

This policy establishes the requirements of the Division of Developmental Disabilities (Division) regarding the administration, management, and implementation of the Quality Management and Performance Improvement (QM/PI) Program. This policy sets forth roles and responsibilities of the Division to provide oversight and ongoing Evaluation of the Administrative Services Subcontractors' (AdSS) compliance with QM/PI Program requirements.

DEFINITIONS

1. "Administrative Services Subcontract/Subcontractor" means an agreement that delegates any of the requirements of the Contract with AHCCCS, including, but not limited to the following:
    a. Claims processing, including pharmacy claims,
    b. Pharmacy Benefit Manager (PMB),
    c. Dental Benefit Manager,
    d. Credentialing, including those for only primary source verification (i.e., Credential Verification Organization [CVO]),
    e. Management Service Agreements,
    f. Medicaid Accountable Care Organization (ACO),
    g. Service Level Agreements with any Division or Subsidiary of a corporate parent owner, and
    h. Comprehensive Health Plan (CHP) and DDD Subcontracted Health Plan.

A person, individual or entity, who holds an Administrative Services Subcontract is an Administrative Services Subcontractor. Providers are not Administrative Services Subcontractors.

2. "Corrective Action Plan " or "CAP" means a written work plan that identifies the root cause(s) of a deficiency. The CAP is made up of goals and objectives; actions and tasks to be taken to facilitate an expedient return to compliance; methodologies to be used to accomplish CAP goals and objectives; and staff responsible to carry out the CAP within the established timelines.
3. "Evaluation" or "Evaluating" means the process used to examine and determine the level of Quality or the progress toward improvement of Quality and performance related to Division service delivery systems.
4. "Executive Body" means ADES Director, ADES Deputy Director and ADES Chief Compliance Officer.
5. "Health Information System" means the data system that collects, analyzes, integrates, and reports data and can achieve

the objectives of 42 CFR Part 438. The system provides information in the following areas: utilization; claims; grievances and appeals; and disenrollments for other than loss of Medicaid eligibility (42 CFR 438.242).

6. "Long Term Services and Supports" or "LTSS" means services and supports provided to Members of all ages who have functional limitations or chronic illnesses that have the primary purpose of supporting the ability of the Member to live or work in the setting of their choice, which may include the individual's home, a worksite, a Provider- owned or controlled residential setting, a nursing facility, or other institutional setting (42 CFR 438.2).
7. "Member" means the same as "Client" as defined in A.R.S.§36-551.
8. "Monitoring" means the process of auditing, observing, Evaluating, analyzing, and conducting follow-up activities, and documenting results via desktop or on-site review.

9. "Outcomes" means changes in patient health, functional status, satisfaction, or goal achievement that result from health care or supportive services (42 CFR 438.320).
10. "Performance Improvement Project" or "PIP" means a planned process of data gathering, Evaluation and analysis to determine interventions or activities that are projected to have a positive outcome. A PIP includes measuring the impact of the interventions or activities toward improving the Quality of care and service delivery. Formerly referred to as Quality Improvement Projects (QIP).
11. "Provider" means any individual or entity that contracts with the AdSS for the provision of covered services, or ordering or referring for those services to Members enrolled in an AdSS' health plan, or any subcontractor of a Provider delivering services pursuant to A.R.S 36-2901.
12. "Quality" as it pertains to external review, means the degree to which a contractor described in 42 CFR 438.310(c)(2) increases the likelihood of desired Outcomes of its Members

through:

a. Its structural and operational characteristics.

b. The provision of services that are consistent with current professional, evidenced-based knowledge.

c. Interventions for performance improvement (42 CFR 438.320).

POLICY

A. QUALITY MANAGEMENT AND PERFORMANCE IMPROVEMENT (QM/PI) PROGRAM OVERVIEW

1. The Division shall include the following elements in the QM/PI Program:

   a. Performance Improvement Projects (PIPs),

   b. Collection and submission of performance measurement data,

   c. Mechanisms to detect both under and overutilization of services, and

d. Mechanisms to assess the quality and appropriateness of care furnished to Members with special health care needs.

2. The Division shall include the following elements for Long-Term Services and Supports (LTSS) in the QM/PI program:

a. Mechanisms to assess the quality and appropriateness of care furnished to Members using LTSS, including:

i. Assessment of Care between care settings; and

ii. A comparison of services and supports received with those set forth in the member's treatment or service plan, if applicable, and

b. Participation in efforts by the State to prevent, detect, and remediate critical incidents that are based, at a minimum, on the requirements of the State for home and community-based waiver programs.

B. QUALITY MANAGEMENT AND PERFORMANCE IMPROVEMENT PROGRAM COMPONENTS

The Division shall adhere to the following QM/PI Program requirements:

a. Demonstrate that Members' rights and responsibilities are defined, implemented, and monitored;

b. Ensure that medical records and communication of clinical information for each member:

   i. Reflect all aspects of member care, including ancillary and behavioral health services; and

   ii. Are supported by policies and procedures for electronic signatures when electronic documents are utilized;

c. Conduct temporary or provisional, initial, and re-credentialing processes for individual and organizational providers in accordance with AMPM Policy 950;

d. Track and trend Quality of Care (QOC) concerns, service issue resolutions, and grievance and appeals that meets the standards as specified in AMPM Policy 960, 42 CFR 438.400, and 42 CFR 438.242 et seq.;

e. Develop and implement planned activities to meet or exceed AHCCCS-mandated Performance Measure

Performance Standards (PMPS), as specified in AHCCCS Contract and required by AMPM Policy 970, and PIP goals, as required by AMPM Policy 980;

f. Implement processes to review and Evaluate its quality improvement data for accuracy, completeness, logic, and consistency as well as trend quality improvement data to identify potential areas for improvement;

g. Evaluate performance measure and PIP results based on a number of demographics in order to reduce health disparities across demographics, to the extent practical;

h. Identify goals and objectives and implement interventions that are meaningful, specific, and applicable to the population(s) served;

i. Ensure ongoing communication and collaboration with other functional areas of the Division;

j. Demonstrate the obtainment and incorporation of input in matters related to program activities from:

   i. AHCCCS Members,

ii. Stakeholders,

iii. Advocates; and

iv. Contracted providers;

k. Monitor the quality and coordination between physical and behavioral health services, with procedures to ensure timely updates occur between Primary Care Physicians (PCPs) and behavioral health providers regarding a member's change in health status that shall include:

i. Diagnosis of chronic conditions,

ii. Changes in physical or behavioral health condition or diagnosis,

iii. Support for the petitioning process, if applicable,

iv. Transition to or from an ACC-RBHA, based on Serious Mental Illness (SMI) designation, when appropriate;

l. Promote timely engagement and appropriate service levels for adult Members, as well as enrolled youth and caregivers;

m. Identify, monitor, and implement interventions for High Needs/High Cost (HN/HC) Members to ensure appropriate and timely service provision for behavioral or physical health needs through developing processes to:

   i. Monitor appropriate use of methodologies for screening and identification of high needs adult Members; and

   ii. Maintain policies for Monitoring and documentation of ongoing implementation for AHCCCS review;

n. Identify standards for adults with an SMI diagnosis for all levels of service intensity;

o. Establish mechanisms to connect Members and families to family run organizations;

p. Provide training and Monitoring for provider use of Substance Abuse Mental Health Services Administration (SAMHSA) Fidelity Tools including:

   i. Assertive Community Treatment,

   ii. Supported Employment,

iii. Supportive Housing; and

iv. Consumer Operated Services;

q. Provide training of clinical and general staff on eligibility and use of services available for substance use prevention or treatment through funds available for individuals that are Non-Title XIX/XXI eligible, and as specified in AMPM Policy 320-T1.

r. Promote Evidence Based Practices in Substance Use Disorder (SUD) Treatment Services;

s. Develop a process to identify and refer youth and young adults to the behavioral health system when identified as having a diagnosed SUD;

t. Ensure implementation and completion of American Society of Addiction Medicine (ASAM) Criteria, utilizing the most current edition at the time of service in:

i. SUD assessments,

ii. Service planning,

iii. Level of care placement, and

iv. Monitoring fidelity of ASAM implementation in accordance with AHCCCS directed phased in approach;

u. Ensure AdSS has a process to increase and promote physical health care providers' knowledge of health-related topics including substance use screening, overdose reversal medications, and Medication Assisted Treatment (MAT) options available to Members;

v. Promote suicide prevention following the Zero Suicide Model to support the identification and referral of Members in need of behavioral health or crisis services considering of the following:

i. Community Members;

ii. Physical health providers;

iii. Behavioral health providers;

iv. Interested stakeholders; and

v. Agencies that serve individuals at increased risk for suicide (Veterans, individuals with Posttraumatic

Stress Disorder (PTSD), Native Americans, middle aged white males, Members of the Lesbian, Gay, Bisexual and/or Transgender Queer/Questioning (LGBTQ+) community, foster care, those age 65 and older, juvenile justice, and women post-partum);

w. Identify Veteran and service member enrollment within the behavioral health system to initiate referrals when behavioral health needs are identified;

x. Implement policies and procedures that require:

i. Providers to report the following incidents to the proper authorities as well as the Division, as soon as they become aware of the incident:

1) Incidents of abuse,

2) Neglect,

3) Injuries,

4) Exploitation,

5) Healthcare acquired conditions, and

6) Unexpected death.

ii. Providers to submit Incident, Accident, and Death reports to the Division as specified in 9 A.A.C. 10, AMPM Policy 960, and AMPM Policy 961;

y. Implement policies and procedures that:

i. Require providers to monitor and trend all suicides or suicides attempts;

ii. Ensure that all providers recognize signs and symptoms of suicidal ideation and at-risk behaviors for children and adults regardless of mental health status; and

iii. Ensure AdSSs identify requirements for care coordination between behavioral health providers and PCPs or other medical practitioners involved in member's care in the event that a physical health or behavioral health practitioner witnesses a patient with:

1) Suicidal ideation,

2) At-risk behaviors, or

3) Significant change in either the behavioral or physical health condition;

z. Develop a process to ensure a Health Risk Assessment (HRA) is conducted within 90 days of a new Member's effective enrollment date that consists of the following:

i. A "best effort" attempt is made to conduct an initial HRA of each member's health care needs;

ii. Follow up on unsuccessful attempts to contact a Member is made within 90 days of the effective date of enrollment;

iii. Each attempt is documented;

iv. Results of HRAs are used to identify individuals at risk for, or with special health care needs and coordinate care:

1) Refer to AMPM Policy 1620-A and AMPM Exhibit 1620-1 to obtain time frames for which ALTCS case managers shall have an initial contact with newly enrolled ALTCS Members; and

2) Refer to AMPM Policy 580 and ACOM Policy 417 to obtain time frames for which the Division shall have initial contact with referred Members for behavioral health services.

aa. Continuity of care and integration of services utilizing:

i. Programs for care coordination that include coordination of covered services with community and social services, generally available through contracted or non-contracted providers within the Division's service area;

ii. Monitoring of referral activities for both the PCP and the behavioral health provider during referral to, coordination of care with, and transfer of care between the PCP and the behavioral health provider;

iii. Monitoring to ensure that when a member is transitioning from the physical health provider to the behavioral health provider, or vice-versa, that bridge

medications are provided as specified in AMPM Policy 310-V and AMPM Policy 520;

iv. Monitoring of PCP's coordination of care with the Behavioral Health Medical Professional (BHMP), when PCPs are providing medical management services for the treatment of:

1) Mild depression;

2) Anxiety;

3) Attention Deficit Hyperactivity Disorder (ADHD); and

4) SUD, or Opioid Use Disorder (OUD) for Members with an SMI designation.

v. Monitoring to ensure that medication management by the PCPs is given within the PCP's scope of practice;

vi. Monitoring when PCP is providing treatment of mild depression, anxiety, ADHD, SUD, or OUD to ensure that medications are not contraindicated, based on

member's SMI designation or other behavioral health condition or functional status;

vii. Monitoring when a PCP is providing medical management services for a member to treat a behavioral health disorder, and it is subsequently determined by the PCP and Division that the member should receive care through the behavioral health system for Evaluation or continued medication management services, the Division's subcontracted providers shall assist the PCP with the coordination of the referral and transfer of care.

viii. Monitoring documentation of the care coordination activities and transition of care in the member's medical record from the PCP and the involved behavioral health provider;

ix. Utilizing Arizona's Controlled Substances Prescription Monitoring Program (CSPMP), in accordance with A.R.S. § 36-2606;

x. Monitoring of the behavioral health provider's referral to, coordination of care with, and transfer of care to PCP, as well as usage of Arizona's CSPMP, in accordance with A.R.S. § 36-2606; and

xi. Monitoring of coordination between behavioral health providers and PCPs or other medical practitioners involved in member's care in the event that a physical or behavioral health practitioner witness a patient with suicidal ideation or at-risk behaviors.

bb. Implement policies and procedures that specify:

i. The process for Members selecting, or the AdSS assigning, a PCP who is formally designated as having primary responsibility for coordinating the Members overall health care. The PCP shall coordinate care for the member including coordination with the BHMP or Behavioral Health Professional (BHP), and

ii. Processes for provision of appropriate medication monitoring for Members taking antipsychotic medication (per national guidelines):

1) Monitoring metabolic parameters for lithium, valproic acid, carbamazepine,

2) Renal function, liver function, thyroid function, glucose metabolism, screening for metabolic syndrome and involuntary movement disorders,

3) Provision of medication titration according to, drug class requirements and appropriate standards of care:

a) The circumstances under which services are coordinated by the Division, the methods for coordination, and specific documentation of these processes;

b) Specify services coordinated by the Division's Disease Management Unit; and

c) The requirements for timely and confidential communication of clinical information among providers, as specified in AMPM Policy 940.

cc. Implement measures to ensure that Members:

i. Are informed of specific health care needs that require follow-up;

ii. Receive, as appropriate, training in self-care and other measures they may take to promote their own health; and

iii. Are informed of their rights and responsibilities including, but not limited to the responsibility to adhere to ordered treatments or regimens.

dd. Develop and implement procedures for Members with special health care needs, as defined in the AHCCCS Contract, including:

i. Identifying Members with special health care needs, including those who may benefit from disease management;

ii. Ensuring an assessment by an appropriate health care professional of ongoing needs of each Member identified as having special health care need(s) or condition(s);

iii. Identifying medical procedures or behavioral health services, as applicable to address or monitor the need(s) or condition(s);

iv. Ensuring adequate care coordination among providers, including but not limited to, other Contractors or insurers and behavioral health providers, as necessary;

v. Ensuring a mechanism to allow direct access to a specialist as appropriate for the member's condition and identified special health care needs; and

vi. Implement processes and measures to ensure that Members receive Special Assistance, based on criteria as specified in AMPM Policy 320-R.

ee. Maintain a health information system that collects, integrates, analyzes, validates, and reports data necessary to implement its QM/PI Program (42 CFR 438.242). Data elements shall include:

i. Member demographics and designations;

ii. Encounter data and provider characteristics;

iii. Services provided to Members; and

iv. Other information necessary to guide the selection of, and meet the data collection requirements for:

1) Performance measures;

2) PIPs; and

3) QM/PI Program oversight.

ff. Include requirements, either in the AHCCCS Contract or as an extension of the AHCCCS Contract, for practitioners and providers to cooperate with quality improvement activities

and allow the Division to utilize their performance measure data.

gg. Ensure the inclusion of the following requirements related to data integrity:

i. Information and data received from providers is accurate, timely, and complete;

ii. Reported data is reviewed for accuracy, completeness, logic, and consistency, and the review and Evaluation processes used are clearly documented;

iii. Information that is rejected shall be tracked to ensure errors are corrected and the data is resubmitted and accepted; and

iv. Corrective actions are implemented with providers and vendors when data utilized for implementing and maintaining its QM/PI Program received from providers and vendors is not accurate, timely, or

complete, including data necessary to calculate and report performance measures.

hh. Results of the Division's quality improvement data review, analysis, reporting, and Evaluation are shared with Division staff and stakeholders, with internal corrective actions implemented when self-identified concerns and performance deficiencies are identified.

ii. Division staff and providers are kept informed of the following:

i. QM/PI Program requirements, activities, updates, or revisions;

ii. Study and PIP results;

iii. Performance measures and results;

iv. Utilization data; and

v. Profiling data results.

jj. All member and provider information are protected by Federal and State law, regulations, or policies is kept confidential; and

kk. Maintenance of records and documentation as required under State and Federal law.

ll. All QM/PI Program Components shall be supported through the development, implementation, and maintenance of policies and procedures.

C. QUALITY MANAGEMENT AND PERFORMANCE IMPROVEMENT PROGRAM ADMINISTRATIVE STRUCTURE AND OVERSIGHT

1. The Division's QM/PI Program shall be administered through a clear and appropriate administrative structure that maintains the ultimate responsibility for the QM/PI Program.
2. The QM/PI Unit shall conduct all work of the QM/PI Program within the QM/PI Unit, adhering to requirements as specified in the AHCCCS Contract and AMPM Chapter 900.
3. The Division shall require that the Division's administrative structure for its QM/PI Program adheres to requirements of this section, which specify the roles and responsibilities of the following:
   a. The governing or policy-making body;

b. The Chief Medical Officer (CMO) or designated Medical Director, and the local DDD Assistant Director;

c. The QM/PI Committee;

d. The Peer Review Committee;

e. QM/PI Program Staff;

f. Delegated Entities; and

g. The Contractor's executive management.

4. The Executive Body and Executive Leadership Team (ELT) shall:

a. Oversee and be accountable for the QM/PI Program,

b. Review the QM/PI Program Plan, inclusive of the Work Plan and Work Plan Evaluation, and any applicable updates related to changes in the QM/PI Program scope prior to submission to AHCCCS; and

5. The Executive Body and Executive Leadership Team (ELT) shall:

a. Review and approve the QM/PI Program Plan, as demonstrated via an attestation of approval by the Executive Body and Executive Leadership Team (ELT);

b. Formally Evaluate and document the effectiveness of its QM/PI Program strategy and activities, at least annually, as demonstrated via an attestation of approval by the Executive Body and Executive Leadership Team (ELT);

6. The Division's Chief Medical Officer (CMO) and Division's Assistant Director shall:

   a. Oversee the implementation of the QM/PI Program Plan; and

   b. Have substantial involvement in the:

      i. Implementation;

      ii. Assessment; and

      iii. Resulting improvement of QM/PI Program activities;

   c. The CMO shall approve and sign all QM/PI policies.

7. The QM/PI Committee shall have an identifiable and structured QM/PI Committee within the state of Arizona that is responsible for QM/PI Program functions and responsibilities.

   a. Membership shall include:

      i. The CMO, serving as the chairperson:

1) The CMO may designate the local Associate Medical Director as their designee only when the CMO is unable to attend the meeting; and

2. The DDD Assistant Director may be identified as the co-Chair of the QM/PI Committee.

ii. The QM/PI Manager(s):

1) Representatives from the functional areas within the Division;

2) Contracted or affiliated providers serving AHCCCS Members; and

3) Clinical representatives of both the Division and the provider network.

b. The QM/PI Committee shall ensure that each of its Members are aware of the requirements related to confidentiality and conflicts of interest by having either:

i. Signed statements on file; or

ii. QM/PI Committee sign-in sheets with requirements noted.

c. The QM/PI Committee shall conduct meetings, at minimum, on a quarterly basis:

   i. The frequency of committee meetings shall be sufficient to monitor all program requirements and to monitor any required actions; and

   ii. The Division shall provide evidence of actual occurrence of these meetings through minutes and other supporting documentation.

d. The QM/PI Committee shall:

   i. Review the QM/PI Program objectives, policies, and procedures as specified in the AHCCCS Contract;

   ii. Update policies when processes or activities are changed substantially; and

   iii. Make available upon request for review by AHCCCS QM and/or Quality Improvement (QI) Teams, the QM/PI policies, procedures, and any subsequent modifications.

e. The QM/PI Committee shall also:

i. Review, Evaluate, and approve any changes to the QM/PI Program Plan;

ii. Develop procedures for QM/PI Program responsibilities and clearly document the processes for each QM/PI Program function and activity;

iii. Develop and implement procedures to ensure that Division staff and providers are informed of the most current QM/PI Program requirements, policies, and procedures; and

iv. Develop and implement procedures to ensure that providers are informed of information related to their performance;

f. The QM/PI Committee shall ensure meeting minutes clearly document discussions of the following:

i. Identified issues;

ii. Responsible party for interventions or activities;

iii. Proposed actions;

iv. Evaluation of the actions taken;

v. Timelines including start and end dates; and

vi. Additional recommendations or acceptance of the results, as applicable.

8. The Division shall have a peer review process with the purpose of improving the QOC provided to Members by both individual and organizational providers.

9. The Division shall ensure the peer review scope includes cases where there is evidence of deficient quality or the omission of the care or service provided by a physical or behavioral health care provider whether delivered in or out of state.

10. The Division shall define the peer review scope through specific policies and procedures which address the following requirements:

a. The Division shall not delegate functions of peer review to other entities;

b. The Peer Review Committee is scheduled to meet at least quarterly, or more frequently, as needed;

c. The Peer Review Committee may carry out activities as a stand-alone committee or in an executive session of the Division's QM Committee;

d. The Peer Review Committee consists of:

   i. The Division's CMO as Chair;

   ii. Contracted medical providers from the community that serve AHCCCS Members; and

   iii. Contracted behavioral health providers from the community that serve AHCCCS Members.

e. The Peer Review Committee also includes:

   i. Providers of the same or similar specialty in review and recommendation of individual peer review cases.

   ii. Peers of the same or similar specialty through external consultation, if the specialty being reviewed is not represented on the Division's Peer Review Committee;

f. Peer Review Committee Members:

i. Shall sign a confidentiality and conflict of interest statement at each Peer Review Committee meeting, electronic signature is permissible; and

ii. Shall not participate in peer review activities if they have a direct or indirect interest in the peer review outcome;

g. The Peer Review Committee shall Evaluate referred cases based on all information made available through the QM process;

h. The Peer Review Committee shall make recommendations to the Division's CMO or their designee, determining appropriate action.

i. The CMO or their designee shall implement actions recommended by the Peer Review Committee. Adverse actions taken as a result of the Peer Review Committee shall be reported to AHCCCS QM Team as specified in the AHCCCS contract;

j. The Peer Review Committee shall make recommendations to the Division's CMO or their designee regarding initiation of referrals for further investigation or action to:

   i. Division of Child Safety (DCS);

   ii. Adult Protective Services (APS);

   iii. Arizona Department of Health Services (ADHS) Licensure Unit;

   iv. The appropriate regulatory agency or board; and

   v. AHCCCS.

k. The Peer Review Committee shall notify the organizations listed in the previous section when the Committee determines care was not provided according to the medical community standards:

   i. To the regulatory agency as soon as possible, no later than 24 hours after the determination; and

   ii. Verbally or electronically, email or online, as determined by the specific organization(s) guidelines.

l. The Division shall develop a process to timely report the concern to the appropriate regulatory agency;

m. The Peer Review Committee shall maintain confidentiality with all information used within the peer review process, keeping reports, meetings, minutes, documents, recommendations, and participants confidential except for when implementing recommendations made by the Peer Review Committee;

n. The Peer Review Committee shall make documentation available upon request to AHCCCS for purposes of QM, Monitoring, and oversight;

o. The Peer Review Committee shall maintain high-level peer review summaries as part of the original QOC file,

p. The Division shall demonstrate:

    i. How the peer review process is used to analyze and address clinical issues;

    ii. How providers are made aware of the peer review process; and

iii. How providers are made aware of the procedure for grieving peer review findings.

q. Matters appropriate for peer review shall be outlined in the Division's Peer Review Charter.

11. The QM/PI Program shall have local personnel to carry out the functions and responsibilities specified in AMPM Chapter 900 in a timely and competent manner, with QM/PI positions performing work functions related to the AHCCCS Contract reporting directly to the local CMO and the CEO.

12. The Division is responsible for AHCCCS Contract performance, whether or not subcontractors or delegated entities are used. As part of the QM/PI Program Staffing requirements, the Division shall:

a. Maintain an organizational chart that shows the reporting relationships for QM/PI Program activities and the percent of time dedicated to the position for each specific line of business:

i. The QM/PI Program organizational chart shall be maintained and demonstrate the current reporting structures, including the number of full time and part time positions, staff names, and responsibilities;and

ii. This chart shall also show direct oversight of QM/PI Program activities by the local CMO.

b. Ensure all staff are trained on the process for referring suspected QOC concerns to the QM Team:

i. During employee orientation, no later than 30 days after the date of hire; and,

ii. At a minimum, annually thereafter.

c. Develop and implement policies and procedures outlining:

i. QM/PI Program staff qualifications including education, certifications, experience, and training for each QM/PI Program position; and

ii. Mandatory QM/PI Program Staff or Management attendance at AHCCCS Contractor meetings unless attendance is specified as optional by AHCCCS.

d. Attend or participate in, and maintain associated documentation for, applicable community initiatives and collaborations as well as implement specific interventions to address overarching community concerns.

13. The Division shall oversee and maintain accountability for all functions and responsibilities as specified in AMPM Chapter 900, which are delegated to other entities.

14. The methodologies for oversight and accountability for all delegated functions shall be integrated into the overall QM/PI Program with the requirements, specified in AMPM Chapter 900, being met for all delegated functions. Accredited agencies shall be included in the Division's oversight process:

a. As a prerequisite to delegation, the Division shall provide a written analysis of its historical provision of QM/PI Program oversight function, which includes past goals and objectives. The level of effectiveness of the prior QM/PI Program oversight functions shall be documented.

Examples may include the number of claims, concerns, grievances, or network gaps;

b. The Division shall have policies and procedures requiring that the delegated entity report all allegations of QOC concerns and quality of service issues to the Division no later than 24 hours of awareness. QOC or service investigation and resolution processes shall not be delegated;

c. The Division shall Evaluate the entity's ability to perform the delegated activities prior to delegation. Evidence of such Evaluation includes the following:

   i. Review of appropriate internal areas, such as QM;

   ii. Review of policies and procedures and the implementation of them; and

   iii. Documented Evaluation and determination that the entity is able to effectively perform the delegated activities.

d. The Division shall establish a written contract prior to delegation, that specifies the delegated activities and reporting responsibilities of the entity to the Division;

e. The Division shall include in the agreement, the Division's right to terminate the contract or perform other remedies for inadequate performance;

f. The Division shall review annually and monitor performance of the entity and the quality of services provided on an ongoing basis.

g. The Division shall annually review a minimum of 30 randomly selected cases per line of business for each function that is delegated, keeping documentation on file for AHCCCS review.

h. The Division shall Monitor:

   i. Utilization;

   ii. Member and provider satisfaction;

   iii. QOC concerns; and

   iv. Complaints.

i. The Division shall review the performance and quality of services provided by entities that are accredited through the National Committee for Quality Assurance (NCQA) or another nationally recognized entity, reviewing a minimum of 10 randomly selected files per line of business for each function that is delegated.

j. The Division shall expand the sample to no less than 30 files in order to fully assess and identify issues and implement remediation efforts with the delegated service provider if any issues or concerns are noted within the files reviewed.

k. The Division shall submit Monitoring results to AHCCCS in accordance with ACOM Policy 438.

l. The Division shall keep the following documentation on file and available for AHCCCS review:

    i. Evaluation reports;

ii. Results of the Division's annual Monitoring review of the delegated entity utilizing AHCCCS required standards for the contracted functions;

iii. Corrective Action Plans, or CAPs; and

iv. Appropriate follow up of the implementation of CAPs to ensure that quality and compliance with AHCCCS requirements for all delegated activities or functions are met.

D. QM/PI PROGRAM MONITORING AND EVALUATION ACTIVITIES

1. The Division shall develop and implement mechanisms to Monitor and Evaluate its service delivery system and provider network that demonstrates compliance with all the requirements included within this Policy.
2. The Division's QM/PI Program QM staff shall directly oversee delegated entities conducting Monitoring activities.
3. The Division's QM/PI Program staff shall include the following Monitoring and Evaluation activities:

a. QM/PI Program scope of Monitoring and Evaluation be comprehensive and:

   i. Incorporate the activities used by the Division;

   ii. Demonstrate how these activities will improve the quality of services and the continuum of care in all services sites; and

   iii. Be clearly documented in policies and procedures.

b. If collaborative opportunities exist to coordinate organizational Monitoring, the lead Contractor coordinate and ensure that all requirements in the collaborative arrangement are met;

c. Monitor provider compliance with policies, training, and signage requirements aimed at preventing and reporting abuse, neglect, and exploitation as specified in AHCCCS Minimum Subcontract Provisions and Contract;

d. Information and data gleaned from QM/PI Program Monitoring and Evaluation that shows trends in QOC concerns are used in developing quality improvement

initiatives. Selection of specific Monitoring and Evaluation activities shall be appropriate to each specific service or site.

e. Development and implementation of methods for Monitoring PCP activities related to:

i. Referrals for behavioral health care,

ii. Coordination with the behavioral health system,

iii. Transfer of care, when clinically indicated, based on severity of behavioral health need, and

iv. Use of the CSPMP. Monitoring procedures for the CSPMP process shall include:

a) Assurance of communication between prescribers, when controlled substances are used;

b) Provider-mandated usage of the CSPMP; and

c) Integration strategies and activities focused on improving individual health Outcomes;

enhancing care coordination, and increasing member satisfaction.

f. Development and implementation of methods for Monitoring behavioral health provider activities related to:

i. Referrals for physical health care;

ii. Coordination with the physical health system;

c. Use of the CSPMP. Monitoring procedures for the CSPMP process shall include:

1) Assurance of communication between prescribers, when controlled substances are used;

2) Include provider-mandated usage of the CSPMP; and

3) Integration strategies and activities focused on improving individual health Outcomes, enhancing care coordination, and increasing member satisfaction.

g. Reporting of all QOC concerns including:

i. Incidents of abuse, neglect, exploitation, suicide attempts, opioid-related concerns, alleged human rights violations, and unexpected deaths to the AHCCCS QM Team as soon as the Division is aware of the incident and no later than one business day, as specified in Contract. The Division is expected to investigate and report case findings, including identification of organizational providers, individual providers, paid caregivers, or the specific individual rendering the service;

ii. Identified QOC concerns, reportable incidents, or service trends to the AHCCCS QM Team immediately upon identification.

1) Reporting shall include trend specifications such as providers, facilities, services, and allegation types;

2) Division QOC trend reports shall be incorporated into Monitoring and Evaluation

activities and presented to the QM/PI Committee; and

3) Policies and procedures shall be adopted to explain how the process is routinely completed.

h. Investigate all potential Health Care Acquired Conditions (HCAC) and Other Provider-Preventable Condition (OPPC) as QOC concerns within the AHCCCS QM Portal as described in AMPM Policy 960.

i. Incorporation of the ADHS licensure and certification reports and other publicly reported data in their Monitoring process, as applicable.

j. A process to ensure notification is made to the Division's QM clinical staff when a delegated auditing entity identifies either a Health and Safety Concern, Immediate Jeopardy situation, or other serious incident, which impacts the health and safety of a member.

i. On-site reviews related to Health and Safety Concerns, Immediate Jeopardy situations, or other

serious incidents are to be conducted in accordance with the requirements as specified in AMPM Policy 960;

ii. In working to ensure health and safety of Members in placement settings or service sites that are found to have survey deficiencies or suspected issues that may impact the health and safety of AHCCCS Members, the Division shall:

1) Actively participant in both individual and coordinated efforts to improve the QOC in placement settings or service sites; and

2) Utilize clinical quality staff trained in QOC investigations to conduct on-site reviews if there is a health or safety concern identified either by the Division, AHCCCS, or other party.

k. The Division QM staff conduct the Monitoring of services and service sites, in accordance to Attachment A. While the Division may also consider incorporating regulatory

agency licensing reviews, such as annual inspection surveys, as part of the Monitoring of services and service sites, the regulatory agency reviews shall not be used as the sole basis for the entire Monitoring Evaluation by the Division. Refer to Attachment A for the list of AHCCCS services, service sites, and Monitoring frequency;

l. Implementation of policies and procedures for ALTCS Contractors specific to the annual Monitoring of attendant care, homemaker services, personal care services, respite services and habilitation services. When deficiencies or potential deficiencies are identified, they shall be addressed from a member and from a system perspective; and

m. Coordination of mandatory routine quality Monitoring and oversight activities for organizational providers, including home and community based service settings, when the provider included is in more than one Contractor network. A collaborative process shall be utilized in counties when

more than one Contractor is contracted with and utilizes the facility as specified in Contract. The Division, or the lead Contractor if Contractor collaborative Monitoring was completed, shall submit the Contractor Monitoring summary to AHCCCS QM Team as specified in Contract.

n. A standardized and agreed upon tool shall be used and contain:

i. General quality Monitoring of these services are the review and verification of:

1) The written documentation of timeliness;

2) The implementation of contingency plans;

3) Customer satisfaction information;

4) The effectiveness of service provisions;

5) Mandatory documents in the services or service site personnel file as follows:

a) Cardiopulmonary resuscitation;

b) First Aid;

c) Verification of skills or competencies to provide care;

d) Evidence that the agency contacted at least three references, one of which shall be a former employer. Results of the contacts shall be documented in the employee's personnel record; and

e) Evidence that the provider conducted the pre-hire and annually thereafter search of the APS Registry as required in AHCCCS Minimum Subcontract Provisions.

iii. Specific quality Monitoring requirements for ALTCS Contractors are as follows:

a) Direct Care Services, as specified in AMPM Policy 1240-A (Attendant care, Personal Care and Homemaker services), Monitoring as specified in Attachment B. Monitoring shall

include verification and documentation of all of the following:

1) Mandated written agreement between the member/Health Care Decision Maker, and designated representative and the Direct Care Worker (DCW), as specified in AMPM Policy 1240-A, which delineates the responsibilities of each;
2) Evaluation of the appropriateness of allowing the member's immediate relatives to provide direct care services;
3) Compliance with ensuring DCWs meet competencies to provide care including training, testing, verifying/sharing of DCW test records and continuing education requirements in accordance with Attachment B; and

4) Timeliness and content of supervisory visitations as specified in AMPM Policy 1240- A.

b) Sampling methodology for Monitoring of direct care services shall assure that all provider agencies and all employees have an equal opportunity to be sampled (provider agencies shall be included in the sample frame even if the number of employees does not meet a statistically significant level. All employees shall be included in the sample frame including those who are in the pool of workers but are not currently assigned to a member;

4. The Division shall have mechanisms to assess the quality and appropriateness of care provided to Members receiving LTSS services including between settings of care and, as compared to the member's service plan 42 CFR 438.330 (b)(5)(i);

5. The Division shall monitor that the LTSS services a member receives align with those that were documented in the member's LTSS treatment or service plan 42 CFR 438.330 (b)(5)(i); and
6. The Division may also consider incorporating the use of surveys to assess the experience of Members receiving LTSS services as a key component of the Division's LTSS assessment process.

SUPPLEMENTAL INFORMATION:

1. Changes in the QM/PI Program scope include any alterations made to the Division's QM/PI Program structure from one year to the next. This may also include line of business, population, and geographic service area changes.
2. Matters appropriate for peer review shall include, but are not limited to:

a. Cases where there is evidence of deficient quality,
b. An omission of the care or service provided by a participating or non-participating physical health care or behavioral health care provider, facility, or vendor,
c. Questionable clinical decisions, lack of care and/or substandard care,

d. Inappropriate interpersonal interactions, unethical behavior, physical, psychological, or verbal abuse, neglect, and exploitation of a member or members, family, staff, or other disruptive behavior demonstrated by a provider,

e. Criminal or felonious actions related to practice,

f. Issues that immediately impact the member and that are life threatening or dangerous, and

g. Issues that have the potential for adverse outcome.

3. Documentation for participation in applicable community initiatives and collaborations, as well as implement specific interventions to address overarching community concerns including, but not limited to:

a. Quality Management and Quality Improvement,

b. Maternal child health,

c. Early and Periodic Screening, Diagnostic and Treatment (EPSDT) and Dental,

d. Chronic Disease management,

e. Long-Term Care

f. Behavioral health,

g. Justice Involvement,

h. Opioid and substance use,

i. Suicide,

j. Social determinants of health,

k. Veterans' resources and services, and

l. Specific community initiatives and collaborations, and as required by AHCCCS.

AHCCCS sponsored activities are not considered community initiatives or collaborations.

920 QUALITY MANAGEMENT AND PERFORMANCE IMPROVEMENT PROGRAM ADMINISTRATIVE REQUIREMENTS

REVISION DATE: 8/16/2023, 4/20/2022, 10/1/2020
EFFECTIVE DATE: May 13, 2019
REFERENCES: CFR 42 CFR Part 438; 42 CFR 438.320; 42 CFR 438.310(c)(2); 42 CFR Part 457; 42 CFR 438.354; 42 CFR 438.358; AMPM 910; AMPM 920; AMPM 970; AMPM 980

PURPOSE

This policy specifies the Division's Quality Management and Performance Improvement (QM/PI) Program administrative requirements and explains how the Division monitors the performance of their Administrative Services Subcontractors (AdSS) for compliance with these requirements.

DEFINITIONS

1. "AHCCCS Division of Healthcare Management (DHCM), Quality Improvement (QI) Team" means AHCCCS staff who Evaluate the Division's Quality Management and Performance Improvement (QM/PI) Programs, monitors compliance with required Quality and Performance Improvement Standards Division Corrective Action Plans (CAPs) and Performance Improvement Projects

(PIPs) and provides technical assistance for QM/PI related matters.

2. "Corrective Action Plan (CAP)" means a written Work Plan that identifies the root cause(s) of a deficiency, includes goals and Objectives, actions, and tasks to be taken to facilitate an expedient return to compliance, methodologies to be used to accomplish CAP goals and Objectives, and staff responsible to carry out the CAP within established timelines. CAPs are generally used to improve performance of the Division and its providers, to enhance QM/PI activities and the Outcomes of the activities, or to resolve a deficiency.
3. "Evaluate" means the process used to examine and determine the level of Quality or the progress toward improvement of Quality and performance related to the Division's service delivery systems.
4. "External Quality Review (EQR)" means the analysis and evaluation by an External Quality Review Organization (EQRO), of aggregated information on Quality, timeliness, and access to

the health care services that the Division or AdSS furnish to Medicaid members [42 CFR 438.320].

5. "External Quality Review Organization (EQRO)" means an organization that meets the competence and independence requirements set forth in 42 CFR 438.354, performs EQR, and other EQR-related activities as specified in 42 CFR 438.358, or both [42 CFR 438.320].
6. "Measurable" means the ability to determine definitively whether or not a quantifiable Objective has been met, or whether progress has been made toward a positive outcome.
7. "Monitoring" means the process of auditing, observing, evaluating, analyzing, and conducting follow-up activities, and documenting results via desktop or on-site review.
8. "Objective" means a Measurable step, generally one of a series of progressive steps, to achieve a goal.
9. "Outcomes" means changes in patient health, functional status, satisfaction, or goal achievement that result from health care or supportive services [42 CFR 438.320].

10. "Performance Improvement Project (PIP)" means a planned process of data gathering, evaluation and analysis to determine interventions or activities that are projected to have a positive outcome. A PIP includes measuring the impact of the interventions or activities toward improving the Quality of Care and service delivery.
11. "Performance Measure Performance Standards (PMPS)" means the minimal expected level of performance by the Division, previously referred to as the Minimum Performance Standard. Beginning Calendar Year End (CYE) 2021, official performance measure results shall be Evaluated based upon the National Committee on Quality Assurance (NCQA) HEDIS® Medicaid Mean or Centers for Medicare and Medicaid Services (CMS) Medicaid Median (for selected CMS Core Set-Only Measures) as identified by AHCCCS, as well as the Line of Business aggregate rates, as applicable.

12. "Quality" As it pertains to External Quality Review, means the degree to which Division increases the likelihood of desired Outcomes of its members through:

    a. Its structural and operational characteristics.

    b. The provision of services that are consistent with current professional, evidenced- based-knowledge.

    c. Interventions for performance improvement.

13. "Quality of Care (QOC)" means an expectation that, and the degree to which, the health care services provided to individuals and patient populations improve desired health outcomes and are consistent with current professionally recognized standards of care and service provision.

14. "Quality Management Unit (QMU), Quality Improvement (QI) Team" means Division staff who Evaluate AdSS Quality Management and Performance Improvement (QM/PI) Programs, monitor, and Evaluate compliance with required Quality and performance improvement standards through standardized Performance Measures (PM), Performance Improvement Projects

(PIPs), and Quality Improvement specific Corrective Action Plans (CAPs), as well as provide technical assistance for performance improvement related matters.

15. "Work Plan" means a document that addresses all the requirements of AMPM Chapter 900, and AHCCCS-suggested guidelines, as well as supports the Division's QM/PI goals and Objectives with Measurable goals (Specific, Measurable, Attainable, Relevant and Timely (SMART)), timelines, methodologies, and designated staff responsibilities. The Work Plan must include Measurable physical, behavioral, and oral health goals and Objectives.

16. "Work Plan Evaluation" means a detailed analysis of progress in meeting or exceeding the Quality Management and Performance Improvement (QM/PI) Program Objectives, strategies, and activities proposed to meet or exceed the performance standards and requirements as specified in contract and Division Medical Policy Chapter 900.

POLICY

A. QUALITY MANAGEMENT/PERFORMANCE IMPROVEMENT PROGRAM PLAN

1. The Division shall develop a written QM/PI Program Plan that specifies the Objectives of its QM/PI Program and addresses the Division's approaches to meet or exceed the performance standards and requirements as specified in Contract and AMPM Chapter 900.
2. The Division shall submit its QM/PI Program Plan as specified in the AHCCCS contract.
3. The Division shall include the following in its QM/PI Program narrative:
    a. Objectives and plans for the upcoming calendar year to meet or exceed the requirements as specified in contract and in compliance with Division Medical Policy Chapter 900.
    b. Division activities to identify member needs and to coordinate care. Follow-up activities to ensure appropriate

and medically necessary treatment is received in a timely manner.

c. Division participation in community and Quality initiatives.

d. AHCCCS defined checklist items and guidance.

4. The Division shall include the following in its QM/PI Program Work Plan Evaluation:

a. Evidence or documentation supporting continued routine Monitoring to Evaluate the effectiveness of the actions and other follow up activities conducted throughout the previous calendar year.

b. A description of how any sustained goals or Objectives will be incorporated into the Division's business practice and develop new goals or Objectives once a goal or Objective has been sustained.

c. Performance measure related Plan-Do-Study-Act (PDSA) cycles that have been initiated, updated, or refined as part of the Division's ongoing Corrective Action Plan (CAP) Monitoring and Evaluation activities.

d. Goals not met will be addressed and considered for possible internal Performance Improvement Projects (PIPs).

5. The Division shall include the following in its QM/PI Work Plan:

a. Goals and Objectives that are realistic, Measurable, clinical, or non- clinical, and based upon established Performance Standards and requirements as specified in the current AHCCCS contract and Division Medical Policy Chapter 900 series when appropriate.

b. Other nationally recognized benchmarks as available to establish minimum performance standards or when performance standards have not been published by AHCCCS.

c. Strategies and activities to meet or accomplish the identified goals and Objectives.

d. Identify responsible staff positions accountable for meeting the established goals and Objectives.

e. PIPs designed to address opportunities for improvement identified from both external and internal sources.

6. The Division shall include the following in its Health Disparity Summary and Evaluation Report:

a. The process utilized to conduct disparity analyses including the analytical tools and the methodology for identifying disparities.

b. Disparity analysis findings associated projects and activities meant to ameliorate the disparity(s)and related Measurable goals or Objectives.

c. An evaluation of the disparity analysis findings, progress on targeted strategies and interventions, and progress on identified goals or Objectives.

d. Member-specific data including targeted inquiries and other related ad hoc reports.

e. A detailed evaluation of performance measure rates specific to subpopulations.

f. An analysis of the effectiveness of implemented strategies and interventions in meeting the Division's health equity goals and Objectives during the previous calendar year.

g. A detailed overview of the Division's identified health equity goals or Objectives for the upcoming calendar year to address noted disparities and promote health equity.

h. Targeted strategies or interventions planned for the upcoming calendar year to achieve its goals.

7. The Division shall include the following in its Engaging Members Through Technology (EMTT) – Executive Summary:

a. An evaluation of the previous calendar year's EMTT activities including:

i. The percent of members engaged through telehealth services and through web and mobile-based applications in comparison to total membership, and

ii. Member-specific metrics including targeted inquiries and other related ad hoc reports, for member-related

Outcomes in comparisons to identified goals and Objectives.

b. Criteria for identifying and targeting members who can benefit from telehealth services and from web and mobile-based applications, including but not limited to:
   i. The identification of populations who can benefit from telehealth services to increase access to care and services, and
   ii. The identification of populations who can benefit from web and mobile-based applications.
c. A description of telehealth services and web and mobile-based applications in development and currently being utilized to engage members.
d. Strategies used to engage the identified members in the use of telehealth services and web and mobile-based applications.
e. A description of desired goals and outcomes for telehealth services and for each web and mobile-based application

currently being utilized to engage members, including how the desired outcome will be measured and directly impact the overall Quality of and Access to care for the identified population(s).

f. The percentage of members anticipated to engage through telehealth services and through web and mobile-based applications during the upcoming calendar year based on the identified strategies and related goals or Objectives.

8. The Division shall submit a completed AMPM Policy 920 QM/PI Program Plan Checklist, including any Division or AdSS policies relevant to the QMPI Program that are new or have been substantially changed, along with its QM/PI Program Plan

B. BEST PRACTICES AND FOLLOW UP ON PREVIOUS YEAR'S EXTERNAL QUALITY REVIEW REPORT RECOMMENDATIONS

The Division shall submit recommendations as specified in contract and include:

1. An overview of self-reported best practices submitted as a stand-alone document, highlighting a minimum of three

initiatives aimed at improving care and services provided to members.

2. A summary of the Division's efforts to date in completing the most current and Previous Year's EQR Report Recommendations, as a stand-alone document.
3. Best Practices and Follow Up on Previous Year's EQR Report and Recommendations Checklist

C. PERFORMANCE MEASURE MONITORING REPORT

The Division shall develop and submit the AHCCCS Performance Measure Monitoring Report & Work Plan Evaluation Template and AHCCCS Performance Measure Monitoring Report & Work Plan Attachment. The report includes the following:

1. The Division's progress in meeting, sustaining, and improving its performance based on contractual requirements in accordance with the AHCCCS template and report format.
2. The internal rates for each performance measure.

3. Identified barriers in implementing planned interventions and opportunities for improvement intended to support meeting identified goals or Objectives.
4. Detailed analysis of results that includes an evaluation of the Division's performance compared to the following:
    a. Performance Measure Performance Standards in accordance with Division Medical Manual Policy 970.
    b. Self-identified goals and Objectives.
    c. Historical performance.

D. PERFORMANCE IMPROVEMENT PROJECT REPORT

The Division shall include in its Performance Improvement Project (PIP) Report annual updates for both AHCCCS-mandated and Division self-selected PIPs, in accordance with the Division Medical Manual Policy 980, including the use of AMPM Policy 980 Attachment C, Performance Improvement Project (PIP) Report DDD Specific.

E. CORRECTIVE ACTION PLAN

1. The Division shall develop and implement a Corrective Action Plan (CAP) for taking appropriate steps to improve care when issues are identified.
2. The Division shall submit All CAPs to AHCCCS for review and approval prior to implementation and include:
    a. The concern(s) that require corrective action.
    b. Identification of any deficiency and remedial steps to be taken to facilitate a return to compliance.
    c. Documentation of proposed time frames for CAP completion.
    d. Entities responsible for making the final determinations regarding QM/PI Program concerns.
    e. Actions to be taken including, but not limited to:
        i. Education, training, technical assistance,
        ii. Follow-up Monitoring and Evaluation of improvement as well as implementing new interventions, approaches, when necessary,
        iii. Changes in process, structure, and forms, and

iv. Informal counseling.

f. Documentation of performance Outcomes identified barriers, opportunities for improvement, and best practices.

g. Internal dissemination of CAP findings and results to appropriate committees, staff, and network providers.

h. Submit information to AHCCCS and other stakeholders as required.

i. For QOC specific CAPs, information is submitted in accordance with Division Medical Manual Policy 960.

3. The Division shall submit CAPs as required in AMPM Policy 920, Attachment B AHCCCS Quality Improvement Corrective Action Plan Proposal Checklist, and AHCCCS Quality Improvement Corrective Action Plan Update Checklist.

4. The Division shall maintain documentation regarding CAPs development, implementation, the performance outcomes, identified barriers, opportunities for improvement, and best

practices.

F. REPORTING REQUIREMENTS

1. The Division shall submit deliverables as specified in the contract and in accordance with AHCCCS/Division of Healthcare Management (DHCM) QI Team instructions and guidance.

2. If a time extension is necessary, the Division shall submit a formal request in writing no later than two business days before the deliverable due date explaining the basis for request and timeline extension to the AHCCCS/DHCM, Quality Management (QM), or Quality Improvement (QI) team manager, as appropriate to the deliverable.

3. The Division shall submit the QM/PI Program administrative deliverables as specified in contract and subject to AHCCCS approval. The Division shall submit any significant modifications to the QM/PI Program Plan throughout the year to the AHCCCS/DHCM, QM and QI team managers for review and approval prior to implementation.

4. The Division shall provide the QM/PI administrative deliverables and other select deliverable submissions to the AHCCCS EQRO with Division supplied information included within the Division's annual EQR Report posted to the AHCCCS website.

G. DOCUMENTATION REQUIREMENTS

1. The Division shall maintain records that document QM/PI Program activities. The required documentation includes:

   a. Studies and PIPs

   b. CAPs

   c. All required reports

   d. All processes, standards of work, and desktop procedures

   e. Meeting agendas, minutes, and accompanying documents

   f. Worksheets (including but not limited to excel spreadsheets, graphs, diagrams, flowcharts)

   g. Other information and data appropriate to support changes

made to the scope of the QM/PI Plan or Program

2. The Division shall make the records available to AHCCCS/DHCM, QM and QI teams upon request.

H. DIVISION OVERSIGHT OF ADMINISTRATIVE SERVICES SUBCONTRACTORS

1. The Division monitors each of the AdSS for compliance with the QM/PI Program administrative requirements throughout the contract year by reviewing required reports, status updates reported by the AdSS at Division meetings and during an annual operational review.

2. The Division may require the AdSS to submit a CAP or initiate a PIP when areas of non-compliance are noted.

Signature of Chief Medical Officer: Anthony Dekker (Aug 11, 2023 10:56 PDT)

940 MEDICAL RECORDS AND COMMUNICATION OF CLINICAL INFORMATION

REVISION DATE: 9/6/2023
EFFECTIVE DATE: 5/18/2022
REFERENCES: A.R.S. §13-3620, 9 A.A.C. R9-10, 45, 9 A.A.C. 22-5, A.A.C. R9-22-503, 45 CFR 160, 162, and 164 ,42 CFR 431, 431.300 et seq., 438.2, 438.100(a)(1), 438.100(b)(2)(vi), 457.10, Part 2, 2.1-2.67, 42 U.S.C. §290 dd-2, Division Medical Manual Policy 320-O, 320-R, 410, AdSS Medical Manual Policy 940

PURPOSE

This policy applies to the Division of Developmental (Division) Service Providers. This policy establishes requirements for protection of Member information, documentation requirements for Member physical and behavioral health records, and specifies record review requirements including the use of Electronic Health Records (EHR) and external health information systems.

DEFINITIONS

1. "Adult Recovery Teams" or "ARTs" means A group of individuals that, following the Nine Guiding Principles for Recovery-Oriented Adult Behavioral Health Services and Systems, work in collaboration and are actively involved in a Member's assessment, service planning, and

service delivery made up of the following people:

a. The Member;

b. The Member's Health Care Decision Maker (HCDM), if one is in place);

c. Any assigned advocates;

d. A qualified behavioral health representative; and

e. Other individuals identified by the Member or HCDM such as. he Member's family, physical health, behavioral health or social service providers, other agencies serving the Member, and professionals representing various areas of expertise related to the Member's needs.

2. "Arizona Association of Health Plans" or "AzAHP" means an organization dedicated to working with elected officials, AHCCCS Health Care Plans, health care providers, and consumers to keep quality health care available and affordable for all Arizonans. AzAHP is involved in administration of the chart audit process for physical health plan sites and they collaborate with the contractors with regard

to the behavioral health chart audit process.

3. "Child and Family Teams" or "CFTs" means a group of individuals made up of the following people:

   a. The child and their family, orHCDM;

   b. A behavioral health representative, and

   c. Any individuals important in the child's life that are identified and invited to participate by the child and family.

4. "Designated Record Set" or "DRS" means a group of records maintained by the Provider that contain following:

   a. Medical and billing records maintained by the Provider;

   b. Case and medical management records; or

   c. Any other records used by the Provider to make medical decisions about the Member.

5. "Health Information Exchange" or "HIE" means the secure sharing of patient health information among authorized Providers.

   a. HIE is a process or action that can be facilitated by an HIO.

   b. HIE can also include the secure sharing of patient health information directly between providers .

6. “Health Information Organization” or “HIO” means an entity that facilitates the secure exchange of electronic patient health information between participating Providers .

7. “Medical Records” means all communications related to a patient's physical or mental health or condition that are recorded in any form or medium and that are maintained for purposes of evaluation or treatment, including records that are prepared by a health care provider or by other providers, in both hard copy and electronic form. Records do not include materials that are prepared in connection with utilization review, peer review or quality assurance activities as specified in A.R.S. § 122291.

8. “Member” means the same as “Client” prescribed in A.R.S. § 36.551.

9. “Multi-Specialty Interdisciplinary Clinic” or “ (MSIC”) - An means an established facility where specialists from multiple specialties meet with Members and their families for the purpose of providing interdisciplinary services to treat Members.

10. “Provider” means an individual or organization that contracts with the Division for the provision of covered services, or ordering or referring

for those services, to an eligible Division Member, or any subcontractor of a Provider delivering services pursuant to A.R.S 36-2901.

POLICY

A. GENERAL REQUIREMENTS

1. The Division shall require Providers to maintain comprehensive documentation related to care and services provided to Members.
2. The Division shall ensure, via regular monitoring activities, that documentation completed and is maintained by the Providers meets the requirements specified in this policy.

B. MEDICAL RECORDS REQUIREMENTS

1. The Division shall required Providers to maintain the following in their Medical Records:
    a. Up to date, well organized and comprehensive documentation, with sufficient detail to promote effective Member care and ease of quality review.
    b. Documentation of the following identifying demographic:

i. The Member's name,

ii. Address,

iii. Telephone number,

iv. AHCCCS identification number,

v. Gender,

vi. Age,

vii. Date of birth,

x. Marital status,

xi. Next of kin,

xii. Parent, guardian, or healthcare decision maker , if applicable.

c. The following Member identification information on the first page of the medical record:

i. Member name,

ii. Member AHCCCS ID,

iii. Member date of birth.

d. Member name and either AHCCCS ID or member date of birth on the subsequent pages of the Medical Record.

e. The following past medical history:

i. Disabilities,

ii. Any previous illness or injuries,

iii. Smoking,

iv. Alcohol/substance use,

v. Allergies,

vi. Adverse reactions to medications,

vii. Hospitalizations, to include discharge summaries,

viii. Surgeries,

ix. Emergent/urgent care received,

x. Immunization records: required for children, recommended for adult Members if available.

2. The Division shall require Providers to do the following regarding Medical Records:

a. Hard copy Medical Records be written legibly in blue or black ink, signed, and dated by the rendering provider for each entry.

b. Electronic format Medical Records contain the name of the Provider who made the entry and the date for each entry.

c. If revisions to information are made, a system is in place to track when, and by whom the revisions are made.

d. That a back-up system is maintained that tracks initial and revised information.

e. That if a Medical Record is physically altered:

   i. The stricken information be identified as a correction and initialed by the rendering Provider altering the record, along with the date when the change was made;

   ii. That correction fluid or tape is not used;

   iii. If Medical Records are kept in an electronic file, the Provider must establish a method for indicating the author; date; and time of added and revised information.

   iv. Ensure that information is not inadvertently altered.

f. That Providers in multi-Provider offices must have the treating provider sign their treatment notes after each appointment and procedure and occurs as close to the actual entry of treatment notes as possible, based on

either professional standards of care/or requirements specified within 9 A.A.C. R9-10.

g. That evidence of the use of the Controlled Substances Prescription Monitoring Program (CSPMP) database prior to prescribing a controlled substance or another medication that is known to adversely interact with controlled substances is documented in the Medical Record.

3. The Division shall require the Provider to document the following coordination of care activities when they occur:

a. Referrals to other Providers;

b. Transmission of the diagnostic, treatment, and disposition information related to a specific Member to the requesting Provider, as appropriate to promote continuity of care and quality management of the Member's health care;

c. Reports from referrals, consultations, and specialists for behavioral and physical health, as applicable;

d. Emergency and urgent care reports;

e. Hospital discharge summaries;

f. Transfer of care to other Providers;

g. Any notification when a Member's health status changes or new medications are prescribed;

h. Legal documentation that includes:

i. Documentation related to requests for release of information and subsequent releases,

ii. Documentation of a Health Care Power of Attorney or documentation authorizing a Health Care Decision Maker, and

iii. Copies of any Advance Directives or Mental Health Care Power of Attorney as follows:

a) Documentation that the adult Member was provided the information on Advance Directives and whether an Advance Directive was executed, as specified in AdSS Medical Policy 640;

b) Documentation of general and informed consent to treatment, as specified in AdSS Medical Policy 320-Q; and

c) Authorization to disclose information.

4. The Division shall refer to AMPM Policy 710 for Medical Record information regarding Members who receive Medicaid direct services through their school system.

C. PRIMARY CARE PROVIDERS PHYSICAL HEALTH MEDICAL RECORD REQUIREMENTS

1. The Division shall require any Provider delivering primary care services to a Member and acting as their Primary Care Provider (PCP) to maintains a comprehensive record that incorporates the following components:

   a. Initial history and comprehensive physical examination findings for the Member that includes family medical history, social history and preventive laboratory screenings.

   b. For Members under age 21, the initial history of prenatal care and birth history of the Member's mother while pregnant with the Member, if known;

   c. Documentation of any requests for forwarding of behavioral health and other Medical Record information;

   d. Behavioral health history and information when received

from a TRBHA or other the behavioral health Provider involved with the Member's behavioral health care;

e. If the Provider has not yet seen the assigned Member, Medical information detailed in this subsection may be kept in an appropriately labeled file until associated with the Member's Medical Record as soon as the Medical Record is established;

f. Documentation, initialed by the Provider, to signify review of the following diagnostic information:

i. Laboratory tests and screenings,

ii. Radiology reports,

iii. Physical examination notes,

iv. Medications,

v. Last Provider visit,

vi. Recent hospitalizations, and

vii. Other pertinent data to the Member's health conditions;

g. Evidence that PCPs are utilizing and retaining AHCCCS approved developmental screening tools;

h. Current and complete Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Tracking forms or an equivalent including, at minimum all data elements on the EPSDT Tracking Form for:

i. All Members age 0 through 20 years;

ii. Developmental screening tools for children ages nine, 18, and 24 months;

iii. Dental history if available, and current dental needs and services;

iv. Current problem list;

v. Current medications list;

vi. Documentation to reflect review of the CSPMP database prior to prescribing a controlled substance or another medication that is known to adversely interact with controlled substances; and

vii. Evidence that obstetric Providers complete a standardized, evidence-based risk assessment tool for obstetric Members as detailed in AdSS Medical Policy 410.

D. BEHAVIORAL HEALTH MEDICAL RECORD REQUIREMENTS

The Division shall require the following elements to be included in all behavioral health Medical Records:

a. Initial behavioral health evaluation containing the following:

i. Documentation of the Member's choice for receipt of the Member Handbook, either hard copy or electronic format;

ii. Receipt of Notice of Privacy Practice;

iii. Contact information for the Member's PCP;

iv. Financial documentation for Non-Title XIX/XXI Members receiving behavioral health services, as outlined in AMPM Policy 650 occuring at the following:

a) At the initial evaluation appointment,

b) When the Member has had a significant change in their income, and

c) At least annually.

b. Behavioral health assessment documentation consisting of:

i. Documentation of all information collected in the

behavioral health assessment and any applicable addenda and required demographic information;

ii. Diagnostic information including psychiatric, psychological, and physical health evaluations;

iii. Evaluation of the need for reporting as required under A.R.S. §13- 3620;

iv. Copies of documentation related to the need for special assistance, if applicable, as detailed in. AdSS Medical Policy 320-R; and

v. An English version of the behavioral health assessment, Service Plan, and Treatment Plan, when applicable, if the documents are completed in any language other than English.

c. Service Plan documentation that contains:

i. The Member's Service Plan or Treatment Plan, as applicable;

ii. CFT documentation, based on Member's age (0 to

18 or up to 21 should Member choose to continue with Child & Family team after turning 18);

iii. ARTs documentation for adults 18 and older ; and

iv. Progress Reports, Service Plans, or Treatment Plans from all other Providers, as applicable.

d. Progress note documentation that includes:

i. Documentation of the type of services provided;

ii. The diagnosis, containing an indicator that identifies whether the progress note is for a new diagnosis or the continuation of a previous diagnosis;

iii. The progress note diagnosis code, if applicable;

iv. The date the service was delivered;

v. The date and time the progress note was signed;

vi. The signature of the staff that provided the service, including the staff Member's credentials;

v. Duration of the service (time increments);

vi. A description of what occurred during the provision of the service related to the Member's

Service Plan;

vii. Documentation of the need for the involvement of multiple Providers, including the name and roles of each Provider involved in the delivery of services, in the event that more than one Provider simultaneously provides the same service to a Member; and

viii. The Member's response to service.

e. The Notice of Extension (NOE) and any other documentation used for the processing of any applicable appeal that was sent to the Member and their legal guardian or authorized representative.

E. REQUIREMENTS FOR POLICIES AND PROCEDURES FOR ENSURING MEDICAL RECORD CONTENT

1. The Division shall implement and maintain policies and procedures to ensure that Providers have information required to monitor effective and continuous physical and behavioral health care for Members through accurate Medical Record documentation regardless of whether

records are hard copy or electronic via:

a. Onsite or electronic quality review;

b. Initial and on-going monitoring of Medical Records;

c. Review of health status, changes in health status, health care needs, and services provided;

d. Review of coordination of care activities;

e. Maintenance of a legible Medical Record for each Member who has been seen for physical and behavioral health appointments and procedures;

f. The Medical record shall also contain clinical records from other Providers who also provide care or/ services to the Member; and

g. Medical Record requirements for hard copy and electronic Medical Records.

2. The Division shall have policies and procedures in place that meet federal and state requirements including those related to security and privacy in accordance with 45 CFR 160, 162, and 164, 45 CFR 43142 CFR 431.300 et seq., and Medicaid Information Technology Architecture (MITA) for the use of

electronic Medical Records and for HIE via the state's HIO and digital (electronic) signatures that contain the following elements:

a. Signer authentication;

b. Message authentication;

c. Affirmative act (i.e. an approval function such as a signature which establishes the sense of having legally consummated a transaction);

d. Efficiency; and

e. Medical Record review.

3. The AdSS shall implement policies and procedures that:

a. Support Members' rights to request and receive a copy of their Medical Record at no cost and to request that the Medical Record be amended or corrected;

b. Ensure information from or copies of Medical Records are released only to the Member or their Health Care Decision Maker.

c. Ensure that unauthorized individuals cannot gain access to, or alter Member Medical Records;. and

d. Ensure Medical Records are maintained in a secure manner that maintains the integrity, accuracy, and confidentiality of Member medical information.

4. The Division shall have written policies and procedures addressing appropriate and confidential exchange of Member information among Providers.

5. The Division shall conduct reviews of Provider's policies and procedures to verify that they contain the following requirements:

   a. A Provider making a referral are to transmits necessary information to the Provider receiving the referral,

   b. A Provider furnishing a referral service reports appropriate information to the referring Provider,

   c. Providers request information from other treating Providers as necessary to provide appropriate and timely care, and

   d. Information about services provided to a Member by a non-network provider is transmitted to the Member's Provider:

e. Medical Records are transferred to the new Provider within 10 business days from receipt of the request for transfer of Medical Records to ensure continuity of care when a Member chooses a new Provider; and

f. Member information is shared when a Member enrolls with a new AdSS, in a manner that maintains confidentiality while promoting continuity of care.

F. METHODOLOGY FOR CONDUCTING MEDICAL RECORD REVIEW PROCESS

1. The Division shall require that the Medical Record audit process includes the Ambulatory Medical Record Review (AMRR) and the Behavioral Health Clinical Chart Audit.
2. The Division may, if they choose, utilize the AAzAHP to conduct Medical Record review and other Provider documentation review processes.
3. The Division shall utilize the following methodology when conducting a Medical Record review of Providers:
   a. Medical Record reviews using a standardized tool that has been reviewed by AHCCCS.

b. Review the following physical health records:

   i. EPSDT,

   ii. Family planning, and

   iii. Maternity components not otherwise monitored for Provider compliance by the Division.

c. Review the following elements of behavioral health Medical Records:

   i. Assessments; and

   ii. Service and treatment planning.

   iii. Ensure individual elements delineate which requirements pertain to:

      a) The unique needs of individual lines of business,

      b) The following special populations:

         1) General Mental Health/Substance Use (GMH/SU),

         2) Serious Mental Illness (SMI),

         3) Special Health Care Needs (SHCN),

4) Comprehensive Health Plan (CHP), or

5) Individuals receiving services under

d. Review to ensure Medical Record reviews are required to occur according to the following schedule:

i. At a minimum of every three years for physical health charts; and

ii. Yearly for behavioral health charts.

e. Review to ensure Medical Record reviews are required to occur according to the following schedule:

i. Conduct medical records reviews at a minimum of every three years for physical health charts (AMRR); and

ii. Yearly for behavioral health charts.

f. Use of AdSSThe Division staff with the appropriate licensure and experience necessary for completion of either clinical charts for behavioral health services or physical health services to conduct the Medical Record reviews.

i. The Division shall utilize licensed behavioral health professionals (BHPs) or behavioral health technicians (BHTs) with a minimum of three years' experience as a BHT and under the supervision of a BHP for behavioral health clinical chart audits; and

ii. The Division shall utilize a registered nurse (RN) or a licensed practical nurse (LPN) with current licensure under the Arizona State Board of Nursing for AMRR audits.

4. The Division shall make available the results of the Medical Record review to all contractors who utilize a consultant such as AzAHP, or in instances when multiple contractors share the same Provider for this process.

5. The Division shall share the deficiencies identified during a Medical Record review with all health plans contracted with the Provider.

6. If quality of care issues are identified during the Medical Record review process, the Division shall notify all

contractors which contract with the identified Provider within 24 hours of identification of the quality of care issue with specifics concerning the quality of care issue.

7. If the Division requests approval from AHCCCS to discontinue conducting the Medical Record reviews, the Division shall do the following prior to making the request:
   a. Conduct a comprehensive review the use of the Medical Record review process and how the process is used to document compliance with the Division and AHCCCS requirements;
   b. Document what processes will be used in place of the Medical Record review process to ensure compliance with the Division and AHCCCS requirements; and
   c. Submit the process the AdSS will utilize to ensure Provider compliance with the Division and AHCCCS Medical Record requirements to the AHCCCS/Quality Management/, Clinical Quality Management Administrator prior to discontinuing the Medical Record review process.
8. The Division shall include all PCPs that serve Members less

than 21 years of age and obstetricians/gynecologists in the AMRR process.

9. The Division shall review process shall consist of reviewing eight charts per practitioner and include the requirements specified in contract as a part of the AMRR.

10. The Division shall include in the behavioral health Medical Record review process:

    a. Behavioral Health Outpatient Clinics, and

    b. Integrated Health Homes and Federally Qualified Healthcare Centers (FQHCs) if they provide both behavioral health and physical health care.

11. The Division shall follow the medical review process for behavioral health records as specified in contract.

12. For changes in methodology or sampling, the Division shall submit to AHCCCS in advance for approval as specified in the contract.

G. MULTI-SPECIALTY INTEGRATED CLINIC

1. The Division shall implement written policies and procedures to require that MSICs have an integrated

electronic Medical Record for each Member that is served through the MSIC.

2. The Division shall require the MSIC's integrated electronic Medical Record:

   a. Be available, electronically through the HIE, for the multi-specialty treatment team and community Providers;

   b. Contains all information necessary to facilitate the coordination and quality of care delivered by multiple Providers in multiple locations at varying times; and

   c. For care coordination purposes, is shared with other care Providers, such as the multi-specialty interdisciplinary team.

H. COMMUNITY SERVICE AGENCY, THERAPEUTIC FOSTER CARE PROVIDERS, AND HABILITATION PROVIDER REQUIREMENTS

1. For Community Service Agencies (CSAs), Therapeutic Foster Care (TFC) Providers, and Habilitation Providers, the Divisions shall require that the Medical Records conform to the following standards:

a. Each record entry be:

1. Dated and signed with credentials noted;

2. Legible text, written in blue or black ink, or typewritten; and

3. Factual and correct.

2. If Medical Records are kept in more than one location, the Division shall require the agency Provider to:

a. Maintain documentation specifying the location of the Medical Records;

b. Maintain a Medical Record of the services delivered to each Member; and

c. Meet the following requirement for each Member's Medical Record:

i. The service provided and the time increment;

ii. Signature and the date the service was provided;

iii. The name, title, and credentials of the professional providing the service;

iv. The Member's Date of Birth and AHCCCS

identification number;

v. Documentation that services are reflected in the Member's Service Plan or Treatment Plan, as applicable;

vi. Maintain a copy of the Member's Service Plan or Treatment Plan, as applicable, in the Member's Medical Record; and

vii. Maintain a monthly summary of service documentation progress toward treatment goals.

d. The Division shall require Providers to transmit a summary of the monthly summary of service to the Member's clinical team for inclusion in the comprehensive Medical Record.

I. DESIGNATED RECORD SET

1. The Division shall treat the DRS as the property of the Provider who generates the DRS.
2. The Division shall require that Providers allow Members to:
   a. Review, request, and annually receive a copy, free of charge, of those portions of the DRS generated

by the Provider;

b. Request that specific Provider information is amended or corrected; and

c. Not review, request, amend, correct, or receive a copy of the portions of the DRS that are prohibited from view under Health Insurance Portability and Accountability Act (HIPAA).

3. The Division shall provide sufficient copies of records necessary for administrative purposes to AHCCCS free of charge for purposes relating to treatment, payment, or health care operations.

4. The Division shall not require the PCP to obtain written approval from the Member when:

a. Transmitting Medical Records to a Provider when services are rendered to the Member through referral to a Division subcontracted Provider,

b. Sharing treatment or diagnostic information with the entity or entities responsible for or directly providing behavioral health services, or

c. Sharing Medical Records with the Member's AdSS.

5. The Division shall require AHCCCS-registered Providers to forward Medical Records or copies of Medical Record information related to a Member to the Member's PCP within 10 business days from receipt of a request from the Member or the Member's PCP.
6. The Division shall provide access to AHCCCS to all Medical Records, whether electronic or hard copy, within 20 business days of receipt of a request.
7. The Division shall release information related to fraud, waste, or abuse against the AHCCCS program to authorized officials in compliance with Federal and State statutes and rules.
8. The Division shall demonstrate evidence of professional and community standards and accepted and recognized evidence-based practice guidelines as specified inDivision Medical Manual Chapter 500.
9. The Division shall require Providers to have an implemented process to assess and improve the content, legibility, organization, and completeness of Medical Records when

concerns are identified with the Providers Medical Records.

10. The Division shall require documentation in the Medical Record showing supervision by a licensed professional, who is authorized by the licensing authority to provide the supervision, whenever health care assistants or paraprofessionals provide services.

J. LEGAL REQUIREMENTS FOR RECORD MAINTENANCE

1. Consistent with 9 A.A.C. 22, Article 5, the Division, and Providers, and non-contracted entities providing services to Members shall safeguard the privacy of Medical Records and information about Members who request or receive services from AHCCCS or its contractors.
2. The Division shall require that tThe content of any Medical Record be disclosed in accordance with the prior written consent of the Member with respect to whom such record is maintained as allowed under regulations prescribed pursuant to 42 U.S.C. §290 dd-2 (confidentiality of records), 42 CFR Part 2, 2.1 – 2.67.
3. The Division shall release original and copies of Medical Records

shall only in accordance with Federal or State laws, and AHCCCS and Division policy and contracts.

4. The Division shall comply with HIPAA requirements and 42 CFR 431.300 et seq.
5. The Division shall align the Medical Records retention processes with AHCCCS and Division contract and TRBHA Intergovernmental Agreement (IGA) requirements.
6. The Division shall require that maintenance and access to Medical Records survive the termination of a Provider's contract regardless of the cause of termination.
7. The Division and Providers shall participate and cooperate in State of Arizona and AHCCCS activities related to the adoption and use of EHR and integrated clinical data sharing.
8. The Division shall encourage non-contracted entities that provide services to Members to cooperate and participate in State of Arizona and AHCCCS activities related to the adoption and use of EHR and integrated clinical data sharing.

K. UNITED STATES CORE DATA FOR INTEROPERABILITY

The Division shall incorporate United States Core Data for

Interoperability (USCDI) Data Elements as part of the DRS to facilitate the electronic exchange of an individual's Medical Record data as requested by the individual.

Signature of Chief Medical Officer: Anthony Dekker (Aug 30, 2023 16:22 PDT)
Anthony Dekker, D.O.

SUPPLEMENTAL INFORMATION

The requirements listed below are additional requirements under USCDI. The Division and AHCCCS strongly recommend these enhanced data elements be added to the existing Physical and Behavioral Health Medical Record requirements specified in this policy. Per the ONCs, disclosure of these additional data elements is subject to the confidentiality requirements of applicable state laws.

1. Medical Record requirements are applicable to both hard copy and electronic Medical Records. Medical Records may be documented on hard copy or in an electronic format. The AdSS' Providers shall include the following in their records:
2. Documentation of identifying demographics, including:

a. Any previous names by which the Member is known,

b. Previous address,

c. Telephone number with cell or home designation, and both if applicable,

d. Email address,

e. Birth sex,

f. Race,

g. Ethnicity, and

h. Preferred language.

3. For records relating to provision of behavioral health services, documentation including, but not limited to:

a. Behavioral health history,

b. Applicable assessments,

c. Service plans and/or treatment plans,

d. Crisis and/or safety plan,

e. Medication information if related to behavioral health diagnosis,

f. Medication informed consents, if applicable

g. Progress notes, and

h. General and/or informed consent.

4. Documentation, initialed by the Provider, to signify review of diagnostic information including vital signs data at each visit, to include:
    a. Body temperature,
    b. Diastolic and Systolic blood pressure,
    c. Body height and weight,
    d. BMI Percentile (two -20 years),
    e. Weight-for-length percentile (birth-36 months),
    f. Head occipital-frontal circumference percentile (birth-36 months),
    g. Heart rate and respiratory rate,
    h. Pulse oximetry,
    i. Inhaled oxygen concentration, and
    j. Unique device identifier(s) for implantable device(s), as applicable.
5. For Inpatient Settings – Clinical Note Requirements:
    a. Consultation notes,
    b. Discharge and summary notes,
    c. History and physical,
    d. Imaging narrative,

e. Laboratory report narrative,

f. Pathology report narrative,

g. Procedure notes, and

h. Progress notes.

950 CREDENTIALING AND RECREDENTIALING PROCESSES

REVISION DATE: 9/6/23, 5/18/22, 5/23/18, 5/05/17

EFFECTIVE DATE: May 3, 2016

REFERENCES: 42 CFR 8.11, 42 CFR 438, 42 CFR 455, Subpart B, 42 CFR 457.1208, 42 CFR 457.1233(a); A.A.C. 21, Article 1 through Article 4, A.A.C. R9-10-18, R9-10-115, R9-10-1803; A.R.S. §36- 2918.01, §36-2905.04, §36-2932, AMPM Policy 950

PURPOSE

This policy establishes the requirements for initial Credentialing, temporary/provisional Credentialing, and recredentialing of individual and Organizational Providers contracted with the Division of Developmental Disabilities (Division) and oversight of the Credentialing responsibilities delegated to the Administrative Services Subcontractors (AdSS).

DEFINITIONS

1. “Adverse Action” means any type of restriction placed on a Provider’s practice, including contract termination, suspension, limitations, continuing education requirements, monitoring, supervision.
2. “Completed Application” means when all accurate information and documentation is available to make an informed decision about the

Provider.

3. "Credentialing" means a process in which written evidence of qualifications are obtained in order for practitioners to participate under contract with a specific health plan.
4. Member" means the same as "Client" as defined in A.R.S. § 36-551.
5. "Organizational Provider" means a facility providing services to Members and where Members are directed for services rather than being directed to a specific practitioner.
6. "Primary Source Verification" means the process by which an individual Provider's reported credentials and qualifications are confirmed with the original source or an approved agent of that source.
7. "Provider" means any individual or entity that contracts with the Division for the provision of covered services, or ordering or referring for those services to Division Members, or any subcontractor of a Provider delivering services pursuant to A.R.S 36-2901.

POLICY

A. CREDENTIALING PROVIDERS

1. The Division shall verify Providers are properly trained, certified or licensed, and have the required experience to provide care

and services to Division Members.

2. The Division's Credentialing Unit shall credential and recredential individual and Organizational Providers contracted with the Division.
3. The Division shall credential Organizational Providers who have an agreement with the Division to provide residential placements, day and employment programs, Adult and Child Developmental Homes, home community-based services, and occupational, physical, and speech language therapies.
4. The Division shall delegate the Credentialing responsibilities of individual health care Providers to the Division's AdSS, except for occupational, physical, and speech language therapists that contract directly with the Division.
5. The Division shall retain the right to approve, suspend, or terminate any Provider credentialed by the AdSS.
6. The Division shall ensure the Credentialing and Recredentialing processes:
    a. Do not base Credentialing decisions on an applicant's race, gender, age, sexual orientation, or patient type in which the Provider specializes.

b. Do not discriminate against Providers who serve high-risk populations or who specialize in the treatment of costly conditions.

c. Comply with federal requirements that prohibit employment or contracts with Providers excluded from participation under either Medicare or Medicaid, or that employ individuals or entities that are excluded from participation.

7. The Division shall ensure Providers have capabilities to ensure physical access, reasonable accommodation, and accessible equipment for Members with physical and mental disabilities. [42 CFR.457.1230 (a), 42 CFR 438.206(c)(2) (3)].

8. The Division shall ensure that providers deliver services in a culturally competent manner, including to those with limited English proficiency and diverse cultural and ethnic backgrounds, disabilities, and regardless of gender, sexual orientation, or gender identity.

B. CREDENTIALING COMMITTEE

1. The Division's Credentialing Committee shall be responsible for

the Credentialing process under the purview of the Quality Management Unit (QMU).

2. The Chief Medical Officer (CMO) or Quality Management Medical Director, in the absence of the CMO, shall oversee the Credentialing process and serve as chair of the committee.
3. The Credentialing Committee shall review and approve or deny Credentialing applications presented at each Committee meeting.
4. The Division's Credentialing Unit shall verify the completeness of the file and maintain an individual electronic or hard copy Credentialing/Recredentialing file for each credentialed Provider, including the final determination of the Committee for all initial, temporary/provisional, and recredentialed Providers reviewed by the Committee.
5. The Division's Credentialing Unit shall verify the information for presentation to the Credentialing Committee within 60 calendar days of receipt of all required documentation.
6. The Division shall notify the Providers of the Credentialing decision within 10 calendar days of the Credentialing Committee’s decision.

7. The CMO or Quality Management Medical Director's signature shall serve as evidence of the Credentialing Committee's final decision.
8. The Division shall enter the credentialed Providers in the claims payment system within 30 calendar days of Credentialing Committee approval with an effective date no later than the date the Provider was approved by the Credentialing Committee or the contract effective date, whichever is later.

C. TEMPORARY/PROVISIONAL CREDENTIALING

1. The Division shall grant temporary/provisional credentials when it is in the best interest of Members, as defined in this section, to have Providers available to provide care or services prior to the completion of the entire Credentialing process.
2. The Division may credential Providers using the temporary/ provisional Credentialing process, even if the Provider does not specifically request their application be processed as temporary/ provisional, if they meet any of the following criteria:

    a. Providers needed in medically underserved areas.

    b. Covering or substitute Providers rendering services to the

Division's Members during a contracted Provider's absence from the practice.

c. As directed by Arizona Health Care Cost Containment System (AHCCCS) during federal or state declared emergencies where delivery systems are, or have the potential to be, disrupted.

3. The CMO or Medical Director shall review the initial verified and validated Credentialing documents and make a determination within 14 calendar days from the date of request or identified need regarding temporary/provisional Credentialing.

4. If approved by the CMO or Medical Director, the Division's Credentialing Unit shall notify the Provider and the Division's Contract Management Unit of the service(s) approved for temporary/provisional Credentialing.

5. The Division's Contract Management Unit shall enter a service start date in order for the Provider to be uploaded into the claims system.

6. The Division's Credentialing Unit shall inform the Provider, in the Credentialing notification letter, that the entire initial

Credentialing process will be completed within 60 calendar days of issuance of the temporary/provisional Credentialing.

7. The Credentialing Committee shall consider the Provider's Credentialing information at the next Committee meeting for consideration of initial Credentialing.

D. INITIAL CREDENTIALING OF INDIVIDUAL PROVIDERS

1. The Division shall credential the following individual Provider when contracted directly with the Division:
   a. Occupational Therapist,
   b. Physical Therapist, and
   c. Speech and Language Pathologist.

2. The Credentialing Committee shall review a verified completed Credentialing file.

3. The Division's Credentialing Unit shall verify the completeness of the file and maintain an individual electronic or hard copy Credentialing/Recredentialing file for each credentialed Provider that contains:
   a. A Completed Application signed and dated by the Provider

that attests to the following elements:

i. Reasons for any inability to perform the essential functions of the position, with or without accommodation;

ii. Lack of present illegal drug use;

iii. History of loss of license or felony conviction;

iv. History of loss or limitation of privileges or disciplinary action;

v. Current malpractice insurance coverage;

vi. Attestation by the Provider of the correctness and completeness of the application; a copy of the signed attestation shall be included in the Provider's Credentialing file; and

vii. Minimum five-year history or total history if less than five years.

b. Drug Enforcement Administration and Chemical Database Service certification if a prescriber.

c. Verification from primary sources of:

i. Licensure or certification.

ii. Board certification, if applicable, or highest level of

credentials attained.

E. RECREDENTIALING INDIVIDUAL PROVIDERS

1. The Credentialing Unit shall recredential Individual Providers at least every three years and:

   a. Update the information obtained during the initial Credentialing process;

   b. Verify continuing education requirements are met, if applicable;

   c. Monitor Provider specific information related to:

      i. Member concerns and grievances;

      ii. Utilization management information;

      iii. Performance improvement and monitoring, if applicable;

      iv. Results of medical record review audits, if applicable;

      v. Quality of care issues including trend data;

      vi. Pay for performance and value-driven healthcare data and outcomes if applicable; and

      vii. Evidence that the Provider's policies and procedures meet Division requirements.

2. The Credentialing Committee shall make a Recredentialing decision within three years from the previous Credentialing approval date based on Primary Source Verification current within 180 days.

E. INITIAL CREDENTIALING OF ORGANIZATIONAL PROVIDERS

1. As a prerequisite to contract execution of an Organizational Provider, the Division shall ensure the Organizational Provider has established policies and procedures that meet AHCCCS requirements, including policies and procedures for Credentialing and recredentialing when those functions are delegated to the Organizational Provider and meet the requirements specified in this section.

2. The Credentialing Committee shall review a verified completed Credentialing file.

3. The Division's Credentialing Unit shall verify the completeness of the file and maintain an individual electronic or hard copy Credentialing/Recredentialing file for each credentialed Organizational Provider that contains:

a. The Completed Application and signed attestation by the Provider of the correctness and completeness of the application;

b. An executed qualified vendor agreement;

c. AHCCCS Registration;

d. The completed District-level readiness review;

e. Confirmation the Provider has met all the state and federal licensing and regulatory requirements;

f. A completed onsite quality assessment;

g. Central Registry check;

h. Criminal background check;

i. Electronic Visit Verification attestation, if applicable;

j. Office of the Inspector General List of Excluded Individuals or Entities check;

k. Social Security Administration Death Master File check;

l. Completed State of Arizona Substitute W-9;

m. System for Award Management registration;

n. Department of Economic Security, Office of Licensing, Certification, Regulation, and Home and Community Based Services Certificate;

o. Proof of insurance that includes general liability, professional liability, worker's compensation, and sexual abuse and molestation coverage;

p. Business license;

q. A maintenance schedule for vehicles used to transport Members and the availability of age-appropriate car seats when transporting children; and

r. Any other pertinent information used to determine that the Provider meets the Division's Credentialing and recredentialing standards.

F. RECREDENTIALING OF ORGANIZATIONAL PROVIDERS

1. The Credentialing Committee shall recredential Organizational Providers at least every three years.

2. The Credentialing Committee shall review a verified completed Credentialing/Recredentialing file that includes updated and verified status of the initial information.

3. The Division's Credentialing Unit shall verify the completeness of the file for each recredentialed Organizational Provider using the following components:

   a. Confirmation that the Organizational Provider remains in good standing with state and federal bodies by validating that the Organizational Provider:

      i. Is licensed to operate in the state and is in compliance with any other state or federal requirements as applicable; and

      ii. Is reviewed and approved by an appropriate accrediting body.

      iii. If an Organizational Provider is not accredited or surveyed and licensed by the state, an onsite review is conducted.

   b. Review of the following:

i. Current review conducted by the Arizona Department of Health Services (ADHS) or summary of findings;

ii. Hospital Compare Az Care Check, if applicable;

iii. Record of onsite inspection of non-licensed Organizational Providers to ensure compliance with service specifications;

iv. Supervision of staff and required documentation of direct supervision or clinical oversight as required in A.A.C R9-10-115, including, if applicable, review of a valid sample of clinical Member charts;

v. Most recent audit results of the Organizational Provider;

vi. Confirmation that the service delivery address is correct; and

vii. Verification that staff meet the Credentialing requirements.

c. Evaluation of Organizational Provider specific information related to:

i. Member concerns and grievances;

ii. Utilization management information;

iii. Performance improvement and monitoring;

iv. Quality of care issues;

v. Onsite assessment;

vi. Review of any Adverse Actions;

vii. Value-based purchasing results and level of Member satisfaction for recredentialing;

4. The Credentialing Committee shall review and approve all Credentialing decisions with formal documentation that includes discussion, review of thresholds, and complaints or grievances.

5. The Division shall reviewand monitor other types of Organizational Providers in accordance with the AHCCCS contract.

G. NOTIFICATION REQUIREMENTS

1. The Division's Contract Actions Unit shall report any issues that result in a Provider's suspension or termination from the network

to the AHCCCS/DHMC/QM within one business day of determination to take the Adverse Action.

2. If any issue is determined to have criminal implications, including allegations of abuse or neglect, the Division shall notify the appropriate law enforcement agency and protective services agency no later than 24 hours after identification.
3. The Division's Credentialing Unit shall report allegations of Provider misconduct or misuse of prescribing practices to licensing and other regulatory entities as appropriate.
4. The Division's Credentialing Unit shall report any adverse Credentialing decisions made on the basis of quality-related issues or concerns to AHCCCS/DHMC/QM within one business day of determination to take Adverse Action, and include the reason or cause of the adverse decision and when restrictions are placed on the Provider's contract.
5. The Division shall have an appeal process for Providers when restrictions are placed on the Provider's contract based on issues of quality of care or service and process to inform the Provider of the Quality Management dispute process through the QMU.
6. The Division shall report to AHCCCS/DHMC/QM in writing, any

final Adverse Action taken for any quality-related reason against a Provider, supplier, vendor, or practitioner within one business day of the final Adverse Action taken.

7. The Division shall not consider a final Adverse Action to be malpractice notices or settlements in which no findings or liability have been determined.

8. The Division shall consider the following to be a final Adverse Action:

   a. Civil judgments in federal or state court related to the delivery of a health care item or service.

   b. Federal or state criminal convictions related to the delivery of a health care item or service.

   c. Actions by federal or state agencies responsible for the licensing and certification of health care Providers, suppliers, and licensed health care practitioners, including:

      i. Formal or official actions such as restriction, revocation, suspension of license and length of suspension, reprimand, censure or probation.

ii. Any other loss of license or the right to apply for or renew a license of the Provider, supplier or practitioner, whether by operation of law, voluntary surrender, non-renewability or otherwise; or

iii. Any other negative action or finding by such federal or state agency that is publicly available information.

iv. Exclusion from participation in federal or state health care programs as defined in 42 CFR 455 Subpart B; and

v. Any other adjudicated actions or decisions that the Secretary of the U.S. Department of Health and Human Services shall establish by regulation.

vi. Any adverse Credentialing decision made on the basis of quality-related issues or concerns.

vii. Any Adverse Action from a quality or peer review process that results in denial of a Provider to participate in the Division's network, Provider termination, Provider suspension, or an action that

limits or restricts a Provider.

9. Submit to the NPDB and the Healthcare Integrity and Protection Data Bank (HIPDB) within 30 calendar days from the date the final Adverse Action was taken or by the close of the next monthly reporting cycle, whichever is later.

10. The Division shall immediately notify the AHCCCS Office of Inspector General (OIG) regarding any allegation of fraud, waste, or abuse of the AHCCCS Program, including allegations of fraud, waste, or abuse that were resolved internally but involved AHCCCS funds.

11. The Division shall provide notification regarding Credentialing denials to the applicable Provider(s) within 10 calendar days of the Credentialing Committee decisions.

12. The Division shall send a notice of final Adverse Action to AHCCCS/DHCM/QM within one business day and include the following information:

    a. The name and Tax Identification Number as defined in section 7701(A)(41) of the Internal Revenue Code of

1986[1121].

b. The name, if known, of any health care entity with which the health care Provider, supplier, or practitioner is affiliated or associated.

c. The nature of the final Adverse Action and whether such action is on appeal.

d. A description of the acts or omissions and injuries upon which the final Adverse Action was based, and such other information determined by regulation for appropriate interpretation of information reported under this section.

e. The date the final Adverse Action was taken, its effective date, and duration of the action.

f. Corrections of information already reported about any final Adverse Action taken against a health care Provider, supplier, or practitioner.

g. Documentation that the following sites have been queried:

i. SAM, www.sam.gov, formerly known as the Excluded Parties List Syste;

ii. The Social Security Administration's Death Master File;

iii. The National Plan and Provider Enumeration System;

iv. List of Excluded Individuals or Entities; and

v. Any other databases directed by AHCCCS or CMS.

H. CREDENTIALING TIMELINESS

The Division's Credentialing Unit shall process Credentialing applications in a timely manner as shown in the following table:

CREDENTIALING ACTIVITY	TIME FRAME	COMPLETION REQUIREMENTS
Temporary/Provisional Credentialing	14 Days	100%
Initial Credentialing of Individual and Organizational Providers	60 Days	100%
Recredentialing of Individual and Organizational Providers	Every three years	100%
Load Times (Time between Credentialing Committee approval and loading into Claims System)	30 Days	95%

J. OVERSIGHT

1. The Division shall provide monitoring and oversight of the Division's Credentialing process through the following activities:

a. Review of quarterly performance data by the Quality Management/Performance Improvement (QM/PI) Committee.

b. Review of Credentialing data by the QM/PI Committee.

c. Recommendations by the QM/PI Committee regarding opportunities for improvement and monitor ongoing performance.

2. The Division shall monitor and provide oversight of the AdSS' Credentialing and recredentialing processes through annual operational reviews; review of quarterly reports submitted by the AdSS; and the internal quarterly health plan review meetings to ensure adherence to the requirements set forth in AdSS Medical Policy 950.

3. If there are any concerns regarding data reported in the quarterly reports by the AdSS, the Division may require the AdSS to report monthly until three consecutive months of compliance have been achieved.

Signature of Chief Medical Officer: Anthony Dekker (Aug 31, 2023 10:20 PDT)
Anthony Dekker, D.O.

960 QUALITY OF CARE CONCERNS

REVISION DATES: 8/16/23, 6/29/22, 9/02/20, 12/18/19,

PURPOSE

This policy sets forth the Division of Developmental Disabilities' (Division) standards and requirements for reporting, evaluating, and resolving Quality of Care and service concerns raised by internal and external sources, including systemic concern. This policy also sets forth the Division standards for providing oversight of Member and Service Provider concerns and Quality of Care (QOC) Concerns.

DEFINITIONS

1. "Adverse Action" means any type of restriction placed on a Service Provider's practice by the Division.

2. "Health Care Acquired Condition" means a hospital acquired condition which occurs in any inpatient hospital setting and is not present on admission.

3. "High-Profile Case" means a case that attracts, or is likely to attract, attention from the public or media.

4. "Immediate Jeopardy" means a situation in which the Service Provider's noncompliance with one or more requirements of participation has caused, or is likely to cause, serious injury, harm, impairment, or death to a Member.

5. "Incident, Accident, or Death" or "IAD" means an incident report entered into the Arizona Health Care Cost Containment System (AHCCCS) Quality Management (QM) Portal by a Service Provider to document an occurrence that caused harm or may have caused harm to a Member, or to report the death of a Member.

6. "Internal Referral" or "IRF" means a report entered into the AHCCCS

QM Portal by an employee of a health plan to document an occurrence that caused harm or may have caused harm to a member and or to report the death of a member.

7. "Investigation" means a collection of facts and information for the purpose of describing and explaining an Incident.

8. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

9. "Other Provider Preventable Condition" means a condition occurring in an inpatient or outpatient health care setting which AHCCCS has limited to the following:

   a. Surgery on the wrong Member,

   b. Wrong surgery on a Member, and

   c. Wrong site surgery.

10. "Personally Identifiable Information" or "PII" means a person's name, address, date of birth, social security number, trial enrollment number, telephone or fax number, email address, social media identifier, driver's license number, places of employment, school identification or military identification number or any other distinguishing characteristic

that tends to identify a particular person as specified in A.R.S. § 41-3804(K).

11. "Protected Health Information" or "PHI" means individually identifiable information as specified in 45 CFR 160.103(5) about an individual that is transmitted or maintained in any medium where the information is:

    a. Created or received by a health care provider, health plan, employer, or health care clearinghouse; and

    b. Relates to the past, present, or future physical or mental health condition of an individual, provision of health care to an individual.

12. "Provider-Preventable Condition" means a condition that meets the definition of a Health Care Acquired Condition or an Other Provider Preventable Condition.

13. "Quality Management" or "QM" means the evaluation and assessment which can be assessed at a Member, Service Provider, or population level of Member care and services to ensure adherence to standards of care and appropriateness of services.

14. "Quality Management/Performance Improvement Team" or "QM/PI" means Division staff who:

    a. Oversee the QOC Concern process;

    b. Evaluate Administrative Services Subcontractors' Quality Management/Performance Improvement Programs;

    c. Monitor and evaluate adherence with required quality and performance improvement standards through standardized Performance Measures, Performance Improvement Projects, and Quality Improvement specific Corrective Action Plans ; and

    d. Provides technical assistance for performance improvement related matters.

15. "Quality of Care" or "QOC" means an expectation that, and the degree to which, the health care services provided to individuals and patient populations improve desired health outcomes and are consistent with current professionally recognized standards of care and service provisions.

16. "Quality of Care Concern" or "QOC Concern" means an allegation that any aspect of care or treatment, utilization of behavioral health services, or utilization of physical health care services that d:

a. Caused or could have caused an acute medical or psychiatric condition or an exacerbation of a chronic medical or psychiatric condition; and

b. May ultimately cause the risk of harm to a Member.

17. "Responsible Person" means the same as defined in A.R.S. § 36-551.

18. "Restraint" means personal restraint, mechanical restraint, or drug used as a restraint in a behavioral health inpatient setting as defined in 42 CFR 482.13(e)(1).

19. "Seclusion" means the involuntary confinement in a room or an area from which the person cannot leave.

20. "Seclusion of Individuals Determined to have a Serious Mental Illness" means the restriction of a behavioral health recipient to a room or area through the use of locked doors or any other device or method which precludes a person from freely exiting the room or area or which a person reasonably believes precludes the person's unrestricted exit as specified in A.A.C. R9-21-101(B).

a. In the case of an inpatient facility: confining a behavioral health recipient to the facility, the grounds of the facility, or a ward of the facility does not constitute seclusion.

b. In the case of a community residence, restricting a behavioral health recipient to the residential site, according to specific provisions of an individual service plan or court order, does not constitute seclusion, as specified in A.A.C. R9-21-101(B).

21. “Sentinel Event” means a Member safety event that results in death, permanent harm, or severe temporary harm.

22. “Service Provider" means the same as defined in A.R.S. § 36-551.

23. “Severity Levels” means the level of acuity of a QOC and which is described in the following ranking:

Level 0: (Track and Trend Only) - No Quality issue Finding

Level 1: Quality issue exists with minimal potential for significant adverse effects to the patient/recipient.

Level 2: Quality issue exists with significant potential for adverse effects to the patient/recipient if not resolved timely.

Level 3: Quality issue exists with significant adverse effects on the patient/recipient; is dangerous or life-threatening.

Level 4: Quality issue exists with the most severe adverse effects on the patient/recipient; no longer impacts the patient/recipient with the potential to cause harm to others.

POLICY

A. DOCUMENTATION OF QUALITY OF CARE AND SERVICE CONCERNS

Upon receipt of a Quality of Care (QOC) or other form of concern regarding a service provided to a Member, the Division shall:

a. Document each concern raised, including the time and location of the event, if available, when and from whom it was received, and the projected time frame for resolution.

b. Determine which of the following processes will be used to resolve the concern:

i. Quality Management (QM) process,

ii. Grievance and appeals process,

iii. Both the grievance and appeals process and QM process if a rights violation also includes QOC,

iv. Process for making initial determination on coverage and payment issues, or

v. Process for resolving disputed initial determinations.

c. Provide written correspondence acknowledging receipt of the concern and explanation of the process to be used to resolve the QOC Concern.

d. If determined not to be a QOC Concern, provide an explanation of the process to be used to resolve the issue.

e. Provide assistance to the Member or Service Provider through the Office of Individual and Family Affairs, as needed, to complete forms or take other necessary actions to obtain resolution of the issue.

f. Maintain confidentiality of all Member information.

g. Inform the Member or Service Provider of all applicable mechanisms for resolving the concern external to the Division's processes.

h. Document all processes (including detailed steps used during the Investigation and resolution stages) implemented to ensure complete resolution of each complaint, grievance, or appeal, including:

i. Corrective action plan or action taken to resolve the concern;

ii. Documentation that education and training was completed, such as in-service attendance sheets and

training objectives;

iii. New policies and procedures; and

iv. Follow-up with the Member with the following as applicable to the situation:

1) Assistance to ensure that the immediate health care needs are met;

2) Closure or resolution letter that provides sufficient detail to ensure all covered, medically necessary care needs are met, and a contact name and telephone number to call for assistance or to express any unresolved concerns; and

3) Referral to the Division's Compliance Unit or AHCCCS Office of the Inspector General.

i. Enter QOC Concerns received outside of the AHCCCS QM Portal as an Internal Referral within:

i. one business day for Sentinel Events; or

ii. Within two business days for all other reportable

Incidents.

ii. Comply with 9 A.A.C 34, Division Operations Policy 446, and the AHCCCS Contract for the grievance and appeal system for Members and Service Providers.

B. PROCESS OF EVALUATION AND RESOLUTION OF QOC AND SERVICE CONCERNS

1. The Division shall:
   a. Complete the QOC Concern Investigation and documentation process within the AHCCCS QM Portal; and
   b. Include a summary of all applicable research, evaluation, intervention, resolution, and remediation, including details for each case as a part of the documentation process.
2. The Division shall complete the QOC Investigation and documentation process as a stand-alone process through the Quality Management Unit (QMU) with assistance from other units when necessary.
3. The Division shall not combine the QOC Investigation process with other Division meetings or processes.
4. Work units outside of the QMU:

a. Shall not solely conduct QOC investigations.

b. Shall provide subject matter expertise throughout the investigative process as requested by the QMU.

5. The QMU shall be solely responsible for and conduct its own QOC Investigations for services rendered under its direct responsibility, including conducting onsite visits for QOC Concerns.

6. The Division shall evaluate and resolve QOC and service concerns by:

a. Identification of the QOC Concerns.

b. Initial assessment of the severity of each QOC Concern.

c. Referral of QOC Concerns that involve the network of subcontracted health plans to the specific health plan for Investigation and remediation.

d. Prioritization of actions needed to resolve immediate care needs when appropriate.

e. Identification of trends related to Members, Service Providers involved in the allegations, considering types and frequency of allegations, severity, and substantiation

status.

f. Research:

i. Fact-finding in accordance with Division Operations Policy 6002-F,

ii. Medical records review,

iii. Mortality review in accordance with Division Operations Policy 6002-M, and

iv. Incident closure and corrective actions in accordance with Division Operations Policy 6002-I.

7. The Division may request copies of a Member's death Certificate from the Arizona Department of Health Services Vital Records and Statistics as specified in A.A.C. R9-19-314 B(13) and A.A.C. R9-19-315(E).

8. The Division's Quality Management clinical staff shall conduct onsite visits when there are identified health and safety concerns, Immediate Jeopardy, or at the direction of AHCCCS. .

9. The Division shall report onsite visits that are identified and

conducted by the Division after 5:00 p.m. on weekdays, or that occur during weekends or on holidays, to the AHCCCS Division of Health Care Management (DHCM), Quality Management Manager or Supervisor by telephone and follow up with an email to CQM@AZAHCCCS.GOV the following business day.

10. Clinical Quality Management staff shall:
    a. Be the lead responsible for the review and Investigation, and
    b. Participate in the onsite visits.
11. Subject matter experts outside of the QMU:
    a. May participate in onsite visits when necessary and appropriate; but
    b. Shall not take the place of Quality Management staff during reviews.
12. The QMU shall complete and submit the AMPM 960 Attachment C form for each Health and Safety Onsite Review conducted to AHCCCS DHCM QM within 24 hours of completing the review as specified in Contract..
13. The Division shall,based on the findings of the review:

a. Take immediate action to ensure the health and safety of all Members receiving services at the facility or Service Provider site;

b. Ensure Incident resolution and identify any immediate care or recovery needs;

c. Develop work plans and corrective action plans to ensure placement setting or service site compliance with Arizona Department of Health Services Licensure and AHCCCS requirements regarding policy, training, and signage requirements aimed at preventing and reporting abuse, neglect, and exploitation as specified in AHCCCS Minimum Subcontract Provisions.

d. Conduct scheduled and unscheduled monitoring of placement setting or service sites that are in an Immediate Jeopardy status, have serious identified deficiencies that may affect health and safety of Members, or as directed by AHCCCS.

e. Assist in identification of technical assistance resources focused on achieving and sustaining regulatory

compliance.

f. Determine, implement, and document all appropriate interventions including an action plan to reduce or eliminate the likelihood of the concern reoccurring.

g. Monitor and document success of interventions.

h. Monitor placement settings or service sites upon completion of activities and interventions to ensure compliance is sustained.

i. Implements new interventions and approaches when necessary.

j. Incorporate interventions into the Division's QM program plan if successful.

14. The QMU shall process investigations and resolution of Member and systemic concerns in a timely manner based on the nature and severity of each case or as requested by AHCCCS.

a. For high profile cases the QMU shall communicate initial reports of immediate findings to Division Executive

Leadership and AHCCCS DHCM QM immediately but no later than 24 hours of the QMU becoming aware of the concern and followed up by an initial findings report within seven business days.

b. For Member safety or placement concerns, the QMU shall schedule a due date for the resolution of the case for 30 calendar days from the date of opening.

c. For other concerns, the QMU shall schedule a due date for the resolution of the case within 60 calendar days from the date of opening.

d. The QMU shall track concerns that have aged to greater than 60 calendar days and develop action plans to address these cases.

e. The QMU shall coordinate with the Division Business Operations to review all paid claims within the last calendar year to identify the need to participate in systemic Investigations when notified of Service Provider concern related to:

i. Single case agreements, or

ii. Service Providers using subcontracted Service Providers.

15. The Division shall submit all requests for extensions of timelines associated with a QOC Investigation to AHCCCS DHCM QM for approval as soon as possible but no later than the assigned due date and include at a minimum:

    a. The Member's current placement and condition,

    b. The status of the Investigation, and

    c. The barrier to completing the Investigation within the assigned time frame.

16. The Division shall update the QM Portal due date after approval has been received from AHCCCS QM.

17. The Division shall, upon request from AHCCCS QM, provide additional information or attend a meeting to review the case and discuss barriers affecting the investigative process if more than one extension request is required to complete a QOC Investigation.

18. The QMU shall determine the level of severity of the QOC Concern initially based on the information received and the allegations involved, including whether Immediate Jeopardy is an issue.

19. The QMU shall ensure the case is updated to reflect changes in the Severity Level, as needed, during the Investigation as additional details and allegations are discovered and added to the QOC.

20. The QMU shall ensure that a final Severity Level is assigned to the case at the conclusion of the Investigation.

21. The QMU shall ensure that concerns are reported to the appropriate regulatory agency including:

    a. The Department of Child Safety,

    b. Adult Protective Services,

    c. Arizona Department of Health Services (ADHS),

    d. The Attorney General's Office,

    e. Law Enforcement,

f. AHCCCS Office of the Inspector General (OIG),

g. AHCCCS DHCM QM,

h. Other entities as necessary.

22. The QMU shall submit the initial report to the regulatory agency in the format required by the regulatory agency as soon as possible but no later than 24 hours of becoming aware of the concern.

23. The QMU shall submit all pertinent information regarding an Incident of abuse, neglect, exploitation, serious Incident including suicide attempts, and unexpected death including all unexpected transplant deaths, to AHCCCS DHCM QM as specified in Contract and Division Medical Policy 961.

    a. The QMU shall not limit pertinent information to autopsy results;

    b. The QMU shall include a broad review of all issues and possible areas of concern.

c. The QMU shall not delay the Division's Investigation of a QOC based on delays in receipt of autopsy results; Investigation of a QOC Concern.

d. The QMU shall, when available, use delayed autopsy results to confirm the resolution of the QOC Concern.

24. The QMU shall ensure qualified vendors follow procedures for reporting Incidents, Accidents and death as directed in Chapter 70 of the Provider Manual and Division Medical Policy 961.

a. QMU shall take any action necessary, upon receipt of an Incident, Accident, Death (IAD) Report from a Service Provider, to ensure the safety of the people involved in the Incident.

b. The QMU shall review the IAD Report within 24 hours of receipt and make a determination of whether the Incident includes a QOC Concern.

c. The QMU shall review the IAD Report to ensure it is fully and accurately completed.

i. If the IAD Report is not fully and accurately

completed, the QMU shall return the IAD Report to the Service Provider for correction.

ii. The QMU shall ensure that the Service Provider returns the corrected IAD Report within 24 hours of receipt.

25. The QMU Investigative Nurses shall determine the level of substantiation of the QOC during their Investigation.

26. The Division shall evaluate and resolve Service issues that do not rise to the level of a QOC Concern through the Customer Service Center or Support Coordination.

27. The QMU shall provide written notification to the appropriate regulatory board or licensing agency, and AHCCCS, when a health care professional, organizational provider, or other provider's affiliation with its network is suspended or terminated for any reason, including those related to QOC issues.

a. The QMU shall document all referrals made to a regulatory agency in the AHCCCS QM Portal and include, at minimum, the following information:

i. Name and title of the person submitting the report.

ii. Name of the regulatory agency the report was submitted.

iii. Name and title of the person at the regulatory agency receiving the report.

iv. Date and time reported.

v. Summary of the report.

vi. Tracking number, as applicable, received from the regulatory agency as part of the reporting process.

28. Division staff shall document in the QOC file all follow-up actions or monitoring activities, as well as related observations or findings.

29. In the event of a Service Provider suspension or termination, the Division Network and Support Coordination staff shall work in collaboration to assess and address Member needs impacted by the actionand work with Members to identify options and prepare for transition to new Service Providers.

C. TRAINING, INTER-RATER RELIABILITY FOR INCIDENT AND QOC REVIEW

1. The Division shall provide training to QMU staff on all new and updated policies and procedures.
2. The Division shall submit training documentation to AHCCCS that includes training materials, printed name and title of QMU staff, and date of training received.
3. QM clinical staff shall complete all required investigative training and achievement of competencies prior to performing Investigations.
    a. QM clinical staff responsible for conducting onsite investigations shall complete required training on how to conduct the Investigation and avoid interference with substantiation or prosecution.
    b. All QM clinical staff that may investigate alleged Incidents in Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IIDs), skilled nursing facilities, assisted living facilities, and group homes for Individuals

with Intellectual Disabilities shall complete training on how to conduct Investigations considering the specific needs of individuals with intellectual and developmental disabilities.

c. The Division shall incorporate AMPM Policy 960 Attachment D guidance in the content requirements for training on Investigations involving individuals with intellectual and developmental disabilities.

4. All QM staff responsible for making determinations related to Incidents and QOC Concerns shall meet the requisite competencies and complete routine Inter-Rater Reliability (IRR) testing with a passing grade of 90 percent or higher.

a. QM staff who do not receive a passing grade of 90 percent or higher shall retake the exam.

b. The Division shall develop and implement an education plan for staff who do not receive a passing grade of 90 percent or higher on the repeat testing until a passing grade is achieved or the staff member is reassigned to a different position for which the training requirement is not

pertinent.

D. TRACKING AND TRENDING OF QOC AND SERVICE CONCERNS

1. The QMU shall conduct oversight through tracking and trending of Member and Service Provider concerns and making appropriate referrals for independent review as described in this section.
2. The QMU shall track and trend Member and Service Provider issues to identify and address quality assurance issues and opportunities for quality improvement.
3. The Division shall provide training to QMU staff on the process for analyzing QM related data.
4. The Division shall submit training documentation to AHCCCS that includes training materials, printed first and last name of QMU staff, title, and date of training received.
5. The QMU shall document, track, trend, and evaluate complaints and allegations received from Members and Service Providers, or as requested by AHCCCS, inclusive of quality care, Immediate Jeopardy, deaths, quality of service, and immediate care need issues.

6. The QMU staff and QM/PI Committee shall analyze and evaluate the information from the tracking and trending system to identify and address any trends related to Members, Service Providers, the QOC process or services in the Division's service delivery system or Service Provider network.
7. The QMU shall incorporate trending of QOC issues in determining systemic interventions for quality improvement.
8. The QMU shall submit for review and consideration for action tracking and trending information to the Division's Quality Management Committee and Chief Medical Officer, or designated Medical Director, as Chairman of the Quality Management Committee.
9. The QMU shall develop performance improvement activities based on input from Division Executive Leadership, the Division Chief Quality Officer, and the Division Chief Medical Officer to respond to significant negative trends, including the issue resolution process itself, and address other system issues raised during the resolution process.
10. The QMU shall share tracking and trending information related to

Service Provider education, training and staff credentialing with the workforce development operations as specified in Division Operations Manual Policy 407.

11. The QMU shall refer QOC Concerns identified through tracking and trending to the following committees as appropriate:

    a. QM/PI Committee established in accordance with Division Medical Policy 910,

    b. Peer Review Committee established in accordance with Division Medical Policy 910,

    c. Mortality Review Committee, and

    d. Independent Oversight Committees established by A.R.S. 41-3801.

12. The QMU shall comply with federal and state confidentiality laws, including the Health Insurance Portability and Accountability Act (HIPAA) and 42 C.F.R. 431.300 et seq regarding Member record availability and accessibility.

13. The QMU shall maintain information related to coverage and payment issues for at least five years following resolution of the issue in accordance with Division Operations Manual Policy

6001-I, and is made available to the Member, Service Provider, and AHCCCS authorized staff upon request.

14. Support Coordination shall proactively facilitate care coordination for Members who have multiple complaints, regarding services or the AHCCCS Program. 15. Support Coordination shallwork with the Division's Office of Individual and Family Affairs or care coordination provided by the Administrative Services Subcontractors (AdSS) to facilitate and address Member complaints as a proactive measure to promote better service delivery and health outcomes.

15. QMU shall identify opportunities for improvement of care coordination in cases of multiple complaints from a single Member and monitor resolution of these complaints using tracking and trending data.

E. PEER REVIEW COMMITTEE

1. The QMU Chief Medical Officer shall refer cases, as appropriate, to the Division's Peer Review Committee.

2. The Peer Review Committee shall review the following:

   a. Cases where there is evidence of deficient quality by a

participating or non-participating physical or behavioral health care professional, or long-term services and supports (LTSS) Service Provider, whether delivered in or out of state.

b. Cases where there is omission of care or service that should have been provided by a participating or non-participating physical or behavioral health care professional, or Long Term Service and Support Service Provider, whether delivered in or out of state.

c. Oversight of the AdSS Peer Review Committee actions and remediations.

3. The Division shall not substitute referral to the Peer Review Committee for implementing interventions aimed at individual and systemic quality improvement.

4. The QMU shall document Peer Review referrals as well as high-level summary information in the QOC file within the AHCCCS QM Portal and include documentation of the specific credentials of the involved Committee members.

5. The Peer Review Committee may include the following recommendations as applicable:
   a. Education/training/technical assistance
   b. Follow-up monitoring and evaluation of improvement
   c. Changes in processes, organizational structures, forms
   d. Informal counseling
   e. Termination of affiliation, suspension, or limitation of the Service Provider
   f. Referrals to regulatory agencies
   g. Other actions as determined by the Division.
6. If an Adverse Action is taken with a Service Provider for any reason including those related to a QOC Concern, QMU shall report the Adverse Action, including limitations and terminations, to the AHCCCS DHCM Quality Management (QM) Unit as well as to the National Practitioner Data Bank as specified in Contract..
7. The QMU shall notify AHCCCS DHCM QM and take appropriate action with the Service Provider, including suspension or corrective action plans and referrals to appropriate regulatory Boards,when an adverse outcome including mortalities due to

prescribing concerns or failure of the Service Provider to check the Controlled Substance Prescription Monitoring Program (CSPMP), to coordinate care with other prescribers, or to refer for substance use treatment or pain management is identified.

8. The QMU shall present case findings ,as appropriate, to the Division's Peer Review Committee and Credentialing Committee for review and recommendations to the QM/PI Committee for discussion and recommendations to leadership.

9. QM/PI Committee shall monitor the following related to QOC Concerns:

    a. Trending

    b. Corrective Action Plans

    c. Resolution

10. The Division's Medical Director:

    a. Shall be a member of the AdSS' Peer Review Committee, and

    b. Shall provide quarterly summaries of Service Providers s reviewed by the AdSS' Peer Review Committees to the

Division's Peer Review Committee.:

11. The Division's Peer Review Committee shall review the quarterly summaries of Service Providers reviewed by the AdSS to determine whether:

    a. The action taken by the AdSS Peer Review Committee is sufficient to protect Division Members, and

    b. If further action from the Division is necessary.

F. REPORTING TO INDEPENDENT OVERSIGHT COMMITTEES

1. The Division shall provide IAD Reports, Internal Referral (IRF) Reports, and QOC Concerns, including reports of possible abuse, neglect, or denial of rights involving any Division enrolled Member, to the Division's Independent Oversight Committee (IOC) assigned to the region in which the IAD, IRF, or QOC occurred within three business days of closure of the Incident.
2. The QMU shall incorporate IADs and IRFs that are triaged as potential QOC Concerns into the QOC record and submit to the IOC as part of the QOC documentation upon completion of the QOC Investigationinstead of a standalone IAD or IRF as specified in (1) of this section.

3. The QMU shall redact in accordance with federal and state confidentiality laws all Personally Identifiable Information (PII) in all reports provided to the IOC.
4. The Division shall provide the following reports to the IOC:
    a. Seclusion and Restraint Reports,
    b. IAD Reports,
    c. IFR Reports, and/or
    d. QOC Investigations as applicable.
    e. Reports of possible abuse, neglect, or denial of rights involving any behavioral health provider as specified in the contract.
5. The Division and contracted Service Providers who receive an IOC request for additional or unaltered documentation, supplemental information, or an Investigation regarding an AHCCCS Member, shall submit the request to AHCCCS via email at: iocinquiries@azahcccs.gov.
6. The Division shall provide to the AHCCCS Independent Oversight Committee assigned to the region in which the IAD, IRF, or QOC occurred AD Reports, IRF Reports, and QOC

Concerns, including reports of possible abuse, neglect, or denial of rights, involving any behavioral health provider serving Members with a Serious Mental Illness designation, children, and anyone under court order for either Court-Ordered Evaluation or Court-Ordered Treatment, are provided within three business days of closure.

F. REQUESTS FOR PERSONALLY IDENTIFIABLE INFORMATION OR PROTECTED HEALTH INFORMATION

1. The Division shall do the following if AHCCCS or an IOC requests information regarding the outcome of a report of possible abuse, neglect, or violation of rights:

   a. Conduct an Investigation of the Incident if one has not been conducted.

      i. For Incidents in which a Member with an Serious Mental Illness (SMI) designation is the possible victim, the Investigation follows the requirements specified in A.A.C. Title 9, Chapter 21, Article 4, or

      ii. For Incidents in which a currently or previously

enrolled child or non-seriously mentally ill adult is the possible victim, the Investigation is completed within 35 days of the request and shall determine, from all information surrounding the Incident, whether the Incident constitutes abuse, neglect, or a violation of rights, and any corrective action needed as a result of the Incident.

b. If an Investigation has been conducted, and can be disclosed without violating any confidentiality provisions, provide the final Investigation decision to AHCCCS and the IOC with the following information:

i. The accepted portion of the Investigation report with respect to the facts found,

ii. A summary of the Investigation findings, and

iii. Conclusions and corrective action taken.

2. The Division shall only release PII or PHI concerning a currently or previously enrolled Member to the IOC if:

a. The IOC demonstrates that the information is necessary to perform a function that is related to the IOC's oversight of the behavioral health system, or

b. The IOC has written authorization from the Responsible Party to review requested PII and PHI.

3. If the Division determines that the IOC needs PII or PHI or that the IOChas obtained the Responsible Party's written authorization, the QMU shall first review the requested information and determine if it contains any communicable disease-related information, including confidential Human Immunodeficiency Virus (HIV) or Acquired Immune Deficiency Syndrome (AIDS) information, or information concerning diagnosis, treatment, or referral from an alcohol or drug use program, or as described in A.R.S. §41-3804.

a. If no information detailed in (3) of this Section is found, the QMU shall provide the requested information to the IOC.

b. If information detailed in (3) of this Section is found, the

QMU shall contact the Responsible Person and ask if the Responsible Person is willing to sign an authorization for the release of communicable disease-related information, including confidential HIV information, or information concerning diagnosis, treatment or referral from an alcohol or drug use program, or as described in A.R.S. §41-3804, and provide the name and telephone number of a contact person with the IOC who can explain the Committee's purpose for requesting the protected information.

i. If the Responsible Person agrees to give authorization, a written authorization is obtained as outlined below and requested information provided to the IOC.

ii. If the Responsible Person does not agree to give authorization, the information is not included or it is redacted from any documentation which is authorized to be disclosed.

4. The Division shall accept authorization for the disclosure of

records of deceased Members made by the executor, administrator, or other personal representative appointed by Will or by a court to manage the deceased Member's estate. If no personal representative has been appointed, the Division shall upon request disclose PII and PHI to a family member, other relative, or a close personal friend of the deceased Member, or any other person identified by the deceased, only that PII and PHI directly relevant to such person's involvement with the deceased Member's health care or payment related to the individual's health care.

5. The Division shall provide requested information that does not require authorization within 15 working days of the request.

6. The Division shall provide the requested information that does require authorization within five working days of receipt of the written authorization.

7. The QMU shall include a cover letter when PII or PHI is sent to the IOC that states that the information is confidential, is for the official purposes of the Committee, and is not to be re-released

under any circumstances.

8. If the QMU denies the IOC's request for PII or PHI:

   a. The QMU shall notify the IOC within five working days of the decision that a request is denied, the specific reason for the denial, and that the Committee may request, in writing, that the Division's Deputy Director or designee review this decision.

   b. The Division shall only accept The Committee's request to review the denial if the request is received within 60 days of the first scheduled Committee meeting after the denial decision is issued.

   c. The Division's Assistant Director or designee shall conduct the review within five business days after receiving the accepted request for review.

   d. The Division shall consider the Division's Assistant Director or designee's decision the final agency decision pending any follow-up judicial review pursuant to A.R.S. Title 12,

Chapter 7, Article 6.

e. The Division shall not release related information or records related to the request during the timeframe for filing a request for judicial review or when judicial review is pending.

G. AUTHORIZATION REQUIREMENTS

1. The Division shall only accept a written authorization for disclosure of information concerning diagnosis, treatment, or referral from an alcohol or substance use program or communicable disease-related information, including confidential HIV information that contains the following information:

   a. The specific name or general designation of the program or person permitted to make the disclosure.

   b. The name or title of the individual or the name of the organization to which the disclosure is to be made.

   c. The name of the currently or previously enrolled Member.

   d. The purpose of the disclosure.

e. How much and what kind of information is to be disclosed.

f. The signature of the currently or previously enrolled Member/legal guardian, and if the currently or previously enrolled Member is a minor, the signature of a person authorized to give consent.

g. The date on which the authorization is signed.

h. A statement that the authorization is subject to revocation at any time except to the extent that the program or person which is to make the disclosure has already acted in reliance on it.

i. The date, event, or condition upon which the authorization will expire if not revoked before. This date, event, or condition must ensure that the authorization will last no longer than reasonably necessary to serve the purpose for which it is given.

j. A statement that this information has been disclosed to the recipient from records protected by federal confidentiality

rules (42 CFR Part 2) and state statute on confidentiality of HIV/AIDS and other communicable disease information (A.R.S. §36-664(H)) which prohibit further disclosure of this information unless further disclosure is expressly permitted by the written consent of the Member to whom it pertains, or as otherwise permitted by 42 CFR Part 2 and A.R.S §36-664(H).

2. The Division shall track in accordance with the Record of Access described in Division Operations Manual Policy 6001-C information released pursuant to a valid authorization.

H. DUTIES AND LIABILITIES OF BEHAVIORAL HEALTH PROVIDERS IN PROVIDING BEHAVIORAL HEALTH SERVICES

The Division shall require the Administrative Services Subcontractors to develop policies and procedures that provide guidance to behavioral health providers regarding their duty to warn under A.R.S. §36-517.02.

I. PROVIDER-PREVENTABLE CONDITIONS

1. The Division shall not provide payment for services related to

Provider-Preventable Conditions pursuant to 42 CFR 447.26

2. The Division shall review the AdSS' required report for evidence of Provider-Preventable Conditions quarterly as described in the AdSS Medical Policy 960.

3. If Provider- Preventable Conditions are identified, the Division shall open a QOC Investigation within the AHCCCS QM Portal and direct the AdSS to conduct an Investigation if it has not already done so.

961 INCIDENT, ACCIDENT, AND DEATH REPORTING

REVISION DATE: 8/9/2023

EFFECTIVE DATE: May 11, 2022

REFERENCES: Division Medical Policies 960, 962, 1020, 1230-A; Division Operations Policy 417; A.R.S. §8-201(2), §14-1501, §36.551.01, §46-451, §41-3801, §41-3803, §41-3804; A.A.C. R9-10-101, R9-21-105.

PURPOSE

The purpose of this policy is to establish the requirements for the reporting, reviewing, and monitoring of Incident, Accident, Death (IAD) of Members enrolled with the Division of Developmental Disabilities (Division).

DEFINITIONS

1. "Abuse" means the infliction of, or allowing another individual to inflict, or cause, physical pain or injury, impairment of bodily function, disfigurement or serious emotional damage which may be evidenced by severe anxiety, depression, withdrawal, or untoward aggressive behavior. Such Abuse may be caused by acts or omissions of an individual having responsibility for the care, custody or control of a Member receiving behavioral health services or community services. Abuse shall also include sexual misconduct, assault, molestation,

incest, or prostitution of, or with, a Member under the care of personnel of a mental health agency. A.A.C. R9-21-101(B).

2. "AHCCCS" means Arizona Health Care Cost Containment System.
3. "Community Complaint" means a complaint from the community that puts a Member or the community at risk of harm.
4. "Death No Provider Present" means death of a Member living independently or with family and no Provider is being paid for service provision at the time of death.
5. "Expected Death" means a natural death, and may include deaths from long-standing, progressive medical conditions or age-related conditions.
6. "High Profile Case" means a case that attracts or is likely to attract attention from the public or media.
7. "Human Rights Violation" means a violation of a Member's rights, benefits, and privileges guaranteed in the constitution and laws of the United States and the state of Arizona. Human rights are defined in A.R.S. §36.551.01 as a violation of a Member's dignity or personal choice, violations of privacy, the right to open mail, send and receive phone calls, access to one's own money, choosing what to eat, etc.
8. "Incident, Accident, Death" means an unexpected occurrence that

harms or has the potential to harm a Member and is:

a. On the premises of a health care institution, or

b. Not on the premises of a health care institution and directly receiving physical health services or behavioral health services from a personnel member who is providing the physical health services or behavioral health services on behalf of the health care institution as specified in A.A.C. R9-10-101.

9. "Independent Oversight Committee" is a committee established by State Statute to provide independent oversight and to ensure the rights of certain individuals with developmental disabilities and persons who receive behavioral health services are protected as defined in A.R.S. §§41-3801, 41-3803, 41-3804, and A.A.C. R9-21-105.

10. "Internal Referral" means, for the purpose of this policy, a report entered into the AHCCCS Quality Management Portal by an employee of the Division to document an occurrence that harms or has the potential to harm a Member, and to report the death of a Member.

11. "Medication Error" means that one or more of the following has occurred:

a. Medication given to the wrong person,

b. Medication given at the wrong time or not given at all,

c. Wrong medication dosage administered,

d. Wrong method of medication administration, or

e. Inappropriate wastage of a Class II substance.

12. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

13. "Physical Abuse" means intentional infliction of pain or injury to a Member.

14. "Programmatic Abuse" means aversive stimuli techniques not approved as part of a member's plan. This can include isolation, restraints, or not following an approved plan or treatment strategy.

15. "Provider" means, for the purpose of this policy, any individual or entity that is engaged in the delivery of services to Division Members, or ordering or referring for those services, and is legally authorized to do so by the state in which it delivers the services, as specified in 42 CFR 457.10 and 42 CFR 438.2.

16. "Sentinel Event" means an unexpected event that results in the death of a member, serious physical injury of a member, or severe psychological harm of a member, and requires an immediate investigation and response.

17. "Serious Injury" means any type of injury requiring medical care or treatment beyond first aid, such as assessment or treatment in an

emergency room, treatment center, physician's office, urgent care, or admission to a hospital.

18. "Sexual Abuse" means any inappropriate interactions of a sexual nature toward or solicited from a Member with developmental disabilities.

19. "Unexpected Death" means a sudden death and may include motor vehicle accidents, suicides, accidental drug overdoses, homicides, acute myocardial infarction or strokes, trauma, sudden deaths from undiagnosed conditions, or generic medical conditions that progress to rapid deterioration.

20. "Verbal/Emotional Abuse" means remarks or actions directed at a Member enrolled in the Division that are ridiculing, demeaning, threatening, derogatory, or profane.

POLICY

A. MINIMUM REQUIREMENTS FOR IAD REPORTING

1. The Division shall submit reportable Incident, Accident, Death (IAD), and Internal Referrals to AHCCCS via the AHCCCS Quality Management (QM) Portal within two business days of the occurrence or notification of the occurrence.

2. The Division shall submit Sentinel IADs to AHCCCS via the AHCCCS QM Portal within one business day of the occurrence or notification of the occurrence.

3. The Division shall notify AHCCCS of all Sentinel Events via email at CQM@ahcccs.gov as soon as possible, but within 24 hours of notification of the occurrence.

4. The Division shall consider the following to be reportable IADs:

    a. Allegations of abuse, neglect, or exploitation of a Member.

    b. Allegations of Human Rights Violations.

    c. Substance use disorders and opioid-related concerns.

    d. Death of a Member.

    e. Delays or difficulties in accessing care outside of the timeline specified in Division's Operations Policy 417.

    f. Healthcare acquired conditions and other provider preventable conditions as specified in Division Medical Policy 960.

    g. Serious Injury.

    h. Injury resulting from the use of a personal, physical, chemical or mechanical restraint, or seclusion as specified

in Division Medical Policy 962.

i. Medication Error occurring at a licensed residential Provider site including:

i. Division Group Home,

ii. Division Adult Developmental Home,

iii. Child Developmental Home,

iv. Assisted Living Facility,

v. Skilled Nursing Facility,

vi. Behavioral Health Residential Facility,

vii. Adult Behavioral Health Therapeutic Home,

viii. Therapeutic Foster Care Home, or

ix. Any other alternative Home and Community Based Service setting as specified in Division Medical Policy 1230-A.

j. Missing Member from a licensed Behavioral Health Inpatient Facility, Behavioral Health Residential Facility, Division Group Home, Assisted Living Facility, Skilled Nursing Facility, Intermediate Care Facility, Adult Behavioral Health Therapeutic Home, or Therapeutic Foster Care.

k. Member suicide attempt.

l. Suspected or alleged criminal activity involving or affecting a Member.

m. Community Complaint about a resident or the setting.

n. Provider or Member fraud.

o. Allegations of Physical, Sexual, Programmatic, Verbal/ Emotional Abuse.

p. Allegations of inappropriate sexual behavior.

q. Theft or loss of Member monies or property less than $1,000.

r. Property damage estimated to be less than $10,000.

s. Community disturbances in which the Member or the public may have been placed at risk.

t. Environmental circumstances which pose a threat to the health, safety, or welfare of Members, such as loss of air conditioning, loss of water, or loss of electricity.

u. Unplanned hospitalization or emergency room visit in response to an illness, injury, Medication Error.

v. Unusual weather conditions or other disasters resulting in an emergency change of operations impacting the health

and safety of a Member.

w. Illegal substance use by Provider or Member.

x. Any other incident that causes harm or has the potential to cause harm to a Member.

2. The Division shall consider the following to be reportable IAD Sentinel Events:

a. Member death or Serious Injury associated with a missing Member.

b. Member suicide, attempted suicide, or self-harm that results in Serious Injury while being cared for in a healthcare setting.

c. A 9-1-1 call due to a suicide attempt by a Member.

d. Member death or Serious Injury associated with a Medication Error.

e. Member death or Serious Injury associated with a fall while being cared for in a healthcare setting or any other setting where the Division has oversight responsibility.

f. Any stage 3, stage 4, or any unstageable pressure ulcers acquired after admission or presentation to a healthcare setting.

g. Member death or Serious Injury associated with the use of seclusion or restraint while being cared for in a healthcare setting.

h. Sexual Abuse or assault of a Member during the provision of services.

i. Death or Serious Injury of a Member resulting from a physical assault that occurs during the provision of services.

j. Homicide committed by or allegedly committed by a Member.

k. A circumstance that poses a serious and immediate threat to the physical or emotional well-being of a Member or staff.

l. Severe physical injury that does any of the following:

   i. Creates a reasonable risk of death,

   ii. Causes serious or permanent disfigurement, or

   iii. Causes serious impairment of a Member's or worker's health.

m. Reporting to law enforcement officials because a Member is missing and presumed to be in imminent danger.

n. Reporting to law enforcement officials due to possession or use of illegal substances by Members or Providers.

o. An incident or complaint from the community that could be or is reported by the media.

p. Property damage estimated in excess of $10,000.

q. Theft or loss of Member monies or property of more than $1,000.

B. QUALITY MANAGEMENT RESPONSIBILITIES

1. The Quality Management Unit (QMU) shall conduct an initial review of all IADs within one business day of Provider submission. An initial review shall include the following:

   a. Identification of any immediate health and safety concerns and ensure the safety of the individuals involved in the incident, which may include that immediate care and recovery needs are identified and provided.

   b. Determination if the IAD report needs to be returned to the Provider for additional information, to correct inaccurate information, or to provide missing information.

   c. Determination if the IAD report requires further

investigation through a quality of care investigation as specified in Division Medical Policy 960.

d. Determination if the IAD needs to be linked to a corresponding Seclusion and Restraint Individual Reporting Form.

e. Determination that the report does not need further documentation or review, and closure of the report.

2. The QMU shall follow up on all IADs returned to a Provider within one business day to ensure the Provider is aware that the report has been returned and is addressing the required corrections.

3. The QMU shall take immediate action to ensure the safety of Members where allegations of harm or potential harm exist, regardless of status assigned to the IAD, including those returned to the Provider.

4. The QMU shall report all suspected cases of abuse, neglect, or exploitation of a Member to the appropriate reporting authorities if not reported directly by the Provider, as specified in Division Operations Policy 6002-G.

5. The QMU shall track and trend IADs to identify and address

systemic concerns or issues within its Provider network.

6. The QMU shall provide IAD reports to the appropriate Independent Oversight Committees, as applicable, and as specified in Division Medical Policy 960 and A.R.S. 41-3801 et seq.

C. DIVISION OVERSIGHT AND MONITORING OF ADSS

1. The Division shall monitor the AdSS' compliance of the requirements set forth in AdSS Medical Policy 961 through AdSS' tracking and trending reports submitted to the Division.
2. The Division shall also conduct Annual AdSS Operational Reviews to ensure compliance to AdSS Medical Policy 961 and associated procedures.

962 REPORTING AND MONITORING OF SECLUSION AND RESTRAINT

REVISION DATE: 8/9/2023
EFFECTIVE DATE: September 14, 2022
REFERENCES: A.A.C. R9-10-101, R9-10-225, R9-10-226, R9-10-316, R9-10-1012, R9-21-101, R9-21-204; A.R.S. §36- 501, §41-3804 (K); 42 CFR 482.13(e)(1)(i)(B), AHCCCS Medical Policies 961 and 960

PURPOSE

To set forth the requirements applicable to the Division of Developmental Disabilities (Division) to provide oversight and monitoring of Seclusion and Restraint reporting for Members served by the Division, regardless of their health plan enrollment, in all state licensed Behavioral Health Inpatient Facilities, Mental Health Agencies, and out-of-state facilities providing behavioral health services to Division Members.

DEFINITIONS

1. "Behavioral Health Inpatient Facility" means, as defined in A.A.C. R9-10-101, a health care institution licensed by the Arizona Department of Health Services that provides continuous treatment to individuals experiencing behavioral health issues that causes that

individual to:

a. Have a limited or reduced ability to meet basic physical needs;

b. Suffer harm that significantly impairs judgment, reason, behavior, or capacity to recognize reality;

c. Be a danger to self or others;

d. Be persistently or acutely disabled as defined in A.R.S. §36-501; or

f. Be gravely disabled.

2. "Incident of Seclusion and Restraint" means an occurrence of Seclusion or Restraint that begins at the time a behavior necessitating Seclusion or Restraint begins and ends when the behavior has resolved for more than ten minutes.

3. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

4. "Mental Health Agency" means a regional authority, service provider, inpatient facility, or outpatient treatment center licensed to provide behavioral health observation/stabilization services (Crisis Facility), licensed to perform Seclusion and Restraint as specified in A.A.C. R9-10-225, A.A.C. R9- 10-226, A.A.C. R9-10-316 and A.A.C. R9-10-1012.

5. “Personally Identifiable Information” means a person's name, address, date of birth, social security number, tribal enrollment number, telephone or fax number, email address, social media identifier, driver license number, places of employment, school identification or military identification number, or any other distinguishing characteristic that tends to identify a particular person as specified in A.R.S. §41-3804 (K).
6. “Restraint” means personal Restraint, mechanical Restraint, or drug used as a Restraint, and is the following:
    a. Any manual method, physical or mechanical device, material, or equipment that immobilizes or reduces the ability of a Member to move their arms, legs, body, or head freely.
    b. A drug or medication when it is used as a restriction to manage a Member’s behavior or restrict the Member’s freedom of movement and is not a standard treatment or dosage for the Member’s condition as specified in 42 CFR 482.13 (e)(1)(i)(B). Chemical Restraints shall be interpreted and applied in compliance with the Center for Medicaid Services (CMS) State Operations Manual, Appendix A at A-0160 for Regulations and

Interpretive Guidelines for Hospitals.

c. A Restraint does not include devices such as orthopedically prescribed devices, surgical dressings or bandages, protective helmets, or other methods that involve the physical holding of a Member for the purpose of conducting routine physical examinations or tests, or to protect the Member from falling out of bed or to permit the Member to participate in activities without the risk of physical harm. This does not include a physical escort.

7. "Seclusion" means the involuntary solitary confinement of a Member in a room or an area where the Member is prevented from leaving as specified in A.A.C. R9-10-101.

8. "Seclusion of Members Determined to Have A Serious Mental Illness" means the restriction of a Member to a room or area through the use of locked doors, or any other device or method which precludes a Member from freely exiting the room or area, or which a Member reasonably believes precludes their unrestricted exit.

a. In the case of an inpatient facility, confining a Member to the facility, the grounds of the facility, or a ward of the facility does

not constitute Seclusion.

b. In the case of a community residence, restricting a Member to the residential site, according to specific provisions of a service plan or court order, does not constitute Seclusion, as specified in A.A.C. R9-21-101(B).

POLICY

A. SECLUSION AND RESTRAINT

1. The Division shall require that the use of Seclusion and Restraint (SAR) be used to the extent permitted by and in compliance with A.A.C. R9-10-225, A.A.C. R910-316, and A.A.C. R9-21-204.
2. The Division shall require that any incident involving the use of SAR be reported as described in this policy to the Arizona Health Care Cost Containment System (AHCCCS), Division of Community Advocacy and Intergovernmental Relations, Office of Human Rights, and the appropriate Independent Oversight Committee (IOC) via collaboration with the AHCCCS Division of Health Care Management, Quality Management (QM) IOC Manager.

3. The Division shall require all interventions used during each incident of SAR be documented in a single individual report including all required components of each type of intervention used to manage the behavior.

B. DIVISION OVERSIGHT AND MONITORING OF REPORTING REQUIREMENTS

1. The Division shall require the AdSS to follow the reporting requirements as specified in this policy.

2. The Division shall require the AdSS utilizing any out-of-state facility to provide behavioral health services to Division Members, to ensure the facility agrees to and follows all reporting requirements as specified in AdSS Medical Policy 962 as a part of the contracted single case agreement.

3. The Division shall require the AdSS to submit individual reports of Incidents of SAR involving Division Members directly to the AHCCCS QM Portal within five business days of the incident using AMPM Policy 962 Attachment A or the agency's electronic medical record that includes all elements listed on AMPM Policy

962, Attachment A. If the use of SAR requires face-to-face monitoring, as specified in A.A.C. R9-21-204, a supplemental report shall be submitted as an attachment to the individual report.

4. The Division shall require the AdSS to have a process in place to ensure incidents of SAR that result in an injury or complication requiring medical attention are reported to the AdSS within 24 hours of the incident.

B. SUBMITTING INDIVIDUAL REPORTS OF SAR TO THE AHCCCS QM PORTAL

1. The Division shall review all individual reports of SAR submitted through the AHCCCS QM Portal by the AdSS and their service providers as specified in contract.

2. The Division shall ensure that the original AMPM 962 Attachment A or electronic medical record received from the service provider is attached to the record within the AHCCCS QM Portal.

3. The Division shall ensure individual reports of SAR are linked to any connected Incident, Accident or Death (IAD), Internal

Referral (IRF), or Quality of Care (QOC) Concern process within the AHCCCS QM Portal as specified in Division Medical Policy 960.

C. SUBMITTING INDIVIDUAL SAR REPORTS TO THE IOC

1. The Division shall ensure that all individual SAR Reports involving behavioral health service providers are uploaded within the AHCCCS QM Portal for IOC review as specified in contract.

2. The Division shall ensure that all reports uploaded for IOC review have all Personally Identifiable Information removed prior to submission as specified in A.R.S. §41-3804. If the use of SAR requires face-to-face monitoring, as outlined in A.A.C. R9-21-204, a supplemental report shall be submitted as an attachment to each individual report.

3. The Division shall ensure that the disclosure of protected health information is in accordance with state and federal laws.

D. OVERSIGHT, MONITORING, TRACKING AND TRENDING

1. The Division's Quality Management Unit (QMU) shall monitor the

AdSS' compliance to these reporting standards and AdSS Medical Policy 962 through review of SAR reports entered in the AHCCCS QM Portal and during the annual review process.

2. The Division's QMU shall track and trend the use of SAR for all Members, including Members at the Arizona State Hospital, and prepare quarterly reports for the Quality Management/Performance Improvement (QM/PI) Committee based on the data.

3. The QM/PI Committee shall review the quarterly reports, SAR incidents and recommendations for improvement, and develop recommendations to ensure Member safety and quality improvement.

4. The QM Medical Director shall review any QOC Concerns involving the inappropriate use of SAR on a monthly basis and identify opportunities for improvement and make recommendations to the Chief Medical Officer.

Signature of Chief Medical Officer: Anthony Dekker (Aug 3, 2023 12:37 PDT)
Anthony Dekker, D.O.

SUPPLEMENTAL INFORMATION

1. The AHCCCS OHR and the IOCs review SAR reports to determine if there has been inappropriate or unlawful use of SAR and to determine if SAR may be used in a more effective or appropriate fashion.
2. If the AHCCCS OHR or any IOCs determine that SAR has been used in violation of any applicable law or rule, the OHR or IOC may take whatever action is appropriate in accordance with their applicable regulation(s) and, if applicable, A.A.C. R9-21-204.
3. AHCCCS requires BHIFs and Mental Health Agencies providing services to FFS Members, except THP Members enrolled to receive behavioral health services with a Regional Behavioral Health Agency, submit individual SAR reports directly to the AHCCCS DCAIR OHR via email at OHRts@azahcccs.gov and to the AHCCCS DHCM QM IOC Manager using AMPM 962 Attachment A or the agency's electronic medical record that includes all elements listed on Attachment A concerning the use of SARs involving Members with a Serious Mental Illness designation within five business days of the occurrence of the incident. If the use of SARs requires face-to-face monitoring, a supplemental report shall be submitted as an attachment to each individual report.

966 IMMEDIATE JEOPARDY

EFFECTIVE DATE: April 20, 2022

REFERENCES: AMPM Chapter 900, Policy 960, Division Medical Manual Policy 960, 950, AdSS Medical Manual Policy 960

Purpose

This policy establishes the requirements applicable to the Division of Developmental Disabilities (Division) when the Arizona Health Care Cost Containment System (AHCCCS) notifies the Division with a report of immediate jeopardy (IJ), or the Division becomes aware of a situation that may elevate to the level of immediate jeopardy.

Scope

This policy applies to the Division's activities in investigating and resolving incidents involving allegations of immediate jeopardy.

Definitions

Immediate Jeopardy **-** A situation in which the provider's noncompliance with one or more requirements of participation has caused, or is likely to cause, serious injury, harm, impairment, or death to a member. An immediate jeopardy situation is one that is clearly identifiable due to the severity of its harm or likelihood for serious harm and the immediate need for it to be corrected to avoid further or future serious harm.

Emergency Measure - The use of physical management techniques (Prevention and Support Intervention Techniques) in an emergency to manage a sudden, intense, or out of control behavior.

Policy

The Division ensures the health, well-being and safety of all members where a situation may present as immediate jeopardy. The Division takes action to remediate/remove any immediate jeopardy situation.

A. AHCCCS Notification of Immediate Jeopardy

1. During Normal Business Hours.

AHCCCS sends an email to the Division Quality Management Unit (QMU) mailbox and Chief Medical Officer, Chief Quality Officer and/or their designee, which details an immediate jeopardy situation. Notification of the immediate jeopardy situation requires the QMU team to conduct an investigation to determine member(s) status and remediate the IJ situation immediately but no later than 24-hours after the IJ notification. In the event other Division departments are involved with the Immediate Jeopardy situation, the QMU team holds ultimate accountability for resolving the IJ issue within the 24-hour timeframe. The following steps occur when an IJ is reported to the QMU:

a. QMU staff determines and verifies whether the situation impacts Division member(s) and/or provider(s).

b. Once verification is determined that Division member(s) are involved, QMU schedules an immediate health/safety monitoring visit within 24 hours. The Division notifies AHCCCS of the identity of the members involved.

c. QMU responds to AHCCCS on the member status based upon the monitoring report using the immediate jeopardy form (AHCCCS Medical Policy Manual [AMPM] 960 Attachment C Health and Safety Update Onsite Review Form) within the 24-hour timeline.

d. QMU notifies relevant Division staff and Department chain-of-command, as appropriate and required.

e. Information regarding any findings from the visit are forwarded to QMU as soon as the visit is completed using 960 Attachment C Health and Safety Onsite Review Form. The Incident Specific Health and Safety Assessment form is completed for each member identified in the incident report and in addition to other required information specifies the immediate steps taken to secure the safety of the resident.

f. If the immediate jeopardy situation affects Division member(s) in an acute care funded facility, the Division-contracted Administrative Services Subcontractor (AdSS) plan is notified to complete steps a, b, and e and send the response to the QMU to assess and respond to AHCCCS within 24-hours.

g. If the IJ situation arises late in the business day, the District on-call person is notified that they may be receiving a report after hours. In the event the District on-call person believes the immediate jeopardy team needs to convene, they will call the Chief Quality Officer (CQO) or designee and the CQO will initiate the call tree.

2. After Normal Business Hours.

The Division's After Hours staff contacts the District on call staff with any reports of immediate jeopardy that require follow-up within 24-hours. The designated staff on call in each District will contact the QMU Chief Quality Officer or their designee to initiate coordination of immediate jeopardy investigation and follow-up to include steps 1 a-e listed above.

B. Division Identification of Immediate Jeopardy

1. During Normal Business Hours.

When the Division becomes aware of an immediate jeopardy situation from any source involving Division members, QMU staff assume responsibility of the IJ situation/issue. In the event other Division departments are involved with the

Immediate Jeopardy situation, the QMU team holds ultimate accountability for resolving the IJ issue within the 24-hour timeframe. The following steps are completed within 24-hours of notification/identification of the immediate jeopardy situation:

a. QMU staff determines and verifies whether the situation affects Division member(s) and/or provider(s).

b. Once verification is determined that a Division member(s) are involved, QMU schedules an immediate health/safety monitoring visit within 24 hours. The Division notifies AHCCCS of the identity of the members involved.

c. QMU reports to AHCCCS the immediate jeopardy situation, on the members impacted and the member status based upon the monitoring report using the immediate jeopardy form (AMPM 960 Attachment C Health and Safety Update Onsite Review Form) within the 24-hour timeline.

d. QMU notifies relevant Division staff and Department chain-of-command, as appropriate and required.

e. Information regarding any findings from the visit are forwarded to QMU as soon as the visit is completed using 960 Attachment C Health and Safety Onsite Review Form. The Incident Specific Health and Safety Assessment form is completed for each member identified in the incident report and in addition to other required information specifies the immediate steps taken to secure the safety of the resident.

f. If the immediate jeopardy situation affects Division member(s) in an acute care funded facility, the Division-contracted AdSS is notified to complete steps a-c and send the response to the QMU to assess and respond to AHCCCS within 24-hours.

g. If the IJ situation arises late in the business day, the District on-call person is notified that a report may be sent after hours. In the event the District on-call staff believes the immediate jeopardy team needs to convene, the staff will call the Chief Quality Officer (CQO) or designee and the CQO will initiate the call tree.

3. After Normal Business Hours.

The District on call staff receives any reports of immediate jeopardy that require follow-up within 24 hours. The on-call staff in the District contacts the QMU CQO or their back-up to hand off coordination of follow-up for the immediate jeopardy notifications to include steps a-e listed above.

C. Member Relocation from Residential Facility

1. When certain serious conditions are present at residential facilities, the Division offers relocation options to members to ensure their health and safety. This section describes the following:

    a. The types of facilities where members reside that may be subject to relocation.

    b. The types of presenting circumstances that may support a decision to relocate member(s).

    c. The decision makers authorized to make the determination to relocate members.

2. The types of residential facilities from which members may be subject to relocation under this policy include the following:

    a. Group Homes

    b. Nursing Supported Group Homes

    c. Intermediate Care Facilities (ICFs)

    d. Adult Developmental Homes (ADHs)

    e. Child Developmental Homes (CDHs)

3. The Division may elect to relocate members for the following reasons including but not limited to:

    a. An individual is injured or ill and has not received medical attention.

    b. Air conditioning or heating units are not working and the thermostat at the facility is above 90 degrees Fahrenheit on high temperature days or below 60 degrees Fahrenheit on cold temperature days.

    c. The water or electricity is not working or has been shut off.

    d. The staff to client ratio is not adequate to meet the needs of the individuals in the home. For example, a resident requires a two person lift and there is only one staff on duty; a resident requires 1:1 staffing according to their Service plan and there is insufficient staffing to meet the requirement.

    e. On-duty staff is unable to meet the needs of residents due to being under the influence of alcohol or drugs.

    f. Staff lack required initial training or have not been oriented to client needs, placing residents at risk.

    g. Indications of physical abuse, sexual abuse and/or neglect of residents is evident.

h. Resident expresses fear about remaining in the facility.

i. Environmental health and safety risks are present. For example, fire damage, fire hazards such as exposed wiring, unsecured pool area, doors/windows cannot be secured, blocked doorways or unhealthy living conditions.

j. Food supplies are inadequate. There must be sufficient food to prepare a well-balanced dinner, breakfast the next morning and to pack lunches for the next day. Only if the provider is unable or unwilling to immediately remediate this issue would residents be relocated.

k. Provider license is suspended, expired, or voluntarily surrendered.

l. Serious infestation in the facility of insects or rodents.

m. The facility has non-working appliances such as a stove or refrigerator.

n. The residents do not have adequate furniture.

4. A Network Manager, District QI Manager, QMU Administrator, DDD Contracts Administration Unit staff or members of the Executive Leadership Team are responsible for making the determination to relocate members from residential facilities and documented in a summary note in FOCUS/Incident Management System (IMS).

D. Timeframes for Response

1. Below are standard expected response times for face-to-face visits with the member and/or purposeful site visits to the place of occurrence to determine whether there are site safety concerns related to allegations of immediate jeopardy. The types and categories below are not an exclusive list and the Quality Assurance Manager and/or Supervisor may exercise discretion to dispatch staff for a site visit that is not listed below.

2. Response within 24 hours of notification:

a. Unexpected death

b. Accidental injury with hospitalization

c. Neglect with imminent danger

d. Attempted suicide with serious injury

e. Physical or sexual abuse with serious injury

f. Emergency measures utilizing a prohibited restraint

g. Emergency measure with serious injury

h. Physical or sexual abuse (without serious injury)

i. Neglect with potential danger

j. Medication error with hospitalization

k. Human rights violation allegation

l. Injury of unknown origin

m. Programmatic abuse allegation

n. Verbal/emotional abuse allegation

o. Unapproved (but not prohibited) emergency measure without serious injury

E. Investigation, Evaluation and Resolution of Immediate Jeopardy Findings

1. The Division complies with Division Medical Policy 960 Quality of Care (QOC) Concerns for investigating, reviewing, evaluating, monitoring, and resolving all QOC concerns including concerns that involve allegations of immediate jeopardy.

2. The District nurse investigator takes prompt action to ensure the health, safety and well-being of the member(s) including remaining with the member(s) until the risk of harm or likelihood for serious harm is remediated.

3. Based on the findings of the investigation of an Immediate Jeopardy situation, in accordance with Division Medical Policy 960, the Division may implement any or all the following:

a. Actively participate in meetings focused on ensuring incident resolution and health and safety of members, as well as identifying any immediate care or recovery needs.

b. Actively participate in meetings scheduled to develop work plans and corrective action plans to ensure placement setting or service site compliance with Arizona Department of Health Services (ADHS) Licensure, Division contract requirements, and/or AHCCCS requirements, including, but not limited to, policy, training and signage requirements aimed at preventing and reporting abuse, neglect and exploitation as specified in AHCCCS Minimum Subcontract Provisions.

c. Participate in scheduled and unscheduled monitoring of placement setting or service sites that are in an immediate jeopardy status, have serious identified deficiencies that may affect health and safety of members or as directed by AHCCCS.

d. Assist in the identification of technical assistance resources focused on achieving and sustaining regulatory compliance.

e. Monitor placement setting or service sites upon completion of the activities and interventions to ensure that compliance is sustained.

f. Initiate corrective actions that may include sanctioning the provider or other appropriate contract actions to ensure client safety and provider response.

g. Take adverse action against the credentialing or contract status of a provider pursuant to Division Medical Policy 950.

4. The Division tracks immediate jeopardy incidents to identify trends and determine systemic interventions and opportunities for quality improvement.

a. The Division tracks the timeliness of its response to quality of care concerns and complaints involving allegations of immediate jeopardy. The timeframes for response set forth in this policy at Section D. 3-5 are tracked and trending to identify member/provider systemic issues. The following are tracked:

i. Number and reason for failure to respond within designated timeframes.

ii. Number and types of corrective actions per complaint type.

iii. Number and types of notifications to outside agencies including, but not limited, to law enforcement, Adult Protective Services, Department of Child Services, Arizona Department of Health Services.

b. Findings from investigations are also tracked and trended, including whether the allegations are substantiated, unsubstantiated, or unable to substantiate. Categories of findings that are tracked may include, but are not limited to:

i. Quality of care/treatment

ii. Member neglect

iii. Member rights

iv. Physical environment

v. Member abuse

vi. Other

c. The results of the Division's tracking and trending for immediate jeopardy related data are analyzed, reviewed, and discussed, at the monthly Quality Management subcommittee meeting, the monthly Performance Improvement Monitoring Subcommittee

meeting, and the quarterly Quality Management Program Improvement (QMPI) Committee for discussion and any decision-making with senior leadership.

970 PERFORMANCE MEASURES

REVISION DATES: 9/6/23, 3/9/22, 07/29/20, 11/17/17

EFFECTIVE DATE: May 13, 2016

REFERENCES: 42 CFR 438 and AHCCCS Medical Policies 920 and 970

PURPOSE

This policy establishes the requirements of the Division of Developmental Disabilities (Division) to Evaluate, monitor, and report on performance measures; responsibilities related to performance measures specific to Long-Term Services and Supports; and oversight of physical and behavioral health services performance measures delegated to the Administrative Services Subcontractors (AdSS).

DEFINITIONS

1. “Evaluate” means the process used to examine and determine the level of quality or the progress toward improvement of quality or performance related to service delivery systems.
2. “Health Information System” means a primary data system that collects, analyzes, integrates, and reports data to achieve the Objectives outlined under 42 CFR 438, and data systems composed of the resources, technology, and methods required to optimize the

acquisition, storage, retrieval, analysis, and use of data.

3. "Inter-Rater Reliability" means the process of ensuring that multiple observers are able to consistently define a situation or occurrence in the same manner, which is then recorded.
4. "Long-Term Services and Supports" means services and supports provided to Members who have functional limitations or chronic illnesses that have the primary purpose of supporting the ability of the Member to live or work in the setting of their choice as specified in 42 CFR 438.2.
5. "Measurable" means the ability to determine definitively whether or not a quantifiable Objective has been met, or whether progress has been made toward a positive outcome.
6. "Member" means the same as "Client" as defined in A.R.S. § 36-551.
7. "Methodology" means the planned documented process, steps, activities, or actions taken to achieve a goal or Objective, or to progress towards a positive outcome.
8. "Monitoring" means the process of auditing, observing, evaluating, analyzing, and conducting follow-up activities and documenting results via desktop or onsite review.

9. "Objective" means a measurable step, generally one of a series of progressive steps, to achieve a goal.
10. "Official Rates" means Performance Measure results calculated by the Division that have been validated by the AHCCCS External Quality Review Organization for the calendar year.
11. "Outcome" means a change in patient health, functional status, satisfaction, or goal achievement that results from health care or supportive services [42 CFR 438.320].
12. "Performance Improvement" means the continuous study and improvement of processes with the intent to better services or outcomes, and prevent or decrease the likelihood of problems by identifying areas of opportunity and testing new approaches to fix underlying causes of persistent or systemic problems or barriers to improvement.
13. "Performance Measure Performance Standards" means the minimal expected level of performance based upon the National Committee for Quality Assurance, HEDIS® Medicaid Mean or Centers for Medicare and Medicaid Services Medicaid Median for selected Core Set-Only Measures, as identified by the Arizona Health Care Cost Containment System (AHCCCS), as well as the Line of Business aggregate rates, as

applicable.

14. "Plan-Do-Study-Act Cycle" means a scientific method for testing a change or intervention, designed to result in improvement in a specific area. The cycle is completed by planning the change/intervention, trying it, observing the results, and acting on what is learned. When these steps are conducted over a relatively short time period the approach is known as Rapid Cycle Improvement. The PDSA Cycle consists of the following steps:

    a. Plan: Plan the changes or interventions, including a plan for collecting data. State the Objectives of the interventions.

    b. Do: Try out the interventions and document any problems or unexpected results.

    c. Study: Analyze the data and study the results. Compare the data to predictions and summarize what was learned.

    d. Act: Refine the changes or interventions based on what was learned and prepare a plan for retesting the interventions

    e. Repeat: Continue the cycle as new data becomes available until improvement is achieved.

13. "Statistically Significant" means a result occurs that is unlikely due to chance or random fluctuation.

14. "Triple Aim" means a framework for optimizing health system performance consisting of the following three components:

    a. Improve the experience and outcomes of care;

    b. Improve the health of populations; and

    c. Reduce the per capita costs of healthcare.

POLICY

The Division's management of performance measures is focused on achieving the goals of the Triple Aim, providing integrated care, identifying and standardizing best practices, implementing targeted interventions, and tracking and trending outcomes to support quality improvement in member health and well-being.

A. PERFORMANCE MEASURES

1. The Division's Quality Management Unit (QMU) shall use standardized performance measures that focus on the following clinical and non-clinical areas reflective of the Centers for Medicare and Medicaid Services (CMS) Core Set domains of care:

    a. Primary Care Access and Preventive Care;

    b. Maternal and Perinatal Health;

c. Care of Acute and Chronic Conditions;

d. Behavioral Health Care;

e. Dental and Oral Health Services;

f. Experience of Care; and

g. Long-Term Services and Supports (LTSS).

2. The Division shall collect, monitor, and Evaluate Health Information System data relevant to the following performance measures:

a. Quality,

b. Timeliness,

c. Utilization,

d. Efficiency,

e. Member satisfaction,

f. Targeted investment, and

g. Performance Improvement.

3. The Division's Quality Management Unit (QMU) shall analyze, monitor, and Evaluate established performance metrics on an on-going basis and develop specific Measurable goals and Objectives aimed at supporting quality management and desired outcomes as well as enhancing the Quality Management/Performance Improvement (QM/PI) Program.

4. The QMU shall self-report the following performance metrics to AHCCCS:

   a. Quality Management/Quality of Care;

   b. Medical Management;

   c. Maternal and Child Health;

   d. Network Adequacy; and

   e. Waiver/Program Evaluation.

5. The Division shall include LTSS specific performance measures that examineMembers' quality of life, community integration activities [42 CFR 438.330©(1)(ii)], and any performance measures that are the responsibility of the AdSS.

B. PERFORMANCE MEASURE REQUIREMENTS

1. The QMU shall oversee activities delegated to the AdSS associated with performance measures.

2. The QMU shall work collaboratively with the AdSS to ensure that the AdSS are achieving performance measure standards as part of the quality management plan.

3. The QMU shall ensure compliance with AHCCCS QM/PI requirements and the utilization of applicable performance measure methodologies for internal Monitoring and evaluation of performance measure results.

4. The QMU shall provide oversight to ensure that the AdSS:

    a. Adhere to the requirements related to performance measures.

    b. Utilize the results of the Official Rates in evaluating the AdSS QM/PI Program.

    c. Achieve the Performance Measure Performance Standards (PMPS) identified by AHCCCS for each measure based on the rates calculated by AHCCCS.

    d. Establish how the Statistically Significant improvement can

be attributable to interventions undertaken by the AdSS, and that the improvement occurred due to the project and interventions, not another unrelated reason.

e. Maintain or increase the improvements in performance for at least one year after the performance improvement is first achieved.

f. Measure and report performance measures, and meet any associated standards mandated by the Division, AHCCCS, or CMS.

g. Achieve the PMPS outlined in the AdSS' contract for each measure using administrative and hybrid rates.

h. Demonstrate sustained and improved efforts throughout the performance cycle when PMPS have been met.

i. Develop an evidence-based Corrective Action Plan (CAP) for each measure not meeting the PMPS, including interventions to meet the specific needs of Division Members to bring performance up to the minimum standards required by AHCCCS while adhering to AMPM Policy 920, Attachment B.

j. Ensure each CAP includes a list of activities or strategies that the AdSS are using to allocate increased administrative resources to improve rates for a specific measure or service area.

k. Demonstrate and sustain improvement towards meeting PMPS.

5. The Division may take administrative action for PMPS that do not show Statistically Significant improvement in Official Rates.

6. The Division may take administrative action for Statistically Significant declines of rates or any rate that does not meet the PMPS or a rate that has a significant impact to the aggregate rate for the State.

7. The Division shall require the AdSS to report the status of any discrepancies identified in encounters submitted to and received by the Division for purposes of performance measure monitoring.

8. The Division is responsible for:

a. Monitoring encounter submissions by the Division's

subcontractors;

b. Demonstrating improvement from year to year, which is sustained over time, in order to meet goals for performance established by AHCCCS;

c. Complying with national performance measures and levels that may be identified and developed by CMS in consultation with AHCCCS; and

d. Ensuring the CAPs are approved by AHCCCS prior to implementation.

9. The Division shall internally measure and report to AHCCCS the Division's performance on contractually mandated performance measures using a standardized methodology established or adopted by AHCCCS.

10. The Division shall use the results of the AHCCCS contractual performance measures in evaluating the Division's QM/PI program.

C. PERFORMANCE MEASURE ANALYSIS

1. The Division shall conduct data analysis of performance measure

rates to improve the quality of care provided to Members, identify opportunities for improvement, and implement targeted interventions.

2. The Division shall evaluate performance for aggregate and subpopulations, inclusive of Members with special health care needs, as well as any other focus areas identified by AHCCCS.

3. The Division shall utilize proven quality improvement tools when conducting root-cause analysis and problem-solving activities.

4. The Division shall identify and implement targeted interventions to address any noted disparities identified as part of the Division's data analysis efforts.

5. The Division shall conduct Plan-Do-Study-Act (PDSA) Cycles to Evaluate the effectiveness of interventions, revise interventions as needed, and conduct repeat PDSA Cycles until improvement is achieved.

D. INTER-RATER RELIABILITY

1. The Division shall use the following process to collect data used to measure performance:

a. Assign qualified personnel to collect data,

b. Ensure Inter-Rater Reliability if more than one person is collecting and entering data, and

c. Submit specific documentation to verify that indicator criteria were met in accordance with AHCCCS instruction.

2. The Division shall ensure that data collected from multiple individuals is consistent and comparable through an implemented Inter-Rater Reliability process as specified in Medical Policy 960.

3. If requested by AHCCCS, the Division shall provide evidence of implementation of the Inter-Rater Reliability process and the associated Monitoring.

E. PERFORMANCE METRIC AND MEASURE REPORTING

1. The Division's QM/PI Committee shall review performance measure analytics and recommendations from subcommittees to improve the quality of the care provided to Members, identify opportunities for improvement, and implement targeted interventions on a quarterly basis.

2. The Division shall combine performance measure outcomes from the AdSS and submit those results to AHCCCS as specified in the AHCCCS contract.

3. The Division shall report on LTSS specific performance measures and outcomes managed by the Division, through qualified vendors, as well as the LTSS specific performance measures and outcomes managed by the AdSS.

4. The Division shall report the Division's QM/PI program performance to the AHCCCS Quality Improvement Team, as specified in the AHCCCS contract, utilizing the AHCCCS Performance Measure Monitoring Report & Work Plan Evaluation Template found on the AHCCCS website.

F. AdSS OVERSIGHT

1. The Division shall use the following methods to ensure the AdSS are in compliance with AdSS Medical Policy 970 and associated policies:

   a. Conduct annual operational reviews for compliance;

   b. Analyze deliverable reports and other data as required;

c. Conduct oversight meetings with each AdSS for the purpose of reviewing compliance and addressing any performance measures or other quality of care concerns; and

d. Review data submitted by the AdSS demonstrating ongoing compliance Monitoring of the AdSS' network and provider agencies through Behavioral Health Chart Reviews.

980 PERFORMANCE IMPROVEMENT PROJECTS

REVISION DATE: 9/6/2023, 12/7/2022, 9/15/2021, 07/29/2020, 11/17/2017, 05/13/2016
EFFECTIVE DATE: May 13, 2021
REFERENCES: 42 CFR 438.320, 42 CFR 438.330, AMPM 980 - Attachment A

PURPOSE

This policy establishes the requirements of the Division of Developmental Disabilities (Division) regarding the management and implementation of AHCCCS-mandated and Division self-selected Performance Improvement Projects (PIPs) within the Quality Management/ Performance Improvement (QM/PI) Program and its responsibilities to monitor, provide oversight and ongoing evaluation of the Administrative Services Subcontractors' (AdSS) performance.

DEFINITIONS

1. "Baseline Data" means data collected at the beginning of a PIP that is used as a starting point for measurement and the basis for comparison with subsequent remeasurement(s) in demonstrating significant and sustained improvement.
2. "Benchmark" means the process of comparing a practice's performance with an external standard to motivate engagement

in Quality improvement efforts and understand where performance falls in comparison to others. Benchmarks may be generated from similar organizations, Quality collaboratives, and authoritative bodies.

3. "Grievance" means a Member's expression of dissatisfaction with any matter, other than an adverse benefit determination.
4. "Member" means the same as "Client" as defined in A.R.S. § 36-551.
5. "Methodology" means the planned documented process, steps, activities, or actions taken to achieve a goal or Objective, or to progress towards a positive Outcome.
6. "Monitoring" means the process of auditing, observing, evaluating, analyzing, and conducting follow-up activities, and documenting results via desktop or on-site review.
7. "Objective" means a measurable step, generally one of a series of progressive steps, to achieve a goal.
8. "Outcomes" means changes in patient health, functional status, satisfaction, or goal achievement that result from health care or supportive services [42 CFR 438.320].

9. "Performance Improvement Project" or "PIP" means a planned process of data gathering, evaluation and analysis to determine interventions or activities that are projected to have a positive outcome. A PIP includes measuring the impact of the interventions or activities toward improving the Quality of care and service delivery.
10. "Plan Do Study Act Cycle" or "PDSA Cycle" means a scientific method for testing a change or intervention, designed to result in improvement in a specific area. The cycle is completed by planning the change/intervention, implementing it, observing the results, and analyzing results for Outcomes on the interventions. When these steps are conducted over a relatively short time period, i.e., over days, weeks, or months, the approach is known as Rapid Cycle Improvement.
11. "Plan Do Study Act Method" or "PDSA Method" means a four step model to test a change that is implemented. Going through the prescribed four steps utilizing one or more PDSA Cycles guides the thinking process into breaking down the task into steps and then evaluating the outcome, improving on it, and testing again.

12. "Quality" as specified in 42 CFR 438.320, pertains to external Quality review, means the degree to which an MCO increases the likelihood of desired Outcomes of its Members through:
    a. Its structural and operational characteristics.
    b. The provision of services that are consistent with current professional, evidence-based knowledge.
    c. Interventions for performance improvement.
13. "Statistically Significant" means a result occurs that is unlikely due to chance or random fluctuation.
14. "Validation" means the review of information, data, and procedures to determine the extent to which they are accurate, reliable, free from bias and in accord with standards for data collection and analysis.

POLICY

A. PIP REQUIREMENTS

1. The Division shall participate in AHCCCS-mandated and Division self-selected PIPs.

2. The Division shall select, with AHCCCS approval, additional PIPs based on self-identified opportunities for improvement, as supported by a root cause analysis, external and internal data, surveillance of trends and other information available to the Division.
3. The Division shall consider all populations and services covered when developing Quality assessments and PIPs.
4. The Division shall participate in performance measures and PIPs that are mandated by the Centers for Medicare and Medicaid Services (CMS).
5. The Division shall develop, design and implement PIPs to improve systemic and Member-focused Outcomes and demonstrate sustainable improvement in clinical care and non-clinical services, through:
    a. Measurement of performance using objective Quality indicators.
    b. Implementation of interventions to achieve improvement in access to and Quality of care.

c. Evaluation of the effectiveness of the interventions based on indicators collected as part of the PIP

d. Planning and initiation of activities for increasing or sustaining improvement (42 CFR 438.330(d)(2)).

B. PIPS DESIGN

1. The Division shall conduct PIPs that focus on either clinical or non-clinical areas.

   a. The Division may, when determined appropriate by the Division, include the following topics when selecting a clinical topic:

      i. Primary, secondary, or tertiary prevention of acute conditions;

      ii. Primary, secondary, or tertiary prevention of chronic conditions;

      iii. Primary, secondary, or tertiary prevention of behavioral health conditions;

      iv. Care of acute conditions;

      v. Care of chronic conditions;

      vi. Care of behavioral health conditions; and

vii. Continuity and coordination of care.

b. The Division may, when determined appropriate by the Division, include the following topics when selecting a non-clinical topic:

i. Availability, accessibility, and adequacy of Contractor's service delivery system;
ii. Cultural competency of services;
iii. Interpersonal aspects of care; and
iv. Appeals, Grievances, and other complaints.

2. The Division shall identify and implement clinical and non-clinical focused PIPs that are meaningful to the populations served and based on self-identified opportunities for improvement.

3. The Division shall support these PIPs by using:

a. Root cause analyses;

b. External and internal data;

c. Surveillance of trends; or

d. Other information available to the Division.

4. The Division shall adhere to the protocol in 42 CFR 438.330 when developing PIPs.

5. The Division shall adhere to and align with the protocol specified in AMPM Policy 980 – Attachment A, Protocol for Conducting Performance Improvement Projects, when selecting, designing, developing, and implementing self-selected PIPs.

6. The Division shall use the PDSA Method to test changes or interventions quickly and refine them, as necessary.

7. The Division shall utilize several PDSA Cycles within the PIP lifespan.

8. The Division shall include the following steps in the PDSA Cycle:

    a. Plan the changes or interventions, including a plan for collecting data.

    b. State the Objectives of the interventions.

    c. Try out the interventions and document any problems or unexpected results.

    d. Analyze the data and study the results.

e. Compare the data to predictions and summarize what was learned.

f. Refine the changes or interventions, based on what was learned, and prepare a plan for retesting the interventions.

g. Continue the cycle as new data becomes available until sustainable improvement is achieved.

9. The Division shall include all PDSA Cycles conducted as part of the PIP within the Division's PIP Report submissions.

C. PIP TIMEFRAMES

1. For AHCCCS-Mandated PIPs, the Division shall do the following:
   a. Initiate mandated PIPs on a date that corresponds with the calendar year established by AHCCCS.
   b. Collect and analyze Baseline Data at the beginning of the PIP.
   c. Implement innovative and-evidence-based interventions to improve performance based on an evaluation of barriers

and root cause analysis during the Intervention years or annual measurements.

d. Consider any unique factors such as:

i. The Division's membership,

ii. The provider network, and

iii. The geographic area(s) served.

e. Report at the intervals indicated within the associated PIP methodologies in cases where AHCCCS elects to implement Rapid Cycle PIPs.

f. Continue to participate in the PIP until the Division demonstrates significant and sustained improvement, as outlined in Section E, or as directed by AHCCCS.

2. For Division Self-Selected PIPs, the Division shall do the following:

a. Implement Rapid Cycle PIPs where applicable and appropriate, and

b. Continue to participate in the PIP until the Division demonstrates significant and sustained improvement, as outlined in Section E, or as approved by AHCCCS when

significant and sustained improvement has not been demonstrated.

D. DATA COLLECTION METHODOLOGY

1. The Division shall align their data collection Methodology, including project indicators, procedures, and timelines with the guidance and direction provided for all AHCCCS-mandated PIPs.
2. The Division shall evaluate their performance on the selected PIP indicators based on systematic, ongoing collection and analysis of accurate, valid, and reliable data as collected and reported by AHCCCS or as validated by the AHCCCS External Quality Review Organization (EQRO).
3. The Division shall ensure collected data are accurate, valid, and reliable through internal processes for self-selected PIPs that are not based on standardized performance measures.

E. INTER-RATER RELIABILITY

1. For PIPs that are not based on standardized performance measures as well as performance measures not included within AHCCCS Contract, the Division shall:

a. Submit specific documentation to verify that indicator criteria were met in accordance with AHCCCS instruction,

b. Have qualified personnel collect data,

c. Ensure inter-rater reliability if more than one person is collecting and entering data.

2. The Division shall ensure that data collected from multiple parties or individuals for PIP indicators is consistent and comparable through an implemented inter-rater reliability process.

3. The Division shall contain in their documented inter-rater reliability process:

a. A detailed description of the Division's Methodology for conducting inter-rater reliability including:

i. Initial training and retraining, if applicable;

ii. Oversight;

iii. Validation of data collection; and

iv. Other activities deemed applicable.

b. The required minimum score that each individual shall obtain in order to continue participation in the data collection and reporting process;

c. A mechanism for evaluating individual accuracy scores and any subsequent accuracy scores, if applicable; and

d. The actions taken should an individual not meet the established accuracy score.

4. The Division shall monitor and track the inter-rater reliability accuracy scores and associated follow up activities.

5. The Division shall provide evidence to AHCCCS of implementation of the inter-rater reliability process as well as the associated Monitoring upon request.

F. MEASUREMENT OF SIGNIFICANT DEMONSTRABLE IMPROVEMENT

1. The Division shall implement interventions to achieve and sustain Statistically Significant improvement, followed by sustained improvement for one consecutive year, for each PIP indicator.

2. The Division shall initiate interventions that result in significant improvement, sustained over time, in its performance for the PIP indicators being measured.
3. The Division shall provide evidence to AHCCCS of improvement in repeated measurements of the PIP indicators specified for each active PIP.
4. The Division shall demonstrate significant improvement when the improvement in the PIP indicator rate(s) from one measurement year to the next measurement year is Statistically Significant.
5. The Division shall demonstrate sustained improvement when it:
    a. Establishes how the significant improvement can be attributable to interventions implemented by the Division; and
    b. Maintains, or increases, the improvements in performance for at least one year after the significant improvement in performance is first achieved.

G. PIPS REPORTING REQUIREMENTS

1. The Division shall refer to the AHCCCS Quality Management/Performance Improvement (QM/PI) Reporting

Templates & Checklists section of the AHCCCS website to locate the associated tools the Division shall utilize, as outlined in this section, when preparing and submitting the required deliverables.

2. The Division shall include baseline and annual remeasurements, inclusive of rates and results used as the basis for analysis, both quantitative and qualitative, and the selection or modification of interventions, within the Division's PIP report submissions.
3. The Division shall submit reports that contain population and line of business-specific data reflective of the Division's performance during the current and previous reporting periods in alignment with the associated PIP timeline.
4. The Division shall ensure the inclusion of subpopulation data and disparity analyses within its reporting, with the identification of targeted interventions to be implemented specific to findings, in alignment with the AHCCCS PIP Report Template and Attachment instructions.
5. For AHCCCS-mandated PIPs, the Division shall do the following:

a. Submit PIP reports for all AHCCCS-mandated PIPs, as specified in the AHCCCS contract.

b. Utilize the AHCCCS PIP Report Template and Attachment that is applicable to the population/line of business being reported.

c. Report rates and results, reflective of combined Title XIX and Title XXI populations, as applicable to the population/line of business.

d. Indicate if the interventions are applicable to Title XIX, Title XXI, or both populations.

e. Submit a final PIP report, as specified in the AHCCCS contract, following the year in which significant and sustained improvement is demonstrated.

f. Evaluate significant and sustained improvement based on PIP indicator rates that have been validated by AHCCCS' EQRO or considered as the AHCCCS official PIP indicator rates, as specified in the AHCCCS contract and the associated AHCCCS PIP Methodology.

g. Utilize its Remeasurement Year two (or subsequent year, if required) PIP report to serve as their final PIP report submission contingent upon the following:

i. The Division has met the AHCCCS contract and policy criteria related to significant and sustained improvement to support PIP closure, and

ii. The sections required as part of the final PIP report have been completed.

h. Keep AHCCCS-mandated PIPs open until formal notification of approval for PIP closure from AHCCCS is received.

i. Resubmit their final PIP report if the AHCCCS PIP Checklist requirements are not met.

6. For Division self-selected PIPs, the Division shall do the following:

a. Submit a Contractor Self-Selected PIP Initiation Notification, as specified in the AHCCCS contract.

b. Submit PIP reports for self-selected PIPs, active during the previous calendar year, as specified in the AHCCCS contract.

c. Utilize the AHCCCS PIP Report Template and Attachment, specific to population/line of business.

d. Indicate if measurements or rates and results are reflective of combined Title XIX and Title XXI populations, as applicable to population and line of business.

e. Indicate if the interventions are applicable to the Title XIX, Title XXI, or both populations.

f. Submit a final self-selected PIP report, as specified in the AHCCCS contract, following the year in which significant and sustained improvement is demonstrated.

g. Evaluate significant and sustained improvement based on PIP indicator rates that have been validated by AHCCCS' EQRO or considered as the AHCCCS official performance measure rates, as specified in the AHCCCS contract.

h. Evaluate significant and sustained improvement based on the Division's internally collected and validated data for self-selected PIPs that are not based on standardized performance measures and calendar year performance.

i. Utilize its Remeasurement Year two or subsequent year, if required, PIP report to serve as their final PIP report submission to AHCCCS contingent upon the following:
    i. The Division has met the AHCCCS contract and policy criteria related to significant and sustained improvement to support PIP closure, and
    ii. The sections required as part of the final PIP report have been completed.

j. The Division shall keep Division self-selected PIPs open until the Division has met criteria related to significant and sustained improvement.

k. The Division shall submit a PIP Closure Request for each PIP they are requesting to close for AHCCCS' review and approval.

l. The Division shall indicate the rationale for closing a PIP in cases where the Division has not met criteria related to significant and sustained improvement to support PIP closure.

m. The Division shall close the PIP when formal notification of approval for PIP closure has been received from AHCCCS.

n. The Division shall resubmit their final PIP report if the AHCCCS PIP Checklist requirements are not met.

Signature of Chief Medical Officer: Anthony Dekker (Aug 29, 2023 14:51 PDT)
Anthony Dekker, D.O.

1000 CHAPTER OVERVIEW

REVISION DATES: 09/30/2020, 11/22/2017
EFFECTIVE DATE: May 13, 2016
REFERENCES: 9 A.A.C. 34, 42 CFR 438.210

Purpose

The standards and requirements included in this chapter are applicable to the Division of Developmental Disabilities (Division) and its Administrative Services Subcontractors (AdSS). If requirements of this chapter conflict with specific contract language, the AHCCCS medical contract with the Division will take precedence.

At least annually, the Medical Management Unit will conduct reviews of each AdSS' compliance with the requirements of this chapter. The Division's Medical Management Unit is located within the Division's Health Care Services.

The chapter provides the necessary information to the Division and its AdSS to ensure compliance with federal, state, and AHCCCS requirements to Medical Management activities.

Definitions

The Division's words and phrases in this chapter have the following meanings, unless the context explicitly requires another meaning. Refer to AHCCCS policy for other applicable definitions.

Assess or Evaluate - To study or examine methodically and in detail, typically for purposes of explanation and interpretation.

Authorization Request (Expedited) - Under 42 CFR 438.210, a request for which a provider indicates the Division determines that using the standard timeframe could seriously jeopardize the member's life or health or ability to attain, maintain or regain maximum function. The Division must make an expedited authorization decision and provide notice as expeditiously as the member's health condition requires no later than three working days following the receipt of the authorization request, with a possible extension of up to 14 days if the member or provider requests an extension or if the Division justifies a need for additional information and the delay is in the member's best interest.

Authorization Request (Standard) - Under 42 CFR 438.210, a request for which a the Division must provide a decision as expeditiously as the member's health condition requires, but not later than 14 calendar days following the receipt of the authorization request, with a possible extension of up to 14 calendar days if the member or provider requests an extension or if the Division justifies a need for additional information and the delay is in the member's best interest.

Care Management – A group of activities performed by AdSS to identify and manage clinical interventions or alternative treatments for identified members to reduce risk, cost, and help achieve better health care outcomes. Distinct from case management, care management does not include day-to-day duties of service delivery.

Case Management – A collaborative process that assesses, plans, implements, coordinates, monitors, and evaluates options and services to meet an individual's health needs through communication and available resources to promote quality, cost-effective outcomes.

Catastrophic Reinsurance - Stop-loss mechanism to provide the Division with partial reimbursement for specified service costs incurred by a member. This risk-sharing program is available when the provisions delineated in the Reinsurance Processing Manual, Medical Policy Manual, and contract are met.

Concurrent Review - Process of reviewing an institutional stay at admission and throughout the stay to determine medical necessity for an institutional level of care. The Division reviewers assess the appropriate use of resources, Level of Care (LOC) and service, according to professionally recognized standards of care. Concurrent review validates the medical necessity for admission and continued stay and evaluates quality of care.

Continuous Health Care Improvement - Integrated approach to health care delivery that seeks to improve health outcomes and reduce health care costs by:

A. Identifying and proactively monitoring high-risk populations,
B. Assisting members and providers in adhering to identified evidence-based guidelines,
C. Promoting care coordination,
D. Increasing and monitoring member self-management, and
E. Optimizing member safety.

Delegated Entity - Qualified organization, agency, or provider that holds a subcontract to perform delegated management/administrative functions or responsibilities for the Division.

Disease Management - An integrated approach to health care delivery that seeks to improve health outcomes and reduce health care costs by:

A. Identifying and proactively monitoring high-risk populations,
B. Assisting members and providers in adhering to identified evidence-based guidelines,
C. Promoting care coordination,
D. Increasing and monitoring member self-management, and
E. Optimizing member safety.

Goal - Desired result the Division envisions, plans, and commits to achieve within a proposed timeframe.

Grievance - Expression of dissatisfaction about any matter other than an action. Possible subjects for grievances include, but are not limited to, the quality of care or services provided or aspects of interpersonal relationships, such as rudeness of a provider or employee, or failure to respect the member's rights. Grievances do not include "Action(s)" as defined in 9 A.A.C. 34.

Measurable - A gauge to determine definitively whether a goal has been met or progress has been made.

Medical Management - Integrated process or system that is designed to assure appropriate utilization of health care resources, in the amount and duration necessary to achieve the desired health outcomes, across the continuum of care (from prevention to end of life care).

Methodology - Planned process, steps, activities, or actions taken by the Division to achieve a goal or objective or to progress toward a positive outcome.

Monitoring – Process of auditing, observing, evaluating, analyzing, and conducting follow-up activities, and documenting results.

Retrospective Review - Process of determining the medical necessity of a treatment/service post-delivery of care.

Utilization Management - Applies to a Division process to evaluate, and approve or deny health care services, procedures, or settings based on medical necessity, appropriateness, efficacy, and efficiency. Utilization management also includes processes for prior authorization, concurrent review, retrospective review, and case management.

Monitoring

The Division monitors AHCCCS acute services, for the Division's members, with the following processes:

A. Contracts with acute health plan.

B. Operational Reviews with each Division contracted health plan.

C. Quarterly compliance meetings with each Division contracted health plan.

D. Annual Medical Management plans that include narratives, evaluations, completed work plans from the previous year and new work plans for the current year.

E. Quarterly AHCCCS deliverables (includes EPSDT reports) oversight for Division members.

F. Division contracted health plan quarterly Utilization Management (UM) reports.

G. The Division's Medical Management and Chief Medical Officer or designated Medical Director meetings to discuss data analysis, interventions, and corrective action plans (CAPs). Informal clarification may occur as well as defined CAPs coordinated through the Compliance Units of the Division and the AdSS.

H. Provider manual and member handbook oversight.

I. Health Care Services procedures.

1010 MEDICAL MANAGEMENT ADMINISTRATIVE REQUIREMENTS

REVISION DATES: 07/29/2020, 05/13/2016
EFFECTIVE DATE: May 13, 2016
REFERENCES: 42 C.F.R. 438.210(b)(3), 42 C.F.R. 438.406(a)(2)(i), A.R.S. § 36-2907, A.R.S. § 36-2907(B), A.A.C. R9-22-201 et seq, 9 A.A.C. 34, ACOM Policy 438, AHCCCS Contractor Operations Manual (ACOM)

Purpose

This policy outlines the Medical Management administrative requirements.

Definitions

Plan, Do, Study Act (PDSA) Method **-** A four step model to test a change that is implemented. Going through the prescribed four steps utilizing one or more PDSA cycles guide the thinking process into breaking down the task into steps and then evaluating the outcome, improving on it, and testing again.

Medical Management Plan

A. The Division of Developmental Disabilities (Division) shall develop a written Medical Management Plan that describes the methodology to meet or exceed the standards and requirements of contract.

B. The Division shall submit the Medical Management Plan, and any subsequent modifications, to the AHCCCS Medical Management for review and approval prior to implementation.

C. At a minimum, the Medical Management Plan shall describe, in detail, the Medical Management program and how program activities assure appropriate management of medical care service delivery for enrolled members. Medical Management Plan components shall include:

1. A description of the Division's administrative structure for oversight of its Medical Management program, including the role and responsibilities of:

    a. The governing or policy-making body,

    b. The Medical Management Committee,

    c. The Division Executive Management, and

    d. Medical Management program staff.

2. An organizational chart that delineates the reporting channels for Medical Management activities and the relationship to the Chief Medical Officer (unless delegated to an associate Medical Director) and Executive Management.

3. Documentation that the governing or policy-making body has reviewed and approved the Medical Management Plan.

4. Documentation that appropriately qualified, trained, and experienced personnel are employed to effectively carry out Medical Management program functions.

5. The Division's specific Medical Management goals and measurable objectives as required by AHCCCS policy.

6. Documentation of how the following processes are implemented and monitored to ensure quality and cost-effective care is provided to members in compliance with state and federal regulations:

   a. Medical Management Utilization Data Analysis and Data Management

   b. Concurrent Review

   c. Discharge Planning

   d. Prior Authorization

   e. Inter-Rater Reliability

   f. Retrospective Review

   g. Clinical Practice Guidelines

   h. New Medical Technologies and New Uses of Existing Technologies

   i. Case Management/Care Coordination

   j. Disease/Chronic Care Management

   k. Drug Utilization Review

7. The Division's method(s) for monitoring and evaluating its service delivery system and provider network that demonstrates compliance with AHCCCS policy.

8. A description of how delegated activities are integrated into the overall Medical Management program and the methodologies for oversight and accountability of all delegated functions, as required by AHCCCS policy.

9. Documentation of input into the medical coverage policies from the Division or providers and members.

10. A summary of the changes made to the Division's list of services requiring prior authorization and the rationale for those changes.

Medical Management Work Plan

The Division is responsible for developing a work plan that identifies the goals, methodology for improvement, and monitoring efforts related to the Medical Management program requirements outlined in AHCCCS policy. The work plan shall:

A. Be submitted in an acceptable format or in the template provided by the Medical Management Unit.

B. Supports the Medical Management Plan goals and objectives.

C. Include goals that are quantifiable and reasonably attainable.

D. Includes specific actions for improvement.

E. Incorporates a Plan, Do, Study, Act (PDSA) methodology for testing an action designed to result in a desired improvement in a specific area. Refer to AHCCCS policy for details related to PDSA methodologies.

Medical Management Evaluation

A. An annual narrative evaluation of the effectiveness of the previous year's Medical Management strategies and activities shall be submitted to AHCCCS Medical Management after being reviewed and approved by the Division's governing or policy-making body. The narrative summary of the previous year's work plan shall include but is not limited to:

1. A summary of the Medical Management activities performed throughout the year with:

    a. Title/name of each activity,

    b. Desired goal and/or objective(s) related to each activity,

    c. Staff positions involved in the activities,

    d. Trends identified and the resulting actions implemented for improvement,

    e. Rationale for actions taken or changes made, and

    f. Statement describing whether the goals/objectives were met.

2. Review, evaluation, and approval by the Medical Management Committee of any changes to the Medical Management Plan.

3. Necessary follow-up with targeted timelines for revisions made to the Medical Management Plan.

B. The Medical Management Plan and Medical Management Evaluation may be combined or written separately, as long as required components are addressed and easily located.

C. Refer to AHCCCS policy for reporting requirements and timelines.

Medical Management Administrative Oversight

A. The Division shall ensure ongoing communication and collaboration between the Division Medical Management program and the other functional areas of the Division (e.g., quality management, member, and provider services).

B. The Division shall have an identifiable and structured Medical Management Committee that is responsible for Medical Management functions and responsibilities, or if the Medical Management Committee is combined with the Quality Management Committee, the agenda items and minutes reflect that Medical Management issues and topics are presented, discussed and acted upon.

C. At a minimum, the membership includes:

1. The Chief Medical Officer or appointed designee as the chairperson of the Medical Management Committee,

2. The Medical Management Manager,

3. Representation from the functional areas within the Division, and

4. Representation of contracted or affiliated providers.

D. The Chief Medical Officer, unless delegated to an associate Medical Director, as chairperson for the Medical Management Committee, or his/her designee, is responsible for the implementation of the Medical Management Plan and has substantial involvement in the assessment and improvement of Medical Management activities.

E. The Medical Management Committee shall ensure that each of its members is aware of the requirements related to confidentiality and conflicts of interest (e.g., a signed statement on file or Medical Management Committee sign-in sheets with requirements noted).

F. The frequency of Medical Management Committee meetings is sufficient to demonstrate that the Medical Management Committee monitors all findings and required actions. At a minimum, the Medical Management Committee meets quarterly.

G. Medical Management Committee meeting minutes include the data reported to the Medical Management Committee, and analysis and recommendations made by the Medical Management Committee. Data, including utilization data, may be attached to the Medical Management Committee meeting minutes as separate documents if the documents are noted in the Medical Management Committee meeting minutes.

Recommendations made by the Medical Management Committee shall be discussed at subsequent Medical Management Committee meetings. The Medical Management Committee shall review the Medical Management program objectives and policies annually and updates them as necessary to ensure:

1. The Medical Management responsibilities are clearly documented for each Medical Management function/activity;

2. Division staff, administrative services sub-contractors (AdSS) and providers are informed of the most current Medical Management requirements, policies and procedures in a timely fashion in order to allow for implementation that does not adversely impact the members or provider community;

3. The providers are informed of information related to their performance (e.g., provider profiling data); and

4. The Medical Management policies and procedures, and any subsequent modifications to them, are available upon request by the AHCCCS Medical Management Unit.

H. The Medical Management shall be staffed with a sufficient number of appropriately qualified personnel to carry out the functions and responsibilities.

I. Staff qualifications for education, experience and training are developed for each Medical Management position.

J. The grievance process shall be part of the new hire and annual staff training. including, but not limited to:

1. What constitutes a grievance,

2. How to report a grievance, and

3. The role of the Quality Management staff in grievance resolution.

K. A current organizational chart is maintained to show reporting channels and responsibilities for the Medical Management program.

L. The Division shall maintain records that document Medical Management activities and shall make the information available to AHCCCS Medical Management Unit upon request. The required documentation includes, but is not limited to:

1. Policies and procedures;

2. Reports;

3. Practice guidelines;

4. Standards for authorization decisions;

5. Documentation resulting from clinical reviews (e.g. notes related to concurrent review, retrospective review, and prior authorization);

6. Meeting minutes including analyses, conclusions, and actions required with completion dates;

7. Corrective Action Plans (CAPs) resulting from the evaluation of any component of the Medical Management program such as inter-rater-reliability; and

8. Other information and data deemed appropriate to support changes made to the scope of the Medical Management Plan.

M. The Division shall have written policies and procedures pertaining to:

1. Verification that information/data received from providers is accurate, timely, and complete;

2. Review of reported data for accuracy, completeness, logic, and consistency, (review and evaluation processes shall be clearly documented);

3. Security and confidentiality of all member and provider information protected by federal and state law;

4. Informing appropriate parties of the Medical Management requirements and updates, utilization data reports, and profiling results;

5. Identification of provider trends and subsequent necessary corrective action;

6. Quarterly evaluations and trending of subcontracted health plan internal appeal overturn rates;

7. Quarterly evaluations of the timeliness of service request decisions; and

8. Annual review of prior authorization requirements that encompasses the analysis of prior authorization decision outcomes, including but not limited to, the rationale for requiring prior authorization for types of services such as high dollar, high risk, or case finding for care management.

N. The Division shall have processes that ensure:

1. Per 42 C.F.R. 438.210(b)(3), qualified health care professionals, with appropriate clinical expertise in treating the member's condition or disease, render decisions to:

a. Deny an authorization request based on medical necessity;

b. Authorize a request in an amount, duration, or scope that is less than requested; and

c. Make a decision involving excluded or limited services under A.R.S. § 36-2907(B) and A.A.C. R9-22-201 et seq., as specified in section N4 (below) of this policy.

2. Per 42 C.F.R. 438.406(a)(2)(i), qualified health care professionals, with appropriate clinical expertise in treating the members' condition or disease, and who have not been involved in any previous level of decision making, render decisions regarding:

a. Appeals involving denials based on medical necessity,

b. Grievances regarding denial of expedited resolution of an appeal, and

c. Grievances and appeals involving clinical issues.

3. For purposes of this section, the following qualified health care professionals have the appropriate clinical expertise to render decisions based on previously established Division contractor standards and clinical criteria for skilled and nonskilled services within their scope of practice:

   a. Physician

   b. Podiatrist

   c. Optometrist

   d. Chiropractor

   e. Psychologist

   f. Dentist

   g. Physician assistant

   h. Physical or occupational therapist

   i. Speech-language pathologist

   j. Audiologist

   k. Registered or practical nurse (including nurse practitioner, clinical nurse specialist. certified registered nurse anesthetist and certified nurse midwife)

   l. Licensed social worker

   m. Registered respiratory therapist

   n. Licensed marriage and family therapist

   o. Licensed professional counselor

4. Decision making includes determinations involving excluded or limited services under A.R.S. § 36-2907 and A.A.C. R9-22-201 et seq.

5. In addition to those providers listed above, the following health care professionals have the appropriate clinical expertise to render decisions for non-skilled Home and Community Based Service (HCBS) such as attendant care, personal care, homemaker, habilitation, and non-nursing respite care:

   a. Arizona Long Term Care System (ALTCS) case management staff when the individual is a:

      i. Registered Nurse,

      ii. Licensed Practical Nurse,

iii. Degreed social worker, or

iv. An individual with a bachelor's or master's degree in a related field.

b. Support Coordination ALTCS case management staff with a minimum of two consecutive years of experience in providing case management services to persons who are elderly and/or persons with physical or developmental disabilities, when the staff individual does not have a degree or a license.

6. Consistent application of standards and clinical criteria and ensure consistent decisions that include inter-rater reliability criteria and monitoring of all staff involved in this process. A plan of action is developed and implemented for staff who fail to meet the inter-rater reliability standards of 90%.

7. Prompt notifications to the requesting provider and the member or member's authorized representative or medical power of attorney, as applicable, of any decision to deny, limit, or discontinue authorization of services. The notice includes information as specified in the AHCCCS Contractor Operations Manual (ACOM) and 9 A.A.C. 34.

O. The Division shall maintain a health information system that collects, integrates, analyzes, and reports data necessary to implement its Medical Management program. Data elements shall include but are not limited to:

1. Member demographics;

2. Provider characteristics;

3. Services provided to members; and

4. Other information necessary to guide the selection of, and meet the data collection requirements for, improvement activities.

P. The Division shall oversee and maintains accountability for all functions or responsibilities that are delegated to other entities. Documentation is kept that demonstrates:

1. A written agreement specifies the delegated activities and reporting responsibilities of the entity to the subcontracted health plan and include provisions for revocation of the delegation or imposition of sanctions for inadequate performance.

2. The Division shall evaluate the entity's ability to perform the delegated activities prior to executing a written agreement for delegation per ACOM Policy 438.

3. The performance of the entity and the quality of services provided are monitored on an ongoing basis and formally reviewed annually.

Q. The Division shall ensure:

1. Compensation to persons or organizations conducting prior or prospective authorization, and concurrent or retrospective review activities are not structured so as to provide inappropriate incentives for selection, denial, limitation or discontinuation or authorization of services.

2. Providers are not prohibited from advocating on behalf of members within the service provision process.

1020 UTILIZATION MANAGEMENT

REVISION DATE: 1/25/2023 7/20/2022
EFFECTIVE DATE: August 4, 2021
REFERENCES: A.R.S. § 13-3994, A.R.S. § 31-501, A.R.S. § 36-551, A.R.S. § 38-211, A.A.C. R9-22-101, A.A.C. R9-28-201, 42 CFR 412.87, 42 CFR Part 437, 42 CFR Part 438, 42 CFR 447.26, 42 CFR 456.125, 42, CFR Part 457, 45 CFR Parts 160 and 164

PURPOSE

This policy outlines the oversight responsibilities of the Division of Developmental Disabilities (Division) to ensure effective treatment services, coordination of care to achieve optimal health outcomes for members served by the Division and identify opportunities for improvement in utilization management. This policy is specifically targeted to the Division's roles and responsibilities related to utilization management and oversight of the AdSS.

DEFINITIONS

1. "Behavioral Health Inpatient Facility (BHIF)" means a health institution, as specified in A.A.C. R9-10-101, that provides continuous treatment to an individual experiencing a behavioral health issue that causes the individual to:

a. Have a limited or reduced ability to meet the individual's basic physical needs;

b. Suffer harm that significantly impairs the individual's judgment, reason, behavior, or capacity to recognize reality;

c. Be a danger to self;

d. Be a danger to others;

e. Be an individual with a persistent or acute disability as specified in A.R.S § 36-501; or

f. Be an individual with a grave disability as specified in A.R.S. § 36-501.

2. "Behavioral Health Residential Facility (BHRF)" means, as specified in A.A.C. R9-10-101, is a health care institution that provides treatment to an individual experiencing a behavioral health issue that:

a. Limits the individual's ability to be independent, or

b. Causes the individual to require treatment to maintain or enhance independence.

3. “Care Management” means a group of activities performed to identify and manage clinical interventions or alternative treatments for identified members to reduce risk, cost, and help achieve better health outcomes. Distinct from Support Coordination, Care Management does not include the day-to-day duties of service delivery.

4. “Concurrent Review” means the process of reviewing an institutional stay at admission and throughout the stay to determine medical necessity for an institutional Level of Care (LOC). Reviewers assess the appropriate use of resources, LOC, and service, according to professionally recognized standards of care. Concurrent review validates the medical necessity for admission and continued stay and evaluates for Quality Of Care (QOC).

5. “Denial” means the decision to deny a request made by, or on behalf of, an individual for the authorization and/or payment of a covered service.

6. "Emergency Medical Condition" means a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson who possesses an average knowledge of health and medicine could reasonably expect the absence of immediate medical attention to result in:
   a. Placing the patient's health (or, with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy;
   b. Serious impairment to bodily functions;
   c. Serious dysfunction of any bodily organ or part as specified in 42 CFR 438.114(a); or
   d. Serious physical harm to another individual (for behavioral health conditions).

7. "Health Care Acquired Condition (HCAC)" means a Hospital Acquired Condition (HAC) which occurs in any inpatient hospital setting and is not present on admission (Refer to the current Centers for Medicare and Medicaid Services (CMS) list of Hospital-Acquired Conditions).

8. "Institution for Mental Disease (IMD)" means a hospital, nursing facility, or other institution of more than 16 beds that is primarily engaged in providing diagnosis, treatment, or care of individuals with mental diseases (including substance use disorders), including medical attention, nursing care and related services. Whether an institution is an institution for mental diseases is determined by its overall character as that of a facility established and maintained primarily for the care and treatment of individuals with mental diseases, whether or not it is licensed as such. An institution for Individuals with Intellectual Disabilities is not an institution for mental diseases as specified in 42 CFR 435.1010.

9. "Institutional Setting" means:

   a. A nursing facility as specified in 42 U.S.C. 1396 r(a);

   b. An Institution for Mental Diseases (IMD) for an individual who is either under age 21 or age 65 or older;

   c. A hospice (free-standing, hospital, or nursing facility subcontracted beds) as specified in A.R.S. § 36- 401;

d. A Behavioral Health Inpatient Facility (BHIF) as specified in A.A.C. R9-10-101;

e. A Behavioral Residential Setting (BHRF) as specified in A.A.C. R9-10-101.

10. "Inter-Rater Reliability (IRR)" means the process of monitoring and evaluating qualified healthcare professional staff's level of consistency with decision making and adherence to clinical review criteria and standards.

11. "Other Provider-Preventable Condition (OPPC)" means a condition occurring in the inpatient and outpatient health care setting which the Division and AHCCCS has limited to the following:

a. Surgery on the wrong member,

b. Wrong surgery on a member,

c. Wrong site surgery.

12. "Peer-Reviewed Study" means prior to publication, is a medical study that has been subjected to the review of medical experts who:

a. Have expertise in the subject matter of the study,

b. Evaluate the science and methodology of the study,

c. Are selected by the editorial staff of the publication,

d. Review the study without knowledge of the identity or qualifications of the author, and

e. Are published in the United States.

13. "Prior Authorization (PA)" means a process by which the AdSS authorizes, in advance, the delivery of covered services based on factors including but not limited to medical necessity, cost effectiveness, compliance with this policy and as specified in A.A.C. R9-201, and any applicable contract provisions. PA is not a guarantee of payment as specified in A.A.C. R9-22-101.

14. "Provider Preventable Condition (PPC)" is a condition that meets the definition of a health care acquired condition or another provider preventable condition as defined by the State of Arizona.

15. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental

disability who is a client or an applicant for whom no guardian has been appointed. A.R.S. § 36-551.

16. "Retrospective Review" means the process of determining the medical necessity of a treatment/service post-delivery of care.

17. "Service Plan (SP)" means a complete written description of all covered health services and other informal supports which includes individualized goals, family support services, peer-and recovery support, care coordination activities and strategies to assist the member in achieving an improved quality of life.

18. "Special Health Care Needs (SHCN)" means serious and chronic physical, developmental, or behavioral conditions requiring medically necessary health and related services of a type or amount beyond that required by members generally; that lasts or is expected to last one year or longer and may require ongoing care not generally provided by a primary care provider.

19. "Subcontracted health plan" means an organization with which the Division has contracted or delegated some of its management/administrative functions or responsibilities.

20. Support Coordination" means a collaborative process which assesses, plans, implements, coordinates, monitors, and evaluates options and services to meet an individual's health needs through communication and available resources to promote quality, cost-effective outcomes.

21. "Telehealth" means healthcare services delivered via asynchronous , remote patient monitoring, teledentistry, or telemedicine (interactive audio and video).

POLICY

A. UTILIZATION DATA ANALYSIS AND DATA MANAGEMENT

1. The Division's Health Care Services (HCS) shall provide oversight and identifies trends, best practices and opportunities for improvement in utilization management through the following:
    a. HCS shall meet with the AdSS' Medical Management (MM) staff on a quarterly basis to review utilization data, trends, performance, and implementation of action plans.
    b. HCS shall review and approve annual AdSS' Medical

Management Program Plan, Work Plan and Evaluation to ensure goals, service quality and outcomes reflect member needs and Division goals.

2. The Division shall work in collaboration with AHCCCS Division of Fee for Service Management (DFSM) to monitor health outcomes of members enrolled in the Tribal Health Program (THP).

3. The Medical Management (MM) Committee shall review utilization data and findings to make recommendations to improve performance and achieve better outcomes. The MM Committee responsibilities include:

   a. The review of validated data provided by the Utilization Management (UM) subcommittee and any other relevant data;

   b. The review of tracking and trending utilization data on an on-going basis to:

      i. Identify under-utilization and/or over-utilization of services;

      ii. Identify opportunities for early intervention,

iii. Mitigate adverse outcomes;

iv. Identify opportunities for improvement and best practices;

v. Review of performance data related to integrated care, such as support coordination activities, access to services, and actions undertaken to resolve barriers to care; and

vi. Review of the utilization data, performance and opportunities for improvement with the AdSS at least quarterly.

4. The UM Subcommittee shall provide a quarterly tracking and trending report, including data provided by the AdSS, to the MM Committee.

5. The UM Subcommittee shall meet at least 10 times per year.

B. CONCURRENT REVIEW

1. The Division shall provide oversight of concurrent review services conducted by the AdSS. The Division shall monitor and review, at least annually, the AdSS' hospital and institutional stays to

ensure that treatment and lengths of stay meet member needs and are provided in accordance with clinical standards of care.

2. The Division shall provide oversight of the AdSS who are required to implement the following:
   a. Pre-certification prior to a planned hospital or institutional admission based on medical necessity and appropriateness of proposed care. After hospital or institutional admission occurs authorization of the continued stay is based on medical necessity established during the concurrent review process.
   b. Clinical documentation includes relevant medical information to be reviewed when making hospital length of stay decisions. Information may include: symptoms, diagnostic test results, diagnoses, and required services. The clinical review shall include the information used for determining the length of stay.
   c. The admission review and subsequent concurrent reviews shall occur within the timeframes and frequency set forth below:

i. Admission reviews shall be conducted within one working day after notification is provided to the AdSS by the hospital or institution (this does not apply to pre-certifications) as specified in 42 CFR 456.125;

ii. If the hospital or institution does not provide clinical information with the notification of admission, the AdSS shall request the member's medical records pertinent to the admission within one business day;

iii. Continued stay authorizations for hospital and institutional stays shall specify a date by which the next medical review shall be done based on the member's clinical information and criteria guidelines.

3. The Division shall notify providers of the option to request a peer-to-peer discussion with the appropriate AdSS or the AHCCCS DFSM Medical Director when additional information is requested or when the admission or continued stay is denied.

4. HCS shall ensure the concurrent review process is clearly documented and includes the following elements:

a. Medical necessity of admission, level of care and appropriateness of the service setting, criteria used for decision determination;

b. Quality of care, services and setting meeting the member needs;

c. Projected length of stay, based on approved clinical criteria;

d. Continued stay authorization with identification of next review date;

e. Denials or reduction in level of service;

f. Requests for peer-to-peer review and disposition of the request;

g. Proactive discharge planning starting on the day of admission and ongoing throughout the hospital/institutional stay to ensure continuity of care and linkage to required treatment services and supports at discharge;

h. Identification of utilization patterns, such as readmissions, extended length of stays.

5. The Division's support coordinator shall participate proactively in discharge planning for its members admitted to inpatient settings from the day of admission.

6. Support coordination shall manage discharge planning to ensure a safe discharge back to the community and facilitate active engagement from the health plans, health care and behavioral healthcare providers, allied treatment providers, supports and services to meet the comprehensive needs of the member.

7. The support coordinator shall collaborate with AHCCCS DFSM, as appropriate for THP enrolled members.

8. HCS shall review the AdSS' notification of an Institution of Mental Disease (IMD) placement exceeding 15 days and report it to AHCCCS.

9. The AdSS' Medical Management Committee shall annually approve the medical criteria used for concurrent review, which shall be adopted from the national standards. Subsequently it shall be approved by the Division's MM Committee.

10. The Division shall ensure criteria for physical health and behavioral health coverage and medical necessity decisions are clearly documented and based on reasonable medical evidence or the consensus of relevant health care professionals.
11. The Division shall review the AdSS submission of the quarterly Inpatient Hospital Showings Report and sends it to AHCCCS after ensuring the report is signed by the AdSS' Chief Medical Officer attesting that:
    a. A physician has certified to the necessity of inpatient hospital services,
    b. The services were periodically reviewed and evaluated by a physician,
    c. Each admission was reviewed or screened under a utilization review program, and
    d. All hospitalizations of members were reviewed and certified by medical utilization staff.
12. The Division shall collaborate with AHCCCS DFSM to review the Inpatient Hospital Showings Report for Division members enrolled in THP.

C. DISCHARGE PLANNING

1. The Division shall ensure the discharge planning process for members receiving inpatient services has proactive discharge planning to identify and assess the post-discharge bio-psychosocial and medical needs of the member to arrange necessary services and resources for appropriate and timely discharge from a facility.

2. The support coordinator shall proactively engage with the interdisciplinary planning team which includes the hospital/institutional staff, the AdSS UM staff, HCS nurses, health care and behavioral healthcare providers, allied treatment providers, supports and services in discharge planning to meet the comprehensive needs of the member.

3. The Division support coordinator shall engage within the interdisciplinary planning team to support discharge planning from the day of admission and during the inpatient stay and after discharge to ensure all the necessary treatment, services and supports are available to sustain recovery, health, wellness, and well-being upon discharge to the community.

a. If the discharge cannot be affected because of the lack of a resource including return to home or community-based setting, the support coordinator shall identify the needed resource to support discharge from the hospital or institutional setting or resolve member issues and service concerns timely at the lowest level through the identification of care coordination strategies, resources, and clinical consultation.

b. If a covered behavioral health service required after discharge is temporarily unavailable for individuals in an inpatient or residential facility who are discharge-ready, the member may remain in that setting until the service is available. The support coordinator shall work with the Behavioral Health Complex Care Specialist, as needed and/or seek assistance to elevate the issue for resolution of the barrier in accordance with established procedures.

4. The support coordinator shall ensure care management, intensive outpatient services, provider support coordination,

and/or peer service are available to the member while waiting for the appropriate covered physical or behavioral health services.

a. The HCS shall compile a census report identifying the number of members who remain in discharge pending status due to the lack of community resources for review by the MM Committee including the barrier, type of resources needed, date of projected discharge and date of discharge.

5. The Division shall ensure discharge planning is performed by a qualified healthcare professional and initiated on the initial concurrent review, updated periodically during the inpatient stay, and continues through post-discharge to ensure a timely, effective, safe, and appropriate discharge.

6. Division staff participating in discharge planning shall ensure the member/responsible person, as applicable:

a. Is involved and participates in the discharge planning process;

b. Understands the written discharge plan, instructions, and recommendations provided by the facility;and

c. Is provided with resources, referrals, and possible interventions to meet the member's assessed and anticipated needs after discharge.

7. The Division shall ensure discharge planning, coordination, and management of care includes, but is not limited to:

a. Follow-up appointment with the PCP and/or specialist within seven business days;

b. Coordination and communication by the Division with inpatient and facility providers for safe and clinically appropriate discharge placement, and community support services;

c. Communication of the member's treatment plan and medical history across the various outpatient providers, including the member's outpatient clinical team, other entities/contractors, and FFS providers when appropriate;

d. Prescription medications;

e. Medical equipment;

f. Nursing services;

g. End-of-Life Care related services such as Advance Care Planning;

h. Practical supports;

i. Hospice;

j. Therapies;

k. Referral to appropriate community resources;

l. Referral to Disease Management or Care Management (if needed);

m. A post-discharge follow-up call is made by the District nurse to the member/responsible person within three business days of discharge to confirm the member's well-being and progress of the discharge plan;

n. Additional follow-up actions as needed based on the member's needs;

o. Proactive discharge planning when the Division is not the primary payer.

D. PRIOR AUTHORIZATION AND SERVICE AUTHORIZATION

1. The Division's support coordinator and Health Care Services staff shall work in conjunction with the Division's Network Administrator to provide needed support to homeless clinics to identify available providers and assist in obtaining PA to ensure timely delivery of services that are included in the member plan of care.

2. The Division shall not require PA for tribal members utilizing Indian Health Services (IHS)/638 Tribal providers and facilities. Non-IHS/638 providers or facilities rendering covered services shall obtain PA. PA is not a guarantee of payment as specified in A.A.C. R9-22-101.

3. The AdSS Medical Management committee shall determine PA criteria and is approved by the Division's Medical Management committee.

4. The Division shall provide oversight of the PA process conducted by the AdSS, including adherence to benefit coverage and timeliness of PA requests.

5. The Division shall provide oversight to ensure that all PA

activities are performed in accordance with AdSS Medical Manual Policy 1020 including, but not limited to:

a. The AdSS shall clearly document its criteria for decisions on coverage and medical necessity for both physical and behavioral health services and be based on reasonable medical evidence or a consensus of relevant health care professionals.

b. The AdSS shall utilize Arizona licensed PA staff that includes a nurse or nurse practitioner, physician or physician assistant, pharmacist or pharmacy technician, or licensed behavioral health professional with appropriate training to apply the AdSS' medical criteria or make coverage decisions.

c. The AdSS shall implement a system that allows providers to submit PA requests via telephone, fax, and/or electronically through email.

d. Any AdSS network provider who requests authorization for a service shall be notified of the option to request a peer-to-peer discussion with the AdSS Medical Director

when additional information is requested by the Division or when a PA request is denied.

e. The AdSS shall coordinate the discussion with the requesting provider when appropriate.

f. The AdSS shall identify and communicate to providers and members/Responsible Person the services that require and do not require PA and the relevant medical criteria required for authorization decisions.

g. The AdSS shall respond to requests for initial and continuous determinations for standard and expedited authorization requests as defined in Policy 1000, Chapter Overview of this Policy Manual, Division Operations Manual policy 414, 42 CFR 457.1230(d), and 42 CFR 438.210(b).

h. The AdSS shall respond as expeditiously as the member's condition requires but no later than 72 hours after receipt of an expedited service request pursuant to 42 CFR 438.210(d)(2)(i). The expedited authorization request shall meet federal standards, because a delay in processing could seriously jeopardize the member's life,

health, or ability to attain, maintain or regain maximum function. If the PA request does not meet the criteria for an expedited request, the requesting provider will be notified and given the opportunity to provide additional clinical information to support the expedited request status. However, if the additional clinical information does not support an expedited request, the PA request will be processed as a standard request within the specified timelines.

h. The AdSS shall communicate information to members/Responsible Person and providers in multiple ways including but not limited to newsletters, the AdSS' websites, the Member Handbooks, and provider manuals.

i. Medical criteria shall be available to members/Responsible Person upon request.

j. The AdSS shall consistently apply medical criteria through inter-rater reliability.

k. The AdSS shall authorize services in a sufficient amount,

duration, and scope to achieve the purpose for which the services are furnished.

l. The AdSS MM Committee and the Division MM Committee shall review and approve any changes to medical criteria and shall be communicated to providers at least 30 business days prior to implementation of the change.

6. The Division shall require PA for the following Medical and Behavioral Health Services:

a. Behavioral Health Residential Facility;

b. Non-emergency Acute Inpatient Admissions;

c. Level I Behavioral Health Inpatient Facility and RTC Admissions;

d. Elective Hospitalizations;

e. Elective Surgeries;

f. Medical Equipment;

g. Medical Supplies;

h. Home Health;

i. Home and Community Based Services;

j. Hospice;

k. Skilled Nursing Facility;

l. Therapies - Rehabilitative/Habilitative;

m. Medical and/or behavioral health services;

n. Nursing facility;

o. Emergency alert system services;

p. Rehabilitative/Habilitative Physical/Occupational Therapy for members twenty-one (21) years of age and older;

q. Behavior Analysis Services;

r. Augmentative and Alternative Communication (AAC) services, supplies, and accessories;

s. Non-Emergency Transportation;

t. Select Medications.

7. The Division shall not require PA for these services:

a. Services performed during a Retroactive Eligibility Period;

b. When Medicare or other commercial insurance coverage is primary;

c. Emergency Medical Hospitalization < 72 hours;

d. Emergency Admission to Behavioral Health Level 1 Inpatient facility, however, notification of the admission to the health plan shall occur within 72 hours;

e. Some Diagnostic procedures, e.g., EKG, MRI, CT Scans, X rays, Labs; check the member's health plan's prior authorization requirements;

f. Dental Care - emergency and non-emergency, check the member's health plan's PA requirements;

g. Eyeglasses for members < 21 years old;

h. Family Planning Services;

i. Physician and/or Specialty Consultations and Office Visits;

j. Behavioral Analysis Assessment;

k. Prenatal Care;

l. Emergency Transportation;

m. Non-Emergency Transportation of less than 100 miles;

n. Emergency room visit.

E. INTER-RATER RELIABILITY

1. The Division shall provide oversight of inter-rater reliability (IRR) done by the AdSS to ensure the consistent application of review criteria in making medical necessity decisions which require PA, concurrent review, and retrospective review. Each AdSS plan is monitored to ensure the following:
    a. Adoption of policy and procedures for conducting inter-rater reliability;
    b. All staff, including medical directors, making medical necessity decisions in PA, concurrent review and retrospective review shall have IRR testing as part of the orientation process and at least annually thereafter;
    c. A process for corrective action shall be developed and implemented for all staff who do not meet the minimum passing compliance standard of 90%.
2. The Division shall conduct IRR testing for the following HCS functions:
    a. Skilled Nursing Services,
    b. Second Level Medical Review.
3. At least annually, the IRR testing results from the AdSS plans,

the District Support Coordination and the Division medical directors are presented to the Medical Management Committee for review and approval.

F. RETROSPECTIVE REVIEW

1. The Division shall oversee the retrospective review of medical necessity of a treatment or service post-delivery of care done by the AdSS plans.

2. The AdSS plans shall be monitored for the following:

   a. Policy and procedure that reflect:

      i. The identification of health care professionals with appropriate clinical expertise who are responsible for conducting retrospective reviews,

      ii. Which services require retrospective review,

      iii. Timeframe(s) established by the AdSS plans for completion of the retrospective review.

3. The Division shall ensure criteria for making medical necessity decisions is clearly documented and based on reasonable

medical evidence or a consensus of relevant health care professionals.

4. The Division shall ensure there is a process for consistent application of review criteria.

5. Guidelines for Provider-Preventable Conditions (PPC), other Provider-Preventable Conditions (OPPC), Health Care Acquired Conditions (HCAC) include:

   a. Payment for services related to Provider-Preventable Conditions is prohibited, as specified in 42 CFR 447.26,

   b. A member's health status may be compromised by hospital conditions and/or medical personnel in ways that are sometimes diagnosed as a "complication." If it is determined that the complication resulted from an HCAC or OPPC, any additional hospital days or other additional charges resulting from the HCAC or OPPC will not be reimbursed.

   c. If it is determined that the HCAC or OPPC was a result of an error by a hospital or medical professional, the AdSS

shall conduct a Quality of Care (QOC) investigation and report it in accordance with AdSS Medical Manual Policy 960.

G. CLINICAL PRACTICE GUIDELINES

1. The Division shall collaborate with the AdSS to ensure the clinical practice guidelines (CPGs) developed by the AdSS meet the individualized needs of the Division members.

2. The AdSS shall develop, adopt and disseminate CPGs for physical and behavioral health services, in accordance with 42 CFR 457.1233(c) and 42 CFR 438.236 that:

   a. Are based on valid and reliable clinical evidence or a consensus of health care professionals in that field;

   b. Have considered the individualized needs of the Division's members;

   c. Are adopted in consultation with contracted health care professionals and National Practice Guidelines or developed in consultation with health care professionals and include a thorough review of peer-reviewed articles in medical

journals published in the United States when national practice guidelines are not available;

d. Are disseminated by the AdSS to all their affected providers and, upon request, to members/Responsible Person and potential members;

e. Provide a basis for consistent decisions for utilization management, member education, coverage of services, and any other areas to which the guidelines apply.

3. The AdSS MM Committee shall evaluate the practice guidelines through a MM multi-disciplinary committee to determine if the guidelines remain applicable, represent the best practice standards, and reflect current medical standards every two years.

4. The Division shall review the AdSS' approved CPGs and document the review and adoption of the practice guidelines as well as the evaluation of efficacy of the guidelines in the MM Committee meeting minutes.

H. NEW MEDICAL TECHNOLOGIES AND NEW USES OF EXISTING TECHNOLOGIES

1. The Division shall collaborate with the AdSS to ensure new medical technologies and new uses of existing technologies to meet the individualized needs of the Division members. The AdSS shall be monitored for the following:

   a. Implementation written procedures for evaluating new technologies and new uses of existing technology that include an evaluation of benefits for physical and behavioral healthcare services, pharmaceuticals, and devices;

   b. The procedures shall include both a mechanism for MM Committee review on a quarterly basis and a timeframe for making a clinical determination when a time sensitive request is made. A decision in response to an expedited request shall be made as expeditiously as the member's condition warrants and no later than 72 hours from receipt of the request.

3. The AdSS shall include coverage decisions by Medicare

intermediaries and carriers, national Medicare coverage decisions, and Federal and State Medicaid coverage decisions in its evaluation.

4. The AdSS shall evaluate published or unpublished information sources that may establish that a new medical service or technology represents an advance that substantially improves the diagnosis or treatment of members, as specified in 42 CFR 412.87.

5. The AdSS shall have a process for documenting the coverage determinations and rationale in the MM Committee meeting minutes.

I. DIVISION OVERSIGHT RESPONSIBILITIES

1. The Division MM Committee shall monitor utilization management activities.

2. The MM Committee shall review relevant metrics and reports, and meet quarterly to discuss performance, outliers, and opportunities for improvement for HCS UM activities and AdSS UM activities.

3. HCS shall address the need for improvement of UM activities conducted by the AdSS through quarterly meetings with the AdSS and through the UM Subcommittee as well as the Division's Operational Review.

J. SUPPLEMENTAL INFORMATION

1. The Division is responsible for the oversight of the AdSS' administration of utilization management activities for all services provided to members of the Division.
2. AHCCCS DFSM is responsible for the administration of utilization management functions for acute physical and behavioral health services for Division members enrolled in the Tribal Health Program.
3. The intent of the discharge planning process is to improve the management of inpatient admissions and the coordination of post discharge services, reduce unnecessary hospital and institutional stays, ensure discharge needs are met, and decrease readmissions.

PURPOSE

This policy sets forth roles and responsibilities of the Division of Developmental Disabilities (Division)for provision of Care Management services and collaboration with Support Coordination to improve health outcomes for Tribal Health Program (THP) Members who have physical or behavioral health needs or risks that require immediate Division intervention. This policy provides information on the Division's monitoring and oversight of the Administrative Services Subcontractors (AdSS) Care Management and High Needs/High Cost (HNHC) programs. The policy also provides details of the Divisions responsibilities for the High Needs/High Cost program.

DEFINITIONS

1. "Advance Care Planning" means a part of the End-of-Life Care concept and is a billable service that is a voluntary face-to-face ongoing discussion between a qualified health care professional and the member to:
   a. Educate the member about their illness and the health care options that are available to them.
   b. Share the member's wishes with family, friends, and his or her physicians.
   c. Develop a written care plan that identifies the member's choices for treatment.
2. "Arizona State Hospital" or "ASH" means the state hospital providing long-term inpatient psychiatric care to Arizonans with mental illnesses who are under court order for treatment.
3. "Care Management" means a group of activities performed to identify and manage clinical interventions or alternative treatments for identified members to reduce risk, cost, and help

achieve better health outcomes. Distinct from Support Coordination, Care Management does not include the day-to-day duties of service delivery.

4. "Care Manager" means someone who provides Care Management services.

5. "Division Tribal Team" means for the purpose of this policy, the Tribal Liaison (Tribal Social Service referrals), Tribal Health Coordinator (general healthcare navigation inquires) and the Tribal RN Liaison (referrals to IHS 638 facilities programs), depending on the service need.

6. "End-of-Life Care" means a concept of care, for the duration of the member's life, that focuses on Advance Care Planning, the relief of stress, pain, or life limiting effects of illness to improve quality of life for a member at any age who is currently or is expected to experience declining health, or is diagnosed with a chronic, complex, or terminal illness.

7. "Informal Supports" means non-billable services provided to a member by a family member, friend, or volunteer to assist or

perform functions such as:

a. Housekeeping,

b. Personal care,

c. Food preparation,

d. Shopping,

e. Pet care, or

f. Non-medical comfort measures.

8. "Medication Assisted Treatment" or "MAT" means the use of medications in combination with counseling and behavioral therapies for the treatment of substance use disorders.

9. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

10. "Planning Document" means a written plan developed through an assessment of functional needs that reflects the Services and supports, paid and unpaid, that are important for and important to the Member in meeting the identified needs and preferences for the delivery of such Services and supports.

11. "Planning Team" means a group of people including the Member;

the Responsible Person; the Support Coordinator; other State of Arizona Department of Economic Security staff, as necessary; and any person selected by the Member; Responsible Person; or the Department.

12. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a client or an applicant for whom no guardian has been appointed.

13. "Social Determinants of Health" or "SDOH" means the social, environmental, and economic factors that can influence health status and have an impact on health outcomes.

14. "Special Health Care Needs (SHCN)" means serious and chronic physical, developmental, or behavioral conditions requiring medically necessary health and related services of a type or amount beyond that required by members generally, that lasts or is expected to last one year or longer and may require ongoing care not generally provided by a primary care provider.

15. "Support Coordination" means a collaborative process which assesses, plans, implements, coordinates, monitors, and evaluates options and services to meet an individual's health needs through communication and available resources to promote quality, cost-effective outcomes.

16. "Support Coordinator" means the same as "case manager" under A.R.S. § 36-551.

POLICY

A. COMPONENTS OF CARE MANAGEMENT

1. The Division shall have in place a Care Management process with the primary purpose of coordinating care and assisting in accessing resources for ALTCS eligible Members with multiple or complex conditions and who require intensive physical, or behavioral health support services.

2. The Division shall ensure the AdSS provides Care Management for members enrolled with the AdSS.

3. The Division shall provide Care Management for members

enrolled with the Tribal Health Program.

4. The Division shall have multiple methods for referring a Member to Care Management, including referrals from the Member or Responsible Person, internal sources, or provider.

5. The Division shall provide Care Management that is designed to be short-term and time-limited in nature.

6. The Division shall require the following Care Management services:
    a. Assistance in making and keeping needed physical or behavioral health appointments;
    b. Following up and explaining hospital discharge instructions;
    c. Health coaching and referrals related to the Member's immediate needs;
    d. Primary Care Provider (PCP) reconnection; and
    e. Offering other resources or materials related to wellness, lifestyle, and prevention.

7. The Division shall provide care coordination to ensure Members

receive the necessary services to prevent or reduce an adverse health outcome.

8. The Division shall ensure that clinical resources and assessment tools utilized are evidenced-based.
9. Care Managers shall establish a process to ensure coordination of Member physical and behavioral health care needs across the continuum, based on early identification of health risk factors or Special Health Care Needs (SHCN) consistent with the Planning Document.
10. The Division shall ensure the coordination ensures provision of physical and behavioral services in any setting that meets the Member's needs in the most cost-effective manner available.
11. Care Managers shall be expected to have direct contact with Members for the purpose of providing information and coordinating care.
12. The Division shall implement a Care Management system that automatically documents the staff member's name and ID and

the date and time the action or contact with the member occurred.

13. The Division shall implement a Care Management system that provides automatic prompts and reminders to follow-up with the member as specified in the member's care plan.

14. The Division shall provide Care Management as an administrative function.

15. The Division shall obtain approval by the Arizona Health Care Cost Containment System (AHCCCS) prior to delegating a portion of the Care Management functions to another entity.

16. The Division shall ensure the Care Managers are not performing the day-to-day duties of the Division Support Coordinator, the provider case manager, or the TRBHA case manager.

17. Care Managers shall work closely with case managers referred to in this section, to ensure the most appropriate service plan and services for Members.

18. The Division shall identify and refer members that meet criteria

for Care Management services, including:

a. Frequent use of the Emergency Department instead of seeing providers for ongoing issues (4 or more occurrences within the past 6 months);

b. Multiple physical or behavioral health hospitalizations (3 or more inpatient or readmissions within the past 6 months);

c. Discharged from an inpatient or skilled facility and requires coordination of post-acute services;

d. Missed 3 or more physical or behavioral health appointments within the past 3 months;

e. Having difficulty obtaining medical benefits or referrals ordered by providers;

f. Diagnosed with heart failure, diabetes, asthma, chronic obstructive pulmonary disease, or depression and requires assistance with management of the condition;

g. In the process of receiving a transplant or up to one year post-transplant;

h. Diagnosed with Human Immunodeficiency Virus (HIV);

i. Pregnant;

j. Diagnosed with a behavioral health disorder, the condition is not stable and requires assistance with management of the condition;

k. Needs exclusive provider restriction for overutilization of drugs with abuse potential;

l. Needs referral to or is currently receiving Medication Assisted Treatment (MAT) for opioid use;

m. Has Social Determinants Of Health (SDOH) needs that are impacting member's ability to obtain the appropriate care (e.g., basic needs not being met, safety issues in home environment, etc.);

n. Survivor of sex trafficking;

o. Recently been incarcerated or is transitioning out of jail or prison within the next 30 days;

p. Needs out of state services;

q. Requires assistance with Tribal Nations or providers;

r. Is a child with one or more of the following:

i. Newborn with neonatal abstinence syndrome or maternal drug exposure,

ii. Child and Adolescent Level of Care Utilization System (CALOCUS) level 4 or higher,

iii. Serious emotional disturbance,

iv. Recently removed from their home and placed in foster care.

s. Have multiple complaints regarding services or the Arizona Health Care Cost Containment System (AHCCCS) Program. This includes members who do not otherwise meet the Division criteria for Care Management as well as members who contact governmental entities for assistance, including AHCCCS.

19. The Division shall integrate data from medical and behavioral health claims or encounters, pharmacy claims, laboratory results, Health Risk Assessments (HRA)s, Electronic Medical Records (EMRs), health services programs within the organization, or other advanced data sources to develop the selection criteria.

20. The Division shall stratify Members for Care Management for targeted interventions, on at least an annual basis.

B. DIVISION CARE MANAGEMENT RESPONSIBILITIES FOR THP MEMBERS

1. Care Managers shall comprehensively assess the Member and develop and implement a care plan that has the following:
    a. Initial assessment of Members:
        i. Health status;
        ii. Physical and behavioral health history, including medications and cognitive function;
        iii. Activities of daily living; and
        iv. SDOH.

b. Life planning activities, including wills, living wills, advance directives, health care powers of attorney, End-of-Life Care and Advance Care Planning.

c. Evaluation of:

   i. Cultural and linguistic needs and preferences;

   ii. Visual and hearing needs and preferences;

   iii. Caregiver resources; and

   iv. Availability of services, including community resources.

d. Development of a Care Management plan, including self-management tools, prioritized goals that consider Member and caregiver preferences and desired level of involvement;

e. Identification of barriers;

f. Facilitation of referrals and a follow-up process to determine if Members act on referrals made;

g. Development of a schedule for follow-up and

communication with the Member;

h. A process and timeframe for monitoring the effectiveness of the Care Management plan.

2. Care Managers shall work with the Support Coordinator, the provider case manager, Division Tribal Team, the Primary Care Physician (PCP) or specialists to coordinate and address Member needs within 30 days after the member has been determined eligible to receive Care Management.
3. Care Managers shall continuously document interventions and changes in the care plan.

C. DIVISION RESPONSIBILITIES

1. The Division shall ensure integration of services and continuity of care by:
   a. Ensuring that in the process of coordinating care, each Member's privacy is protected in accordance with the privacy requirements including those specified in 45 CFR Part 160 and 164, Arizona statutes and regulations, and to the extent applicable in 42 CFR 457.1220, 42 CFR

438.100(a)(1), and 42 CFR 438.100(b)(2)(vi);

b. Allowing Member choice in selecting a PCP, TRBHA or a behavioral health provider who is formally designated as having primary responsibility for coordinating the member's overall health care.

c. Ensuring access to care that is appropriate to their individual needs as specified in 42 CFR 457.1230(c) and 42 CFR 438.208(b)(1);

d. Ensuring each Member receiving care coordination has an individual or entity that is formally designated as primarily responsible for coordinating services for the Member, such as the Support Coordinator, the provider case manager, or TRBHA case manager;

e. Ensuring the Care Manager provides the Responsible Person with information on how to contact their designated person or entity as specified in 42 CFR 457.1230(c) and 42 CFR 438.208(b)(1);

f. Specifying under what circumstances services are coordinated by the Division, including the methods for coordination and specific documentation of these processes;

g. Coordinating the services for Members between settings of care, including appropriate discharge planning for short-term and long-term hospital and institutional stays as specified in 42 CFR 457.1230(c) and 42 CFR 438.208(b)(2)(i);

h. Coordinating covered services with the services the Member receives from another entity or FFS provider as specified in 42 CFR 457.1230(c) and 42 CFR 438.208(b)(2)(ii) and (iii);

i. Coordinating covered services with community and Informal Supports that are generally available through another entity or FFS provider in the Division's service area, as specified in 42 CFR 457.1230(c) and 42 CFR 438.208(b)(2)(iv);

j. Ensuring Members receive End-of-Life Care and Advance Care Planning;

k. Ensuring Care Managers establish timely and confidential communication of data and clinical information among providers that includes:

   i. The coordination of Member care among the PCP, AdSS, and tribal entities;

   ii. Working with the PCP to communicate all known primary diagnoses, comorbidities, and changes in condition to the Division or FFS provider and Tribal provider to include TRBHA when the PCP becomes aware of the Division, or TRBHA involvement in care.

l. Ensuring that the PCP is providing pertinent diagnoses and changes in condition to the Division:

   i. No later than 30 days from change in medication or diagnosis, or

   ii. No later than 7 days of hospitalization.

m. Facilitating this communication exchange as needed and establish monitoring activities such as record review to ensure that the exchange occurs;

n. Ensuring Care Managers provide consultation to a Member's inpatient and outpatient treatment team and directly engages the Responsible Person as part of Division Care Management;

o. Ensuring individuals admitted to a hospital who are identified as in need of behavioral health services, are responded to as specified below:

   i. Upon notification of an individual who is not currently receiving behavioral health services, the Division shall ensure a referral is made to a provider agency within 24 hours.

p. Ensuring that provider agencies attempt to initiate services with the individual within 24 hours of referral and that the provider agency schedules additional appointments and services with the individual prior to discharge from the

hospital;

q. Ensuring coordination, transition, and discharge planning activities are completed consistent with providers orders to ensure cost effectiveness and quality of care consistent with providers orders to ensure cost effectiveness and quality of care for Members already receiving behavioral health services;

r. Ensuring policies reflect care coordination for Members presenting for care outside of the Division's provider network;

s. Identifying and coordinating care for Members with Substance Use Disorder (SUD) and ensuring access to appropriate services such as Medication Assisted Treatment (MAT) and peer support services;

2. The Division shall develop policies and implement procedures for Members with SHCN, as specified in the contract with AHCCCS and AMPM Policy 520, including:

a. Identifying Members with SHCN;

b. Ensuring an assessment by an appropriate health care professional for ongoing needs of each Member;

c. Ensuring adequate care coordination among providers or TRBHAs;

d. Ensuring a mechanism to allow direct access to a specialist as appropriate for the Member's condition and identified needs (e.g., a standing referral or an approved number of visits); and

e. Additional care coordination activities based on the needs of the Member.

3. The Division shall implement measures to ensure that the Responsible Person is involved in Care Management:

a. Is informed of particular health care conditions that require follow-up;

b. Receives, as appropriate, training in self-care and other measures they may take to promote their own health; and

c. Is informed of their responsibility to comply with prescribed treatments or regimens.

4. The Division Care Management shall focus on achieving Member wellness and autonomy through:
   a. Advocacy,
   b. Communication,
   c. Education,
   d. Identification of service resources, and
   e. Service facilitation.

5. Care Managers shall also assist the Responsible Person in identifying appropriate providers, TRBHAs, or other FFS providers, and facilities throughout the continuum of services.

6. Care Managers shall ensure that available resources are being used in a timely and cost-effective manner in order to obtain optimum value for both the Member and the Division.

7. The Division shall proactively provide care coordination for Members who have multiple complaints regarding services or the AHCCCS Program. This includes Members who do not otherwise meet the Division criteria for Care Management, as well as Members who contact governmental entities for assistance,

including AHCCCS.

8. The Division shall report its monitoring of Members awaiting admission and those Members who are discharge-ready from Arizona State Hospital (ASH) utilizing the Arizona State Hospital Admission and Discharge Deliverable Template.

9. The Division shall demonstrate proactive care coordination efforts for all Members awaiting admission to, or discharge from ASH.

10. The Division's Health Care Services Complex Care team shall coordinate with ASH for discharge planning, including ensuring the Member with diabetes has appropriate diabetic monitoring equipment and supplies, and has been educated and trained to the use prior to discharge.

11. The Division shall not limit discharge coordination and placement activities based on pending eligibility for ALTCS.

12. The Division shall submit the following, in the case that a THP Member has been awaiting admission to, or discharge from ASH

for an excess of 90 days:

a. A barrier analysis report to include findings, performance improvement activities and implementation plan; and

b. A status report for each member who is continuing to await admission or discharge, as specified in the contract with AHCCCS.

13. The Division shall provide the AMPM 1021 Attachments A, B and E as specified in the contract with AHCCCS.

14. The Division shall arrange ongoing medically necessary nursing services consistent with providers orders to ensure cost effectiveness and quality of care in the event that a Member's mental status renders themself incapable or unwilling to manage their medical condition and the Member has a skilled medical need.

15. The Division shall identify, track and report Members who utilize Emergency Department (ED) services inappropriately four or more times within a six-month period.

16. The Division shall implement interventions to educate the Responsible Person on appropriate use of ED and divert Members to the right care in the appropriate place of service.

17. The Division shall ensure Care Management interventions to educate Responsible Person include:
    a. Outreach phone calls or visits,
    b. Educational letters,
    c. Behavioral health referrals,
    d. HNHC program referrals,
    e. Disease or chronic Care Management referrals,
    f. Exclusive pharmacy referrals, or
    g. SDOH resources.

18. HCS shall submit AMPM Attachment 1021-A as specified in the contract with AHCCCS, identifying the number of times the AdSS intervenes with Members utilizing the ED inappropriately.

19. The Division shall monitor the length of time Members remain in the ED while awaiting behavioral health placement or wrap-around services.

20. The Division shall coordinate care with the ED and the Member's treatment team to discharge the Member to the most appropriate placement or wrap-around services immediately upon notification that a Member who requires behavioral health placement or wrap-around services is in the ED.

21. The Division's Chief Medical Officer shall be involved when THP members experience a delay in discharge from institutional settings or the ED.

22. The Division shall submit the 24 Hours Post Medical Clearance ED Report utilizing Attachment B to the Division as specified in the contract with AHCCCS.

23. The Division shall develop a plan specifying short-term and long-term strategies for improving care coordination and Care Management as specified in the Medical Management (MM) Program workplan.

24. The Division shall develop an outcome measurement plan to track the progress of the strategies in the MM Program workplan.

25. The Division shall report the plan specifying the strategies for improving care coordination and the outcome measurement in the annual MM Program Plan, and submitted as specified in the contract with AHCCCS, utilizing AMPM Policy 1010 Attachment A and Attachment B.

26. The Division Tribal Team shall facilitate the promotion of services and programs to improve the quality and accessibility of health care to eligible American Indian and Alaskan Native Members.

27. The Division Tribal Team shall collaborate with Care Management to ensure communication with all tribal programs are actively engaged in the Member's care coordination process.

28. The Division's Behavioral Health Complex Care Specialist and Support Coordinator shall coordinate with the AdSS to provide assistance with care coordination for Members who are awaiting placement into ASH by communicating with the Responsible Person, Support Coordinator, facilities, providers, and ASH.

D. DIVISION MONITORING AND OVERSIGHT

1. The Division shall ensure the AdSS provides the following, in the case that a Member has been awaiting admission to, or discharge from ASH for an excess of 90 days:
   a. A barrier analysis report to include findings, performance improvement activities and implementation plan; and
   b. A status report for each member who is continuing to await admission or discharge, as specified in the contract with AHCCCS.
2. The Division shall review the deliverables received from the AdSS and submit the following reports to AHCCCS:
   a. Barrier analysis report,
   b. Status report for each member awaiting admission or discharge.
3. The Division shall ensure the AdSS provides the AMPM 1021 Attachments A, B and E as specified in the contract.
4. The Division shall review AMPM 1021 Attachments A, B and E

provided by the AdSS prior to sending to AHCCCS.

5. The Division HCS shall meet with the AdSS at least quarterly to provide ongoing evaluation including data analysis and recommendations to refine processes to optimize results.

6. The Division HCS shall meet with the AdSS quarterly to review the AdSS Medical Management Committee minutes, reports with data analysis and action plans, over and under-utilization, outliers, and opportunities for performance improvement.

7. The Division shall ensure the AdSS submit an overview of the Medical Management (MM) program plan checklist AMPM 1010 Attachment A and a MM workplan, AMPM 1010 Attachment B.

1. The Division shall monitor the overall performance of Care Management services including:
   a. Tracking and trending performance metrics and outcomes,
   b. Data analysis,
   c. Identifying successful interventions and care pathways to optimize results, and

a. Making recommendations to refine processes and provide reports to the Division Medical Management Committee.

2. The Division shall perform an Operational Review of the AdSS to review compliance on an annual basis.

3. The Division shall develop a plan specifying short and long term strategies for improving care coordination and the Care Management program as specified in the MM Program workplan.

E. DIVISION RESPONSIBILITIES FOR THE HIGH NEEDS/HIGH COST PROGRAM

1. Health Care Services (HCS) shall annually review the list of Members from each AdSS that are identified as meeting the criteria for the HNHC program and approve Members to be monitored through the HNHC program. This is also to be done by HCS upon the AdSS proposing changes to the list.

2. HCS shall request additional Members identified by the Division to be added to the HNHC program when Members have high needs or high costs due to Long Term Services and Supports

(LTSS) who also have high medical or behavioral needs.

3. The Division shall submit to AHCCCS an overview of the HNHC program in the Medical Management (MM) Program Plan submission, AMPM Attachment 1010-A as outlined in the contract.

4. The Division shall submit to AHCCCS counts of distinct members that are considered to have high cost behavioral health needs based on criteria developed by the AdSS and approved by the Division as outlined in the contract.

5. The Complex Care Manager shall annually review the High Cost Behavioral Health Reports (AMPM 1021 Attachment E) that the AdSS sends to the Compliance Unit, which is then forwarded to HCS.

6. The Complex Care Manager shall annually develop and submit an integrated High Cost Behavioral Health Report (AMPM 1021 Attachment E) reflecting data received from each AdSS to AHCCCS.

7. The Complex Care Manager shall annually send the High Cost Behavioral Health Report (AMPM 1021 Attachment E) to DDDAHCCCSDeliverables@azdes.gov.

8. HCS shall coordinate with the AdSS to ensure the assigned Support Coordinator and Behavioral Health Complex Care Specialist are invited to the monthly HNHC meetings.

9. The HCS Complex Care Nurse, assigned Support Coordinators and Behavioral Health Complex Care Specialists shall attend the monthly HNHC meeting to participate in the collaborative care coordination between the Division, AdSS, Care Manager, and provider case manager.

10. All attendees shall discuss the following care coordination activities during the monthly HNHC meetings:
    a. Identify Member specific interventions to be used to ensure:
        i. Relevant and timely access to care;
        ii. Care plan goals address the needs of the program

iii. Ineffective medical, behavioral health, and long-term care interventions are adjusted as needed; and

iv. Progress toward treatment goals is being achieved.

b. Address barriers to improvement, additional resources needed, and changes to treatment goals in the following areas:

i. Medical,

ii. Environmental,

iii. Behavioral Health, and

iv. Psychosocial.

11. The HCS Complex Care Nurse in collaboration with the AdSS, shall monitor Member outcomes to transition Members out of the HNHC program when they meet the following criteria:

a. The Member has met treatment goals, or

b. The Member's physical and behavioral needs have been stabilized, or

c. The Member no longer meets the AdSS HNHC criteria.

1022 JUSTICE REACH-IN

EFFECTIVE DATE: April 10, 2024
REFERENCES: 42 CFR § 438.62(b); A.R.S. § 36-551; AMPM 1022; AMPM 541.

PURPOSE

This policy sets forth roles and responsibilities of the Division of Developmental Disabilities (Division) when facilitating the transition of Members with chronic or complex care needs out of jails and prisons into communities.

DEFINITIONS

1. "Care Management" is a group of activities performed to identify and manage clinical interventions or alternative treatments for identified Members to reduce risk, cost, and help achieve better health outcomes. Distinct from Case Management, Care Management does not include the day-to-day duties of service delivery.
2. "Justice System Liaison" means a Division staff person who is located in Arizona and is the single point of contact for justice system stakeholders, such as jails, prisons, detention facilities,

courts, law enforcement, and community supervision agencies. This position is responsible for ensuring care coordination of justice-involved Members and for oversight and reporting of Justice System reach-in Care Coordination activities. This position also serves as the single point of contact for justice system stakeholders engaged programmatically in arrest diversion or incarceration alternative initiatives intended to reduce the number of individuals from entering the justice system.

3. "Member" means the same as "Client" as defined in A.R.S. § 36-551.

4. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a Member or an applicant for whom no guardian has been appointed.

5. "Support Coordinator" means a "case manager" as defined in A.R.S. § 36-551.

POLICY

A. PROGRAM ADMINISTRATION REQUIREMENTS

1. The Division shall designate staff to serve in the role of Justice System Liaison who reach into the justice system to facilitate transitions for all Division Members out of justice facilities for the purposes of continuity of care.

2. The Justice System Liaison shall serve as the single point of contact when collaborating with justice system partners to identify, plan, and implement care coordination efforts for Members identified as requiring reach-in care.

3. The Justice System Liaison shall identify justice partners and their contact information, from the following:

    a. Jails;

    b. Sheriff's Offices;

    c. Correctional Health Services;

    d. Arizona Department of Corrections, Rehabilitation and

Reentry (ADCRR);

e. ADCRR Community Supervision;

f. Probation;

g. Courts; and

h. Other justice partners as determined by the Justice System Liaison.

4. The Justice System Liaison shall monitor the incarceration report, also known as the 834-file, in Focus in order to:

a. Identify Members who have been:

i. Incarcerated; or

ii. Otherwise released since the previous report.

b. Obtain length of Member incarceration from this report.

5. The Justice System Liaison shall collaborate with reach-in partners to determine Member care needs.

6. The Justice System Liaison shall collaborate with AdSSs through

the following measures:

a. Monthly meetings with each health plan to discuss mutual members;

b. Providing a Transition Notice Form to each MCO representative upon receiving notification of a member's justice involvement; and

c. Communicating with MCO's to address Member needs as identified.

7. The Justice System Liaison shall obtain the Member's criminal Justice Reach-In report from Focus in the quarter following the Member's release from the Justice System in order to:

a. Assess anticipated cost savings, including analysis of medical expenses prior to incarceration and subsequent to reach-in activities and release.

b. Report out in the Justice Quarterly Metrics the total amount saved or increased for all Members.

8. The Justice System Liaison shall notify AHCCCS upon becoming aware of a Member who becomes an inmate of a public institution, who is not identified in the 834 file, via email at MCDUJustice@azahcccs.gov.

B. REACH-IN CARE COORDINATION

1. The Justice System Liaison shall utilize the 834 file data provided by AHCCCS to identify Members who meet the Division's established parameters for reach-in care coordination, including identification of Medication Assisted Treatment (MAT) eligible Members prior to release.

2. The Justice System Liaison shall utilize additional data sources, if available for the purpose of identifying Members who meet the Division's established parameters for reach-in care coordination.

3. The Justice System Liaison shall utilize the 834 file provided By AHCCCS to identify incarcerated Members that may have missed their eligibility redetermination date while incarcerated, causing a discontinuance of benefits, in order to identify Members requiring assistance with reapplication for AHCCCS Medical

Assistance (MA) and other public benefits, in accordance with AMPM 541.

4. The Justice System Liaison shall complete the following activities upon identification of a Member's justice system involvement:

   a. Complete a Member intake utilizing Member data.

   b. Research the Member's legal case, utilizing jail or court websites to determine any pending court actions.

   c. Identify the Support Coordinator assigned to the justice involved Member to immediately inform the Support Coordinator of the justice involvement via email.

5. The Justice System Liaison shall coordinate with justice facility health care or subcontracted health plans in identifying Members requiring reach-in care for physical health, medication and behavioral concerns.

6. The Justice System Liaison shall begin reach-in activities for Members who have been incarcerated for 20 days or longer, and have a scheduled release date, to provide:

a. Member education regarding care, services, resources, appointment information; and

b. Subcontracted health plan case management contact information.

7. The Justice System Liaison shall communicate with incarceration facility health care and any subcontracted health plan to communicate the incarcerated Division Member's medication and behavioral concerns.

8. The Justice System Liaison shall contact and coordinate with Justice Partners and subcontracted health plans regarding status updates and anticipated release date or next court date, updating case file and entering shared notes into the database at least once weekly.

9. The Support Coordinator shall:

a. Acknowledge incarceration notification upon receipt from the Justice System Liaison, and update Member records.

b. Follow up with the Justice System Liaison to provide case

updates, including release or court date information.

c. Change Member status to "Suspend" in FOCUS when a Member has been incarcerated for 30 days or longer with no anticipated release date.

10. The Justice System Liaison shall monitor hearing information, noting date and type of hearing, entering this information into the database, and notifying Justice Partners of provided updates by email.

11. Division staff shall not appear on the Member's behalf, in the capacity of Division staff, in any court, unless a subpoena has been submitted through the Office of the Attorney General.

C. PRIOR TO RELEASE

1. The Justice System Liaison shall begin the release planning process upon receiving notification of the Member's anticipated release date.

2. The Justice System Liaison shall make Member education regarding care, services, resources, appointment information,

subcontracted provider and case management contact information available for the planning release meeting.

3. Division staff shall obtain from the Responsible Person a signed Authorization for Disclosure of Protected Health Information (DDD-1535A) that specifically identifies the person or organization intended to receive health information.

4. Justice System Liaison staff shall collaborate with Justice Partners to plan timeframes for appointments needed based on health status, to:

    a. Identify and address any barriers to accessing needed appointments; and

    b. Ensure initial appointments are scheduled to occur within seven days of Member release.

5. The Justice System Liaison shall communicate information regarding appointments to all Justice Partners and justice facility health care.

6. The Justice System Liaison shall review and address social

determinants of health prior to release through wrap-around services.

D. AFTER RELEASE

The Justice System Liaison shall continue reach-in activities post-release in effort to reduce recidivism to include:

a. Following up with the Responsible Person to support access to necessary services and appropriate service levels.

b. Following up with Justice Partners to communicate the status of appointments, within 30 days of release.

c. Monitoring the Member in the community until there is no longer any Justice involvement and the Member is reported to be stable in the community by the Planning Team.

E. OUTREACH TO COMMUNITY PARTNERS

The Justice Team shall provide specialized education to local law enforcement and other community partners to facilitate understanding

of developmental disabilities the populations served by the Division regarding the following:

a. Accommodating Division Members;

b. Safe interactions with Division Members;

c. Communicating with Division Members;

d. Effective engagement with Division Members;

e. Alternatives to the justice system for Division Members; and

f. De-escalation techniques.

F. REPORTING

1. The Justice System Liaison shall track data to be utilized by Division staff to create monthly, quarterly, and annual reports, identifying the number of Member transitions received, and other pertinent statistics, and trends.

2. The Justice Team designee shall provide data in the Division's Justice System Liaison reports at Medical Management meetings.

SUPPLEMENTAL INFORMATION

Division Members' AHCCCS health plan enrollment is suspended upon incarceration, and reinstated upon release.

1023 DISEASE/CHRONIC CARE MANAGEMENT

EFFECTIVE DATE: July 20, 2022
REFERENCES: A.R.S. §36-551; AMPM 1023

PURPOSE

This policy outlines the requirements for the Division of Developmental Disabilities (Division) Disease/Chronic Care Management Program. The program focuses on members with chronic conditions, and/or at high risk, and may benefit from a targeted intervention plan.

DEFINITIONS

1. "Care Management" means a group of activities performed by the Contractor to identify and manage clinical interventions or alternative treatments for identified members to reduce risk, cost, and help achieve better health outcomes. Distinct from Case Management, Care Management does not include the day-to-day duties of service delivery.

2. "Case Management" means a collaborative process which assesses, plans, implements, coordinates, monitors, and evaluates options and services to meet an individual's health needs through communication and available resources to promote quality, cost-effective outcomes. Case Management

for DES/DDD is referred to as support coordination.

3. "Disease/Chronic Intervention Plan" means a protocol targeted at managing a disease/chronic condition and improving health outcomes.

4. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability or an adult with a developmental disability who is a client or an applicant for whom no guardian has been appointed A.R.S. §36-551.

5. "Person Centered Service Plan" means a written plan developed through an assessment of functional need that reflects the services and supports (paid and unpaid) that are important for and important to the member in meeting the identified needs and preferences for the delivery of such services and supports. The PCSP shall also reflect the member's strengths and preferences that meet the member's social, cultural, and linguistic needs, individually identified goals and desired outcomes, and reflect risk factors (including risks to member rights) and measures in place to minimize them, including individualized back-up plans and other strategies as needed.

POLICY

The Division Disease/Chronic Care Management Program focuses on members with high need/high risk and/or chronic conditions to improve health outcomes. Member participation is voluntary. The Disease/Chronic Care Management Program shall develop individualized intervention plans that include early identification of potential members, coordination of treatment, and chronic disease management strategies including education and self-management of conditions. The program shall work with Support Coordination, and the Administrative Services Subcontractors (AdSS) to promote sustainable healthy outcomes, living well with chronic conditions, healthy lifestyles, coping and support strategies, and engagement in treatment.

A. CRITERIA FOR ENROLLMENT

A member is eligible for the program who:

1. Has been diagnosed with a chronic medical condition and complex care needs, requiring care from a multidisciplinary team;

2. Is identified as at risk or experiencing poor health outcomes by a health assessment, diagnostics or other relevant medical testing;

3. Has one or more of the Fatal Five (aspiration; bowel obstruction, gastroesophageal reflux disease [GERD], dehydration, or seizures) conditions considered preventable causes of death in people with intellectual/developmental disabilities;

4. Has been diagnosed with post- Covid-19 condition(s); or

5. Has exhibited high or low utilization of services for high need conditions.

B. PROGRAM COMPONENTS

The Disease/Chronic Care Management Program provides a focused assessment of opportunities and development of an intervention plan to better manage disease or conditions for targeted members, improve health outcomes and quality of life.

Program activities include:

1. Screenings and assessments to identify high risk behaviors or emerging health issues, coordination of treatment, as appropriate, with the AdSS including but not limited to:

   a. Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) for qualified members, including

education and health promotion for dental/oral health services

b. Substance use

c. Depression

d. Tobacco use

2. Development of an individualized Disease/Chronic Condition Intervention Plan that involves working closely with the member and/or responsible person and obtaining their agreement with the plan. The plan includes the following components:

a. Goals.

b. Opportunities, interventions and resources to improve long term health outcomes.

c. Coordination with primary care provider/specialty care provider(s) and medical/behavioral treatment teams.

d. Regular contact by Health Care Services with the member and/or responsible person.

e. Evidence-based guidelines to enhance the health, wellness and quality of life of the member while reducing

the need for hospitalization and other costly treatments. Individualized targeted interventions designed to improve and sustain member engagement in treatment.

f. Actions to be taken by the member and/or responsible person.

g. Health education, resources and support tailored to the member's needs, including but not limited to:

i. Understanding chronic disease/conditions and improving health, wellness and quality of life

ii. Working with the care team, treatment/ services providers and allied supports

iii. Establishing and maintaining treatment relationships that foster consistent and timely interventions

iv. Understanding the member role in health and wellness

v. Healthy living and wellness programs

vi. Self-help resources/programs including digital, web based and/or community resources designed to improve health and wellness for specific disease/ chronic conditions

vii. Health risk-reduction and healthy lifestyle choices, including tobacco cessation.

viii. Preventative care may include but is not limited to:

1) Health screening

2) Annual health exams

3) Cancer screening

4) Dental/oral health services.

5) OB/Gyn care

6) Maternity care programs and services for pregnant women.

3. Engagement, ongoing support and technical assistance with Support Coordination and the AdSS to integrate the Disease/Chronic Condition Intervention Plan into the person-centered service plan to support sustainability and continuity of care.

4. Once the health care services team determines the member to be ready for discharge, the member may be discharged from the disease/chronic care program. The Team is available for technical assistance and consultation to Support Coordination

and/or the AdSS to support the transition.

5. The member may be re enrolled based on the recommendation of Support Coordination, the AdSS and/or identified through HCS utilization reviews/reports.

C. OVERSIGHT

1. The Division collaborates with the AdSS to evaluate the effectiveness of the program by assessing the members' ability to self-manage their condition/disease and measuring other outcomes at predetermined points after enrollment. Other outcomes may include cost/utilization of services, clinical quality, and process measures.

2. The Division works in partnership with the AdSS to educate providers regarding the specific evidenced-based guidelines and desired outcomes of the program. The AdSS staff and providers may participate in the development of the Division specific evidence-based guidelines.

3. The Division monitors the AdSS to ensure provider compliance with the member Disease/Chronic Condition Intervention Plan and that appropriate corrective action is taken for any noncompliance.

4. Health Care Services shall track and trend performance metrics and outcomes identifying successful interventions and provide reports to the Division Medical Management Committee.

5. At least quarterly, the Division meets with the AdSS to provide ongoing evaluation including data analysis and recommendations to refine processes, identify successful interventions and care pathways to optimize results. On an annual basis, the Division performs an Operational Review of the AdSS that includes review of the Disease/Chronic Care Management Program compliance.

1024 DRUG UTILIZATION REVIEW

REVISION DATE: 3/27/2024
REVIEW DATE: 6/27/2023
EFFECTIVE DATE: July 13, 2022
REFERENCES: 42 CFR Part 457, 42 CFR Part 438, 42 U.S.C 1396r-8, A.A.C. R9-22-209, 42 USC 1396A(OO), Social Security Act Section 1927 (g) Drug Use Review, AHCCCS Contract, AMPM 310-FF, AMPM 310-V, AMPM 1024.

PURPOSE

This policy outlines the Division's responsibility for the oversight of the Drug Utilization Review (DUR) process that includes retrospective, concurrent and prospective drug utilization edits developed and implemented by the Administrative Services Subcontractors (AdSS).

DEFINITIONS

1. "Abuse" means provider practices that are inconsistent with sound fiscal, business, or medical practices, and result in an unnecessary cost to the Division program, or in reimbursement for services that are not medically necessary or that fail to meet professionally recognized standards for health care, including beneficiary practices that result in unnecessary cost to the

Division Program.

2. "Drug Utilization Review" or "DUR" means a systematic, ongoing review of the prescribing, dispensing, and use of medications. The purpose is to assure efficacious, clinically appropriate, safe and cost-effective drug therapy to improve Member health status and quality of care.

3. "Exclusive Pharmacy" means an individual pharmacy, which is chosen by the Member or assigned by the Division to provide all medically necessary Federal and State reimbursable drugs to the Member.

4. "Exclusive Provider" means an individual provider, which is chosen by the Member or assigned by the Division to provide all medically necessary Federal and State reimbursable drugs to the Member.

5. "Fraud" means an intentional deception or misrepresentation made by a person with the knowledge that the deception could result in some unauthorized benefit to himself or some other

person, including any act that constitutes Fraud under applicable State or Federal law.

6. "Prescription Drugs" means prescription medications prescribed by an Arizona Health Care Cost Containment System (AHCCCS) registered qualified practitioner as a pharmacy benefit, based on medical necessity, and in compliance with Federal and State laws.

7. "Waste" means over-utilization or inappropriate utilization of services, misuse of resources, or practices that result in unnecessary costs to the Medicaid Program.

POLICY

A. DRUG UTILIZATION REVIEW REQUIREMENTS

1. The Division shall require reporting for the following:
   a. Concurrent Drug Utilization Review (DUR);
   b. Opioid monitoring;
   c. Antipsychotic prescribing in children; and
   d. Identification of Fraud, Waste, and Abuse by either DDD

Members or health care practitioners.

2. The Division shall require DUR is performed to ensure that Members are receiving medications appropriately with limited adverse drug reactions.

3. The Division shall require DUR that consists of retrospective, concurrent and prospective DUR.

4. The Division shall require use of Arizona Health Care Cost Containment System (AHCCCS) Prior Authorization (PA) clinical guidelines.

5. The Division shall require opioid monitoring based per Federal regulations.

B. CONCURRENT UTILIZATION REVIEW

1. The Division shall require a concurrent DUR process be implemented that occurs between the pharmacies and the Pharmacy Benefits Manager's (PBM) electronic DUR system at the Point of Sale (POS).

2. The Division shall require concurrent DUR edits that include:

   a. Preferred and non-preferred Federally and State reimbursable drugs prior to dispensing;

   b. Drug-drug interactions;

   c. Excessive doses;

   d. High and suboptimal doses;

   e. Over and underutilization;

   f. Drug-pregnancy precautions;

   g. Drug-disease interactions;

   h. Duplicate therapy; and

   i. Drug-age precautions.

C. RETROSPECTIVE UTILIZATION REVIEW

1. The Division shall require a retrospective DUR process is implemented to detect aberrant prescribing practice patterns, pharmacy dispensing patterns and medication administration patterns to prevent inappropriate use, misuse, or Waste.

2. The Division shall require retrospective DUR reviews are performed to evaluate the following edits:
    a. Clinical appropriateness, use and misuse;
    b. Appropriate generic use;
    c. Drug-drug interactions;
    d. Drug-disease contraindications;
    e. Aberrant drug doses;
    f. Inappropriate treatment duration;
    g. Member utilization for over and underutilization;
    h. Prescriber clinician prescriptive ordering and practice patterns; and
    i. Pharmacy dispensing patterns.

D. PROSPECTIVE UTILIZATION REVIEW

1. The Division shall require the prospective DUR process be implemented to promote positive health outcomes using PA clinical guidelines to ensure clinically effective medications are prescribed in the most cost-efficient manner.

2. The Division shall require prospective DUR edits during the adjudication of a claim be enabled by the PBM for the following:
   a. Drug-allergy interactions;
   b. Drug-disease contraindications;
   c. Therapeutic interchange;
   d. Generic substitution;
   e. Incorrect drug doses;
   f. Inappropriate duration of drug therapy;
   g. Medication Abuse or misuse; and
   h. Medications preferred on the AHCCCS Drug List.

E. PRIOR AUTHORIZATION (PA) CLINICAL GUIDELINES

The Division shall require AHCCCS PA guidelines be utilized for any medications that require PA or are non-preferred medications.

F. PROVIDER EDUCATIONAL INTERVENTIONS

The Division shall require educational interventions based on evaluations of practice patterns focused on drug therapy outcomes

with the aim of improving safety, prescribing practices and therapeutic outcomes and ensuring the interventions improve quality of care.

G. EXCLUSIVE PHARMACY OR EXCLUSIVE PROVIDER PROGRAM

1. The Division shall require Members that are assigned to an Exclusive Pharmacy or Exclusive Provider, or both are reported on form AMPM 1024 Attachment A.

2. The Division shall provide AMPM 1024 Attachment A to AHCCCS as a quarterly deliverable when aberrant pharmacy or aberrant provider utilization is identified.

H. OPIOID UTILIZATION

1. The Division shall require DUR activities be performed as part of Federal Opioid Legislation, and reported to AHCCCS in accordance with the Centers for Medicare and Medicaid Services (CMS) DUR requirements as specified in the Contract for the following:

a. Opioid utilization and concomitant use of benzodiazepines;

b. Opioid utilization and concomitant use of antipsychotics;

c. Buprenorphine utilization and concomitant use of opioids;

d. 7-day limits for opioid naïve adults;

e. 5-day limits for opioid naïve minors;

f. 50 Morphine Equivalent Daily Dose (MEDD) limits for opioid naïve Members;

g. Member utilization when the cumulative current utilization of opioids is a MEDD of greater than 90;

h. Antipsychotic prescribing for children; and

i. Fraud, Waste and Abuse by Members, pharmacies, and prescribing clinicians.

2. The Division shall require Members with a diagnosis of cancer, in hospice or palliative care be excluded from opioid safety edits and utilization management limitations associated with opioids.

I. DIVISION OVERSIGHT

1. The Division shall oversee the AdSS utilizing the following methods to ensure compliance with policy:
   a. Annual Operational Review of each AdSS;
   b. Review and analyze deliverable reports submitted by the AdSS; and
   c. Conduct oversight meetings with the AdSS for the purpose of:
      i. Reviewing compliance,
      ii. Addressing concerns with access to care or other quality of care concerns,
      iii. Discussing systemic issues, and
      iv. Providing direction or support to the AdSS as necessary.

Signature of Chief Medical Officer: Anthony Dekker (Mar 21, 2024 09:31 PDT)

1040 OUTREACH, ENGAGEMENT, AND REENGAGEMENT FOR BEHAVIORAL HEALTH

REVISION DATE: 10/28/2020
EFFECTIVE DATE: October 01, 2018
REFERENCES: AMPM Policy 320-R, AMPM Policy 320-U

Overview

The Division of Developmental Disabilities (Division) develops and implements outreach, engagement, and reengagement activities for members seeking and receiving behavioral health services. The Division develops and makes available to providers its policies and procedures regarding outreach, engagement, and reengagement, including any additional information specific to their operations.

Outreach includes activities designed to inform individuals of behavioral health services availability and to engage or refer those individuals who may need services. The activities described within this section are essential elements of clinical practice. Outreach to vulnerable populations, establishing an inviting and non-threatening environment, and re-establishing contact with persons who have become temporarily disconnected from services are critical to the success of any therapeutic relationship.

Definitions

Engagement - For purposes of this policy, the establishment of a trusting relationship, rapport and therapeutic alliance based on personal attributes, including empathy, respect, genuineness, and warmth.

Outreach activities - For purposes of this policy, activities designed to inform individuals of behavioral health services availability and to engage or refer those individuals who may need services.

Reengagement - For purposes of this policy, activities by providers designed to encourage the individual to continue participating in services.

Policy

The Division will incorporate the following critical activities regarding service delivery within the AHCCCS System of Care:

A. Establish expectations for the engagement of members seeking or receiving behavioral health services,

B. Determine procedures to reengage members who have withdrawn from participation in the behavioral health treatment process,

C. Describe conditions necessary to end reengagement activities for members who have withdrawn from participation in the treatment process, and

D. Determine procedures to minimize barriers for serving members who are attempting to reengage with behavioral health services.

Community Outreach

The Division provides and participates in community outreach activities to inform members of the benefits and availability of behavioral health services and how to access them. Outreach activities conducted by the Division may include the following:

A. Participation in local health fairs or health promotion activities;

B. Involvement with local schools;

C. Involvement with outreach activities for military veterans, such as Arizona Veterans Stand Down Coalition events;

D. Development of outreach programs and activities for first responders (i.e. police, fire, EMT);

E. Regular contact with AHCCCS contractor behavioral health coordinators and primary care providers, especially the Division's Administrative Services Subcontractors;

F. Development of outreach programs to members experiencing homelessness;

G. Development of outreach programs to persons who are at risk, identified as a group with high incidence or prevalence of behavioral health issues, or underserved;

H. Publication and distribution of informational materials;

I. Liaison activities with local, county, and tribal jails, prisons, county detention facilities, and local and county Department of Child Safety (DCS) offices and programs;

J. Regular interaction with agencies that have contact with substance abusing pregnant women/teenagers;

K. Development and implementation of outreach programs to identify members with co-morbid medical and behavioral health disorders and those who have been determined to have Serious Mental Illness (SMI) within the contractor's geographic service area; including persons who reside in jails, homeless shelters, county detention facilities or other settings;

L. Provision of information to behavioral health advocacy organizations; and

M. Development and coordination of outreach programs to Native American tribes in Arizona to provide services for tribal members.

Behavioral health providers shall participate in engagement, reengagement, and follow-up processes as described in this policy.

Engagement

The Support Coordinator and/or Case Manager of the TRBHA, IHS, Tribally Operated 638, or Urban Native Health Facility must ensure active engagement by providers in the treatment planning process with the following:

A. The member and/or member's legal guardian;

B. The member's family or significant others, if applicable and amenable to the person;

C. Other agencies or providers, as applicable; and

D. For persons with a SMI who are receiving Special Assistance (see AMPM Policy 320-R), the person (guardian, family member, advocate or other) designated to provide Special Assistance.

Reengagement

The Support Coordinator takes the lead in the coordination with the TRBHA, IHS, Tribally Operated 638, or Urban Native Health Facilities to ensure reengagement attempts are made with members who have withdrawn from participation in the treatment process prior to the successful completion of treatment, refused services, or failed to appear for a scheduled service based on a clinical assessment of need. Provider Case Managers are available to assist Support Coordinators with reengaging members as deemed beneficial to their care. All attempts to reengage members must be documented in the member's file.

A. The behavioral health provider shall attempt to reengage the member by:

1. Communicating in the member's preferred language.

2. Contacting the member/guardian/designated representative by telephone at times when the member may reasonably be expected to be available (e.g. after work or school).

3. When possible, contacting the member/guardian/designated representative face-to-face if telephone contact is insufficient to locate the member or determine acuity and risk.

4. Sending a letter to the current or most recent address requesting contact if all attempts at personal contact are unsuccessful, except when a letter is contraindicated due to safety concerns (e.g. domestic violence) or confidentiality issues. The provider will note safety or confidentiality concerns in the progress notes section of the clinical record and include a copy of the letter sent in the comprehensive clinical record.

5. Contacting the person designated to provide Special Assistance for his/her involvement in reengagement efforts for members determined to have a SMI who are receiving Special Assistance (see AMPM Policy 320-R).

B. If attempts to engage the member are unsuccessful, the Support Coordinator must ensure further attempts are made to reengage the member. Further attempts must include at a minimum, contacting the member or member's responsible person face to-face and contacting natural supports for whom the member has given permission to contact. All attempts to reengage members must be clearly documented in the member's case file.

C. If face-to-face contact with the member is successful and the member appears to be a danger to self, danger to others, persistently and acutely disabled, or gravely

disabled, the Support Coordinator must determine whether it is appropriate to engage the person to seek inpatient care voluntarily. If the member declines voluntary admission, the Support Coordinator must initiate the pre-petition screening or petition for treatment process described in AMPM Policy 320-U.

Follow-up After Significant and/or Critical Events

Discharge planning must begin upon notification that the member has been hospitalized. The Support Coordinator must ensure activities are documented in the member's case file and follow-up activities are conducted to maintain engagement within the following timeframes.

District nurses are available to assist Support Coordinators as considered beneficial to optimally meeting the needs of the individual member during their care transition:

A. Discharged from inpatient services, in accordance with the discharge plan and within seven days of the member's release to ensure member stabilization, medication adherence, and to avoid re-hospitalization;

B. Involved in a behavioral health crisis within timeframes based upon the member's clinical needs, but no later than seven days;

C. Refusing prescribed psychotropic medications within timeframes based upon the member's clinical needs and individual history; and

D. Changes in the level of care.

1200 OVERVIEW

REVISION DATE: 6/10/2016, 7/3/2015
EFFECTIVE DATE: June 30, 1994
REFERENCES: A.R.S. §§ 36, 32-1, 36-2939(B)(1), 36-591(G); A.A.C. R6-6-901 - R6-6-910; C.F.R. §§ 42, and, 42-456.1.

The following section contains information about services available either through the Arizona Long Term Care System (ALTCS) or the State only funded programs administered by the Division. Each eligible member will receive services in accordance with documented needs and availability of State funds.

The Arizona Long Term Care System (ALTCS) provides funding for certain services based upon assessed needs and medical necessity. ALTCS does not provide day care or educational services. Transitional Waiver services include all Home and Community Based Services under ALTCS and supported employment. The Transitional Waiver is a program for members who were eligible for the Arizona Long Term Care System and have improved either medically, functionally or both to the extent that they are no longer at risk of institutionalization at a nursing facility or Intermediate Care Facility for Individuals with an Intellectual Disability (ICF/IID)level of care. The Transitional Waiver does not cover institutional services in excess of 90 days.

Based on assessed need, the Individual Support Plan/Individualized Family Services Plan/Person Centered Plan (Planning Documents) drives what services, types and amounts of support a member may receive. The person with a disability may request the Planning Team to help them identify what their needs are, the best ways to meet those needs and what the primary caregiver(s) is willing and able to do. Often a person's services needs may be met through natural supports (such as relatives, friends, places of worship and local community resources). A contracted service provider may also be used. Though funding for services through ALTCS is not intended to replace what families currently provide, under certain circumstances parents or family members may be paid to provide services that support home and community living.

Although the Individual Support Plan/Individualized Family Services Plan/Person Centered Plan planning documents processes identifies needed services, members who are eligible for ALTCS shall receive information regarding their right to receive services as authorized.

Members who are eligible for ALTCS shall also receive information regarding the appropriate Division staff to contact if services are not provided as scheduled. The Support Coordinator must assess with the member their needs, the risk to the member if a gap in services were to occur and develop a contingency plan in the event of a services gap. These needs and risk factors are determined at the time of the initial and quarterly (90 day review) assessments. The Support Coordinator shall also explain the guidelines regarding the Divisions process (including a time estimate) for providing services when there is a service gap. The Division tracks and trends these gaps in services per the Arizona Health Care Cost Containment Systems (AHCCCS) contract requirements. The Division also submits a semi-annual report and other necessary reports to the AHCCCS summarizing trends, services gaps, and related grievances.

Primary care givers are not required to be in the home during the delivery of services unless one of the following situations exists:

A. The primary care giver provides "skilled care" and the service being provided is non-skilled care. In this case, the primary care giver would need to perform any "skilled care" that the provider is not certified/licensed to do.

B. The intent of the service as documented on the Individual Support Plan/Individualized Family Service Plan/Person Centered Plan (Planning Documents) is to facilitate the primary care giver's ability to work with the member. As an example, the service is intended to directly train the family in learning how to respond to behavior problems.

Each person must be evaluated on a member basis to determine medical necessity as well as the cost effective level of care that will achieve the desired results. Only nurses or respiratory therapists can provide skilled care. For example, skilled care includes Jejunum tube insertion, catheter replacement, respiratory treatment such as small volume nebulizers suctioning, tracheostomy care.

Guidelines for services and evaluation criteria are found in the Service Approval Matrix (Prior Authorization). This information is available on the Division's website. https:/www.azdes.gov/main.aspx?menu=96&id=2470

The source information regarding each service is found in one of the following documents:

A. Chapter 42 Code of Federal Regulations. www.gpo.gov;

B. AHCCCS Medical Policy Manual. www.azahcccs.gov;

C. A.R.S. §36. www.azleg.gov/ArizonaRevisedStatutes.asp; or,

D. The Division Service Specifications.

1210 INSTITUTIONAL SERVICES AND SETTINGS

REVISION DATE: 8/15/2017, 7/15/2016, 5/13/2016, 2/12/2016, 7/3/2015, 9/15/2014
EFFECTIVE DATE: June 30, 1994
REFERENCES: A.R.S. §§ 36-2939(A)(1), (B)(1), 36-591(G); A.A.C. R9-10-101, 42 CFR 409.31-35, 438.6(e), 440.40, 440.155, 456.1, 456.436, 483.75, 483.100-138, 483.400, 483.440; Division Medical Policy Manual, Policy 680-C Pre-Admission Screening and Resident Review; Division Operations Policy Manual, Policy 2001 Planning Team Members

The Division of Developmental Disabilities (Division) covers medically necessary institutional services provided in an Arizona Health Care Cost Containment System (AHCCCS) registered long term care facility for members who are eligible for the Arizona Long Term Care System (ALTCS).

Institutional settings also include Behavioral Health Inpatient facilities, Institutions for Mental Disease (IMD), and Inpatient Behavioral Health Residential Treatment Facilities. ALTCS Contractors are responsible for ensuring that providers delivering institutional services to members must meet the requirements as specified in this Manual. The Division uses an acuity tool to determine the level of institutional placement prior to placement.

Members who are eligible for the ALTCS transitional program are not eligible for Nursing Facility (NF) services or Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) services exceeding 90 continuous days per admission.

Nursing Facility

Service Description and Goals (Nursing Facility)

This service provides skilled nursing care, residential care, and supervision to persons who need nursing services on a 24-hour basis, but who do not require hospital care or direct daily care from a physician.

The goal of this service is to provide care that meets and enhances the medical, physical, and emotional needs of members residing in Nursing Facilities (NF).

Service Settings (Nursing Facility)

NFs must be Medicare and Medicaid certified and licensed by the Arizona Department of Health Services in accordance with 42 CFR 440.155 and 42 CFR 483.75 to provide inpatient room, board, and nursing services to members who require these services on a continuous basis. For the purposes of reimbursement by ALTCS funding, the facility must be Medicare/ Medicaid certified.

Service/Provider Requirements (Nursing Facility)

The provider must demonstrate the following before the service is authorized:

A. The NF must be licensed and certified by the appropriate Arizona state agencies.

B. The NF must comply with all applicable federal and state laws relating to professional conditions, standards, and NF requirements, including the conditions set forth in the 42 CFR 483 *et seq*.

C. The NF must also comply with all health, safety, and physical plant requirements established by federal and state laws.

D. The portion of the facility in which the member will be placed must be registered with AHCCCS.

Admission Criteria (Nursing Facility)

A. The NF service may be considered appropriate for a member if the member is in need of skilled nursing care on a 24-hour basis but does not require hospital care or direct daily care from a physician and is ordered by, and provided under, the direction of a physician, pursuant to 42 CFR 440.40.

B. Pursuant to 42 CFR 409.31-35 and 440.155, the member requires:

1. The skills of technical or professional personnel such as registered nurses, licensed practical nurses, or therapists

2. Daily skilled services that can only be provided in an NF, on an inpatient basis

3. Skilled services because of special medical complications

4. Services that are above the level of room and board.

C. The member must cooperate in a nursing assessment performed by the Division District Utilization Review Nurse prior to NF service being authorized.

D. The Pre-Admission Screening and Resident Review (PASRR) is completed pursuant to 42 CFR 483.100-138 (see Division Medical Policy Manual, Policy 680-C Pre-Admission Screening and Resident Review).

E. Prior to the authorization, the above criteria in this section must be met.

Exclusions (Nursing Facility)

A. The Division will authorize an NF placement only in a licensed and Medicare/Medicaid certified NF.

B. The Division will not pay for placement in an NF without prior authorization pursuant to 42 C.F.R 483.100 *et seq.* (see Division Medical Policy 680-C Pre-Admission Screening and Resident Review).

C. If the Primary Care Provider (PCP) or the Division District Utilization Review Nurse advises that the NF cannot meet the member's needs, the member shall be offered a choice of available alternatives, including less restrictive settings and/or Home and Community Based Services (HCBS), as medically necessary.

D. If the Division places an NF on termination status:

1. No new members will be admitted to the NF.

2. Members currently residing, or on leave from, the NF may remain or return to the facility and will have a special planning meeting scheduled. The planning meeting must identify contracted residential alternatives that are available to the member.

E. The member has exceeded 90 continuous days of acute services and is enrolled in the Transitional Program.

F. The member is in the Transitional Program and requests Long Term Care placement.

Therapeutic Leave and Bed Holds (Nursing Facility)

If the member exceeds allowable Therapeutic Leave and bed hold days, the Division will not pay the facility when the member is absent from the NF.

A. Therapeutic leave includes leave due to a therapeutic home visit to enhance psychosocial interactions, a trial basis, or as a part of discharge planning, and is limited to 9 days per calendar year.

B. A bed hold includes medically necessary short-term hospitalization and is limited to 12 days per calendar year.

Reassessment for Continued Placement (Nursing Facility)

A. Members residing in an NF must be reassessed by the Division for appropriateness (medical necessity) of placement, whenever a significant change in the physical or mental status of the member occurs (see PASARR section of this policy manual).

B. Physicians must order the continued need for NF placement not less than annually in accordance with 42 CFR 483.114.

C. The member must continue to meet the criteria in the Admission Criteria (Nursing Facility) section of this Policy.

Service Closure (Nursing Facility)

As determined by the PASRR, medical documentation, and the current needs of the member, NF services will be terminated when the criteria in the Admission Criteria (Nursing Facility) section of this Policy are no longer met. The discharge shall occur as follows:

A. Ten days prior to anticipated discharge, a Planning Team Meeting must occur to update the current Planning Document to include:

1. The member's health and abilities

2. Current medication

3. Identification of needed Durable Medical Equipment (DME)

4. An updated Service Plan

5. A completed Cost Effectiveness Study (CES) based on anticipated service needs

6. Needed follow up medical appointments.

B. The Planning Team includes the member and/or responsible person, the Division's Health Care Service (HCS) nurse, the Support Coordinator, and representatives from the NF. The Planning Team may also include a Division network representative, the HCBS provider, the PCP, or other representatives as needed per Division's Operations Manual, Policy 2001 Planning Team Members.

C. In the event the member's previous living arrangement needs to change, the Support Coordinator makes a request for residential services by completing a Placement Profile and submitting it to the Division's District Network Unit.

D. The member or responsible person, the PCP, attending Physician, and the Division's Medical Director shall resolve disagreements regarding discharge planning.

E. The Division's Chief Medical Officer has the final authority as delegated by the Assistant Director.

Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID)

Service Description (ICF/IID)

ICF/IID provides comprehensive and individualized health care, and habilitative and rehabilitative services, to members to promote functional status and independence for members who need, and are receiving, active treatment services that help the member obtain as much independence as possible.

Service Settings (ICF/IID)

An ICF/IID shall include the Arizona Training Program facilities, a state-owned and operated service center, state-owned or operated community residential settings, and private state-certified facilities that contract with the Department.

Service Provider/Facility Requirements (ICF/IID)

The provider must be state operated or contracted with the Division and demonstrate the following before the service is authorized:

A. The ICF/IID is registered with the Arizona Health Care Cost Containment System (AHCCCS).

B. The ICF/IID must be reviewed and certified annually by the Department of Health Services in accordance with 42 CFR 483.400.

C. The ICF/IID must comply with contract, all applicable federal and state laws, and DES and Division policies and procedures.

Admission Criteria (ICF/IID)

A. The ICF/IID service may be considered appropriate for a member who is in need of, or could benefit from, active treatment.

1. Active treatment includes continuous, aggressive, consistent implementation of a program of specialized and generic training, treatment, health services, and related services that are directed toward:

a. The acquisition of the behaviors necessary for the member to function with as much self-determination as possible and the ability to live in a more independent setting

b. The prevention or deceleration of regression or loss of current optimal functional status.

2. Active treatment is provided continuously based on an individual member's assessed developmental needs that prevent the member from living in a more independent setting.

3. A continuous active treatment program includes interaction, between ICF/IID staff and the member, in which the member receives aggressive and consistent training, treatments, and supports during the normal rhythm of the member's day, whenever the need arises or an opportunity presents itself, in both formal and informal settings.

4. Examples of active treatment may include:

a. The application of a specific stimulation technique, to the area of the mouth of an individual with severe physical and medical disabilities, that decelerates the individual's rate of reliance on tube feedings, and helps the individual retain ability to take food by mouth

b. Teaching the member to use an adaptive spoon and plate to eat independently

c. Acquisitions of behaviors for the member to function with as much self-determination and independence as possible

d. Teaching daily living skills.

5. Examples of what active treatment does not include:

a. Services to maintain generally independent members who are able to function with little supervision or in the absence of an active treatment program

b. Protective oversight for a member who is not in need of training for developmental deficits (e.g., a court placement to protect the community or the client from the client's behavior)

Programs to simply maintain a member's independence are not considered active treatment because the member is not learning to live in a more independent setting. If a member already possesses the skills that enables them to live in a less restrictive environment, and does not require the structure, support, resources, and services that only an ICF/IID can provide, the member is considered generally independent and not in need of active treatment.

B. Prior to any permanent or temporary admission, the Division will complete a preliminary evaluation. The preliminary evaluation will consider background information as well as currently valid assessments of functional development, behavioral, social, health, and nutritional status and assessed needs that are prohibiting the member from living in a more independent setting and which require intensive specialized supports, services, and supervision that only an ICF/IID can provide.

The Division will review all necessary medical or other documentation to support the need for admission into an ICF/IID. This information may include the Planning Document, Placement Profile and, if the member receives nursing or therapies, the Nursing Assessment and Therapy evaluations/reports. If any additional information (e.g., medical records) is required, the Division's HCS will contact the Support Coordinator.

C. The Division will determine whether there are alternative placements that are less restrictive and more cost effective than the requested ICF/IID placement. The alternative options shall be discussed with the member and/or their responsible person before a final decision is made by the Division.

D. A Cost Effectiveness Study must be completed prior to admission.

E. A written ICF/IID placement approval from the Assistant Director or the Assistant Director's Designee is required prior to authorization.

<u>Development and Implementation of the Active Treatment Plan (ICF/IID)</u>

A. Pursuant to 42 CFR 483.440, within 30 days after admission:

1. A comprehensive functional assessment of the member is completed.

2. As a result of the comprehensive functional assessment, specific objectives necessary to meet the member's needs will be identified.

3. A written active treatment program specific to the member will be designed and implemented.

B. Data documentation of the specific objectives must be in measurable terms.

C. The initial active treatment plan must be reviewed by a Qualified Intellectual Disability Professional/Support Coordinator, the Planning Team, and revised as necessary.

D. During the annual planning meeting the comprehensive functional assessment shall be reviewed for relevancy and updated as needed.

Exclusions (ICF/IID)

ICF/IID placements shall not be made when any of the following are true:

A. The member's needs can be met in a less restrictive and more cost-effective HCBS option.

B. The member does not need active treatment in an ICF/IID.

C. The member has exceeded 90 continuous days of acute services and is enrolled in the Transitional Program.

D. The member is in the Transitional Program and requests Long Term Care placement.

Therapeutic Leave and Bed Holds (ICF/IID)

If the member exceeds allowable Therapeutic Leave and bed hold days, the Division will not pay the facility when the member is absent from the ICF/IID.

A. Therapeutic Leave includes leave due to a therapeutic home visit to enhance psychosocial interactions or on a trial basis or as a part of discharge planning and is limited to 9 days per calendar year.

B. A bed hold includes when short-term hospitalization is medically necessary and is limited to 12 days per calendar year.

Continued Stay Reviews (ICF/IID)

A. The Division completes "Continued Stay Reviews" pursuant to 42 CFR 456.436 and "Active Treatment Reviews."

B. The "Continued Stay Reviews" and "Active Treatment Reviews" will be completed at least every six months, and the following will be considered:

1. The member no longer needs, and will not benefit from, continued active treatment in an ICF/IID.

2. The member requires protective oversight only.

3. The member is able to function with little supervision in the absence of an active treatment program.

4. A less restrictive and more cost effective level of service or living situation would meet the needs of the member as determined by the Planning Team.

Service Closure (ICF/IID)

ICF/IID services may be terminated:

A. As determined by the Continued Stay Review

B. As necessary for the member's welfare and when the needs of the member cannot be met in the ICF/IID

C. When the member has met their outcomes and no longer needs the services provided by the ICF/IID

D. At the request of the member/responsible person

E. When the member is no longer eligible for ALTCS

F. When the criteria in the Admission Criteria (ICF/IID) section in this Policy are no longer met

G. When the ICF/IID is no longer operating and a less restrictive or more cost effective level of service or living situation can meet the needs of the member.

The discharge shall occur as follows:

A. Ten days prior to anticipated discharge, a team meeting must occur to update the member's current Planning Document to include:

   1. The member's health and abilities

   2. Current medication

   3. Identification of needed Durable Medical Equipment (DME)

   4. An updated Service Plan

   5. A completed Cost Effectiveness Study based on anticipated service needs

   6. Needed follow up medical appointments.

B. The Planning Team shall include the member or responsible person, the Division's HCS nurse, the Support Coordinator, and representatives from the ICF/IID. The team may also include a Division network representative, the HCBS provider, the PCP, or other representatives as needed per Division's Operations Manual, Policy 2001 Planning Team Members.

C. In the event the member's living arrangement needs to change from what it was previously, the Support Coordinator makes the request for residential services by completing a Placement Profile and submitting it to the Division's District Network Unit.

D. The member or responsible person, the PCP, attending Physician and the Division's Chief Medical Officer shall resolve disagreements regarding discharge planning and service closure.

E. The Division's Chief Medical Director shall have the final authority as delegated by the Assistant Director.

Behavioral Health

Institutional settings also include Behavioral Health Inpatient facilities, Institutions for Mental Disease (IMD), and Inpatient Behavioral Health Residential Treatment Facilities.

Behavioral Health Inpatient Facility

A Behavioral Health Inpatient Facility is a behavioral health service facility licensed by ADHS, as defined in A.A.C. R9-10-101, to provide a structured treatment setting with 24-hour supervision, on-site medical services, and an intensive behavioral health treatment program. These facilities are the highest level of inpatient behavioral health services. Some Behavioral Health Inpatient Facilities are IMDs.

Institution for Mental Disease (IMD)

Services provided to members eligible for Title XIX (including members who receive behavioral health services through an Integrated/Tribal/Regional Behavioral Health Authority (IRBHA, RBHA, TRBHA) may be reimbursed in any behavioral health setting, regardless of age, as per AHCCCS Medical Policy Manual, Policy 1210.

An IMD is a Medicare-certified hospital, special hospital for psychiatric care, behavioral health facility, or nursing care institution which has more than 16 treatment beds and provides diagnosis, care, and specialized treatment services for mental illness or substance abuse for more than 50% of the members is considered an IMD. ADHS Office of Behavioral Health Licensure-licensed Inpatient facilities with more than 16 beds are considered IMDs.

Inpatient Psychiatric Residential Treatment Center (available to Title XIX members under 21 years of age)

An Inpatient Psychiatric Residential Treatment Center is a behavioral health service facility licensed by ADHS. Services must be provided under the direction of a physician and include active treatment implemented as a result of the service plan developed. The service plan must include an integrated program of therapies, activities, and experiences designed to meet the treatment objectives for the member. A member who turns age 21 and is Tribal ALTCS Title XIX while receiving services in an inpatient psychiatric facility considered to be an IMD may continue to receive services until the point in time in which services are no longer required or the member turns age 22, whichever comes first.

In addition, the following services must be available to members residing in a behavioral health institutional setting, but are not included in the service unit:

A. Speech, physical, and occupational therapies unless required as a part of the per diem for the service unit

B. Medical/acute care services as specified in this Policy Manual.

1230-A ASSISTED LIVING FACILITIES

REVISION DATES: 10/28/2020, 7/15/16, 7/3/15
EFFECTIVE DATE: June 30, 1994

PURPOSE

This policy establishes requirements for Assisted Living Facilities designed for ALTCS members who are physically or functionally unable to live in their own home, but do not need the care intensity of a nursing facility.

DEFINITIONS

Alternative Home and Community Based Services (HCBS) Setting means a living arrangement where a member may receive HCBS. The setting shall be approved by the director, and either 1) Licensed or certified by a regulatory agency of the state, or 2) Operated by the Indian Health Services (IHS), an Indian tribe or tribal organization, or an urban Indian organization, and has met all applicable standards for state licensure, regardless of whether it has actually obtained the license. The possible types of settings include:

- Community residential settings
- Group Homes
- State-operated Group Homes
- Developmental Homes
- Behavioral Health Therapeutic Homes
- Behavioral Health Respite Homes
- Substance Abuse Transitional Facilities

Assisted Living Center (ALC) means an assisted living facility that provides resident rooms or residential units to eleven or more residents. Assisted Living Centers may be licensed to provide one of three levels of care listed below, as defined by the Arizona Department of Health Services:

> **Supervisory Care Services** means general supervision, including daily awareness of resident functioning and continuing needs, the ability to intervene in a crisis, and assistance in the self-administration of prescribed medications.
>
> **Direct Care Services** means programs and services, including personal care services provided to persons who are incapable of recognizing danger, summoning assistance, expressing need, or making basic care decisions.
>
> **Personal Care Services** means assistance with activities of daily living that can be performed by persons without professional skills or professional training and includes the coordination or provision of intermittent nursing services and the administration of medication and treatments by a nurse who is licensed pursuant to Arizona Revised Statutes Title 32, Chapter 15, or as otherwise provided by law.
>
> **Assisted Living Home (ALH)** means a facility that provides resident rooms and services to ten or fewer residents.

Assisted Living Facility (ALF) means a residential care institution that provides supervisory care service, personal care services or direct care services on a continuing basis. All approved residential settings in this category are required to meet ADHS licensing criteria as defined in A.A.C R9-10 Article 8.

POLICY

A. CONSIDERATIONS

To ensure the appropriateness of a placement in a facility, the following shall be considered and documented:

1. Member is over the age of 60; however, the team can recommend exceptions for approval by the Assistant Director;

2. A nursing home is the only other alternative available or the team feels a facility best meets the needs, desires, and capabilities of the member;

3. Alternate placements were considered and the reason why they were not appropriate is documented. Facility placement cannot be the only placement option considered and cannot be used as an "emergency" placement alternative;

4. Member/responsible person clearly understands the alternative placement options;

5. Member/responsible person, and the Support Coordinator have visited the proposed facility;

6. Member will be placed with a similar age group as the other members living in the facility and not be segregated based on disability;

7. The supports identified in the Planning Document can be provided by the Center;

8. The member shall be given the choice to live with or without a roommate. The Support Coordinator will document this choice on the Assisted Living Facility/Single Occupancy Form. This form shall be filed with the Planning Document and be reviewed annually. At any time, the member may contact his/her Support Coordinator to revise the choice to live with or without a roommate. When this occurs the Support Coordinator shall update the form;

9. The Support Coordinator and others can monitor the facility at any time. Monitoring by the Support Coordinator, through on-site visits, will be conducted at least every 30 days for the first quarter and every 90 days thereafter; and

10. The District Program Manager/designee reviewed the required documentation and concurs the considerations have been met prior to the authorization of services.

B. CONDITIONS

When identifying potential facilities, the following conditions are recommended:

1. Private room (unless the member chooses to have a roommate as noted above),
2. Room includes a private in-room bathroom (unless the member chooses to have a roommate as noted above),
3. Space allows for separation of sleeping and living areas,
4. An inside door lock,
5. Food preparation space,
6. Doorbell or door knocker,
7. Individual mailbox,
8. Variety of on-site and off-site events from which to choose,
9. Transportation,
10. Indoor and outdoor common areas,
11. Weekly housekeeping service,
12. Weekly laundry service, and
13. Monthly newsletter or calendar of events.

C. EXCLUSIONS

1. Under no circumstance will a facility be used for Respite.
2. Although Assisted Living Facilities are required to provide room and board, room and board is not a Division-covered service for these facilities. The room and board amount shall be the responsibility of the member/ representative payee.

1230-C COMMUNITY RESIDENTIAL SETTINGS AND ROOM AND BOARD

REVISION DATE: 4/21/2023, 7/3/2015, 9/15/2014

EFFECTIVE DATE: June 30, 1994

PURPOSE

This policy establishes an overview of Community Residential Settings and Room and Board. This policy applies to ALTCS members.

DEFINITIONS

1. “Adult Developmental Home (ADH)” means the same as in A.R.S. § 36-551.
2. “Child Developmental Certified Home" means the same as in A.R.S. § 36-551.
3 "Child developmental home" means the same as in A.R.S. § 36-551.
4 “Community Residential Setting” means the same as in A.R.S. § 36-551.
5 “Group Homes” means the same as in A.R.S. § 36-551.
6 “Home and Community-Based Services Final Rule” means the final rule issued by the Center for Medicare and Medicaid

Services that ensures people receiving HCBS have full access to the benefits of community living and are able to receive services Community Developmental Disability Services are subject to this rule. The rule is also known as the HCBS Settings Rule.

7. “Member” means an individual who is receiving services from the Division of Developmental Disabilities (Division).
8. "Nursing-supported group home" means the same as in A.R.S. § 36-401.
9. “Room and Board” means a service that provides for the basic necessities that Members living in Community Residential Settings need to have in place to benefit from Community Residential Settings services, including a safe and accessible living environment, food, and utilities.
10. “Service Provider” means the same as in A.R.S. § 36-551.

POLICY

A. COMMUNITY RESIDENTIAL SETTINGS

1. The Division shall contract with service providers for Community Residential Settings to provide a safe, homelike family

atmosphere that meets the physical and emotional needs of DDD members.

2. The Division shall operate Community Residential Settings as outlined in A.R.S. § 36-558.
3. The Division shall cover Community Residential Settings when medically necessary and cost effective.
4. The Division assesses for and authorizes members for Community Residential Settings.
5. The Division shall ensure that Members who live in a Community Residential Settings have habilitation outcomes in their service plan to improve or learn new skills.
6. The Division shall cover physical health and behavioral health services by other providers when those services are not included in the scope of services provided by the Community Residential Setting.

B. ADULT AND CHILD DEVELOPMENTAL HOMES AND CHILD DEVELOPMENTAL CERTIFIED HOMES

1. The Division shall contract with service providers to develop and provide oversight to Adult and Child Developmental Homes.

2. The Division shall license providers of developmental home services for each Adult and Child Developmental Home.
3. The Division shall contract with Service Providers to develop and provide oversight to Child Developmental Certified Homes that are licensed by the Department of Child Safety and certified by the Department of Economic Security, Office of Licensing Regulation and Certification for up to three members.
4. The Division shall assess for Adult and Child Developmental Homes or Adult and Child Developmental Certified Homes when a member needs a licensed residential setting where:
    a. The provider(s) and other family members live in the home.
    b. Members need some help with daily care needs and learning, but do not need much support during sleeping hours.
    c. Transportation to day programs, work activities, and events outside the home is provided.

C. GROUP HOMES, NURSING SUPPORTED GROUP HOMES, AND ENHANCED BEHAVIORAL GROUP HOMES

1. The Division shall contract with service providers to develop and operate Group Homes, Nursing Supported Group Homes, and Enhanced Behavioral Group Homes.
2. The Division shall ensure the Group Homes, Nursing Supported Group Homes, and Enhanced Behavioral Group Homes are licensed by the Arizona Department of Health Services.
3. The Division shall assess for Group Homes, Nursing Supported Group Homes, and Enhanced Behavioral Group Homes when a member needs a licensed residential setting where:
    a. Staff rotate shifts 24-hours a day to meet a member's needs and help them learn skills.
    b. Members need more assistance with independent skills, including cleaning, hygiene, self-help, and behavioral support.
    c. Transportation to day programs, work activities, and events outside the home is provided.
4. The Division may assess for a Nursing Supported Group Home when a Member requires skilled nursing services as assessed by the Division's Healthcare Services staff.

5. The Division may assess for an Enhanced Behavioral Group Home when a Member requires time-limited intensive behavioral support as assessed by the Division's Healthcare Services staff.

D. ROOM AND BOARD

1. The Division shall assess and pay for the Community Residential Setting based on the Contracted Rate for the residential services using state funds.
2. The Division shall determine Member's responsibility for Room and Board, and bill the Member for their share of the cost per DDD Residency Agreement.
3. Support Coordinator shall complete the DDD Residency Agreement prior to a Member moving into a Community Residential Setting.
4. The Division shall ensure that providers comply with HCBS Settings rules requirements outlined in the Provider Manual Chapter 2.

Signature of Chief Medical Officer: Anthony Dekker (Apr 17, 2023 12:07 PDT)

1240-A ATTENDANT CARE AND HOMEMAKER (DIRECT CARE SERVICES)

REVISION DATE: 2/26/2016, 7/3/2015, 9/15/2014
EFFECTIVE DATE: June 30, 1994

Attendant Care

Description

This service provides assistance for a member to remain in their home and participate in community activities by attaining or maintaining personal cleanliness, activities of daily living, and safe and sanitary living conditions.

Barring exclusions noted in this section, Attendant Care (ATC) may include the following as determined by the member's assessed needs:

A. Meal preparation and clean up (e.g., meal planning, preparing foods, special diets, clean-up, and storing foods);

B. Eating and assistance with eating;

C. Bathing (e.g., washing, drying, transferring, adjusting water, and setting up equipment);

D. Dressing and grooming (e.g., selecting clothes, taking off and putting on clothes, fastening braces and splints, oral hygiene, nail care, shaving, and hairstyling);

E. Toileting (e.g., reminders, taking off and putting on clothes and/or undergarments, cleaning of catheter or ostomy bag);

F. Mobility (e.g., physical guidance or assisting with the use of wheelchair);

G. Transferring;

H. Cleaning;

I. Laundry (e.g., putting clothes in washer or dryer, folding clothes, putting away clothes);

J. Shopping (e.g., grocery shopping and picking up medications);

K. Attending to certified service animal needs; and,

L. General supervision for a member who cannot be safely left alone. (See Appendix A, B and C.)

Responsible Person's Participation (Attendant Care)

The member/family is responsible to provide:

A. Needed supplies (e.g., cleaning supplies) or money for supplies. Money must be provided in advance when the Attendant Care provider is expected to shop for food, household supplies, or medications; and,

B. Documentation required for the approval of this service.

Considerations (Attendant Care)

When assessing the need for this service, the following factors will be considered:

A. Due to advancing age, a temporary or permanent documented physical or cognitive/intellectual disability or documentation of other limitation, the parent or guardian cannot meet a child's basic care needs;

B. Due to the child's intensive medical, physical, or behavioral challenges, which are a result of the disability, the parent or guardian cannot meet the child's care needs;

C. The child, due to a medical condition or procedure related to the disability, is unable to attend their school/work/day program, and natural support(s) is/are unavailable to provide care;

D. The adult member is unable to meet specific, basic personal care needs;

E. The adult member lives alone and is temporarily unable to meet basic personal care needs due to a medical condition or illness;

F. The members' needs are not currently met due to unavailability of service. Attendant Care may be used as an alternative service;

G. The member has medical or physical needs, was living in a Developmental Home, Group Home, Intermediate Care Facility, Nursing Facility, or other out of home placement, and with Attendant Care, the member will be able to return home;

H. When a spouse provides Attendant Care, the total hours of Attendant Care may not exceed 40, regardless of who provides the care. In addition, the member may not receive any similar or like service (i.e., Homemaker). (Habilitation services are not a similar or like service.);

I. Attendant Care services are subject to monitoring and supervision as outlined in Arizona Health Care Cost Containment System (AHCCCS) policy; and,

J. When a family member requests to become the Attendant Care Provider for a member over the age of 18, the Support Coordinator/designee will conduct a personal interview with the member.

Settings (Attendant Care)

Attendant Care Services may only be provided:

A. In the member's home (unlicensed);

B. In an Independent Developmental Home when there is a specific issue, problem, or concern that is believed to be temporary or short term, and the service is approved by the Assistant Director/designee; and,

C. In the community:

1. While accompanying the member; or,

2. While shopping or picking up medications.

Exclusions (Attendant Care)

Exclusions to the authorization of Attendant Care service are indicated below. Exceptions shall be approved by the District Manager.

A. The Attendant Care Service:

1. Shall not substitute for private pay day care or a school program for children;

2. Shall not cover before and after school care needs, days when there is no school, half school days, holidays, or summer and winter breaks, or for 'babysitting' unless a child meets the criteria for supervision;

3. Shall not be provided for acute illnesses that prevent the child from attending private daycare or school;

4. Shall not be provided while the member is hospitalized;

5. Shall not substitute for Work, Day Program, Transportation, or Habilitation, unless those services are not available to the member;

a. When used as a substitute, Attendant Care shall be used only until an appropriate service is available; or,

b. When the appropriate service has been refused, Attendant Care cannot be used as a substitute.

6. Shall not substitute for Respite;

7. Shall not be received during the provision of a Division funded Employment or Day Program;

8. Shall not be used to avoid residential licensing requirements; and,

9. Shall not be used to take the place of care provided by the natural support system for children.

B. The tasks below are not included as part of the Attendant Care Service:

1. Cleaning up after parties (e.g., family celebrations and holidays);

2. Cleaning up several days of accumulated dishes;

3. Preparing meals for family members;

4. Routine lawn care;

5. Extensive carpet cleaning;

6. Caring for household pets;

7. Cleaning areas of the home not used by the member (e.g., parents' bedroom or sibling's bathroom);

8. Skilled medical tasks. (See Appendix D – Skilled Nursing Matrix.); and,

9. Shopping for a child living in the family home.

The Division will not authorize Attendant Care when the only tasks identified are cleaning, shopping and laundry.

Homemaker (Housekeeping)

Service Description and Goals (Homemaker)

This service provides assistance in the performance of activities related to routine household maintenance at a member's residence. The goal of this service is to increase or maintain a safe, sanitary, and/or healthy environment for eligible members.

Service Settings (Homemaker)

This service would occur in the member's own home or family's home. It would occur outside only when unsafe/unsanitary conditions exist and would occur in the community when purchasing supplies or medicines.

Service Requirements (Homemaker)

Before Homemaker can be authorized, the following requirements must be met:

A. Safe and sanitary living conditions shall be maintained only for the member's personal space or common areas of the home the member shares/uses.

B. Tasks may include:

1. Dusting;

2. Cleaning floors;

3. Cleaning bathrooms;

4. Cleaning windows (if necessary to attain safe or sanitary living conditions);

5. Cleaning oven and refrigerator (if necessary to prepare food safely);

6. Cleaning kitchen;

7. Washing dishes;

8. Changing linens and making beds; and,

9. Routine maintenance of household appliances.

A. Washing, drying, and folding the member's laundry (ironing only if the member's clothes cannot be worn otherwise).

B. Shopping for and storing household supplies and medicines.

C. Unusual circumstances may require the following tasks be performed:

1. Tasks performed to attain safe living conditions:

a. Heavy cleaning such as washing walls or ceilings; and,

b. Yard work such as cleaning the yard and hauling away debris.

2. Assist the member in obtaining and/or caring for basic material needs for water heating and food by:

a. Hauling water for household use;

b. Gathering and hauling firewood for household heating or cooking including sawing logs and chopping wood into usable sizes; and,

c. Caring for livestock used for consumption including feeding, watering and milking.

3. Provide or ensure nutritional maintenance for the member by planning, shopping, storing, and cooking foods for nutritious meals.

Target Population (Homemaker)

Members who are eligible for or are receiving assistance through the Supplemental Payment Program (SPP) will not receive Housekeeping. Members who are not eligible for Arizona Long Term Care Services (ALTCS) should be referred to the SPP. Needs are assessed by the Support Coordinator based upon what is normally expected to be provided by a member and/or his/her caregiver. It is important to remember that housekeeping services are based on "assessed need" and not on a person's or the family's stated desires regarding specific services.

Consideration should be made to age appropriate expectations of the member and his/her entire family (what can reasonably be expected of each member based on his/her age). The team should consider the natural supports available and not supplant them. In addition

to the guidelines found in this section, there may be a need for the SPP if any of the following are factors:

A. A member is living with his/her family and has intense medical, physical, or behavioral needs; and the family members are unable to care for the member and maintain a safe and sanitary environment;

B. A member is living with his/her family and the family members have their own medical/physical needs that prevent the family members from maintaining a safe and sanitary environment (documentation of the medical/physical needs may be required);

C. A member is living independently and has medical/physical needs that preclude him/her from maintaining/attaining a safe and sanitary environment;

D. A member is living independently and has demonstrated that he/she cannot maintain a safe and sanitary environment. Habilitation should be considered before using Housekeeping so the member's abilities may be maximized; and,

E. The family is experiencing a crisis that prevents them from maintaining a safe and sanitary environment. The situation would be documented in the member's progress notes and the service delivery would be of a time-limited nature.

Exclusions (Homemaker)

The following exclusions apply to the provision of Homemaker:

A. Homemaker is to be performed only for the members' areas of the home or common areas of the home used by the member, e.g., parents' or siblings' bedrooms or bathrooms would not be cleaned. Other examples of inappropriate use of Homemaker services include:

   1. Cleaning up after parties;

   2. Cleaning up several days of accumulated dishes;

   3. Preparing meals for the whole family; and,

   4. Routine lawn care.

B. Homemaker shall not be provided to members residing in group homes, vendor supported developmental homes, skilled nursing facilities, non-state operated Intermediate Care Facilities for Persons with an Intellectual Disability or Level I or Level II Behavioral Health Facilities.

Service Provision Guidelines (Homemaker)

Typical utilization of Homemaker would be two to four hours per week. Additionally:

A. The member or family is expected to provide all necessary supplies;

B. This service shall not be provided when the member is hospitalized or otherwise receiving institutional services. The service may only be provided at the end of hospitalization to allow the member to return to a safe and sanitary environment; and,

C. Members residing in Group Homes, Foster Homes or Adult Developmental Homes shall not receive this service.

Utilization of Homemaker will be in accordance with the Service Authorization Matrix.

Provider Types and Requirements (Homemaker)

Designated District staff will ensure all contractual requirements related to Homemaker providers are met before services can be provided. Additionally, all providers of ALTCS must be certified by the Division and registered with AHCCCS prior to service initiation.

Service Evaluation (Homemaker)

The Individual Support Plan/Individualized Family Service Plan/Person Centered Plan review (Plan Review) shall document appropriateness of this service based upon the Support Coordinator's observation and input from the member, family, and provider.

Service Closure (Homemaker)

This service is no longer appropriate when:

A. The member's medical, physical or behavioral needs have decreased;

B. The physical/medical needs of the family members have decreased;

C. The family is no longer experiencing crisis;

D. The member no longer resides at home, has moved out of state, or when the member is no longer eligible for ALTCS;

E. The member moves to a residential or institutional setting; or,

F. The family has adequate resources or other support to provide the service.

A Notice of Intended Action must be sent in accordance with the processes defined in of this policy manual.

Other Homemaker Services

A. The amount of Homemaker provided shall be determined based on the home requirements for a safe and sanitary environment. If more than one eligible member resides in the home, payment will not be made twice for cleaning common areas of the home.

B. If the family is receiving supplemental payments for other members in the home, the Support Coordinator shall determine if the Supplemental Payment Program (SPP) is meeting the family's needs.

1240-C COMMUNITY TRANSITION SERVICES

REVISION DATE: 3/2/2015
EFFECTIVE DATE: June 30, 1994

Description

The Community Transition Service (CTS) assists members eligible for Arizona Long Term Care System (ALTCS) to reintegrate into the community by providing financial assistance to move from an ALTCS setting to their own home or apartment, excluding licensed community settings.

An ALTCS setting includes one of the following:

A. Behavioral Health Level I facility;

B. Institution for Mental Disease;

C. Inpatient Psychiatric Residential Treatment Center (available to members under 21 years of age eligible for Title XIX.);

D. Nursing Facility, including religious non-medical health care institution; and,

E. Intermediate Care Facility (ICF).

The following items can be purchased using CTS funds:

A. Security deposits required to obtain a lease on an apartment or home (refunded deposits are the property of the Division);

B. Essential furnishings (new or gently used including items such as: bed, bedding, towels, table, chairs, window coverings, eating utensils, food preparation items, small electrical appliances);

C. Moving expenses; and,

D. Set up fees or deposits for utility or service access (e.g., telephone, electricity, gas). (Refunded deposits are the property of the Division.)

Considerations

The following factors will be considered when assessing the need for this service:

A. The member has been living in an ALTCS setting a minimum of 60 consecutive days regardless of ALTCS enrollment;

B. The member is within 30 days of being discharged into the community; and,

C. The LTC setting discharge plan identifies needs and assistance for which the member has no other source or support to move.

1. It is not intended to replace items or supports otherwise provided by the Division or community resources.

2. The members' needs shall be met upon discharge and discharge cannot be delayed in anticipation of receiving services from other sources (e.g., when coordinating with other community sources for the provision of this service).

Exclusions

Community Transition Services are:

A. Not available to members moving from an ALTCS setting to an alternate residential setting such as Assisted Living Facilities, Group, or Developmental Homes;

B. Limited to a one-time authorization (see exception letter C below) of up to $2,000 every five years per member;

1. The $2,000 includes all applicable administration fees.

2. The five year timeframe applies regardless of changes in Managed Care Contractors or the member transfers between fee-for-service and managed care.

C. Available 30 days prior to the planned discharge date and remain available for 90 days from the date of discharge from an ALTCS institutional setting. Exceptions to this timeframe for partially expended funds will be determined on a case-by-case basis.

D. Not dispersed to the member, the member's family, or friends.

1. Funds are paid directly to the vendor identified by the member or family.

2. Receipts for all purchases using CTS funds shall be retained for a minimum of five years.

3. The Support Coordinator will assist the member and family with prioritization of needs and facilitate the purchase of identified goods and services.

The following items cannot be purchased using CTS funds:

A. Cash payments to members or significant others;

B. Rent;

C. Leisure/recreational devices (e.g., television or cable access, internet access, stereo);

D. Aesthetics/decorative items (e.g., picture frames, rugs);

E. Remodeling improvements to any home or apartment; and,

F. Grocery items (e.g., food, personal hygiene, cleaning products).

1240-D EMERGENCY ALERT SYSTEM

REVISION DATE: 10/26/22, 3/2/15
EFFECTIVE DATE: June 30, 1994
REFERENCES: AMPM 1240-D

PURPOSE

This policy establishes requirements for the coordination and provision of emergency alert systems to Members eligible for the Arizona Long Term Care System.

DEFINITIONS

1. "Emergency Alert System" (EAS) means a service that provides monitoring devices/systems for members who are unable to access assistance in an emergency and/or live alone or would be alone for intermittent periods of time without contact with a service provider, family member, or other support systems, putting the member at risk.
2. "Member" means an individual enrolled with the Division.
3. "Planning Team" means a group of people including the Member; the Responsible Person; the Support Coordinator; other State of Arizona Department of Economic Security staff, as necessary;

and any person selected by the Member, Responsible Person, or the Department.

4. "Support Coordinator" means the same as "Case Manager" under A.R.S. § 36-551.

POLICY

A. The Division of Developmental Disabilities (Division), shall cover EAS for Members who meet all of the following criteria:

1. The Member lives alone or is alone for intermittent periods of time without contact with a service provider, family member, or other support system;
2. The Member's community does not have reliable/available emergency assistance on a 24-hour basis;
3. The assessment of the Member's medical and/or functional level documents an acute or chronic medical condition;
4. The Primary Care Provider (PCP) has prescribed the EAS; and
5. The Member has the ability to use and operate the system.

B. The Division shall subcontract the management of EAS to the Administrative Services Subcontractors (AdSS) for Members enrolled in AdSS health plans.

C. The Support Coordinator, when a Member enrolled in a subcontracted health plan requests an EAS or the Planning Team identifies the need for one, shall:

1. Advise the Member to contact their PCP for a prescription.
2. Coordinate the service as per the subcontracted health plan's referral process.
3. Follow the Health Escalation Path if the Member experiences difficulty obtaining an EAS.

D. The Support Coordinator, when a Member enrolled in the Tribal Health Program requests an EAS or the Planning Team identifies the need for one, shall:

1. Advise the Member to contact their PCP for a prescription.
2. Coordinate the service as per the Arizona Health Care Cost Containment System referral process.

E. The Support Coordinator shall document all actions pertaining to the coordination of EAS in the Member's case file.

Signature of Chief Medical Officer: Anthony Dekker (Oct 19, 2022 10:25 PDT)

1240-E HABILITATION SERVICES AND DAY TREATMENT SERVICES

REVISION DATE: 5/31/23, 9/11/2019, 9/15/2017, 7/15/2016, 7/3/2015, 3/2/2015, 9/15/2014
EFFECTIVE DATE: June 30, 1994
REFERENCES: AMPM 1240-E, Division Medical Policy 1240-J

PURPOSE

This policy outlines the requirements for and describes covered hourly and daily Habilitation services and Day Treatment Services for Division Members who are eligible for Arizona Long Term Care Services (ALTCS).

For the purpose of this policy, Daily Habilitation is Habilitation provided in a Member's Own Home or community setting. Daily Habilitation may also be referred to as Supported Living or Independently Designed Living Arrangement (IDLA).

DEFINITIONS

1. "Community Residential Setting" means the same as in A.R.S. § 36-551.

2. "Competitive Integrated Employment" means work that is performed on a full-time or part-time basis for which an

individual is:

a. Compensated at or above minimum wage and comparable to the customary rate paid by the employer to employees without disabilities performing similar duties and with similar training and experience;

b. Receiving the same level of benefits provided to other employees without disabilities in similar positions;

c. At a location where the employee interacts with other individuals without disabilities; and

d. Presented opportunities for advancement similar to other employees without disabilities in similar positions.

3. “Day Treatment” means a service that engages Members in their communities to develop, or enhance skill development, for activities of daily living and employment while meeting their specialized sensorimotor, cognitive, communication, social interaction, and behavioral needs and foster the acquisition of skills explore their communities, to learn about their interests, to engage with others, and to gain skills needed for greater

independence.

4. “Direct Care Worker (DCW)” means An individual who assists an elderly individual or an individual with a disability with activities necessary to allow them to reside in their home. These individuals, also known as Direct Support Professionals, must be employed/contracted by DCW Agencies or, in the case of member-directed options, employed by ALTCS members in order to provide services to ALTCS members.

5. “Habilitation” means the process by which an individual is assisted to acquire and maintain those life skills that enable the individual to cope more effectively with personal and environmental demands and to raise the level of the individual’s physical, mental, and social efficiency as specified in A.R.S. § 36-551 (18).

6. “Home and Community Based Services (HCBS)” means Home and community-based services, as specified in A.R.S. § 36-2931 and A.R.S. § 36-2939.

7. “Member” means a person enrolled with the Division of

Developmental Disabilities.

8. "Own Home" means a residential dwelling that is owned, rented, leased, or occupied by a Member, including a house, a mobile home, an apartment, or other similar shelter. A home is not a facility, a setting, or an institution, or a portion of any of these that is licensed or certified by a regulatory agency of the state as a:

   a. Health care institution under A.R.S. § 36-401.

   b. Residential care institution under A.R.S. § 36-401.

   c. Community residential setting under A.R.S. § 36-551, or

   d. Behavioral health facility under 9 A.A.C. 20, Articles 1, 4, 5, and 6 (A.A.C. R9.101).

9. "Planning Document" means a plan which is developed by the planning team, such as an Individualized Family Service Plan (IFSP) or Person Centered Service Plan (PCSP).

10. "Planning Team" means a group of individuals that shall include the Member, Responsible Person, Support Coordinator, and a

representative from the agency for Member's living in a licensed setting and with the Member's consent, and any individuals important in the Member's life, including but not limited to, extended family members, friends, service providers, community resource providers, representatives from religious/spiritual organizations, and agents from other service systems. The size, scope, and intensity of involvement of the team Members are determined by the objectives of the Planning Team to best meet the needs and individual goals of the Member.

11. "Responsible Person" means the parent or guardian of a minor with a developmental disability, the guardian of an adult with a developmental disability, or an adult with a developmental disability who is a client or an applicant for whom no guardian has been appointed as defined in A.R.S. §36.-551

12. "Support Coordinator" means the same as "Case Manager" under A.R.S. § 36-551.

POLICY

A. HABILITATION SERVICES

1. The Division shall contract with service providers to provide Habilitation services to Division Members.

2. The Division shall cover Habilitation services when medically necessary and cost effective.

3. The Division shall assess for and authorize Habilitation services when a need for Habilitation services has been identified by the Planning Team.

4. The Division shall ensure that Members assessed for Habilitation have Habilitation outcomes, based on the Responsible Person's priorities and goals, identified in the Planning Document to improve or learn new skills.

B. HOURLY AND DAILY HABILITATION

1. The Support Coordinator may assess for Hourly or Daily Habilitation when the Member has outcomes in their Planning Document that require a service to support the Member in:

a. Independence and socialization skills

b. Safety and community skills

c. Member's health and safety.

d. Essential activities required to meet the Member's personal and physical needs

e. Alternative and/or adaptive communication skills

f. Self-help/living skills

g. Developing the Member's support system to reduce the need for paid services.

h. Helping family members learn how to teach the Member a new skill.

i. Developing skills for independent living in their home, including adaptive and self-determination skills, while offering supervision and assistance to assure their health and safety.

j. To socialize with their housemates, their family, their

friends, and community members.

2. The Support Coordinator shall consider the following when assessing for Hourly or Daily Habilitation:

   a. Existing community support systems have been exhausted and no other service is available.

   b. The Member's documented needs cannot be met by the Member's informal support system, employment program, or Day Treatment program.

   c. When the Member requires Habilitation to support their home program strategies for therapy services.

   d. Members want to live as independently as possible and develop or enhance their independence in their home, participation in their community, and relationships with others.

4. The Division shall authorize Habilitation Hourly or Daily Habilitation in the following settings:

   a. The Member's Own Home;

b. A community setting chosen by the Responsible Person;

c. The setting where the expected skills shall be applied;

d. In a Direct Service Provider's (DSP) residence when the residence is also the Member's Own Home.

5. The Division shall not authorize Hourly or Daily Habilitation in the following settings:

a. During the time the Member is attending Day Treatment and Training, or

b. To substitute for Day Treatment and Training services;

c. In a Qualified Vendor owned or leased service site;

d. When the Member is hospitalized;

e. To Members living in a Community Residential Setting, skilled nursing facilities, non-state operated Intermediate Care Facilities, or Level I or Level II behavioral health facilities;

f. Habilitation Hourly and Habilitation Daily shall not be

approved concurrently

g. In schools or while being transported by the school.

g. Substitute for Respite

h. Substitute for daycare

i. Be used in place of regular educational programs as provided under Public Law 108-446 IDEA Part B

j. Be used when another service is more appropriate

k. In a Direct Service Provider's (DSP) residence when the residence is not the Member's Own Home.

B. DAY TREATMENT SERVICES
