

BLACK ON BLACK TALK:

Mental Health and Us

In recognition of mental health awareness month, Help Enrich African American Lives Coalition (HEAAL) has partnered with Health Net Access, Adelante Healthcare and Walgreens, to present "Black on Black Talk: Mental Health and Us". This forum will discuss chronic conditions, stress, anxiety, depression and how it affects our mental health. We'll also discuss how to access and navigate resources and strategies to manage, as well as addressing the stigma of mental illness in the African American community.

May 19th 2016
