

Chapter 58 Medication Management Services

EFFECTIVE DATE: May 13, 2016

The Division allows Primary Care Providers (PCPs) to treat members diagnosed with anxiety, depression and Attention Deficit Hyperactivity Disorder (ADHD). For purposes of medication management, it is not required that the PCP be the member's assigned PCP. PCPs who treat members with these behavioral health conditions may provide medication management services including prescriptions, laboratory and other diagnostic tests necessary for diagnosis, and treatment. The Division provides for these services both in the prospective and prior period coverage timeframes.
