

March
Developmental Disabilities
Awareness Month

The DES Division of Developmental Disabilities' (DDD) Arizona Early Intervention Program (AzEIP) is Arizona's statewide, interagency system of supports and services for infants and toddlers with disabilities and developmental delays, and their families.

Here are a few facts on AzEIP's performance. *

AzEIP Members

10,300 is the number of infants and toddlers receive AzEIP services.

Service Setting

98% of AzEIP families receive services in their home or community.

Timely Services

95% of children received an evaluation, assessment and an initial Individualized Family Service Plan within 45 days.

Family Supports

92-95% of parents with children in the AzEIP program learned how to advocate for their child; fight for their rights; and help their child develop and learn.

After age 3, eligible AzEIP members transition to the DES Division of Developmental Disabilities to continue receiving supports and services.

*Data taken from Federal Fiscal Year 2016.
