Table 4.1 shows that about 55% of consumers that received Support Coordination (Case Management) services from the Division in State Fiscal Year 2004 resided in District I and about 20% resided in District II. In the Districts included in the pilot, District II had the highest participation rate. About 10% of consumers in District II who received Support Coordination (Case Management) services received these services through the pilot.

There are three different types of Support Coordination (Case Management) that are provided to consumers depending on whether they are eligible for ALTCS, AHCCCS, or the Division’s state funded program. The three types of Support Coordination (Case Management) are: 1) Support Coordination (Case Management) to ALTCS consumers and to Division consumers birth to age three regardless of their eligibility for ALTCS or AHCCCS; 2) Targeted Support Coordination (Targeted Case Management) to consumers who are eligible for Medicaid but not ALTCS (i.e., they are eligible for AHCCCS) and are not children birth to age three; and 3) State Funded Support Coordination (State Funded Case Management) to consumers who are not eligible for ALTCS, AHCCCS or Medicaid and are not children birth to age three. This RFQVA covers all three types of Support Coordination (Case Management) services. Table 4.2 shows the breakdown by type of Support Coordination (Case Management) by district for State Fiscal Year 2004.

Table 4.2 shows that across all Districts about 67% of consumers received Support Coordination (Case Management) (in this table Support Coordination does not include children age zero to three who are not eligible for ALTCS; however, all Division consumers age zero to three will receive this service pursuant to the RFQVA), 16% received Targeted Support Coordination (Targeted Case Management), and 17% received State Funded Support Coordination (State Funded Case Management) (which, in this table, includes children zero to three who are not eligible for Medicaid although these children will receive the same type of Support Coordination as consumers eligible for ALTCS). However, the breakdown varies by District. In District I, 72% of consumers received ALTCS Support Coordination (Case Management), 13% received Targeted Support Coordination (Targeted
Case Management), and about 15% received State Funded Support Coordination (State Funded Case Management). In District II, the breakdown was 59% Support Coordination (Case Management), 18% Targeted Support Coordination (Targeted Case Management), and 23% state funded. In District III, the percentages were 66%, 21%, and 13%. For District IV, 72%, 13%, and 15%. For District V, 50%, 29%, and 21%. And for District VI, 59%, 25% Targeted Support Coordination (Targeted Case Management), and 16% state funded.

The Division coordinates services and resources through a central administrative office, District offices and local offices in various communities throughout the state. A comprehensive array of services are provided to consumers based on the person’s identified needs, State and/or Federal guidelines and, when applicable, the availability of funds. While the Division provides a limited number of services directly, the majority of services are provided through contracts with individuals or provider agencies. These contracted services include Support Coordination (Case Management) services, home- and community-based services, institutional services and acute care services. Some of the services, such as acute care services, are available only to certain consumers. (See A.R.S. 36-558 and DES/DDD Policy and Procedure Manual, available on the Division’s website www.de.state.az.us/ddd, for a more detailed description of Division services.) Wherever possible, prior to authorizing services, the Division looks first at services or other forms of assistance that may be provided through existing community resources or family members.

Division services are funded through various means – Title XIX Medicaid (Federal and State matching monies) and State appropriations, with some additional funding available through Title XX and grants. However, Title XIX is the principle source of funds. The Division receives monthly capitation payments from AHCCCSA to deliver acute and long term care services to eligible ALTCS consumers and Targeted Support Coordination (Targeted Case Management) services to Arizona Health Care Cost Containment System (AHCCCS)-eligible consumers. These funds, in turn, are appropriated by the Arizona State Legislature to DES/DDD for expenditure.

Home- and community-based service costs for ALTCS-eligible consumers must not exceed the cost of an Intermediate Care Facility/Mental Retardation (ICF/MR) placement, unless the Division requests and receives approval from AHCCCSA. For total service costs, which exceed 80% of an ICF/MR placement, the Division must conduct a cost effectiveness study; including development of a plan to prospectively reduce the costs over the next six months. (See DES/DDD Policy and Procedures Manual – Chapter 905.)

4.4 Consumer Choice

Building upon its core mission and value statements, the Division has, over the past several years, begun an initiative to move its current program toward a model of self-determination – promoting and increasing consumer and family control over the purchase and selection of services and providers. Recent amendments to A.R.S. §36-557 and the implementation of rules pursuant to A.R.S. §36-557 establish consumer choice of providers in law and rule. Consumer

Unit of Service

1. The basis of payment for this service is one month of service time.

2. In the event that this service is provided for less than one whole month, a monthly unit shall be expressed as a fraction of one, rounded to the nearest 1/100th, according to the actual number of days in that month. For example, if in May the consumer was enrolled with the Qualified Vendor for only 20 days:
   - The unit of service shall be recorded as 1 divided by the number of days in a given month, multiplied by the number of days the consumer was enrolled (= 1 / 31 * 20 = 0.64516 = 0.65)
   - In this example, the rate for May shall equal 0.65 multiplied by the published rate.

3. This service may not be provided to more than one consumer at the same time.

Service Utilization Guidelines

1. Consumers shall have an initial ISP completed within 30 days of determination of eligibility for DDD services.

2. ISPs shall be reviewed every 90 days for a person receiving home based services and every 180 days for a person living in a group home and who is over age 12 and not medically involved.

However, the Qualified Vendor may deliver both direct services and Support Coordination (Case Management) to consumers enrolled in the early intervention program of the Division.

3. Unless the Qualified Vendor receives approval from the Assistant Director for the Division, the Qualified Vendor must wait six months before delivering direct services to a consumer who previously received Support Coordination (Case Management) services from the Qualified Vendor.
4. The Division will work to develop alternatives for accessing ASSISTS, but initially the Qualified Vendor shall access ASSISTS by using a terminal at a local DES office.

4.3.2 J-129 User Affirmation Statement (a copy of which is included in Section 9.F)

Signed hard copies of these forms shall be submitted to the Division’s Contract Management Section at the address provided in Section 1 of this RFQVA.
