AzEIP Team Meetings

Team meetings are an integral part of Team Based Early Intervention Services. During team meetings members have an opportunity to provide coaching to the team lead and family or caregiver in promoting their confidence and competence in supporting child growth and development in the context of everyday activities.

AzEIP Policies and Procedures Chapter 3 states the purpose of team meetings is to 'share information among team members about children and families enrolled in AzEIP, provide coaching opportunities, and ensure that services are provided in accordance with the IFSP.'

Role in Team meetings:

- Prepare for and attend weekly team meetings in person if possible and by phone if necessary.
- Collaborate with team members to ensure children are brought to the agenda if there are questions.
- Collaborate to ensure children are reviewed at least quarterly and families are invited to participate.
- Ensure meeting minutes and quarterly update reports are kept in child’s early intervention record.
- Participate in team meetings by sharing expertise regarding resources, community supports and potential program eligibility.
